DELHI, SATURDAY, APRIL 3, 1915.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART VI.

Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 to 1909 (24 & 25 Vict., c. 67, 55 & 56 Vict., c. 14, & 9 Edw. VII, c. 4).

The Council met at the Council Chamber, Imperial Secretariat, Delhi, on Monday, the 22nd March, 1915.

PRESENT :

His Excellency BARON HARDINGE OF PENSHURST, P.C., G.C.B., G.C.M.G., G.C.V.O., G.M.S.I., G.M.I.E., I.S.O., Viceroy and Governor General, *presiding*, and 58 Members, of whom 50 were Additional Members.

OATH OR AFFIRMATION OF OFFICE.

The following Additional Members made the prescribed oath or affirmation of allegiance to the Crown :—

The Hon'ble Dr. Sundar Lal, Rai Bahadur, C.I.E.
" " Mr. Chimanlal Harilal Setalvad.

STATEMENT LAID ON THE TABLE.

The Hon'ble Sir Robert Carlyle :—" As I promised in speaking on the Hon'ble Pandit Madan Mohan Malaviya's Resolution of 9th March, regarding an increased grant for irrigation, I lay on the Table a statement* showing the provision for Irrigation Major Works in the Budget Estimate for 1915-16.

* *Vide* Appendix, page 335 *post*.

[*Sir Robert Carlyle; Sir Ibrahim Rahimtoola; Sir Ali Imam; Mr. Reid; Mr. Clark; Pandit Bishan Narayan Dar.*] [22ND MARCH, 1915.]

"I include in the table a statement showing the actual expenditure on Major Irrigation Works in India for the last 9 years, and the Revised Estimate figures for 1914-15. The average for 11 years is a little over Rs 227 lakhs per annum as compared with the Irrigation Commission's programme of Rs. 44 crores spread over 20 years, or an average of Rs 220 lakhs per annum".

QUESTIONS AND ANSWERS.

The Hon'ble Sir Ibrahim Rahimtoola asked :—

Practice in regard to legislative measures proposed to be introduced in Provincial Councils.

1. (*a*) "Will the Government be pleased to state what practice prevails at present in regard to legislative measures proposed to be introduced in Provincial Councils by (*i*) the Provincial Governments, and (*ii*) the non-official Additional Members?

(*b*) Will Government be pleased to state whether it is a fact that the Government of India require every Provincial Government to submit for their previous approval and sanction every legislative measure intended to be introduced by them in Provincial Legislative Councils?

(*c*) If the answer to question No (*b*) is in the affirmative, will Government be pleased to state what legal authority there is empowering them to do so?"

The Hon'ble Sir Ali Imam replied :—

"(*a*) The introduction of all Bills in Provincial Legislative Councils is regulated by rules made under the Indian Councils Act, 1861, for the conduct of business at meetings of the Legislative Councils concerned.

(*b*) Before a Bill is introduced in a Provincial Council by a Local Government it is, save in exceptional cases, submitted for approval to the Government of India.

(*c*) The legal authority for this practice is to be found in the various statutes which confer upon the Government of India powers of superintendence and control over Local Governments. It is assumed that the Hon'ble Member does not refer to cases in which under the law the specific sanction of the Governor General is necessary to the introduction of a Bill in a Local Council".

The Hon'ble Mr. Reid asked :—

Punjab Cement Concession.

2. "Will Government be pleased to state how matters stand with regard to what is commonly known as the 'Punjab Cement Concession' and regarding which a question was asked and replied to in this Council on 17th March, 1914?"

The Hon'ble Mr. Clark replied :—

"Certain difficulties have been found in the scheme proposed for the transfer of the concession, which has accordingly not been sanctioned by the Secretary of State. It is understood that the original concessionaires have not yet commenced operation".

The Hon'ble Pandit Bishan Narayan Dar asked :—

Revision of the Regulations governing elections to Imperial and Provincial Legislative Councils.

3. "Will the Government be pleased to state if it is intended to revise the regulations governing elections to this Council and the Provincial Legislative Councils before the next general elections are held?"

[22ND MARCH, 1915.] [*Sir Reginald Craddock; Pandit Bishan Narayan Dar; Mr. Clark; Mr. Barua; Mr. Gillan; Sir Robert Carlyle.*]

The Hon'ble Sir Reginald Craddock replied :—

"The Government of India, as at present advised, do not intend to undertake a general revision of the Regulations before the next election".

The Hon'ble Pandit Bishan Narayan Dar asked :—

Indian emigration to the self-governing dominions of the British Empire.

4. "Will the Government be pleased to state if any negotiations have been proceeding between them or His Majesty's Secretary of State for India and the Governments of the Self-Governing Dominions of the Empire on the subject of Indian Emigration thereto? If so, will the Government be pleased to state the proposals made by them?"

The Hon'ble Mr. Clark replied :—

"No proposals have yet been laid before His Majesty's Government for negotiations with the Self-Governing Dominions The Hon'ble Member will recollect that His Excellency intimated in his speech in Council on the 8th September, 1914, that the Government of India, before approaching the Secretary of State, wished to ascertain whether the policy which he then outlined commended itself to the people of India".

The Hon'ble Pandit Bishan Narayan Dar asked :—

Recruitment of Legal Remembrancers from members of the legal profession.

5. "Will the Government be pleased to consider the desirability of appointing to the office of Legal Remembrancer in provinces where it exists, members of the legal profession of a certain standing, instead of members of the Indian Civil Service?"

The Hon'ble Sir Reginald Craddock replied :—

"There is no statutory bar to the appointment of barristers or other members of the legal profession to the office of Legal Remembrancer in provinces where such a post exists, and occasional appointments have been made with the Secretary of State's sanction from this source in cases where the Government of India have been satisfied that the nominee of the local Government is clearly the best candidate available. As, however, for the proper performance of his duties the holder should possess some administrative experience as well as legal knowledge, it is frequently the case that the selection can best be made from the ranks of the Indian Civil Service".

The Hon'ble Mr. Barua asked :—

Conversion of metre gauge lines on the north side of Hardinge Bridge to broad gauge lines.

6. "Has Government under consideration any programme for converting the metre gauge lines of the Eastern Bengal State Railway on the north side of the Hardinge Bridge to broad gauge lines? If not, do the Government propose to consider the advisability of examining this question"?

The Hon'ble Mr. Gillan replied :—

"The Government of India have under consideration the question of converting to broad gauge certain of the Eastern Bengal Railway metre gauge lines north of the Hardinge Bridge".

The Hon'ble Mr. Barua asked :—

Rates charged for grazing cattle in State Forests.

7. "Will Government be pleased to lay on the table a statement showing the different rates charged for grazing cattle in State forests in the different provinces?"

The Hon'ble Sir Robert Carlyle replied :—

"The Government of India are not in a position to give the rates now charged for grazing in State forests as these vary in the different provinces and are altered from time to time. A statement* which was compiled in 1913 is, however, laid on the table"

* Not published with these Proceedings.

[*Mr. Dadabhoy; Sir Harcourt Butler; Mr. Das; Sir Reginald Craddock.*] [22ND MARCH, 1915.]

The Hon'ble Mr. Dadabhoy asked :—

Indian Educational Bureau of London.

8. "Will Government be pleased to state :—

(*a*) What amount is spent annually for the maintenance of the Indian Educational Bureau of London and its branches in India with available details?

(*b*) In how many cases has the Bureau since its creation succeeded in securing for Indian students admission into the various educational institutions of the United Kingdom?

(*c*) How many Indian young men going abroad for education apply to the Indian branches of the Bureau every year for information, advice and guidance?"

The Hon'ble Sir Harcourt Butler replied :—

"(*a*) The details of the cost of the Secretary for Indian students, of the Educational Adviser in London, his assistants and the London Bureau, and of the local assistants will be found on page 17 of the Report on the work of the Indian Students' Department ending June, 1915*, which was recently published as a Parliamentary paper and placed in the Press Room in India. The Government of India have no precise knowledge of the cost of the provincial advisory committees There are now eleven of these. Local Governments have been authorised to grant to the secretaries of these committees allowances not exceeding Rs. 200 a month.

(*b*) The Government of India have no precise information. But the Hon'ble Member is referred to pages 4 and 8 to 10 of the same report.

(*c*) Information is to be found on pages 6 to 7 of the same report".

The Hon'ble Mr. Dadabhoy asked :—

Admission of Indian students into the educational institutions of the United Kingdom.

9. "(*a*) Has any correspondence passed between this Government and the Secretary of State for India for the freer admission of Indian students into the educational institutions of the United Kingdom?

(*b*) If so, do the Government propose to lay such correspondence on the table?"

The Hon'ble Sir Harcourt Butler replied :—

"(*a*) and (*b*) The Hon'ble Member is referred to the reply given to a similar question asked by him on the 16th September, 1914. He is also referred to the Report on the work of the Indian Students' Department ending June, 1914*, which was recently published as a Parliamentary paper and placed in the Press Room in India. A few copies of the Report* are placed on the table for the convenience of Hon'ble Members".

The Hon'ble Mr. Das asked :—

Signification of expression "Local Government" in rules regarding the submission of petitions to Government of India.

10. "(*a*) Will the Government be pleased to state whether the expression 'Local Government' in paragraph 1, rule 1, of Home Department Notification No. 147, dated the 19th January, 1905 (regarding the submission of petitions to the Government of India by private persons or public bodies) has a wider signification than its statutory definition?

(*b*) If the expression is used in the above-mentioned notification in a wider sense, do the Government propose to give references which may help the public to know the exact connotation of the expression in the above-mentioned rule?"

The Hon'ble Sir Reginald Craddock replied :—

"Note 1 to the preamble given in the notification referred to explains the scope of the term 'Local Government' as employed in the rules, and this note appears to answer the Hon'ble Member's inquiry".

* Not published with these Proceedings.

[22ND MARCH, 1915.] [*Mr. Das; Sir Robert Carlyle; Sir William Meyer.*].

The Hon'ble Mr. Das asked :—

Case of Raja of Puri.

11. " Has the attention of Government been drawn to an article headed 'The case of the Raja of Puri' which was published in '*The Bengalee*' on 12th February, 1915 ?"

The Hon'ble Sir Robert Carlyle replied :—

" The answer is in the affirmative."

BUDGET FOR 1915-16.

The Hon'ble Sir William Meyer ;—" My Lord, I rise to present the Budget of the Government of India for 1915-16 The preliminary estimates which I laid before the Council on the 2nd March have been revised in the light of our latest information. The Financial Secretary's explanatory memorandum has also been checked and brought up to date.

" 2. The final figures of the Revised estimate for 1914-15 and of the Budget estimate for 1915-16 are given in the statements which I have to-day laid before the Council. The broad results of the revenue account are brought out in the table below, the figures in brackets, now superseded, being those given in the corresponding tables appearing in paragraphs 24 and 39 of my speech introducing the Financial Statement : —

[In millions of £]

	BUDGET, 1914-15.			REVISED, 1914-15.			BUDGET, 1915-16.		
	Imperial.	Provincial	Total	**Imperial.**	Provincial.	Total	**Imperial.**	Provincial.	Total
Revenue . .	**54·237**	30·842	85·079	**49·929** **(49·927)**	30·228 (30·229)	80·157 (80·156)	**49·650** **(49·655)**	30·770 (30·692)	80·420 (80·347)
Expenditure .	**52·981**	34·048	87·029	**52·715** **(52·669)**	32·483 (32·446)	85·198 (85·115)	**52·607** **(52·425)**	31·828 (31·755)	84·435 (84·180)
Surplus (+) or deficit (−)	**+1·256**	−3·206	−1·950	**−2·786** **(−2·742)**	−2·255 (−2·217)	−5·041 (−4·959)	**−2·957** **(−2·770)**	−1·078 (−1·063)	−4·035 (−3·833)

" The alterations which have been made in the figures of the Financial Statement are not important and can be very briefly explained.

" 3. The effect of our corrections in the Revised estimate for the current year is to increase the Imperial deficit previously announced by £44,000, and the Provincial deficit by £38,000. The Land Revenue is not coming in quite so rapidly as we anticipated in Burma and Madras. We have also had to allow under the new adjusting head for transfers between Imperial and Provincial, for the grant of £67,000 (10 lakhs) to the Calcutta University, for hostels, which was announced by Your Excellency a few days ago at Calcutta. On the other hand, the salt revenue has been increased by further advance payments of duty in February, and the latest figures indicate an increase of Customs receipts under silver and petroleum. The net effect of these changes is to leave the total revenue, whether Imperial or Provincial, almost unchanged, and the slight increase in the deficit of the year to which I have already referred is due to minor variations in the expenditure figures.

" 4. As regards the Budget of next year, the effect of the changes made is to raise the Imperial deficit by £187,000 and the Provincial deficit by £15,000. Here again, there is very little change on the Revenue side Under Land Revenue we allow for some increase of arrear collections (£42,000 more under Imperial and £58,000 more under Provincial) in view of the short collections at the end of the current year. But this is counterbalanced, in the case of Imperial Revenues, by a reduction of our anticipated Salt revenue in consequence of the higher figure taken for advance payments in the current year. An increase of £182,000 under Imperial expenditure is almost wholly explained by our having been obliged to raise the total net grant for Military

[*Sir William Meyer.*] [22ND MARCH, 1915.]

Services by £169,000 as the result of increased expenditure now advised by the Secretary of State in England owing mainly to a rise in the prices of military stores. On the Provincial side the total allotment for expenditure has been raised by £73,000. This represents in the main the provincial outlay involved in the transfer to the Calcutta University of the grant of £67,000 for hostels already referred to, which in the current year is treated as a provincial receipt.

"5. Turning now to Ways and Means, we expect the total cash balance, in England and India, at the end of the current year to be some £288,000 higher than the figure taken in the Financial Statement. This is due to recoveries from the War Office being effected more promptly than we had anticipated, and to larger outstandings of Council Bills We must expect, however, to lose this temporary addition to our resources during 1915-16. In addition, we have to finance the slightly larger Imperial and Provincial deficits which I have just explained On the whole, therefore, we expect the closing balance on the 31st March, 1916, to be about £235 000 less than we anticipated in the Financial Statement, but this relatively slight divergence does not require any modification of our previous arrangements.

"6. A larger share (to the extent of some £700,000 more) of the lump provision of £8 million for Railway capital outlay is now expected to be incurred in India; and the effect of this, with other minor variations, is that we now estimate that we can meet the Secretary of State's actual remittance requirements in 1915-16 by the sale of £7·1 million of Council Bills, *i.e.*, some £600,000 less than the amount previously allowed for"

THE INDIAN PAPER CURRENCY (TEMPORARY AMENDMENT) BILL.

The Hon'ble Sir William Meyer:—"My Lord, I move for leave to introduce a Bill further to amend—temporarily—the Indian Paper Currency Act, 1910.

"On the 16th of January last Your Excellency passed an Ordinance, No. I of 1915, which, for the time being, amended the Paper Currency Act by substituting for the figure 140 million of rupees under section 22 of the Act the figure 200 million; that is, to put the matter, in non-technical language, the portion of the Paper Currency Reserve which can be invested instead of being actually held in coin or bullion was thereby raised to six crores of rupees or £4 million. The object of this measure was explained in a *Communiqué* issued on the 5th January subsequent to the Cotton Conference. It was further referred to by Your Excellency in your speech opening the present legislative session, and was again dealt with in my recent speech introducing the Financial Statement. In brief, we desire to give temporary application to a recommendation of the Royal Commission on Indian Finance and Currency with the object of raising the fiduciary portion of the Paper Currency Reserve so as to allow us to give special assistance to trade through the Presidency Banks, or, if necessary, to supplement our own resources during the present abnormal period. As I said in another portion of my Budget speech we do not by this prejudice in any way the final decisions which will have to be come to with reference to the proposals in respect of our Currency policy and methods contained in the report of the Royal Commission.

"The Ordinance by itself, however, can only cover a period of six months, and obviously that is too short a time for the temporary measure that it authorises. We must provide, as in the case of other Ordinances, for it remaining in force during the period of the war, and for six months there after so as to allow things to settle again into a normal state. Had the Ordinance been issued a few days previously, this result would have been automatically achieved by its coming within the purview of the recently passed Emergency Legislation Continuance Act. As it is, it becomes necessary to obtain the same result by specific legislation.

[22ND MARCH, 1915.] [*Sir William Meyer ; The President ; Sir Harcourt Butler.*]

"The Bill which I now ask leave to introduce will achieve precisely the same effect that the Emergency Legislation continuance Act would have accomplished. It definitely amends the Paper Currency Act of 1910 in the way in which the Ordinance has hitherto done, but at the same time the force of this legislation is specifically limited to the continuance of the present war and for a period of six months thereafter.

"In the circumstances I have explained, and in the absence of any previous criticism in regard to the temporary policy we have adopted with reference to the Paper Currency Reserve, we consider this measure to be so non-contentious, as well as essential, that I propose to ask for a suspension of our ordinary rules of business so as to allow the Bill to be passed into law at once. But I must begin by moving for leave to introduce it, which I now do."

The motion was put and agreed to.

The Hon'ble Sir William Meyer :—"My Lord, I now beg to introduce the Bill, and I also beg, for the reasons which I have already stated, that Your Excellency may be kind enough to suspend the Rules of Business so as to allow of the Bill being taken into consideration at once."

His Excellency the President :—"I suspend the Rules of Business."

The Hon'ble Sir William Meyer :—"My Lord, I now beg to move that the Bill be taken into consideration I need add nothing more to what I have already said on the subject."

The motion was put and agreed to.

The Hon'ble Sir William Meyer :—"I now beg to move that the Bill be passed."

The motion was put and agreed to.

THE BENARES HINDU UNIVERSITY BILL.

The Hon'ble Sir Harcourt Butler :—"My Lord, I move for leave to introduce the Benares Hindu University Bill. It is the earnest desire of the University Committee that this measure may be placed upon the Statute-book during the viceroyalty of Your Excellency with whose name the University will be for ever associated It is the bare truth that without Your Excellency's constant interest, support and approval, this measure could not have been introduced to-day. By a series of compromises the Government and the Society have arrived at conclusions which, I hope, may take the measure out of the domain of controversy. It is intended to publish the Bill now for general information, and to take Select Committee stage and pass the Bill into law during the September session. Before I go further I must congratulate the Committee and especially the Maharaja Bahadur of Durbhanga, Mrs. Besant, Dr. Sundar Lal, Pandit Madan Mohan Malaviya, the late Rai Bahadur Ganga Prashad Varma, Sir Gooroo Das Bannerjee, Dr. Rash Bihari Ghose, and, outside the Committee, such active helpers as His Highness the Maharaja of Bikanir and His Highness the Maharaja of Benares, on the success which has already crowned their efforts. I need not review the history of the movements which resulted in the proposals for a Hindu University at Benares and a Moslem University at Aligarh. I will deal with the results that have emerged from long discussion. The facts are well known, but I will confidently say this that if anyone had predicted ten years ago that the idea of a university of this kind, then in the air, would take practical shape, he simply would not have been believed. The University Commission, an influential body, had recently

[*Sir Harcourt Butler.*] [22ND MARCH, 1915.]

pronounced against such a university and there was widespread opposition and hostility to any scheme which threatened to cut into existing territorial and federal universities. It would have seemed incredible ten years ago that the Government of India should associate itself with a movement of this kind. That the difficulties have been overcome is in large measure due to the genuine spirit of co-operation which has inspired the University Committee.

"My Lord, this is no ordinary occasion. We are watching to-day the birth of a new and, many hope, a better type of university in India The main features of this university which distinguish it from existing universities will be, first, that it will be a teaching and residential university, secondly, that while it will be open to all castes and creeds, it will insist upon religious instruction for Hindus, and, thirdly, that it will be conducted and managed by the Hindu community and almost entirely by non-officials. I say that this is a new type and, many hope, a better type of university. Let not this be taken as disparaging the work of existing universities. That would, indeed, be gross ingratitude and sheer injustice. India owes much to her universities in every department of intellectual life and energy. They were based on the latest model, the London University then recently founded and much admired and only lately condemned by Lord Haldane's great Commission on university education in London as fundamentally defective. The best minds in India are, I think, now in agreement that teaching and residential universities are the special need of India to-day.

"At the same time, there is naturally very little knowledge in the country of what a teaching and residential university is To this want of knowledge I attribute much criticism which has been levelled against the constitution of the Benares Hindu University. Conditions which are appropriate and necessary in a teaching and residential university have been viewed away through the glasses of minds habituated to the existing universities. This is only natural in the circumstances of India. I wish it were possible to say in a few words what a teaching and residential university really means. Probably, the best idea will be obtained from Cardinal Newman's Idea of an University, May I quote a passage from the report of Lord Haldane's Commission on university education in London, the most authoritative statement of modern times on university education ? It runs as follows :—

'In the first place, it is essential that the regular students of the University should be able to work in intimate and constant association with their fellow students, not only of the same but of different Faculties, and also in close contact with their teachers'. The University should be organised on this basis, and should regard it as the ordinary and normal state of things. This is impossible, however, when any considerable proportion of the students are not fitted by the previous training to receive a university education, and therefore do not and cannot take there place in the common life of the university as a community of teachers and students, but, as far as their intellectual education is concerned, continue in a state of pupilage and receive instruction of much the same kind as at a school, though under conditions of greater individual freedom. It is good that the students should be brought together if only in this way, and Newman, writing in 1852, even went so far as to say :—

'I protest to you, Gentlemen, that if I had to choose between a so-called University, which dispensed with residence and tutorial superintendence, and gave its degrees to any person who passed an examination in a wide range of subjects, and a University which had no professors or examinations at all, but merely brought a number of young men together for three or four years, and then sent them away as the University of Oxford is said to have done some sixty years since, if I were asked which of these two methods was the better discipline of the intellect, . . . which of the two courses was the more successful in training, moulding, enlarging the mind, which sent out men the more fitted for their secular duties, which produced better public men, men of the world, men whose names would descend to posterity, I have no hesitation in giving the preference to that University which did nothing, over that which exacted of its members an acquaintance with every science under the sun'.

'Nevertheless, this is only one side of the question, and in any case Newman does not refer to the kind of student life that can be reproduced in London. But for this very reason it is the more essential that in such a University as London can have, the students and teachers should be brought together in living intercourse in the daily work of the University. From the time the under-graduate enters the University he should find himself a member of a community in which he has his part to play. The teaching and learning should be combined through the active and personal co-operation of teachers and student'.

[22ND MARCH, 1915.] [*Sir Harcourt Butler.*]

The active and personal co-operation of students and teachers, their association on more or less fraternal lines, that is the keynote. A teaching and residential university does not aim at mere intellectual attainment; it is a way of life, and a way of corporate life. Those of us who have been at Oxford and Cambridge can appreciate the force and meaning of Newman's vivid words. But Oxford and Cambridge are not the only models There is much to be learned in India from other universities which are more definitely practical in aim. They are all, however, alike in this that they pursue an outlook on life, form an atmosphere, concentrate thought and by friction of mind get truer perspectives, no matter whether the dominant note be philosophical or technical. So much for the teaching and residential aspect of the University. There remains the question of religious instruction. You know the history of religious instruction in India, the fixed and unalterable neutrality of the British Government, and how, in every province at the present time, earnest men are seeking to find some means of infusing religious and moral ideas into the swiftly onrushing intellectualism of the day. It is a matter which we much leave to the Hindu community to work out on lines which best commend themselves to it. The theological faculty must be a purely Hindu faculty. On behalf of the Government of India I can only assure the Committee that they have our fullest sympathy in this new and, I believe, important venture.

"I turn now to the measure itself. This consists of the Bill and the original statutes. The regulations are in course of preparation. It was only by a *tour de force* on the part of Mr. Sharp, Dr. Sundar Lal and Mr. Muddiman that the Bill and the statutes have been prepared in the time. In the first place, as regards the form of the Bill, I must explain that its apparent brevity is due partly to the accepted practice conducive to the maximum of elasticity, whereby only essentials are included in a legislative measure, partly to the desirability of relegating much to statute and regulation. Schedule II is very full and can be still further extended by the addition hereafter of such statutes as are not required for permitting the University to get immediately to work, and the regulations have still to be framed.

"I will now try to give you a brief account of the organisation of the new University. You will see that it is a somewhat complicated organisation and it has been necessary to define and adjust functions with some care. The University is an all-India University. It is incorporated for the teaching of all knowledge, but will commence with five faculties, Arts, Science, Law, Oriental studies and Theology. I know that many of the promoters desire to add a faculty of Technology. This desire has my full sympathy and I trust that adequate funds will soon be forthcoming. The University will be open to students from all parts of India on conditions which I shall specify hereafter. The Governor General is Lord Rector of and the Lieutenant-Governor of the United Provinces of Agra and Oudh is the Visitor of the University. Among those whom the University will delight to honour are Patrons, Vice-Patrons and Rectors. The governing body is a numerous and very representative Court, with an executive body in a Council of not more than 30 Members, of whom five will be members of the Senate. The academic body is the Senate consisting of not less than 50 members, with an executive body in the Syndicate. The Senate will have entire charge of the organisation of instruction in the University and constituent colleges, the curriculum, and the examination and discipline of students and the conferment of ordinary and honorary degrees. Except in matters reserved to it the Senate is under the control of the Court working through the Council. The Senate will be constituted as follows:—

"*I. Ex-officio.*—(*a*) The Chancellor, the Pro-Chancellor, the ViceChancellor and the Pro-Vice Chancellor for the time being; (*b*) The University Professors; (*c*) The Principals or heads of constituent colleges of the University.

[*Sir Harcourt Butler.*] [22ND MARCH, 1915.]

"*II. Elected.*—(*a*) Five members to be elected by the Court. (*b*) Five members to be elected by the registered graduates of the University from such date as the Court may fix. (*c*) Five representatives of Hindu religion and Sanskrit learning to be elected by the Senate. (*d*) Should the Vice-Chancellor declare that there is a deficiency in the number of members required in any faculty or faculties, then five or less persons elected by the Senate, eminent in the subject or subjects of that faculty or those faculties.

"*III. Nominated.*—And five members to be nominated by the Visitor. The Syndicate will consist of the Vice-Chancellor, Pro-Vice-Chancellor and fifteen members of whom not less than ten shall be University professors or principals or professors of constituent colleges The object aimed at is to secure that purely academic matters should be decided by a body mainly expert while the Government and supervision of the University rests with the Court and the Council. It is necessary to represent the Senate on the latter in order that the academic view may always be before it. The Court will elect its own Chancellor and Pro-Chancellor, Vice-Chancellor and Pro-Vice-Chancellor. In the first instance these officers will be scheduled. The Vice-Chancellor will be *ex-officio* Chairman of the Council, the Senate and the Syndicate. He will be the Chief Executive officer of the University. The University will through the Council and the Board of Appointments appoint its own professors and staff and have entire control over them. Stability is given to the constitution by requiring the sanction of external authority to changes in the statutes and the regulations. This is the outline of the constitution of the University. The Government binds itself to accept the degrees, etc., of this University as equivalent to the degrees, etc., of existing Universities. This in itself is no mean concession.

"My Lord, I have seen this constitution described as ill-liberal and I have rubbed my eyes in amazement. It is far more liberal than the constitution of existing universities. No Government can allow universities to grow up without control. In most European countries the universities or at least the majority of them are entirely State universities. In the course of these discussions two policies emerged. One was a policy of trust. The other a policy of distrust. The Government might well have said to the Society—You are starting a new kind of University without any experience of it in India. We must leaven the lump with officials who have the requisite experience. We must guide you from within at any rate until you prove your worth and the value of your degrees. That would not have been an unreasonable attitude. But we preferred to trust the Society, to leave them large autonomy, and to reserve to Government only the necessary powers of intervention if things go wrong. I hope that things will not go wrong but you will not misunderstand me when I say that the taking of these powers is a necessary precaution. You will also realise that to some extent this is a leap in the dark and that the machinery which is being provided is very complicated, and might in conceivable circumstances produce friction. I hope that intervention will not be required. We desire and Sir James Meston desires that you should manage your own affairs ; we are anxious to maintain the dignity and independence of the University. But we must in the public interest, in the interests of the rising generation, in your own interest, have powers to interfere should things go wrong. We could not contemplate the existence of a university or recognise its degrees on any other terms. But with this one reservation, we wish to see you realise your own way of life, your own way of corporate life.

"I ask Hon'ble Members to compare the constitution of this University with that of the oldest University in India. And yet who will deny that the University of Calcutta has had in practice a measure of independence that is not accorded to universities in most countries? In Calcutta 80 of the 100 ordinary members of the Senate are nominated by the Chancellor who is *ex-officio* the Governor General, while the election of the remaining twenty is subject to the approval of the Chancellor. In the case of this University only 5 out of a minimum of 50 are nominated by the Visitor, who is *ex-officio*

[22ND MARCH, 1915.] [*Sir Harcourt Butler.*]

the Lieutenant-Governor of the United Provinces, and this provision was suggested by yourselves in order to secure expert official help and co-operation. In Calcutta the appointment of professors requires the sanction of the Government of India. In this University no such sanction is required. There will be, in this University under normal conditions, no interference whatever from outside with the University staff. In Calcutta the Vice-Chancellor is appointed by the Governor General in Council. In this University the Court elects the Vice-Chancellor subject only to approval by the Visitor. The Court has power to elect its own Chancellor and Pro-Chancellor. In the Court and the Council the Government has no voice or representation whatever. The ordinary powers of intervention are vested in the Visitor. The Visitor will be close at hand. You will need his help at every turn, in the acquisition of land and in many other ways. And you will not appeal to Sir James Meston in vain. The extraordinary powers are vested in the Governor General in Council. You need not be alarmed lest they be exercised unduly The tendency will be the other way. It will not be in human nature that the Visitor should seek lightly the intervention of the Governor General in Council. I have not noticed such a tendency in Local Governments. In the Government of India the tendency is all the other way, to avoid interference in the details of administration. The terms are necessarily general, but it is made quite clear that they are extraordinary and emergent powers, and considering how much this movement already owes to the Government of India, I confidently ask you to believe in our *bonâ fides*. We have trusted the promoters so much that I think we ourselves may claim some trust at your hands.

"So much for the constitution of the University. There remains the question of admission to the University and this raises the whole question of the recognition of schools and matriculation. This will be dealt with in the regulations but I will tell you exactly what is our policy in the matter and what principles underlie it.

"Some of the promoters, I understand, desire to keep the recognition of schools in the hands of the University and to conduct their own matriculation examination. This wish is opposed to all the best modern view on the subject. This view, strongly emphasised by the Commission on University education in London, is this—that it is the central educational authority which is concerned to see that its grants are effectively used and that it is that authority also which must provide for the co-ordination of secondary schools and universities and must give the necessary assurance to the latter that the pupils seeking admission to their degree courses have reached the required standard of education. The Committee, I may mention, accept the recognition of schools by Local Governments and Durbars. As regards matriculation, I must remind the Council that this is not a federal territorial university but a teaching and residential university. In the case of Dacca, the Dacca University Committee decided that it could not conduct its own matriculation examination. It was recognised that most of the high school students would be reading for admission to colleges of the Calcutta University and that therefore the requirements of that University must regulate the course of studies in those schools. In the case of the Benares Hindu University, the pupils of high schools will similarly be reading for admission to existing universities and the new university could not with advantage set up a different standard or prescribe a new course. Again, it was recognised that a sparate entrance examination for Dacca held at the head-quarters of Dacca would be cumbrous and difficult to carry out and would be likely to cause confusion. These reasons are applicable with even greater force to the Benares Hindu University Probably before many years have passed the external matriculation examination, the octopus which digs its tentacles into all limbs and parts of our secondary English schools, will have been replaced by some system of school-leaving certificate. The most weighty authorities of modern times, the Consultative Committee on Examinations in secondary schools, and Lord Haldane's Commission on University education in London alike contemplate the abolition of the purely external matriculation examination.

[Sir Harcourt Butler.] [22ND MARCH, 1915.]

"Meanwhile the position will be this:—The Benares Hindu University will accept for admission to its courses all candidates from schools at present recognised by an existing university or by a Local Government or by a Durbar, who have passed the matriculation examination of such university or obtained a recognised school-leaving certificate. The Benares Hindu University will also be able to impose any additional test on such candidates that it may think desirable. The Benares Hindu University will hold its own matriculation examination at Benares for all candidates for the faculties of Oriental Studies and Theology, and for private candidates (on usual conditions) in other faculties. Finally, in order to meet the strong desire of some of the promoters that certain schools should prepare exclusively for the Benares Hindu University it has been decided to allow such a course provided that such schools are recognised by the Local Government of the province or, by arrangements which will have to be decided hereafter, by the Durbar of the State in which they are situated and provided also that such schools are not allowed to send up candidates for matriculation at any other university. Only in this way can complication of school curricula and confusion in the examination system be prevented. The Secretary of State allows this large concession involving some breach of principle in deference to the sentiment of the promoters. It will come under reconsideration if at any time the school-leaving certificate generally ousts the matriculation examination of other universities.

"I have now dealt fully and frankly with the two main points on which there have been differences of opinion. There remains yet another point on which there has been misunderstanding that is easily removable. It is said that this University has ceased to be an all-India University. This is not the case. It is open to students from every province and Native State in India. Schools preparing for admission to it may be situated in any province or Native State in India. Its governing body is recruited from the length and breadth of India. It will send forth its *alumni* to every quarter of India. It will number among its patrons Governors and Heads of Provinces, Ruling Chiefs and other eminent benefactors in all parts of India. I am informed that the following large subscriptions have alreay been paid. His Highness the Maharana of Udaipur 1½ lakhs, His Highness the Maharaja Holkar of Indore 5 lakhs, His Highness the Maharaja of Jodhpur 2 lakhs with a grant in perpetuity of Rs. 2,000 a month, His Highness the Maharaja of Bikanir one lakh with a grant in perpetuity of of Rs 1,000 a month, His Highness the Maharaja of Kashmir a grant in perpetuity of Rs. 1,000 a month, His Highness the Maharao of Kotah one lakh, the Maharaja Bahadur of Darbhanga 3 out of 5 lakhs, Dr. Rash Behari Ghose one lakh, Dr. Sunder Lal one lakh, Maharaja of Kasimbazar one lakh, Babu Bijindra Kishore Roy Chaudhri of Ghorepur one lakh and Babu Moti Chand one lakh. His Highness the Maharaja Scindia of Gwalior has promised 5 lakhs of rupees. Others have promised liberal donations of which in many cases part payment has been made. If there ever Was an all-India University, it is this.

"I think that on a review of all the facts Hon'ble Members will agree that the Government has dealt in a large and liberal spirit with the movement. The conduct of the negotiations has not been easy. It has been complicated by the fact that the movement started on lines of its own without reference to Government and without knowledge of the conditions which Government considered essential to its success. It was further complicated by criticisms from opposing points of view. If to some it has seemed that the Government was granting too little, to others it has seemed that the Government was granting too much. I do not conceal from Hon'ble Members that in some quarters it has been considered that the Government was taking grave risks, risks graver than any Government ought to face. I can understand this view but I do not myself share it. We know that we are taking a certain amount of risk. We know that there is danger lest this University or similar universities elsewhere develop undesirable tendencies or lower standards of education. We deliberately face that risk, believing in the loyalty and good sense of India and the growing desire to co-operate with Government on the part of the Hindu and other com-

munities in India. For my part, I am hopeful of success. I earnestly trust that the introduction of this Bill and the removal of misunderstanding will lead to further enthusiasm and the provision of funds sufficient to build and equip the University on a worthy scale, a scale worthy of the great Hindu Community. I confess that the other day when I was standing opposite Ramnagar, on the site where your University buildings will, I hope, soon be rising in stately array, and looked down the river Ganges to the ghats at Kashi, which swept before me in the distance, I felt that if I was a Hindu I should be proud indeed of the achievement of my people, and at the same time I felt some little pride myself that I was a member of a Government which had joined in one more large endeavour to combine the ancient and honoured culture of India with the culture of the modern western world".

The Hon'ble Dr. Sundar Lal:—"My Lord, on behalf of the Hindu University Society I beg leave to offer our grateful thanks to Your Excellency's Government, and more particularly to Your Excellency, and to the Hon'ble the Member for Education for all the encouragement and help that the Government have given to the proposal for the establishment of a Hindu University at Benares. The supporters of the University will rejoice to learn that a Bill for the establishment of the University has to-day been introduced in the Council.

"My Lord, if I may be permitted to say so, the Bill before us marks a memorable epoch in the history of University education in India It constitutes a very important step forward, in the extension of the system of establishing residential and teaching universities in India managed mainly by the people themselves It emphasises the desirability of combining religious with secular education under their own control, and it will ever be remembered as one of the most beneficial acts of Your Excellency's Government.

"Sixty years ago, when the Court of Directors of the East India Company, impelled by the noble desire of bringing to 'the natives of India those vast moral and material blessings which flow from the diffusion of knowledge' decided to establish universities in India 'which may encourage a regular and liberal course of education by conferring academical degrees as evidences of attainments in different branches of Arts and Sciences,' they directed that the new universities should be modelled after the then recently established University of London. Like their prototype they were to be merely examining universities 'not so much to be in themselves places of instruction as to test the value of education imparted elsewhere'. They could not by reason of the principle of strict neutrality in religion invariably followed by the Government in the examination for degrees 'include any subjects connected with religious belief'.

"Limited though their functions were the Indian universities have more than fulfilled the expectations that were formed of them. Evidence of the excellent work done by them greets the eye in all directions and in almost every part of the country. In the years that have rolled by the opinion of those best qualified to speak on that subject has been steadily growing in the western countries in favour of Universities which should not merely be institutions for holding tests of education but which should themselves be the homes of knowledge and learning, where their *alumni* should be trained and educated under the direct guidance of their teachers, and where their pupils may not only live in an atmosphere of learning, but inspired by the influence of their teachers, they should be imbued with and animated by the spirit of progress and research pervading therein. The view has naturally found many votaries in this country both among Hindus and Mahomedans. There has also been a wide-spread feeling that a system of education which makes no provision for religious teaching is essentially imperfect and incomplete. It is of course impossible to provide for it in the existing State universities. It is to these considerations, as also to the very keenly felt desire of resuscitating the study of the ancient learning of India of

[*Dr. Sundar Lal.*] [22ND MARCH, 1915.]

enriching its vernaculars, and of imparting some knowledge of the practical applications of modern science to the industries, that the proposals for the establishment of denominational universities owe their genesis, and it is to Your Excellency's Government that we are so greatly indebted for the initiation of so important an experiment. It is a matter of much gratification to us that the proposals for the establishment of the Hindu University at Benares have met with the ready sympathy and support of Sir James Meston, to whom we are no less indebted.

"It is, of course, not permissible at this state for me, to dwell upon the provisions of the Bill, and with Your Excellency's leave I propose to reserve any observations I may have to make on them to a later and more suitable stage, but I would crave the indulgence of the Council to permit me to refer to some of the features of the Bill, to remove any possible room for misapprehension and to place side by side some of the more prominent aspects in the constitution of the new university, along with those of the existing universities in India, to enable the public to form a clear idea of what the Bill proposes to give to us.

"I have already pointed out the essentially non-official character of the governing bodies of the new universities. I will now explain more fully what I mean. The government of the University is entrusted to—

(1) the Court on the administrative side ;

(2) the Senate on the academic sid .

'The Court is to consist of donors and their representatives, as also of representatives of learning and of bodies interested in the education of the Hindu Community. Every one of these persons must, in future, be Hindus. Not one of them need be a servant of the Government unless he comes in as a donor or is elected by one of the electoral bodies It will be presided over by the Chancellor and Pro-Chancellor, who will be elected by it.

The Senate is so constituted that no less than three-fourths of its members must be Hindus. The Government will nominate only five of its members. The *ex-officio* members of the Senate besides the Vice-Chancellor and the Pro-Vice-Chancellor will be servants of the University or of its constituent colleges. The Vice-Chancellor and the Pro-Vice-Chancellor will be elected by the Senate, subject to the approval of the Visitor, who will be the Lieutenant-Governor of the United Provinces The University will be competent to appoint its own professors and teachers Their appointment will be solely in the hands of the university and will not, as in the case of some of the existing Indian universities be subject to the approval of the Government. It will also appoint its own Boards of Examiners.

"Let us now compare it with the constitution of the existing Indian universities The donors in these Universities have no place in the constitution of these Universities, unless the Government appoints any one of them as an honorary member of the Senate, who, as such, can take no part in the affairs of the University. Four-fifths of the members of the Senates of them all must be nominees of the Government; only one-fifth being left to be appointed by election by the graduates, the senate and the faculties. A very large number of the Government nominees are, as a rule, officers of the Government. The Vice-Chancellor is appointed by the Government. It will be then evident that the constitution of the new University is conceived on a considerably more popular and liberal basis. It is, as I have said, essentially non-official in its character and I may, I venture to think, claim for it that it will be the university of the people in full contact with and responsive to their intellectual aspirations.

"I may now touch upon its relation with the Government As in the case of the existing universities, its Statutes and Regulations and the amendments thereof will be subject to the approval of the Government. The admission of outside colleges to the privileges of the University will, as in the case of institutions affiliated to the existing universities, be subject to the approval of the Visitor, who will have also the right to inspect the university and its colleges at pleasure. If

[22ND MARCH, 1915.] [*Dr. Sunder Lal; Sir Gangadhar Chitnavis; Maharaja Manindra Chandra Nandi; Mr. Dadabhoy.*]

any action of the University is contrary to the provisions of the Act, the Statutes and Regulations, and therefore *ultra vires*, the visitor will have power to annul them.

"The Governor General in Council will have certain emergency powers which have been reserved to him.

"It will thus be evident that the constitution of the University is as liberal as we can expect it to be.

"The Hon'ble Sir Harcourt Butler has been pleased to mention the names of some of the larger donors. I may be permitted to say that in addition to them, there is a large body of donors who have already paid substantial amounts, or who will pay them in the course of a short time, and I have no doubt that, now that the Bill has been introduced, it will not be difficult to collect a large sum of money.

"I have much pleasure therefore in supporting the motion for the introduction of the Bill."

The Hon'ble Sir Gangadhar Chitnavis:—"My Lord, I need not say much after the speeches which have been delivered in this connection. It is a matter of genuine satisfaction to the great Hindu community that the labours of the promoters of the Hindu University movement have, thanks to Your Excellency's sympathetic help and attitude, borne fruit, and that a stage has been reached when Government is pleased to extend to it legal recognition. It is only just to mention and it is a matter of common knowledge that the Hon'ble Pandit Madan Mohan Malaviya, the Maharaja of Dharbhanga, Dr. Sundar Lal, and Mrs. Besant, have now for some time worked in the cause with admirable devotion and singleness of purpose, at times at great personal inconvenience and sacrifice. The people have some idea of their work, but few outside the organisers know the great services the Hon'ble Sir Harcourt Butler has rendered to the cause.

"The Bill now introduced marks an important step in the educational history of India which is full of possibilities, and let us all hope that the Hindu University will be as great a success as its supporters expect it will be. It is permissible also to indulge in the hope that this University, imparting as it proposes to do, sound religious instruction, will inculcate in the youthful mind a due sense of proportion, of duty and responsibility, and respect for authority which will make the graduates useful, virtuous, loyal and contented citizens. A thing well begun is half done and we hope that this coming University will soon rise to a position when it will be possible for the products of this University, modelled as it will be on the basis of the ancient religions of this great land, to come out of its portals what model University students should be equipped with the best that the East can teach and helpful both to Government and the large community to which they belong."

The Hon'ble Maharaja Manindra Chandra Nandi:—"My Lord, as one interested in the Hindu University scheme, may I be permitted to express my gratification at the introduction of the Bill which crowns the efforts made for the establishment of this University? The realisation of our hopes is now in sight and we are deeply grateful to the Hon'ble the Member for Education and the Government of India for the kind help and sympathy accorded to this scheme and the legislative sanction which is being initiated to-day. My Lord, I hope there will be no jarring note and this Bill will receive the same unanimous support in the Council that the scheme has received in the country."

The Hon'ble Mr. Dadabhoy:—"My Lord, as the only member of the Parsee community on your Legislative Council, I rise to join in the chorus of congratulations welcoming this Bill. My Lord, outside this Council there were many misgivings about this Bill, but after the luminous and very

[*Mr. Dadabhoy; Mr. Rayaningar; Mr. Ghuznavi.*] [22ND MARCH, 1915.]

instructive speeches of the Hon'ble the Education Member and Dr. Sundar Lal, most of these misgivings have been dispelled. I keep an open mind about the provisions relating to the Constitution, in respect to which this Council will have a suitable opportunity later on to express its opinion. But I must admit that this Bill concedes many important privileges. The constitution, the details of which have been indicated by the Hon'ble the Education Member, fully prove this and further that the new University will be in advance of the existing universities in many matters. I am glad that this will not only be a teaching, but also a residential university, that it will be free from official control, and also that religious instruction will be imparted in it.

"My Lord, I have no hesitation in stating, as the Hon'ble Sir Harcourt Butler has already stated, that when this University comes into existence a few years hence, it will be an imperishable monument to the educational policy pursued by Your Excellency.

"My Lord, before I sit down, I wish to say a word with reference to the Hon'ble Sir Harcourt Butler. He only stated that he had pleasure in being a member of the Government which had associated itself with this important measure. He might, with pardonable pride, have referred to the most important share that he has taken in the preparation of this Bill and for the matter of that, in working the whole scheme. It was his laborious and sympathetic work and it was his desire to make certain concessions to the educated Indians that has brought about the promise of the Hindu University, and has led to the University Bill being presented in its present form."

The Hon'ble Mr. Rayaningar :—"My Lord, the Hindu University Bill has been for some time past looked forward to with eagerness by the Hindu public, and although we have not before us the detailed provisions and have not had time to consider them, the eloquent speech of the Hon'ble Sir Harcourt Butler gives us an outline of the scope of the Bill. We shall have later an opportunity to discuss the provisions of the Bill in detail. For the present we are glad to note that Your Lordship's Government has been pleased to view the movement with favour, and proceeds to take practical steps to give us a national University, and, as has been remarked by the Hon'ble the Education Member, a residential and teaching university, a university to teach the essential points of Hinduism to all classes of Hindus.

"My Lord, Hindus in common with Muhammadans have always felt the need of secular education being supplemented by religious education. A Hindu knowing the real essence of his religion will be an acquisition to the country. Ever mindful of his duties to God and man, to all his fellow-beings, he will be a desirable citizen. My Lord, the circumstances attending the introduction of English education into India made it incumbent on the Government to favour secular education. This is a defect which must sooner or later be removed and beyond all doubt the defect can only be removed with the co-operation of the community concerned. The introduction of the Bill is significant It is a great practical step towards National Education in India.

"My Lord, I support the motion before us."

The Hon'ble Mr. Ghuznavi :—"My Lord, with Your Excellency's permission, I should like to draw Your Excellency's attention to the fact, that it is a matter of some inconvenience to non-official members, that when a Bill is about to be introduced into Council it is not previously circulated to Members. On the last occasion I made the remark that because the Defence of India Bill was circulated even 24 hours before it was introduced into this Council, it had the effect of allowing us to make ourselves acquainted with its contents, and, therefore in a measure resulted in our being able to give it our practically unanimous support, particularly when we discovered at the very outset that the Bill was only going to be enacted into law for a specified short period of time. On this occasion, when a Bill of such importance as the Hindu

[22ND MARCH, 1915.] [*Mr. Ghuznavi; Mr. Das.*]

University Bill is about to be introduced, we non-official members feel that as we have not had copies of this Bill beforehand we are not able to make any observations which we would consider to be absolutely pertinent to the subject. Such being the case, My Lord, I should only like to say at the present moment that there is some amount of feeling in the country that neither a Hindu University nor a Mussulman University will be of any real advantage to the people, because, I take it, that the desire of true Indian patriots is, above all else, to bring about the unification of the two great communities of this country, namely, the Hindus and Mussulmans; and a Hindu University and Mussulman University will, I am afraid, tend to produce ultra Hindus and ultra Mussulmans. But, if my Hindu friends in this Council, the promoters of this University and the Hindu public outside, are enamoured of their University, and if they are satisfied with the constitution which the Government has been pleased to grant them, I for one wish them all joy. Therefore, I desire to congratulate my Hindu friends as well as the Government, and particularly my Hon'ble friend Sir Harcourt Butler on introducing this Bill, and I desire to thank Your Excellency and the Government of India for having introduced this Bill out of deference to the wishes of our friends the Hindus."

The Hon'ble Mr. Das:—"My Lord, with regard to the objection that has been made by the Hon'ble Member who spoke just now (Mr. Ghuznavi) that we have not been furnished with a copy of the Bill beforehand, I should like to observe that this objection, which would apply in the case of some other Bills, does not apply in this case, because it appears from the Hon'ble Sir Harcourt Butler's speech that there has been consultation and discussion on the subject-matter between the Government on the one side, and those who are interested in the scheme on the other. Though I am one of those who did not see the Bill or did not know the contents or the details of the Bill, yet the Hon'ble Member in charge of the Bill has explained to us that it is not confined to Hindus only: the only peculiarity of the University will be that Hindus will be taught the Hindu religion, but the University will be open to persons of other religious persuasions.

"The Hon'ble Sir Harcourt Butler said in his speech that ten years ago nobody would have considered this Bill a possibility. That shows, My Lord, that under a sympathetic rule, under a sympathetic Government, when the policy of the Government is to trust the people and to take the people into their confidence, Government can actually wipe away, as it were, from the history of the nation ten years' time, and bring them nearer the goal of their aspirations. That means a statesmanship for which Your Excellency's rule will ever be remembered. Sir Harcourt Butler in the course of his speech has taken a very modest share of the praise that is due to him, but let me assure him and the Government of India generally that we shall all be thankful for the step that he has taken, for it establishes the principle that the people, when they realise the responsibility of any steps they are prepared to take, may count on the Government's willingness to give them a helping hand. So long as education stands on a religious basis, it stands on a safe foundation. So long as the heart which sends up blood to the brain pulsates with the fear of God, no matter whatever be the religious persuasion of the student,—Hindu, Muhammadan or Christian—when his heart pulsates with the fear of God, the nutrition which the brain receives, the education which the mind receives, must be good and useful. And even in an atmosphere where there are a large number of Hindu boys who are educated under a system which attaches an importance to religious principles and teaches us that man is a creature of God, I have no doubt that better results will follow.

"I have heard in certain quarters and it is borne out by the remarks which have been made by the Hon'ble Member who spoke last (Mr. Ghuznavi) that this University will have a tendency to develop bad feeling between Hindus and Muhammadans and produce ultra Hindus and other evils which are the results of institutions standing on a denominational basis. I feel, my Lord, that people—educated people especially—are learning to discriminate

[*Mr. Das; Mr. Banerjee.*] [22ND MARCH, 1915.]

between the articles of a man's faith, of a man and the reflection of his faith on his life and character in daily life; and as education grows, as time advances, this power of discrimination will increase and Hindus, Muhammadans and Christians will more readily co-operate in public life and in works of utility than they do now. With these remarks, My Lord, I support the Bill."

The Hon'ble Mr. Banerjee:—"My Lord, I frankly confess that I do not in the smallest degree sympathise with the observations and criticisms which have been made by my friend to my left (Mr. Ghuznavi). His grievance is that we have not seen the Bill before. I venture to submit that that is no grievance at all. If this Bill were introduced, if the rules of business were suspended, if no Select Committee were to be appointed, if the Bill was not to be placed before the country, that would be a real and tangible grievance. But, My Lord, the Bill has now only been introduced, it will go before the country, it will be considered in Select Committee; and criticisms will pour in from all sides. Where, may I ask, is the grievance? In the House of Commons, so far as I have been able to understand the procedure and the rules of that House, when leave is given to introduce a Bill the text is not placed before Members of Parliament: it is only the Statement of Objects and Reasons that is laid before them. Therefore I do not sympathise with the observations of my Hon'ble friend to the left. When we have a grievance, by all means let us ventilate it in this Council; but when we have none I think it is our business not to bolster up one and indulge in criticisms.

"Then, My Lord, my friend blesses the Hindu University in a somewhat left-handed fashion. He says the effect of the establishment of this University would be to perpetuate differences between Hindus and Muhammadans. My Lord, if that was to be the likely result of the creation of this University I for one would oppose it whole-heartedly; but I do not believe that a result of that kind will at all follow. My Lord, Hindus and Muhammadans to-day are far more united than they were ten years ago. Ten years ago there was far greater friendliness and solidarity of feeling between them than twenty years ago. What is the secret of this daily growing feeling of friendliness between the two communities? Knowledge, learning, the spread of light and illumination. We are being taught; schools and colleges are growing up in all directions; we are beginning to realise what our common interests are, and I do believe that this University, this Benares College, instead of helping to create any alienation of feeling between Hindus and Muhammadans, will by the spread of knowledge bring them closer together in those bonds of friendship, good-will and amity upon which the best prospects of Indian advancement depend. Therefore, I find myself in complete disagreement with the observations which have fallen from my Hon'ble friend in regard to the two main points which he has placed before this Council.

"My Lord, I desire to congratulate the Government of India and the promoters of the University project upon the introduction of this Bill and upon the culmination of their labours so far. My Lord, I have heard many speeches in this Council Chamber, but I will say this in reference to that splendid oration which it was our pleasure to listen to to-day, that I have hardly ever heard a speech in this Council Chamber more deeply sympathetic, more attuned to the love of India and her people than that made by the Hon'ble Member in charge of the Bill. I feel, My Lord, that the special thanks of the Hindu community—and I am a Hindu of Hindus though perhaps my Hon'ble friend over there will not give me that character—as a member of the Hindu community I will say this that our special thanks are due to Your Excellency and to the Hon'ble Member in charge of the Department for the Bill which has been introduced. It will represent a crowning achievement of Your Excellency's Government and of the administration of the Department over which the Education Member has presided for a period of now over three years.

[22ND MARCH, 1915.]　　[*Mr. Banerjee.*]

"My Lord, when I say all this, I must not be imagined as passing a judgment upon the details of the Bill. The Bill has been just placed before us. We have heard the details. Those details will be placed before the country and the country will judge, and then the Select Committee will sit and deliberate over those details. Therefore, so far as those details are concerned, I do not express any opinion. But I do hope and trust that the constitution which will be given to the University will be a liberal one, that a large measure of independence will be accorded to the University authorities so as to enable them to do the fullest justice to the great work in which they will be engaged. For, My Lord, without real power there can be no sense of responsibility, and without responsibility there can be no efficiency. My Hon'ble friend, the Member in charge of the Education Department, has told us that 'trust' is the policy of the Bill. I welcome this. And he has asked us to believe in the good faith of the Government of India. Speaking from my place in this Council Chamber, weighed down by the sense of my responsibility as a member of the Council, I will say this, that we accept the assurance with alacrity and enthusiasm. We feel that if the Government of India did not interest itself in this matter, this project would not have reached the degree of success which it has attained.

"My Lord, my Hon'ble friend referred to one or two objections with regard to the Hindu University. But there are certain objections which have been urged by responsible people—at least in my Province, and I think it is only right and proper that I should allude to them, not, indeed, that I share them, but I should like the Council to know what they are. It has been said in some of the Bengal newspapers that this University will be a 'Citadel of Reaction.' I have no fears, no misgivings on that score. Knowledge, be it from the West or be it from the East, elevates and liberalises the mind, breaks down all narrow barriers. The Temple of Learning is the temple of brotherhood and of catholicity. Here within the walls of this University, the East and the West will meet; two parallel streams of knowledge will commingle and roll on a mighty and fertilising river scattering broadcast its richest blessings.'

"Another objection which has been taken to this University is that it is going to be a sectarian University. Be it so. All education is useful. If you look at the history of educational institutions in the past you will find that they were sectarian to begin with—dominated by religious considerations and religious motives.

"In the middle ages the Moslem universities of Seville and Cordova in Spain held aloft the torch of knowledge Later on the monkish institutions kept alive the flame. I am perfectly certain there are many who give a wide berth to our educational institutions at the present moment who will come and join this University. I have in view especially the Marwaris and the extreme section of the orthodox community. My Lord, in this country we want more schools, more colleges, more light, kindly light amid the encircling gloom.

"That was the gracious message of His Majesty to the people of India. The wish that was nearest to his heart was that there should be a net-work of schools and colleges spread over the land from which there might issue loyal, useful and manly citizens, able to hold their own in the varied vocations of life. Here is a definite substantial addition to the schools and colleges of th's country. My Lord, this institution also will partly fulfil the recommendations of the Education Commission of 1882 They urged that there should be different types of educational institutions, and it was mainly upon this ground that they urged the encouragement of private enterprise in matters educational. This University, My Lord, will impart religious education which is necessarily absent from the Government institutions. For these among other reasons, subject to an examination of details, and in the hope that the constitution of the University will be liberal, I desire to accord my whole-hearted support to the Bill which has been introduced."

[*Rai Bahadur Sita Nath Ray.*] [22ND MARCH, 1915.]

The Hon'ble Rai Bahadur Sita Nath Ray :—"My Lord, I am a Hindu and an orthodox Hindu, and as such take particular interest in the present Hindu University scheme; and in rising to give my humble support to the Bill just introduced, I may say that it will be hailed with intense satisfaction by my countrymen. It will open a new era in the history of the great educational movement in this country and so far as I can take a mental survey of the future, I see it has a bright prospect before it. I beg to take advantage of the present occasion to express our feelings of heart-felt gratitude to Your Excellency and the Hon'ble Member for Education for the kind permission accorded to the introduction of the Bill before us, for the establishment of a teaching and residential Hindu University at Benares. A better and more appropriate site than Benares could not have been chosen by the promoters for the location of the proposed University. The distinctive features of the proposed University will be that it will not only be a teaching and residential University, it will not only teach different kinds of literature, philosophy, science, technology, etc., it will not only promote research work in different branches of learning, but, what is more, it will also 'Promote the study of the Hindu *Shastras* and of Sanskrit literature generally as a means of preserving and popularising the best thoughts and culture of the Hindus and all that was good and great in the ancient civilisation in India, and it will also promote the building up of character in youth by making religion and ethics an integral part of education', which are so very necessary to build up a boy's character. My Lord, I say that nothing can be more deplorable, more subversive of discipline, more detrimental to the development of true manhood and character than to rear up tender boys in godless education, for I beg to assert that it is education dissociated from religion which is at the root of all anarchy and disregard for constituted authority It may not be out of place to mention here that one of the cardinal principles of the Hindu religion is absolute obedience and respect to the Sovereign who is regarded as a part of Divinity. It is therefore well that the promoters of the scheme have made religion the bed-rock of education.

"My Lord, I cannot sufficiently admire the boldness and liberality of spirit which has permitted a sectarian University to spring up, but I have no hesitation in predicting that nothing but absolutely good results will be the rewards of such generosity and high-mindedness.

"Now, a word or two about the promoters and initiators of this Hindu University Scheme. We shall be wanting in gratitude if, on this happy occasion, when the disinterested labours of the promoters are about to fructify, we were not publicly to declare our deep obligations to them and express our sincere appreciation of their disinterested labours. The initiation of the scheme is wholly and solely due to the genius and bold conception of our distinguished and much respected countryman and colleague, the Hon'ble Pandit Madan Mohan Malaviya, a man whom to know is to love and respect. Now, as the Panditjee is more a saint, a *sadhu* in the true sense of the word, and does not care for any pecuniary reward from his countrymen, the only other reward that I can promise him in abundance is that besides securing the unstinted regard and love of his countrymen, he will have his name enthroned in the hearts of his ever grateful countrymen.

"Next to my Hon'ble friend, another distinguished countryman of ours, who deserves prominent mention in this connection, is the illustrious and much respected head of an illustrious and princely house, I mean the Hon'ble Maharaja Bahadur of Darbhanga, for we owe the materialisation of the scheme primarily to the unceasing efforts and disinterested labours of the Hon'ble Maharaja Bahadur and the Hon'ble Pandit and our much respected friend the Hon'ble Dr. Pandit Sundar Lal; for it was they who did their utmost and it was their powerful advocacy and personal influence which succeeded in inducing the powers that be to give sanction to the scheme and it was they who at great personal sacrifice moved from place to place, from door to door, to raise subscriptions and I must say that it was the commanding personality of the noble Maharaja Bahadur and the influence of his high rank and position

[22ND MARCH, 1915.] [*Rai Bahadur Sita Nath Ray; Sir Fazulbhoy Currimbhoy; Mr. Setalvad.*]

combined with the persuasive tongue of our friend here that induced our generous and noble-hearted feudatory Chiefs and others to unloosen their purse strings in the cause of this noble scheme. It must be admitted that both by his princely generosity and personal and unselfish labours the noble Maharaja Bahadur has done much to have his name gratefully remembered by the present generation and the generations yet unborn.

"My Lord, I have to mention another prominent name in this connection. I come to it last, not because it is the least, but because it is difficult for me to find words in which to express all the feelings which rise in my heart in mentioning the name of one who though not of our own blood, though not of our own land, is still regarded as one of us Her love for us and our ancient ideals and culture, her unceasing efforts and ceaseless activities to bring the spirit of that ideal and culture again into this ancient land of ours, her steadfast devotion to that purpose have made the name of Mrs. Annie Besant a household word in every Hindu home. The Central Hindu College is the outward manifestation of that love and devotion and nothing can be more auspicious for the success of this movement than that it should be the nucleus round which a nation's hopes and aspirations will take concrete shape and form. Poor India cannot give her anything in return for those labours nor does she herself expect anything in return Her labours are labours of love in the true spirit of *Nishkam Karmayoga* for which her Maker and Master will reward her. Our prayer is that she may live long to continue in this Noble Path and may Lord grant her the health and strength necessary for it.

"With these few words I beg to give my humble support to the scheme."

The Hon'ble Sir Fazulbhoy Currimbhoy:—"My Lord, the Bill marks the success of my Hindu friends' philanthropic labours. I am glad the idea of a Hindu University had materialised, and it is now going to take a definite form and shape. The Hindu University will be the first experiment of its kind. For more than a century the controversy has been more or less vigorous over the ticklish question of secular *versus* religious instruction in our educational institutions Government, from its position, had to encourage a purely secular education so long. They could not accede to the prayer of the Christian Missionaries in the early days of English education in India; but now that the people themselves have come forward with definite schemes of denominational Universities, it is only right and proper that Government should encourage them. Everybody has realised the evil effects of education devoid of all religious or moral training, but so long as the people did not undertake to organise Indian education on a religious basis, nothing could be done to counteract them. With the Hindu University a new chapter is opened in the history of Indian education. Unlike the existing Universities, the vitalising force of the Hindu University will be religion, which ought to mould the plastic mind of the graduates into a different and more agreeable shape

"The Bill now goes to the country. Opinions will be collected about the details It is therefore not desirable that the provisions should be criticised now. Government, and especially the Hon'ble Education Member, have done their best to so modify the Bill as to make it acceptable to the Hindus, but with the fresh criticisms from the public I hope the Bill will be still further improved so as to tempt the sister community, the Moslems, to ask for the Charter, and so pave the way for the progress of the two communities on parallel lines.

"I cannot sit down without congratulting the Hon'ble Sir Harcourt Butler on the happy conclusion of his labours in this matter, and I am very pleased to be able to associate myself with the eulogy just bestowed on the Hon'ble Mover by the previous speakers. Although we can none of us grudge the higher appointment which awaits him, I am sure we shall regretfully part with the present Hon'ble Member for Education when the time arrives to do so."

The Hon'ble Mr. Setalvad:—"My Lord, I confess that I share to a certain extent the apprehensions of my Hon'ble friend Mr. Ghuznavi as regards the danger of having sectarian universities. When the shortcomings

[*Mr. Setalvad.*] [22ND MARCH, 1915.]

of the present Universities are animadverted on, I am afraid sufficient importance is not attached to the great unifying influences that these Universities have exercised all these years. I, for one, connected as I have been for many years with the University of Bombay, can testify to the great unifying influence that that University has exercised by throwing together young Hindus, Muhammadans and Parsees in the same colleges and in the same educational institutions. And what is true of the Bombay University, I feel, must be true of the Calcutta and Madras Universities and also of the Allahabad University. Holding these views and feeling that sectarian Universities might destroy that unifying influence which the present Universities are exercising, I, for one, would have welcomed a Bill which, instead of proposing to establish a Hindu University or a Muhammadan University, had proposed to establish an all-India University for Hindus, Muhammadans, Parsees and all other communities. When I say this, I am not unmindful of the fact that the Bill provides that students of all classes and creeds would be admitted into this University. But when you have a Hindu University established in this manner, and you have a Muhammadan University established side by side, the natural result is bound to be that Hindu students will flock to the Hindu University and Muhammadan students will flock to the Muhammadan University. That being so, I still entertain the apprehensions that I have of the danger of having sectarian Universities of this character and all the eloquent words which have fallen from the Hon'ble Mr. Banerjee have not dispelled these apprehensions in my mind. However, these are the views that I hold and there are other people who hold the same views, but if the Hindu and Muhammadan communities, as a whole, want sectarian Universities, no useful purpose would, I am afraid, I will be told, be served by at this stage running counter to their desire. But if that is to be, I hope and trust that those responsible for this University and this legislation will not carry sectarian divisions too far. For instance, the Bill provides that the Court in future shall consist only of Hindus; an exception is only made in the case of the present Court to effect the inclusion of Mrs. Besant therein. I do not see why that restriction should be laid down for the future. If those responsible for the University, if Hindus want to include in the Court in future Muhammadans, or Parsees, or Europeans to co-operate with them, there is no reason why liberty should not be given to them to do so, and why they should be deprived of their choice if they desire to make such a choice. Further, I, for one, do not view with any favour the introduction of compulsory Hindu religious education in the University; those who want it may certainly have that provided for them, but I do think that it will not be desirable to compel students to take religious education even if they do not desire it. Speaking of the present Universities, I was very pleased to hear the Hon'ble Mover say that they have served and are serving a very useful purpose, for we in Bombay, during the administration that preceded the present one, were always told in season and out of season that the University had been a failure and that it served no useful purpose, and that the sooner it was reformed root and branch the better. I was therefore very glad to hear the Hon'ble Sir Harcourt Butler say that so far the present Universities have exercised a good influence and they have done useful work. Your Excellency, I do hope that, when the Bill goes to the Select Committee, the various matters to which I have referred will be considered; whether it is desirable to make the Court exclusive, whether it should consist only of Hindus in future and whether Hindu religious education should be made compulsory. Then there is the question of Government control. Under section 19 of the Bill, very wide powers are given to Government. It runs as follows:—

19 (*1*). If at any time the Governor General in Council is of opinion that special reasons exist which make the removal of any member of the teaching staff desirable in the interests of the University, or that as a special measure the appointment of certain examiner or examiners to report to him is desirable to maintain the standard of University examination, or that the scale of staff of the University is inadequate, or that in any other respect the affairs of the University are not managed in the furtherance 'of the objects and purposes of the University or in accordance with this Act and the Statutes and Regulations.'

[22ND MARCH, 1915.] [*Mr. Setalvad; Pandit Madan Mohan Malaviya.*]

he may take various steps. These are very wide powers of interference in numerous details as regards the working of the University. No doubt, I recognise what the Hon'ble Mover has said that initially the whole administration is left mostly to non-officials, but I am afraid the control which is embodied in section 19 is of a very far-reaching character. I do hope that when the Bill is considered in Select Committee, attention will be given to that section. Then the Hon'ble Mover referred to the question of the Matriculation examination. This is no doubt a question on which there exists a sharp difference of opinion. I trust that when the Bill goes to the Select Committee that matter also will have proper consideration. As I have said, I share the apprehensions which I spoke of about the institution of sectarain Universities, but, I am afraid, that if both the communities desire legislation of this character and Government have committed themselves to it, it may be said that it is fruitless to run counter at this stage to their wishes. Reserving to myself full liberty to take such action as I deem necessary in public interests, I can only conclude in the hope that these apprehensions will not be realised and that ultimately good will come out of the present project."

The Hon'ble Pandit Madan Mohan Malaviya :—"My Lord, I should be wanting in my duty if I allowed this occasion to pass without expressing the deep gratitude that we feel towards Your Excellency for the broad-minded sympathy and large-hearted statesmanship with which Your Excellency has encouraged and supported the movement which has taken its first material shape in the Bill which is before us to-day. I should also be wanting in my duty if I did not express our sincere gratitude to the Hon'ble Sir Harcourt Butler for the generous sympathy with which he has supported and helped us.

"My Lord, I look forward to the day when students and professors, and donors and others interested in the Benares Hindu University will meet on the banks of the Ganges to celebrate the Donors' Day; and I feel certain that the name that will stand at the head of the list on such a day will be the honoured name of Your Excellency, for there is no donor who has made a greater, a more generous gift to this new movement than Your Excellency has done. My Lord, generations of Hindu students yet to come will recall with grateful reverence the name of Your Excellency for having given the start to this University. Nor will they ever forget the debt of gratitude they owe to Sir Harcourt Butler for the help he has given to it.

"I should not take up the time of the Council to-day with a discussion of the provisions of the Bill. The time for it is not yet. But some remarks which have been made point to the existence of certain misapprehensions which might be removed.

"Two Hon'ble Members have taken exception to the proposed University on the ground that it will be a sectarian university. Both of my friends the Hon'ble Mr. Ghuznavi and the Hon'ble Mr. Setalvad have expressed an apprehension that being sectarian, in its character, it may foster or strengthen separatist tendencies. They have said that the existing Universities have been exercising a unifying influence, in removing sectarian differences between Hindus and Muhammadans. My Lord, the University will be a denominational institution, but not a sectarian one. It will not promote narrow sectarianism but a broad liberation of mind and a religious spirit which will promote brotherly feeling between man and man. Unfortunately we are all aware that the absence of sectarian religious Universities, the absence of any compulsory religious education in our State Universities, has not prevented the growth of sectarian feeling in the country. I believe, my Lord, instruction in the truths of religion, whether it would be Hindus or Mussulmans, whether it be imparted to the students of the Benares Hindu University or of the Aligarh Moslem University, will tend to produce men who, if they are true to their religion, will be true to their God, their King and their country. And I look forward to the time when the students who will pass out of

[*Pandit Madan Mohan Malaviya.*] [22ND MARCH, 1915.]

such Universities, will meet each other in a closer embrace as sons of the same Motherland than they do at present.

"Objection has also been taken to the provision for compulsory religious education in the proposed University. My Lord, to remove that provision would be like cutting the heart out of the scheme. Many people deplore the absence of a provision for religious education in our existing institutions, and it seems that there would not be much reason for the establishment of a new University if it were not that we wish to make up for an acknowledged deficiency in the existing system. It is to be regretted that some people are afraid of the influence of religion: I regret I cannot share their views. That influence is ever ennobling. I believe, my Lord, that where the true religious spirit is inculcated, there must be an elevating feeling of humility. And where there is love of God, there will be a greater love and less hatred of man, and therefore I venture to say that if religious instruction will be made compulsory, it will lead to nothing but good, not only for Hindu students but for other students as well, who will go to the new University.

"My Lord, it has also been said that if sectarian Universities must come into existence, we need not carry sectarianism to an extreme. The Hon'ble Mr. Setalvad has referred to the provision in the Bill that in the University Court, which will be the supreme governing body of the University, none but Hindus are to be members. The reason for it needs to be explained. The University has to teach the *Vedas*, the religious Scriptures, and to impart instruction even in rituals and other religious ceremonies which are practised by Hindus. The Bill provides that there shall be two bodies in the institution, the Court and the Senate. The Court will be the administrative body, will deal mainly with matters of finance and general administration, providing means for the establishment of Chairs, hostels and other institutions. The Senate will be the academic body, having charge of instruction, examination and discipline of students. Well, membership on the Court has been confined to Hindus in order that Hindus who may make benefactions in favour of the institution should feel satisfied that their charities will be administered by men who will be in religious sympathy with them and in a position to appreciate their motives and their desires. With that knowledge they will make larger endowments to support the University than they would make if the endowment was to be administered by men of different persuasions and faiths. There is nothing uncharitable in such an arrangement. Besides this, there is a second reason. When the Sanskrit College was first established in 1793, in the time of Lord Cornwallis, there was provision made for the teaching of the *Vedas* and other religious books in it. Later on, some missionary gentlemen took exception to the idea that a Christian Government should encourage the teaching of what they described as heathen religion; and for that reason the teaching of religion was stopped in that institution. In formulating proposals for the Benares Hindu University, it was felt that, so far as possible, no room should be left for any apprehension which might prevent religious-minded Hindu donors from making large contributions to the University, and that the best means of giving them an assurance that instruction in Hindu religion shall always be an integral part of the education which the University will provide, and that their religious endowments will be administered in conformity with their wishes, was that the membership of the University Court should be confined to Hindus. There is, however, no such restriction in regard to membership of the Senate. In the Senate, which will be the soul of the University, we shall invite co-operation, we shall seek it and welcome it. Fully one-fourth of the Senate may not be Hindus. There will be no disqualification on the ground of religion in the selection of professors. No restriction is placed upon students of any creed or any class coming to the University. It will thus appear that while we confine membership on the administrative body of the University, the Court, to members of the Hindu community, we keep open the Senate which, as I have said, is the soul of the University, to teachers of every creed and race. That is a real provision. And we intend to get the very best teachers irrespective of any consideration of race or creed, from whichever part of the world we can, in order that our students should sit at their feet and learn the knowledge that they can impart.

[22ND MARCH, 1915.] [*Pandit Madan Mohan Malaviya ; Sir Harcourt Butler ; Mr. Clark.*]

"I should like to say one word more with regard to the provision that religious instruction should be compulsory in the case of Hindu students. It has been said that we should not make it compulsory even for Hindu students, as it might keep some Hindu students who do not desire to receive religious instruction, from the benefit of education at the Hindu University. But, my Lord, in the first place, the general religious instruction which will be imparted will be such as will be acceptable to all sections of the Hindu Community In the second place, a number of Hindu students at present attend missionary institutions where the study of religion is compulsory So I hope that even those Hindu students who may not appreciate the teaching of religion, will not be kept away from the proposed University on the ground that religious instruction will be compulsory there.

"I do not think, my Lord, that I need take up more time at present. I beg again to express the gratitude that I am sure millions of Hindus will feel towards Your Excellency's Government, and personally towards Your Excellency, and towards Sir Harcourt Butler, when they hear of the Bill which has been introduced here to-day."

The Hon'ble Sir Harcourt Butler :—"I think the Government and the University Committee have every reason to be glad of the reception that this Bill has received in Council. It will be considered in detail hereafter, so I will not detain the Council any further now."

The motion for leave to introduce the Bill was put and agreed to.

The Hon'ble Sir Harcourt Butler :—"My Lord, I introduce the Bill, and move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the *Gazette of India* in English and in the local Official Gazettes in English and in such other languages as the Local Governments think fit."

The motion was put and agreed to.

THE INDIAN PATENTS AND DESIGNS (TEMPORARY RULES) BILL.

The Hon'ble Mr. Clark :—"My Lord, I move that the Bill to extend the powers of the Governor General during the continuance of the present war to make rules under the Indian Patents and Designs Act, 1911, be taken into consideration."

The motion was put and agreed to.

The Hon'ble Mr. Clark :—"My Lord, I beg to move as an amendment that in clause 4 of the Bill the following words be added, namely :—

'and the power to make rules conferred by section 3 (1) (e) of this Act in respect of anything to be done under the Indian Patents and Designs Act, 1911, shall be exercisable in respect of anything to be done under the Inventions and Designs Act, 1888.'

"The reason for this amendment is a very simple one. Under the Inventions and Designs Act, 1888, 'patents' did not exist. An inventor was given what was called an 'exclusive privilege'. When the Indian Patents Act, 1911, was passed, the holders of exclusive privileges were allowed the option of converting these into patents. Very many of them preferred not to exercise this option, with the result that a large number of exclusive privileges are still in force Certain conditions attach, *e.g.*, the payment of fees to the possession of an exclusive privilege, and it is no less necessary that the Controller should have power to condone delays or other defaults committed in respect of them

than in the case of patents held under the Act of 1911. This necessity was not foreseen till at too late a stage to provide for it in the Bill as introduced; therefore the amendment in necessary now."

The motion was put and agreed to.

The Hon'ble Mr. Clark:—"My Lord, I beg to move that the Bill, as amended, be passed into law."

The motion was put and agreed to.

THE DELHI LAWS BILL.

The Hon'ble Sir Ali Imam:—"My Lord, I move that the Bill to declare the law in force in certain territory added to the Province of Delhi be taken into consideration."

The motion was put and agreed to.

The Hon'ble Sir Ali Imam:—"My Lord, I move that the Bill be passed."

The motion was put and agreed to.

The Council here adjourned for lunch, and after lunch **The Hon'ble Sir Harcourt Butler, the Vice-President, took the Chair.**

RESOLUTION *RE* HIGH PRICE OF WHEAT.

The Hon'ble Pandit Madan Mohan Malaviya:—"Sir, before I proceed to discuss the resolution of which I have given notice, I beg leave to amend it by adding at the end of the first clause, the words 'or to take such other steps as he may be advised to bring the price of wheat down to a reasonable level and to maintain it at such level.' The resolution will then run as follows:—

'That this Council recommends that the Governor General in Council may be pleased to prohibit all export of wheat from India until the price of that commodity comes down to 9 seers per rupee, and whenever it rises above that rate, or to take such other steps as he may be advised to bring the price of wheat down to a reasonable level and to maintain it at such level.'

"The Council is aware that there has been an abnormal rise in the price of wheat and of other cereals. There has consequently been a great deal of suffering among the great bulk of the people. How great the rise has been is evident from the index numbers given at page 34 of Mr. Datta's valuable report on the elaborate and painstaking inquiry made by him into the rise of prices in India. We find that taking the average of the prices of wheat during the quinquennium 1890-94 as 100, in 1890 it stood at 94 and in 1912 at 134! *i.e.*, that in the course of 22 years, the price of wheat had risen by nearly 42·5 per cent! During the last two years also the price of wheat has been abnormally high. But never did it rise so high as during the last few months. In the great famine of 1897, the price of wheat was indicated by the number 149: in that of 1900, by 134: so that the price was as high in 1912 as it was in the famine year 1900. Since the war broke out, the price of wheat, as I have said, has gone up much higher. Wheat has sold at the rate of 6 seers the rupee, a rate which was never known to the people of this country before.

[22ND MARCH, 1915.] [*Pandit Madan Mohan Malaviya.*]

"Now, Sir, the consequent suffering to which the people have been exposed has been immense; it has been deep and widespread. Its intensity is not fully and clearly realised because of the patience with which the people have borne it. We have no doubt had some riots in the Punjab which have been ascribed to this cause; but the fact that in the presence of such deep and wide-spread suffering throughout the country the people have borne this calamity with the patience with which they have, is a phenomenon, I venture to say, that will hardly be seen in any other country.

"Wheat is the staple food of the people of Upper India Mr. Shapoorji Broacha, writing in a letter to the "Times of India," said that except in the Punjab in every other part of India wheaten bread is a luxury bread. But he is entirely mistaken there: bread is not a luxury with the people of Upper India: With the people of the Punjab and the United Provinces and with a great many people in the Central Provinces, wheaten bread is the staple food, and to deprive them of it or to make it unavailable to them, is practically to starve them Mr. Broacha says no famine is to be feared, even if the whole wheat were to go. He talks so lightly of the export of wheat because it does not touch his province.

"The total area under wheat cultivation in the whole of British India in 1911-12 was a little more than 25 million acres. Out of this 23 million acres were accounted for by the Punjab, the North-West Frontier Province, the Central Provinces, Bihar and Orissa and the United Provinces of Agra and Oudh, and the balance, less than two million acres, by Bombay, Madras, Bengal, Assam and Burma In the Punjab and the North-West Frontier Province nearly 50 per cent of the area under food grains was under wheat; in Agra and Oudh about one-fifth; in the Central Provinces about one-fifth; and in Bihar and Orissa about one-twenty-fourth, so that Bihar and Orissa may fall back upon other cereals if there is a scarcity of wheat, as it has got an area under rice cultivation there nearly 15 times that of the area under wheat. But the rest of the wheat-producing provinces, where that commodity is the principal article of food, must be hard hit by a rise in the price of wheat. It is not a question with the people of those provinces, as Sir Shapoorji Broacha wrongly says, of making money out of wheat. It is a question with them, primarily of their very existence. Let us see what are the other food grains, produced in the wheat-producing provinces. They are rice, barley, jowar, bajra, maize and gram and pulses The Punjab and the North-West Frontier Province have very small areas under rice cultivation. The United Provinces and the Central Provinces combined have nearly as large an area under rice as under wheat. But the area under gram in the United Provinces, the Punjab and the North-West Frontier Province is equal to nearly 75 per cent of the area under wheat, and the price of gram has also risen very high Other provinces which do not produce wheat can therefore afford to live on other cereals than wheat, and as a matter of fact they live on them in normal times. But in the case of the people of the wheat-producing provinces, particularly the Punjab, the United Provinces and the North-West Frontier. Provinces, that commodity is absolutely indispensable and no greater hardship can be imposed upon them than if they cannot get their wheaten bread. It ought also to be remembered that the people who have supplied the most important—the hardest fighting—elements to the Army, are people who live upon bread. The Indian soldiers who serve His Majesty the King-Emperor are largely drawn from the Punjab, the United Provinces and other areas from the people with whom wheat is the staple food. This being so, the suffering caused by the dearness of wheat in Upper India is a matter of the gravest concern.

"Now, Sir, in earlier times when there has been a rise in the prices of wheat, it has been due to the failure of the rains and to the famine caused thereby. The people have learnt to bear that calamity as a *vis major*. The relief operations which the Government organises at such times have taught the people to understand what the Government does to mitigate their distress But the rise in the price of wheat that has been going on year after year owing to the operation of causes which can be controlled by Government

[*Pandit Madan Mohan Malaviya.*] [22ND MARCH, 1915.]

has been creating a different feeling. And apart from the special circumstances belated by the war, in view of the high rise in the price of wheat owing to those causes, it is necessary that the Government should consider what measures can be adopted to secure a permanent relief to the people in this to them a vital matter. The causes of the rise in the prices of food-stuffs have been many. They have been very ably summarised and discussed in Mr. Datta's report. I do not think I should detain the Council by going into all of them, but there are some to which attention should be drawn. One of the important causes to which Mr. Datta has invited attention is that the growth of the area under food crops has not kept pace with the growth of population and the requirements of the country. Mr. Datta says at page 61 of his report : 'Considering the growth of the population and the increase in the external demand, the supply has been short during the greater part of the period embraced in the inquiry'. In another place (page 188) he says :—

'In recent years the production of food-grains has not been keeping pace with the population. This would explain the almost continuous rise in the price of food grains'

"Another factor which has been at work is the taking up of an increasingly large portion of the culturable area by commercial crops The area under commercial crops has increased in a higher proportion than the area under food crops, that is that the total area which should have come under food crops has not come under them.

"The Government of India have in their resolution disagreed. They say :

'So far as trustworthy statistical evidence is available it would appear that the area under food crops has increased in almost exact correspondence with the growth of the population,' they say further that 'no reliable estimate of the outturn during the period under review can be framed.'

"But, Sir, there is a large body of opinion which think that this is one of the causes of the rise in the price of food-stuffs, and the matter requires further consideration.

"In addition to the two causes mentioned above, there has been another, and a very important one, which has been the export trade. As Mr. Datta says 'The development in the means of communication (in India) apart from its levelling effect already referred to, has brought all parts of this country into much closer touch with foreign markets and has thus immensely facilitated and enhanced the influence in the direction of a rise'. The demands of the export trade have been growing, as the facilities for transporting wheat from one part of the country to another have been increasing. Indian wheat is now carried to countries where the people have a much higher average income than the people of India have. They are able to pay a much higher price for wheat and other commodities than our people can and which they would not have to pay but for this international trade. This trade has been growing and consequently the rise of prices has been growing also. Mr. Datta rightly says :

'It is to this immensely enhanced demand for Indian commodities of export that the relatively larger rise in the Indian price level as compared with that of other countries is probably to be attributed.'

"In this state of affairs it has become the imperative duty of the Government to consider what measures should be adopted to bring down the prices of food-stuffs to a reasonable level and to maintain them at such level. The conditions are peculiar and they require special measures to be adopted, when you offer facilities to the people of countries where the average national income is say 15 or 20 times the average national income of the people of India to obtain food-stuffs from your country at a much higher price than would be obtained for it in the country. The price which can be obtained in foreign countries thus comes to regulate the price of wheat in this country. But the people here have got a much lower average income, and they consequently find it increasingly difficult to obtain the wheat that they want at the price which they can pay, and suffer a great deal of hardship. If the export trade did not come into play,

[22ND MARCH, 1915.] [*Pandit Madan Mohan Malaviya.*]

if it did not seriously affect the situation. I am certain that the prices of food-stuffs, and particularly of wheat, would not have been risen as greatly as they have. This would suggest, Sir, the desirability of considering the question whether an export duty should not be imposed upon wheat. But I am not taking up that question at the present moment; because even if an export duty were imposed upon wheat, it would not meet the situation with which we are faced at present. It would still permit people who want to speculate in wheat to purchase as much wheat as they can and to ship it to places where there is the greatest demand for it.

"What is necessary for the immediate present is that the Government should adopt effective measures to prevent wheat going out of the country except when it can be spared without pinching the people. As an export duty will not serve that purpose, the only measure that struck me as feasible is that all exports should be prohibited until prices came down to 9 seers a rupee.

"In the *communiqué* which they have issued, the Government have prohibited export by private parties They have however allowed export through recognised channels. That *communiqué* has not given satisfaction to the public. The measure has not brought the prices down There was a fall in prices for a little while; but prices have gone up again and have recently been going steadily higher. That decision of Government has failed to bring down prices; and an export duty, as I have said, does not seem likely to effect that object. The object of my resolution is to ask the Government to take some step which will be effective in keeping sufficient wheat in the country to enable the people to get it at the price which they can pay for it. I do not claim that the suggestion which I have put forward is the only one which should be taken into consideration. My object is that the need for more effectively regulating the export of wheat should be recognised by the Government. If the Government would recognise that in the special circumstances of the country it is essential that it should take effective steps to regulate the export trade in order that prices may come down to a reasonable level, I would be content. But such action is necessary, because unless Government intervene—and intervene effectively—to check the export of wheat, prices will continue high and I fear the patience of the people, which has been sorely tried, will be exhausted, which may lead to unhappy results.

"It may be said,—it has been said, that if the Government intervene to prohibit export or to regulate it in any such manner, as I have suggested, cultivators will suffer. Now, Sir, I am the last person to wish that the cultivators should suffer. The cultivators do deserve much sympathy; but sympathy should be shown to them in other ways than by allowing them to export wheat freely and to obtain inflated prices to the injury of the community The sympathy which should be shown towards the cultivators should, in my opinion, be in the direction of a general reduction of rent all round That is the way in which they can be benefited. But so far as the export of wheat is concerned, there are other parties also whose interests and requirements have to be considered. The cultivator may make a little larger profit if there is no restriction imposed upon the wheat trade; but the great bulk of the people suffer and there is no means of relieving them of the hardships to which they are exposed. The Government have recognised the principle that they should intervene to reduce the sufferings of the people due to high prices. The Government pay allowances to their low-paid servants. The Government have also paid allowances to some of their highly-paid servants, whenever in their opinion, there has been occasion for taking such a step, as witness the recent temporary increase to the salaries of certain civil servants. These examples show that when Government are convinced—they may be right or they may be wrong, and there may be differences of opinion about the justice of their decision; but my point is that whenever Government think that relief should be given to any of their servants—they do not hesitate to give it Now, the giving of increased salary to Government servants means taking so much more away from the taxpayer's money. But the Government recognise that in certain circumstances and to certain classes of people, the Government should afford aid in this manner, and what I want the Government now to

[*Pandit Madan Mohan Malaviya ; Mr. Clark.*] [22ND MARCH, 1915.]

consider is whether in the present economic situation some measure cannot be adopted whereby the general bulk of the people may benefit. The aid which Government give to low-paid Government servants benefits only an infinitesimal section of the people. I don't know that the number of persons in Government service is quite 2 per cent of the whole population, and the persons who are in receipt of small salaries must be very much smaller. And I do not know that there are many private individuals who are giving famine allowances to those under their employ ; and I submit that no such special measure, intended to afford temporary relief to a small class of persons, can be of any avail to the general bulk of the people in the presence of the wide-spread suffering to which they are exposed by reason of the prevailing high prices The only way to secure any relief to the people is to bring down those prices What is the best means of effecting that desirable end is a matter upon which opinions may differ; but I do hope that opinion will be united on the main question, namely, that the Government should intervene to secure their staple food to the general public at more reasonable rates than they have to pay at present. As regards the principle of interfering with the cultivator's profits, I may say that all taxation is an interference with the profits of individuals—all taxation means the cutting down of incomes more or less—and the Government does interfere to limit the profits of individuals, to regulate the prices of certain things whenever it thinks that such action is necessary in the interests of the public weal. For instance, in the Excise Department, they do not allow vendors in excisable articles to charge prices that they might charge if they were altogether free to do so. So also in many other things Take the case of rent of land. The Government do not allow zamindars to fleece their tenants to the extent that some of them might wish to. They have by legislative enactments largely prohibited landlords from raising rents except in accordance with the provisions of the law I need not multiply instances of this kind. If the Government are satisfied that there is a pressing need for bringing down the prices, and that until some effective step in that direction is taken by the Government, the people's suffering cannot be mitigated, then I am sure the Government will not on any principle hesitate to adopt the means that may, in their opinion, be likely to secure the end in view. No principle of political economy can be of such universal and rigid application as to stand in the way of Government doing so. In all public questions, as His Excellency the Viceroy was pleased to observe the other day, '*Salus populi suprema lex*'. If the Government find that in the particular set of circumstances in which we find ourselves, it is necessary to adopt some such special measures as I have recommended, then, I feel sure, every principle of political economy and political science will support the action of the Government. I do not think, Sir, that I need take up the time of the Council by dwelling further on this question. My object has been simply to invite attention to the pressing need for some effective action, and that I think I have done.

"As regards the second part of my resolution, I would, with your permission leave out of it the suggestion for the fixing of maximum prices."

The Hon'ble Mr. Clark:—"I understood the Hon'ble Member to have omitted the whole of the second paragraph."

The Hon'ble Pandit Madan Mohan Malaviya:—"Very well, I drop the second portion of the resolution, Sir. In some provinces in the Punjab the Government has taken action to open cheap grain shops. This has brought relief to the poor. I do not know that this has been done to any large extent in other provinces. In the United Provinces, cheap grain shops have, I am told, been opened at Agra. My object in putting in the second clause was that, when it may be necessary, Local Governments may be asked to make a much larger use than they seem to have done of the Articles of Commerce Ordinance, 1914, to adopt such measures of relief as the fixing of maximum prices, the opening of cheap grain shops and the grant of compensation for the dearness of food-grains to their lower-paid employés. I expect that

[22ND MARCH, 1915.] [*Pandit Madan Mohan Malaviya ; The Vice-President ; Mr. Clark.*]

if the first part of the resolution commends itself to Government, and some suitable action is taken to give effect to it, there will be a lowering down of prices, and in that case it will not, I hope, be necessary to draw the attention of the Local Governments to the second part of the resolution. I hope the Hon'ble Member for Commerce and Industry will see his way to accept the resolution and to devise some effective means whereby the much-needed relief may be secured to the people."

The Hon'ble the Vice-President:- "The second part of the resolution is by permission withdrawn."

The Hon'ble Mr. Clark :—" Sir, I understand it will be for the convenience of Council if I rise earlier than is usual in the debate, as Hon'ble Members would like to have before them a statement of the action which Government propose to take in this matter, before they proceed further with the discussion. But I think first of all there is one point which ought to be made clear. When I saw this resolution first on the paper, I certainly understood that it related to the special conditions arising out of the war, and was prepared to discuss it on that basis. But I gather from the speech which the Hon'ble Pandit has just delivered that he wishes to raise the much wider question of Government regulating trade and prohibiting export during periods of high prices, even under normal conditions. That has not been contemplated by Government, and certainly was not in our minds when we issued our recent communiqué. I submit that Council would be well advised as far as possible to restrict our discussion to what is the only live issue at the present moment, namely, what is to be done in the present conditions arising out of the war.

"The question of the high prices of wheat which forms the subject-matter of this resolution, is one of the most momentous economic problems with which Government have had to deal during the currency of the war. The situation which has recently existed in India is unparallelled probably in the economic history of the country. Since the early days of February, there has been every reason to anticipate, unless some unforeseen disaster should occur, one of the largest wheat crops on record. Yet up to the date of Government's recent announcement prices have not fallen but rather have continued to rise. It is not surprising in these circumstances that Indian consumers should feel the contrast between the high level of prices and the indications of a bounteous harvest about them, to be bewildering and even sinister; and that wild reports should have been circulated of the whole crop having been bought up, and other dangerous and baseless rumours of the kind. They do not understand, and they could hardly be expected to understand, that the same forces, the cheapness and efficiency of communications, which have added so largely to India's wealth by bringing her produce into the markets of the world, expose her also to heavy demands when the world's produce falls short of its requirements. They do not realise that prices are not fixed at Lyallpur or Montgomery or even by the foreign dealers at Karachi, but are the result of world-movements which are affected by acts of war, such as the closing of the Dardanelles; by a drought in Australia or a late harvest in the Argentine; or by the activities in the Chicago wheat-pit of operators, who regard wheat as a gambling counter rather than as a necessary foodstuff of mankind. There has been, therefore, not only very real economic distress, but great discontent and disturbance of men's minds owing to this continuance of the high price of wheat. On both aspects of the case, both for the sake of relieving the actual distress and in order to allay the alarm and unrest which has ensued, it was imperative that Government should take action. I am very glad that the Hon'ble Pandit by bringing forward this resolution has afforded Government an opportunity of which I will presently avail myself, of explaining to Council the course on which we have decided. Before doing so, however, I think it is desirable that I should set forth a little more fully the various and complex factors with which we have had to deal.

[*Mr. Clark.*] [22ND MARCH, 1915.]

"Prices of wheat did not rise immediately on the outbreak of war or, indeed, for some time later. In Lahore, which I will take as a typical market, retail prices stood at nearly 11 seers to the rupee at the end of July, and by the middle of October they were still 10 seers to the rupee. From then onwards there has been a steady increase in prices. By the end of October only a little over 9 seers could be bought for the rupee. By the middle of November the quantity had dropped by nearly a seer. The rise in price was then arrested till about the end of January, when, just at the time when a fall might have been expected, a further increase took place, and by the middle of February only 6½ seers could be bought for the rupee. After this, there was no further relief until after Government had announced near the end of February their intention of prohibiting all private export after the 1st April. There have in effect been two sets of circumstances affecting prices during the period of the war; firstly, the causes which led to the rise at the end of October and which were concerned mainly with the old crop; and secondly the causes leading to the further rise in price in February and counteracting the effect on prices which should otherwise have been produced by the promise of the new crop, then well in sight. The crop which was harvested in the spring of 1914 was an unusually poor one, especially in the United Provinces. The yield was 1¼ million tons less than that of the preceding year and the acreage sown with wheat was nearly 2 million acres less. On the other hand, exports also were very much smaller than usual, partly owing to the disturbance of trade caused by the outbreak of war which practically stopped shipments in August, usually a large exporting month. Hence, when prices began to rise at the end of October, there was good ground for assuming that there were still considerable stocks in the country, and the first action taken by Government in the matter was to pass the Articles of Commerce Ordinance, which gave Local Governments power to inquire into the question of stocks, and if necessary, to take over such as might be unreasonably withheld. Shortly afterwards, in consultation with the wheat trade, Government decided to restrict the export of wheat and wheat flour from the beginning of December to the end of March to a definite quantity, namely, 100,000 tons. With the inclusion of flour this represents about the normal amount shipped in those four months, and it may therefore be argued that Government should have fixed the quantity lower; but it must be remembered that, owing to the war, as I have already pointed out, exports in the ordinary exporting months had been very much smaller than usual. It is impossible to estimate the exact figure of stocks available in the country last October, but we know this much, that an extra demand of over 200,000 tons was made on them for seed for the additional 6 million acres put under wheat, an amount more than twice as large as the total exports authorized between 1st December and 31st March This was a serious deduction from the existing stocks which the enquiries made under the ordinance have shown to be would be dangerously low, probably the lowest, in proportion to the wheat-consuming population, for many years past. The prohibition consequently was not effective in bringing down prices, but it undoubtedly had a beneficial effect in steadying prices at the moment, and looking back on the situation in view of the fuller knowledge which we now possess, I doubt whether even a total prohibition at that time would have greatly relieved prices in India. It soon, therefore, became clear to Government that no substantial relief could be hoped for until the incoming crop began to produce its effect, and in order to alleviate distress, compensation for the dearness of food-grains was given under the ordinary rules, and grain shops were opened in Lahore and Delhi and other urban areas, at which grain was sold below market rates.

"So far, the causes which produced the rise were for the most part not of an unusual kind, and the war, except for its generally disturbing effect, was not, I think, a very important factor in the increase The rise began at a time when prices are generally on the up-grade owing to the depletion of the old crop; there had been no severe drain on India by export, and there were no indications of the holding up of stocks. There seemed good reason to hope that when the new crop came in sight, prices would decline. These hopes were

[22ND MARCH, 1915.] [*Mr. Clark.*]

disappointed by a new set of conditions which had by then begun to operate. The prices of crops in India are usually governed more by the external demand than by the internal: but in any case by whichever of them happens at the time to produce the highest price. If there has been a preceding shortage, and holders in India are anxious to add to their stocks, a higher price than the world will pay will result in ordinary circumstances from the local demand, and there will be no wheat to be seen at the railway stations or on the quays, until the holders in India are satisfied. The current year is one in which such a state of things would normally have come about but for the extraordinary demand in Europe. So abnormal has been that demand that prices of wheat in England instead of ranging about 35 shillings a quarter, have reached 60 shillings a quarter and the price of flour has risen to a higher level than at any time in the last 30 years. It must be remembered that vast though is the world's production of wheat, the surplus available for export from each exporting country is comparatively small in proportion to its production. Consequently, a shortage may be brought about by circumstances which interfere with even a comparatively small part of the world's sources of supply. The consuming countries, too, have become so used to dependance on the exporting countries, that they look for a steady stream of supplies being kept up throughout the year, and the failure of some of the tributaries to this stream may for a time at least mean high prices. Europe, of course, with its huge urban populations is the great importing area. In July the winter wheat begins to arrive from North America; in August the local crops are coming in, and in September the balance for the countries which cannot feed themselves, is drawn from the American spring crop. In October the Russian wheat begins to move, and the Canadian wheat comes in a little later in the year. In February, March and April, the Argentine and Australian crops are due, and the Indian wheats, as we all know, begin to move in May and June. What has happened this year? The Dardanelles were closed just when the Russian crop was beginning to move, and probably 10 million quarters or roughly 2 million tons of wheat, are locked up awaiting shipment from Russian ports. Australia has suffered from a severe drought and is actually importing wheat instead of exporting. Bad weather has delayed the harvesting of the Argentine crop The war has not only closed the Dardanelles, but has greatly affected production in the Balkan States. It has devastated Belgium, and France, which in good years is self-supporting, has become an importer. There is a shortage in the world's shipping owing to the great number of ships taken up by Government, which has still further delayed the shipment of the Argentine crop, and there has been increased consumption due to the maintenance of vast armies in the field. But the point on which I specially wish to lay stress is, that circumstances have combined to bring about a special shortage in these present months. The United States have the largest crop on record, and when that crop begins to arrive in Europe in July, there is very little doubt but that the shortage will be at an end. The serious aspect of the case from India's point of view is the intensity of the demand which, unless the Russian crop is released, must so far as we can foresee, exist up to the end of June. We have in sight now, humanly speaking, one of the largest crops that has ever been harvested in India. The latest forecast shows an area of 32 million acres or 6 million acres more than last year, and the condition and prospects of the crop are on the whole very favourable, but we have already seen how little effect this has produced on prices in view of the high level of the world's price, and there is the undoubted danger, if Government took no action, that the new crop, as it is harvested, would be swept out of the country. Some reduction in the world's price would thus no doubt be brought about, but only sufficient very slightly to modify prices in India The Government of India have therefore, after the most careful deliberation, come to the conclusion that in these circumstances it is their clear duty to intervene. We could not contemplate with equanimity the prospect of the wheat consumers of India having to bear the burden of high prices throughout another 3 months. It has been argued that since the existing restriction on export failed to reduce prices, a further prohibition or restriction would equally fail; and no less an authority on commercial and financial questions than Sir Shapurji Broacha has

[*Mr. Clark.*] [22ND MARCH, 1915.]

contended that Government by prohibiting export would be depriving India of a great accretion of wealth and that there is no case for so doing, since the wheat-eaters of Northern India would be fed on Burmese rice and other grains even if all the wheat in the country were to go. The first of these contentions overlooks the difference in the conditions between the beginning of the cold weather and the present time to which I have already called attention. As to Sir Shapurji Broacha's views, while they deserve all respect, I do not think the Hon'ble Members who represent wheat-consuming districts in India would agree that a transference from one food to another can be so easily achieved. I hope, too, that I shall be able to show, before I sit down, that it is not impossible to devise a scheme which, while safeguarding the interests of the consumer, will yet secure for India the profits due to her this year as a great wheat-producing country.

"I am afraid I am making a considerable draft on the time of Council, but I feel it is very important that Hon'ble Members should recognise the complexity of the questions which arise out of the situation, and indeed which are apt to arise in any circumstances in which policy points to interference with the ordinary courses of a highly organised trade. From what I have just said, it will be seen that the primary problem before Government has been how to nullify the effect in India of the world market price, or in other words how to remove India from the world market. Unless we do so, it is morally certain that high prices must continue until the world's available supplies are restored to something like their normal level. A simple means of achieving this end and of safeguarding Indian prices would be merely to prohibit all export, but there are other factors to be considered. The amount consumed in this country is a fairly constant quantity, and it is absolutely certain that this year there will be a large surplus available for export over and above what is required for consumption. It would be equally unnecessary and unjustifiable to lock up this surplus indefinitely—a course which would be unjust to the agriculturist, and would mean a very serious loss to the country. Our interest, especially at a time when a heavy strain is being placed on our finances, lies in the maintenance of our export trade, so far as we can legitimately do it, having due regard for the consumer. Not only is our interest involved, but all subjects of the Crown in India, British and Indians alike, wish in this great crisis to render what help they can to the Empire, and that wheat should be permitted to leave our ports, in whatever quantities can be spared, is in present circumstances no small matter to England. There is no question here of any clash of interests; certainly no question of the interests of India being sacrificed to those of the United Kingdom. I may remind Hon'ble Members of the words used by the Prime Minister in this matter in the House of Commons. 'I do not think', he said, 'that I ought to say more now than that steps are being taken which we hope will prove effective, to make Indian wheat available in as large quantities as is compatible with the interest, which we must always keep in view, of the Indian consumer at home'. Those words admit of no doubts or suspicions on that head, and I may add that in the communications on this subject which we have had with His Majesty's Government it has always been perfectly clear that the interests of the Indian consumer are to stand first. If, however, some export is to be permitted, the question arises how it is to be controlled so as to prevent prices being constantly forced up again by rapid and excessive shipments. And, further, if we are successful in creating in India a price below the level of the world outside, and if some wheat is allowed to be exported, it becomes clear that whoever is able to buy at Indian prices and to sell at world-prices will make very large profits, and the question arises who is to benefit by this windfall. We have had to weigh most carefully the problem of how all these conditions were to be met, before deciding upon our course of action.

"There has been more than one alternative proposal in the field, and these have been carefully examined. The Hon'ble Pandit's resolution recommends that the Governor General in Council should prohibit all export of wheat until the price comes down to 9 seers per rupee, and whenever it rises above

[22ND MARCH, 1915.] [*Mr. Clark.*]

that rate. Another course which has been urged in quarters which command respect, is that of an export duty sliding on a scale corresponding to the fluctuation of prices. It is only right that I should say a few words in regard to these two expedients and our reasons for not accepting them. The primary objection to the proposal advocated in the Hon'ble Pandit's resolution is that it tends to fix not only a maximum but a minimum price; in other words, that while it might secure that prices would not rise above 9 seers to the rupee, it tends to prevent them falling to a lower level. An arrangement of the kind is also very disorganising to the trade. We are all agreed that the interests of the consumer must come first, but we are also all agreed, I think, that it is very desirable, primarily for the sake of the cultivator, that there should be no unnecessary impediment in the way of exportation of such surplus as may be available, when the needs of the consumer have been met. We require, in fact, a machinery which, while effecting the necessary control, will avoid as far as possible creating conditions which will be unnecessarily adverse to trade. On this aspect of the case, the fact that at any moment export might be stopped through causes quite outside the control of the individual trader, would be a serious deterrent to business, and therefore would be very prejudicial to agricultural interests On the other hand, in such business as would be done, the exporter would secure for himself the wide margin of profit between the price which we hope to create in India and the price in the foreign market, and it is very open to question whether this should be accepted as a necessary consequence of prices being reduced in India through Government's action. The proposal for an export duty to some extent meets this latter difficulty, as the duty when export takes place secures part at least of the profit to the State. But the proposal is open to the same objection as that put forward in the Hon'ble Pandit's resolution, that it would inevitably create instability of the market. It also seems to me that it would be extremely difficult to adjust the duty, even with the device of a sliding scale according to fluctuations of prices, in such a way as to allow exports to take place up to a reasonable amount, while still effectively controlling price-levels in India.

"I have now, Sir, discussed the difficulties of the situation and certain alternative solutions, which have been suggested, and I will not further withhold from Council the action which Government have in view. The course which Government propose to adopt is, if I may say so, bolder and more comprehensive than the remedies which I have discussed so far. We propose no less a matter than taking over the whole control of the export trade. Our communiqué foreshadowed this in that it stated that, after the 1st of April, no private export of wheat would be allowed. What we propose is that wheat for export shall only be bought on behalf of Government and only shipped on behalf of Government. We shall therefore prohibit the export of wheat except on behalf of the Crown from the 1st April to the 31st of March next year. (We have decided, I should explain, to extend by another three months the period of prohibition originally announced in our communiqué.) It is our desire, as far as possible, to avoid interference with the ordinary channels of trade, and we propose, therefore, to employ as our agents in this business firms who normally conduct the export trade of wheat in India. We propose to appoint a special officer, who will be known as the Wheat Commissioner, with a sufficient staff, to supervise operations in India and have selected for this purpose Mr. Gubbay, a very able official in the Customs service, who has had special experience of commercial questions. The firms employed will buy at prices fixed by us and up to quantities fixed by us. The wheat will be shipped in the main to London, and will be sold there through ordinary commercial agencies on behalf of Government. The firms acting as our agents will be remunerated in the ordinary manner by a commission, and the profits of the transactions will accrue to Government. As I have already indicated, these profits may be large, and it has seemed to us right that they should be secured by the State rather than that they should go to the enrichment of one particular class of the community, but we regard these profits as in a different category to our ordinary revenue, and we hope that it may be possible to make some arrangements

[*Mr. Clark.*] [22ND MARCH, 1915.]

by which such profits as may accrue will be ear-marked for special purposes. The essence of the scheme is that Government will have the power of fixing the prices at which purchases are to take place in India for export, or rather above which they are not to take place. This, with the additional safeguard that Government will also prescribe the maximum quantities to be bought, should secure that there could be no possibility of purchase for export forcing up prices. Hon'ble Members will naturally feel that the question of the initial price at which the working of the scheme is to open, thus becomes a very important one. The actual figure cannot be announced yet, as it is still some days before the end of the month and further fluctuations of price may yet occur, and in the meantime we are in consultation with the Local Governments mainly concerned and with the trade on the point. The initial figure will be fixed with regard primarily to the interests of the consumer, for while we do not intend to debar the cultivator from any part of the profit he might have looked forward to had times been normal, we are not prepared to let the consumer suffer in a year of Indian plenty by reason of the abnormal circumstances arising out of the war. Subject to this, our intention is that the initial prices at which buying will commence for April shipment should be relatively high as compared with the subsequent prices which we shall fix. The price will be lowered for May shipments, and we shall reserve to ourselves the discretion to lower the initial price even earlier than the 30th of April, should it seem advisable to do so; and still further reductions will be announced for June shipments. We hope in this way to bring prices steadily and surely down.

"These are the main principles of the scheme. It will be seen that it possesses the advantages which the advocates of an export duty claim for it, but it is not, I think, open to the objections which I have already enumerated in discussing that proposal. It resembles an export duty in that the difference between the Indian and world price will be secured to Government. But it avoids the disturbance to trade which must result from the uncertain operation of export duties, and it avoids the doubt as to how far an export duty would really control exports and protect the interests of the consumer. Our system practically amounts to a regulation of prices through the export trade, not in its own interests, but in those of the Indian consumer, while the greater measure of stability, which our scheme will secure, will also benefit the cultivator, whose interests under a system of export duties would be detrimentally affected by the uncertainties of the market. The details are matters of machinery with which it would be burdensome for me to trouble Council and which are still, to a large extent, under consideration and discussion with the trade, who, and not least our colleague in this Council, the Hon'ble Mr. Marshall Reid, have afforded us willing and valuable assistance. I would point out that whatever difficulties there may be in the working of the scheme, at least in its conception it covers the various points which I have just now enumerated. It enables Government to see that purchase for export does not take place at a higher price than they think right. It enables Government also to control the quantities to be exported; and it does not prevent the cultivator securing a legitimate profit. Lastly, the profits of sale for export will accrue to the State and will be used, we hope, for some suitable and special purposes for the benefit of the people.

"The difficulties will lie in the working of a scheme, which involves Government taking action in an unfamiliar field. I can assure Council that we shall be very glad to consider any suggestions that may be made to us, and we will most carefully weigh any representations regarding hardships to other interests which have not yet been brought to our notice. We may, I am sure, count on the loyal co-operation of the trade, and, for the rest, while we have not taken up this responsibility without a due sense of its gravity, we can only do the best that in us lies to achieve success.

"I shall be very glad indeed to be able to accept the resolution as amended, but I must call attention again to the point I raised at the beginning of my speech, that the Hon'ble Member appeared to wish to bring before Council the

[22ND MARCH, 1915.] [*Mr. Clark; Pandit Madan Mohan Malaviya; Sir Ibrahim Rahimtoola.*]

larger question of Government taking regulative action in normal circumstances. That we cannot pledge ourselves to do, and I cannot accept the resolution unless it is made quite clear that it only relates to circumstances arising out of the war. What I would suggest to the Hon'ble Member is that he should put in, after the words 'That this Council recommends that,' the following words:—

'so long as the special economic conditions arising out of the present war last.'

"If he agrees to these words being put in, I shall be very glad to accept the resolution."

The Hon'ble Pandit Madan Mohan Malaviya:—"I think I made it clear that I do not suggest an export duty at this moment. I did refer to the larger question of an export duty on wheat which, I suggested, might be taken up in normal times; but my present proposal is meant for the present situation only, and what my friend the Hon'ble Member for Commerce and Industry wishes to state is, I think, already indicated in the resolution, by limiting the prohibition of the export of wheat to the time when its price goes above 9 seers a rupee. However, I have no objection to make it still more clear that this is all I desire at the present moment. I do not want this resolution to be used for any larger purpose. With this statement I am quite content to leave the resolution as it is."

The Hon'ble Mr. Clark:—"I think it is better to include the words".

The Hon'ble Pandit Madan Mohan Malaviya:—"Very well, I agree to do so."

The Hon'ble Pandit Madan Mohan Malaviya then moved the following revised resolution:—

'That this Council recommends that so long as the special economic conditions arising out of the present war last, the Governor-General in Council may be pleased to prohibit all export of wheat from India until the price of that commodity comes down to 9 seers per rupee, and whenever it rises above that rate, or to take such other steps as he may be advised to bring the price of wheat down to a reasonable level and to maintain it at such level.'

The Hon'ble Sir Ibrahim Rahimtoola:—"Sir, I have carefully listened to the scheme so lucidly outlined by the Hon'ble Member and the steps which Government propose to take in the matter of regulating wheat prices. The central feature of the original proposition is that special circumstances have arisen which necessitate the regulation of the price of wheat to such a figure as would be regarded as normal for Indian consumers. It is only the conditions prevailing at present which may justify such a violent departure from the fiscal policy which Government are enforcing in India in regard to imports and exports of merchandise. The actual effect of a measure of this kind will be to deprive the cultivators of the handsome profits they stand to make on the crop they have grown, and that diminution or cutting down of the profits of the cultivators can, in my opinion, only be justified on the ground that there is such a scarcity of food-stuffs in the country as necessitates the conservation of the available supplies by restricting exports. As I said, the peculiar circumstances of the case might offer justification for undertaking measures of this character, but the sympathy of the people cannot but be with those cultivators who will be deprived of the substantial profit which they would make by the rise of prices. It is to be brought to the notice of Government that when a certain set of cultivators have grown wheat and they stand to make an enormous profit, a profit which brings great wealth into this country, Government essay to take steps to prevent those profits being earned; while those cultivators who grew cotton, and through the same circumstances have been very hard hit, receive no compensation. The

[*Sir Ibrahim Rahimtoola.*] [22ND MARCH, 1915.]

approximate total crop of cotton is above 50 lakhs of bales in India, and putting the fall of prices roughly at R40 per bale, it means that the cotton growers have lost, in consequence of the war, something like 20 crores of rupees. The large amount of money which can come into the country by free export of wheat is now barred, and, as I said, the justification for it can only be found in the circumstances applying to the supply of food-stuffs. If the country requires that this food shall remain there, then, I admit, that there is a justification for this measure: on that point I leave the responsibility to Government to decide whether such circumstances do prevail as would justify this drastic measure.

"Now let us examine who is going to benefit as a result of this measure—into whose pockets the large amount of the actual difference between the world prices of wheat and the actual prices which will be laid down by Government will go. In the first place, a large portion of it will go into the pockets of the consumers, that is the people of India, who will thereby be enabled to buy wheat at lower than market rates. All the well-to-do people will share in the benefit of lower prices as a result of, what I may call, depriving the cultivators of the large profits they stand to make. But a portion of this profit will come into the hands of Government by measures proposed to be adopted by them in regulating exports, either by taking the export trade into their own hands or by imposing export duties. We have been assured that this amount, which will reach a high figure, will be set aside as a special fund, the application of which will be determined later on. I think it is essentially necessary that Government should declare at once that the amount which will come into their hands, and it will in any case form but a very small portion of the total sum which the cultivators will be deliberately deprived of by the State, shall go towards the benefit of the cultivating class in India. This will be but a meagre measure of relief to those other cultivators who, as I have pointed out, have been very hard hit in consequence of the war, and I think both equity and justice demand that Government should give a definite assurance that at least that part of the money taken away from the cultivators which reaches their hands shall be ear-marked for the benefit of these people and these people only.

"Sir, I will now deal with the scheme as it has been put before us, and I must say that my preference is in favour of a sliding export duty. The advantages of that course appear to be obvious, but Government appear to have found that method to be impracticable and I do not propose to go into that question at present. In this connection, Sir, I may be permitted to draw attention to the fact that Government took into their confidence representatives of export firms only before they decided upon and formulated this scheme. Sir, there is a genuine feeling amongst the people in this country that, in the consideration of such important questions, they ought to invite the representatives of both European and Indian interests, before deciding upon any policy or line of action. Sir, this is a grievance which has been keenly felt. I know what the Hon'ble Member has said in this connection, namely, that it is after all a question of those merchants who are in the export trade; but I must point out that the scheme does not merely deal with exports of wheat. That is only one of the means by which the prices in the country are going to be regulated. The question really at issue is whether the circumstances of the country necessitate some measure of this character, and if that is so, then what are the best means to be adopted to secure that a staple food like wheat will not sell in the country at exorbitant rates. And in the consideration of such a question, Sir, I think Government ought to have taken some of the Indian representatives into their confidence.

"There is one thing, however, to which I should like to refer. I do not know whether Government have clearly realized the great responsibility which they are undertaking in starting what may fitly be called an export firm. I suppose they will have to employ agents for purchasing and for effecting shipments. They will have to make arrangements for freights or the chartering of steamers and of selling the cargoes at Home or, in other words, the business

[22ND MARCH, 1915.] [*Sir Ibrahim Rahimtoola; Sir Gangadhar Chitnavis.*]

which we merchants ordinarily do. I can claim to speak with some authority on this subject as for over 20 years I was in this export trade myself. I do not know the details of the scheme which Government propose to work, but it appears to me that it would be much simpler if Government utilized the Commissariat Departments for the purchase of their wheat, and I will tell you why I think so. All the large quantities of various kinds of goods that Government purchase at present in connection with the Expeditionary Forces are bought through the Commissariat Departments. I can quite realize that buying through the Commissariat Departments may be objected to on the ground that it would be more costly to Government. If tenders were to be called for given quantities of wheat, at such prices as the tenderers may choose to offer, then I will admit that my suggestion would be open to serious objection. But, as I have understood the scheme, it is merely this, that Government will notify from time to time that they will buy a certain quantity of wheat within a certain month at a given rate. If that is so, I do not see why every merchant, be he Indian or European, be he placed at the ports or in the interior, should not have an equal opportunity to make his own arrangements and tender for certain quantities of the required qualities. There is another point which has got to be borne in mind, when we talk of wheat. Wheat is not of one quality only—wheat has several qualities, and if Government advertise that they will buy so many tons of given qualities of wheat at declared prices during a given month, and invite tenders, I do not see why everybody should not be allowed to compete in supplying Government with their requirements. The rate of purchase being fixed by Government before tenders are invited, the objection to official agency disappears. This procedure will have the effect of regulating the prices, which is the main object of the scheme; reasonable competition will be provided and, further, it would enable every merchant all over India to participate in the trade by tendering if he is so inclined. I do trust, Sir, that when the actual purchases are determined upon, they will be carried out on this principle, instead of by employing special agents and paying large sums of money in the shape of commission to them. I will now explain why under my suggestion there will be no grievance on the part of export merchants. Export merchants at present buy in India, engage freights, ship the goods, and sell them in the consuming markets either on arrival, or to arrive during given months. Instead of selling in the Home markets, as they do in ordinary times, they will have to sell at fixed rates to Government. They will be free to tender at the rates Government lay down, while leaving it open to other merchants also to compete and to tender for the required quantities. No monopoly will be created by the scheme which I am advocating, and it ought to be acceptable to Government as, in addition to the saving of a substantial sum in the shape of commission, it places all merchants on a footing of equality and no difficulty can possibly arise in working the same. If you advertise that a given quantity of wheat to be delivered at a given port will be required during a given time, you will get your tenders for the same at such rates as may be fixed by yourselves. Under these circumstances, there appears no reason why full competition should not be permitted. As I have already said, there can be no grievance on the part of the export merchants, because they will be able to continue to trade as they have been doing in the past in competition with others; and instead of selling on the London and the Continental markets as they have been doing in the past, they will have to sell at fixed rates to Government. I do trust that the suggestion I have made will be acceptable to Government.

"If you will permit me, Sir, I will repeat, in conclusion, that the gravity of the situation can alone justify a measure of this character, and that care must be taken that the cultivators as a class are not wholly deprived of the handsome profits they stand to make under present conditions. The amount realized by Government in dealing with wheat exports must be ear-marked for their benefit, and their benefit alone."

The Hon'ble Sir Ganganhar Chitnavis:—"Sir, I am glad that the Hon'ble Pandit Madan Mohan Malaviya has moved this resolution. In

[*Sir Gangadhar Chitnavis; Mr. Dadabhoy.*] [22ND MARCH, 1915.]

doing so he represents the general wish of the population. It may look unsound, according to the orthodox theories of economic science, but the action it suggests is most essentially desirable on political grounds. Economic theories are of little value when grave political issues arise from economic factors. Political considerations naturally weigh more with Government, and, judged from a political and administrative standpoint, Government interference with a view to the mitigation of the evil of high prices is certainly justifiable. It may cause loss generally to the bulk of the agriculturists in the country, because, though this policy immediately affects wheat, there is a sympathetic rise and fall in the prices of other products. I am an agriculturist myself, and though I may suffer some loss and inconvenience with my brother agriculturists in consequence of this artificial attempt to keep down prices by Government taking over the control of the whole wheat export trade, as explained by the Hon'ble Mr. Clark, yet I am glad that the Government has been pleased to resolve to try the experiment, as I think that the hunger of the people should be allayed first and the peace of the country should not be disturbed. It is too early yet to dogmatise and say what effect this action of Government in regulating exports will have, but I am sure people will appreciate that the main object of Government in doing this is, at this war time, to bring down prices in the interests of the people. And though the experiment is a bold and unprecedented one, Government is trying it evidently in the people's interests and with the best of motives. If this brings on any untoward results, it will be for Government to undertake some other measures which they may think fit; but it is hoped that by that time the war will be over, things will right themselves and there will be no necessity for any such extraordinary measures. The Right Hon'ble Mr. Asquith has in his most lucid speech explained how things stand, and I am sure the world movements after the opening of the Dardanelles will have the effect of bringing down prices to their normal level; but until then something has to be done, and I am glad that this has been and will be done. We are all glad that the position in this country as regards this important question has been so clearly and ably explained by the Hon'ble Mr. Clark to-day. It is unfortunate, however, that in the recent Conference the large agricultural non-official interests which are so largely affected by this question were not represented.

"I agree with the Hon'ble Sir Ibrahim Rahimtoola in thinking that Government should make it clear that the profits arising out of this policy will be ear-marked for the benefit of agriculturists who are to be the largest sufferers by this policy. I am confident that this will be the policy of Government, though they may not be able to make any pronouncement at this present moment."

The Hon'ble Mr. Dadabhoy:—"Sir, I confess I heard with a sense of relief and satisfaction the most exhaustive statement made by the Hon'ble Mr. Clark a few minutes ago. I have no doubt the decision at which Government has arrived, *i.e.*, to take over the entire control of the export trade from the 1st of April, is a decision which, though of a very bold and drastic character, I am convinced will meet the requirements of the case. We have to make some such provision, and I congratulate Government on their decision.

"At the same time the responsibility which attaches to a measure of this kind is very considerable. But, as the Hon'ble Mr. Clark pointed out, the situation is unparalled in the economic history of the country. Sir, I myself do not desire that the normal conditions of trade should be unduly interfered with; but in an emergency emergent measures are absolutely necessary. Only the other day we passed a drastic measure for the preservation of peace and order and for the maintenance of law. If such measures are necessary, I think measures for the protection of the people from starvation are equally essential. I do not believe that doctrines of political economy or economic shibboleths must be religiously and scrupulously observed at all times. There are occasions when a departure from the accustomed lines, from the ordinary course of a highly organised trade, is indispensable. I think the step which the Government proposes to take

[22ND MARCH, 1915.] [*Mr. Dadabhoy; Sir Fazulbhoy Currimbhoy.*]

will not be materially prejudicial to the cultivator, whatever my Hon'ble friend Sir Ibrahim Rahimtoola may think. The cultivators will doubtless suffer to some extent. They will not make those huge profits to which they are entitled in a period of bumper crops or a record harvest synchronous with an extraordinarily tight market. But it is not generally the cultivator, even in the case of a record harvest with high prices, who gets the whole profit. It is the man with a long purse, who buys up the stock from the people when the value of the commodity stands at a reasonable level, stores it up and then brings it out at an opportune moment, who makes a large profit out of it. I have the greatest sympathy with the cultivating classes; and if the measure which has now been suggested were to affect their interests unduly, I should be the first to withhold my support from it. But I feel convinced it will not unduly interfere with the interests of the cultivator.

"I quite agree with my Hon'ble friend Sir Ibrahim Rahimtoola that it was advisable, when the recent Wheat Conference was convened, to place on it some Indians of experience in these matters. I have no doubt that if that course had been adopted, any recommendation that the Conference made and was accepted by Government would have inspired confidence. At present we do not know what took place at that Conference; but we presume that the statement which the Hon'ble Mr. Clark has made just now has been made after full consideration of all the circumstances of the case and the exigencies of the situation. It is no use crying over spilt milk. The Conference has met and has deliberated, and I understand that what the Government now puts forward is the result of its deliberations At the same time, I have no doubt there will be a certain measure of criticism against this bold pronouncement of the Government of India. The Government of India have assumed a very serious responsibility. I myself would have preferred the imposition of a heavy export duty upon wheat, but I do feel that the imposition of such duty would not have had the immediate effect of bringing down the rates in the months of April and May. I presume a certain quantity has to be shipped to the United Kingdom during the next two months, and the imposition of a duty would not have immediately brought down the rates. I am glad that the Hon'ble the Commerce Member has given an assurance to this Council that the profits—the large margin of profits—derived from the exports will be ear-marked for specific purposes. I was very pleased to hear this announcement, and I trust there will be no occasion for Government hereafter to absorb the profits in the general surpluses. The cultivator and the people should benefit by this amount.

"I therefore approve of the action which has been suggested by the Hon'ble Mr. Clark; and though it is a very serious and bold step, I trust it will have the desired effect of reducing the rates, and then the benevolent intentions of the Government will be fully appreciated."

The Hon'ble Sir Fazulbhoy Currimbhoy:—"Sir, I am glad we have this opportunity of discussing the vital question of exportation of wheat. I have followed with great interest the forcible speech of my friend, the Hon'ble Pandit Malaviya, and the weighty pronouncement just made by the Hon'ble Member for Commerce and Industry. Wheat forms one of the staple crops of the country, and is very largely consumed by the people. As the Hon'ble Mr. Clark pointed out in January last, at the meeting of the Bombay Indian Merchants' Chamber and Bureau, it is difficult to substitute other grains for wheat owing to the strong preference shown to it by large classes of the people. In the Punjab wheat is the principal food, and no amount of persuasion will avail against the habitual fondness for it in that locality. Any sudden inflation in the prices of such a commodity must necessarily entail great hardship upon the large consuming classes. Now the Hon'ble Mr. Clark told us in Bombay that Government wished to protect these classes from inflated prices. It is necessary that we should make it clear that that policy has our cordial support. Economic theories apart, the distress

[*Sir Fazulbhoy Currimbhoy; Mr. Ghuznavi.*] [22ND MARCH, 1915.]

caused by the abnormal rise in the price of wheat has a deep political significance, and it behoves Government to make an earnest effort to keep down the market The embargo laid upon exports of wheat was thus perfectly just and politically expedient. It would have been a disappointment to us if Government had allowed the trade to take its course. We have now the decision at which Government has arrived, in the light of the opinions of the European exporters of wheat, in consultation with the Secretary of State for India. Sir, the people have a grievance in the matter of the Conference. It is surprising that at such an important Conference Indian interests were wholly unrepresented, and that Government have consulted only European exporting firms which have the strongest motives to oppose any restriction of exports.

"I presume the explanation will be that it is only the European houses that have large interests at stake in this matter; but I submit the Indian wheat grower and the Indian wheat merchants who deal with these exporting houses have even a larger stake in the business. I have full faith Government always jealously watch the interests of the country, as is evident from their first embargo on an article of export. At the last Conference also Government did not overlook these interests, as is clear from the exhaustive statement of the Hon'ble Mr. Clark Government have wisely restricted the quantity to be shipped and have arranged for the regulation of shipments But, Sir, notwithstanding all this, the Indian commercial public smart under a sense of wrong, that in a matter essentially concerning their countrymen Indian commercial opinion should have been ignored. The Indian Merchants' Chamber and Bureau, over which I have the honour to preside at present, have submitted strong representations to Government on the subject. It is not that the Chamber wished to send their representative, but all that they did maintain was that Indian opinion should have been consulted by Government and the Conference The Punjab especially, which is most affected by fluctuations in the price of wheat, should have been represented at the Conference.

"Sir, Indian public opinion is in complete accord with that of the Government, that India must not starve in consequence of heavy exports of wheat, stimulated as they are by the exigencies of the war. In times of famine, simultaneously with a failure of the crop or a great rise in the price of wheat in other countries, such countries, being rich, have always, notwithstanding the high prices, purchased wheat largely in India and have not felt the strain. But at such times wheat exporters certainly did not earn the benedictions of the people who were crying for wheat while it was shipped out of the country before them. I do not wish at this juncture to express any opinion whether my Hon'ble friend Sir Ibrahim Rahimtoola's scheme is better than the one which Government have selected; but I am sure that Government will adopt the scheme which will be best for the object they have in view, that is, a reduction in the price of wheat. This responsibility Government have taken upon themselves, and I trust Government action will result in a sensible decline in prices agreeably to expectations, and that the people of this country will not be in the unfortunate predicament just described by me.

"It is true that through restriction of exports the interests of the wheat cultivators will to some extent suffer through their inability to realise top prices; but for the good of the whole community such a sacrifice is unavoidable and necessary. Under the arrangement announced by the Hon'ble Mr. Clark, the whole profits of export will be reaped by Government, except the small commission which the exporters will be allowed to charge, and this money, I hope, will be utilised to promote the welfare of the cultivators, whose claims have been fully pressed by my friend, the Hon'ble Sir Ibrahim Rahimtoola. A fund may be established out of which financial assistance may be judiciously given to them With these remarks I heartily support the Hon'ble Pandit's resolution as amended."

The Hon'ble Mr. Ghuznavi:—"Sir, the war is responsible for many evils. It has affected almost every part of the Empire and India has felt its pinch no less keenly than any other country under the British

[22ND MARCH, 1915.] [*Mr. Ghuznavi.*]

flag. It is the situation arising out of the war with which, as the Honourable Mr. Clark has just pointed out, we are concerned at present. India is essentially an agricultural country and wheat, rice, and cotton and jute are the principal agricultural products. In Bengal the loss in jute has well nigh ruined many an Indian firm. In Bombay the cotton situation has been a matter of great anxiety, but the rise in price of wheat has been affecting the teeming millions of the United Provinces, the Punjab and the North-West Frontier Province. Similarly, in Bengal and Burma and other parts where rice is the staple food, the rise in its price is causing the greatest hardship. The suffering is particularly acute in Bengal, for eversince the Bengal ryot discovered the fact that jute was a very paying concern, the area under jute cultivation has gone on increasing in proportion and the area under paddy has been diminishing; and in the early part of August, which is the time when the Bengal agriculturists had gathered in their jute and were hoping to make their usual profits on it, the war broke out and the price of jute fell down from Rs. 15 to Rs. 3. From the profit on the jute the Bengal cultivator has been paying his rent and buying his rice and other necessaries of life; while therefore his income from jute dwindled down, the price of rice began to rise and is still rising. The same may be said of wheat as regards the North-West Provinces. India produces about 10 per cent. of the world's wheat. In 1913-14, roughly speaking, 27½ million acres of wheat and 17½ million acres of rice were under cultivation, giving an outturn from the former of some 8½ million tons and from the latter of some 28¼ million tons. Some 12 to 15 per cent. of the total yield of wheat is exported out of India and from 8 to 10 per cent. of the total yield of rice is similarly exported. The trade in wheat depends largely on the character of the season and the fluctuations of the market, the margin between prices in India and Europe being also an important additional factor. The yield of wheat in 1913-14 was less by a million and half tons than that of 1912-13, and although the figures for 1914-15 are not yet out, still, as far as I can judge, it seems to me that the present year's outturn will again be less than that of last year. Now, although India's share of the world's production of rice is no less than 40 to 46 per cent., and although the export of rice in 1913-14 represented 59 per cent. of the total value of food grains exported from India, yet the outturn in 1913-14 fell short by a considerable amount from that of 1912-13, and likewise the present year's outturn is anticipated to be still less. We are all grateful to His Excellency for having gone into this question with his usual care and for the pronouncement which His Excellency was pleased to make in Council in January last, on the subject of the upward trend of the price of wheat which, with His Excellency's usual concern for the welfare of the people committed to his charge, has been giving him cause for anxiety. There was justifiable reason to believe that stocks were being held up in the expectation of a further rise in prices, either in the foreign or Indian market, and His Excellency was pleased to issue an Ordinance giving power to Government and to the Local Governments to investigate the existence and amount of stocks and to take necessary action. But, unfortunately, that action of Government has not been sufficient. The resolution which my Honourable friend, the Pandit, has moved is only a request to prohibit all export of wheat from India until the price of that commodity comes down to 9 seers a rupee, and as he has since amended it, it further runs 'or to take such other step as may seem advisable to Government to bring the price of wheat as near as possible to a normal level.' This is a measure, I consider, perfectly sound, and I hope the Council will agree in thinking that the exigencies of the time demand it should be adopted, particularly as the price of wheat at the present moment has gone down to something like 6 seers a rupee, whereas even in famine times wheat sells at 11 seers per rupee. I would, however, like to suggest an amended form of the resolution so as to include rice also. The amended form which I propose runs as follows :—

'That this Council recommends that the Governor-General in Council may be pleased to prohibit all export of wheat from India or to take such other steps as may be deemed advisable to bring down the price of wheat as well as of rice, as nearly as possible to their normal level and maintain it there.'

[*Mr. Ghuznavi ; Mr. Marshall Reid ; Sir Ibrahim Rahimtoola ; The Vice-President.*] [22ND MARCH, 1915.]

"My friend, the Hon'ble Mr. Clark, has explained that Government intend to take over the whole of the export trade. This also comes within the purview of the proposal which has been added to the resolution. I trust my Hon'ble friend, the Mover, will see his way to accept the amended form of the resolution; and from all I have said I hope I shall be able to convince this Council that a measure such as this is a necessary step and should be adopted. I have also listened carefully and with great interest to the lucid explanation which my Hon'ble friend Sir Ibrahim Rahimtoola has given us of the manner in which he thinks Government should tackle this question, and he has suggested in his speech why Government should not employ the medium of merchants but should employ the medium of the Commissariat to deal with this matter, and I am perfectly convinced from what I have heard from him that this would be a very wise manner of dealing with this question, for it will certainly mean that the middleman's profits will, in this case, be avoided.

The Hon'ble Mr. Marshall Reid :—"Sir, I should like to say a few words to clear up what appears to be a misunderstanding. Several of my Hon'ble friends have been complaining that the non-officials invited to the Wheat Conference consisted entirely of European merchants interested in the export trade. When the Conference was opened (I think I may say this without disclosing any secret), I particularly asked the President whether it was our business to discuss the policy of the Government of India. The reply, I think, I got was 'we shall be very glad to hear what any of you have to say, but we are not sure that we shall be able to take very much notice of it' In fact, Sir, that Conference was called for the purpose of assisting the Government in deciding on the best machinery by which to carry out the policy they had already decided to adopt I trust what I have said in that connection will clear up any possible misunderstanding on the part of my friends. I agree with my friend Sir Ibrahim that Government should endeavour, as far as possible, to keep themselves clear of actually interfering in, or mixing themselves up with, the trade of the country : trade is a very complicated thing and it takes, as Sir Ibrahim and many others of us know, a great number of years to learn the intricacies of it. I am afraid that if Government get themselves involved in it to any great extent they will find themselves in a very difficult position, and I therefore would suggest to them that they should use to the utmost possible extent the machinery at present existing for the purpose of carrying on the wheat export trade. I am afraid this is in contradiction of what my Hon'ble friend desires, but I do not think it is advisable that Government should try and create an enormous body of wheat merchants in India, who know nothing much about the trade.

The Hon'ble Sir Ibrahim Rahimtoola :—"Sir, will you allow me to say a word in explanation with reference to what has fallen from my Hon'ble friend?"

The Vice-President :—"Yes."

The Hon'ble Sir Ibrahim Rahimtoola :—"Sir, I never suggested the creation of a special body of merchants for the purpose of assisting Government in carrying out their scheme What I said was, that in this country, there is a large number of Indian and European merchants engaged in the wheat trade, and that by the means which I advocated, and which I need not repeat, you will put them in competition, regulate your prices and obtain what supplies you want for export, without employing any special class of merchants and paying them a large amount as commission. Instead of restricting the trade to the special agency of a few export merchants, let equal opportunities be allowed to all merchants to supply Government with their requirements; when prices are previously fixed, there can be no difficulty in giving effect to my suggestion. That is my point."

[22ND MARCH, 1915.] [*Rai Bahadur Sita Nath Ray.*]

The Hon'ble Rai Bahadur Sita Nath Ray :—" Sir, the problem before us is such a complex one, there are so many standpoints from which to view it, and so many conflicting views about it, that it is difficult for one to come to a definite conclusion The pronouncement made by the Hon'ble Member for Commerce and Industry relates to a vital matter which intimately affects all classes of people. But it is of such a novel character, and so sudden and unexpected, that we have had no time to deliberate upon it and, as such, it is difficult for us to express any satisfactory opinion about it. Government might have given us time to think about it if they had taken us into their confidence earlier by calling some of us into the Conference which was held so recently here to consider the wheat question

" But this is altogether another matter which does not immediately concern the question before us.' Now, the proposal is that it has become absolutely necessary that a certain quantity of wheat should be exported, and for carrying out the above purpose, what the Government propose is that instead of they themselves coming into the market which would have the effect of creating a panic and of unduly raising the prices of wheat, it would be much better that the purchase should be made for Government by respectable exporting firms, that is, European firms, and that the purchase should be made, not all at once, but by instalments and at regular intervals and at certain fixed prices, and it is further proposed that after the requirements of the Government have been met, that is, after the Government have purchased the requisite quantity of wheat, Government will then again lay an embargo on further exportation of wheat, the result of which would be that the prices of wheat would automatically go down, for there would be no further export, and, it is further said, that as the wheat crop this year is a record one, what would be left in the country would be more then enough to meet the requirements of the people in this country, and as further export would then be prohibited, prices of wheat would materially go down. But, Sir, I have my own misgivings about it. My belief is that as soon as the people come to know, and they are sure to know of it, that it is Government which is making large purchases through some of the exporting firms, the prices of wheat would go up, even now it is said that though an embargo has been laid on the export of wheat, it is Government which has been making large purchases of wheat through some of the exporting firms, and this has resulted of late in raising prices of food-stuffs It was only 12 days ago before the rains that wheat was selling here at 9 seers a rupee, gram was selling here at 12 seers a rupee ; but, to-day, the price of wheat is 7 seers a rupee and that of gram is 9 seers a rupee, and I hear it is all due to the belief that it is Government which has been making purchases.

" Considering all these circumstances, I cannot believe that Government, or for the matter of that the exporting firms, however cautiously they may carry on their operations, would be in a position to buy wheat at prices to be regulated by the Government. The general impression is that a wholesale embargo on the exportation of wheat is the panacea, the only means of bringing down prices, but I am not prepared to accept such a proposal.

" It is well known that during the Bihar Famine of 1873-74, when Lord Northbrook, the then Governor-General of India, was pressed on all sides to prohibit the export of rice from India, he set his face against it, for, he said, it was not desirable to interfere with the free course of trade, in that case it would take away all the incentive from the grain dealers to regulate the supply according to the demand. The question, indeed, is a very knotty one. I must frankly admit that it is not possible for me at such a short notice to express my definite opinion on the policy which the Government is going to pursue. However, considering all the circumstances of the case, I think Government is well justified in adopting the course they have fixed upon, that is, to prohibit the export of wheat after the requirements of the Government have been met. I think it is much better that instead of Government or their agents coming direct to the market, which would have a very disturbing influence on the market, the purchase of wheat should be made through

the agency of third parties which should, I hope, include Indian merchants also. But the operations should be carried on very cautiously.

"I quite agree with the Hon'ble Sir Ibrahim Rahimtoola that by adopting the policy which the Government proposes to follow, we shall be thereby depriving the cultivators of a very large amount of profit which the Government is likely to make on sale in the European market. But it was said by the Hon'ble Member for Commerce and Industry that that profit would be ear-marked for certain purposes which were not indicated, but I do hope that a large portion of the anticipated profit would reach the cultivators. Then it was said by the Hon'ble Mr. Dadabhoy that if high prices were to prevail, the cultivators would not profit by them, for, he said, that if the prices were to go down considerably, the middlemen would step in and buy all the wheat at very low prices, stock them, and then make very large profit by selling them at higher prices. But my impression is quite the other way. If anybody were to profit by it, it would be the cultivators first, and then the middlemen, and that in support of this view, I may quote here the result of my recent experience of what took place in Bengal in the case of jute. What happened in Bengal was this: that when the prices of jute went down considerably, that is, when the apparent prices of jute were from a rupee and a half and upwards a maund, the cultivators absolutely refused to sell their jute and emphatically said that they would allow their jute to rot in the field and then cut and sell it at that low price, and the result was that it was the cultivators who profited considerably when higher prices prevailed in the market. Then it was said by the Hon'ble Mover himself that wheat is the only staple food of the people of the Punjab. To that I say that from the inquiries I made this very morning, I came to learn that it is not wheat but gram which is the staple food of the lower classes of the people of the Punjab. With these few words, I beg to give my support, which I do half-heartedly, to the scheme proposed by Government."

The Hon'ble Mr. Banerjee:—"Sir, The Hon'ble Mr. Marshall Reid has told us that it is a very serious matter to interfere with the ordinary operations of trade. I am sure that that will be the sense of every member of this Council and of every person who has given a thought to the subject. But the situation also is serious, and drastic measures are needed to cope with it. Sir, it seems to be practically the unanimous sense of this Council that something should be done, and the proposal which has been put forward by the Commerce Member seems to be quite acceptable to this Council and, I am sure, it will be endorsed by the country. Sir, my friend to my left (Mr. Ghuznavi), to whom I have to refer again in the course of to-day's discussion, wants to somewhat widen the scope of Government action in this matter. He says that rice should be included within the sphere of Government control. Well, I may say this, that rice at the present moment, coarse rice, is selling at seven seers per rupee. In West Bengal the pressure is not felt so much. But my friend who has extensive experience of East Bengal, and is a Zamindar in that part of the country, says that scarcity and pressure are being felt in East Bengal. Therefore these are the facts, and it is for the Hon'ble Member in charge of the Commerce Department to decide whether, in view of these facts, he would be prepared to extend the scope of Government control not only over wheat but also over rice. A situation may develop in Bengal when it will be necessary to exercise control over the export of rice, but whether at present we are confronted with such a situation may, perhaps, form the subject of inquiry by Government.

"Sir, reference has been made to the profits which the Government is likely to make in connection with this matter and it has been urged that these profits should be ear-marked for the benefit of the cultivator. I am in entire agreement with that view. The cultivator is likely to suffer and it is only right and proper that if the Government makes any profit a portion of that profit should be ear-marked for his benefit. I hope and trust that after the expressions of opinion which we have had in this Council in the course of this

[22ND MARCH, 1915.] [*Mr. Banerjee; Mr. Rayaningar; Rai Bahadur Sita Nath Ray; The Vice-President; Mr. Monteath; Pandit Madan Mohan Malaviya.*]

discussion, in all future conferences relating to commercial matters Indian opinion will be represented, and adequately represented. I think Indian commercial opinion is a power in the land, and I am perfectly certain that the representatives of Indian Commerce will always be in a position to afford valuable advice to Government in regard to matters in which they are interested."

The Hon'ble Mr. Rayaningar:—"Sir, the question before the Council is a very intricate one. The adoption of the measure recommended by the Hon'ble Mover is sure to adversely affect the interests of a large and important section of agriculturists. It is certainly a drastic measure But drastic measures are sometimes unavoidable and no one will deny that the present is an occasion when the adoption of a drastic measure is necessary. Sir, I have no doubt the drastic nature of the measure will to some extent be minimised, if the Government ear-mark a large portion of the profit that it is likely to make by the adoption of the measure to be utilized for the benefit of agriculturists. Sir, I oppose the amendment which my friend the Hon'ble Mr. Ghuznavi has moved, to bring rice within the scope of the resolution. No case has been made out for the control of the rice export."

The Hon'ble Rai Bahadur Sita Nath Ray:—"May I be permitted to say a word or two in opposition to the suggestion made by the Hon'ble Mr. Ghuznavi?"

The Hon'ble the Vice-President:—"The Hon'ble Member has spoken once. He has had his opportunity and I am sorry that I cannot give permission to him to speak again. Nobody, under the rules, except the Mover and the Member in charge, has an opportunity of speaking more than once. I call on the Hon'ble Mr. Monteath."

The Hon'ble Mr. Monteath:—"Sir, the wheat question does not interest my province as much as it does North-Western India, but from a general business standpoint I would like to extend my full support to the Hon'ble Mr. Marshall Reid's remarks. The less Government can interfere in the trade the better, and it does seem to me reasonable and best that existing channels of the export trade should carry on the agency of the future exports These agencies are quite accustomed to finding the right market and the Commissariat Department can scarcely be expected to know the system of exports and details of the Home markets"

The Hon'ble Pandit Madan Mohan Malaviya:—"Sir, It is evident that there is a general concensus of opinion about the desirability of Government adopting the measures which they propose; there are some differences only about the details. Personally speaking, I must say that I feel that the Government have adopted a very bold measure, and I hope and pray—I go further, and say, I hope and trust—that the decision of the Government will prove to be correct A suggestion has been made that a sliding export duty on wheat might have met the situation better. I have very great respect for the views of my friend the Hon'ble Sir Ibrahim Rahimtoola; but I venture to differ from him on this point. I fear in the peculiar circumstances in which we are placed, a sliding export duty will not solve our difficulties. The situation is this. The Government have to adopt some measures which will be effective in bringing down the price of wheat to a reasonable level, and to maintain it at such level: that is the first consideration The second consideration, which, I suppose, is also present to the mind of the Government, and naturally and rightly so, I should say, would be that any surplus wheat which should be available in this country after providing for the requirements of the people should be sent only where it is desirable in the interests of the Empire it should be sent.

[*Pandit Madan Mohan Malaviya; Mr. Clark.*] [22ND MARCH, 1915.]

Now if you let ordinary exporters export, you may, by levying duty on a sliding scale, secure the first object, but you will not equally secure the second one, namely, that the wheat shall go only where it should go. I take it that one great advantage of the proposal of Government is that our surplus wheat goes smartly to the place—whether it is England or any other part of the world—where in the interests of the Empire it is necessary that it should go. All that I should say in this connection is that I hope that the remarks of the Right Hon'ble Mr. Asquith, which the Hon'ble Member for Commerce and Industry has quoted, and the assurance of the Hon'ble Member himself will always be clearly borne in mind, and that only so much of wheat shall be exported as can be exported without inflicting any serious injury on the Indian consumer. I consider that the very fact that the Government have taken upon themselves the responsibility of such a bold measure, carries a guarantee with it that the object which we and they have in view will be secured. I am persuaded that it will be better secured in this manner than it was likely to be secured in any other manner There can be no manner of doubt that the Government have taken a very great responsibility upon themselves. For if prices are not brought down to a reasonable level, a great deal of blame will fall upon the Government: and I feel that in that very circumstance there is a guarantee that the Government will so regulate the export that the price of wheat will come down I am supported in this view by the remarks of the Hon'ble Mr. Clark: he has told us that not only will the quantity of wheat which is to be purchased for export will be fixed by Government, but also the period during which that quantity is to be purchased, and also the price at which it is to be purchased. He has also told us that that price will be fixed in the interests of the consumer, and that it will be higher than the market price—".

The Hon'ble Mr. Clark:—"We cannot prophesy as to how the market will go in the future."

The Hon'ble Pandit Madan Mohan Malaviya:—"I thought my Hon'ble friend said so Anyhow, I take it that the Government will take care to so fix the price that it shall not prevent the needed quantity of wheat being available to the people

"There are differences of opinion also as regards the agency to be employed by Government for the purchase of wheat And when two gentlemen of the commercial experience of the Hon'ble Mr. Marshall Reid and Sir Ibrahim Rahimtoola differ, it must be difficult for a layman to express an opinion. But there is one aspect of the question to which I might invite the attention of Government There will be a feeling of satisfaction among the general merchants who deal in wheat all over the country, and who are, so to say, the sub-agents of the larger exporters, if the Government could see their way to adopt the suggestion of Sir Ibrahim Rahimtoola. The Government have been purchasing stores of very great value through the Commissariat Department. I presume no difficulty is felt in obtaining what they want in that way. Once the system is adopted, it will involve no general interference with trade; it may mean an interference to a certain extent with the profits of a few large houses which export wheat after purchasing it from smaller traders.

"Then as regards the application of the profits which will come to the hands of Government from the proposals, the Hon'ble Member has said that the profits will be ear-marked for some useful and suitable purpose for the benefit of the people. There is much in that announcement to satisfy the public; but, if I may venture to make a suggestion, I will express a hope that Government will consider the desirability of earmarking the profits for something like an agricultural co-operative credit fund on the lines of the Famine Fund. It is well known that many cultivators are, owing to their poverty, unable to sell their crops at the price at which they should sell. They have to mortgage the crops, or sell them in advance to the agents of large exporters of wheat, and they have necessarily to content themselves with a

[22ND MARCH, 1915.] [*Pandit Madan Mohan Malaviya; Mr. Clark.*]

smaller price than they would obtain if they could wait until the wheat could be taken to the market. Now, Sir, if the suggestion I have made commends itself to the Government, and if the profits realised from the proposed regulation of the export of wheat becomes the nucleus of a fund from which advances could be made to cultivators to save them from parting with the fruits of their exacting industry, on such terms as the agents of Messrs. Ralli Bros. and other firms, or the village money-lender may offer, the condition of the ryots will be materially improved, and the proposed measure will prove to be one of great beneficence and far-reaching importance. In conclusion, I wish to say that I have agreed to the modification suggested by my Hon'ble Friend the Member for Commerce and Industry, namely, to the insertion after the word 'that' of the words 'so long as the economic conditions brought about by the war last,' because that was all that I principally intended by my present resolution. I thought my proposal, that the export of wheat should be prohibited until its price came down to 9 seers for the rupee, conveyed that idea. I did not contemplate that wheat should sell at 9 seers for the rupee in ordinary times; but, of course, I reserve to myself the right of bringing up the larger question of a sliding export duty on wheat for the consideration of Government when we find ourselves in normal circumstances. I do think that, in the general interests of the people, such an export duty on wheat is desirable. But, as I have said, for the present I confine myself entirely to the present situation, and so confining myself I thankfully welcome the proposal of the Government."

The Hon'ble Mr. Clark:—"There are two or three points, Sir, on which I think I ought to say a few words before this debate closes. The first of these is the question of Indian Commerce being represented in our discussions and conferences before we arrived at our decision. As to that there has been a certain amount of misunderstanding, as the Hon'ble Mr. Marshall Reid explained. When Government came to the conclusion that intervention was necessary, they invited the representatives of the European firms up to Delhi to discuss the machinery. We did not invite them up to discuss whether or not we should prohibit export. That would be hardly a fair question to put to exporters. I may remind the Council that the European firms handle 9-10ths of the wheat exported from India. They are the only firms who handle the great body of our exports, the exports which go to Europe. There is a small amount of exports in Indian hands which goes to the Persian Gulf and to Arabia and so on, and for that we are making special arrangements which are not included in this scheme.

"If the Hon'ble Sir Ibrahim Rahimtoola will excuse my saying so, he seems to have been less consistent than usual in his arguments to-day. He began by impressing us with the gravity of the undertaking, and no one appreciates the gravity of the undertaking more than I do. But what does he next propose? He proposes that we should cast aside the one agency which has a thorough experience in the handling of this trade, namely, the European export firms. He proposes that we should go ourselves directly into the internal market and use for this purpose the Commissariat Department, overlooking, apparently, the fact that we are at war, and that the Commissariat Department is very much busier than usual providing our troops in the field with the necessary supplies. The proposal he puts forward seems to me utterly unworkable.

"The Hon'ble Sir Fazulbhoy Currimbhoy says we ought to have had a representative of the Punjab present at our conferences. The wheat consuming provinces were represented at our conferences through the representatives of the Local Governments. That is the constitutional way in which they should be represented, and the officers who came, or rather the Governments whom they represented, had been at special pains to acquaint themselves beforehand with the condition of affairs.

"The Hon'ble Pandit Malaviya asked why we should not deal direct with sub-agents. I would remind the Council that sub-agents will be in the same position as they are at present. At present they are dealt with by the European

exporting firms and that will go on exactly as it is at present. There seems to be a general impression in this Council that we are creating a monopoly for European firms. That is not so. We are merely using the one agency which is at present in existence, and I put it to the Council, that that is the only prudent course for Government to follow when they are launching into this new business, in which we feel deeply that we have but small experience.

"The only remaining point is in regard to the utilization of the profits, such as they may be. I may say at once that we regard with very great sympathy the proposal that these profits should be utilized for the benefit of the cultivator, but I am not able to make a definite announcement on the subject. Hon'ble Members know that on all these financial questions we have to refer to higher authority, and it is clearly too early to decide how we are going to utilize our profits until we have got them and know how great the profits are going to be; and I cannot now make any specific announcement on that point.

"It only remains to me to thank the Council for the very sympathetic way in which they have received these novel and, I feel, very difficult proposals."

The revised resolution was put and agreed to.

The Council adjourned to Wednesday, the 24th March, 1915.

W. H. VINCENT,

Secretary to the Government of India,
Legislative Department.

DELHI:

The 27th March, 1915.

APPENDIX.

(Statement laid on the table, *vide* page 285, *ante*.)

Statement showing the expenditure incurred on Productive and Protective Irrigation Works since 1905-06, including the Revised Estimate for 1914-15 and Budget for 1915-16.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 to 1909 (24 & 25 Vict., c. 67, 55 & 56 Vict., c. 14, AND 9 Edw. VII, c. 4).

The Council met at the Council Chamber, Imperial Secretariat, Delhi, on Wednesday, the 24th March, 1915.

PRESENT:

The Hon'ble SIR HARCOURT BUTLER, K.C.S.I., C.I.E., Vice-President, *presiding*, and 58 Members, of whom 51 were Additional Members.

STATEMENT LAID ON THE TABLE.

The Hon'ble Mr. Sharp :—" Sir, I beg to lay on the table a report* on Indian Education in 1913-14, which was promised at the time of the introduction of the head 'Education' in this Council on the 9th instant. Copies have also been distributed to Hon'ble Members. These copies are only proof copies. The Volume, when pub'ished, will be illustrated."

QUESTIONS AND ANSWERS.

The Hon'ble Pandit Bishan Narayan Dar asked :—

Increments in salaries or allowances given to members of certain services in India.

1. " (*a*) Will the Government be pleased to give particulars of the fresh increments (if any) in salaries or allowances given to the Indian Civil, Medical, Police and any other services in the years 1912-13 and 1913-14, and the cost to the tax-payer of such increments?

(*b*) Will the Government be pleased further to state the total cost of the increments (if any) sanctioned since the outbreak of the War?"

* Not published with these Proceedings.

[*Sir William Meyer; Raja Jai Chand; Sir Robert Carlyle.*] [24TH MARCH, 1915.]

The Hon'ble Sir William Meyer replied :—

"I understand that the Hon'ble Member desires information regarding any general increment of pay which may have been sanctioned for the Imperial branches of the major services engaged in the general administration of the country.

"There has been no general reorganisation of the pay of the Indian Civil Service, the Indian Medical Service or the Imperial Police since the commencement of the year 1912-13. The only important modification with regard to the pay of any of these services has been the temporary introduction of a minimum time-scale of pay for members of the Indian Civil Service of over seven years' service in the Punjab, the United Provinces and the Central Provinces, subsequently extended to the Bombay Presidency, with the object of partially protecting them from loss owing to an abnormal block in promotion. Since the outbreak of the war this system of a special minimum time-scale of pay has been extended, subject to certain conditions, to all Indian Civil Service officers of over two years' service throughout India, in order to compensate them in part for the loss of the normal expectations of officiating promotion which they would have enjoyed but for the present crisis, which has necessitated the recall of officers already on leave and the restriction of fresh leave facilities. A similar system has been introduced, for the same reason, in the case of the Imperial Police service throughout India.

"A normal time-scale of pay was introduced in 1912-13 in the cadre of Assistant Collectors belonging to the Imperial Customs Service, at an additional cost of R2,196 a year. With regard to other major Imperial Departments, no general reorganisation of pay has been brought into effect since the beginning of the year 1912-13.

"It is impossible to state the exact cost of the introduction of the special minimum time-scale of pay in the Indian Civil Service and in the Police, since this does not supersede previous pay arrangements, but merely guarantees that an officer of a certain standing shall not draw less than a certain salary. Nor could the information asked for by the Hon'ble Member be tabulated without an elaborate investigation of the difference between the time-scale pay, if applied, and the rates of salary which each officer would have drawn had the scale not been introduced."

The Hon'ble Raja Jai Chand asked :—

Production of ground-nuts and linseed.

2. "(*a*) Is it a fact that, in the last few years, some tendency to grow ground-nuts, like those produced in Madras, and linseed is being steadily developed in other provinces of India? If so, will the Government kindly state what has been the average produce per acre, and the annual export (if any) of ground-nuts and linseed for the last—say—four years from these provinces?

(*b*) Have the Provincial Governments encouraged and countenanced agriculturists to develop the products on experimental lines, and otherwise?"

The Hon'ble Sir Robert Carlyle replied :—

"The cultivation of ground-nut is rapidly extending in Bombay, Burma, the United Provinces and the Central Provinces and the Provincial Departments of Agriculture are devoting attention to the introduction and maintenance of disease-resistance varieties. The cultivation of linseed is more firmly established and requires no special encouragement. Linseed is grown for export and the area under this crop is largely determined by the ruling price. The Agricultural Departments have not found it possible to devote much attention to this crop.

2. The last volume of the 'Area and Yield of Principal Crops' and a statement showing the exports of ground-nuts and linseed during the last four years are placed on the table.*"

* Not published with these Proceedings.

[24TH MARCH, 1915.] [*Raja Rai Chand; Mr. Sharp; Mr. Dadabhoy; Mr. Clark.*]

The Hon'ble Raja Jai Chand asked :—

Agricultural education.

3. " (*a*) Will the Government kindly state whether agricultural education has been introduced, and made compulsory in primary schools ?

(*b*) If the answer be in the affirmative, have sufficient additional funds been provided therefor ?

(*c*) If the answer to part (*a*) be in the negative, do the Government propose to consider the feasibility of introducing agricultural training, side by side with literary education ? "

The Hon'ble Mr. Sharp replied :—

" The accepted policy of Government, from which they see no reason to depart, is that, while it is undesirable to teach agriculture as such in primary schools, an attempt should be made to give to the teaching in such schools an agricultural colour and to encourage the power of observation of pupils by nature study."

The Hon'ble Mr. Dadabhoy asked :—

Coasting freights for export of Bengal coal and increase in import of foreign coal.

4. " (*a*) Has the attention of Government been drawn to the statements at pages 13 and 34 of the *Review of the Trade of India* in 1913-14 that high coasting freights have interfered with the expansion of the exports of Bengal coal to Bombay and Karachi ?

(*b*) Do Government propose to take action, in consultation with shipping companies, with a view to secure a reduction in coasting freights ?

(*c*) Is it a fact that imports of foreign coal on Government account, even of the quality produced in India, have increased of late ?

(*d*) If so, will Government be pleased to state the reasons for such increase ? "

The Hon'ble Mr. Clark replied :—

" With regard to the first two questions, Government are aware that the high level of coasting freights is one of the causes which are alleged to have contributed to check an expansion in the exports of Bengal coal to Bombay and Karachi. It has never been their policy, however, to attempt to fix any standard for coasting freights.

2. With regard to the third and fourth questions, Government are aware that the imports of coal, coke and patent fuel by sea on their account increased up to the year 1913. The figures for 1914, however, show a very large decline."

The Hon'ble Mr. Dadabhoy asked :—

Enticement of labour in Assam.

5. " With reference to the statement in the Assam Administration Report for 1912-13, that with a view 'to meet the changed conditions when there will no longer be a penal contract, and to give employers some remedy against the enticement of labour which they have imported at considerable cost, proposals which have been administratively approved by the Government of India have been framed,' do Government propose to lay on the table the correspondence on the subject between this Government and the Assam Government ? "

The Hon'ble Mr. Clark replied :—

" The Government of India regret that they are unable to lay the papers on the table."

[*Mr. Dadabhoy; Mr. Clark; Mr. Das; Sir Reginald Craddock.*] [24TH MARCH, 1915.]

The Hon'ble Mr. Dadabhoy asked:—

Wages of indentured labour in

6. "(*a*) Will Government be pleased to state if there has been any improvement in the wages of indentured labour in Assam, and, if so, to what extent since the enactment of the Assam Labour Laws?

(*b*) What is the present rate of the wages of indentured labour in Assam?"

The Hon'ble Mr. Clark replied:—

"(*a*) As far as can be ascertained from the returns furnished under the present Act, the average wages earned by indentured labourers in Assam at present show an improvement over the average wages earned since the statutory minimum wage came into force in 1903 of approximately 3 annas, 3 pies a month in the case of men and 15 annas in the case of women.

(*b*) The statutory minimum wage for men and women respectively is:—

R5 and R4 for the first year;
R5-8-0 and R4-8-0 for the second and third years;
R6 and R 5 for the fourth year.

On some gardens, however, the rate of pay is above that prescribed by law, and on almost all the labourers can, if they wish to, earn at least double their pay for a considerable part of the year by working over-time.

The Assam Immigration report for 1913-14 (the latest published) shows that the average of monthly cash wage including *ticca*, diet, rations, subsistence allowance, and bonus per head is as follows:—

Of total number on books

Men	R5-11-5
Women	R5-5-9"

The Hon'ble Mr. Das asked:—

Quarterly lists of petitions withheld by the Government of Bihar and Orissa.

7. "(*a*) Did the Government of Bihar and Orissa, during the year 1914, forward to the Government of India quarterly lists of petitions which were withheld by the former Government, giving reasons for withholding them?

(*b*) If such quarterly lists were received during the year 1914, will the Government be pleased to lay on the table copies of the same, with the reasons for withholding them?"

The Hon'ble Sir Reginald Craddock replied:—

"Quarterly lists of petitions withheld by Local Governments under the rules are received by the Government of India, but it is not considered that any public interest would be served by laying them before this Council. If the Hon'ble Member desires information about any specific case the possibility of furnishing it will be considered."

THE ASSAM LABOUR AND EMIGRATION (AMENDMENT) BILL.

The Hon'ble Mr. Clark:—"Sir, I move that the Bill further to amend the Assam Labour and Emigration Act, 1901, be taken into consideration."

The motion was put and agreed to.

The Hon'ble Mr. Clark:—"Sir, I move that in clause 4 of the Bill after the word 'substituted' the following shall be inserted:—'for the words "the employer" the words "his employer or the association or firm which has applied in respect of such Local Agent under section 64, sub-section 2 and"'

[24TH MARCH, 1915.] [*Mr. Clark; Mr. Graham.*]

"Under clause 3 of the Bill, it is proposed to amend section 64 of the Act so as to allow 'any association or firm duly authorized by general or special order of the Governor General in Council' apply for a licence for a Local Agent. Now the term 'employer' under the Bill as introduced has the definite technical meaning assigned to it under section 2 (*1*) (*f*) of the principal Act, namely, the manager of the tea-garden for which the Local Agent mentioned in section 67 (*i*) of the Act as amended by the present Bill has been licensed to recruit coolies. It will therefore be insufficient to provide, as originally proposed in the Bill, that the application for the cancellation of the Local Agent's licence can be presented only by the employer, *i. e.*, by the manager of the tea-garden, seeing that many Local Agents do not work under the orders of an individual manager, but under those of an Association representing a group of tea-gardens, controlled by a number of different managers, and, therefore, this amendment is necessary."

The motion was put and agreed to.

The Hon'ble Mr. Clark:—"Sir, I beg to move that in clause 5 of the Bill in sub-section 6 of the new section 116-A. inserted by that clause, for the words 'by the Board' the words 'in the manner prescribed by such rule' shall be substituted. In the Bill it is provided that the Assam Branch of the Indian Tea Association and the Surma Valley Branch of the Indian Tea Association are to be represented on the Executive Committee of the Board. Under the Bill, as drafted, it was provided that representatives of these two Branches should be chosen by the Board. The Branches, however, wish to choose their own representatives, and it is obviously a better arrangement that they should do so. It is therefore proposed now to put it in a general way by substituting for the words 'by the Board' the words 'in the manner prescribed by such rules.'"

The motion was put and agreed to.

The Hon'ble Mr. Clark:—"Sir, I move that in clause 7 (*2*) (*iii*) of the Bill in the new section 172 (*1*) (*a*) inserted by that clause, after the word 'emigrate' the words 'under Chapter IV as modified by any notification issued' shall be inserted.

"This amendment is designed to remove any ambiguity which may arise from the fact that section 91 of the Act does not of itself provide any specific method of emigration. It merely empowers Local Governments and Administrations to relax, by means of Gazette notifications, any provisions of Chapter IV in the case of Garden-sardars."

The motion was put and agreed to.

The Hon'ble Mr. Clark:—"Sir, I now move that the Bill as amended be passed into law. I should perhaps explain that with the abolition of indentured labour in Assam and of recruitment by contractors, Act VI of 1901 is becoming less and less suited to existing conditions, and the whole question of what legislation is necessary for the control and regulation of recruitment for Assam and of labour in the Province will have to be taken up very shortly. The Government of India, however, were anxious that there should be no further delay in the introduction of the measures for the closer and more satisfactory control of recruitment embodied in the present Bill, and decided to proceed therewith at once and not to wait until the larger question could be taken up. We recognise therefore that though the provisions in this Bill dealing with the constitution of the Labour Board have been carefully framed, the measure is necessarily to some extent a tentative one and may in itself need some amendment at some future date when more experience has been gained of the improved system of recruitment, which is now being introduced."

The Hon'ble Mr. Graham:—"Sir, a complex subject and a complicated Act describe, I think, the Assam Labour question and Act VI of 1901. Since the first Government inquiry in 1859, there has been much

legislation and much controversy on this matter of labour, and looking back on it now it would seem that a great deal of it might have been avoided had there been more co-operation between Government and the industry. The proposed Labour Board it is hoped will effect this co-operation, and as such it is very welcome. That the necessary legislation to establish this Board has been added to Act VI is a matter of disappointment to the Industry, having in view the fact that both Government and the Industry are agreed that the Act should be gradually abolished. Apparently, however, it was not possible in the short time available to arrange matters otherwise, and we can only hope that the odium which has attached to Act VI will not extend to the Board. In some other respects the Bill does not accord with the desires of the Industry, and although we have suggested a number of alterations, Government have not seen their way to accept these. More freedom in the matter of recruiting is what is required to produce the conditions best likely to remove abuses, namely, cheap and plentiful labour—when I say cheap labour, I am referring to the cost of recruiting, not to the coolies' wages,—and although with the changed conditions likely to be created by the abolition of the contractor this is not immediately possible, we hope that the establishment of the Labour Board will lead to a more sympathetic and consistent administration of the Act and a less rigorous enforcement of the somewhat rigid restrictions, which at present abound. In these circumstances, and with this understanding, I support the Bill."

The motion was put and agreed to.

THE SEA CUSTOMS (AMENDMENT) BILL.

The Hon'ble Mr. Clark :—"Sir, I move that the Bill further to amend the Sea Customs Act, 1878, be taken into consideration.

"Perhaps I may take this opportunity of removing a misapprehension which, it has been brought to my notice, might possibly arise in connection with this Bill, namely, that the Bill might perhaps be regarded as indicating an intention on our part to increase customs duties in the near future. This is in no way the case. As Council will remember, my Hon'ble Colleague the Finance Member informed us in his Budget speech that the question of the imposition of additional taxation had been very carefully examined in the last few weeks; and it was in the course of this examination that attention was drawn to the anomaly in the law, which it is now proposed to remove. It seemed to Government clearly desirable that the law should be amended, and we thought it best that the amendment should be carried out without further delay, not for present use but to simplify the position if tariff revision should be required hereafter."

The motion was put and agreed to.

The Hon'ble Mr. Clark :—"I move, Sir, that the Bill now be passed."

The motion was put and agreed to.

RESOLUTION *RE* STATE MANAGEMENT OF RAILWAYS.

The Hon'ble Sir Ibrahim Rahimtoola :—"Sir, I beg to move the following resolution :—

'That this Council recommends the Governor General in Council to consider the desirability of the future policy in regard to State Railways being one of management by Government instead of by Managing Companies.'

[24TH MARCH, 1915.] [*Sir Ibrahim Rahimtoola.*]

"I will open my remarks, by pointing out that my resolution does not deal with the question of the nationalisation of railways, as some people have imagined. It was so early as 1880 that the Government of India laid down as their future policy that they would acquire all the railways at the time when the option resting with them under the contracts with Railway Companies fell due So that, so far as the word 'nationalisation' means the ownership of railways, practically all trunk lines in India have been acquired and are now owned by the State. My resolution deals with the far simpler question of the management of railways, in other words, whether the lines owned by Government should be managed by themselves or whether they should be managed by Managing Companies. The present system of management of railways is divided into two parts. Government own 25,125 miles of trunk lines in India, out of which approximately 6,800 miles are managed by themselves. The balance of 18,325 miles are leased to Companies for the purpose of management. My resolution asks Government to lay down, as their future policy, that the 6,800 miles which they manage now may gradually be extended as the contracts with existing companies fall due, and that ultimately, when all the contracts have fallen due, to have the entire management of the State-owned railways put under one central Department of the State The advantages that I expect to result from such a system may be summarised as follows :—

(1) The saving to the State of the share of profits now paid to the Managing Companies.

(2) The development of trade and commerce on natural lines instead of the present artificial diversion by means of block rates.

(3) The growth and development of industries especially in the interests of this country.

(4) The promotion of inter-provincial trade.

(5) The centralisation of control in a single State Department located in India and amenable to Indian public opinion instead of in Boards of Directors in London.

"I do not propose to deal with other minor advantages such as the utilisation of the entire rolling stock as one system, etc I will confine my observations to these five main points which I wish to place before the Council.

"The saving to the State under item 1, namely, the share of profits now paid to Managing Companies, is a very important factor in the determination of this question. You are aware, Sir, that the Government of India have been during recent years providing large capital expenditure for the development of railways in India and for the more efficient working of the trunk lines. The annual figure has reached 12 million pounds and although the next year's provision is reduced to 8 millions, my Honourable friend Mr. Marshall Reid, representing the Bombay Chamber of Commerce, only recently stated to this Council that their ideas had advanced and they wanted 15 to 16 millions per annum. In providing these large sums of money for the more efficient working of State railways trade has been undoubtedly helped, but at the same time the share of profits going to Managing Companies has largely increased. There may be other reasons why this is so, but the one I have mentioned is most important. In the year 1909-10 the amount paid to Managing Companies as their share of profits was 18 lakhs of rupees. In 1912-13 it went up to one crore and 6 lakhs and in 1913-14 it was 66 lakhs for 9 months, which if the same average is maintained would work to about 88 lakhs per annum There will therefore be a substantial saving at the time when all the trunk lines are taken over by Government, a saving of about a crore of rupees to the State on the present basis, which cannot possibly be regarded as a negligible quantity. Dealing with the question of development of trade and commerce on natural lines instead of the present artificial diversion by means of block rates I wish to point out that it is a curious phenomenon that though railways belong to the

[*Sir Ibrahim Rahimtoola.*] [24TH MARCH, 1915.]

State, the interests of different Managing Companies, because they share in the profits, are divergent and each tries to draw the traffic its own way. Each management tries its best within the minimum and maximum rates laid down by Government to divert trade to the ports which it serves. They want to carry the largest quantity of cargo over the longest distance over their rails and in order to be able to do so all the cargo which is offered to be carried to ports other than those they serve, block rates, which mean full maximum rates authorised by Government, are levied. I should like to inquire what effect this has upon the cultivators. The cultivators growing their produce in a given centre find that the best outlet for their produce is, say, either Bombay or Calcutta. To illustrate my meaning I will take the instance of the East Indian Railway. My point is common to all railways and when I am taking for my illustration one particular line I do not wish it to be understood that that is the only line that is adopting this system. Each line that serves a different port avails itself of the maximum rates for the purpose of drawing as much cargo to its own port as possible. Supposing as I have said that the produce grown in a given centre has to be carried over the East Indian Railway for a short distance before it can be taken over by the Great Indian Peninsula Railway to the port of Bombay which is found to be the most suitable outlet for it, it has to bear the burden of block rates for the short distance over the East Indian Railway. If India had a monopoly of the produce under consideration it may well be argued that the extra charge thus levied will be paid by the consumer, but only recently the Hon'ble Member for Commerce and Industry pointed out, and very rightly too, that the values of India's principal articles of export are governed by world prices, that the rates which exporters pay in the different ports are governed by what they expect to realise in the home markets or the markets to which these goods are exported. Therefore, if excessive rates are charged for any distance during the passage to the ports, it is, I venture to submit, the cultivators who have to pay them and not the consumers. Now, Sir, it appears to me that the interests of the cultivators should command greater consideration than those of Managing Companies and the merchants. After all, we merchants are the middlemen between the producer and the consumer, and whether the charges levied for transport are high or low they cannot directly affect us. In calculating our prices between the rates we pay for purchase and the rates we sell at, we take into consideration all the charges that we have got to find. Of course it does affect merchants who have their centres of business in different ports in the matter of volume of trade, but so far as these block rates are concerned they prejudicially affect the cultivators only. As I have said it is a curious phenomenon that, when the State owns all these railways, such a system should prevail to the prejudice of a class of people in whom Government profess to feel the deepest interest.

"The management of State railways by different companies is responsible for the formation of spheres of influence of the different ports in India. I cannot understand why any produce should be forced to specific ports by different Managing Companies having a monopoly of transport over their lines and thereby create the different spheres of influence of different ports? I venture to submit that the State should encourage the export of Indian produce through its natural ports, without allowing manipulation of rates. Not only in this respect, but in sanctioning new railways, in providing necessary links to existing railway lines, the same policy of port interests governs their action. The Bombay Chamber of Commerce had to press for, I think, nearly 17 years before they succeeded in obtaining sanction for the Nagda-Muttra line, and now for the last few years they have been pressing without avail for the construction of the Muttra-Aligarh section. It is a section extending over 41 miles only and will unquestionably promote the interests of the cultivators in taking the produce to its natural port. But Government have refused to sanction this link on the ground that it would be an invasion upon the sphere of influence of the East Indian Railway. Now, Sir, I venture to ask what has that got to do with the development of trade and the

[24TH MARCH, 1915.] [*Sir Ibrahim Rahimtoola.*]

natural outlet for produce? Can there be any justification for talking about the sphere of influence of particular railways when all railways belong to Government or the sphere of influence of different ports justifying artificial methods for the purpose of diverting trade?

"Sir, when railways are owned by the State I think the foremost consideration must be to help to the utmost of their power the development of trade and to let the trade go to its natural outlets. In making these remarks I am not asking for any preference to be given to the port of Bombay. I am dealing with the question generally in the interests of the Indian people as a whole and especially the interests of the producers who are primarily affected by this manipulation of rates. I venture to submit that if the management of railways was vested in one and the same central authority, namely, the Government, most of these abuses would be removed.

"Sir, the next question I will deal with is the growth and development of industries and the encouragement of inter-provincial trade. The Government of India must have been convinced from the number of interpellations and resolutions on trade matters which have been coming before this Council, of how keenly the growth and development of industries in India is now being felt by the people of this country. It appears to me that railways are one of the principal means by which substantial encouragement can be given to the growth of industries in the interior of the country. Only recently during the discussion which took place on the Sugar resolution it was explained to us what methods are adopted by foreign countries to capture the trade of India. The payment of bounties and subsidies, the compulsion to plant and grow particular crops, and to sell them to particular manufacturing industries, the carriage by sea and land at less than commercial rates of freight are all considered legitimate means by foreign Governments to capture our trade. Surely it is not too much to ask that State railways, for which the country has paid enormously in the past, should be used for the purpose of helping and encouraging industries in the interior of the country. I know it is no use saying on the present occasion anything about, or asking, that these imports which compete with Indian industries should be made to pay higher rates of carriage on Indian railways, but surely, Sir, it is in no way unreasonable to ask that when goods are manufactured in India and are offered for transport they should be carried at special rates even though the quantities be smaller and the distances shorter than similar goods manufactured in other countries. I have no intention at present, I have not the time, to go into the large mass of figures I have; but it will suffice for my purpose to say that the general principle I am enunciating is certainly justified on the grounds of principle and policy. It is certainly not too much to ask that State-owned railways should carry raw materials to industrial factories and locally manufactured goods to the consuming markets in the neighbourhood at special rates. Such a policy may affect the railway revenue but if it does it will be to a very infinitesimal extent and that only for a time When local industries have developed they will form a source of substantial increase both in traffic and revenue. Apart from these considerations it is certainly not unreasonable to expect that the people of the country should reap some small advantage out of State-owned railways. Take the instance of oil manufacture. Oil seeds in India are sent for carriage over long distances in large quantities and are consequently quoted at very low rates, while oil manufactured in India is carried at second class rates. If you carry oil seeds at very cheap rates it is but fair in the interests of the development of industries in India that you should carry oil pressed out of these seeds at equally low rates, for the encouragement of local industries. Sir, the time at my disposal is so short that I cannot deal with the entire question as well as I should like to. I will therefore say a few words on the next question, namely, to centre the control of State railways in a single State Department located in India and amenable to Indian public opinion instead of as at present vesting it in different Boards of Directors in London. I have never been able to understand why, when the entire railways are owned by Government, when almost the whole of the Capital has been provided by Government, the Managing Companies'

[*Sir Ibrahim Rahimtoola.*] [24TH MARCH, 1915.]

share being only 7 per cent., that the practical control in regard to management should vest in Boards of Directors in London.

"The more I have thought over the question the more I have been convinced that there can be no justification for governing these lines from 6,000 miles away from India instead of a central department in this country. Sir, I may be pardoned if I again refer to one point about which I feel keenly, and that is that when the Members of the Executive Council of His Excellency the Viceroy have adopted the name of 'the Government of India,' I want them to be in reality 'the Government of India,' largely independent in most matters affecting the interests of this country. One reason which was urged by the Hon'ble Mr. Clark in his speech on the last occasion was that he could not promise anything because the sanction of the Secretary of State would have to be obtained. Sir, when the non-official Members, drawn from different parts of India, meet here to urge what the needs and requirements of their countrymen are, they are constantly met by the reply that the matter does not rest with the Government of India but with the Secretary of State, and as regards the present question of railways, that the matter rests with the Managing Boards in London.

"Sir, I think that the time is fast coming, if it has not already arrived, when the Government of India should in reality be the Government of India, working in co-operation with the people of India, in promoting the best interests of this country, and I do feel, Sir, that this is one of the directions in which substantial reform is urgently needed.

"I will now deal with the actual effect of my resolution. My resolution merely asks Government to consider the desirability of laying down a policy of extending the State-managed railways from 6,800 miles gradually up to the time when all the lines are brought under their management. In the terms of the contracts existing between Government and Managing Companies, the only line that comes into consideration at present is the East India line. The contract with the East India Company falls due in 1919, and under its terms notice for determining it has got to be givin in 1917. We are now in 1915, and it is high time that Government should begin to consider very seriously the problem as to whether they will not, in the case of the East India line, give notice to terminate the contract in 1917. Sir, dealing with the East India line alone, I will in a few words point out what the position is. The East India Railway Company's share capital is, I think, $6\frac{1}{2}$ millions, or 10 crores of rupees. It will become payable, if the contract is terminated, along with the annuities which go on up to 1950. The contract with other lines fall in from 1925 to 1950, so that if my resolution is accepted, and if the policy which I advocate is laid down, it will not burden Government with the management of the entire system all at once. They will, at the interval of some years, get each line and bring it under their own management. In the case of the East India Railway, we have paid to them as their share of profits the sum of Rs. 25·93 lakhs for the previous year, and for the nine months during the last year, which is the latest date up to which figures are available, the sum of Rs. 17,88,000. That is to say, in addition to the rate of interest of 4 per cent per annum which is payable to them on their share capital, the amount of profits taken on the basis of 25 lakhs per annum gives them $2\frac{1}{2}$ per cent more.

"Sir, I hope you will allow me about five minutes more to sum up. I have got a great deal more to say, but I will try to be as brief as possible

"It therefore follows that on the $6\frac{1}{2}$ millions of share capital which the East India Company has provided, you are paying them, on this basis, about $6\frac{1}{2}$ per cent per annum. Surely the Government of India can well expect to obtain the capital necessary for the purpose without having to pay such excessive rates of interest, and, what is of even greater importance to the interests of the people of this country, vesting practically full control in the Board of Directors in London.

[24TH MARCH, 1915.], [*Sir Ibrahim Rahimtoola; Sir Fazulbhoy Currimbhoy.*]

"Sir, in conclusion I will merely draw the attention of Government to what was stated by the Hon'ble Member last year as the advantages of the present system. He said that the foremost advantage was that of obtaining capital through the Managing Companies. The other two advantages which he mentioned were, (1) that Government would not be able to bear the entire burden of State management all at one time. I have already dealt with that point. If the policy advocated by me is laid down, you will get the management of the East Indian Railway in 1919, the Great Indian Peninsula Railway in 1925, and so on till 1950, so that you will not have the entire system in your hands till a long time hereafter. It will be a gradual working up of the area till you reach the maximum many years hence. (2) The question of training up experts for the purpose of management was the second advantage mentioned. I think that is also explained away by the point which I have already made. You are not going to have the whole system of railways under your management at once. When you do get the whole system by 1950 you will surely have reached the stage when you will be able to provide the requisite expert machinery necessary for the purpose.

"The only other point to which I should like to refer and on which much stress is laid is the help which these Managing Companies are said to give in the provision of capital. Sir, I venture to think that a great deal too much is being made of that. If you refer to the railway reports you will find that during recent years they have been borrowing at the rate of 4 per cent. All the debentures that are issued by the railways are guaranteed by Government. Surely Government need not employ middlemen, as these Managing Companies obviously are, for the purpose of borrowing money at such a high rate of interest and accept in the bargain company management of our railways. Sir, I venture to submit that if the suggestion which I put forward last year was accepted, namely, that if Government were to borrow at the rate of 4 per cent. which is the rate at which these Managing Companies are at present borrowing, they would secure what capital is necessary for their purposes. When Government are paying much higher rates under the present system both in the rate of interest on debentures *plus* the share of profits, surely there will even under that head be some saving to Government and the necessary funds will be available.

"I am of course not dealing with the special circumstances of the war, but when during ordinary times the Port Trusts, the Municipalities and Improvement Trusts, of Calcutta, Rangoon, Madras, Bombay and Karachi are able to borrow every year large sums of money at 4 per cent in India, it is not unreasonable to expect that Government on their own guarantee and with the security of the Railways, will be able to borrow both in India and in England, large sums of money at the same rate of 4 per cent. There is no meaning in not agreeing to pay 4 per cent direct and then paying not only 4 per cent through the Managing Companies, but also something more in the shape of profits, and accepting the control of Managing Companies in addition.

"It appears to me, Sir, that the interests of India demand that the centre of control of the management of the entire system of railways should rest with the Government of India and that they should be worked primarily in the best interests of the people of India."

The Hon'ble Sir Fazulbhoy Currimbhoy :—"Sir, last year we had a resolution about railways and about this point of their management, and I favoured the present arrangement of management by Companies on certain grounds. The opinion I then expressed as regards the economic aspect of the question was formed in view of the fact that State management is more expensive than management by Companies. The percentage of working expenses to gross earnings is higher under State management than under management by Companies. But now, on hearing the exhaustive speech of the Hon'ble Mover, I am convinced that the advantages of economy are counterbalanced by the disadvantage incidental to the present arrangement for division of

[*Sir Fazulbhoy Currimbhoy; Sir Gangadhar Chitnavis.*] [24TH MARCH, 1915.]

profits. For a proper elucidation of this point a detailed and exhaustive analysis of the whole position would of course be necessary, such as a body of experts, working jointly with the Railway Board, alone can undertake. And this I confidently hope Government will take in hand at an early date.

"Apart from the commercial and business aspect of the question, there are facts which would make one pause in his advocacy of management by Companies. The first and most foremost of course is the one relating to the differential treatment as regards rates on these Company-managed lines of internal and sea-borne commerce, to which the Hon'ble Mover has referred. The general complaint among merchants connected with the inland trade is that the schedule of freights on these lines for exports and foreign imports is much higher than the schedule for goods moved from one part of the country to another; or to be more precise, the rates inland from seaport towns are generally lower than between two intermediate stations. I am quite prepared to concede that, in cases where goods have to be transhipped at a junction station, an extra charge for handling is fair. But making every allowance it is difficult to believe that the higher rates are unavoidable. We have every right to insist that both external and internal trade should receive one and the same treatment on our railways, and all distinctions in favour of the former should be removed. Special facilities for the internal trade may perhaps be justified in principle; but no principle will sanction the imposition upon it of particularly onerous terms and conditions. Government might possibly succeed in enforcing a fairer adjustment of rates, but it is doubtful if, without State management, perfect equality of conditions for the two branches of the trade could be secured.

"Then there is another fact of serious importance connected with management by Companies. Public opinion in India is ripe for a large expansion of feeder railways by Companies formed by Indians or by firms doing business in the country The recent revision by the Secretary of State of the Branch Line terms testified to the earnest desire of Government to encourage the people. But it appears that under some arrangement between the big Companies and Government, these Companies have a powerful voice as regards sanction of schemes of feeder lines. They are only fractional owners of the railway systems, and yet with them lies the final say whether a proposed feeder line to a particular railway should be contructed or not This is wrong. Messrs. Killick, Nixon and Company, for instance, had some time ago two schemes—Nadiad to Kapadvanj and Godhra to Lunavada—connecting the Bombay, Baroda and Central India Railway with the interior. The Government of India sanctioned them, but the British Company raised difficulties in the matter of 'Rebate Terms.' The assistance required was, however, granted out of the general revenues. But everybody would not be so fortunate. The control is practically now in the hands of these British Companies who are expected shortly to appear in the field as competitors for the construction of feeder railways also. This situation is intolerable, and should there be no means of taking away this control from these Companies, that will be reason enough for the State to overhaul the whole system and to assume the management itself. If the system cannot be mended, the drastic alternative of ending it will have to be adopted, however inconvenient the course may be in other ways. There is undoubtedly a case for inquiry, and the time has come when a definite policy with regard to railway management should be enunciated by Government. I accordingly support the resolution."

The Hon'ble Sir Gangadhar Chitnavis:—"Sir, I beg to support the resolution so ably moved by the Hon'ble Sir Ibrahim Rahimtoola. I have more than once expressed my views about the comparative merits of State management and management by Companies of these railways, and I still hold the view that the former has certain disadvantages from which the latter is free. Broadly speaking, it is a question of balance of advantage. Both managements have certain points in favour of them, but the main issue is, on

[24TH MARCH, 1915.] [*Sir Gangadhar Chitnavis; Mr. Marshall Reid.*]

which side lies the greater advantage. I have always been of opinion that State management is less economical under existing conditions. It may, however, be that the present disadvantages of this management will in future be considerably minimised. If they are, I would certainly prefer that to management by Companies. The question has to be decided one way or the other by Government with due regard to the interests of the Indian public. But as the time is coming on for a general renewal or revision of contracts, discussion at the present time is welcome. I feel certain Government will settle their future policy of Railway management on the broad grounds of public advantage and efficiency at a minimum of cost. The war will perhaps introduce for a good long time new conditions in Railway finance. This may involve the raising of increased capital under more difficult circumstances, and also an increase of activities on the part of Government in undertaking new lines without unnecessay delay. What they will be it will be idle to guess now. We must await developments, and when we reach again a settled state, Government will undoubtedly proceed to reconsider the whole position, and to decide upon a policy which will be conducive to the best interests of the country. Whatever arrangement is decided upon, greater liberty of action to the Government on the spot is essentially necessary. It will reduce unnecessary correspondence and enable people here to reach the authorities much more easily than if the central seat of Railway management under this dual control were so far away as in London. If management by Companies is ultimately decided upon, Government will necessarily consider and enforce improvement in the conditions. The presence of the Hon'ble Sir Henry Burt at the head of Railway affairs at the time of the final settlement of Government policy would have been a great help. He has, throughout his long official career, been watchful of Indian interests, and has worked hard to promote them. But he is leaving India, and may be succeeded by an officer of conspicuous ability and large experience. I am sure these interests will be safe in the Hon'ble Mr. Gillan's hands if he succeeds to the post. As the resolution presses forward a consideration of the settlement of railway policy only, there is nothing to object to in it, and I support it."

The Hon'ble Mr. Marshall Reid:—"Sir, I have listened with the greatest interest to the very able speech of my hon'ble friend. I fancy his object has been mainly to provide us with an interesting academic discussion in what is necessarily a rather dull session: my reason for thinking so is that he has enunciated a principle directly contrary to that which he stated, and with which I agreed, on Monday. He then stated that it was not desirable that the Government of India should involve itself in the details of commercial and other undertakings! He now proposes that the Government of India should involve itself in an enormous undertaking. I am glad to see my hon'ble friend Mr. Clark is looking a little happier than he might be under these conditions: from this I gather that it is not his intention to leave to his successors what would be a most terrible burden.

"Now, Sir, the resolution as worded presupposes that there is no Government control: I have been in this country some 27 years, and from railway men I have heard nothing but complaints of Government control and interference with private Companies. I know it is not nearly so bad as it was, but it still exists and we hear of it frequently in public speeches at Chambers of Commerce and other such places.

"My main objection to the principle here enunciated is that it reverses one very important principle, namely, decentralization. My hon'ble friend's proposal, instead of spreading out responsibility and general control, aims at bringing it all into one place, where Hon'ble Members and many of the public, apparently, will come in and take their part. My second objection is that it is adding a great deal of reponsibility to a Department which is already overburdened with work of a very varied nature. My third, and I think a very important objection, is that it aims at reducing the power and the initiative of the managers who are primarily responsible for controlling railways.

[*Mr. Marshall Reid; Mr. Abbott.*] [24TH MARCH, 1915.]

"Company management is not, of course, perfect, but I think, on the whole, it is possibly rather more so than State management, and I should like to see the object aimed at rather to improve the system of Company management than to introduce what I feel to be the disabilities of Government control. I presume it is not suggested that one individual could possibly personally control all the railways in India: the question therefore is how best to secure decentralization and efficiency. To get the best out of individuals and out of corporations it is desirable to create an *esprit de corps* and enthusiasm for the service to which they belong, and managers should have a free hand to enable them to produce and carry out original and good work and they should be sufficiently long and sufficiently permanently in their posts to enable them to complete important works which they have undertaken. These, I think, come much more through Company management than through Government control: they may to some extent be present under Government management, but it is undoubtedly the case that State railway managers are transferred from one place to another and they do not know when they are going to be so transferred; therefore, they have not the same inducement to build up and carry out important and original works as Company managers have. I have said that Company control is not perfect, but I think it is more calculated than State control to get the best out of things: Company management would be more effective if some of the restrictions which are now placed on it were removed and if managers were also more free from the control of their Boards at Home in matters of detail. Presumably a railway manager, like other managers, is appointed because he is at the top of his profession, and he is absolutely trusted. If that is so, surely a Board or a Government should place the utmost reliance in and give the utmost power to the man on the spot whom they have appointed because they think he is the best man. Home Boards are valuable because of the experience, among other things, of those who form these Boards: they naturally should be consulted and should deal with all important matters of policy and other large questions; and no doubt they are exceedingly useful in that they are in touch with the largest money market in the world, and they also are able to get into close touch with the Home Government: but I should be inclined to reverse the present position as between the railway managers and the Company Boards. Instead of limiting the control of railway managers, I should be inclined to limit and confine the control of the Home Boards to vital matters and to large questions; I should leave details and ordinary routine work to the general management of the man on the spot who has been appointed because he is supposed to be capable of carrying out his work: if he prove not to be capable of doing so, then the simple solution would be to remove him and to replace him by another.

"My hon'ble friend's proposal that railway companies should gradually be eliminated with a view to State control seems to me to remove a very important incentive to progress, namely, healthy competition between two separate entities. What he said with reference to the Muttra-Aligarh railway is, in my opinion, perfectly correct: we in Bombay, during my considerable experience, have several times had to press on Government the necessity of constructing and extending certain lines: we have had to wait very often a great number of years, but I do not remember any line which we have believed to be necessary that we have not in the end succeeded in getting. I feel perfectly confident that in good time—perhaps in a good long time—we shall, in the matter of the Muttra-Aligarh line, also achieve our object.

"With these remarks, I should like to say that I do not desire to support the resolution which is now before us.

The Hon'ble Mr. Abbott:—"Sir, I rise to oppose this resolution. I feel that if it is accepted, competition will be killed, red tape will rule. Companies are as a rule open to be convinced that the minimum rates should be introduced in certain cases. I have not found State-managed railways equally so. Heads of State-managed railways are usually Royal Engineer Officers, continually being transferred to other lines, to military duties or sent

[24TH MARCH, 1915.] [*Mr. Abbott; Mr. Setalvad.*]

off suddenly on field service. We cannot expect men under such conditions to be commercial experts. We must have commercial experts managing railways What State railways are better or equally as well managed as the Great Indian Peninsula, the East Indian Railway or the Bengal Nagpur Railway? I feel that this will be a blow to private enterprise, and I hope that Chambers of Commerce will be consulted."

The Hon'ble Mr. Setalvad:—"Sir, it is with great hesitation that I venture to take part in this debate, because I am not a business man, I am not a man connected with commerce and do not claim to have that experience which both my Hon'ble friends * on my right and left have. But I venture to offer a few remarks on this question that strike me as relevant. Following closely and with great interest the speech of my Hon'ble friend Sir Ibrahim, so far as I can gather, his complaint against the present system was that the Companies who are in charge of the management of these railways appropriate a good amount in the shape of their share of the profits, and he suggested that if Company management was done away with and State management substituted in its place this amount would accrue to the State That seemed to me to be the main ground of his proposition. No doubt he brought in other heads of argument, namely, the present disadvantages of different Companies working different railways—resulting in what are called the block rates, and other disadvantages to trade that he pointed out. But, so far as those disadvantages are concerned, I do not think that those difficulties are insuperable. Even, at present, Government have no doubt certain powers of control over these Companies, and those matters which affect trade adversely in the manner my friend has pointed out can certainly be dealt with by the State, and measures taken for their removal. If that is so, really it comes back again to the first point that my Hon'ble friend tried to make, namely, that a share of the profits, representing very large amounts, go to these Companies which could well be earned by the State. True, at first sight, that does appear to be so, but what strikes a layman like myself is this, that the management of railways or of any commercial venture by a department of the State can never be so economical or so efficient as management by Companies having a direct interest in the profits. And I should not be surprised to find, if it ever happened that the State undertook the management of these railways, that the profits dwindled, and that even after saving the present share of profits taken by the Companies, the State did ultimately in the result not make more than what is made by it under the present system.

"But besides that, what I do feel, Mr. Chairman, is that you can never have the enthusiasm, as my Hon'ble friend Mr. Marshall Reid said, imparted to a Government Department, that is shown in the management of these Companies. The great solicitude that the Companies have to show for the convenience of passengers, for the convenience of their customers, in order to serve them better day after day, is not a spirit that you can infuse into a State Department that works under ordinary routine rules, and that has no direct living interest in the success of the venture such as a Company and its employees have. Therefore, speaking as a layman, it does strike me, Mr. Chairman, that you cannot have an efficient economical or progressive management of railways by a State Department, and that the better course is, to my mind, to pursue the present policy, by which the management is vested in Companies who have a direct interest in making their services so acceptable to the public as to bring in every year more and more profits.

"As regards the other disadvantages, as I have pointed out, they can and should, in public interest, be dealt with and removed by proper State control or intervention. Taking this view, I for one am not in favour of the substitution of State management in place of the present system. As I said, I intervene in this debate with great hesitation because I cannot claim to have that great business experience which my Hon'ble friend Sir Ibrahim has, but it does

* The Hon'ble Sir Ibrahim Rahimtoola and the Hon'ble Mr. Marshall Reid.

[*Mr. Setalvad ; Mr. Ghuznavi.*] [24TH MARCH, 1915.]

strike me, considering the matter in a logical way and judging it by common sense and general experience, that the substitution of State Agency as suggested by him may not prove successful or desirable. But I understand that all that his proposition seeks at this stage is that Government should give consideration to his suggestion."

The Hon'ble Mr. Ghuznavi :—" Sir, I think we have all listened with very great interest to the speech which my friend Sir Ibrahim Rahimtoola has made at the time he moved his resolution, and I desire to congratulate him particularly on the manner in which he was able to marshall out his facts in the time at his disposal, particularly as he is unfortunately suffering from slight ill-health.

" Now, Sir, there is a Member of this Council whose genial presence we miss to-day and whose wit and repartee have not resounded in this Council Chamber this session—I mean the Hon'ble Mr. Vijiaraghavachariar. Mr. Vijiaraghavachariar was also very much interested in the question of railways, and last year he also moved a certain resolution, not quite of the same nature as the present one, though a certain portion of it had the same effect as the present resolution. His resolution I would point out was more in the nature of a mandate. He wanted the Government to straightway appoint a Commission to inquire into the whole question, whereas the resolution which my friend the Hon'ble Sir Ibrahim Rahimtoola has moved merely urges that the question of the future policy with regard to railway management may be considered.

" Well, Sir, this is a very large question and I venture to think that there may be something to be said against it, but there is a good deal also to be said in favour of it. I should like, with your permission, Sir, to draw the attention of this Council to some of the salient points in the history of railway development in India. Between 1850 and 1869 the first railways constructed in India were built by Companies under contract with Government, which guaranteed to them a fixed interest on the capital They were also given, by the Government, land free of charge, and under the terms of those contracts the Government reserved to itself the power to purchase those lines at the end of 25 or 50 years. Now, as early as 1853, Lord Dalhousie, however, laid down the principle that the maintenance and control of the railway system should be in the hands of the State. This resulted eventually in the State constructing and managing all railways between the years 1869 and 1879 until, I think, the time of Lord Ripon. From 1880 up to the present time, owing to various circumstances over which the Government of India had no control, construction and management of railways have been carried on partly by the State and partly by Companies with capital raised partly by Government and partly by Companies, the result being that some of the most important lines, such as the Eastern Bengal, North Western and the Oudh and Rohilkhand Railways are managed and owned entirely by Government, whereas the only lines of magnitude not owned by Government are the Southern Punjab, the Bengal and North Western Railways. The rest are nearly almost owned by Government and managed by Companies. Therefore, as my friend the Hon'ble Sir Ibrahim Rahimtoola very forcibly pointed out, out of a total of about 25,000 miles, 6,800 miles are already worked and managed by the State And thus it will be seen that the net result has been that the greater part of the railways already belongs to the State.

" Looking at the financial side of the question, we see that out of a total outlay, up to 1912, of a sum of 352 millions, Government have already found means to provide 334 millions and the Managing Companies only 18 millions. It seems to me, therefore, that it is only a question of finding the remaining 18 millions to enable the Government practically to own all the railways. The disadvantages of management by Companies under these circumstances are primarily financial loss to the State and therefore to the tax-payer. There are other serious disadvantages in the system. Having regard to the costs in the working of Indian railways, the rates are certainly

[24TH MARCH, 1915.] [*Mr. Ghuznavi; Mr. Banerjee.*]

very excessive compared to those of other countries, and therefore local trade suffers. This again, has been very effectively pointed out by the Hon'ble Mover. The principle which guides Railway Companies in managing their lines appears to be a question of making the greatest profits without due regard to the broader policy, namely, the convenience and welfare of the public. One instance will suffice, namely, the condition of third-class passengers and third-class carriages. I do not desire to detain the Council by giving a description of what prevails as regards third-class carriages and third-class passengers, because I find that my friend, to whom I have already referred—I mean the Hon'ble Mr. Vijiaraghavachariar—dealt very exhaustively with the subject, and painted in vivid colours the state of things which prevails. In other countries of the world,—England, France, Italy,—third-class carriages are patronised by almost everybody, and they are very well managed; but unfortunately in India third-class passengers are put to the greatest hardship.

"Then again, Sir, there is the question of the employment of Indians. I find that out of a total of something like 58,900 employees, including both those on the railways managed by the State as well as those managed by the Companies, there are altogether 57,000 odd Indians; but these Indians are mostly in the lower grades of service. In the higher grades the number of Indians I feel certain is comparatively small.

"Therefore, generally speaking, the objection to State management can be summed up by saying that as the controlling agency and the central authority seem to be divided between the Government of India here and the Board of Directors of the managing Companies in London, this dual control stands in the way of progress, and is a distinct disadvantage both to Government and to the people; whereas if the entire control and management had been centred in the State the people of the country would have had much greater chance of getting their grievances redressed by approaching Government, as Government is always amenable, I hope, to public opinion in this country. We are not very much concerned with feeder lines and branch lines. They are certainly on a different footing and Government can well deal with them as they think best. Again, the question of the supply of capital and the aid received from Companies I certainly regard as a myth. My friend the Hon'ble Mr. Abbott has pointed out the fact that if the management of railways was taken over by the State, competition will be killed. In that connection I would only like to say that, as far as I have been able to understand from what has fallen from my friend the Hon'ble Sir Ibrahim Rahimtoola, he only meant that the management of trunk lines should be taken over by the State and wishes to leave out the question of branch lines entirely; there is no reason why branch lines and feeder lines should not be made over to different Companies and why healthy competition should not be encouraged. With these few words, I have very great pleasure in according my hearty support to the resolution which my friend the Hon'ble Sir Ibrahim Rahimtoola has moved."

The Hon'ble Mr. Banerjee:—"Sir, I am very much in the position in which my Hon'ble friend Mr. Setalvad is; I am not a business man nor a railway man and I have not the smallest desire to intervene in this discussion. But, Sir, there is a distinct advantage in a Council like this, where there are Hon'ble Members who are experts and Hon'ble Members who are not experts, there is a distinct advantage in the fact that technical considerations can be judged from the large stand-point of common sense. I have listened with great interest to the arguments for, and the arguments against, the proposal of my Hon'ble friend, and I will say at once that I am in strong sympathy with the resolution which has been moved by him. It is in fact an old resolution which was discussed in this Council, and which I think met with the general approval of the non-official Indian members of this Council. Mr. Setalvad objects to the resolution, I think, chiefly on the ground that economic and progressive management would not be ensured if Company management was superseded by State management. Well I wholly dissent from this view. At any rate it is a view which has not been tested. We have a large number of railways which are managed by the State. We have the expression that the

[*Mr. Banerjee.*] [24TH MARCH, 1915.]

proof of the pudding is in the eating. What has been the outcome of this management? Is the Government satisfied with it? Has the management in these cases been progressive and economical? Has it come up to the standard of expectations on the part of the Government? I am inclined to think that the answer will be in the affirmative. At any rate we look forward to an answer on this point being given by the Hon'ble Member in charge. If in the past State-managed railways have been conducted upon progressive and economic lines, if they have given a fair dividend, if they have not been a burden upon the State, we are entitled to ask the Government to extend the sphere of State operations in this direction. But my Hon'ble friend has not met that point, which I regard as the strongest argument in favour of the resolution which has been moved by Sir Ibrahim Rahimtoola. Sir Ibrahim Rahimtoola complained of the large protfits which year after year go to the pockets of the Companies. I think he fixed it at about a crore of rupees a year. My friend Mr. Setalvad has nothing to say to that. What about those profits? Should they not go into the pockets of the Government and the tax-payer rather than into the pockets of Companies located in England? What is the answer to this question? I take my stand upon that crucial position. Unless there are overwhelming reasons in favour of this drain of public money I think we ought to stop it, and such reasons have not been stated in this Council. At any rate Mr. Setalvad has nothing whatever to say to this argument. Therefore, unless we are compelled by the necessities of the situation, by the exigencies of administration, to put this large amount of money year after year into the pockets of the Companies, I say that State management must be preferred to Company management. Then, Sir, it has been suggested by my Hon'ble friend Mr. Marshall Reid that it would be opposed to the principle of decentralisation. I am entirely in favour of decentralisation. I think we in this Council Chamber are all advocates of provincial autonomy. We all look forward to that consummation. No Indian member would oppose the development of the principle of decentralisation. But I am convinced that the principle of decentralisation will not be jeopardised by the acceptance of the resolution of my Hon'ble friend. I think I can suggest a means out of it. You have these railways in different provinces, Bengal, Bombay, Madras and so on. Why not place the administration of these railways under the provincial Governments, which I think would be much more feasible, having a central board to co-ordinate the administrative agencies of the different Governments That would be decentralisation coupled with the exercise of central authority for the purposes of co-ordination. What has my Hon'ble friend got to say to this? Then, Sir, another argument brought forward by my Honble friend is that the department is overburdened. Surely with the growth of administration every department is over-burdened. I am sure my Hon'ble friends on the other side, Members of the Executive Council, find their departments getting more and more over-worked year after year, according to the growth of administrative exigencies. That is a fact, a permanent fact, which we must face year after year. What is the obvious remedy? Strengthen the department. Surely a great scheme of reform is not to be postponed or sacrificed on account of a ground, I do not wish to use the word disrespectfully, so flimsy as this. Then, Sir, another argument which has been brought forward by my friend is, that the manager ought to have large powers of initiative. Surely the Government can give these powers to the manager on the spot quite to the same extent as the Companies can. I will give a concrete instance. We have Colonel Browne, Manager of the Eastern Bengal State Railway, an admirable officer; I believe he has got a large power of initiative; I do not think the Railway Board interferes with him in matters of detail. Therefore, tested by the arguments on the other side, the proposition is unassailable and ought to be accepted. Tested by the arguments in favour of it the proposition is of overwhelming cogency. State railways, State management, means management by the Government. Sir, year after year, the Government is becoming more and more national, year after year our voice is becoming more and more potent; therefore within a measurable distance of time State management will mean management of railways by the people and through the representatives of the

[24TH MARCH, 1915.] [*Mr. Banerjee; Mr. Rayaningar; Mr. Monteath.*]

people. That is what State management will ultimately imply. But perhaps it may be said that I am looking far ahead. Let me confine my vision nearer home. At present State management means a management more responsive to public opinion than Company management can ever be. State management means a management which pays greater attention to the requirements of the people than to the requirements of £ s. d. Therefore having regard to these considerations, I do hope that Government will see their way to accept this resolution. And what after all is the resolution? A most modest resolution, requesting not that the Government should introduce any revolutionary change all at once, but that it should consider the desirability of what should be the future policy in regard to State railways.

"Sir, it is a very modest resoluti n, I think Government might accept it, Government might consider the proposal, if Government finds that the proposal should not be accepted, it may be rejected. But, surely, in view of the fact that in 1919 and 1925 the leases of two Companies will expire, the resolution raises a question of public policy that should be considered and I hope and trust that the Hon'ble Member in charge of the Department will be able to accept it."

The Hon'ble Mr. Rayaningar:—"Sir, the question as to the relative merits of State management and management by Companies of State-owned railways is not an easy question. We have to consider several aspects of the question before we can solve it. To begin with we have to determine whether from an administrative point of view the State can conveniently take over the management of all its 25,000 miles of railway. Besides, there is the financial consideration. No doubt State management is in some respects more advantageous. As the Hon'ble Mover has pointed out if the State takes up the management it can secure to itself all the profits without having had to share them with Companies. Sometimes we want preferential rates, if the State has control over the working of its railways there will be greater chance for such rates being allowed. These rates are necessary for the economic advancement and the development of agriculture in the country. Under State management convenience of the travelling public will be better attended to. If the management is in the hands of the State, public convenience will be of primary consideration. Then, again, if the management of the State railway is in the hands of the State, the State can directly deal with complaints and suggestions for improvement. As it is, Government has to refer them to the managing Companies. In many cases provincial Governments have to approach the Companies through the Government of India. The procedure involves delay. If the management is in the hands of the State and some of the powers of the Government of India being delegated to provincial Governments, small matters could be dealt with on the spot and delay and correspondence avoided. These are some of the apparent advantages Do these advantages outweigh the difficulties? It is a question for experts to answer, they alone can say whether on the whole State management is advantageous or not. What the resolution seeks is the consideration of the policy of State management. It cannot be said that the matter is not worth being considered. On the other hand, in view of the fact that the period of some of the contracts will expire by 1919, I think an early consideration is necessary. With these observations, Sir, I support the resolution."

The Hon'ble Mr. Monteath:—"Sir, the question of State *versus* Private management of Indian railways was unofficially before the commercial public in 1907 when, as a Member of the Bengal Chamber of Commerce Committee, I remember that there were rumours of the transference of certain lines from State to Private management. The subject was one that had been talked about and was publicly brought up at the annual meeting of our Chamber at the end of that official year, early in 1908, when the Vice-President spoke in favour of State management and was supported in a speech by Sir Ernest Cable. I refer to this as I wish to say that these were personal opinions and not those of the Chamber as it was known that commercial views were divided.

[*Mr. Monteath; Pandit Madan Mohan Malaviya.*] [24TH MARCH, 1915.]

This latter was proved on a subsequent reference to the membership as a result of which no action was deemed necessary in following up the proposals. On the whole the feeling was that opinion tended distinctly in the direction of rather relieving the Government of the commercial part of its administration of the railways. The late Mr Thos Robertson, who came to India to study and report on Indian Railways, arrived at the conclusion that the disadvantages of direct State management outweighed any advantages which it might possess. He favoured the leasing of all our railways to Companies to work, giving his reasons: firstly, that Government would be in a stronger position to watch over the interests of the country and to hold the balance between contesting parties; and secondly, that the public would have the results from healthy competition between different Companies. The question is a debatable one as we have seen from to-day's speeches, and I do not propose attempting to answer the many points raised by members, though I would like to ask one question on the one brought forward by several speakers as to the amount paid for home management. Is it supposed that Government are going to work railways for nothing? From opinions previously gathered State management will cost more than Private control. Then with regard to the suggestion of the Hon'ble Mr. Surendranath Banerjee that a Central Board could be relieved through provincial management, I think that if this system was introduced the tug of war over the Muttra-Aligarh extension would be just as great, if not greater than at present. The subject is debatable and all I ask on behalf of our Chamber in Bengal is that if it is to be considered the matter should be made the subject of full reference and inquiry commercially. Meantime, I have no authority to give an opinion from the Chamber but for myself feel that the outcome of any inquiry would involve no great change in the present system, as in my opinion, subject to improvements in details which we all recognise are possible, we are best as we are. In principle we do not in these days seek centralisation, but rather decentralisation; and on this ground I would not support any motion for change."

The Hon'ble Pandit Madan Mohan Malaviya :—"Sir, there is no doubt that the question raised by the resolution is a somewhat technical one, and it might well, as such, frighten off a layman from discussing it. But it seems to me, Sir, that if the layman finds the money which experts experiment with and sometimes waste, the representatives of layman are entitled to bring to the notice of the Government points which affect the layman, *i.e.*, the general tax-payer. In dealing with the question, I will first take up the objections raised by the Hon'ble Mr. Marshall Reid, the Hon'ble Mr. Abbott, and the Hon'ble Mr. Monteath. The Hon'ble Mr. Monteath at one time seemed inclined not to commit himself to any particular view, but in his concluding remarks he, too, distinctly showed himself in favour of leaving things as they are. I was surprised to hear the Hon'ble Mr. Marshall Reid characterise the discussion raised by the Hon'ble Sir Ibrahim Rahimtoola as an academic discussion. I cannot think of a discussion having a more practical bearing and importance than the present one. I do not think that the mere circumstance that my friend Sir Ibrahim Rahimtoola enunciated a principle to-day which the Hon'ble Member Mr. Reid thought was in conflict with another which he had enunciated another day, affords sufficient warrant for such a remark as he has made. Mr. Reid further said that Sir Ibrahim Rahimtoola's remarks would appear to presuppose that there is no Government control over railways at present. I do not think there was anything in the remarks of Sir Ibrahim Rahimtoola which would suggest that that was so. I thought he distinctly said, on the contrary, that the Government did exercise a certain amount of control over all Railways in the country through the Railway Board and in other ways.

"But the most important objection taken by Mr Reid was that the resolution runs counter to the principle of decentralisation. I did not not know, Sir, that the Hon'ble Member was so deeply attached to the principle of decentralisation. I thought he had only a practical business man's regard for the principle which was found to be favourable to the business in hand at a particular moment. At any rate there are some business men who answer that description,

[24TH MARCH, 1915.] [*Pandit Madan Mohan Malaviya.*]

When we ask for decentralisation in matters of political administration, these good friends say: 'Decentralisation will lead to deterioration and inefficiency; it will lead to a weakening of the central authority, which enforces economy and ensures efficiency.' But when we ask that the State should manage the railway lines by its own direct agency and not through Companies, the merits of decentralisation are preached to us, and we are asked to continue to make an annual sacrifice of a crore and more of the public money at its altar. Mr. Reid admitted that the management by Companies did leave something to be desired; but he said that the fault lay in the restrictions that were imposed by Government upon Railway Companies and in the restraints that were imposed by the Boards of those Companies upon the managers out here. Mr. Reid would leave the man on the spot practically entirely free, except in certain important matters of principle, which the Board might lay down. That would lead, Sir, to a larger amount of public money being swallowed by these Companies than is being done at present.

"The Hon'ble Mr. Abbott complained that if the resolution were accepted it would kill competition. Competition between whom? Competition between persons whose sole concern is to make as much profits out of the business as they can and who care for the interests of the public only in so far as it affects the prosperity of their business. The Hon'ble Mr. Abbott also urged that the Government will find it difficult to obtain the services of commercial experts. Well, I wish my friend had made himself sure of his facts before he made such a statement. He would then have found that it was the State that supplied the largest number of commercial experts to the Companies both in this country and even on the Boards of these Companies in London. I will tell him something about it by and by.

"This therefore is the position. The object of the resolution is to suggest that the system of State management of Railways should be extended as the Government will thereby save a large sum of money which it pays at present to Companies as net profits and the public will receive other benefits besides. We all know that the railways have cost the people of India a tremendous sum, nearly 600 crores, or £400 millions, has been invested up to this day in railways. Up to 1900 railways did not yield a profit; from 1900 upwards they have yielded a profit. True, last year, owing to the special exigencies of the war, the profits came to ·53 per cent, and they are estimated to be ·32 per cent only in the following year. But they have yielded better returns in previous years and the sum total of the net profits they yield to us is not an insignificant amount and there is every reason to think that if the Government takes up the management of all the railways in its hands, the money invested can be made to yield a much larger return. The Irrigation Department affords an excellent illustration and argument. A large sum of public money has been invested in it. That Department is entirely managed by State agency and it yields the handsome profit of over 5 per cent. Railways have been largely managed by the agency of Companies, and they have never given much above 1 per cent of profit! I doubt not, Sir, that if the management of all State railways is taken up by the State, there will be a distinct and a large gain in the sum total of our profits from them.

"It was stated by one speaker that railways managed by Companies are managed more cheaply than those managed by the State. That is not so. If I had the time, I would show that the smaller percentage of working expenses shown by some Company-managed lines is due to causes which can easily be explained. For instance, the East Indian Railway Company shows a much smaller percentage of working expenses than the Oudh and Rohilkhand Railway and the North-Western Railway. The reasons are that the East Indian Railway has passed through better soil than the other two lines; and owing to its comparative nearness to a port, has had greater facility in getting materials for construction and equipment. Then the East Indian Railway traverses the most densely populated parts of the country; it has got a large number of large towns and cities on the railway line; and thus commands both a large passenger traffic and a large goods traffic; it has a port for both exports and imports; and has less haulage on account of up and down traffic. Its

[*Pandit Madan Mohan Malaviya.*] [24TH MARCH, 1915.]

wagons carry grains to Calcutta, and bring back imported articles and coal, and lastly, what is a most important thing, it has got coal-fields on the line. For these reasons the working expenses on the East Indian Railway are smaller than those on the other lines. The Great Indian Peninsula, North-Western Railway, and Oudh and Rohilkhand Railway have to carry coal from much longer distances and on that one ground alone their working expenses are very largely increased. So far as regards working expenses. I will now notice another argument which has been raised in favour of Company management, namely, that the capital invested in the railways has been provided by the Companies. My friend, Sir Ibrahim Rahimtoola, has pointed out that 93 per cent of the capital invested in railways in India has been provided by the Indian tax-payer, and only 7 per cent by the Companies. No one will question that this small fraction also can be easily provided by the people, if the substance of the proposal before the Council commends itself to the Government of India.

"Then, Sir, there is the question whether Government can command the services of men competent to manage these railways. The Hon'ble Mr. Abbott has said, it cannot. In answer to that I would point out that at present the State trains a large number of the experts who work the railways which are managed by Companies. Look at the chief officers of those Companies, their Agents, Engineers, Auditors, Traffic Managers, etc. A large percentage of these officers are drawn by the Companies from men who have been employed in the first instance and often for a long time by the State. Their services are taken either on loan or after resignation or retirement. Take the Great Indian Peninsula Railway. We have Major Hepper there, who was formerly employed by the State. Take the East Indian Railway, its late Agent, the late Sir W. R Dring, its present Chief Auditor, Mr. Marshall, won distinction in the service of the Government and then transferred them to the Company. Similarly on the Madras Railway we find Captain Magniac, as Officiating Agent, and Mr. P. C. Mole, as Chief Auditor. The Agent of the South Indian Railway, Mr. A. Muirhead, till lately belonged to the Oudh and Rohilkhand Railway. On the Bombay, Baroda and Central India Railway, we find that the late Agent, Major Shelly, the late Chief Auditor, Mr. Hoskyn, and the present Traffic Manager, Mr. Wood, were all at one time in the service of the State. The late Agent of the Bengal Nagpur Railway, Mr. Manson, belonged formerly to the Oudh and Rohilkhand Railway, and the late Auditor, Mr. R. Dinwoodie, was also formerly a servant of the State. So also Major Carew Smyth, Agent of the Nizam's Railway.

"Even after retirement it is the men who have received their training and acquired experience and distinction in the service of the State that guide the affairs of the Railway Companies. For instance, Colonel Sir William Bisset, who held a responsible office under the Government is now the Chairman of the Bombay, Baroda and Central India Railway, the Madras and Southern Mahratta Railway, and the Assam Bengal Railway Boards in London. Sir Frederick Upcott, late President of the Railway Board, has joined the Board of the East Indian Railway Company as Chairman. Our late colleague Sir T. R. Wynne, who retired about six months ago, as President of our Railway Board, and who was appointed by the Secretary of State, Government Director of Indian Railways in England, *i.e.*, to represent the Government of India in all the Boards of Railway Companies in England, has, it is stated in the papers, accepted the Managing Directorship of the Bengal Nagpur Railway Company! The Managing Director of the South Indian Railway, Mr. Neville Priestley, was formerly a Traffic Manager on one of our Railways, and the Secretary to the Railway Board at another time. I can give many more instances of this kind, but I will not. I have said enough to show that so far as expert knowledge and talent for business is concerned, the State has commanded it in a much larger measure than any Company can command, and that it is high time that a system were adopted by which the Indian tax-payer, and not the Company manager, should receive the full benefit of the services of men who have been trained at his expense.

[24TH MARCH, 1915.] [*Pandit Madan Mohan Malaviya.*]

"We might now consider the advantages of State management of Railways. The first advantage would be the saving of a crore of rupees a year, the loss of which I am sure the Hon'ble the Finance Member cannot look upon with complacence—not only the Finance Member, but I am sure no Member of the Government of India can conscientiously allow a crore of rupees to be given away year after year as net profits to Railway Companies, when that crore saved and spent upon the education of the people can, in the course of a few years, change the face of the country, by rescuing the people from the ignorance in which they are steeped and the misery and helplessness to which they are consequently exposed. That will be the certain initial gain. But I claim that it the State takes up the management of its railways from Companies the net profits will steadily increase. Under the prevailing system, the working expenses have been growing enormously; under the system we advocate, they would, we expect, be sensibly cut down. There would be more economy generally,—less expenditure, more economy and larger profits: this will be no mean advantage.

"The second advantage would be to passengers. At present the interests of passengers are not much cared for. The third-class rate ought to be lowered. It may be said that it is the lowest in the world. But labour also is cheapest of all the world in this country, and the people have contributed the money which has been invested in the building up of the railways. The third-class fare should be brought down to 1½ pies per mile throughout. At present some Railways are quoting the maximum of 2½ pies per mile. On every railway of which the State takes up the management, the rates should be at once made uniform and reasonably low. This will not involve loss to the State, but as the post-card has increased the postal revenue reduced rates will lead to greater traffic, and therefore to a greater total income in the end.

"Nor is the change advocated less peremptorily called for in the interests of Trade. The need for it here is, if anything, greater. As my Hon'ble friend, Sir Ibrahim Rahimtoola, has pointed out, there are differences in rates that cannot be justified for a moment; there is an absence of the right principle in fixing them. Rates for raw exports are more favourable than rates for finished articles; rates for foreign imports are more favourable than rates for indigenous articles and for inter-provincial trade. The Council will be surprised to hear that the rates for imported wines and spirits are of the 1st class, namely, ⅓rd of a pie per maund per mile, while the rate for Ganges water is of the 4th class, namely ¾ths of a pie! Wines and spirits imported from abroad are thus far more favoured under the present system than the holy water of the Ganges, which the vast millions of this country regard as a thing which every human being will be blest to have a portion of! Then look at other rates. The rates for *ghee*, an essential article of food for the people, and for oils, are very heavy, while the rate for oil-seeds is very low. There is no doubt a General Classification Committee which fixes rates, but notwithstanding that there are these anomalies, and these would certainly be avoided and corrected if the Government took over the management of all State railways in its own hands and put an end to the competition between the various Companies. There would be then no mercenary interests left which would rejoice in earning large profits at the expense of the general public.

"A third advantage to which I would invite attention will be a larger employment of Indians on the Railways. It is notorious that at present the number of Indians who receive appointments on them in the higher grades is very small. The Government, I am thankful to say, have taken note of this fact, and have done something to improve matters. I hope that improvement will continue, but the present state of affairs is deplorable. Not only is the number of Indians employed very small, but the few that are employed do not receive fair treatment. As an instance, I may mention, that the Great Indian Peninsula Railway exchanges passes for Eurasian employés of other railways with its own, but it does not issue exchange passes for Indian employés. Indians therefore suffer doubly under the existing system. For all these reasons it is necessary, Sir, that the question raised by the resolution should be seriously taken up and settled once for all in a statesmanlike manner.

[*Pandit Madan Mohan Malaviya; The Vice-President; Mr. Das.*] [24TH MARCH, 1915.]

"My Hon'ble friend Mr. Marshall Reid and some other members seemed alarmed at the suggestion that the Government of India should take up more burdens of a commercial nature. The Government of India, Sir, of all the Governments know of—and I know of a few—occupy a very peculiar position. The Government of India are one of the biggest banking, trading, commercial concerns known to mankind. They are a large business firm dealing in different kinds of businesses. Take the Salt Department and the Irrigation Department—these are very large departments. The Government have managed them, and managed them successfully too. Any department of business which the Government have thought it proper to take up in their hands, they have found men and money to manage them. And here in the matter of the Railways the policy was laid down, as my friend Sir Ibrahim Rahimtoola has pointed out, in 1880. The Government decided then that the Government should buy up all the Railways from the Companies as soon as possible. It had steadily carried out that policy. The question raised by the resolution is not that the State should become the owner of the Railways, for that it already is, but that it should like the management of its railways in its own hands. The time for it has come. The existing lease of the East Indian Railway will expire in 1919. If it is not to be renewed, notice must be given to them in 1917. I hope the Government will decide to give them such notice. The East Indian Railway Company have earned enormous profits. They were given a present of 6½ millions when the line was purchased by the Government. Of the 32 millions of capital, at which the price of the line was fixed, 26 millions was paid in hard cash and credit was given to the Company for over 6 millions as their share of the profit. They are now receiving interest on that amount, and, over and above that, they are receiving a good share of the net profits for working the railway. This last should be saved to the people.

"Sir, some Hon'ble Members have said that, if the Government took up the management of the railways, the working expenses would swallow up much of the profits of which we have been talking. That is due to want of acquaintance with the facts—"

The Hon'ble the Vice-President:—"The Hon'ble Member has already used up his time. I must ask him to draw his remarks quickly to a close."

The Hon'ble Pandit Madan Mohan Malaviya:—"I will, Sir. A glance at the Financial Statement which was placed on the table yesterday will show that what my friend the Hon'ble Sir Ibrahim Rahimtoola has his eye upon is the net profits, which are left after excluding all working expenses, and after excluding all the interest payable on the amount invested in the railways. They are net profits pure and simple, no deduction will have to be made in them, if the Government should take up the management of the railways in their hands. It will only mean that instead of allowing those profits to go into the hands of the Companies who manage the railways from London, they should be retained by the Government in their hands. The Government of India are in an immensely better position to manage the railways, to protect and promote the interests of the public, both in the matter of passenger traffic and trade, than Companies in London can ever be. I, therefore hope, Sir, that the resolution will commend itself to the Hon'ble Member for Commerce and Industry, and generally to the Government of India, and that a decision will soon be arrived at laying down that when the existing contracts expire, the State shall take over the management of the East Indian Railway, and subsequently of the Great Indian Peninsula and other Railways."

The Hon'ble Mr. Das:—"Sir, I had no intention of speaking on this resolution, which, as the Hon'ble Mr. Banerjee said, is a very simple one, if you look at the resolution as it is worded. The resolution simply requests that the Governor General in Council will consider whether

[24TH MARCH, 1915.] [*Mr. Das.*]

the policy that now exists with regard to the management of these railways should continue in view of past experience on a review of the results of the past management, or whether there should be a departure and a new system should be introduced. If the resolution, as worded, is accepted, these questions would have naturally to be decided and discussed by men who are experts in this line. But the discussion has been drawn into a wider area and opinions have been expressed on matters on which even a layman feels inclined to take a part in the discussion The two or three Hon'ble Members, the Hon'ble Mr. Reid and the Hon'ble Mr. Setalvad and the Hon'ble Mr. Monteath who have spoken opposing the resolution, have said (that is the Hon'ble Mr. Monteath and the Hon'ble Mr. Setalvad have said) that they do not like to express any definite opinion as they are laymen. As regards the Hon'ble Mr Reid, he says that the managing agency system may be improved. So far as the opposition goes, nobody has given any definite opinion to the effect that the present system has been eminently successful and should be continued. So no reason whatever has been shown as to why the resolution as it stands, which is that it is *desirable* that the matter should be reconsidered, should not be accepted. We have been referred to questions of a very important character, and the matter has been viewed in the light, as it were only of a question of commercial importance. I ask, Sir, is the railway system in India to be managed merely on the grounds of profit and loss? Is it actually a commercial business? Have the railways no other purpose to serve? We have been told that, to remove the present system of management would kill competition. Is the management of the railways in India to be thrown open to world competition? Any managing Company that undertakes to work it on the smallest percentage of return, is such Company to be allowed to manage it? What would it be if a German Company undertakes to work it on the cheapest lines? Sir, mere financial considerations should not outweigh other considerations for which it is the duty of the State to maintain railways. Managing agencies are always influenced by commercial motives When we were discussing the Companies Bill, the Hon'ble Member in charge of Commerce and Industry observed that managing agents sometimes might use their influence to the detriment of those who are really interested in a Company, and we were told then that he (Hon'ble Member for Commerce) had received opinions to that effect. I do not know what his opinion with regard to managing agents is now. If he has changed his opinion, I would congratulate the managing agents of railway Companies. At any rate, Sir, a thing, whatever it be, which Government has to maintain for the growth of prosperity of a country, for strategic purposes and for other purposes of a very important nature, should not be controlled by commercial influences or motives only. The dominant motive ought to be something other than commercial. We have had experience of commercial motives dominating over other more important motives in the case of the East India Company, and we know how objects which are of a nobler nature, which are more befitting the position of a Government were sacrificed to commercial motives. In fact, anything in which the people are interested, and in which the Government is interested, should not be allowed to be controlled by commercial motives only.

"It has been said that to deprive the managing agents of the control of these Companies would be subversive of the principle of decentralisation. As far as I understand decentralisation, it means that there must be a central authority, and delegation of the powers of that authority descends to other subordinate authorities. What is sought here and was expressly advocated by the Hon'ble Mr. Reid, was to increase the power of the manager on the spot, and to let the Home Board of Directors remain as it is. Where is the central power of this present decentralisation system? Would this all powerful manager be the central authority? If so, why have this Home Board? Decentralisation must have a central authority from which flows all authority by means of delegation.

"Sir, the supreme consideration which ought to guide Government in determining the system of management for these lines ought to be the

[*Mr. Das; Mr. Barua.*] [24TH MARCH, 1915.]

interests of the people. The Mover of the resolution has referred to certain instances where the industrial interests of the people have suffered under the present management, and we have managing agents who represent the commercial interests of another country of a foreign character. What guarantee is there that we are not unwittingly being carried back to the days of the East India Company?

"As regards expenses and how it will be a saving, much has been said; therefore, I will not repeat them. Besides that, I am not sure when the guillotine of the time-limit is likely to descend on me. With these remarks, Sir, I support the resolution."

The Hon'ble Mr. Barua:—"Sir, I must admit that in this matter I am as much a layman as many of my Hon'ble friends have admitted themselves to be; and as a layman I will only speak a few words that strike me as matters of common sense. My Hon'ble friends Mr. Surendranath Banerjee and others have very effectively answered all the objections which have been advanced against the resolution and I endorse all their views.

"The first point that strikes me, Sir, is that it seems absurd on the face of it that the Government should have so little control in the management of a concern in which it pays more than 90 per cent of the outlay. The amount of control which Government now has over the Company-managed railways is really so insignificant that it can exercise very little power in their internal administration. It can never have that effective control of affairs to which as by far the major partner it is entitled to have. Some of my friends have suggested that Government management will not be economical and will lead to loss, and others that Government will be in want of proper experts. Arguments like these only prove the weakness of the cause they advocate and have to be advanced only because there are none better. It is really little compliment to Government to suggest that it is a wasteful uneconomical body, the body that is managing all the affairs of the Indian Administration. To say that by taking over railways into its own hands it will by its wonted want of economy make them a burden on the people is to cast a reflection that Government has been wasting our money in all that it is doing and has been a burden to the people rather than a help. This is, I am afraid, too sweeping a remark which very few of my friends will be prepared to accept. As regards finding experts also I cannot believe that the powers of the Government will not equal or even excel the powers of the Companies. I hope the Government will not be in any difficulty about getting hold of the best of experts and any number of them that may be required.

"Another thing which the Hon'ble Mr. Malaviya pointed out and one that cannot be ignored is the question of the employment of Indians both in the upper and lower grades of the railway service. It is only proper that the people who directly contribute to the maintenance and traffic of the railways should have a fair field for employment in the railway service. For this it is essential that the Provincial Governments should have an effective control over the appointments available on the lines that pass through their respective Provinces. This will be possible only if the entire management rests with Government and a process of centralization and decentralization is adopted as in the case of other Government departments.

"Further, the course suggested in the resolution is really no adoption of a new policy or departure from any policy laid down by Government. The original agreements with the Companies to the effect that they would have the leases for a certain period only and that after the expiration of that period the Government will have the right to take up the working of the lines into its own hands, by themselves indicate that the Government always contemplated taking over the railways as soon as they had gone through the earlier stages of their development and allowed the Companies sufficient remuneration for their trouble. When Government has found almost all the capital for the railways, it is unjust to the people as well as to the Government that

[24TH MARCH, 1915.] [*Mr. Barua; Mr. Clark.*]

such an important department should be left in the management of private Companies perpetually, merely because they had contributed an insignificant percentage of the outlay. The contracts with some of the Railways are going to expire shortly; and, as the Hon'ble Mover pointed out last year and has repeated now, it is time that the question is brought pressingly forward for the consideration of the Government. The people want that the Government should have the railway management in their hands; they have greater confidence in Government management than in Company management. And I think the Government should make up its mind, in the interests of the people and in response to their desire, to satisfy them by taking all railways into its own hands as contracts fall due. This will add to the coffers of the State and the convenience and comforts of the public. I trust the matter will receive the favourable consideration of the Government. I whole-heartedly support the resolution as many of my friends have done."

The Hon'ble Mr. Clark :—" Sir, I trust that the Hon'ble Member who has moved this resolution and those Hon'ble Members who have supported it, will not think me lacking in courtesy if I make no attempt to discuss in detail the complex question which has been raised, the question, that is, of the rival merits of Government or Private management of railways. If I do not do so, it is not that I fail to appreciate the great importance of the problem to Indian industry and commerce, but last year, as Council knows, there was a debate on this same question, in the course of which I reviewed the main factors on either side, and it would be a waste of the time of Council, if I were now once more to go over the same ground. I explained then that it would be entirely outside the scope of the debate, were I to offer personally or on behalf of Government any opinion on the merits of the conflicting considerations which can be urged on either side of the controversy, and, it would be equally unsuitable if I were to attempt to do so now.

" At the same time I think I ought to offer some comments on some of the points which have been raised in the course of what - I think we shall all agree—has been a very interesting and very instructive debate. It was opened by the very able speech of my Hon'ble friend Sir Ibrahim Rahimtoola. I listened very carefully to it, and it seems to me that the questions which the Hon'ble Member raised resolve themselves into two main questions of principle, firstly, should we work our railways on competitive lines? and secondly, should our railways be run on commercial lines? I am aware the Hon'ble Member did not specifically put the matter in that way. For instance, he raised the question of block rates, and complained that there was harm done to agriculture and industry by the system through which one Railway Company is enabled to charge a specially high rate for short distances over its own railway in order to prevent goods getting on to another line. Well, I will go so far as to agree that sometimes that block-rate system may cause injury to agricultural interests. But block rates are only one aspect of the competitive system and represent only one side of the competitive system. Following the principle which I have just enunciated, I do not propose to say whether I regard the competitive system to be better or the non-competitive system. But we must regard it as a whole, and if there is that disadvantage, we must also realise that there are advantages on the other side. It is owing to competition that the type of accommodation has improved. One line competes with another and endeavours to give better accommodation to passengers. And similarly they compete to get traffic not only by block rates but by offering lower rates over long leads on agricultural produce down to the ports and agriculture benefits very markedly thereby. On the whole question of rates it seems to me to be too readily assumed that there can be no real control unless the State takes over the railways. Of course that is not necessarily the case. If complaints are brought to the Railway Board about rates now, we bring them to the notice of the Administrations and the Administrations approach them, I think, in a very reasonable spirit. Also I may point out that it is not necessary for the State to take over the whole of the railways in order to get more control than we

have at present. It is also conceivable that on the revision of the contracts, the question may be taken up of giving Government a greater measure of control over rates. Control over rates is conspicuously rigid in some countries where the railways are not nationalised; in no country in the world, for instance, is control stronger than in the United States; and in France also there is very close control over rates on private railways as well as on railways worked by the State.

"I will turn now to the other point, should our railways be run on a commercial basis? The Hon'ble Sir Ibrahim raised this issue when he referred to the possibility of using railways for the promotion and development of our Indian trade. He skated over it, if I may say so, rather ingeniously, for while urging that Government should give especially low rates for local industries, he contended at the same time that to do so would not cost the State any appreciable amount. I do not think we can at all safely assume that to be the case It may very easily cost the State a great deal. At any rate, we should be put into a state of complete uncertainty as to our railway revenue if we were once to admit that principle. We had an interesting debate in this Council in 1912 on the question of the Railways' methods of fixing their tariffs. The question was raised by Sir Vithaldas Thackersey, and while he complained of the existing management of railways in respect of rates, he admitted very freely that the difficulties arose from their being run on a commercial basis. If you once decide that the railways are to be used as a means of promoting and encouraging industry, you will have abandoned that basis and it seems to me that you must be prepared for possibly a severe loss in your revenue which will have to be made good in other ways. I think that aspect of the case also becomes important in connection with a further question which was raised by Sir Ibrahim. He urged—and many other Members urged—that large economies could be made by abolishing the Companies and so avoiding all expenses of Boards in London, etc., and by having one centralised administration. That may be so: but if you take those two things together—the ceasing to run railways on the commercial basis and the economy effected by abolishing the Boards and other expenses in London, and set the one against the other, it seems to me a quite possible thing, I won't put it at more than that—it seems to me a quite possible thing that you may come out on the wrong side. We have heard it urged this morning that railways should be run on very much the opposite of a commercial basis. I can imagine the shudder that must have run through my Hon'ble Colleague, the Finance Member, when he heard the Hon'ble Mr. Surendranath Banerjee urging that they should be worked by the people for the people, urging as he did last year, that Government in managing railways should have a totally different object from a company, in managing railways—"

The Hon'ble Mr. Banerjee:—"Not immediately, Sir; later on, I think I said."

The Hon'ble Mr. Clark:—"At the present moment at any rate, there is no difference. Our administration of State-worked lines is run on the same lines as Company administration. It is run with a view to make a profit. So far as we can, we endeavour to meet the requirements of new industries, because it is part of the commercial working of railways to work up a new industry with a view to getting more traffic later on, but we have not gone beyond that.

"Now, the present resolution merely recommends the Governor General in Council to consider the desirability of the future policy in regard to State railways being one of management by Government instead of by Companies. It is a great pleasure to find myself in the fortunate, and I am afraid, not too common position, not only of being able to meet my Hon'ble friend's wishes, but even of having anticipated them. Government has already with the sanction of the Secretary of State, taken up an inquiry into this matter, especially in regard to the vital question of the comparative economy of the two methods of working. I am very glad, therefore, to be able to accept the

[24TH MARCH, 1915.] [*Mr. Clark; Sir Ibrahim Rahimtoola.*]

resolution. But in doing so I must make it absolutely clear that we are only considering the question of the relative efficiency of the two systems of working. Some Hon'ble Members seem to have thought that if Government accept this resolution, they will be committed to the policy which the Hon'ble Sir Ibrahim Rahimtoola hopes will be the outcome of the inquriy he advocates. That of course is not so; if it were so, I could not possibly accept the resolution. It must be understood that in accepting this motion and in instituting the inquiries which we have instituted, the Government of India are in no way committed as to the conclusions which they may eventually form. We are merely comparing the respective results of the existing working of the lines which are now managed by the State and of those which are now managed by Companies, and the sole object we have in view is to collect the necessary data for forming a judgment on this question. I should like to add in regard to what was said by the Hon'ble Mr. Monteath that in any inquiries which we may make on the subject we shall certainly consult Chambers of Commerce and other bodies in order to ascertain the commercial view. I accept the resolution on the terms, which I have explained."

The Hon'ble Sir Ibrahim Rahimtoola:—"Sir, I am indebted to the Hon'ble Member for accepting my resolution and I trust that when the question is considered, and before a final decision is reached, all sets of commercial opinion in India will be consulted by Government; I understand that that is the intention. I would have, under the circumstances, not troubled the Council with any reply at all, but I hope, I will be permitted to say a few words in regard to the criticism that has been offered by some of the non-official members. I will frankly confess that I never expected the support of the representatives of Chambers of Commerce for the very lucid reason which the Hon'ble Mr. Marshall Reid gave. He said 'it will take time, but we will have our way in the matter of the Muttra-Aligarh Section as we have always had our way, with Government.' Sir, we cannot expect support from contented and self-satisfied people. I have brought forward this resolution in the interests of the Indian tax-payers and I think the general concensus of non-official opinion in this Council must have convinced Government that they regard it as a matter of great importance that the management of railways should vest in the State. Sir, I have only one more word to say in conclusion, and that is with reference to the point that the railways are worked on a commercial basis. No one disputes the fact that the railways should be worked on a commercial basis. What we object to is that they should be worked *purely* on a commercial basis, irrespective of every other consideration. All we ask is that in working on a commercial basis, care should be had to the economic and industrial interest of this country. In the consideration of all these questions, I want that Government should bear prominently in mind not only the question of making revenue out of a monopoly which they hold, but that in getting such revenue they shall bestow careful consideration to the question of encouraging industries in India and promoting the economic interests of the people of India; even at the sacrifice of some portion of such revenue. I need not add that so long as I am a member of this Council I shall continue to press vigorously to the notice of Government that India wants satisfactory measures to be adopted for the promotion of the economic interests of this country."

The resolution was put and adopted.

The Council adjourned to Thursday, the 25th March, 1915.

W. H. VINCENT,

Secretary to the Government of India,
Legislative Department.

DELHI;

The 29th March, 1915.

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 to 1909 (24 & 25 Vict., c. 67, 55 & 56 Vict., c. 14, AND 9 Edw. VII, c. 4).

The Council met at the Council Chamber, Imperial Secretariat, Delhi, on Thursday, the 25th March, 1915.

PRESENT:

His Excellency BARON HARDINGE OF PENSHURST, P.C., G.C.B., G.C.M.G., G.C.V.O., G.M.S.I., G.M.I.E., I.S.O., Viceroy and Governor General, *presiding*, and 59 Members, of whom 51 were Additional Members.

QUESTIONS AND ANSWERS.

The Hon'ble Raja Kushalpal Singh asked :—

Publication of the proceedings of Wheat and Indigo Conferences.

1. "Will the Government be pleased to say whether they propose to place on the table a copy of the proceedings of the two Wheat Conferences and the Indigo Conference recently held at Delhi?"

The Hon'ble Mr. Clark replied :—

"The Hon'ble Member's attention is invited to the answer which I gave to his similar question at the Council meeting of the 1?th January last. Government regret that they are unable to lay reports of the Wheat or Indigo Conferences on the table as the proceedings were of a confidential nature. In the case of the former, I may refer the Hon'ble Member to the statement which I made in Council on the 22nd instant, in which I explained the policy which the Government of India propose to adopt. As regards the Indigo Conference, a *Communiqué* will probably be issued shortly."

[*Raja Kushalpal Singh; Mr. Gillan; Mr. Clark; Raja Jai Chand; Sir Reginald Craddock.*] [25TH MARCH, 1915.]

The Hon'ble Raja Kushalpal Singh asked :—

Railway rates for sugar.

2. "Will the Government be pleased to state whether it is a fact that some Railways charge relatively higher rates of freight for indigenous sugar than for imported sugar?"

The Hon'ble Mr. Gillan replied :—

"It is the case that Railways are able to quote relatively lower rates of freight for sugar offering a large traffic from the ports, which is, as a rule, carried for long distances in full wagon loads, whereas traffic in sugar manufactured in the country is comparatively small and generally carried for short distances in consignments of less than wagon loads, all of which are factors tending greatly to increase the cost of carriage."

The Hon'ble Raja Kushalpal Singh asked :—

Subsidy for sugar industry in Formosa.

3. "Will the Government be pleased to state whether the production of sugar is being promoted by various forms of State subsidies in Formosa?"

The Hon'ble Mr. Clark replied :—

"The Hon'ble Member's attention is invited to an article entitled 'Formosa Sugar Industry' in the 'Indian Trade Journal' of the 18th December, 1913. It appears that the direct subsidy to the sugar industry in Formosa ceased in 1912, but that the Japanese Government gave considerable assistance to the industry in other ways during that year. A statement* showing the sums allotted during 1912 and 1913 is laid on the table. It will be observed that the total grants were reduced from £86,300 in the former year to £48,580 in the latter. Similar information for the year 1914 is not forthcoming."

The Hon'ble Raja Jai Chand asked :—

Civil assistant and military assistant surgeons.

4. "Will the Government be pleased to state—

(*a*) What is the total number of civil assistant and military assistant surgeons in India?

(*b*) What is the salary on which such surgeons commence service, and the highest post they reach?

(*c*) Are these appointments equally open to Indians and to persons of European or mixed European and Asiatic descent?"

The Hon'ble Sir Reginald Craddock replied :—

"(*a*) There are 849 civil assistant surgeons (including 96 temporary officers) in British India. The sanctioned strength of the cadre of military assistant surgeons is 739 and 724 are at present in actual employ. The information regarding civil assistant surgeons is based on the latest information available, but it is believed to be approximately correct though as the cadres are provincial, local Governments can modify them within their financial powers.

(*b*) The minimum and maximum rates of pay drawn by civil assistant surgeons are not the same in all provinces. The lowest starting pay is Rs. 100 and they can rise to be civil surgeons on pay the maximum of which varies from Rs. 500 to 700 a month. The minimum pay of military assistant surgeons is Rs. 100 and they also can fill civil surgeoncies on pay rising to Rs. 700 a month.

(*c*) Indians and persons of European or mixed European and Asiatic descent are equally eligible for appointments as civil assistant surgeons, but the former are not eligible for appointment as military assistant surgeons, whose duties when not in civil employ are confined to services to British troops."

* *Vide* Appendix, page 425, *post*.

[25TH MARCH, 1915.] [*Pandit Bishan Narayan Dar; Sir Reginald Craddock; Sir Gangadhar Chitnavis.*]

The Hon'ble Pandit Bishan Narayan Dar asked :—

Parliamentary legislation enabling Government of India to appoint Vakils to the offices of Law Member and Chief Justice.

5. "Do the Government propose to consider the desirability of recommending to His Majesty's Government Parliamentary legislation which will enable them to appoint Vakils and not only Barristers to the offices of Law Member of the Executive Council of the Governor General and Chief Justice of an Indian High Court respectively"?

The Hon'ble Sir Reginald Craddock replied :—

"The Government of India are not convinced of the expediency of taking action on the lines suggested."

BUDGET, 1915-16.

The Hon'ble Sir G. Chitnavis :—"My Lord, it is an exceptional Budget that we have to deal with to-day; the shadow of War is on every page of it. The Hon'ble Finance Minister has given us a full summary of the whole position. In the light of the circumstances detailed, one is forced to admire the ingenuity and resourcefulness he has displayed in a very trying situation, and the care and sympathy with which he has throughout sought to mitigate the resultant evils On the whole, the financial arrangements, both of the current year and of the ensuing year, will command general approval. I have already, in the course of a separate debate, expressed my doubts as to the policy of setting funds aside in existing conditions to finance new railway lines, but that is a minor matter on which I need not dwell further. It is a reassuring fact that, notwithstanding a heavy deficit, there is to be no fresh taxation and that the financial position of Government is strong. It will be difficult to suggest more effective measures for filling the State coffer without pressing unduly upon the resources of the people. I will only suggest that in floating the proposed Rupee loan, care should be taken not to depress further the market for the existing three-and-a-half per cents and the three per cents. These form the bulk of the people's holdings, and a sudden slump in their saleable value will cause considerable anxiety to all holders, and actual loss to the weak and the needy among them. I have every hope that the matter will receive due consideration at the hands of so cautious and sympathetic a Finance Minister as the Hon'ble Sir William Meyer.

2. "My Lord, I beg to associate myself with the Hon'ble Sir Reginald Craddock in the encouraging words he spoke of the work of the police when he introduced his Budget heads for discussion. The police in some of the provinces are working under great difficulties, some even at the risk of their lives, and they deserve encouragement and sympathy for their faithful discharge of duty from all loyal and right-minded people.

3. "My Lord, as a result of our Resolution of September last, the War will entail a direct expenditure to India of £6½ millions, or a little over ten crores of rupees, and the whole amount is required for the cost of our troops sent to the Front. This is certainly far more than our first estimate, but we have no reason to grumble at the excess expenditure. The whole expenditure is nothing compared to what even neutral countries have had to incur in strengthening their armies and navies in view of contingencies. Had India been an independent Empire, and not formed a unit of the British Empire, our extraordinary expenditure would have been enormous at a grave crisis like this. It is a fortunate circumstance that our connection with the greatest Empire of the world ensures us safety from foreign aggression and internal peace at a minimum of cost. While, therefore, we have not just ground for complaint on the score of extra burden, our contribution to the cost of the War, inconsiderable though it may appear to be in comparison with that of the Dominions, will not be found to be a negligible quantity. India is, after all, a poor country, and the financial resources of Government are not

[*Sir Gangadhar Chitnavis.*] [25TH MARCH, 1915.]

what one would wish they were. It should also be remembered that, besides this public expenditure, the princes and the people have subscribed liberally to the various War Relief Funds. Individual citizens have also offered their personal services, and some are at the present moment actually fighting for the Empire. The gallant deeds of our Princes and our colleagues Malik Umar Hayat Khan and the Kumar of Tikari have already attracted notice at the highest quarters. It would be ungenerous not to acknowledge that we Indians in our own humble way are rendering to the Empire at this crisis as great and as loyal a service as is practicable with our limited means and limited opportunities.

4. "My Lord, the admirable conduct of the people during the whole of this anxious period should be given due prominence. But for the great restraint they have all observed, despite of a serious economic situation, the difficulties of administration would have increased enormously, and if there have been some troubles here and there, they are negligible when the large extent of the country is considered. It must not be forgotten that for one who means or desires evil, there are thousands who chafe under the restriction that prevents them from taking part in the War and dying for their King and the Empire. This is the first great occasion after the Mutiny when the loyalty of the people has been severely tried, and it should be a matter of genuine satisfaction, not only to this Government but also to the Imperial Government, that India of her own free will has cast her lot with the Empire. This is the proudest triumph of British Indian Rule. It likewise forms India's indefeasible title to a just estimate of her participation in the War. It would be difficult and invidious to apportion the credit between the two great sections of the community. Hindus and Moslems have both displayed admirable good-will; the Moslems under circumstances of peculiar importance and stress.

5. "My Lord, in thus referring to India's attitude, I do not for a moment lose sight of the fact, noticed at some length by the Hon'ble the Finance Minister, that the withdrawals from the Postal Savings Bank deposits have been inconveniently large. To all outer seeming this might discredit our professions of loyalty, but I am glad the Hon'ble Sir William Meyer has taken a juster view of the situation, and the circumstance, according to his explanation, is not inconsistent with our unflinching devotion to Government. The investors are mostly men of humble means; in the first few weeks of the War, authentic news of the incidents was scarce; the country was filled with wild rumours; the economic situation was critical. It is no wonder that under the circumstances some of these depositors got frightened, and wanted to have the cash with them. But now the Hon'ble the Finance Minister assures us, the first trouble of the alarm is over, and the people would seem to have come to realise the folly of withdrawing their savings from the Savings Bank. We Indians are an intelligent people, and we cannot be slow to recognise that it is far safer to keep our money in deposit with a powerful Government in these troublous times than to hoard it in our humble dwellings. The heavier the deposits at this crisis the better for all concerned. It is to our interest to strengthen the financial position of Government by deposits. The financial strength of Government is our national strength. The recent appointment of an Auditor-General for India, with plenary powers of scrutiny into the Government accounts and check, will have the effect of creating in the public mind greater confidence in the wise application of Government funds, and, consequently, in the financial stability of Government.

6. "My Lord, the question of oversea emigration has an important bearing both upon the economic and the political situation even in normal times; in a critical time like the present, it has a serious aspect We are all sorry for the "Komagata Maru" affair, but in spite of that unhappy venture and the disgraceful conduct of the emigrants, something may have to be done by Government to secure a reasonable solution of the problem, and it is far better that an attempt at such a solution of the problem should be made by them as the representatives of the people. However much we may fret at our disabilities

[25TH MARCH, 1915.] [*Sir Gangadhar Chitnavis.*]

in the self-governing Colonies of the British Empire, we, unaided by Government, cannot succeed in getting them removed. It is an excellent idea of Your Excellency's, therefore, that we should support the Government to effect a compromise with the colonies on a basis of complete reciprocity, consonant with the common interests and self-respect of both sides. If we succeed in getting the most-favoured-nation treatment, we should be satisfied for the present. Personally, I have great faith in Imperial Preference as a lever which can be used to our advantage in the Colonies, but all discussions regarding this and kindred subjects of Imperial importance must necessarily be suspended until the war is over. When that happy consummation comes, an Imperial Conference of the Colonial and Indian representatives should be helpful in evolving a workable scheme of Preferential Tariffs which will bind us to the Colonies with bonds of brotherly love and mutual trust and mutual interest. I am glad to find that the most convinced of free-traders are beginning to reckon one great outstanding fact, that England's fiscal problem will have to be settled under pressure, not of argument, but of political and industrial forces. Here in India we have advanced sensibly in the development of our economic ideas, and Government is to be congratulated upon the marked change in its policy. Its action in the matter of the regulation of the exports of wheat testifies to its earnest desire to suit its economic policy to the conditions of the times and the country.

7. "My Lord, we had a good deal of discussion this session as regards the promotion of India's industries during the war. In this connection I am glad to congratulate the Government on the appointment of a gentleman at the Board of Trade in England. He was appointed to find outlets of exports of Indian raw and manufactured articles hitherto sent to Germany and Austria-Hungary, and also to make good the heavy losses in her trade with France and Belgium and with neutral countries on the Continent. The complete suspension of the trade of India with the two chief enemy Powers cuts off at a stroke some £11,000,000 of the balance of trade in her favour. This appointment will be the means of providing a channel of enquiry and advice for business men in England desiring to utilise Indian products in manufactures hitherto more or less monopolised by Germany and Austria. It will also have the effect of recognising India's special claims and needs in this war against German trade.

8. "My Lord, we all look up eagerly to an early and successful termination of this great war, the continuance of which means not only so much waste of valuable life of the present generation, but the wiping out of many future generations. No one entertains the least doubt about the glorious victory of British arms, but the sooner it comes the better it is for all parties concerned, nay, for the civilisation and progress of the world. With militarism crushed and the British Empire strengthened by the comradeship in arms of the various units, a juster view of human rights and of the purpose of civilisation is bound to animate the future policy of the West, and India has everything to gain by the wholesome change. The stain of the Mutiny is wiped out by the valour, heroism, and devotion of the Indian troops, and India stands and will stand justly proud of the brilliant record. The honour, the future, of India are in the safe-keeping of these soldiers who have the privilege of fighting for their King and the Empire. Some of these have already won the high distinction of the Victoria Cross. It is flattering to us, it is flattering to our patriotism, that India will occupy a brilliant chapter in the history of this war. Our good name, earned in the field of battle, and our behaviour within the country, will be invaluable asset in the future adjustments of India's rights both within her bounds and in the world abroad. We, therefore, hope that our countrymen will create no trouble and conduct themselves at this crisis in a manner which will redound to the credit of the whole country.

9. "My Lord, in this connection I cannot but allude to the great toll of death during the year. It is a matter of deep sorrow that we have to record not only the loss of men rich in fame who have reached the allotted span of years, but also the deaths of many young and gallant servants of the Empire fallen either on the field of battle or died subsequently of wounds received in action.

[*Sir Gangadhar Chitnavis ; Raja Jai Chand.*] [25TH MARCH, 1915.]

I hesitate to publicly express sympathy with their relations, because personal grief such as this seems to me a sacred thing, to be treated rather with mute reverence than with words. We cannot, however, but admire and praise the courage and fortitude with which these faithful and loyal servants of the Crown from the highest to the lowest who have been thus stricken are working. May the souls of those who are dead in the service of their King and Empire rest in everlasting peace and happiness !

10. "My Lord, we all regret Your Excellency's approaching departure. You have worked under circumstances of exceptional difficulty and with a sole view to India's interests. You have secured our esteem and confidence, and we all hope that you will be allowed to remain until the war is over, and, when you leave, you will carry with you our best wishes for your happiness and prosperity."

The Hon'ble Raja Jai Chand:—" My Lord, the Financial Statement for 1915-16, so luminously presented by the Hon'ble Sir William Meyer, reflects the tireless exertion of the whole Indian continent to surmount and steer clear of the economic and financial disturbances developed by this international conflict, which is second to none in the annals of the world.

"It is quite true, as my Hon'ble friend the Finance Member remarks, that India has not been directly affected by this gigantic struggle and so I think other British colonies too, like New Zealand, Canada and Australia and so forth, have not felt the direct impact of the war, though none of these, including India, and even the non-combatant and neutral countries like the United States and China, have been able to escape the bitter effects resulting therefrom However, considering the gravity of the situation, which at present prevails all over India, I cannot but warmly congratulate the Finance Member on his splendid presentation of facts connected with the recent development of the history of trade and finance during the last few months, and on his masterly review of the measures adopted by Your Excellency's Government to husband the financial resources, to develop trade, to uphold exchange, and to help currency.

"Speaking on the last year's Budget I had drawn the attention of Your Excellency's Government to the backward state of the Punjab in sanitation and education, particularly female education, as being antithetical to steady progress and advancement in the same direction in other provinces of India

"I had also distinctly referred to the deplorable poverty of the martial tribes inhabiting the Punjab, and, as a remedial measure, had mentioned the paramount necessity of providing them with some land in addition to their own ancestral holdings, which are quite insufficient to meet their domestic wants throughout the year.

"The Indian martial tribes, whose glorious deeds of exemplary valour and chivalry, tenacity, and endurance in the battlefield have won the admiration of Field Marshal Sir John French and of Allied Armies, have acquitted themselves of the heavy responsibilities in a way worthy of their best traditions. Thus, when they have readily responded to the stern call of duty in a crisis like the present, with unswerving loyalty and devotion to the British Crown, it remains for the Government to strike a crushing blow at the root of the evil, which leads to their misery and domestic uneasiness.

"My Lord, it is a source of immense gratification to me to find that the Punjab Government, fully realising the need of the hour, have adopted the prudential and beneficial step in the shape of grant of more land than was previously sanctioned for distribution among soldiers whose gallant and distinguished conduct in the field brings them to the forefront.

"It is a boon for which the whole of the Punjab, province in general, and the military tribes in particular, owe to the wide-awake Lieutenant Governor a deep debt of gratitude.

"There is one point, however, which I wish to elucidate. Some officials, as an English newspaper remarks, may have taken an unwholesome view of

[25TH MARCH, 1915.] [*Raja Jai Chand; Lieutenant-Colonel Blakeway.*]

the fact that some military grantees, not being actuated by a love of agriculture, sell their lands to other men, and as they have no aim other than money-making, it only serves to hinder and retrograde the steady progress of colonization. But, His Honour the Lieutenant-Governor of the Punjab makes the following observation in his review in Lyallpur :—'There is no cause for regret in this', says His Honour, 'if, as appears to be the case, transfers were made generally by military grantees, whose hearts were not in the colony, and they have probably given way to men who will make better colonists.'

"Now, whether the military grantee keeps the land in possession or sells it to some other capitalist to his own advantage, makes little difference. The fundamental point at issue is that he should not be deprived of grant of land. The bare fact of his selling land is no justification of his deprivation from the boon.

"My Lord, there are other points, too, which I would have liked to bring to the notice of Your Excellency's Government, but being fully alive to the gravity of the modern situation, and to the serious complications and anxieties created by the war, which we all wish to see soon ending in the victory of British arms, I refrain from entering into discussion, and hope that I will have a better opportunity later on, when things assume their normal course, to voice the feelings of the Punjab landholder, whom I have the honour to represent in this Council."

The Hon'ble Lieutenant-Colonel Blakeway :—"My Lord, I must apologise for occupying the time of the Council to-day on the subject of sanitary progress in the North-West Frontier Province when probably a number of other subjects of interest will come under discussion, but the proposals of the Hon'ble elected members representing the Central Provinces and United Provinces, during the first stage of the discussion of the Financial Statement, for the curtailment of the Railway programme in favour of the development of Education and Sanitation have indicated the public interest which these two departments continue to focus, in spite of the numerous preoccupations of the present time. The somewhat dismal reference, also, by the Hon'ble Mr. Dadabhoy on the same occasion to the sanitary condition of his Provincial Head-quarters' city might, perchance, create the illusion that equally worthy Provincial competitors for Government aid in the matter of sanitary improvement do not exist elsewhere. It has occurred to me, therefore, that a few words representing the claims of the North-West Frontier Province to obtain a share in the unallotted reserve of 7·7 lakhs for sanitation, to which reference is made in paragraph 106 of the Memorandum explaining the details of the Estimates, may promote the cause of my Province, since, if I may say so without levity, it is the early Provincial bird which frequently succeeds in the appropriation of the Imperial financial worm. Moreover, as the spoken word on occasion appeals to a wider audience than the written, or at all events the officially written word, the exhibition of their needs may help to assure the representatives of the urban communities in my Province, where city sanitation has of late been rapidly advancing, that their efforts meet with recognition and should encourage their progress in the direction of reform.

"The North-West Frontier Province is regarded, I fear, in some uninstructed quarters as merely a land of incursions by tribesmen and excursions by troops; as a scene of raids and counter-raids, where the midnight forays of hillmen alternate with the reprisals of Government. There is, however, another and a very important side to the shield, a side connected with the well-being of the Border peoples who are our subjects, with their education and their introduction to all the benefits associated with civilization. Naturally, the first and most heavy responsibility of the Administration—or of any Government for the matter of that—must be the maintenance of law and order; but the policy of improving the material condition of the people has been steadily and of late, thanks to the liberality of Your Excellency and the Government of India, very actively pursued. It is curious to observe, however, by way of

[*Lieutenant-Colonel Blakeway ; Mr. Banerjee.*] [25TH MARCH, 1915.]

comment on the sense of proportion publicly displayed in certain matters, that the completion of so vast and beneficent a project as the Upper Swat River Canal, which will have a far-reaching political effect and bring prosperity to thousands of peasant homes, should apparently arouse less general interest than, for instance, an abortive attack by some transfrontier miscreants on a border post.

" But, My Lord, I will not detain the Council by recounting even briefly what has been done recently on the North-West Frontier under the heads Education, Communications, Public Works and Medical Relief. However interesting the realization of local schemes may be to local patriots these schemes cannot be expected to invite and hold the interest of others. Neither will I refer in detail to the progress being made in town sanitation. I think, however, that the sanitary condition and Municipal administration of the historical and beautiful city of Peshawar, the first Indian city to be seen by those hosts of travellers from Central Asia, Persia and Afghanistan, who enter British territory by the various routes converging at this point, can fairly claim something more than local concern. Owing to its position in the forefront of Empire on the extremest border of British India, I hope that all of us conscious of an Imperial sense must hold the opinion that it should attract the admiration of the strangers who resort to it and pass through it in such numbers, and must desire that its Municipal arrangements and sanitary condition should bear worthy testimony to the solicitude of Government This brings me, My Lord, to the main ground on which I voice the claims of my Province to share in the Imperial sanitation reserve of 7·7 lakhs An extensive conservancy scheme, involving improvements also to the water supply, is now being worked out for our local capital, but cannot be carried into effect by the Municipality without help from provincial funds. This help means starving projects elsewhere and may check the awakening spirit of Municipal sanitary reform in the Province which it is so desirable to foster. I trust, therefore, that when our appeal to the charity of the Government of India for a special sanitary grant, in addition to the recurring grants which we are now enjoying, comes to be made, it will be successful in spite of the insistent competition of larger rivals to which expression has already been given in this Council."

The Hon'ble Mr. Banerjee :—" My Lord, I do not know whether the Hon'ble the Finance Minister reads the newspapers, but if he does he will have noticed the chorus of approval with which his Budget was greeted by the accredited representatives of public opinion. We, who are of the public, associating ourselves with this popular sentiment, desire to offer him our heartfelt congratulations. I think my Hon'ble friends will have no difficulty whatever in discovering the secret of this universal feeling. We all expected to be taxed, directly or indirectly. We have been saved from that situation, and we hasten to offer our grateful thanks to our deliverer But, My Lord, gratitude implies a sense of favours to come. We have indeed got over our present difficulties, but what about the future ? It is perhaps too early to make a pronouncement with regard to that, but judging from the conduct of the finances of this year, at a critical time, I think we have the assurance and the guarantee that no fresh taxes would be levied unless under the pressure of a paramount necessity. My Lord, the Budget has been framed on the assumption that the war will continue for one year. If, fortunately, the war terminates before that time, the situation will have been eased and our anxieties will have been partly dispelled. My Lord, the Budget is a War Budget, but the most interesting thing about the Budget is that although it is a War Budget, it does not add to the military expenditure : on the contrary, the military expenditure is slightly less than that which had been budgeted for. The cost of the Indian Expeditionary Force to Europe will come up, for the year 1914-15 and 1915-16, to about 7 millions, or, perhaps, a little less than 7 millions. My Lord, war is an unmitigated evil, but there is no cloud without its silver lining, and this war has afforded India an opportunity of demonstrating her loyal devotion to the Empire in a manner which has produced a profound impression upon

[25TH MARCH, 1915.] [*Mr. Banerjee.*]

the public mind of England. The enemies of Indian aspirations have been convinced and converted. The angle of vision with regard to Indian affairs has been changed, and, in the words of Sir James Meston, a bright day is about to dawn in the land, when, as I hope, India will take her place as a component part of a great and federated Empire, in the full and free enjoyment of the rights belonging to that status This hope inspires our people May it be realized and may the Empire of His Majesty be broad based upon the gratitude, the contentment and the happiness of the people of India.

"My Lord, no educated Indian can speak upon a Budget statement without reference to two matters which find a prominent place in his mind, namely, sanitation and education. They are the watchwords of the Government of India. They are also our watchwords, and to them we accord a prominent place in our public work. Unfortunately, there has been no Imperial grant in respect of either for this year with the exception of 10 lakhs, which Your Excellency was pleased to announce at the Convocation of the Calcutta University, for hostels. My Lord, the building of hostels is a matter of the utmost urgency, having regard to the interests of discipline among our students. I am sorry to have to say that the work is not progressing as rapidly as it ought to. I know something about these hostels. In connection with the hostel for the Ripon College, in which I am directly interested, and the Metropolitan Institution of which I know something, the land has been acquired, the plans are ready, but the buildings have not been yet taken in hand. I hope and trust that with the 10 lakhs of rupees which have been granted the work will be taken in hand at once.

"As regards sanitation, we have to make the same complaint. The administrative machinery moves slowly. It does seem to me that it needs to be vitalised and recast upon more liberal lines. We are looking forward with some hope and expectancy to the resolution which you, Sir (the Hon'ble Sir Harcourt Butler), have promised on the question of local self-government. I can only hope and trust that as you have signalised your administration in the Education Department you will also leave an ineffaceable mark upon the system of local self-government by laying down the broad and liberal lines of progress which should distinguish that institution.

"My Lord, my Hon'ble friend, the Finance Minister, said in regard to certain observations made by the Hon'ble Mr. Dadabhoy that there was no desire on the part of Government to go back upon its policy in respect of sanitation and education, but that the speed had been somewhat slackened. We can only hope and trust that with the return of normal conditions more money will be spent and greater energy exhibited in the matter of sanitation.

"My Lord, with regard to the provincial contracts, the war has deferred the settlement of that contract with my province. May I plead for my province and urge that when the terms have been fixed, they may be so settled that Bengal may be a self-contained province able to pay its own way without the adventitious aid of those Imperial doles which my Hon'ble friend, the Finance Minister, in his capacity as a Member of the Decentralisation Commission, condemned as demoralising? The provincial system must be worked up to the stage of fiscal autonomy, which is the basis of provincial autonomy. My Lord, that is the clear demand of Indian public opinion, and that demand has found a responsive echo in the great despatch of the 25th August, 1911, with which Your Excellency's honoured name will be imperishably associated in the history of India.

"With regard to the question of the industries, My Lord, the discussions in this Council and the discussions which have taken place elsewhere have brought out the fact prominently that Indian opinion demands that there should be a definite change in the policy of Government in this matter. Government cannot stand where it is; it must move on according to the requirements of the country and the demands of an advancing public opinion. What the educated community want is that Government should actively participate in the fostering of our industries by financing the more suitable ones and rendering them such help as they may need. That is the clear demand of educated

[*Mr. Banerjee.*] [25TH MARCH, 1915.]

public opinion. The question will be brought up again and again in this Council and in the Provincial Legislative Councils, and I should like to put this question to the Hon'ble Member in charge of the Department of Commerce and Industry, 'How long does Government propose to resist the rising tide of public opinion becoming more and more insistent and importunate with every check and every refusal?'

"My Lord, there is one matter which at the present moment weighs heavily upon the minds of the educated community not only of the United Provinces but of all India, I mean the rejection of the proposal for the creation of an Executive Council in the United Provinces.

"My Lord, this proposal was made by the Government of the United Provinces and was supported by the Government of India and by His Lordship the Secretary of State for India. It was in entire conformity with the recommendations of the Decentralisation Commission and was backed by the unanimous vote of the non-official Indian Members of the Legislative Council of the United Provinces, who, I presume, are in closer touch with the better mind of their countrymen, and with the sense of the voiceless millions of the United Provinces, than Lord MacDonnell, who left the country about 20 years ago, than Lord Curzon, who left India 10 years ago, or than Lord Sydenham who was not even within a measurable distance of the United Provinces and knows little or nothing about them. My Lord, it is not only a question of administrative efficiency, which, in the words of Lord Morley, Indian rulers are sometimes apt to put a little too prominently in the forefront of their consideration. The issues involved are much deeper. His Honor Sir James Meston sounded the true note of the situation when he said that the object of this reform was to introduce Indians into the inner councils of the Government, into the Holy of Holies, if I may say so without irreverence. My Lord, it is most unfortunate that this proposition should have been rejected at a time when India is astir with a new and an awakened sense of devotion to the Empire. Already it is beginning to be asked—Is this the first-fruit of that change in the angle of vision which had been promised by a high authority? The only redeeming feature about the situation is the attitude of Lord Crewe, who is resolved to pursue the matter. We wish him all success, and we desire to assure His Lordship of the sympathy, the unstinted sympathy, of the millions of my countrymen in this matter. My Lord, does the question affect the United Provinces only? No: it affects the whole of India. We share with the United Provinces the deep disappointment which they feel. Not only that, the question has raised constitutional issues of grave moment. The House of Lords may block great reforms in India by raising difficulties as they have done in this case. My Lord, I hope and trust that Lord Crewe will revive the India Council Bill, which also was rejected by the House of Lords. We were not enamoured of the Bill; we thought it ought to have been cast upon broader and more progressive lines. But such as it was, it was a distinct improvement on the existing condition of things, for it recognised, although it might be in an attenuated form, the elective principle and the statutory right of the people of India to be represented in the highest Council of the Indian Empire.

"My Lord, there is another matter, somewhat of a controversial character, which I feel it my duty to mention in this Council, because what I am going to say represents the public opinion of my countrymen. It is somewhat unpleasant, but we have sometimes to say unpleasant things in this Council. My Lord, the Government of India have paid compensation, pay or allowance, to the members of the Indian Civil Service and of the superior Police Service above a certain grade; and this was done at a time when it was known as a matter of practical certainty that there would be a deficit in the current year's Budget, and when there was a forecast of a deficit in the Budget of the coming year. My Lord, that step, I cannot help thinking, was ill-advised. Why, when every subject of His Majesty—high or low, rich or poor, prince or peasant—was suffering from the pinch and the pressure of war, two well-paid services should have been singled out for this preferential treatment, passes my comprehension. Yesterday, in reply to a question which

[25TH MARCH, 1915.] [*Mr. Banerjee ; Pandit Bishan Narayan Dar.*]

was asked here, it was said that the object was to compensate the members of these services for the block in promotion. My Lord, there are other branches of the Public Service which suffer from similar inconvenience, from a similar strain. Have they received any relief ? My Lord, I have already observed that this is a somewhat controversial and unpleasant matter; but there is a very strong feeling outside this Council in the country at large, and I have felt it my duty to refer to it here in the hope that the question may yet be reconsidered. At one time some of us thought of giving notice of a resolution, but we wanted to avoid anything like a controversy.

"My Lord, in conclusion I desire to associate myself with the observations which have fallen from my Hon'ble friend, Sir Gangadhar Chitnavis, in regard to Your Excellency. My Lord, we may not always see eye to eye with Your Excellency's Government in regard to measures of administration; but, My Lord, your administration has been one of the noblest and wisest in Indian history; and, My Lord, if I may be permitted to say so, Your Excellency will take your place among the most illustrious of Indian Viceroys—by the side of Bentinck, Canning and Ripon. Therefore, I unreservedly associate myself with the observations which have fallen from my friend: they represent the deliberate judgment of public opinion, and of the educated community, over this wide, wide continent."

The Hon'ble Pandit Bishan Narayan Dar:—"My Lord, I thoroughly associate myself with the Hon'ble Member in the well deserved compliments they have paid to the Hon'ble Finance Member on his excellent Budget. I cannot say that I am quite satisfied with the provision made for education in the coming year; but considering the present situation I make no complaint

"My Lord, Education is England's greatest gift to India, and it has not yet found a more sincere and more passionate advocate and supporter than Your Excellency. The whole country fully appreciates Your Excellency's noble efforts in this direction and is filled with feelings of deepest gratitude for what you have already done. The promoters of the Hindu University movement are particularly deeply indebted to Your Excellency for Your Excellency's gracious support in their great undertaking, and it is as an humble admirer of Your Excellency's liberal educational policy that I wish to submit a few observations on one or two features of that policy which seem to have failed to commend themselves to a section of the Indian Public. I know that the Government sincerely desire that education should spread as widely as possible and as rapidly as possible. But unfortunately the rate of progress which seems to satisfy them does not satisfy us. Their aims seem to be to subject the requirements of educational expansion to those of educational efficiency. Our position is, efficiency by all means but not at the cost of expansion, not at the sacrifice of a wider diffusion of knowledge. My Lord, India has been under British rule for nearly 150 years and yet what is the state of our education as shown by the latest figures on the subject ? According to the last quinquennial report on Indian education 2·7 per cent of the population were at school in 1911. Now we have 3 as against 2 7 per cent. So then according to the latest figures 97 per cent of the population at this moment are condemned to pass their lives in utter ignorance. In this respect India does not compare favourably with any civilised country in the world. The demand for education is growing day by day; but from every Province come complaints, not by the hundred but by the thousand, that there are more boys desirous of learning than can be accommodated in our schools or colleges. Restrictive rules have been made in every Province because there are not enough schools to accommodate our boys. My Lord, in the existing state of India we do not want better school buildings but more schools. A good education imparted in finely built schools is a very desirable thing, but any education is better than none.

"My Lord, there is another point upon which I want to say a few words. My Lord, we Indians find it very difficult to understand why the Imperial Educational Service has been almost monopolised by Europeans and why so

[*Pandit Bishan Narayan Dar.*] [25TH MARCH, 1915.]

many Professorships and even Head-Masterships are given to Europeans in preference to Indians. In my Province, if I am not mistaken, there is not one Indian in the Imperial Educational Service.

"There are qualified Indians certainly, not inferior in mental and moral equipment to many of those English teachers and professors who are sent out here every year from England. A larger employment of indigenous talent would be good not only on economic grounds, but would in large measure satisfy one of our legitimate aspirations. But I place the claims of Indians to be appointed more largely in the higher ranks of the Educational Service on a higher ground than that. One great object of all education is the formation of character, and the Government has of late rightly laid stress upon the realisation of that object. Another aim which the Government has rightly set before itself is that the development of Indian mind and character should be on Indian national lines. My Lord, is it seriously believed that the character of the youth of India will be formed on its national lines under the influence of English teachers and professors, however able and high principled they may be? My Lord, this is a delicate question. But I do not speak in a controversial or party spirit when I say that the policy of increasing the number and extending the influence of European teachers and professors, possessing little knowledge of Indian life and conditions, and themselves living here under the influences of their own community and isolated from the daily life of the people among whom they have to work, I say that the policy of extending their influence over the formation of the intellect and character of the Indian youth, is causing disquietude to the intelligent section of the Indian people; and they are watching with anxiety and even apprehension the effect of that influence upon their boys, whose mind and character will thus be formed, not on their own national lines, but in accordance with the ideals of teachers drawn from a different race and inspired with the spirit of a different civilisation. It is not a whimsical apprehension, but a real one in my opinion, about which we may not hear much now but which is growing and will make itself heard before long.

"My Lord, we the people of the United Provinces are deeply grateful to Your Excellency's Government and to Sir James Meston for recommending to the Secretary of State the creation of an Executive Council in my Province, and to the Secretary of State for his gracious acceptance of Your Excellency's proposal; but that proposal has been rejected by the House of Lords, because some noble Lords with Indian experience considered it a revolutionary measure, as if the creation of an Executive Council meant the founding of a new republic in the United Provinces. Bombay and Madras are each under a Governor-in-Council. Bengal owes that boon to Your Excellency's liberal and generous statesmanship. The new province of Bihar and Orissa is equally indebted to Your Excellency for its Executive Council. In what respect would it be a revolutionary change to bestow the same gift upon an older, richer and more populous Province? The noble Lords seemed to find much satisfaction and security in an old order of things which is daily growing obsolete. They are welcome to the asylum they have sought for themselves for they have taken refuge in the traditions of the most powerful and most exclusive bureaucracy in the whole world. Nevertheless, they have, in my humble opinion, committed a grave mistake. They have disregarded the public opinion of India and disregarded it at a time when it should be conciliated. Here was a demand made, not by an infinitesimal section of the Indian community, as one noble Lord said, but by every class of the people of the United Provinces, for whose good opinion and good-will Government cares, a demand upon which Hindus and Mohammedans who are supposed to be always ready to fly at each other's throats were unanimous, upon which the aristocrats and the commoners were equally united, and which was supported by Sir James Meston, the popular and liberal-minded Lieutenant-Governor of the United Provinces, by Your Excellency's Government and by the Secretary of State, a demand which was extremely moderate and reasonable in its nature and which meant nothing more than that a long-deferred hope raised by the liberal policy of the Government should now be fulfilled, and that a concession which had been made three years ago to the new

[25TH MARCH, 1915.] [*Pandit Bishan Narayan Dar.*]

province of Bihar and Orissa should be made to an older and more important Province, and which had been withheld from it because its then Lieutenant-Governor, Sir John Hewett, who was brought up in different traditions did not like it; this demand has been rejected by the Lords on the flimsy, shadowy ground that the people did not want it, that their religious animosities forbade its concessions and that its concessions would revolutionise the administration. What would be the effect of this action of the Lords in the United Provinces, and indeed in the whole country? Your Excellency has rightly observed more than once in this Council that the present is not the time for political controversies and political agitations The leaders of the various Indian communities have recognised this fact from the very commencement of the war, and have urged upon their countrymen the urgent and sacred duty of forgetting all domestic differences and rendering whole-hearted support to the King-Emperor and Country in this hour of fate in the life of civilized mankind. Their advice has been gladly, enthusiastically followed by the loyal Indian people, all political controversy is hushed, all domestic disputes are forgotten; and one recent and most striking proof of that is the Defence of India Act, the most drastic measure ever passed by the Government of India, a measure open to grave objections, but which was unanimously supported by the Indian Members of this Council; because with the fullest confidence in the justice and benevolent spirit of Your Excellency's remarkable administration, we, the representatives of the people, considered it against our loyal duty to Government to stir up controversy and thereby cause public alarm. This is how the Indians have acted in the present political situation; and the Government on their part have, we all most gratefully acknowledge, put off the consideration of all controversial measures in accordance with the wide-spread desire of the Indian people. But the Lords have chosen this of all moments for practically rejecting our demand, in spite of the just and wise warning of the Secretary of State. And the immediate effect of that sad blunder is that it has already caused deep disappointment to the people of my Province and may before long re-kindle political agitation there, which to my mind will be nothing short of a calamity. If this is the attitude of our ex-Viceroys and ex-Governors towards us during the war, what will it be after the war? They have been paying us high and extremely flattering compliments upon our loyalty and devotion to the British Crown; and yet in the same breath they tell us that we are in such a backward and primitive condition that even an Executive Council would be too good for us. My Lord, you can imagine the effect of these contrasted and contradictory statements upon our minds The motto of short-sighted statesmanship has always been: Refuse a demand when you can grant it with grace; grant it when you cannot refuse it without peril. My Lord, my Province is one of the more advanced provinces of India, a Governor-in-Council was promised to it long ago, and henceforward, if I at all understand its temper and desire, it cannot rest contented with anything less than that. The concession of our demand for a Governor-in-Council will be one forward step towards the realisation of the ideal set forth in your Excellency's memorable Durbar despatch, namely, 'a larger measure of self-government under which India would consist of a number of administrations, autonomous in all Provincial affairs, with the Government of India above them all, and possessing power to interfere in cases of misgovernment, but ordinarily restricting their functions to matters of Imperial concern'. My Lord, it is this policy of generous trust, ordered freedom, and friendly co-operation between the rulers and the ruled that has endeared Your Lordship's name to the heart of every Indian. Our claim for a closer association with the administration of the country, for a more effective co-operation with our rulers in all the departments of Government is in accordance with the spirit of that policy.

"My Lord, the war has demonstrated India's unswerving loyalty to British rule, which was never doubted by Your Excellency. We have noticed with sincere gratification the impression made up n British public opinion by India's services to the King-Emperor and the Empire in these critical and fateful times. English statesmen have held out high hopes to us. The Under Secretary of State for India said the other day that India was not a

[*Pandit Bishan Narayan Dar; Raja Sir Muhammad Ali Muhammad Khan.*] [25TH MARCH, 1915.]

dependent but a partner of the Empire. Even the hearts of colonial statesmen have softened towards us. All this has brought the fulfilment of our demands, such as a larger employment of Indians in the Civil and Military services of the country and a satisfactory solution of the question of the status of Indians in British colonies, much nearer to us than before. So long as the war lasts we shall not press any of our demands; but after the war, when the triumph of British arms is complete and peace is restored to the civilised world, we shall ask for a substantial concession of our demands not as a reward of our loyalty—for loyalty according to a high authority must be unconditional and must seek no reward—but as a right which we shall be justified in claiming as citizens of a free Empire.

"Of course, progress must be gradual, concessions must be made on cautious lines. We must not take the second step before taking the first. We must remember that in practical politics it is not logical argument but the logic of facts that tells, and we must fully trust in the high aims of British rule in India which, with all its defects and shortcomings, is yet, as J. S. Mill said, the best and purest in intention ever seen among mankind. On the other hand, My Lord, I appeal to Government and through the Government to the whole governing class in this country to win our true regard and affection by trusting us and trusting us as equal subjects of the King-Emperor; for the noble words of Jeremy Bentham are as true now as when they were first written: 'In order to gain mankind one must appear to love them and the best way of appearing to love them is to love them in reality'".

The Hon'ble Raja Sir Muhammad Ali Muhammad Khan:—"My Lord, with your permission, I beg sincerely to congratulate the Hon'ble Finance Minister for the able manner in which he has prepared the Budget. The year to which the Budget relates is exceptional inasmuch as we have for the first time in the history of this country to share the expenditure on the noble cause of the defence of the Empire, of which India should be proud. My only fears are that our finances did not permit of an allotment of a larger sum of money towards the war than has been budgeted for by our able Finance Minister.

"In normal times I would have pressed the need of the United Provinces for a handsome allotment towards Education and Sanitation and under other important heads, but this, My Lord, I do not think, is the proper time for it. However, a change, or rather a reduction, in the Budget for the United Provinces may be necessary owing to the deplorable action of the House of Lords in throwing out the proposal for an Executive Council for the United Provinces. Any saving that may thus accrue during the year should be employed on the crucial needs of the Provinces.

"My Lord, this decision of the House of Lords has come to us as a great shock and has created a great disappointment and uneasiness throughout the Provinces. I do not know the source of information of Lord MacDonnell who, in moving the Resolution in the House of Lords against the creation of an Executive Council, said that it was only a small number of people of my Provinces who wanted it and the majority were not in favour of it. I cannot but emphatically rebut this statement.

"My Lord, in all matters of administration it is the aspirations of the educated and thinking masses which play the important part in determining the public opinion. The Legislative Council of every Province is the recognised and effective medium of ascertaining the voice of the people through their representatives.

"My Lord, the majority of non-official Members in the Council of the United Provinces who voted in favour of the Executive Council did not warrant the statement made by Lord MacDonnell. But it appears that he, like others who have left this country long ago, is quite out of touch with what is going on here.

"These noblemen of the House of Lords, My Lord, would be well advised to support the Government of this country and to accept the advice of the

[25TH MARCH, 1915.] [*Raja Sir Muhammad Ali Muhammad Khan; Mr. Sharp; Pandit Bishan Narayan Dar; Mr. Das.*]

Ruler on the spot. The decision of the House of Lords is really a severe punishment inflicted upon a very great section of deserving, worthy, and loyal subjects of His Majesty, and the reason of it, My Lord, is that we were *ultra* moderate in asking only for an Executive Council for our Provinces. The importance of our Provinces, My Lord, demands the creation of an Executive Council with a Governor, and I feel absolutely confident that the just Government of Your Lordship will be pleased to consider the feasibility of creating a Governorship for the United Provinces.

"My Lord, without any idea of jealousy or slight to the sister Provinces placed under Governors in Council, I beg leave to submit that the claims of the United Provinces in this respect are next to none in India.

"In conclusion, I beg to add that in my humble opinion it appears absolutely necessary that the enactment by which the Proclamation creating an Executive Council has to be tabled in both Houses of Parliament should be repealed. It is not the first occasion on which the House of Lords has been uncharitable in unduly interfering with matters connected with the administration of India.

"My Lord, this is really not the proper time to enter into any lengthy discussion on matters controversial, and every faithful subject of His Majesty would avoid, so far as possible, every kind of agitation at the present juncture; but, My Lord, the situation has been forced upon us by the House of Lords."

The Hon'ble Mr. Sharp:—"My Lord, in that portion of his speech which dealt with Education, I understood the Hon'ble Pandit Bishan Narayan Dar to make two statements which should not go unnoticed. He said that only 3 per cent of the population are at school and drew from this the deduction that 97 per cent of the people are condemned to ignorance; and I think he added that this state of things was probably worse than in any country in the world. I need hardly say that this deduction is not correct. I also understood him to say that there are no Indians in the Imperial Service of the Education Department—"

The Hon'ble Mr. Pandit Bishan Narayan Dar:—"In the United Provinces."

The Hon'ble Mr. Sharp:—"I beg the Hon'ble Member's pardon. I thought his remark was general."

The Hon'ble Mr. Das:—"My Lord, the Hon'ble Finance Member has received quite a chorus of congratulations and felicitations—those offered to him in the columns of the newspapers and those he has received here. But as the Member in charge of Finance is accustomed to deal with the smallest copper, a pie, I desire to offer my pie of congratulations which may, I hope, be acceptable to him.

"I associate myself with most of the remarks which fell from the Hon'ble Sir Gangadhar Chitnavis, and I wish to refer to the last paragraph of his speech in which he referred to Your Excellency's coming departure. He referred to it with a sense of regret: no doubt, if it does come to pass, it will be a cause of regret. My Lord, misfortunes have often overtaken India, and the most recent misfortune was one to which reference was made by the last few speakers; I mean the attitude of the House of Lords with regard to the recommendations for an Executive Council for the United Provinces. Misfortunes have befallen India, but the worst misfortune would be that which would remove the commander of the vessel at a time when a storm was blowing, when the waves were dashing against the ship of administration, when there were small clouds on the horizon, the future magnitude of which could not at present be gauged. To remove the commander of the vessel at a time like this would be perhaps the worst calamity that has befallen India. It is not the qualifications of the captain, or the commander, the man at the helm that count. He may have any amount of knowledge

[*Mr. Das.*] [25TH MARCH, 1915.]

of steering his vessel; but the most important thing in troublous times is the confidence of the people in his efficient commandership. If the people have not confidence in him, the people themselves will contribute to the destruction of the vessel, whereas if the people have confidence in him, their conduct, their behaviour, their steadiness, will save the vessel in perilous times. I do hope that such a calamity to India will be saved by the King, as I am sure India will be saved from such a calamity by God.

"My Lord, about this time last year, I asked one or two questions in this Council in order to ascertain the number of Indian Christians in India, and as to whether there were any special provisions with regard to their education. The answer given to me was that the number of Indian Christians is a little over 3½ millions, and in answer to the question whether there was any special provision made for the education of this class, Government said, 'It is understood that special provision is made in certain places for the education of Indian Christian boys and girls, but the Government of India have no precise information on the point'. There is no provision for this purpose even in the present Budget. This answer shows that the Government of India have left 3½ millions of people in the cold. There is actually an apathy, there is a want of concern in the education of these people; and it is no wonder that abroad, thousands of miles away from this place, queries have been put as to whether the Indian Christians have not rendered themselves useful to Government in public services, and useful generally in the private walks of life. If that community had a representative here, he would certainly have been in a position, from his seat of authority, to answer those questions, to show how unjustifiable, how underserving,—if the Government of India means to show apathy to this class,—is such apathy. But there is no representative of the class here, and consequently, as a member of that community, I beg to draw the attention of Government to the fact that in several departments, almost in all departments of the public service, members of the Indian Christian community have rendered distinguished service If we go to the Medical College in Calcutta, we shall find that there have been professors who have rendered very useful service and added to the popularity of the institution. If we go to the Senate House in Calcutta, we will find there things to remind us that the Indian Christian community has not been behind other communities in fostering and helping onward the progress of education. It will not be possible for me to refer to the lives of these men, for if I were to do so, I suppose the time limit would terminate my articulate life here long before I could describe their lives.

"My Lord, as regards the loyalty of the Indian Christians, that was put to a very severe test in the last century, and yet I find that, notwithstanding the answer given a year ago, there is no provision in the present Budget for the education of the boys and girls of the Indian Christian community; and yet there cannot be the least doubt that they have need of special education; and the reason for this neglect seems to be that they have no representative in this Council.

"My Lord, it is a strange and curious fact that the Indian Christian community is the only Indian community whose laws of succession, marriage, testamentary dispositions, and divorce were forged on the anvil of this Legislative Council. Laws of succession, laws of marriage, form as it were the foundations of any society or community. Hindus and Muhammadans have their laws which are drawn from the *Shastras*, etc., and those laws of succession, marriage, and divorce, which apply to Indian Christians at the present day, were not made to suit the requirements of that society, but though they had been originally framed to suit the requirements of another society, they were extended to this society. So it was really like putting new wine into old bottles. The result has not been very favourable, but simply because there is no representative of this community on this Council, the inconvenience which it suffers has not been brought to the notice of the Government. The last census shows that between 1901 and 1911 the community has grown by 32·6 per cent. It has been more than doubled since 1881 and it has been trebled since 1872.

[25TH MARCH, 1915.] [*Mr. Das.*]

"In referring to this matter, I should like it to be distinctly understood that it is not my intention, far from my intention, to disturb any of the existing representatives in this Council. The Indian Christian community have been treated with kindness and confidence by the Hindus, Muhammadans and non-official Europeans. Electorate bodies consisting of these men have elected Indian Christians as their representatives in the Legislative Councils. I would be earning for myself and for the community ingratitude if I were to say that there should be a seat for the Indian Christian community at the expense of any other community. But what I do believe, Sir, is that there is ample room if the latch of the door is a little slackened, there is ample accommodation for one more seat. I will conclude this part of my appeal with the Latin expression *at spes non fracta.*

"Reference has been made, My Lord, very often in this Council to the industrial problem before us and the question was raised in very eloquent terms by the Hon'ble Mr. Banerjee when he was addressing the Council a few minutes ago. The insistence with which this question has been brought forward, the earnestness with which it has been pressed forward, shows that there is a very strong feeling in the country about it. At least I should like to draw the attention of Government to the existence of such a feeling. The feeling in the country is that Government ought to feel its obligation to help the development of industries in this country. Every Government, of course, is under the obligation to develop the industries of the country in order to bring about and increase the prosperity of the country; but in this particular case an additional moral obligation has been superadded. There has been an industrial awakening in the country during the last few years, and this industrial awakening has led to a study of the industries of India in the past. As a study of history of the past has led the people to believe that the decadence, decline and the present wretched condition of industries in India are due to a great extent to the insalutary influence of British rule. That is the feeling of the country and hence arises a moral obligation on the part of Government. That is the feeling of the weaver who has taken to the plough, leaving his loom; that is the feeling of the artizan whose hand stands paralysed to-day; that is the feeling of the artizan's son who took to English education with a view to get employment as a clerk, but failed to secure such employment; and that is the feeling of an old man who has associated intimately with artizans during the last quarter of a century and has noticed their struggle for existence. We Indians, My Lord, always look upon people in authority with feelings due to a father and naturally expect sympathy from them. I know feeling is mere sentiment, and a sentiment has no value at the Royal Exchange in London; but a sentiment is an invaluable asset to the credit of a foreign Government. I do not wish to go into the details as to how and under what circumstances British influence exercised an insalutary influence over Indian industrie. That may land me on dangerous ground. That may lead me to exhume the bones of people in authority who exercised their influence and the influence of their position and authority to bring about injury to the interests of India and such dead bones turn living human beings into dogs. At a time like this, when we were driven the other day to the necessity of passing an emergency measure for the safety of the Empire, I do not propose to enumerate or analyse or examine the reasons. I have very often noticed that the Hon'ble Member in charge of Commerce and Industry in his replies used the expression 'Government cannot do this, Government cannot do that.' While listening to his replies sometimes, My Lord, I felt as if I was listening to the voice and the sentiments of the London Chamber of Commerce, and I admired his speech as a successful feat of ventriloquism. My Lord, such replies in a debate in this Council do not produce the balm of Gilead to disappointed feelings; they simply tend to intensify the feelings.

"My Lord, I feel that, at no time in the history of England were the principles of international justice, the principles of international morality, and those noble principles which regulate the reparation for wrongs done by a stronger nation to a weaker, at no time were these principles so prominently before the British nation as they are now; in consequence of the wrong done by

[*Mr. Das; The President; Mr. Dadabhoy.*] [25TH MARCH, 1915.]

Germany to Belgium The whole nation's sympathy has been aroused. The whole nation has been roused with righteous indignation and millions have formed themselves,—the whole nation in fact, young and old, rich and poor, have formed themselves into one body, one soul,—the whole nation is (as if it were one man) inspired with a martyr's fiery zeal. On the other hand, we have a Viceroy whose keynote of administration has been sympathy for the people and confidence in the people, and who has abided by that policy in times of suffering, bereavement and trial. I should at this time beg, entreat and beseech the Hon'ble Member in charge of the Department of Commerce and Industry (unfortunately he has gone away at this time) to take note of this: not only to concentrate his attention on the economic principles which govern commerce in England, but to take note of past events in the past connection of England with India; to take note of the moral obligation which arises out of that past connection, and to address himself to the problem before him; to take the people into his confidence and then to sit down and see if anything cannot be done to help the people in this industrial awakening—"

His Excellency the President:—"I must ask the Hon'ble Member to conclude."

The Hon'ble Mr. Das:—"I beg to conclude."

The Hon'ble Mr. Dadabhoy:—"My Lord, the Finance Minister who can do without additi nal taxation in spite of an estimated deficit of 9½ million pounds sterling in the two years covered by the Financial Statement, certainly deserves the best thanks of the country. I do not know which to admire most in the Hon'ble Sir William Meyer,—his sympathy, his level-headedness or his resourcefulness in a situation the inherent difficulty of which has been increased tenfold by its extreme uncertainty. The maintenance of exchange for one thing, was enough to strain to the utmost the energy and the capacity of a lesser genius. The financial trouble of 1907 and 1908 was as nothing compared to the present crisis, and yet sterling exchange is as firm to-day as ever, and Council Bills for fairly heavy amounts have begun to be placed on the market at 1*s* 4*d*. for Telegraphic Transfers and $\frac{1}{32}$nd penny less for D. A. Bills. The tone of the market from all reports is very firm. This is a complete answer to Mr. Enever Todd's alarming description of the situation in the *Investor's Review*. If trade had continued as dull as in autumn last, a further and dangerous depletion of the Gold Standard Reserve would perhaps have become inevitable; but indulgence in hypothetical complications is needless. The position is decidedly brighter now than it ever has been during the last eight months, and it is but just that the Minister who has steered us safe through the crisis should have our warmest felicitations.

"My Lord, the financial strength of Government, so skilfully maintained by the Hon'ble Sir William Meyer, ought to inspire general confidence. Of the net estimated deficit of 9½ million pounds sterling referred to above our special war expenditure accounts for 6·7 million pounds sterling. The balance is less than the amount of normal annual borrowing for capital outlay on railways. Ample provision has also been made for railway expenditure in 1915-16. Indeed, practically the whole of our estimated borrowings next year will be necessary for financing our railways and irrigation works, the capital outlay on both being taken at £9·1 million pounds sterling. And this despite of a heavy falling-off in revenue synchronous with extra heavy unremunerative expenditure. The total of our ordinary debt, as the Hon'ble Finance Minister has pointed out to us, is negligible. It has gone on diminishing heavily, until we have reached the extremely low level of 12·8 million pounds sterling against a productive debt of 261·4 million pounds sterling. The Rupee Paper too continues firm. The total unfunded debt of 20½ million pounds sterling is not onerous. The Government Reserves are ample, and the estimated closing provincial balances at the end of 1915-16 are sufficiently strong. The whole position is thus satisfactory. There is absolutely no cause for alarm. On the contrary, business is looking up, and the prospects of normal revenue are distinctly encouraging.

[25TH MARCH, 1915.] [*Mr. Dadabhoy.*]

"My Lord, the announcement in the Budget relating to the proposed Rupee Loan demands a few observations. The Hon'ble Sir William Meyer has made a significant reference to the terms and the character of the loan. Evidently, this issue will be of a special nature. There is absolutely nothing to be said against the reservation by Government of complete liberty of action. All announcements of loan are subject to this necessary condition. What is peculiar in the present statement is the allusion to a possible variation in the usual terms. We do not know what schemes the Hon'ble Finance Minister has in view, and it would be premature to attempt to make any helpful suggestions; but my submission is that Government will be pleased to very carefully consider the probable effects of a change in the level of interest upon the existing heavy loans. I do not suggest that a change is unnecessary; on the contrary, I am of opinion that if in the exceptional condition of the market the three-and-a-half per cents do not gain in popularity within a short time, the proposed loan must carry a higher rate of interest to make it attractive to the Indian investing public. But the possible results of such a change must receive due consideration at the hands of Government before it is made. Should the present market for three-and-a-half per cents be further depressed, it will have the effect of a heavy imposition which is likely to cause not only loss to the holders, but discontent. There is also the necessity for caution lest an increased rate of interest forces Government Paper into an undesirable competition with the Port Trust and Municipal Debentures. The position requires delicate handling, and it is eminently desirable that the conditions of the new loan should be settled by Government in consultation with financial experts and dealers. The Hon'ble Finance Minister will have a precedent for the suggested course in the procedure adopted by the Chancellor of the British Exchequer not very long ago with conspicuous success. A secret conference of a few trusted representatives should be able to give Government sound advice in this matter of the new loan. The question of issuing metallic 4 per cent Bearer Bonds for small amounts, redeemable at short notice through the Post Office, may also be considered by Government before determining finally the particulars of the proposed loan. These will possibly attract into the field a new and humbler class of investors.

"My Lord, the war has focussed public attention in India on the Post Office Savings Banks. The institution is popular, and discharges very important functions The deposits had gone on increasing heavily until the war created somewhat like a panic among the common people which led to sudden withdrawals. This of necessity caused a great strain upon the financial resources of Government, at a time when they were adversely affected in various other ways to an enormous extent. It has likewise caused a large loss of interest to the misguided depositors. It is welcome news that 'the drain has materially slackened'. Before long we expect a healthy reaction. But I would request Government to consider the advisability of increasing the rate of interest upon these deposits by, say, half a rupee per cent. We have here to deal with a poor class of investors to whom any favours shown in this direction will be most welcome. Sometime ago the rate was higher. I do not know why it was reduced; in my humble opinion, a slight increase will popularise these banks still further, and Government will have always ready to hand an increasingly large amount of cash for remunerative employment. The Hon'ble Sir William Meyer has done a great deal to make the deposits attractive. I hope he will increase their attractiveness in the way suggested even though it involves a small addition to our annual expenditure in interest charge. Rupee Loans are floated generally at a discount; the interest is paid on the face value. It would be far more economical to pay the same rate of interest upon a debt which is raised at par.

"My Lord, the Hon'ble Finance Minister has very thoughtfully added to the Financial Statement a detailed account of the provincial balances. It is helpful to a degree. The value of the annual Budget would be still further enhanced by the addition of a detailed statement of the expenditure for Education and Sanitation, both Imperial and Provincial, recurring and non-recur-

[*Mr. Dadabhoy.*] [25TH MARCH, 1915.]

ring. In the Financial Secretary's Memorandum details of the Capital Expenditure for Railways and Irrigation are shown separately. It helps the public to have a clear grasp of the situation. An account, on similar lines as far as possible, regarding our Expenditure for the promotion of education and sanitation would dispel misconceptions, though it is not capital outlay, and would give us a knowledge of the details which is the first enabling condition for helpful criticism. At present we cannot ascertain from the memorandum what and how many schemes are proposed to be financed and what and how many are held back. This absence of fuller information may, and sometimes does, give rise to misapprehension.

"My Lord, the serious situation created by the unexpected depression in cotton has been handled by Government with commendable promptitude and boldness, and it is just to mention that the action has had upon the people a great moral effect. Prices have stiffened somewhat; a still better tone should prevail in the trade before the next *kharif* is sown. The important question, however, that confronts us is, whether the cultivation should actually be restricted. I would not, upon the materials before me, hazard an opinion one way or the other. I only submit, for the consideration of Government, that careful inquiries should immediately be made, with a view to ascertain the quantity of unsold cotton in the market. If in the result it appears that there is still a large stock of it, the proposed restriction upon cultivation should be enforced; if, on the other hand, the inquiries show that the stock is small, all restrictive action on the part of Government should be abandoned. Cultivation cannot be changed all at once without some inconvenience and loss to both the cultivator and Government, as in the event of a change a revision of the revenue assessment on a lower scale must become necessary Any further interference with the normal course of cultivation should accordingly be undertaken after a close examination of the needs of the trade.

"My Lord, the Hon'ble Sir William Meyer has referred to the injurious effects upon the internal trade of the stampede among the Marwaris at large business centres. It was an imprudent move, inconsistent with the shrewd business habits of these people. It is, however, a reassuring fact which Government ought to know that individual Marwaris here and there did stick to their business, and prominent among them was the Hon'ble Diwan Bahadur Sir Kasturchand Daga in the Central Provinces. This premier banker in India was throughout the crisis always ready to finance trade, and did finance a large volume of it even at some personal sacrifice.

"My Lord, in dealing with the Financial Statement on 9th March current, the Hon'ble Home Member drew public attention to the paramount necessity of increasing our expenditure for the Police, and, truly, a more important department of civil administration it is difficult to find. The Police force, connected as it is with the every-day administration, renders perhaps a greater service than even the military. I have as high a conception of the arduous duties of the police as the Hon'ble Sir Reginald Craddock, but I go further even than he in my recommendations for larger expenditure for the department. In my humble opinion, there is ample scope for the profitable employment of all the funds that the Government can spare for this purpose for years to come. The Indian Police Commission found that 'the police force is far from efficient; . . . it is generally regarded as corrupt and oppressive; and it has utterly failed to secure the confidence and cordial co-operation of the people'. Efforts at improvement have been made all these years at some considerable expenditure, but they have so far touched only the fringe of the problem. The public verdict to-day is hardly more favourable. The great defect is the Police is as disassociated from the people as ever, and does not enjoy their confidence. This cannot be all the fault of the people. The Police must inspire public confidence and attract public co-operation. It has admittedly not done this; it has thus failed to discharge one of its most important functions. This absence of confidence and co-operation between the Police and the people is not endemic in India. It was noticed even in England by the

[25TH MARCH, 1915.] [*Mr. Dadabhoy; Maharaja Manindra Chandra Nandi.*]

English Police Commission of 1839, but whereas there the Police has by its, subsequent excellent conduct become the trusted friend of the people, the Indian Police, by following an opposite line of policy, is becoming isolated more and more every day, shunned and distrusted by all. The Indian Police Commission made certain recommendations for improvement on the analogy of the Indian Judicial and Revenue Departments, but these did not go far enough. In my humble opinion, the Provincial Police Service should be placed on the same level as the Provincial Judicial and the Provincial Executive service, with the same scale of emoluments and the same position, and the qualifications for appointment to it should be as high. It is only by the large admission of men with the highest educational qualifications into the service that it can be effectively improved. Patchwork reform will not do, but a root-and-branch reform is needed. A sprinkling of graduates among a large mass of indifferent material cannot effect much. It is a matter worthy of notice that the experiments so far made in some provinces of appointing a few lawyers to the Police Service as Court Inspectors appear to have failed. Most of them, especially in Bengal, have left the service after several years. There must be some reason for their action. It is not every lawyer who earns a handsome income at the bar; yet why is it that these lawyers have preferred to face starvation there to continuing in office under Government with pay prospects? This is a case for inquiry, and the sooner it is undertaken the better for all concerned. Investigation of cases also is as unscientific as possible. An expert from London should be able to suggest a remedy for the existing evils. The cost incurred in securing the services of such an expert will be money well spent. I am confident this matter of Police reform will engage the earnest attention of Government.

"My Lord, we are to-day afflicted by the thought that before we meet again at Delhi, Your Excellency will have completed your term of office. Your Excellency has by your remarkably able and sympathetic guidance, inspired in the people such great confidence that the prospect of your retirement before the war comes to a successful termination is not only distressing to them, but is viewed by them with deep and unfeigned concern. Amidst physical suffering and bereavements, amidst administrative worries and dangers, Your Excellency has been as a rock unmoved in your firm faith in the nobility of your mission and the high purpose of your enlightened statesmanship. India can ill spare such a Ruler now. As a representative Member of this Council, I humbly pray that His Majesty will be graciously pleased to extend Your Excellency's term of office at least till the war is over".

The Hon'ble Maharaja Manindra Chandra Nandi:—"My Lord, I congratulate the Hon'ble the Finance Member on the highly satisfactory able and clear Financial Statement that he has presented to the Council. During the financial year that is about to close the Government have had to deal with an emergency as unprecedented as it was unexpected. This time last year no one in this Council had any premonition of the war which is now raging and the Budget for 1914-15 was prepared on a peace basis. Nevertheless, since August last and onward war conditions with all the consequent dislocation of trade, financial panic and falling off of revenue have prevailed and yet, as the Hon'ble the Finance Member has proved to conviction, the financial position of the Government of India was never stronger than it is to-day. True, the estimated surplus of £1½ million for 1914-15 has been converted into a deficit of £4 million, while under Unfunded Debt there has been a drain of nearly £7 million. But this does not by any means disclose an alarming position of affairs in view of the heavy strain caused by the war.

"The revised estimates for 1914-15 show decline of revenue under many heads, the largest being under State Railways. An unfounded sense of insecurity led to large withdrawals from Post Office Savings Banks. The trade with enemy countries entirely ceased, while trade in other directions languished. The position became as grave as can be conceived and we are still in the full tide of the crisis. But the credit of the Government remains unshaken and the financial position is as sound as ever. To other difficulties that the Government have had to face has been added the alarming rise in prices which has

[*Maharaja Manindra Chandra Nandi; Mr. Marshall Reid.*] [25TH MARCH, 1915.]

led to the restriction of the export of wheat. It is gratifying to note that prices are now easier and the prospects of the next crops most cheering. In the budget estimates for 1915-16 no additional taxation has been announced and this is a fact upon which the Government must be congratulated.

"The Hon'ble the Finance Member proposes to raise a loan of 4½ crores later on in India, or to increase the borrowing from the Gold Standard Reserve. He has rightly proceeded on the assumption that the war may continue throughout the next year. The reduction of the Railway programme from £12 to £8 million is a wise step and the curtailment of expenditure in other directions is inevitable. It is particularly gratifying to me that, as announced by Your Excellency a few days ago at Calcutta, 10 lakhs of rupees have been given to the Calcutta University for hostels. The sanitary condition of Bengal is very bad, some additional allotment under this head would have been a great boon in Bengal.

"My Lord, the terrible drain in men and money demanded by the war shows as yet no signs of abatement, but we are convinced that the worst is over and the tide will soon take a decisive turn. When at length peace is restored, the British Empire, of which India is so important a part, will enter upon a fresh period of financial and material prosperity".

The Hon'ble Mr. Marshall Reid:—"My Lord, on a previous occasion I referred to this Budget as being essentially a business-like one, and it certainly cannot be described in the language of high financial authorities as 'over-cautious.' It forms a pleasing contrast to a budget of not very many years ago when, to meet a not unusual temporary strain, taxation, some of it of a rather parochial and petty character, was resorted to: unfortunately this temporary taxation, like its great predecessor the income-tax, has still continued with us. To meet the unusual situation unusual borrowings have been necessary, and we have again in this connection to recognise the acumen of the Hon'ble the Finance Minister: low discount rates in London evidenced the large sums of money which were awaiting investment and the Government have very properly resorted to that market. Where can English money find more secure investment than in a prosperous and loyal India with enormous securities in its railways, and—in spite of what some of my colleagues have been saying—very profitable railways indeed? Railway construction, for which some of us have pressed, incidentally provides gilt-e[dged] securities which on occasions like this stand us in very good stead. We have cheerfully accepted eight millions as our railway allotment for the coming year, but we hope that the deficit will in future be made up to us, and that a higher standard, something like 15 or 16 millions, will be adopted for the future.

"I desire to offer one little criticism on the budget: the possibility of a 4½ crore rupee loan has not been well received in the market, and a good market is of paramount importance to Government: I assume that the operation is not seriously contemplated, and no doubt the Finance Minister has other alternatives up his sleeve: I would suggest that he should put those other alternatives in the forefront and put the 4½ crore loan in the background.

"I regret, My Lord, it has been necessary to retard the progress of New Delhi. Some Hon'ble Members and their constituents may have reasonably considered that the scheme has its defects as every scheme in this world has: but it is a settled fact, sealed by the command of the King-Emperor and supported by the very strong argument of decentralisation. I hope that the Delhi to be—call it ceremonial or what you will—will not take long to quicken into a living city.

"The development of indigenous industries has taken a very prominent place in the budget debate. I regret that no practical conclusion has been arrived at, but it is no wonder; for it is indeed a very complex problem. Hon'ble Members have generally been agreed that the disease of backwardness

[25TH MARCH, 1915.] [*Mr. Marshall Reid; Raja Abu Jafar.*]

exists, and they have almost all suggested the same remedy, Government financial aid, but I have not heard any serious attempt to diagnose the disease. My own personal experience in industrial matters is somewhat limited, but I would offer my suggestions for what they are worth: the first essential in industrial success is industry and energy: are the people of India industrious and enterprising in the Western sense of the word? I fear the answer must be, 'No'. I have not myself during my experience seen any great industrial enthusiasm: I know of classes of workers whose hours and whose days of work are regulated by the price of food-grains, and whose ambition is limited by the immediate needs of the mouths they have to feed. Then there is the rather better educated class whose western counterpart combines brains and hands in harmony to raise the standard of industrial development: that better educated class which we have in India and which we should expect to do this work, have not yet fully appreciated the dignity of manual labour: under such conditions progress and efficiency in industry must remain imperfect. There was a striking illustration at the outbreak of the war as to the extent to which Indian industry has progressed: merchants sought to replace German wares in the Far East and other markets by Indian manufactures. My own experience and that of many others was that we were met with the reply that Indian manufactures were unreliable, irregular and could not be guaranteed. The remedy must be slow, and it is difficult to know where to begin; but much will be gained if the disease and the trouble can be truly diagnosed. The perspective of the question has been somewhat upset by the assumption that German industry and enterprise were to be destroyed, and were to be replaced by indigenous industries which would grow up in a night. But Hon'ble Members should be under no delusion in this matter. It has taken years of patient toil to develop the spirit of industrialism in Germany and it cannot be destroyed, for it is the very life-blood of the country.

"Those who know the facts will confirm what I have said and will not desire for the good of the world to see German industries and enterprise destroyed. India, in her own interests, certainly cannot wish to see German industries destroyed, for when the end of the war comes we shall look to regain one of the largest and most important markets for the produce of this country. The fate of the British dye scheme shows that England fully recognises the essential features in the position: the original scheme provided for £1½ millions of Government money and £3 millions were to be subscribed by those who were interested in the manufacture. A fortnight ago we learned by telegram that the scheme had been altered to £1½ millions Government money and £½ millions public money: we learned yesterday that the scheme had been dropped entirely because hard-headed Englishmen and hard-headed Scotchmen had made up their minds that to compete in the market against a foreign article for which they are not well placed is mere waste of money. Now, what can Government usefully do in the way of developing industries in India? Hithereto, from my own experience I can say that they have done much useful work in demonstration; the practice has been for Government, when they are satisfied that an industry is likely to succeed, to buy experimental machinery and lease it to those, whether Europeans or Indians, who are willing to take it up, work it, develop it and report to them the results. Your Excellency, I regret to say that there is only one Presidency in India which is completely equipped in this respect. If I were to make a recommendation to Your Excellency's Government it would be to lay aside a considerable sum,—even take a little from our railway allotment of 15 millions—in order to equip and develop departments of industry in this country. I finish as I began by congratulating the Hon'ble Member on his most business-like budget and trust that the courage which he has shown in framing it may be duly rewarded."

The Hon'ble Raja Abu Jafar:—"My Lord, I have no desire to criticise the Budget or to discuss the various aspects thereof. But I cannot refrain from expressing my entire satisfaction at the fact that the Finance Member has been able to produce such a satisfactory Budget at such an abnormal time without imposing fresh burdens on the country, which in her

[*Raja Abu Jafar; Mr. Barua.*] [25TH MARCH, 1915.]

present economic condition she is quite unable to bear. It is a triumph for which the Hon'ble the Finance Member deserves our heartiest congratulations.

"As a representative of the United Provinces I cannot help expressing the deep feeling of disappointment with which the people of my Province have heard of the attitude adopted by the House of Lords in the matter of the creation of an Executive Council. My Lord, it was a wise and necessary measure of reform which Your Excellency's Government recommended Parliament for acceptance. Our Province has been fully ripe for such a reform for many years. It is obvious that the Governors of the provinces are overburdened with the heavy and daily growing work and responsibilities and under such circumstances an Executive Council was most essential in the interest of greater efficiency in the administration. In the course of the debate in the House of Lords it was pointed out that only a small body of opinion in our Province was in favour of this proposal. With due deference to their exalted knowledge, I may be permitted to say that this statement is quite contrary to actual facts. I know that an overwhelming consensus of opinion in the United Provinces is keenly in favour of such a reform, and I earnestly trust that the Government of India will again press the attention of the Home authorities to the urgency of the reform and secure the necessary sanction at an early date."

The Hon'ble Mr. Barua:—"My Lord, I take this opportunity of joining hands with my colleagues in congratulating the Hon'ble Finance Minister for so successfully wading through a year of great strain and stress. We cannot but admire the great tact and foresight with which he manipulated the extraordinary financial situations created during the year from time to time. The prompt steps he took to avert a threatened break in exchange, the timely strengthening of the Presidency Banks and the credit of the Post Office Savings Banks, the facilities for easier encashment of Currency Notes, all speak of the great resourcefulness and ability of the Hon'ble Finance Member, which not only saved a threatened financial crisis and dislocation of trade and commerce, but had also important political consequences in restoring confidence of those who were upset by misguided theories about the war. The adjustment of the finances to different heads of expenditure, allowing progress on all heads with only such restrictions as are unavoidable, similarly point to the great skill and practical wisdom of the Finance Minister, which we cannot but admire. The changes in some forms of accounts which he has introduced both this year and the last are also of much practical utility and I feel sure have been greatly appreciated by many of my friends as by me. We are grateful to Sir William Meyer for all the pains he has taken, and we are happy that at such a critical time we have the services of so able, cautious and sympathetic a Finance Minister. We are equally grateful to Your Excellency that your broad-hearted sympathy and feeling for the people of India have saved them from any fresh taxation as a consequence of the war.

"If we review the spirit of this Session of our Council we feel, from the interpellations made and resolutions moved, that the things that have greatly exercised the minds of the Indian Members are the high prices of food grains and the development of industries. These two questions are really predominant everywhere to all thinking minds in India.

"The Hon'ble Commerce Member has given sympathetic consideration to both so far as they have been brought forward. The bold and comprehensive step —as he calls it—which is going to be taken about the export of wheat is perhaps the best under the circumstances stated and reasons given by him, and I greatly hope that the desired relief will come out of it and it will prove to be the best and most reliable method. I am sorry to find, however, that the project appears to be confined to wheat alone. It is not the fact, however, that the rise of prices is confined to wheat alone; it extends to many other food grains and stuffs in a greater or lesser degree. It will of course be absurd to ask the Government to take the same steps with regard to all. But one other item there is which, I think, deserves equal treatment—I mean rice. As wheat is

[25TH MARCH, 1915.] [*Mr. Barua.*]

the staple food in some parts of India, so is rice in many other parts; and the rise of price has been as significant in the case of rice as in that of wheat. I understand there is an export duty on rice exported from Burma. Much of that rice comes to and is consumed in Bengal and Assam too. So the effects of that taxation does not so much come to the relief of India. The rise of price in Bengal and Assam has of late years been phenomenal, and this year the price in some districts of Assam has been singularly exceptional. I think rice therefore is also a commodity in regard to which the same precautions should be taken as in regard to wheat: and I greatly hope that the Hon'ble Commerce Member will see his way to include both rice and wheat in his scheme of Government control of export.

"With regard to industries we are grateful for all the steps that the Hon'ble Mr. Clark has shown us have been taken. I venture to think, however, that those steps are not enough to meet the present situation and aspirations of India. The question is a vast one and cannot be discussed or decided off hand. India cannot be judged on the lines of England in respect of her industrial undertakings or propensities. And the policy that works well in England cannot be expected to apply to India. She looks to the Government to shape her in the industrial field by special measures suitable to herself. The question of developing Indian industries has been exercising the minds not only of the Indians alone but also of many European officials who are anxious to push India on to prosperity; as one of them I may point to our good Commissioner to my right. But under the present policy of Government they have to make a halt when they come to the question of ways and means. I respectfully submit, My Lord, that a more extensive and liberal policy is necessary to be shaped for India on its own lines. Nothing short of a policy like the Railway policy will meet the demands of the country, and I feel convinced the country will be prepared to bear the burden. Bounties, subsidies, and even partnership by Government as well as guidance and supervision are in the present stage of India necessary to induce private capital, which is so shy, to come out to the field of enterprise; when the people will under such guidance and support be widely and extensively trained in western methods of business and will begin to have a confidence in their own undertakings, there will be no longer any need of such extra privileges; but till then the Government should I think be prepared to conceive and shape a comprehensive policy to help the people. It is not the time to-day to dilate on this vast subject. All I beg to submit is that it will be no labour lost to Government to consider seriously the subject and formulate a policy of its own to make possible the rapid development of this vast Empire into an industrially and commercially prosperous country.

"Not the least important of the works of this Council is the introduction of the Hindu University Bill, which has been hailed with satisfaction by many of my hon'ble colleagues and introduced with such a charming and sympathetic speech by the Hon'ble Member in charge of the Bill. This Bill will mark an epoch-making change in the policy of Government hitherto followed in the matter of education. I must admit that I have not as yet been able to disabuse myself of the misgivings shared by some of my friends about the ultimate effects of the new university and the altered policy of the Government. Let us hope that the outcome of this University will not be a revival of all the mischief that Hindu orthodoxy had brought upon India in the past, that it will not re-enact the domination of caste over caste and the creation of faction over faction, making the regeneration of India on modern lines impossible or remote, that it will not counteract the unifying influence of English education or make Hindus, Muhammadans and other sections of the Indian population vie with each other in moving on parallel lines which can never meet.

"To speak a few words about my own Province. In my speech on this occasion last year I alluded among other things to the great and trying need of the Province for improved communications. This year I intend to return briefly to the same subject and to mention in particular the matter of railway

[*Mr. Barua ; Sir Fazulbhoy Currimbhoy.*] [25TH MARCH, 1915.]

extensions. The opening of the superb Hardinge Bridge should see the dawn of a very bright era in the matter of increased railway facilities for Assam. With the Eastern Bengal Railway line made broad gauge (a project which all interested devoutly hope will be accelerated) as far as Amingaon and Tangla will give no breach of gauge between Lower and Central Assam and Calcutta. The extension of the Eastern Bengal Railway system from Tangla up the north bank of the Brahmaputra into the important tea districts of Darrang and Lakhimpur is a matter which should continue to receive due consideration ; such extension would benefit not only the exporters of tea but the people of the north bank of the Brahmaputra generally and would also give Government another important strategic line to the north-east frontier. Then there is the question of linking up Assam and Burma by railway, a subject alluded to in Your Excellency's speech on the occasion of the opening of the Hardinge Bridge. Burma, I venture to think, will be as interested in such a scheme as Assam, especially those who have cause to remember the recent exploits of the *Emden* in the Bay of Bengal. We shall be interested to hear the results of the several reconnaissance surveys of routes for such a railway, and we hope that this very important matter will continue to receive the very careful attention it deserves.

"Another point that I would take the liberty of briefly alluding to on this occasion is that the Province is keenly feeling its complete want of representation in the bench of the Calcutta High Court, within whose jurisdiction the Province has all along been put. Up to date there has not been a single Assamese Judge in that honourable Court. The want of qualified men might have been a cause of this in the past. But now, I venture to think, that cause no longer exists and there are men fit to hold the post of a High Court Judge, and I hope such men will not be wanting in the future. I greatly hope and sincerely pray that in the interests of and in justice to the Province Your Excellency will be graciously pleased to give the matter your due consideration.

"In conclusion, My Lord, may I be allowed to submit that Your Excellency's approaching retirement is really becoming a matter of grave concern in all parts of India. We feel that the saddest moments of Your Excellency's life have been spent in India, and it may be cruel to ask Your Excellency to spend more of your time in the service of this country ; but if we can do so without hurting Your Excellency's feelings we would solicit that if His Gracious Majesty, in response to Indian feeling, be prepared to extend Your Excellency's period of Viceroyalty in this Empire at least till the end of the war and perhaps for six months afterwards, Your Excellency may be pleased to consent to vouchsafe to us the privilege of being governed by you till then."

At this point the Council adjourned till half-past two. On re-assembling—

The Hon'ble Sir Fazulbhoy Currimbhoy said :—"My Lord, the exceptional circumstances of the year enjoin upon us caution in dealing with the Financial Statement and the excellence of the Budget for the ensuing year limits to an inconvenient degree the scope of useful comment. The Hon'ble Sir William Meyer has taken the country by surprise by squaring the accounts without fresh taxation It is a bold attempt in which he has the good wishes of the whole community. I beg on behalf of my constituents to congratulate him on his Budget. The chief point of interest is that he has made the country almost forget the serious economic and financial effects of the war.

"My Lord, the Hon'ble Finance Minister is right in providing for a fresh Rupee Loan. I have always held, and I emphasised the point last year, that the Indian money market is not fully exploited by Government for their annual borrowings. In the current financial year the Hon'ble Sir William Meyer for the first time raised the amount of Rupee issue to five crores. He may have had his doubts, but I never had any doubt about the success of his policy. In fact, I pointed out that more than five crores could easily be

[25TH MARCH, 1915.] [*Sir Fazulbhoy Currimbhoy.*]

raised and the facts of the last loan have amply testified to the soundness of my contention. The total amount of tender was nearly 12 crores (R11,76,57,900) and the average rate of accepted tenders was R95-9-7. It may be that one Province took up the loan more largely than another, but that does not affect the position of India as a whole. The point is, more money can be raised in this country. Ordinarily, therefore, we should look to the Indian market more than the London market for funds for our capital outlay. It is more to our interest to borrow largely in India. Since the War has introduced new conditions into the market, I share the doubts of Government that unless it is over shortly, the whole of the 4½ crores wanted this time may not be raised on the usual terms The Hon'ble Finance Minister has reserved to himself the right to vary the terms according to the needs of the situation. I only hope he will bear carefully in mind that, although the higher rate of interest may ensure the success of the new loan, it will as sure as anything damage the popularity permanently of the pre-war stock. This will be prejudicial to large interests, and perhaps to the success of our subsequent loans. There is thus need for extreme caution in floating the loan. It is indeed possible to counteract the effects of an increased rate of interest by regulating the conditions, and we await with anxious interest the Hon'ble Sir William Meyer's further pronouncements on the subject. If the proposed loan affects the pre-war stock to a large extent, the existing balances here and in England should be drawn upon more largely by Government.

"My Lord, the Hon'ble Finance Minister has also referred in his introductory speech to the character of the proposed loan. It is difficult to form an exact idea of what he means, and this is a matter in which a fuller statement would have been unwise. The only point I would now press upon his attention is that, along with the conditions of the new loan, he will be pleased to consider the advisability of issuing in future special 4 per cent railway loans. These are bound to be very popular.

"My Lord, I cannot condemn the curtailment of expenditure to which pointed reference has been made by the Hon'ble Sir William Meyer, but I beg to submit that it has caused difficulty in the provinces. In the Bombay Presidency many a necessary expenditure has had to be put off indefinitely. From the official speeches on our Provincial Budget it appears that Government had to reduce considerable amounts which Government had hoped to spend mostly on the Borstal Jail at Dharwar, and to reduce the expenditure on jails to its very minimum. The provision for the reorganisation of the police had to be cut down, so much so that 'those responsible for the administration could not acquiesce in any further curtailments'. 'Several important matters had to be deferred altogether'. The educational interests of the province have also suffered in consequence of the reduced expenditure, Government 'had to postpone some of their important schemes', and to omit 'a sum of one lakh for opening more schools and another lakh which was given for teachers for those schools'. Sanitation, too, has perforce to be neglected, for the time being, at least. 'Several applications for sanitary projects' had to be refused. But I frankly recognise this is to some extent unavoidable. We expect, however, that when the finances improve, the Hon'ble Finance Minister will treat the Province with extra liberality proportionate to the large sacrifice it has made this time.

"My Lord, our provincial expenditure leads me to examine the position of our provincial finance, and I think it is susceptible of improvement. My friend, the Hon'ble Sir Ibrahim Rahimtoola, raised last year the question of provincial settlements. As a matter of principle, the Provinces ought to have the whole income from the taxes that are either provincial or the proceeds of which are at present shared by the Government of India with the Provincial Government, and the Government of India should be satisfied with a lump contribution from the Provincial Government to be assessed in each case with due regard to local conditions. This contribution must of course be subject to periodical revision. The alteration is one of method relating to the collection of the Imperial revenue; a fixed payment is to be substituted for the

[*Sir Fazulbhoy Currimbhoy.*] [25TH MARCH, 1915.]

present fixed ratio. This would, of course, have the effect of rendering the Imperial revenue inelastic; and to neutralise the evils incidental to such a system, provision may be made for the recovery from the Provinces of exceptional and extraordinary contributions according to the needs of the Supreme Government, assessed on the same principle of provincial ability. Such a revision of the system of provincial payment would strengthen the financial resources of the Provinces, would equalise the conditions of adjustment, and would make the apportionment of provincial liability more equitable. The Provinces would thus have greater fiscal autonomy, and would be free to attain to a development suited to local conditions. If in addition, the provincial funds are made over to the Provincial Government for safe custody and application, subject to the maintenance of an irreducible minimum of balance, the inconvenience of restricted utilisation of large balances, such as is enforced by the Government of India on the present occasion, will be minimised. It is earnestly to be hoped that the Hon'ble Sir William Meyer will take the matter into his serious and favourable consideration. Provincial feeling is, I may point out, strong on this subject.

"My Lord, with a view to help the undisturbed progress of the provinces, an earnest effort should also be made to requisition the services of conciliation boards for the satisfactory settlement of all disputes between different sections of the population. These boards to our knowledge have been started at different provincial centres, and are believed to have rendered inestimable service. We hear less of *Bakr-Id* riots now. It is regrettable this Government has not got reports from the local Governments about their working. In the absence of official reports it is difficult to generalise, but I believe a great future awaits conciliation boards. With more settled conditions Government will find it to its advantage to take the whole question seriously in hand.

"But far more important to the whole country, My Lord, is the other question, namely, the question of emigration to the colonies, which await a statesmanlike and sympathetic settlement immediately after the war. The matter has not been discussed in Council this Session, not because of the absence of a strong local feeling, but because of the limitations under which discussion has had to be carried on, on account of the war. As a matter of fact, whole India is of one mind both as regards the necessity of emigration and the status of the emigrant in the colonies. The time has come when the question of some outlet for our surplus population should be settled in a manner agreeable to our ideas of self-respect and dignity as citizens of the British Empire. And we look up to Government here as also to the Imperial Government for a satisfactory settlement of this question with fervent and confident hope.

"My Lord, I have heard with deep interest the observations of my Hon'ble friend, Mr. Marshall Reid, about the indifference of the people of this country to industrial enterprise. I would like to say much on the subject, but I beg to point out that if Government be pleased to encourage large concerns floated by Indians, something may be done to divert popular energy into the fruitful department of industry. The success of the Tata Iron and Steel Works has been in a large measure due to the support received from Government.

"My Lord, I beg to invite Your Excellency's attention to another matter of some importance, to inconvenience of the existing procedure regarding the introduction of legislative measures in this Council. Bills are now introduced without the Members knowing anything about them previously. The result is that no profitable discussion can take place on the first day about their principle. No doubt subsequently, on the motion for reference to a Select Committee, Hon'ble Members have an opportunity of commenting upon the principle, but it is far more desirable that this debate should precede that motion. My friend, the Hon'ble Mr. Ghuznavi, drew attention to this only the other day, and I believe I voice the general desire of the Additional Members in my plea for circulation of Bills at least a fortnight previous to their formal introduction in Council. Government will not lose anything by the change

[25TH MARCH, 1915.] [*Sir Fazulbhoy Currimbhoy; Mr. Ghuznavi.*]

in the procedure. The interests of urgent bills are amply safeguarded by the rule under which Your Excellency can suspend the rules of business to enable the Council to consider the Bills at once. Bills of the Provincial Governments are circulated previously without inconvenience.

"My Lord, the whole Financial Statement is overshadowed by war. It is difficult to form even an approximate idea when it will end, but of this much we are sure, that it will end in a brilliant victory for the Allies and the imperishable glory of the British Empire. All India prays to the Almighty for its speedy termination. It has upset the business of the world. But even in these dark days of national trouble, we find matter enough for self-congratulation. The unwavering loyalty of the people of this country to the Throne has been demonstrated on this occasion in the most remarkable manner, and we owe it to this war that the various units of the great British Empire have been knit together to one solid whole, moved by one common sentiment and one common purpose. Never before has India presented such a united front for the defence of the Empire. The different Provinces are imbued with a spirit of healthy emulation. In the Bombay Presidency, though that province from its industrial and commercial position has been the most sorely affected by the war, we have raised forty lakhs of rupees for the War Funds through the admirable organisation initiated by His Excellency Lord Willingdon, and the Women's Branch is doing solid work under the inspiring guidance of Lady Willingdon. The Hospitals started by us for the sick and the wounded in Bombay and at Alexandria are the finest and such as any nation may feel proud of having equipped and organised. The history of all this zealous activity of the people is one, My Lord, of which Government may well be proud.

"My Lord, it is the universal wish of the people of the country that Your Excellency should continue to be at the head of the Indian Administration until we are entirely free from the danger of this war. We have abundant faith in your benevolence and high statesmanship, and we earnestly hope that His Imperial Majesty will be graciously pleased to grant us this our humble prayer".

The Hon'ble Mr. Ghuznavi :—"My Lord, the Hon'ble the Finance Member is entitled to the fullest sympathy of this Council and of the country at large in the difficult task with which he finds himself confronted this year owing to the exigencies of the times. After a succession of surpluses during recent years we have come suddenly almost without a warning to a year, when our expected surplus has been turned into a deficit, and this abrupt change, which is accompanied by an uncertainty about the future, all the more aggravates the anxieties of the situation. My Lord, the imprint of war is writ large on almost every page of the Financial Statement that has been presented this year. It has seriously affected the two sources of revenue, namely, Railways and Customs, by the depression and dislocation of trade, with the result that whereas in the first four months of the year prior to the outbreak of war the Railway revenue was some £260,000 in advance of that of the corresponding period of the preceding year, in the six months following the outbreak of the war there has been a decline by £1,490,000. The revenue under Customs has also suffered a similar decline by nearly a million pounds less than the Budget anticipation. But happily such is the elasticity of Indian Finance that it has stood this rude shock uncommonly well. Speaking from his place in Council in 1909, the late Mr. Gokhale said, that never during the last 50 years previous to that period, was there such a deficit as that of 3¾ millions. Yet fortunately such is the recuperative power of Indian Finance that even under this heavy blow this year's deficit is less by a million than that of 1909. My friend, the Hon'ble Sir W. Meyer, is therefore all the more entitled to our warm congratulations that in the midst of this raging hurricane he has been able to steer his treasure-ship of State clear of all shoals and he has been able to do so so far without any additional taxation. I therefore desire to offer him my sincere

[*Mr. Ghuznavi.*] [25TH MARCH, 1915.]

congratulations on the caution, foresight, clearness and withal firmness with which he has been able to frame this year's budget.

"My friend, however, struck a note of warning in the course of his speech when he presented us with the Financial Statement. He stated that he would not hesitate to propose additional taxation to make goo i the deficits should it hereafter be found necessary. We all sincerely hope that such a contingency might not arise. But if it were to arise at any time I trust my friend will allow me to make a suggestion beforehand as to the direction such additional taxation might take. I have heard it expressed in many quarters that if Government were in need of any additional taxation owing to the exigencies of the times, the only additional taxation that might be imposed without affecting very much the teaming millions of the country would be an additional income tax, as this would not be so much of a burden to the poor as it would be to the rich.

"*Sanitation—malaria.*

"I would, now My Lord, with your permission, like to say a few words on the situation of the country generally. The first question that deserves our serious attention is the question of sanitation. For it will certainly be agreed that we must first of all live before we can think of anything else. The Government has done a good deal in this direction in recent years but a very great deal yet remains to be done. In many parts of India, malaria is becoming a scourge and in Bengal particularly, it seems to be increasing in virulence. In reply to a question of mine on this subject in September last, as to what steps were being taken by Government to combat the ravages of malaria in different parts of India, particularly Bengal, my friend the Hon'ble Sir Harcourt Butler was pleased to refer me to the annual reports of the several Provincial Sanitary Commissioners. A perusal of those reports, however, is not very assuring. I therefore again respectfully urge on the Government to give their serious thoughts to this question and to appoint a commission composed of officials and non-officials in each of the affected provinces to inquire into the cause of the spread of malaria and to devise further means of arresting the mortality from fever, which is now so much on the increase.

"*Pasteur Institute.*

"My Lord, there is a steadily growing demand for the establishment of Pasteur Institutes in each province. Thanks to the courtesy of my friend the Hon'ble Sir Harcourt Butler, I was enabled two years ago to inspect the Pasteur Institute at Kasauli. When I was there, the authorities convinced me of the fact that after the recent discovery it was no longer necessary to locate Pasteur institutes in out of the way hill stations, but rather they should be attached gradually to the leading hospitals at the head-quarters of each of the presidencies and provinces. There is a persistent demand for it from all the leading associations in Bengal. My friend the Hon'ble Sir Reginald Craddock stated in this Council a few months ago that the Government of India have received no proposals from the Government of Bengal with reference to the location of a Pasteur institute in a wing of the School of Tropical Medicines in Calcutta. Since then many public bodies, notably the Rungpur Zamindar's Association, have memorialised the Local Government on the subject. What I would therefore suggest is that the Government of India should invite the opinions of all local Governments on the subject.

"*Education—Religious.*

"My Lord, I would next draw the attention of this Council to the educational needs of the country and particularly to that of the Mussulmans. We are all deeply grateful to Government for the educational policy which has been set out in the resolution on this subject issued two years ago. We are looking forward to the day when the policy enunciated in that resolution will be fully carried out. The backwardness of my community in matters of education is particularly appalling and I would again repeat in this connection what I

[25TH MARCH, 1915.] [*Mr. Ghuznavi.*]

said two years ago that in this matter Mussulmans are entitled to a preferential treatment, which I am sure no enlightened and broad-minded Hindu would grudge us, for they must remember that our educational advancement is equally to their interest. My Lord, it is indeed sad to contemplate how backward the Mussulmans are. To take the case of only Bengal. We find that according to the last census out of every thousand Mussulmans there are only 41 who can read and write. The cause of this backwardness chiefly lies in the fact that ever since the establishment of the British *Raj* in this country, religious instruction suitable to Mussulman boys had been divorced from all educational institutions patronised by Government, and therefore Mussulmans did not avail themselves of these institutions to any great extent. I had the honour of drawing the attention of the Educational Member two years ago to this question and I am particularly grateful to him for the circular which was issued by Government in April of that year to all Provincial Governments: and which in the case of Bengal has resulted in the formation of a Mussulman Educational Advisory Committee by the Local Government. This Committee is at present engaged in overhauling the entire question of Mussulman education. But unless Government are going to find the money for education in normal as well as abnormal times, it will not be possible to effect any real progress. If the existing revenue of the country was insufficient for the purpose, the Mussulman community would, I am sure, willingly submit to an additional Educational Tax.

"*Money accrued as interest on deposit in savings banks by Mussulmans to be used on Moslem Education.*

"Now, My Lord, when I am on this subject, I would like to draw the attention of Government to the sum of money however small to which Moslem community are justly entitled. In September last I inquired to know what was the total amount of money which had accrued as interest up-to-date from the time of the creation of the savings banks, on the money deposited in the said banks by Mussulman depositors who have not drawn any interest on their deposits owing to their religious scruples, and in reply I was informed that that sum had amounted to R2,84,283. This was up to 1912, and it would now probably amount to over 3 lakhs. It is clear that this sum of money has gone to increase the surplus revenue when there has been a surplus, and it has gone to lessen the deficit when there has been a deficit, such as this year. I would therefore respectfully urge that the Government would be pleased to take the first opportunity in ear-marking this amount so that as soon as the present hard times are over it could be spent on some object of Moslem education, such as towards the cost of building a hostel in any part of India.

"*Cause of Temperance.*

"My Lord, I would now draw the attention of this Council to the alarming spread of the drink and drug habits in India. During the last few years this evil has been growing apace and has now reached an enormous magnitude, and yet it is extending every day. I do not desire on this occasion to dwell at any length on the dangers, social and economic, that lie before this Empire should a rapid expansion in the consumption of alcohol and drug fix the habit of drink and drug-taking upon the people. I would only say that India has always been a temperance country in times gone by. What the Prophet of Islam forbade more than 1,300 years ago, temperance societies, associations and movements are now trying to do to-day. As far as I am aware, the Hindu religion does not also encourage taking of intoxicating liquors or drugs. Hence this evil of intemperance has come to the East along with the other good things from the West. During recent times the excise revenue has gone up by leaps and bounds. In 1890-91 it was, roughly speaking, 5¾ crores, and in 1912-13 it has gone up to nearly 12½ crores. We all know how poor this country is, and with what difficulty the labourer and the poor classes are able to earn a single meal a day, and yet the contribution to the excise revenue from drinks and drugs is increasing in volume day by day. If, in the interests of China our

[*Mr. Ghuznavi.*] [25TH MARCH, 1915.]

Government could afford to forego an enormous amount of revenue from opium, are we not entitled to expect the same Government to forego proportionately a fairly less amount in the moral and material interests of the people committed to its charge? At the present moment absinthe has been forbidden in France and vodka in Russia. I need not recall Lord Kitchener's admonition to the soldiers on this subject soon after the commencement of the war. In France, where the champions of alcohol have a great following in the Chamber of Deputies from time immemorial, even there the *privilege de Bouilleurs de cru* has disappeared. It is high time therefore, I submit, that the Government of India should take some decided steps in the true interests of the people of this country. In this connection, I would ask the Government to consider the desirability of adopting some of the following means in checking these evils.

"In the first place the licensing function should be transferred from the Revenue authorities, the number of licences should be restricted, the maximum quantity to be sold in a day should be fixed, regulations with regard to the opening and closing of drug shops should be made more strict, the sale of alcohol and drugs to women and minors should be absolutely prohibited, and lastly, the principle of local option should be given largely to the people.

"*Preferential treatment in matter of gun licences.*

"My Lord, there is another matter to which, with Your Excellency's permission, I should just like to make a passing reference. It is the preferential treatment in the matter of gun licences and other arms and ammunition, extended to people other than the members of the British race in this country. With the exception of the smallest minority, the majority of the people of India are loyal to the core. If anything has brought this out in bold relief, it has been this war which we all so deplore, though looked at from other points of view in some ways has been a blessing in disguise. The war has welded together as it were the different heterogenous parts into a homogeneous whole in loyalty and devotion to the mother country. Almost the whole of India of to-day is throbbing with an impulse to serve His Majesty with a devotion broad-based and deep-rooted in loyalty to the Throne. Such being the case it is but natural, particularly to these Indians, who are passionately attached with an intelligent loyalty to the British Throne and the Empire, to feel some sort of resentment when they find that the homeless Armenian, the wandering Jew, the South African, the German or the Greek and such other people receive preferential treatment here in India. Having regard to the unfortunate circumstances which are still present to tarnish the fair fame of Hind, I am certainly of opinion that the Arms Act must yet remain and must be administered with care. But if an Indian of the description I have referred to is obliged to take out a gun licence and renew it every year, why should other people be exempted from the same operation? In the case of an Englishman, if he is true to his race, his instinct will always keep him loyal and therefore when an exception is made in his case, there can be no feeling of resentment. But no such reason exists for making an exception in the case of others, although there are many amongst my English friends who are themselves of opinion that in the interest of British fairness and British justice it is preferable to make the Arms Act applicable alike to all. But that is not my point. What I would respectfully urge is that in the near future when our minds are more at ease and when under Providence victory crowns our arms and our enemies are crushed Government would be pleased to consider the question of so revising the Arms Act that there may be no cause for grievance on the part of loyal Indians who may be also qualified on account of their social or professional rank or position.

"*Inquiry into the rise of price of rice.*

"One word more and I have done. We were all gratified the other day when the Government saw their way to accept in an amended form the reso-

[25TH MARCH, 1915.] [*Mr. Ghuznavi ; Mr. Setalvad.*]

lution which my friend the Hon'ble Pandit Madan Mohan Malaviya moved with regard to the prohibition of all export of wheat from India or the taking of such other steps as may seem advisable to Government to bring down the price of wheat. In the course of that debate I also mentioned that there was a scope for inquiry in the same direction with regard to rice, having regard to the fact of the high price at which rice is selling in the major portion of Bengal, particularly in the north and east. I do not wish to repeat all the arguments which I set forth on that day, but as I did not perhaps make my meaning clear, I wish only to say that what I urged was not to prohibit entirely the export of rice but to leave it to Government to take such steps as Government may think fit to bring down the price of rice, as rice is equally the staple food of millions of my countrymen in my part of the country and as the rise in its price, owing to the peculiar exigencies of the times, is causing the greatest hardship. I would respectfully urge upon Government to make an inquiry with a view to ascertain what step, if any, be it in the shape of increased facility for the importation of rice into Bengal from other provinces or otherwise, may be needed to keep down its price, and I hope Government will be able to see their way to take this matter into their consideration.

"I have to refer on this occasion also, to my friend on the right and to say that in this matter he too, with a degree of kindness which I did not venture to expect, saw his way to give me his support.

"My Lord, I desire to associate myself with my friends from the United Provinces in all that they said with regard to the unhappy and unwise rejection of the proposal for an executive Council for that province.

"In conclusion, I desire to endorse every word that fell this morning from my friend, the Hon'ble Sir Gangadhar Chitnavis, with regard to Your Excellency. In a word, I may say Your Excellency has succeeded in winning the love, esteem and regard, both of Mussalmans and Hindus."

The Hon'ble Mr. Setalvad:—"My Lord, I have now been accustomed for many years in the Bombay Legislative Council on the budget discussion to find member after member getting up and congratulating the Finance Member on his skill, his acumen, his sympathy and every virtue under the sun which they discover in him. Coming here I find the same thing in this Council ; and I suppose I am expected to join in the chorus. But let me assure the Hon'ble Finance Minister that I do so on this occasion in no conventional manner. The task the Finance Member had to perform on this occasion was really a very difficult one and, as my Hon'ble friend, Mr. Surendranath Banerjee has told us, everybody in the country expected that the new budget would bring in fresh taxation. We were all very agreeably surprised with the budget that was introduced when we found that the Finance Minister was able to make his proposals for the expenditure of the year without any fresh taxation at all, and I do hope that circumstances will not so supervene as to force him to have additional taxation in the future.

"Coming to the heads of the budget, particularly referring to that of education in which I take special interest, the budget shows that in spite of the stress and strain of the present circumstances, the budget estimate for 1915-16 exceeds the revised estimate of 1914-15 by 15 lakhs. But the report which the Hon'ble Mr. Sharp supplied us with yesterday is on the whole sad reading. We find there that although the total number of children attending schools in this country has advanced by 737,426 during the period from March 1912 to March 1914, still the percentage of those at school upon those of school-going age is only 19·6, the average for the whole country ; and the situation is still more unsatisfactory when you come to examine the figures with regard to the boys and girls. With regard to the boys the percentage is 32·8 per cent ; with regard to the girls the percentage as shown in the report is only 5·9. Considering the real value and necessity of, education, I do hope and trust that means will be found, if not in this year, in subsequent years, to promote very largely primary

[*Mr. Setalvad.*] [25TH MARCH, 1915.]

education specially and also to push on the interests of all other education. The same report shows, Your Excellency, that although the Government of India were in a position to make available to the Local Governments large amounts to spend on education, as much as 300 lakhs represent the unspent balances. I am quite cognisant that the report makes it clear that this figure does not really represent the actual unspent balance. But the report says that in any event such unspent balance would be at least 100 lakhs. This is certainly very disappointing, and the reason given is that the Local Governments have not been ready with the machinery to utilise the funds placed at their disposal and to give effect to the extension of education that was contemplated; and I find from the report that Bengal and Bombay have been the greatest defaulters in this respect. I do hope therefore that the Imperial Government will in future ask the Local Governments to quicken their pace as regards education, and also to lay down beforehand ready schemes for utilising the funds that may from time to time be placed at their disposal. In Bombay, for instance, on one occasion the Government had chalked out a scheme for three years for opening new primary schools and utilising grants that may be made available for the purpose. Unfortunately that practice was since abandoned and the result has been in Bombay that though funds were made available the Government were not ready with the machinery to give effect to the proposed extensions. I hope this would be impressed upon the Local Governments in future and that they will always be ready with the necessary scheme and machinery for the purpose of utilising the funds that may be placed at their disposal.

"I want, Your Excellency, to associate myself completely with what has fallen from my Hon'ble friend Pandit Bishan Narayan Dar with regard to the attitude of the Indians during the present crisis. They have combined and they have made up their minds to render whole-hearted support to the British Government and to show to the world how loyal and united India is in support of the Empire, and the result is that prophets of evil have been falsified and our enemies have been completely disillusioned; and further the bravery, not only the bravery but the initiative, skill and resource shown by the Indian troops on the field must have been a source of great gratification not only to Indians but to Europeans connected with this country. Your Excellency, as my Hon'ble friend Pandit Bishan Narayan Dar said, all Indians have agreed that the voice of controversy shall be hushed while this war is pending and that nothing shall be done while the war lasts to embarrass Government in any manner or to do anything that might have even the remotest semblance of making terms for their loyalty or for exacting terms for their loyalty; nothing of that sort, all Indians are agreed, shall be done while the war lasts. I may however say that the loyalty of all Indians, particularly of educated Indians, is what has been rightly termed in certain quarters a reasoned loyalty. They are loyal, they have been loyal, and they will continue to be always loyal, because they are fully convinced that it is only under the British Government and under the fostering influence of British administration that they can ever hope to attain in fullness of time that self-government within the British Empire which they look forward to and are entitled to look forward to. Therefore, Your Excellency, if Indians expect that on the termination of the war, which they hope will soon be brought to a successful issue, a definite step forward would be taken in that direction, they are legitimately entitled to expect and hope so; and, as I have said, they expect that to be done, not as any price of that loyalty, not as a reward for their loyalty, but as a thing that justice requires to be done, that is ripe to be done and the time for which is opportune from their point of view. Taking this view, I join again in the observations that fell from my Hon'ble friend Pandit Bishan Narayan Dar and also the Hon'ble Raja of Mahmudabad with regard to the unfortunate step that has been taken by the House of Lords with regard to the Executive Council for the United Provinces. Pained as one is at the action of the House of Lords, one is still more pained at the attitude taken by retired pro-consuls from this country, specially the remarks of Lord MacDonnell, who is reported to have said that Indians have got all that they should be given for

[25TH MARCH, 1915.] [*Mr. Setalvad; Mr. Rayaningar.*]

the present and for a long time to come. I do hope and trust that that does not represent the real responsible opinion of those who are at present responsible for the administration of this country. In that firm belief, Indians do not despair that when the war has terminated, a definite step forward will be taken in the right direction.

"And so long as England is able to produce and send out to this country statesmen of the calibre and sympathies of a Ripon, a Minto and a Hardinge, there need be no reason for despair in the matter. Here, Your Excellency, I may be permitted to join my humble voice in expressing the hope that has been expressed by many members before me, that it may be possible for this country to have Your Excellency for a renewed period and certainly till the expiration of the war."

The Hon'ble Mr. Rayaningar :—"My Lord, the Financial Statement has relieved us from great anxiety. The whole country expected there would be some sort of fresh taxation for additional revenue to fill the void created by the war. It is a great relief to us that no scheme of taxation is in hand, and that the resources of Government, supplemented by the proposed loans, are quite sufficient to carry us through the next financial year too, without a serious check to our normal progress. It is true we cannot provide as liberally for the various progressive departments of Civil administration as we would, but there is no set-back to our development. This is a great point in favour of the present budget, and it is fully appreciated by the people. The Hon'ble Sir William Meyer deserves our best thanks for the admirable manner in which he has managed the finances of Government in these critical times.

"My Lord, cognisant as we are of the extreme difficulty of the situation, we cannot reasonably make any suggestions for additional expenditure next year, however desirable on its own merits such expenditure may be. But it is as well that we should press upon the attention of Government our wants now, so that the Hon'ble Finance Minister may provide for the most urgent among them when happily the finances improve. It is with this idea that I submit for the favourable consideration of Government that the Land Improvements Loans Act, under which loans are granted to agriculturists, should be amended, with a view to widening its scope and the range of the objects for which money may be advanced, and to reduce the rate of interest chargeable for such loans. My friend, the Hon'ble Raja Kushalpal Singh, pointed out to this Council only the other day how the Madras Government strained the law to make advances for the support of rural industries. As a matter of fact, it appears to have been felt by some of the Provincial Governments that the law should be more elastic. It is somewhat curious that provision should have been made for advances for the support of agriculture, but not for the subsidiary industries without which a reasonable degree of agricultural progress cannot be counted on. India is the only country in the civilised world where subsidiary industries do not receive as much attention as they should, and this accounts for the prostration of many a good industry. For instance, sugarcane cultivation is not so profitable in India, whereas it is one of the most paying concerns in other countries, and for the best of reasons. It is not only the quality of the cane grown here which is at fault; it is not even the method of cultivation and the crude process of extraction which make the industry unremunerative. These do, of course, contribute to the net result; but the main reason why the margin of profit is so narrow in the whole sugar industry is that valuable material which could be easily turned into useful commodities is allowed to be wasted. In some of the competing countries the *bagasse*, molasses and the scum are each one of them turned to good account. The scum is converted into one of the most valuable fertilisers; molasses in combination with bran, chaff, etc., serves as an excellent food for cattle, and in combination with chopped *bagasse*, cocoanut, etc., becomes fit for human consumption. Molascuit is one of the growing industries in the West. Distillation of alcohol

[*Mr. Rayaningar.*] [25TH MARCH, 1915.]

is another important industry. And yet all these subsidiary industries are scarcely known in India, and no wonder the principal industry is not paying. The same remark applies to many of the agricultural industries. Thanks to Your Excellency's Government, when a few days back I asked Government if they would consider the desirability of granting agricultural loans for industries subsidiary to agriculture, the answer was in the affirmative. I submit that by an amendment of the Loans Act it should be made possible for the Provincial Governments to introduce these subsidiary industries into promising areas by advances from the State funds. If the object of the Act be to support and improve agriculture, the range of its operation must be expanded, so as to cover the subsidiary industries. Such an expansion would involve increased expenditure, but in the interests of the country it has to be incurred. And I would also suggest that the rate of interest should be 5 per cent instead of 6¼ per cent. The object of Government cannot be to make a profit out of the business, and the debt being secured, the necessity for an extra rate to cover the possible loss of the principal in some cases disappears. The general rate of interest in the country has gone down appreciably during the last few years. Even if the sanctioned rate under the Act was found necessary at the time it was fixed, the same reasons do not exist now. The rate, therefore, should be revised. The concession will be greatly appreciated by the whole rural population, and can be made at a small cost to Government.

"My Lord, I beg to refer to another urgent need of the agricultural population. Government has made provision for collegiate instruction in agriculture, but so far it has admittedly not effected any material improvement in the situation. In my humble opinion, the utility of collegiate education could be vastly increased by initiating a system of primary and secondary education in agriculture alone. Agricultural schools are everywhere wanted, and they cannot be established too soon. And in these schools instruction in the technique of the industry must of necessity be imparted through the medium of the vernacular. In the progressive countries of the West there are special schools for the different industries, and the staff renders a substantial service to the community. The sugar schools of Germany and Louisiana have done a good deal for the improvement of the sugar industry of these countries. It is time therefore Government should prepare a scheme of elementary and secondary agricultural education, even if the initial outlay be somewhat large. India is essentially an agricultural country, and money should be spent liberally for the improvement of its principal industry.

"My Lord. the Hon'ble Sir William Meyer made a pronouncement in Council last year relating to waterways in Bengal. I beg to submit that the question of the improvement of waterways is an Imperial, and not a Provincial, one. They are equally important in every part of the country. It is of great importance to the agriculturists that facilities for the cheap transport of agricultural produce should be provided, and waterways have certain undoubted advantages over railways in this respect. They likewise serve the very useful purpose of irrigation canals. It would therefore be well to have a scheme of waterways for the whole of India, and when it is ready, it can be carried out gradually in the same way as our irrigation works. I believe the waterways will in the majority of cases be found productive. Speaking of the irrigation works I reiterate my prayer for safeguarding the interests of the Tanjore District against the proposed Kannambade project.

"My Lord, if these suggestions affect the finances of Government, I have got one submission to make with regard to railways, which has no bearing whatever upon them. The railways are at present directly to some extent under the control of the Government of India, and the Provincial Governments have no power to deal with even the most trivial matters connected with their management or improvement. This arrangement is at times very inconvenient. A good deal of correspondence and time may be saved if the Provincial Governments have powers delegated to them to deal with railway matters of local importance without reference to the Government of India. If anything, such delegation of powers will result in some direct pecuniary saving.

[25TH MARCH, 1915.] [*Mr. Rayaningar; Mr. Abbott.*]

"My Lord, I fully sympathise with my friends from the United Provinces in their disappointment at the rejection by the House of Lords of the proposal for the creation of a Legislative Council for their Provinces.

"My Lord, I cannot conclude without drawing the attention of the Council to the serious position in the Punjab. When the Defence of India Bill was discussed on the 18th instant, I had not an exact idea of the gravity of the situation in that Province to which the Hon'ble Sir Reginald Craddock referred. Recently I had been to Jullundur, Amritsar and Lahore. I met several leading men of the province. They all feel the necessity of a legislative measure of this kind. Peaceful inhabitants, especially the Hindus, are subjected to acts of violence, and the outrageous offences against life and property have been committed in many cases by apparently respectable people. It is well that the new Act has been put into force in some parts of the Punjab. Had there been any delay in the matter, the consequences would have been very serious I hope the measure, judiciously administered, will have the desired effect and bring to the oppressed the relief which they are so much in need of.

"My Lord, I take this opportunity to express our sense of gratitude to Your Excellency for what Your Excellency, Christ-like in forbearance, have done to promote the interests of Indians in this critical time of the world's history, and I pray that God will prolong your Viceroyalty in this country."

The Hon'ble Mr. Abbott:—"My Lord, I rise to congratulate the Hon'ble the Finance Minister on the prosperous Budget he has presented to the Council and for the lucid and exhaustive exposition he has given.

"At a time like this when the greatest war the world has ever known is devastating and ravaging three-quarters of the world it must be a source of deep gratitude and pride to you, My Lord, and to this Council, to know that we in India are living in comparative safety and prosperity, and that in our bounden duty and all pervading loyalty we have been in a position to give, and have given, both men and money, for King and Country.

"Handsome as our offerings may have been, My Lord, they have not, I regret to say, been on the same princely footing and basis as that of our fellow Colonials. However, I am confident that the demand has only to be made and loyal India will rise as one man and offer to pay the expenses of our Expeditionary Forces in the same way as Canada and Australia are doing. I would go still further, My Lord, and I think I may safely assert that to meet this extra expenditure India would not cavil at a small rise in the salt and income taxes and also on import duties.

"Regarding the embargo on the export of wheat, I hope that the cultivators of Bundelkhand will not be forgotten when ear-marking the profits. Bundelkhand has suffered from failure of crops, famine and drought on an average of every 3½ years for the past 45 years to my personal knowledge. Now, just as they are expecting a bumper crop with a golden harvest it looks as if they are to be disappointed.

"I also, My Lord, beg to draw attention to the great cry for more irrigation in the United Provinces.

"I beg to associate myself with the claim of the Hon'ble Mr Das for an Indian Christian on Your Excellency's Council.

"My Lord, it has become a time-honoured practice with non-official Members of this Council to take this annual opportunity of prefacing in general the needs and wants of the peoples and communities they have the honour to represent.

"As such, and on behalf of the Anglo-Indian Domiciled Community, I beg, My Lord, to tender you and your Ministers our heartfelt and grateful thanks for all that has and is being done for the advancement and betterment of our community. In particular I beg to thank Sir Henry Burt for the oft repeated and timely occasions on which he has come to the help and assistance of the Railway man. Now that he is about to leave India their heartfelt

[*Mr. Abbott.*] [25TH MARCH, 1915.]

regrets go with him, together with their respectful congratulations on the great and elevated position he has been called to;

"To the Hon'ble Mr. Maxwell, Director General of Posts and Telegraphs, whose reorganisation scheme has helped to give promotion from the subordinate to the superior amalgamated Services;

To the Director General, Indian Medical Service, who has improved the status, pay and prospects of the Indian Subordinate Medical Department;

"To the Hon'ble Sir Harcourt Butler, whose generous educational grants, and grant-in-aid policy, has brought education within the reach of the most depressed classes;

"Last, but by no means least, to His Excellency the Commander-in-Chief in India, for opening the long barred gate of recruitment into the British Army to the descendants of European parentage.

"My Lord, whilst expressing the deep sense of gratitude and appreciation of the Domiciled Anglo-Indian Community for all that has, and is being, done for them, I beg to remind Your Lordship in Council that there are several important and imperative disabilities that the community still labour under, principal among these being:—

"*Railways.*—The continued annual importation of what is known as the 'covenanted men' and who are principally appointed as Foremen in Railway Shops, Locomotive Drivers, Permanent Way Staff and Auditors Time was, My Lord, when these importations may have been a necessity, but those times have long gone by. We have in India to-day fully equipped and up-to-date workshops, equal to any in Europe or America. That our community have benefited by these and have advanced with the times there cannot be the shadow of a doubt ; but as proof positive I would assert that I have three personal friends on both State and Company owned lines, whose entire apprenticeship was spent in Railway Workshops in India and who rose to the highest rung of the ladder—Manager of Works. Similarly, with the Locomotive Driver He is every whit as good and as capable as his "covenanted" confrere. This is no sinecure and can be proved from the fact that the Domiciled and Anglo-Indian Driver drove and piloted His Majesty three-quarters of the thousands of miles travelled by His Majesty during his last visit to India. You, too, Your Excellency, have had the same experience throughout your Viceroyalty.

"With reference to Permanent Way Inspectors, our Engineering Colleges in India give ample scope for education and as vast an experience, as apprentices, can be gained on Indian railroads as at Home. In addition to this the Domiciled and Anglo-Indian has to his credit a thorough knowledge of the country, the language and the people and above all is acclimatised and physically fit to rough the climatic conditions of India.

"The same remarks apply to the Audit Branch : our schools and colleges can furnish ample material with the necessary educational qualifications, and the training ground in India better fits and adapts them to conditions in India than the imported or covenanted man.

"*Representation.*—My Lord, I take the liberty of again begging to remind you that the Domiciled Anglo-Indian Community still remain unrepresented in most of the Presidency and Provincial Councils of the Indian Empire. My Lord, all we ask is the extension of this great privilege to our community, the same as is given to our Indian friends of all castes and creeds.

"*Administrative and Ministerial Appointments.*—My Lord, the rapid progress of higher education is daily fitting us more and more for a bigger percentage of these responsible and coveted appointments. India being our home, we naturally aspire and claim to be allowed a fair share of the bulwarks of this vast Empire

"*Education.*—Grateful as we are for all that has been done in this direction, I would respectfully urge that the grant of a few more State scholarships for both girls and boys, tenable in England, would be a great boon to the community.

[25TH MARCH, 1915.] [*Mr. Abbott; Pandit Madan Mohan Malaviya.*]

"Also greater facilities for admission and training in agricultural and technical schools and institutions.

"My Lord, in conclusion, I beg to again thank you, your Ministers and the non-official Members of this Council for the attention, assistance, and courtesy I have invariably received at your and their hands."

The Hon'ble Pandit Madan Mohan Malaviya:—"My Lord, as I have listened to the debate which has taken place to-day, my thoughts have gone back again and again to one who adorned this Council for twelve years, and whose loss has been mourned in this country and beyond it, as the loss of no other Indian of modern times had been mourned before. My Lord, my faith in the future of my country makes me hope that in the generations that are passing through our schools and colleges many a young man will be found who will equal, and, I hope, even excel Mr. Gopal Krishna Gokhale in intellectual power and ability; but, My Lord, none shall excel him in the pure loftiness of his patriotism, in selfless, ceaseless devotion to the country's cause, in the sincerity and depth of earnestness with which he desired the good of his countrymen and the unflagging zeal with which he laboured to promote it. My Lord, to Mr. Gokhale will ever belong the glory of having been the first Servant of India of the noble band of the Servants of India, which he himself organized, who, discarding all personal ambition, take the vow of poverty and self-sacrifice, and dedicate themselves heart and soul to the service of their motherland. My Lord, there is a movement afoot to create an All-India memorial to our departed friend and brother. I have no doubt everyone who respected or appreciated him will contribute towards the completion of that memorial, but I have one favour to ask of all who appreciated Mr Gokhale, and that is that they should adopt a kindlier, a more sympathetic attitude towards questions in which he took a keen personal interest, towards causes which he pleaded from the depth of his heart, even if they cannot accept in their entirety the views which he expressed upon them.

"And in that view, My Lord, I wish to mention two particular questions. One is the question of securing the benefit of that elementary education to the people of India which lies at the root of all economic progress; and the other is the question of fairer recognition of the claims of Indians to a share in the administration of their country. My Lord, the Government of India have recently done much towards promoting primary education, but what has been done is as nothing compared to what remains to be done; and I hope and trust that the impetus which Your Excellency's Government have given to the cause of primary education will grow, and that much larger funds and energy will be devoted to it until education shall become the possession of the general bulk of the people.

"And, My Lord, so far as the question of a larger share for Indians in the administration of India is concerned, I hope that Mr. Gokhale's colleagues on the Royal Commission on the Public Services will, in deciding upon their final recommendations, bear in mind the views which he entertained and expressed, and see if they cannot give effect to them in whole or in part.

"My Lord, the best of reasons make me put forward these suggestions, for there is nothing more calculated to promote friendly feeling between Indians and Englishmen than a generous concession on the part of the latter of the claims of the former to a fair share in the administration of this own country. My Lord, the recommendations of the Public Services Commission will be awaited with great interest and anxiety, and I hope they will be such as to give general satisfaction to Indians.

"My Lord, the Budget before us is a War Budget, in the sense that it is affected by the War. Congratulations have rightly been offered to the Hon'ble the Finance Member for having avoided taxation. I have myself offered my congratulations on a previous occasion, and I do not wish to take up the

[*Pandit Madan Mohan Malaviya.*] [25TH MARCH, 1915.]

time of the Council by repeating them. But there is one circumstance to which I wish to invite attention. It seems to be forgotten that the taxation which the people of India have been paying for the last many years has been very heavy, and that it is that heavy taxation which has produced the financial position which India occupies to-day. Some time ago Mr. Gokhale pointed out that the total additional revenue raised by fresh taxation in the space of twelve years—between 1886-87 and 1898-99—was no less than 12·30 crores a year. Only a small portion of that additional taxation has been remitted since 1903-04, while taxes were imposed in 1910-11 on silver, tobacco and certain other articles. It was thought at the time the last addition was made to the public burden that that was done to meet the deficit which had taken place in the previous year; but that was not so. Questioned on the subject in his evidence before the Royal Commission on Indian Currency, Sir James Meston made this quite clear. Said Sir James :—

'It is quite arguable now, and I think it was quite arguable even then, that for immediate needs that taxation was probably unnecessary, and that we could have got over the crisis of 1908-09 by temporary borrowing. But there appeared at the same time on the horizon a consideration which is not probably before the public. That was the fact that the Government of India knew that very large claims were going to be made upon it under Lord Morley's instructions for the development of a programme of social reform. We knew that a very big scheme of education was in the air and we had estimates prepared in the Secretariat, which have never been published, which indicated the enormous call upon us in the near future. It was the same with sanitation and medical improvement.'

"And he concluded by saying :—

'We also stood by the taxes that had been imposed ostensibly for the troubles of 1908-09, and which are now necessary for the real needs of the country in the near future.'

"My Lord, while we offer our felicitations to the Hon'ble the Finance Member, we might also remember that it is the taxes which have been paid for the last three years and more that have enabled our friend to save us from fresh taxation.

"My Lord, this is not the time to discuss the Budget at any length but there are two or three things which strike me as worthy of the consideration of the Hon'ble Finance Member. The crisis through which we have been passing has shown the great weakness of the position of the Indian cultivator, and indeed of the mass of the Indian people. It has shown that while there is an abundance of food produced in the country, the bulk of the people are often able to purchase it at the price at which it is sold. My Lord, my friend Sir Fazulbhoy Currimbhoy pathetically described the distress of the people who are crying for bread, when they see enormous quantities of wheat being shipped to other countries before their eyes. My Lord, I venture to say that that state of things is the result of a wrong economic policy and an unsound system of taxation which has prevailed here for some time. The whole system of our revenue and taxation requires to be reconsidered. I submit that it is high time that our policy with regard to both the export and the import trade should be reconsidered, and the bases of taxation be readjusted. It is time we reconsidered whether it is not imperatively necessary to so regulate exports of food-stuffs by duties as to prevent the people from being deprived of the food which is grown in the country; in other words, to secure that they should be able to purchase food which is grown in the country at a price which they can pay for it. Unless exports of food-stuffs are so regulated, it must happen, My Lord, that when a poor agricultural country like India enters the world market, it must happen that people with larger incomes will, as they can afford to pay a higher price for food-stuffs which they import than the people of this country can afford to pay. This is the main cause of the great rise in the prices of wheat and other food-stuffs, which has inflicted indescribable hardships on the great bulk of the people. We are thankful to the Government that it has taken the export of wheat into its own hands, for the period of the war. But I hope the Hon'ble the Finance Member will consider whether the time has not come when a regular duty on food-stuffs which are exported, particularly on wheat,

[25TH MARCH, 1915.] [*Pandit Madan Mohan Malaviya.*]

might be imposed, without any real injustice to the cultivator, and with real advantage to the people and the State. Then My Lord, it should also be considered whether the duty on imports might not well be increased. Some members have suggested, the Hon'ble Mr. Abbott among them, that that might well be done. We can make a large additional revenue by increasing the Customs duties Manufactured articles are not such a great necessity for the people. They can afford to do less with them than with the food that feeds their bodies The object of my suggestion is that food supplies should be made more easily available to the people, even though in the matter of imports they may have to pay a little higher price.

"My Lord, a great trouble at present is that the tax on land has been growing. The land is groaning under the burden which it has to bear. Year by year, even in this year of great scarcity, even in years of famine, the land revenue shows an increasing figure My Lord, the cultivators are not able to get enough food to feed themselves and their families; yet the land revenue has been growing steadily year by year during the last 40 years. When, My Lord, will it cease to grow so far as the Government revenue is concerned? It is desirable that there should be more and more produce of food supplies; it is desirable that the cultivators' outturn should increase, but is it desirable that out of that increase, the Government should go on taking as much as it has been taking during the last decades? That is a matter to which I would invite the attention of the Hon'ble the Finance Member."

"My Lord, another question which has cropped up in the discussion is that of our contributions to the war. We have contributed, as one of the speakers has pointed out, roughly about 1[illegible] crores in supplying the Expeditionary Forces. Well, it is not mere gross silver that we have contributed, but we have contributed men, men trained and disciplined, devoted to win and die in the service of the King and the Country And, my Lord, what we have done recently is a matter of satisfaction and a matter for congratulation to Your Excellency's Government, because, in addition to supplying such men as we could send, such men as are demanded of us, we have now helped, I hope, by the arrangement made about regulating the export of wheat, to supply food wherever it may be needed in the British Empire.

"My Lord, the question has arisen in connection with the war, and upon which remarks have been made by several members, namely, what is going to happen after the war? To me it seems it is premature to think of it. But, My Lord, certain events have happened which have pivotted the attention of the public on this question The pronouncements made by Mr. Asquith, by Lord Kitchener and by Mr. Herbert Roberts, that India had entered into the Federation of the Empire, that the angle of vision for looking on Indian questions will change, and that India should entertain great hopes of great developments in future, have fostered a general and wide-spread hope that Indian questions will be considered from a liberal point of view. This feeling, My Lord, whatever the actual results in the remote future may be, this feeling is a great asset in the feeling of the country. The general body of the people hoped that these pronouncements were an earnest of the changes that were going to take place But the action of the House of Lords, in rejecting the proposal for the Executive Council for the United Provinces, has, My Lord, undone to a great extent, if not entirely, these hopes that were entertained. I feel certain, My Lord, that your Lordship's recommendations will be given effect to. I do not feel any doubt in my mind that the English Parliament will see that the United Provinces do have the Executive Council which was promised to them so far back as 1835 by an Act of Parliament. I feel certain that the day is not distant when the Lieutenant-Governor will be relieved partly of the burdens which he has to bear alone. But, My Lord, the mischief which has been done by the action of Lord MacDonnell and Lord Curzon is far-reaching and will, I think, produce a bad effect.

"My Lord, Lord MacDonnell is reported to have said, in this connection, that no section of the population of the United Provinces except an infinitesimally small body favoured the proposals. My friends the Hon'ble the Raja of Mahmudabad and Pandit Bishan Narayan Dar have shown how little truth

[*Pandit Madan Mohan Malaviya.*] [25TH MARCH, 1915.]

there is in that assertion of Lord MacDonnell. But, My Lord, I am sorry to say that that is of a piece with another assertion which Lord MacDonnell made when there was a debate going on in the House of Lords on the question of Indian reforms, when he said that there was not an Indian to be found in the whole country amounting to 300 millions who could be appointed as a member of the Executive Council of the Governor-General. My Lord, the distinction with which Sir S. P. Sinha held the office of the first Indian member of the Executive Council of the Governor General, the ability and distinction with which my friend the Hon'ble Sir Syed Ali Imam has held that office, has shown what little basis there was in the assertion of Lord MacDonnell. My Lord, the country knows, the country at any rate is convinced, that this reform, by which the Indians have been taken, so to say, into the confidence of the Government and into the innermost circle of the Government of India, is of real and far-reaching importance. There was no measure of reform among the many reforms introduced during the time of Lord Morley and Lord Minto which had a more far-reaching effect in that direction than the appointment of Indians on the Executive Council of the Governor General of India. But, My Lord, if Lord MacDonnell and Lord Curzon had had their way, this reform would not have taken place and the Indians would not have had the satisfaction of seeing a brother of their own occupying a seat in the highest Executive Council of the Empire, and Your Lordship's Government would not have had the advantage of the experience and ability of such a member.

" My Lord, in sanctioning a particular proposal of reform like that of the Executive Council, what is really needed is a determination, a resolution on the part of all who are interested in England and India, to readjust our relations somewhat, and to begin to regard each other—I am speaking of those who do not take that view—as really equal fellow subjects of one common King and of one common Empire My Lord, the basis of our brotherly relations, if I may be pardoned for saying so, is to be found in the great Proclamation of Her late Majesty Queen Victoria. It is strange how people sometimes give their adhesion to principles and how in practice they do not like to adhere to them, and even violate them. Lord Curzon, speaking of that Proclamation, said that the famous Proclamation of 1858, the Magna Charta of India, was the ultimate goal of our demands and aspirations. And yet we find Lord Curzon getting up in the House of Lords and opposing the appointment of an Indian member to the Executive Council of the Viceroy and opposing the constitution of an Executive Council for the United Provinces, when he knows that the entire wisdom of the Government of India, for a hundred years and more, pronounced in favour of a system of Council Government for every Presidency prepared for it, when he knows that Madras and Bombay have flourished for a hundred years and more under a system of Council Government, and when he knows that, with the experience derived of the present circumstances of India, Your Excellency's Government recommended a Council Government for Bengal and also for Bihar and Orissa. My Lord, there is a rule that persons who have not lived within ten years in India ought not to be appointed members of the India Office. It seems to me, My Lord, there is much reason in the rule that gentlemen who have been out of India for more than ten years, and who have not kept in touch with the people of India by correspondence or by visits, had better refrain from making pronouncements on the needs of India of to-day. Your Excellency, who is in this country, who has fostered reform movements in different provinces of the country, and who is in touch with the people and with the Lieutenant-Governor of the United Provinces, who is the man working on the spot, feeling the apparent wisdom of his advice, made a recommendation that Council Government should be instituted in the United Provinces. Lord MacDonnell who has been out of India for about fourteen years and Lord Curzon who has not been in touch with India for nearly ten years, take it upon themselves to say that India does not need such a reform. I only refer to this because Lord MacDonnell went on to make an assertion which is calculated to create, and which I fear from the remarks which have appeared in the papers, has already created, a very bad impression. I have referred to the

[25TH MARCH, 1915.] [*Pandit Madan Mohan Malaviya; Rai Bahadur Sita Nath Ray.*]

pronouncements of Mr. Asquith, of Lord Kitchener, and of Mr. Herbert Roberts. As if to counteract, as if to put forward something against, those statements, Lord MacDonnell is reported to have said that all "reasonable demands of educated Indians have been adequately provided for the present and for a long time, and when the time came for a change, it would be better to proceed by dividing the provinces and thus relieving over-burdened Lieutenant-Governors than to give them Councils. Lord Curzon endorsed that view by saying that it would be better to convert Lieutenant-Governorships into Chief Commissionerships He might have gone a step further and advocated converting them into Commissionerships, because, My Lord, Commissioners' divisions are large enough to occupy the attention of one man. I regret to say that Lord MacDonnell and Lord Curzon do not realize what disservice they have done to the cause of progress and reform, and to the cause of the contentment of the people in this country, by making such assertions at a time when the newspapers have been full of discussions as to the possibility of reform movements in the future. As I have said over and over again, My Lord, I do not wish to talk of the reforms that will come. I have faith enough to believe that they will come in their proper time. When the Proclamation of Her late Majesty Queen Victoria was published, Lord Canning was at the helm of affairs in this country, and, My Lord, there is one passage that he published in a Proclamation of his own to which I wish to invite the attention both of the people of my country and of all the officers who serve the Government. In that Proclamation Lord Canning called upon the servants of the Queen, one and all, each in his degree and according to his opportunity, to act with his whole heart and strength in fulfilling the gracious will of their Queen as set forth in the Royal Proclamation, and at the same time, My Lord, he rightly called upon all Her Majesty's Indian subjects to yield loyal obedience to the Queen. My Lord, the words of Lord Canning are the golden key of our conduct.

"My Lord, there is one other matter to which I should like, with Your Excellency's permission, to refer before I finish. I should have personally avoided, My Lord, a reference in to-day's debate to Your Excellency's impending retirement. But as a reference has been made to it by more than one speaker, I hope Your Excellency will pardon me for saying a few words about it. My Lord, I venture to think that of all the British statesmen who have made themselves illustrious as Viceroys and Governors General of India, there is none, in my opinion, who has touched a truer chord of sympathy, none who has enjoyed the esteem and affection of the people of India in a higher degree than Your Excellency. Your Excellency's generous sympathy with the people of India, your love of justice, the trust that you have reposed in them, your earnest desire and endeavour to promote their well-being, their happiness and contentment, and last, though not least, My Lord, the sufferings that Your Excellency has undergone in the service of this country, have endeared Your Excellency to the people of India; and though it would seem to be almost cruel to desire that the period of Your Excellency's office—a period of heavy responsibility which rests upon you as the Head of this extensive Empire at a time of great stress—should be prolonged, yet, My Lord, the faith that the people have learnt rightly to repose in Your Excellency is a factor of inestimable value to the Empire and, therefore, both for the good of India and of England, the prayer which has been addressed to His Majesty the King-Emperor by the Indian National Congress, speaking on behalf of the people of India, will, I hope, coincide with the sense of His Majesty's Ministers of what is demanded by the situation in India and commend itself to His Majesty. And, My Lord, I have hope that, with the lofty sense of duty which Your Excellency has shown in your high position, Your Excellency will be pleased to agree to stay another year or two with a people who hold you in grateful affection, and love and trust you as they have seldom loved and trusted any of your predecessors."

The Hon'ble Rai Bahadur Sita Nath Ray:—"My Lord, the singular ability which the Hon'ble Finance Minister has displayed in tackling

[*Rai Bahadur Sita Nath Ray.*] [25TH MARCH, 1915.]

a peculiar and grave situation and the skilful manner in which he has been able to meet the deficit, without adding, however slightly, to the burden of our taxation, are sure to call forth the unstinted admiration from all alike, and for all this, I beg to offer him my sincere congratulations. In this year of extraordinary stress and emergency, in this year of dislocated trade and finance when a vague but unwarranted sense of insecurity was prevailing in the country and when apprehensions of something grave and unforeseen happening were agitating the public mind, it is well that the Hon'ble Finance Member should have abstained from having recourse to any extraordinary expedient, temporary or otherwise, from meeting the situation and thereby relieved the public mind of a heavy load of anxiety and at the same time, I must confess, that the several bold steps which the Hon'ble Finance Member has taken in this connection have eased the situation and have had the desired effect in reassuring the public mind and restoring public confidence.

"My Lord, I cannot, in passing, abstain altogether from alluding to the very acute situation which arose in Bengal at the outbreak of war when the shock of it was most severely felt, for it was then just the beginning of the jute season and the war nearly paralysed that industry in all its branches bringing suffering to large classes of people in Bengal. The result was that there was a rush of depositors for withdrawal of their moneys from savings banks, and though the efforts of the authorities combined with individual efforts succeeded in partially allaying the public anxiety, the rush continued for some time; and in that state of public feeling, I must say, the Government acted very wisely in allowing every facility to the depositors for withdrawal of their moneys from the savings banks, and it was indeed a very wise, bold, and statesmanlike step to provide facilities, even in district treasuries, for encashment of currency notes, which the Government was not bound to do. However, the indulgence shown and the extreme latitude given had their own rewards, and what was the result? The result was returning full confidence in the stability and permanence of the British Government, and what does the present position of the Government securities and other stocks, such as Municipal and Port Trust debentures, indicate? If it indicates anything, it indicates the growing conviction of the people in the ultimate success of the invincible arms of the Allies over German militarism and barbarism and the triumph of righteousness over unrighteousness. It further indicates returning prosperity and revival of trade and commerce so unduly disturbed in the beginning of the war.

"In this connection I may further mention that the Government of India acted very wisely in prohibiting the issue of gold to the public as it would have given rise to a panic and every one would have scrambled for gold for holding, hoarding, or burying it underground, and the result would have been wide-spread alarm, for Government would have ultimately been obliged to withdraw the concession. How serious and acute the situation was can be realized from the following quotation from the Hon'ble Finance Member's speech:—

'The price of raw jute necessarily showed a great drop from the record figure (R90 per bale of raw jute) obtained in the preceding year, falling as low at one time as R31 a bale. But the initial paralysis of the internal trade is clearly indicated by the fact that whereas between August and October 1913, the issue of rupees from the Calcutta Currency Office in connection with the financing of the jute crop amounted to some thirteen crores of rupees, the issue in the corresponding period of 1914 was about fifty-six lakhs only. And this at a time when the crop was a record one. This state of things brought hardships to all engaged in that trade, but specially to the poor ryots. The position has since then generally improved, but not to the extent as anticipated as the winter rice crop has not been up to the average mark'

"In this connection I cannot refrain from mentioning the several wise precautionary measures that were taken from time to time in Bengal and specially in Calcutta by our popular and much respected Governor and his Government in allaying public anxieties and in ensuring public safety.

"My Lord, as regards the main features of the Budget, I wish to make a few remarks only. There is a deficit in the current year as shown in the

[25TH MARCH, 1915.] [*Rai Bahadur Sita Nath Ray.*]

revised estimate instead of a surplus on the Imperial side, and Imperial and Provincial figures taken together show a somewhat larger deficit in the revised estimate than what was anticipated in the Budget estimate. In the forecast of the coming year there is also to be a deficit. 'All this,' to quote the Hon'ble Finance Member's words, 'is, speaking generally, entirely attributable to the war, and more especially to the decrease in the two large sources of revenue which have been so severely affected by the consequent dislocation and depression of trade.' Not only on Railways and Customs but on almost all the earning departments of the Imperial and Provincial Governments the war has left its marks. The Budget for 1915-16 has been forecasted in consideration of the same conditions prevailing in the next year. We have not only to meet the deficit but there is also the other important head of capital outlay which has also to be met. The Hon'ble Finance Member has shown us how he has met these demands in the present year and how he intends to meet all the demand upon his purse in the forthcoming year. I should like to say a few words on the general line of policy which the Hon'ble Member has adopted in his Budget statement to meet his demands in the next year. There is, I see, a considerable curtailment of expenditure in some of the heads. The effects of this policy of retrenchment are largely visible in the following heads: expenditure for special grants, education, medical, etc., railway expenditure and Delhi expenditure. As regards the former the Hon'ble Finance Member says: 'The large balance still in hand is in considerable measure due to the fact that we have found it necessary in existing circumstances to debar local Governments from drawing on their balances with us during the coming year beyond an aggregate amount of about one million.' There has been also considerable curtailment of railway expenditure and Delhi expenditure.

"My Lord, while on this railway head, I am glad to mention here that the Sara Bridge, now associated with Your Excellency's name, is an accomplished fact, which will go further to promote the development of the great jute and tea industries of North and East Bengal and of Assam. This subject of railway communication naturally reminds me of another subject which is closely allied to it, and is so regarded by the Governments of all other civilised countries. But the subject has never been treated in that light by our own Government. The splendid natural waterways of this country, especially of Bengal, to which I alluded in my last budget speech, are a valuable asset. I again invite the attention of the Government to look upon these splendid natural waterways as necessary adjuncts to railways. Not only trade and commerce but sanitation would also derive considerable advantages from their improvement. The improvement of the numerous waterways which intersect the country is beyond the scope and resources of the local Governments, and so I earnestly entreat Your Excellency's Government to take up this subject as a matter of Imperial policy and concern. In this connection I cannot refrain altogether from prominently drawing the attention of Your Excellency's Government to the very useful project generally known as the Grand Trunk Canal Scheme in Bengal formulated by Mr. Lees. I believe the scheme has been referred to the Imperial Government for sanction, and I hope that the carrying out of this well thought out scheme, while improving the waterways and thereby facilitating the development of the internal trade of Bengal, will be associated with Your Excellency's name by giving early sanction to its execution.

"My Lord, now coming again to the policy of retrenchment which I have stated already, I may say that there is a limit to this policy. We have come to a stage when this policy cannot be pushed much further, as I see that every day there is an increasing interest and demand for further development and progress and consequently further expenditure for material and social improvement. The question then comes to this, how we are to increase our income to meet our ever-growing demands? The answer is that we must have recourse to either borrowing or taxation. The Hon'ble Finance Member has taken the former course, and gives his reasons in the following words: 'We do not propose on this occasion to raise any money by increased taxation. We should not hesitate to do so to meet the deficiency in revenue which promised to be of a

[*Rai Bahadur Sita Nath Ray.*] [25TH MARCH, 1915.]

more or less abiding character. But the present circumstances are altogether peculiar. We know that ordinarily we can count upon surpluses. India, too, has a very small unproductive debt, and with trade conditions depressed and the present rise in food prices in a large part of the country, we have come to the conclusion that we ought not to add to existing taxation unless it is absolutely necessary. We hold that this necessity has not yet arisen.' My Lord, the circumstances are no doubt peculiar, and no one knows when normal conditions will return. Even if they arrive sooner, we cannot, in my humble opinion, rely on this loan policy nor can we count upon our ordinary surpluses, for they may not appear for some years to come. As the Hon'ble Finance Member says: 'We must also remember that when the war is ended some of its effects may endure for some time to come, and in particular we shall then have to face the question of dealing with the temporary debt which we are now accumulating.' Then again, there is an ominous warning in the words of the Hon'ble Finance Minister when he says: 'We have not proposed additional taxation to make good deficits which we hope will prove temporary only; but as I have already said we should not hesitate to do so if it appeared that our permanent revenue position was seriously threatened.' I also wish that our deficit may prove temporary only. But, My Lord, I have very grave doubts on this point, when I consider that our agricultural prosperity on which depends everything else, is susceptible to external influences in the extreme; that we cannot have any more windfalls from the opium revenue; that the effects of the war, as the Hon'ble Finance Member says, may endure for some time to come even after the cessation of it, which will greatly influence our financial position; that there is an ever increasing demand for social and material improvement. The whole course of events and the gist of the Hon'ble Finance Member's speech point to the direction from which we can expect help. The Hon'ble Finance Minister says that we should not hesitate to do so (to have recourse to taxation) if it appeared later that our present revenue position was seriously threatened. My Lord, no one knows when this critical situation will come. In these abnormal times and exceptional circumstances, it may come sooner, after all. We ought to be ready beforehand to meet this eventuality. Then, My Lord, I shall try to prove why this loan policy cannot, on its own merits, be a successful one in the present abnormal situation. I admit that 'the public debt of India represents productive outlay normally yielding a return far in excess of the interest which she has to pay on the amount borrowed; sufficient indeed to cover also the interest on the small margin of debt which can be described as unproductive and still to leave an ample margin.' I admit that 'we raised 5 crores in the current year and with great success' but that was before the war, when the circumstances were entirely different. The Hon'ble Finance Member also holds this view. We have to remember this peculiar situation in connection with the floatation of our loan in the forthcoming year in India. Then as regards our borrowing in England, the Hon'ble Finance Member said last year: 'An increase in rupee borrowing is justified not merely by the general conditions which prompt every country to keep as much of its public debt as possible in the hands of its own people but by the fact that of late it has become more economical to borrow in India than in London.' If such was the case in normal times, I do not understand what hope is there that our future loans would be successful and economical in the exceptional circumstances now prevailing in England and which are sure to continue for some time to come. In another place the Hon'ble Finance Member says: 'I recognise, too, that the circumstances prevalent in July, when we usually float our loans, may prove so unpropititious that we may find it desirable to have recourse to other methods for raising either a part or the whole of this amount.' In connection with the raising of this loan I beg to suggest that the time has come when it would be extremely desirable and politic in the interest of the people of this country that future loans should be raised at the rate of 4 per cent. I may give an instance of the bad effects which followed the policy which led Sir J. Westland to reduce the rate of interest from 4 to 3 per cent and the result was that the Government securities which are quoted at the rate of 3 per cent became an unsaleable commodity in the market, and it is now no longer a marketable commodity. I therefore quite agree with

[25TH MARCH, 1915.] [*Rai Bahadur Sita Nath Ray; Raja Kushalpal Singh.*]

the Hon'ble Mr. Dadabhoy that future loans should be raised at 4 per cent, which will go to induce the people of this country not only largely to invest in Government securities, but at the same time go to inspire confidence.

"In conclusion, I beg to associate myself with the words which have fallen from the Hon'ble Sir Gangadhar and the Hon'ble Mr. Banerjee about the undoubted claims which Your Excellency has established upon the gratitude of my countrymen; for Your Excellency's kind and sympathetic administration, for Your Excellency's kind sympathies with the hopes and aspirations of the people entrusted to your charge, and for the various ways in which Your Excellency has tried to foster education, sanitation and, may I add, self-government; and, lastly, for the unflinching faith and confidence Your Excellency has under all circumstances shown in the loyalty and good sense of India, and the way in which they have been utilised; and as such I must say that we sincerely share the regret which has been expressed on all sides at the approaching departure of Your Excellency, but we sincerely trust and pray that His Imperial Majesty will be graciously pleased to give due effect to the united prayer of a whole nation, by extending the term of your exalted office until such time at least as the war lasts."

The Hon'ble Raja Kushalpal Singh:—"My Lord, it is but the barest justice to the Hon'ble Sir William Meyer to mention that the Budget under discussion is an agreeable surprise to us. Within a short time after declaration of war between Britain and Germany, it became evident that we would have to face a heavy deficit both in the current and in the coming year, and that our finances would stand in urgent need of replenishment. In view of the exceptional conditions, the popular belief was that additional taxation, of a temporary nature at least, would be unavoidable; but through wise management, which does credit not only to his head but to his heart as well, the Hon'ble Sir William Meyer has spared the country a pecuniary sacrifice for which it was prepared. And yet the absolute needs of good government have not been overlooked. It is doubtless possible to suggest alterations in the Budget allotments according to our views of the relative importance of the different heads of expenditure, but they would involve controversial questions of policy which cannot be profitably discussed now.

"On the whole, the Budget inspires confidence as much in the financial strength of Government as in the ability of the Hon'ble Finance Minister to carry us through these difficult times with the minimum of inconvenience.

"My Lord, the Hon'ble Finance Minister will not think I am wanting in my appreciation of the provision he has made even at this time of difficulty for the extension of irrigation, both productive and protective, in my province as also for minor works, if I press the claims of the United Provinces for further allotments.

"But these are minor matters The great need of the Province is liberal Imperial grants for Education. The Hon'ble Finance Minister, in justification of the reduced programme of expenditure for Education, has referred among other things to the inability of the provinces to spend in full the non-recurring Imperial grants. But his conclusion must be based upon the experience of Provinces other than the United Provinces. So many schemes are ready that no difficulty can justly be apprehended on the score of the inability of the department to utilise a heavier allotment.

"My Lord, one more observation on a subject of local interest. The adverse decision of the House of Lords, as regards an Executive Council for the United Provinces, has been received with keen disappointment by the local public. Nobody ever thought the subject was anyway controversial or that there was any doubt about the policy of Government. We have all along hoped, and our hopes have been encouraged and confirmed by the sympathetic pronouncements of Government, that the Province would get the Council form of Government in a short time. We do not blame this Government for the

[*Raja Kushalpal Singh; Sir William Meyer.*] [25TH MARCH, 1915.]

result. Indeed, the Government of India have been so earnest about the reform that a sum of Rs. 1,19,000 is allotted in the present Budget for an Executive Council for the United Provinces. But what we do complain is that the House of Lords should have intervened at the last moment to thwart an administrative reform to which the people justly attach great importance and about the utility and expediency of which this Government, with all the facts in its possession, is fully convinced. We sincerely trust the sound views of the Government of India will yet prevail, and this reform will be further pressed upon the Secretary of State as one which should be adopted at once in the interests of good government.

"My Lord, one matter of vital importance to the whole of India demands close scrutiny at the hands of Government. For the last few years the people have realised more and more the absolute necessity of a rapid extension of feeder railway lines, known as Light Railways, not only for the economic development of rural areas, but also for the safe and profitable investment of their savings. The encouragement so far given by Government to them has been productive of excellent results, and with the success of some of these lines the prospects of this class of private enterprise have brightened. The popularity of the railways is distinctly on the increase. But these factors appear to have excited the jealousy of the foreign companies working the trunk lines, and a movement seems to have been started by them for securing a monopoly of the feeder lines also. The most influential among them—the East Indian Railway Company and the Bengal-Nagpur Railway Company—according to the latest information, are seriously contemplating forming auxiliary companies for the floatation of schemes of feeder lines to those two trunk systems. This is most unfortunate, and the people look up to Government for arrangements, reserving for them this class of investment and enterprise. When we are anxious to participate in railway enterprise, there is no reason why we should not have as of right at least one class of railways in which we may have scope for our activity. There is nothing in principle to justify the existing arrangement under which the fate of a scheme started by a private company in India should be dependent upon the good-will and sanction of a powerful competitor like the big Companies managing the trunk lines. The subordination of our interests to those of foreign Companies is neither economically nor politically sound. I submit, My Lord, an early and sympathetic decision by Government on this subject is needed to satisfy public expectations.

"My Lord, the appointment of our colleague, Sardar Daljit Singh, to the India Council must be agreeable to landholders as a class all over the country. It has also the merit of giving effect to the principle embodied in the Parliamentary Bill for the reconstitution of that Council. For the first time has an elected member of the Imperial Legislative Council been selected to serve on the highest Executive Council. Apart from the question of the personal merits of the nominee, the selection should on this ground alone be acceptable to the public.

"My Lord, one more submission, and I have done. Your Excellency has come to be trusted and loved by the people; we have firm faith in your untiring industry for our good; we are safe under your protection. Self-interest accordingly pompts us to hope that, even though an extension of service may be personally disagreeable and inconvenient to you, Your Excellency will not leave the country you have loved so well until the clouds of war have completely passed away. We have fervent hope that His Imperial Majesty will be graciously pleased to consult the wishes of his Indian subjects and to allow India the substantial benefit of Your Excellency's sympathetic guidance till the war is over"

The Hon'ble Sir William Meyer:—"My Lord, I said in my speech in introducing the Financial Statement that the Budget for the coming year was framed by us under circumstances of peculiar difficulty and uncertainty. It is therefore a matter of sincere gratification to me, both on behalf of Your Excellency's Government and for myself in particular as Finance

[25TH MARCH, 1915.] [*Sir William Meyer.*]

Member, to find that the way in which we met the difficulties that confronted us, the manner in which we faced the situation without recourse to drastic cutting down of expenditure on the one side or the imposition of taxation on the other, has met with general approval throughout the country and that this has been so eloquently and unanimously voiced by our non-official Colleagues in Council. I think, too, that I may claim the same meed of approval for the special action taken from time to time by the Finance Department from the beginning of the war crisis. I thank my Hon'ble non-official Colleagues who have spoken for the very kind way in which they have referred to me personally; and it adds to my gratitude that I have not much to say in the way of a reply to criticisms, for I do not propose to travel outside matters that are cognate to the budget. This, My Lord, is a sort of recognised oratorical saturnalia; every member speaks of the things that are near to his heart; but as the Finance Member is also under a time limit he cannot be expected to follow all these devious paths and must keep to what actually belongs to his budget.

"Nor can I consider what the Hon'ble Mr. Banerjee and others have invited me to do; I cannot deal with what is going to happen when peace and plenty come back again—as I trust they will ere long—when that time comes we shall have to consider what we can do with, I hope, our abundant cash. In the meantime I am not going to be seduced by eloquence from Bengal or elsewhere into making any premature promises. I would only add a word of caution—that the end of the war is of course not necessarily the beginning of a new financial era; there will be a great deal of ground to make up and there will be also a good deal of temporary debt to defray.

"I will, however, make one exception to the rule I have laid down for myself. The Hon'ble Mr. Das pleaded for a member in this Council to represent the Indian Christian community. Well, although the Hon'ble Member specifically represents another constituency, he also represents the interests of his co-religionists so well that I wondered why this request was made, but, after a little cogitation, I think I have got the right reason. I have noticed on several occasions that the rigour of the time rule has brought down the guillotine on the Hon'ble Member when he was in the full flow of his eloquence. It is probable that if he could get a Colleague after his own heart, a brother of his soul, who might sit by him, he would, when the guillotine descended, pass on his manuscript and notes, and so the speech could be delivered in an entire form!

"The same Hon'ble Member complains of the want of special budget provision for the education of Indian Christians. Well, it is not usual to make special provision in budgets for education according to sects, but I must say I was a little surprised at this complaint of the neglect of his class, because I have always understood that the Indian Christian was exceedingly well-off for educational institutions, thanks to the activity of Missionary bodies for example, whose schools and colleges are largely subsidised by Government. And if my friend will look at actual results, he will find that the Indian Christians stand very high indeed in the educational scale.

"The Hon'ble Sir Gangadhar Chitnavis, Mr. Dadabhoy, Mr. Marshall Reid and Sir Fazulbhoy Currimbhoy dwelt on what I have said in regard to the possibility of borrowing in India next year. Well, I can only repeat here what I said in my speech on the Financial Statement that we hope to get 3 million pounds in India some way or other. We recognise that the circumstances are peculiar, and we must reserve to ourselves the consideration of the particular way in which we shall endeavour to do this. It would be quite premature to consider that matter now. The circumstances of the market, the circumstances of the political world, may have entirely changed before the time at which we usually bring out our loans. But I can say one thing in regard to what these Hon'ble Members have said, that of course the Government, in making any arrangements for next year, will have in mind, as far as possible, the safeguarding of the interests of the people who are in possession of existing Government securities. It would be very bad business on our part to do anything wantonly to depreciate our own paper, and we shall therefore take that

[*Sir William Meyer.*] [25TH MARCH, 1915.]

fact fully into consideration. I shall also keep fully in touch with commercial opinion through the Controller of Currency, Mr. Howard; and I am myself going down to Bombay presently. I think it is quite likely, though I cannot pledge myself yet, that when the time is more advanced, if things still seem difficult and uncertain, I may follow the example that has been urged upon me, that of Mr. Lloyd George, and, with Your Excellency's permission, have an informal conference with some representatives of the banking and commercial community. As I say, however, I cannot make any definite statement on that point yet. But I do hope that, if we have such a conference, the Bombay representatives will show themselves a little more courageous than my friend Mr. Marshall Reid. Mr. Reid commenced his speech by saying that although he accepted an eight million railway programme in the special circumstances of next year, as soon as things got normal again he was going to press not for a 12, but for a 15, million pound programme. That means, of course, extra borrowing, and I thought that Mr. Reid would go on to say that Bombay would help to find the money. Not so; he says 'provide more money for railways by all means, but for heaven's sake do not ask us to lend it to you; get the coin from somebody else.' Well, to those who ask Government to raise more money for capital enterprise I say that there must be two sides to every bargain, and if they want the Government to move they must do something to meet the Government.

"The Hon'ble Mr. Dadabhoy made some very interesting remarks about Post Office deposits and said that we should increase our present rate of interest. Well, our present rate of interest is 3 per cent, which is more liberal than what the Home Government gives and I think it is quite liberal enough as compared with our present borrowing rate. As we borrow in the open market at 3½ per cent, Mr. Dadabhoy would like us to pay 3½ per cent for our Post Office deposits also. But obviously there is all the difference in the world between the interest you pay for a loan which you do not have to repay except when you want to, and the interest which you pay on money which you have to pay out on demand, and which, as the circumstances of this year have shown, you may suddenly have to pay out to a large and inconvenient extent.

"The same Hon'ble Member was eager for more statistical information as regards education and sanitation, and epecially in regard to the expenditure of grants and so forth. Well, I endeavoured to give this in my last year's Budget speech as far as I could do so in a general way, and if my Hon'ble friend will refer to paragraphs 43 to 48 in my speech of last year he will find that I brought certain figures together. But when Mr. Dadabhoy asks for the same sort of information as is furnished by the Secretary's memorandum in respect of capital railway outlay, he must remember that in respect of capital railway outlay we are dealing with large projects of limited number which are entirely under our own control. Now as regards the outlay on education and sanitation, grants go from the Government of India to the Provinces, and the Provinces also make their own allotments from provincial funds. As these grants flow to the people through a vast variety of different channels, it would be quite impossible to have a statement showing expenditure on education and sanitation in the same way as expenditure on railways.

"The Hon'ble Mr. Malaviya made some interesting remarks on export duties and import duties and Mr. Ghuznavi professed an ardent desire to pay more income tax. Well, these suggestions may prove useful if the time ever comes when we have to increase taxation, but I need not discuss them at present as we have decided not to do this now.

"The Hon'ble Mr. Malaviya referred to the taxation that was imposed in 1910, and said that it was that taxation that enabled the present Government to meet the existing crisis without putting on fresh taxes, implying that that taxation was imposed before its time. Well, that question was thoroughly debated at the time, but it will interest the Council, perhaps, to learn that the proceeds of that extra taxation come to about £1 million, and if Hon'ble Members will refer later on to that portion of my last year's speech to which I referred just now and look at paragraph 46 about grants to local Governments,

[25TH MARCH, 1915.] [*Sir William Meyer.*]

primarily for Education and Sanitation, they will find that besides large non-recurring grants we gave exactly a million pounds of permanent contributions to local Governments between 1911-12 and 1914-15 so that that may be taken against the extra taxation imposed in 1910. And of course there is another thing to be remembered on the other side, that we have lost about 3 million pounds recurring revenue under opium. So, although I should be the last person to belittle anything my predecessors have done—in fact, I think I tried to acknowledge their merits in the matter of finance very specially in my speech introducing the Financial Statement—still I do not think it can be fairly implied that we are entitled to no particular credit for not having imposed taxation this year because of the taxes imposed in 1910.

"The Hon'ble Pandit also referred to the land revenue and asked, why is the land revenue not coming down; and why is it going up? Well, that is a matter of course for my Hon'ble Colleague Sir Robert Carlyle rather than for myself, but I may say that land revenue naturally expands with the increase of cultivation. As regards the actual rates of land revenue, there was a very interesting enquiry, which the Hon'ble Pandit no doubt remembers, instituted by Lord Curzon about the year 1902, I think, and there are further discussions on the subject in the Chapter on Land Revenue in Volume IV of the Imperial Gazetteer.

"I think the Hon'ble Member will find there that, relatively, so far as the proportion which the Government takes, in comparison with the actual takings of the cultivator is concerned, the land revenue has not increased; it has decreased.

"The Hon'ble Raja Kushalpal Singh is very anxious about Feeder-line Companies. The Feeder-line Companies, I think, have shown their capacity to look after themselves. To my mind they are one of the most welcome features of the economic development of this country in recent years. You have got companies financed by indigenous capital opening out the country and earning a good rate of interest. And even during the present difficult circumstances, money is going on being subscribed. But the Hon'ble Member seemed to think that there was great rivalry between the feeder lines and the main lines. We had some correspondence with the Secretary of State on that subject not so many months ago, and the decision come to was that there was room for both. We came to the conclusion, and the Secretary of State entirely agreed, that there was room enough for various sorts of legitimate railway enterprise, and that the feeder companies were not suffering at all.

"The Hon'ble Mr. Surendra Nath Banerjee criticised the grant of time-scale allowances to Indian Civil Service and Police officers, and in so doing he also voiced an amount of criticism that I have seen in the press, for I can assure my Hon'ble friend that I do read the newspapers, including his own paper, the 'Bengalee.' I read his leading articles for political instruction, and I derive amusement from the letters of his London correspondent. I should like to explain more clearly what has happened in that matter. As Hon'ble Members will realise, there are two ways of paying the rank and file in any service, apart from the selection appointments at the top. You can have what is called a 'time-scale,' that is, a man gets so much on joining, and then his pay increases year by year—or it may perhaps be every two years or so; but it increases regularly by certain increments, provided, of course, he continues to do his work satisfactorily. As opposed to that, you may have what I may call a 'promotion scale.' Here there is no time-scale, but there are a certain number of grades and a certain number of posts in each grade. These carry specific rates of pay, and an officer's attaining to a particular grade or class does not depend directly on the length of his service, but has a certain amount of luck about it. It depends on the extent to which his seniors retire, or die or take leave, for leave gives him temporary promotion. Originally most of our big services were dealt with in this way, but of late years we have in a number of cases found the time-scale a more convenient method of payment, that is to say, for the rank and file; and many of the great services, Public Works, Education, Forests and so on, have been put on to a time-scale.

[*Sir William Meyer.*] [25TH MARCH, 1915.]

On the other hand, the Indian Civil Service and the Police remain on what I have called the promotion-scale. Well then, what is the result in a time like this ? It must be remembered that, even though you have a promotion-scale, you must have some sort of normal expectation of how things will go, not in any particular year, but throughout a period of say two or three years taken together. For instance in the Indian Civil Service, we carefully work out every year or so, with reference to recruitment, what the normal state of promotion ought to be. It has been recognised again that, an Indian civilian ought to be able to attain to what is called a superior appointment in a given period of time, and so on. When you have got an abnormal time ; when promotion is unduly blocked ; when, as the juniors would put it, people who ought to go, won't go ; or, as the state would put it, deserving officers remain on instead of retiring and on the top of this, leave is restricted or stopped, you get an abnormal block in a promotion-service. On the other hand, it does not affect a time-service at all, except to the minor extent that the top places which have special rates of pay may be filled more slowly. But apart from that, you may recall every man on leave and the juniors would still get their old rate of pay. When you get a promotion-scale and things are materially disturbed, that is to say the state of promotion is much slower than the normal rate which has obtained in past experience and tradition, it is not merely the existing members of the Service who suffer, but, unless something is done to remedy it, recruitment suffers; the calibre of your service is diminished for the future. We have had cases of that sort in the Indian Civil Service from time to time. I remember when I first came out in the early eighties, there was a block in promotion in Madras, and also in the United Provinces, which had led to the application of a minimum time-scale there. (I shall explain directly what this minimum time-scale exactly is.) Well in 1913, just before I joined the Government of India, it had been decided that there was again such an abnormal block in promotion, owing to people not being obliging enough to retire or die according to actuarial calculations, and also, to a certain extent, to over-recruitment during a series of years, that the Civilians in the United Provinces, the Punjab and the Central Provinces were getting far lower salaries than they had a right to expect, having regard, to the normal conditions of promotion for many years past. The Government of India, therefore, with the consent of the Secretary of State, gave what is called a minimum time-scale ; that is to say, they said that every man who had done a certain period of service should draw not less than a certain amount. But this minimum was not at all what the man would have drawn normally ; it was materially less than his normal expectation ; it was a certain *solatium* because it was thought unjust to the men themselves to undergo this sudden dislocation of their prospects without any palliative, and also, as I have said, because acute discontent in the service, which was thought to have some justice at the back of it, would re-act at home and prejudice future recruitment. Then, later on, the Government of Bombay asked for a similar application of the system to their Presidency and I would ask my Hon'ble friend to remember that the Government of Bombay contains as one of its members an Indian gentleman who had no previous connection with our Government services. Then came the circumstances of the present war, and it was thought desirable to recall officers from leave. They answered to the call most loyally, a great many of them, at very considerable personal loss. Many of them willingly surrendered leave they urgently required for the purposes of health and recuperation. The result of this was that all the normal expectations of acting promotion were disturbed, and after consideration, the Government of India, last autumn, thought it desirable that here again we should apply a minimum time-scale, which would be, as I say, a partial compensation, but would in no way be the equivalent of what the beneficiary would ordinarily be drawing in normal circumstances ; and that was necessarily applied to the whole of India. Then, after we had got the consent of the Secretary of State to that action in regard to the Indian Civil Service, we got his consent to similar action in regard to the Police. Of course it is open to any Hon'ble Member who does not agree, to argue that we might have done it for less and so on. But I do want the Council

[25TH MARCH, 1915.] [*Sir William Meyer ; His Excellency the Viceroy.*]

to understand that our action was taken deliberately and with reference to what we thought the best interests of the country, having regard not merely to present members of the Services, but to the effect on future recruitment.

" I was sorry to hear the Hon'ble Mr. Abbott say that he thought India had not done enough in connection with this war, and compare our action with that of the Dominions, somewhat to the discredit of India.

" The contribution of India has not been limited to the amount of money we have given, substantial though that is compared to our resources, for I may bring to notice that without this contribution there would have been no deficit in 1914-15 and 1915-16 taken together. As my Hon'ble friend Pandit Madan Mohan Malaviya so aptly observed, we have contributed what is far more precious than silver and gold ; we have contributed men. As Your Excellency observed some time ago in this Council, India has placed at the service of the Home Government in various parts of the world some 200,000 men, trained soldiers, whereas the forces of the Dominions, splendid fellows as they are, were, at the beginning of the war, largely untrained. India has not only done that ; she has supplied munitions of war to a large extent to His Majesty's Government from her factories and from her arsenals ; she has helped in supplying horses and mules ; she has given to the full of what she possessed. And how was this possible ? Because for many years India had been paying heavily for a splendid Army which was entertained, and necessarily entertained, for the defence of India. Well, India had been maintaining this Army long before the Dominions thought of doing anything, to speak of, in the way of military expenditure ; and at the present period of stress, India placed a very great part of her Army which was, as I have said, primarily raised for other purposes, at the disposal of His Majesty's Government. I cannot claim, of course, in any way to speak as a military expert, but I think I may say that the value of the Indian contingents who have done so splendidly in this war, the value of the Indian supplies of munitions of war, and so on, will prove to have been of most material assistance in determining the present campaigns. Besides that, there were the splendid offers from the Indian Chiefs to whom I referred in my speech on the Financial Statement, and I would like to add now the name of His Highness the Maharaja of Jaipur, who has since given 5 lakhs. My Lord, I do not want to be thought to belittle the Colonies in any way ; but I love the people of India (Hear ! hear !) I have served here for a generation and I cannot bear anybody to belittle India (Hear ! hear ! and applause), and to speak as though the part played by India in the war and her contribution to it, were in any way inferior to that of other parts of the Empire.

" I have nothing more to say, my Lord, except to express the hope that no unforeseen and untoward circumstances will cause any material reconsideration of the estimates we have made."

His Excellency the Viceroy :—" We are now approaching the close of another session of this Legislative Council, and before we disperse I would like to say a few words upon the budget and other matters of general interest.

" As regards the memorable budget which has been under discussion this session, it is a matter of much satisfaction to me that all its important decisions —those for example relating to taxation, capital outlay and borrowing—have commanded practically unanimous acceptance both inside this Council and beyond it. The imposition of additional taxation at the present time would not in our judgment have been justified, either by financial requirements or by the present economic condition of the country, and our attitude in this matter has, I think, been thoroughly understood and appreciated. As regards capital outlay, we have had to strike a mean. At a time like this, material development must inevitably be retarded. But our capital programme is an integral part of India's financial system, and must be maintained on a scale bearing some reasonable relation to past standards, if excessive hardship and

[*His Excellency the Viceroy.*] [25TH MARCH, 1915.]

dislocation are to be avoided. Our borrowing arrangements naturally follow from the conclusions on these two points. We are fortunate in being able to see our way to carrying them through without straining our credit, or drawing to the full on reserves which may afterwards be required to meet the many contingencies of another year of war.

"Sir William Meyer's most interesting recital of the financial events of the war period brings out convincingly the inherent soundness and strength of India's financial position, and this has been recognised in every quarter. It is quite true that our revenue has suffered and that our resources have been depleted in other ways. This must be expected in a country whose fiscal system is so directly responsive, under almost every head of revenue, to fluctuating economic conditions, and whose Government performs so many financial functions besides that of looking after its own balances. We undoubtedly undertake in this country some heavy financial responsibilities, some indeed from which other Governments, the Home Government for example, are exempt. But we are in a position to say to-day, after eight months of war, that these responsibilities have been fully discharged, and that the strain which was thrown on us at the outset has now sensibly relaxed. At the same time we realise fully that another year of war must bring with it many unknown possibilities; and if further burdens are thus thrown upon our finances we are not unprepared to meet them.

"I turn now to the economic questions which have recently engaged my attention and that of my Government. The principal question under this head has been the high prices of wheat. When I addressed you at the beginning of this session, we had already restricted the exports from December to the end of March to a fixed quantity, in order to secure that only a limited proportion of the surplus remaining over from the old crop should be exported, and we had also taken powers to inquire into the existence of stocks, and, if necessary, to take over such as might be unreasonably withheld. The inquiries conducted by local Governments showed, however, that such stocks were not in existence, and further action in this direction could have had no good effect. It was, therefore, apparent that the only possible policy was to do what we could to relieve distress by cheap grain shops and the like, and to await the effect on prices of the new crop which usually begins to operate some time in February. World prices, however, continued to rise, and it became necessary in the interests of the Indian consumer to take steps which would ensure the effect of the new crop making itself felt as soon as possible. No ordinary measures would have sufficed, and the urgency of the situation called for decisive action We accordingly issued the announcement that all private export of wheat would be prohibited on and after the 1st April. Our object was to ensure that as supplies of the new crop, which, I am glad to say, promises to be one of the finest on record, began to be marketed, they should be used to relieve the undoubted shortage in India instead of being attracted to other countries by the high prices prevalent in the markets of the world. The results of this announcement were immediately beneficial and prices promptly declined to a more reasonable level. At the same time we have not neglected our responsibilities to the cultivator and to Indian trade. There is every sign that there will be an unusually large surplus this year available for export, and while we intend to keep export under our own control in order that prices may not be driven up again by sudden and excessive exportation, we are equally desirous of allowing our export trade to be carried on, so far as is compatible with the interests of the Indian consumer. I trust that this double object will be achieved by the scheme which has already been laid before Council in a recent debate. Under this scheme we shall keep the control of purchases for export in our own hands, and we hope thus to be able to ensure a moderate level of prices, to safeguard the consumer, and yet not to disappoint the cultivator of his legitimate profits. The fact that we shall have created an artificially low level of prices in India, as compared with prices in the other markets of the world, implies that export may be conducted on a considerable margin of profit. We hope to make arrangements by which such profits as may accrue to the State under this

[25TH MARCH, 1915.] [*His Excellency the Viceroy.*]

scheme will not be utilized, as is our revenue from normal sources, to meet the ordinary expenses of administration, but will be devoted to some special purpose for the advantage of the people. It is not possible for me now to say what this will be, but I have noted with sympathy the feeling expressed during the debate in my Council in favour of such profits as may accrue being expended for the benefit of the agricultural classes.

"In addition to the control of wheat, my administration has had to bear its part in the policy which is being so vigorously and successfully prosecuted by the Imperial Government for preventing supplies of food-stuffs and raw materials reaching the countries with which we are at war. The strictest watch has been kept upon our trade with neutrals. Prohibitions and restrictions have been imposed where necessary, and I have pleasure in testifying to the readiness with which the commercial community has submitted to these necessary interferences with the ordinary course of trade. Trading in India by firms or companies containing a hostile element has been put an end to, and the process of closing down such businesses is being carried into effect with due caution in order to avoid possible injury to Indian and British interests. At the same time, my Government have been giving such assistance as they can to Indian industries in its endeavours to take advantage of the opportunity for expansion afforded by the cessation of imports from Germany and Austria and other continental countries affected by the war. I should like to add that the whole question of promotion of industrial development in India is one which has been and is receiving the most careful consideration of myself and my Government, and I am glad to find from the prominent place which it has taken in the debates of my Council this session, that it is also occupying the minds of public men in India. The present time, when commerce and finance are naturally disturbed by a great war, when men's minds can hardly be expected to look on economic problems from their normal angle, is not in my judgment a suitable moment for taking special action or for initiating special inquiries as to how best this end may be achieved. But it is a question, the importance of which is very present in my thoughts, and it is one which I shall hope to see taken up vigorously and effectively as soon as normal conditions have supervened.

"Since I last addressed you on the subject of the war in Europe, the position of the Allies in Flanders has been maintained and improved, while in Eastern Prussia and Poland the tide of war has ebbed and flowed. The recent success, at Neuve Chapelle, in which the Indian Army Corps took so prominent a part has been a source of satisfaction to us all. In the meantime, the British fleet has maintained its absolute supremacy and having swept German commerce from off the seas, recently administered a severe punishment to a German squadron that wished to make a further bombardment of unprotected towns on the British coast. The economic pressure created by our supremacy at sea is gradually having its effect in Germany and the piratical policy now being pursued by German submarines is proof of the extent to which that pressure is being felt. Happily the efforts of the German submarines have met with very little success, and their number is diminishing under the losses that they have experienced. In any case such a policy can have no possible effect on the eventual result of the war, and there can be no doubt that the day of triumph of the Allies who are making huge sacrifices for the right of all free nations to live their own lives and follow their own destinies is slowly but surely dawning, when the monstrous theory that one military nation can impose by brute force her will and barbarous code of civilization upon all others will be finally shattered and hurled into utter oblivion and darkness.

"In the Near East, Turkey is beginning to experience the folly of the policy into which she has been forced by the reckless disregard by a small military clique under German tutelage of her best and highest interest.

"On every side where the Turkish forces have been engaged in fighting against the Allies they have met with reverses, and the moment is rapidly

[*His Excellency the Viceroy.*] [25TH MARCH, 1915.]

approaching when, if the Turkish Government are sufficiently wise, they will throw themselves on the mercy of the Allies and thus free themselves from the German yoke.

"As an indication of how little the so-called Turkish Government is in touch with the real sentiments of the Turkish people, I may mention that a few weeks ago I saw a letter written by a resident in Constantinople in which, after describing the oppression and exaction of the military authorities, the confident opinion of the middle and lower classes of the Turks was expressed in the saying that 'it will be all right when the British fleet comes up '.

"As you are aware, I paid a short visit to the Persian Gulf and to Basrah a few weeks ago. It was a great pleasure and advantage to me to have an opportunity of inquiring into the whole economic, commercial, and political situation of the province of Basrah, and also to visit our troops in their advanced posts within six or seven miles of the Turkish Camp, which was plainly visible and to congratulate them on their prowess and splendid bearing. One could not but feel very proud of them all. I had also time to visit the hospitals in Basrah and was glad to be able to verify the fact that all the sick and wounded British and Indian troops are being well and carefully tended.

"As regards the province of Basrah it struck me as one of immense potentialities. Under Turkish misrule it has greatly suffered and the population of the surrounding country is consequently very sparse. At small expense the city of Basrah might become a splendid port, and the port of exit of all the trade of Mesopotamia and Northern Persia. Merely the fringes of the Shat-el-Arab have so far been cultivated, but the soil is extremely fertile and only the most elementary schemes of irrigation are required to extend indefinitely the area under cultivation. The climate is splendid and resembles that of the Northern Punjab. I cannot conceive of a country more suitable for Indian immigration in the future when a more stable form of Government has been established. That country may then really become a garden of Eden and blossom like a rose.

"You are aware of the declaration made by the British, French, and Russian Governments of the inviolability of the holy places and of the freedom of Jeddah from attack so long as there was no interference with the Indian pilgrims. Solicitude for the welfare of pilgrims generally prompted His Majesty's Government, on hearing that there was a shortage of food-stuffs at Jeddah and Mecca, to arrange for supplies to be sent there for distribution by the Italian Consul at Jeddah. I regret to state that the Turkish authorities, in spite of the protests of the Italian Consul, have seized for military purposes a cargo of 30,000 sacks of barley destined for the pilgrims. Until, therefore, we are able to receive some definite assurance that any further supplies that may be sent will reach their proper destination, it will be impossible for His Majesty's Government to make any further similar arrangements.

"On the North-Western frontier the situation remains normal; and although there have been attacks on our advanced posts by trans-frontier tribesmen, they have been gallantly and successfully repelled by our troops, militia, and tribal levies.

"It has been with a sense of profound regret that I have learnt that an address to His Majesty the King-Emperor against the draft Proclamation creating an Executive Council for the United Provinces has been carried by the House of Lords. It appears that out of a total of nearly 650 Peers of the Realm and in a House of only 73 Peers, the motion against the draft Proclamation was carried by 47 votes to 26. No information has been received of any similar motion in the House of Commons, and we may therefore conclude that the Proclamation has not been rejected by Parliament as a whole. As you are aware, the Proclamation was approved by the Governor General in Council, by the Secretary of State in Council, and by His Majesty's Government, and, in accordance with the law, was laid upon the table in both Houses of Parliament. It may seem to you, as it does to me, a matter of

[25TH MARCH, 1915.] [*His Excellency the Viceroy.*]

serious concern that it should be within the power of a small body of Peers, who perhaps hardly realise the rate of progress made in this country during the past few years to throw out a proposition put by the Government of India and His Majesty's Government before Parliament with the full approbation of Indian public opinion. It seems clear to me, under the circumstances, that a modification of the law by which such procedure is possible is absolutely essential, and I trust that this will be recognised by His Majesty's Government.

"Nobody can reasonably contend that, with the advance of civilisation entailing the discussion and solution of new questions of ever-increasing complexity arising every day, one-man Government is better than Council Government. The principle of Executive Councils for local Governments by which the local administration is less dependent upon the personal equation and which ensures a greater continuity of policy has already taken root in India and cannot now be eradicated. Moreover the inclusion of an Indian gentleman in the Council of a province is to my mind a source of great strength to the Governor or Lieutenant-Governor. I speak from my own experience, and have no hesitation in saying, without any idea of flattery, that the presence of my friend Sir Ali Imam on my Council and his knowledge and experience are and have been of the greatest possible advantage to me and my Government. I can well understand that all educated people of this country will be disappointed at the result of the action of a small party in the House of Lords, but I would ask them not to be depressed, for I regard the proceedings of the 16th March in the House of Lords as only a temporary set-back, and I feel as confident that the United Provinces will have its Executive Council within a very short period as that the dawn will follow the night.

"The activities of the Council during the current session have necessarily been circumscribed by the decision to avoid as far as possible all controversial business. Nevertheless some measures of importance have come under your consideration. I need only refer to the measure recently passed in this Council to secure the defence of India and the public safety, in order to express the thanks of Government for your loyal co-operation in enacting that measure. Another Bill of importance has also been passed in this Council, namely, the Assam Labour and Emigration Act, which I hope will mark a stage in our efforts to remove abuses attendant on the present system of emigration and in securing that the welfare of labourers recruited to Assam is adequately safeguarded. The only other measure of importance to which I need allude is the Benares Hindu University Bill which was introduced into this Council on the 22nd. It will be a source of gratification to me if this measure becomes law during my tenure of office as Governor General. It is too early to speak of the possible effects of this Bill, but I have every hope that it will do much to promote the cause of education and to encourage learning and research amongst all classes.

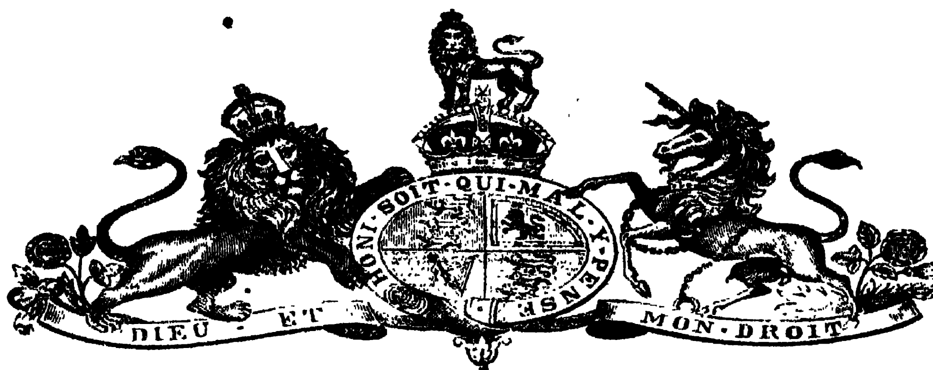
"In the discussion of resolutions, though the range of subjects has also been limited by the exclusion of controversial matters, much valuable experience has been gained. I may refer to the discussion on the export of wheat as particularly instructive. It enabled the Government to ascertain the views of the Council on the subject and to make an important and effective pronouncement of its policy. The discussion on the management of State Railways was of equal importance and interest. In these circumstances, although our session this year has not been a full one, I think we may congratulate ourselves that we have done a considerable amount of useful work in spite of the difficulties which have confronted us.

"I wish also to say one word of a personal nature. I thank you for the kind words that so many of you have been so good as to speak of myself and my administration. I am very grateful and shall always treasure those words, but I have only done my duty; and although I love India and wish always to do my duty towards her, the question of the duration of my stay in India is not one that is in my hands.

[*His Excellency the Viceroy.*] [25TH MARCH, 1915.]

"With these few words I will now conclude, and in adjourning this Council *sine die*, I wish you all a very happy return to your homes."

The Council adjourned *sine die.*



W. H. VINCENT,

Secretary to the Government of India,
Legislative Department.

DELHI;

The 30th March, 1915.

Registered No. C-696.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 3, 1915.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 19th March 1915.

On and after 3rd April and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870 the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

Publisher, *Gazette of India*.

THE PATENT OFFICE.

PATENTS and DESIGNS.

Calcutta, the 3rd April 1915.

SPECIAL NOTICE.

The Patent Office Journal for 1914 is now published and can be obtained (Price Re. 1) at the Patent Office. It contains details of patents applied for and sealed, a list of designs registered, and name and subject matter indexes.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 22nd March, 1915, and is hereby promulgated for general information:—

ACT NO. VI OF 1915.

An Act to extend the powers of the Governor General in Council during the continuance of the present war to make rules under the Indian Patents and Designs Act, 1911.

Short title, extent, etc.

1. (*1*) This Act may be called the Indian Patents and Designs (Temporary Rules) Act, 1915.

(*2*) It extends to the whole of British India including British Baluchistan and the Santhal Parganas.

(*3*) This Act and the rules made thereunder shall be in force during the continuance of the present war and for a period of six months thereafter.

Definitions.

2. In this Act the expression 'subject of any State at war with His Majesty' includes—

(*i*) any person resident and carrying on business in the territory of a State at war with His Majesty; and

(*ii*) with reference to a company, any company the business whereof is managed or controlled by such subjects, or is carried on wholly or mainly for the benefit or on behalf of such subjects, notwithstanding that the company may be registered within His Majesty's dominions.

Power to make rules.

3. (*1*) The power of the Governor General in Council under section 77 of the Indian Patents and Designs Act, 1911, to make rules shall include power to make rules— II of 1911.

(*a*) for avoiding or suspending in whole or in part any patent or licence, the person entitled to the benefit of which is the subject of any State at war with His Majesty;

(*b*) for avoiding or suspending the registration, and all or any rights conferred by the registration, of any design the proprietor whereof is a subject as aforesaid;

(*c*) for avoiding or suspending any application made by any such person under the said Act;

(*d*) for enabling the grant, in favour of persons other than such persons as aforesaid, on such terms and conditions, and either for the whole term of the patent or registration or for such less period, as may be thought fit, of licences to make, use, exercise, or vend, patented inventions and registered designs so liable to avoidance or suspension as aforesaid; and

(*e*) for extending the time within which any act or thing may be or is required to be done under the said Act.

(*2*) If the rules made under this Act so provide, the rules or any of them shall have effect from the passing of this Act.

(*3*) All rules made under this Act shall be published in the *Gazette of India*, and on such publication shall have effect as if enacted in this Act.

Power in case of exclusive privileges under Act V of 1888.

4. The power to make rules conferred by section 3 (*1*) (*a*) and (*d*) of this Act shall be exercisable in respect of any exclusive privilege acquired under the Inventions and Designs Act, 1888, as if such exclusive privilege had been a patent granted under the Indian Patents and Designs Act, 1911; and the power to make rules conferred by section 3 (*1*) (*e*) of this Act in respect of anything to be done under the Indian Patents and Designs Act, 1911, shall be exercisable in respect of anything to be done under the Inventions and Designs Act, 1888. V of 1888. II of 1911. II of 1911. V of 1888.

W. H. VINCENT,

Secretary to the Government of India.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

March 22.

2074. F. A. C. Devereux. *A simplex water-lift.*

2075. R. Wood. *An improved fuel for internal combustion engines.*

2076. H. A. Thompson. *Improvements for expediting and safeguarding railway traffic.*

March 26.

2077. C. Abraham. *Excavating hammer bucket.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Anyone desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money order on which the number of the application should be stated on the coupon at the foot of the order.

1777. F. H. Kitchin. *Means of carrying off, and radiating the surplus heat generated in the cylinders, combustion chambers, the inlet and exhaust ports of internal combustion engines, and the sparking plugs, rods for screwing into the exhaust valve caps, and compression taps connected therewith.*

1780. W. Coburn and C. W. Davis. *Washing machines.*

2029. C. Bell. *Improved automatic sprinkler.*

2040. H. McReynolds. *Improvements in trolley or collector wheels for electricity.*

2041. A. H. Sparling. *Locking device for hasp and staple.*

2042. A. Dina. *Improvements in tricars.*

2043. A. M. Bell. *Improvements in couplings for railway vehicles.*

2044. M. N. Banerjee. *Tea-Leaf plucking basket.*

2051. J. Hendrickson and J. W. Johnson. *Premutation padlock.*

2052. G. Constantinasco and W. Haddon. *Means for counteracting the effect of inertia in liquid columns.*

2053. H. Grob. *Improved double magnet.*

2054. S. Golam Ahmed. *Ball automatic fan machine.*

2055. M. Nethersole. *Automatic differential tumbler shutter for use on weirs or dams.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

1529. Rughnath Rai & Co. *Improved itinerant dispensary panniers.*

1645. A. C. Schaffter. *Improved safety hairpin.*

1682. T. W. B. Smith. *Improvements in the sole attaching of rubber soles to tennis boots or shoes.*

1753. J. Tait. *Feed water circulator for boilers.*

1884. E. F. McCool. *Improvements in grinding mills.*

1985. J. B. Mitchell. *Improvements in means for cooling or freezing liquids.*

1997. B. O. Bergersen. *Improved resilient wheel for vehicles.*

1999. C. Watson. *Improvements in and relating to self-contained buffers for railway and other rolling stock.*

2000. N. N. Mookherjee & S. C. Mukherjee. *An improved cooking apparatus.*

2002. S. A. Bhisey. *Improvements in type casting machines.*

2003. A. M. Bell. *Improvements in automatic vacuum brakes.*

2004. E. G. Reed & A. R. Tod Ld. *An improved milling stone.*

2005. C. W. Parsons. *Pouch or carrier for a ball taken or the like.*
2008. J. Wallace. *Improvements in camp stools.*
2009. K. C. Cox. *Improvements in submarine telegraphy.*

SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7, accompanied by the fee, R30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

1741. Sutton, Steele and Steele.
1929. Gresham and Kiernan.
1935. Murray.
1936. Murray.
1937. Watson & Boyd.
1938. Maude Crosse, Pratt and Barrowcliffe.
1939. Elliott.

PATENTS SEALED.

1635. Wickham.
1676. Linden.
1829. Parker.
1912. Stenning & Stirling.
1913. Vincent.
1915. Taff.
1916. S. O. S. Limited & Janson.
1919. Reinohl.
1920. Ed. Kummer, A. G.
1921. Beddard.
1922. Whittington.

RENEWAL FEES PAID.

55 of 1905. Taylor. (To 4 April 1916.)
103 of 1906. Blanchard & ors. (To 11 April 1916.)
51 of 1907. Jost. (To 24 April 1916.)
394 of 1907. Saha. (To 25 March 1916.)
448 of 1907. Roberts. (To 31 March 1916.)
189 of 1908. Lamson Paragon Supply Co. Ld. (To 22 June 1916.)
1 of 1909. Westinghouse Brake Co. Ld. (To 7 August 1916.)
84 of 1909. Ozonair Ld. & anr. (To 26 March 1916.)
85 of 1909. Ozonair Ld. & anr. (To 26 March 1916.)
692 of 1909. Davidson. (To 27 April 1916.)
158 of 1910. Yeo & ors. (To 3 May 1916.)
581 of 1910. Candy. (To 17 June 1916.)
40 of 1911. Turner. (To 10 April 1916.)
47 of 1911. Spencer. (To 16 May 1916.)
134 of 1911. Halstead & anr. (To 22 April 1916.)
135 of 1911. Halstead & anr. (To 22 April 1916.)

CESSATION OF EXCLUSIVE PRIVILEGE.

1907.

290, (Sandmann).

1909.

487, (Marshall, Moore & Spurway).

1910.

260, (Spinnerei & Weberei Steinen A. G.). 268, (Destefani). 417, (Bellgrove). 551, (Hood and Glenvale). 552, (Hood and Glenvale). 553, (Hood and Glenvale). 567, (Margetts).

AMENDMENT ALLOWED.

No. 121 of 1908.—In pursuance of leave granted on 25th March 1915, the above numbered specification has been amended in the manner set forth in the *Gazette of India*, dated 8th August 1914, with the exception of the proposed additional claim which has not been allowed.

EXTENSION OF COPYRIGHT IN DESIGNS.

Class 4. No. 2 of 1910. Mackintosh Burn Limited, of 8 Esplanade East, Calcutta, British India. January 12, 1910. (Copyright in design extended for five years.)

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price 10 annas), and in the Indian Patents and Designs Rules, 1912 (price 2 annas). These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs nor their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. Applications for patents in countries other than India should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

Place	Institution
AHMEDABAD	R. C. Technical Institute.
ALLAHABAD	Public Library.

H. G. GRAVES,
Controller of Patents and Designs.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.

NOTIFICATION.

Roorkee, the 10th June 1908.

Delhi, the 26th March 1915.

No. 1995-*Education*.—In exercise of the powers conferred by section 3 (1) of the Ancient Monuments Preservation Act, VII of 1904, the Chief Commissioner is pleased to declare that the undermentioned monuments are protected monuments within the meaning of the said Act.

Monuments.	*Locality.*
Tomb of Raushanara and the Barahdari.	Raushanara Garden, Subzimundi.

Any objection to the above proposal received in writing within one month from the date of posting by the Deputy Commissioner, Delhi, will be taken into consideration by the Chief Commissioner.

Delhi, the 29th March 1915.

No 2069-*Education*.—Whereas the Municipal Committee of Delhi has applied to the Local Government under the provisions of section 58 of Act III of 1911, and whereas it appears to the Chief Commissioner, Delhi Province, that the land is required by Government for a public purpose, namely, for City improvement, it is hereby declared that the undermentioned land is required for the said purpose.

The declaration is made under the provisions of section 6 of Act I of 1894, and under

section 7 of the said Act, the Collector of Delhi is hereby directed to take order for the acquisition of the ownership of the said land.

Rangoon, the 23rd March 1915.

In the matter of Cecil Randolph Gomez, Insolvent.

Notice is hereby given that on a petition for the benefit of the Presidency Towns Insolvency Act, 1909, presented by Cecil Randolph Gomez, clerk, residing at No. 62, 38th Street, Rangoon, on the 22nd day of March 1915, an order of adjudication of insolvency was made by the Chief Court of Lower Burma on the same day against the said Cecil Randolph Gomez.

J. HORMASJI,
Registrar.

IN THE COURT OF M. RAHIM BUKSH, M.A., JUDGE, INSOLVENCY COURT, DELHI.

SUIT No. 15 OF 1915.

Delhi, the 26th March 1915.

In the matter of insolvency of Mohammad Umar, son of Khuaj Bakhsh of Delhi, Lal Chah.

It is hereby notified under section 12 of Act 3 of 1907 that an application filed by Mohammad Umar to be adjudicated an insolvent has been admitted in this Court and will be heard on 23rd of April 1915.

FORM NO. 4.

Order of Adjudication.

SECTION 16.

INSOLVENCY PETITION No. 69 OF 1914.

Delhi, the 20th March 1915.

In the Court of M. Rahim Bakhsh, M. A., Judge, Insolvency Court at Delhi.

In the matter of Babu Ram, son of Ram Gopal, Caste Vaish of Delhi, Debtor.

Pursuant to a petition, dated 20th October 1914, on behalf of the said debtor and on reading the said petition and hearing the creditors it is ordered that the said debtor is hereby adjudged insolvent.

FORM No. 5.

Order Appointing a Receiver.

SECTION 18.

INSOLVENCY PETITION No. 69 OF 1914.

Delhi, the 20th March 1915.

In the Court of M. Rahim Bakhsh, M. A., Judge, Insolvency Court at Delhi.

In the matter of Babu Ram, son of Ram Gopal, Vaish of Delhi, Insolvent.

Whereas Babu Ram was adjudicated an insolvent by order of this Court, dated 20th March 1915, and it appears to the Court that the appointment of a receiver for the property of the insolvent is necessary.

It is ordered that a receiving order be made against the insolvent and a receiving order is hereby made against insolvent and Clerk of Court is hereby constituted receiver of the property of the said insolvent.

RAHIM BUKSH,
Judge, Insolvency Court, Delhi.

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

In Insolvency.

(2) It will be seen that the retail prices of wheat have fallen 8 per cent in the first fortnight of March, as compared with the previous fortnight. The fall in the Punjab was 9 per cent, in the United Provinces 7 per cent and 14 per cent in the Central Provinces and Berar.

CALCUTTA;
The 31st March 1915.

G. FINDLAY SHIRRAS,
Director of Statistics.

REGISTERED No. C. 696.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 10, 1915.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 19th March 1915.

On and after 3rd April and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

Rates of Subscription.	per annum R	a.	p.

127 of 1911. Viscose Development Co. Ltd. (To 25 April 1916.)

AMENDMENT ALLOWED UNDER SECTION 17.

No. 1643 of 1914.—In pursuance of leave granted on 9th April 1915, the above numbered specification has been amended from page 1 to line 20, page 2, inclusive, in the manner set forth in the *Gazette of India*, dated 19th September 1914. Also in place of the proposed amendment of the first claim, the following claim has been substituted for the original first claim *viz.*:—

"A coupling for connecting a sound box to the tone arm or sound tube of a gramophone, phonograph, or the like, comprising a hollow block or member pivoted on the tone arm or sound tube or on a support thereon, at one side of the centre of the sound passage and preferably at a point outside the walls thereof, and adapted in one position to complete a tight communication between the sound box and the tone arm or the like, and in another position to break the communication, and displaceable means for restoring the communication when so broken and at such time aiding in securing the hollow block or member in position."

The original second claim has been retained and the proposed new second and third claims have not been allowed.

The specification as amended is being reprinted.

DESIGNS ENTERED ON THE REGISTER.

March 29th to April 3rd, 1915.

Class 12. No. 2774. F. Jackli, Balli Marran, Delhi. March 22.
Class 13. No. 2775. The Calico Printers' Association, Ld., St. James's Buildings, Oxford Street, Manchester, England. March 27.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price 10 annas), and in the Indian Patents and Designs Rules, 1912 (price 2 annas). These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs nor their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom

or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent officers in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs*, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

H. St. J. B. PHILBY,
Secretary and Member, Board of Examiners.

SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE, CINCHONA FEBRIFUGE, RESIDUAL ALKALOID AND QUINOIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona alkaloids. Quinine can be purchased by Government officers, District and Local Boards. It can also be purchased by Missionaries for *bonâ-fide* public purposes. Otherwise it is not sold to private persons or firms. Cinchonidine is for sale to Government officers and to dealers. Cinchona Febrifuge can be purchased both in powder and 3½ grain tablet forms by Government officers and the general public. It is also sold by the principal Druggists in Calcutta. Quinoidine or *Pure amorphous alkaloid* and Residual Alkaloid or *Amorphous cinchona alkaloid*, which contains about 40 per cent. of *pure amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance, but private purchasers may use the V. P. Post system, and are obtainable from the Superintendent, Juvenile Jail, Alipore.*

The rates for these drugs from 1st April 1914 are as follows :—

HOWRAH CEMETERY, BENGAL.

The following list is of the persons known to be buried in the Howrah Old Cemetery. The Executive Engineer, 3rd Calcutta Division, has declared these graves to be in a ruinous condition. Representatives of the deceased persons are hereby notified to put monuments into repair within six months of the issue of this notification. All graves not put into repair by the close of that time will be dealt with under 280, Rule X, Part IV, Public Works Department Regulations for the Care of Cemeteries.

All communications about graves should be sent to the Chaplain of Howrah.

The 23rd March 1915.

H. F. FULFORD WILLIAMS,
Chaplain of Howrah.

List of Graves in the Old Cemetery closed at Howrah.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

The 7th April, 1915.

No. 229.—Colonel C. C. Manifold, C.B., M.B., I.M.S., Inspector General of Civil Hospitals, United Provinces, is granted privilege leave for three days and in continuation leave on private affairs for one day under paragraph 226, Army Regulations, India, Volume II, with effect from the 25th March, 1915.

POLITICAL.

The 6th April, 1915

No. 1223.—Whereas it appears to the Governor General in Council that the book entitled "Tarikh-i-Hind" contains words of the nature described in section 4, sub-section (1) of the Indian Press Act, 1910 (I of 1910), in pursuance of the notification of the Governor General in Council, no. 1008, dated the 1st October 1912, issued in accordance with the provisions of section 3 of the Delhi Laws Act, 1912 (XIII of 1912), and in pursuance of section 12 of the Indian Press Act, 1910 (I of 1910), the Governor General in Council is pleased to declare all copies of the said book to be forfeited to His Majesty on the ground that, in his opinion, they have a tendency to bring into hatred and contempt, and to excite disaffection towards, the Government established by law in British India.

H. WHEELER,

Secretary to the Government of India.

FOREIGN AND POLITICAL DEPARTMENT.

NOTIFICATIONS.

Simla, the 6th April

No. 366-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to direct that the following amendment shall be made in the notification of the Government of India in the Foreign Department, No. 682-I. B., dated the 22nd March 1913, as subsequently amended, which applied certain enactments to the Administered Areas in the Hyderabad State, *viz.*:—

In the First Schedule, against entry No. 26, the Indian Explosives Act, 1884 (IV of 1884), for the existing entry in column 3 the following shall be substituted, *viz.*:—

"Section 2 and section 18, sub-sections (1), (2), (3) and (4) shall be omitted".

No. 614-Est.-A.—Major R. H. Chenevix Trench is re-appointed to the effective list of the Political Department and is posted as Assistant Secretary to the Government of India in the Foreign and Political Department, with effect from the 27th March 1915.

No. 617-Est.-A.—Captain H. V. Biscoe, of the Political Department, is appointed to be Under Secretary to the Government of India in the Foreign and Political Department, with effect from the 27th March 1915.

No. 620-Est.-A.—Mr. B. J. Glancy, of the Political Department, is posted as First Assistant to the Agent to the Governor General in Rajputana and Chief Commissioner of Ajmer-Merwara, with effect from the 18th March 1915.

No. 623-Est.-A.—Mr. W. R. Howson, His Britannic Majesty's Vice-Consul at Lingah, is appointed to hold charge of the current duties of the office of His Britannic Majesty's Vice-Consul at Bunder Abbas, in addition to his own duties, with effect from the 14th March 1915, and until further orders.

The 8th April, 1915.

No. 649-Est.-A.—Captain S. Williams of the Political Department, on return from military duty, is posted as Assistant for Mekran to the Political Agent in Kalat and *ex-officio* Commandant, Mekran Levy Corps, with effect from the 17th March 1915.

The 9th April, 1915.

No. 662-Est.-A.—Mr. H. D. Graves Law, of the Political Department, is posted as Second Assistant to the Agent to the Governor General in Rajputana, with effect from the 18th March 1915.

No. 393-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, and in continuation of the notification of the Government of India in the Foreign and Political Department, No. 1442-I. B., dated the 14th August 1914, applying the Foreigners Act, 1864 (III of 1864), to the areas specified in the first column of the schedule annexed to the said notification, the Governor General in Council is pleased to apply the provisions of the Foreigners (Amendment) Act, 1915 (III of 1915), so far as they may be applicable, to the said areas :

Provided, first, that in the Act as so applied reference to a Local Government shall be read as referring to the authorities specified in the second column of the said schedule and references to British India shall be read as including the said areas :

Provided, secondly, that for the purpose of facilitating the application of the said Act, any court exercising jurisdiction in the said areas may construe the provisions of the said Act with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before it.

No. 394-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to apply the provisions of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), so far as they may be applicable, to the areas specified in the first column of the schedule annexed to the notification of the Government of India in the Foreign and Political Department, No 1442-I. B., dated the 14th August 1914 ;

Provided, first, that in the Act as so applied references to a Local Government shall read as referring to the authorities specified in the second column of the said schedule, references to British India shall be read as including the said areas :

Provided, secondly, that for the purpose of facilitating the application of the said Act, any court exercising jurisdiction in the said areas may construe the provisions of the said Act with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before it.

BY THE KING.

A PROCLAMATION.

ADDING TO THE LIST OF ARTICLES TO BE TREATED AS CONTRABAND OF WAR.

GEORGE R. I.

WHEREAS on the twenty-third day of December, 1914, We did issue Our Royal Proclamation specifying the articles which it was Our intention to treat as contraband during the conti[illegible]ance of hostilities or until We did give further public notice, and

W[illegible]eas it is expedient to make certain additions to the lists contained in the said Proc[illegible] :—

NOW, THEREFORE, We do hereby declare, by and with the advice of Our Privy Council, that during the continu[illegible] of the war or until We do give further public notice the following articles will be treated as a[illegible]te contraband in addition to those set out in Our Royal Proclamation aforementioned :—

Raw wool, wool tops and noils and [illegible]n and worsted yarns.

Tin, chloride of tin, tin ore.

Castor oil.

Paraffin wax.

Copper iodide.

Lubricants.

Hides of cattle, buffaloes, and horses ; skins of calves, pigs, sheep, goats [illegible] deer ; leather, undressed or dressed, suitable for saddlery, harness, military boots, [illegible] military clothing.

Ammonia and its salts whether simple or compound ; ammonia liquor ; urea, aniline, and their compounds.

And We do hereby further declare that the following articles will be treated as conditional contraband in addition to those set out in Our Royal Proclamation aforementioned :—

Tanning substances of all kinds (including extracts for use in tanning).

And We do hereby further declare that the terms " foodstuffs " and " feeding stuffs for animals " in the list of conditional contraband contained in Our Royal Proclamation aforementioned shall be deemed to include oleaginous seeds, nuts and kernels ; animal and vegetable oils and fats (other than linseed oil) suitable for use in the manufacture of margarine ; and cakes and meals made from oleaginous seeds, nuts and kernels.

Given at Our Court at Buckingham Palace, this Eleventh day of March, in the year of our Lord one thousand nine hundred and fifteen, and in the Fifth year of Our Reign.

GOD SAVE THE KING.

No. 132.—The following order of His Majesty in Council of the 3rd February 191:, published in the London Gazette of the 5th February 1915, is republished for general information :—

AT THE COURT AT BUCKINGHAM PALACE,

The 3rd day of February, 1915.

PRESENT :

The King's Most Excellent Majesty

LORD PRESIDENT
VISCOUNT KNOLLYS
LORD CHAMBERLAIN
MR. SECRETARY HARCOURT
MR. ARTHUR HENDERSON
SIR WILLIAM MACGREGOR
LORD JUSTICE BANKES.

WHEREAS by a Proclamation of the President of the United States of America, dated the 9th April 1910, the benefits of the United States Act of 1909, entitled "An Act to amend and consolidate the Acts respecting Copyright," were extended to the subjects of Great Britain and her Possessions, but no provision was made therein for the protection of the musical works of British Subjects against reproduction by means of mechanical contrivances :

And whereas His Majesty is advised that the Government of the United States of America has undertaken, upon the issue of this Order, to grant such protection to the musical works of British Subjects :

And whereas by reason of these premises His Majesty is satisfied that the Government of the United States of America has made, or has undertaken to make, such provision as it is expedient to require for the protection of works entitled to Copyright under the provisions of Part I of the Copyright Act, 1911 :

And whereas by the Copyright Act, 1911, authority is conferred upon His Majesty to extend, by Order in Council, the protection of the said Act to certain classes of foreign works within any part of His Majesty's Dominions, other than self-governing Dominions to which the said Act extends :

And whereas it is desirable to provide protection within the said Dominions for the unpublished works of Citizens of the United States of America :

Now, therefore, His Majesty, by and with the advice of His Privy Council, and by virtue of the authority conferred upon him by the Copyright Act, 1911, is pleased to order, and it is hereby ordered, as follows :—

1. The Copyright Act, 1911, including the provisions as to existing works, shall, subject to the provisions of the said Act and of this Order, apply—

(*a*) to literary, dramatic, musical and artistic works the authors whereof were at the time of the making of the works Citizens of the United States of America, in like manner as if the authors had been British Subjects :

(*b*) in respect of residence in the United States of America, in like manner as if such residence had been residence in the parts of His Majesty's Dominions to which the said Act extends.

Provided that—

(*i*) the term of Copyright within the parts of His Majesty's Dominions to which this Order applies shall not exceed that conferred by the law of the United States of America :

(*ii*) the enjoyment of the rights conferred by this Order shall be subject to the accomplishment of the conditions and formalities prescribed by the law of the United States of America:

Supplement dated the 3rd March 1915, to the "London Gazette," dated the 2nd March 1915.

Admiralty, 3rd March, 1915.

The following despatch has been received from Vice-Admiral Sir F. C. Doveton Sturdee, K.C.B., C.V.O., C.M.G., reporting the action off the Falkland Islands on Tuesday, the 8th of December, 1914 :—

Invincible at Sea,
December 19th, 1914.

SIR,

I have the honour to forward a report on the action which took place on 8th December, 1914, against a German Squadron off the Falkland Islands.

I have the honour to be, Sir,
Your obedient Servant,
F. C. D. STURDEE,
Vice-Admiral, Commander-in-Chief.

The Secretary, Admiralty.

(A.)—Preliminary Movements.

(B.)—Action with the Armoured Cruisers.

(C.)—Action with the Light Cruisers.

(D.)—Action with the Enemy's Transports.

(A.)—PRELIMINARY MOVEMENTS.

The squadron, consisting of H. M. ships "Invincible," flying my flag, Flag Captain Percy T. H. Beamish; "Inflexible," Captain Richard F. Phillimore; "Carnarvon," flying the flag of Rear-Admiral Archibald P. Stoddart, Flag Captain Harry L. d'E. Skipwith; "Cornwall," Captain Walter M. Ellerton; "Kent," Captain John D. Allen; "Glasgow," Captain John Luce; "Bristol," Captain Basil H. Fanshawe; and "Macedonia," Captain Berttram S. Evans arrived at Port Stanley, Falkland Islands, at 10-30 A.M. on Monday, the 7th December 1914. Coaling was commenced at once, in order that the ships should be ready to resume the search for the enemy's squadron the next evening, the 8th December.

At 8 A.M. on Tuesday, the 8th December, a signal was received from the signal station on shore :—

"A four-funnel and two-funnel man-of-war in sight from Sapper Hill, steering northwards."

At this time, the positions of the various ships of the squadron were as follows :—

"Macedonia" : At anchor as look-out ship.

"Kent" (guard ship : At anchor in Port William.

"Invincible" and "Inflexible" : In Port William.

"Carnarvon" : In Port William.

"Cornwall" : In Port William.

"Glasgow" : In Port Stanley.

"Bristol" : In Port Stanley.

The "Kent" was at once ordered to weigh, and a general signal was made to raise steam for full speed.

At 8-20 A.M. the signal station reported another column of smoke in sight to the southward, and at 8-45 A.M. the "Kent" passed down the harbour and took up station at the entrance.

The "Canopus," Captain Heathcoat S. Grant, reported at 8-47 A.M. that the first two ships were 8 miles off, and that the smoke reported at 8-20 A.M. appeared to be the smoke of two ships about 20 miles off.

At 8-50 A.M. the signal station reported a further column of smoke in sight to the southward.

The "Macedonia" was ordered to weigh anchor on the inner side of the other ships, and await orders

At 9-20 A.M. the two leading ships of the enemy ("Gneisenau" and "Nurnberg"), with guns trained on the wireless station, came within range of the "Canopus," who opened fire at them across the low land at a range of

11,000 yards. The enemy at once hoisted their colours and turned away. At this time the masts and smoke of the enemy were visible from the upper bridge of the "Invincible" at a range of approximately 17,000 yards across the low land to the south of Port William.

A few minutes later the two cruisers altered course to port, as though to close the "Kent" at the entrance to the harbour, but about this time it seems that the "Invincible" and "Inflexible" were seen over the land, as the enemy at once altered course and increased speed to join their consorts.

The "Glasgow" weighed and proceeded at 9-40 A.M. with orders to join the "Kent" and observe the enemy's movements.

At 9-45 A.M. the squadron—less the "Bristol"—weighed, and proceeded out of harbour in the following order:—"Carnarvon," "Inflexible," "Invincible," and Cornwall." On passing Cape Pembroke Light, the five ships of this enemy appeared clearly in sight to the south-east, hull down. The visibility was at its maximum, the sea was calm, with a bright sun, a clear sky, and a light breeze from the north-west.

At 10-20 A.M. the signal for a general chase was made. The battle cruisers quickly passed ahead of the "Carnarvon" and overtook the "Kent." The "Glasgow" was ordered to keep two miles from the "Invincible," and the "Inflexible" was stationed [illegible] the starboard quarter of the flagship. Sp[illegible]d was eased to 20 knots at 11-15 A.M. to ena[illegible] the other cruisers to get into station.

[illegible]is ty Timothy Patrick Moriarty O'Callaghan.

At th[illegible] time the enemy's funnels and bridges showed just above the horizon.

Information was [illegible]ived from the "Bristol" at 11-27 A.M. that three enemy ships had appeared of Port Pleasant, probably colliers or transports. The "Bristol" was therefore directed to take the "Macedonia" under his orders and destroy transports.

The enemy were still maintaining their distance, and I decided, at 12-20 P.M., to attack with the two battle cruisers and the "Glasgow."

At 12-47 P.M. the signal to "Open fire and engage the enemy" was made.

The "Inflexible" opened fire at 12-55 P.M. from her fore turret at the right-hand ship of the enemy, a light cruiser; a few minutes later the "Invincible" opened fire at the same ship.

The deliberate fire from a range of 16,500 to 15,000 yards at the right-hand light cruiser, who was dropping astern, became too threatening and when a shell fell close alongside her at 1-20 P.M. she (the "Leipzig") turned away, with the "Nurnberg" and "Dresden" to the south-west. These light cruisers were at once followed by the "Kent," "Glasgow," and "Cornwall," in accordance with my instructions.

The action finally developed into three separate encounters, besides the subsidiary one dealing with the threatened landing.

(B.)—ACTION WITH THE ARMOURED CRUISERS.

The fire of the battle cruisers was directed on the "Scharnhorst" and "Gneisenau." The effect of this was quickly seen, when at 1-25 P.M., with the "Scharnhorst" leading, they turned about 7 points to port in succession into line ahead and opened fire at 1-30 P.M. Shortly afterwards speed was eased to 24 knots, and the battle cruisers were ordered to turn together, bringing them into line ahead, with the "Invincible" leading.

The range was about 13,500 yards at the final turn, and increased, until, at 2 P.M., it had reached 16,450 yards.

The enemy then (2-10 P.M.) turned away about 10 points to starboard and a second chase ensued, until, at 2-45 P.M., the battle cruisers again opened fire; this caused the enemy, at 2-53 P.M., to turn into line ahead to port and open fire at 2-55 P.M.

The "Scharnhorst" caught fire forward, but not seriously, and her fire slackened perceptibly; the "Gneisenau" was badly hit by the "Inflexible."

At 3-30 P.M. the "Scharnhorst" led round about 10 points to starboard; just previously her fire had slackened perceptibly, and one shell had shot away her third funnel; some guns were not firing, and it would appear that the turn was dictated by a desire to bring her starboard guns into action. The effect of the fire on the "Scharnhorst" became more and more apparent in consequence of smoke from fires and also escaping steam; at times a shell would cause a large hole to appear in her side, through which could be seen a dull red glow of flame. At 4-4 P.M. the "Scharnhorst," whose flag remained flying to the last, suddenly listed heavily to port, and within a minute it became clear that she was a doomed ship; for the list increased very rapidly until she lay on her beam ends, and at 4-17 P.M. she disappeared.

The "Gneisenau" passed on the far side of her late flagship, and continued a determined but ineffectual effort to fight the two battle cruisers.

At 5-8 P.M. the forward funnel was [illegible]ed over and remained resting against second funnel. She was evidently in serious straits, and her fire slackened very much.

At 5-15 P.M. one of the "Gneisenau's" shells struck the "Invincible"; this was her last effective effort.

At 5-30 P.M. she turned towards the flagship with a heavy list to starboard, and appeared stopped, with steam pouring from her escape-pipes, and smoke from shell and fires rising everywhere. About this time I ordered the signal "Cease fire," but before it was hoisted the "Gneisenau" opened fire again, and continued to fire from time to time with a single gun.

At 5-40 P.M. the three ships closed in on the "Gneisenau," and, at this time, the flag flying at her fore truck was apparently

hauled down, but the flag at the peak continued flying.

At 5-50 P.M. "Cease fire" was made.

At 6 P.M. the "Gneisenau" heeled over very suddenly, showing the men gathered on her decks and then walking on her side as she lay for a minute on her beam ends before sinking.

The prisoners of war from the "Gneisenau" report that, by the time the ammunition was expended, some 600 men had been killed and wounded. The surviving officers and men were all ordered on deck and told to provide themselves with hammocks and any articles that could support them in the water.

When the ship capsized and sank there were probably some 200 unwounded survivors in the water, but, owing to the shock of the cold water, many were drowned within sight of the boats and ship.

Every effort was made to save life as quickly as possible, both by boats and from the ships; life-buoys were thrown and ropes lowered, but only a proportion could be rescued. The "Invincible" alone rescued 108 men, fourteen of whom were found to be dead after being brought on board; these men were buried at sea the following day with full military honours.

(C.)—ACTION WITH THE LIGHT CRUISERS.

At about 1 P.M., when the "Scharnhorst" and "Gneisenau" turned to port to engage the "Invincible" and "Inflexible," the enemy's light cruisers turned to starboard to escape; the "Dresden" was leading and the "Nürnberg" and "Leipzig" followed on each quarter.

In accordance with my instructions, the "Glasgow," "Kent," and "Cornwall" at once went in chase of these ships; the "Carnarvon," whose speed was insufficient to [illegible] take them, closed the battle cru[illegible].

The "Glasgow." drew [illegible] ahead of the "Cornwall" and "K[illegible]," and, at 3 P.M., shots were exch[illegible] with the "Leipzig" at 12,000 yar[illegible] The "Glasgow's" object was to end[illegible] to outrage the "Leipzig," with her [illegible]-inch guns and thus cause her to alter course and give the "Cornwall" and "Kent" a chance of coming into action.

At 4-17 P. M. the "Cornwall" opened fire, also on the "Leipzig."

At 7-17 P. M. the "Leipzig" was on fire fore and aft, and the "Cornwall" and "Glasgow" ceased fire.

The "Leipzig" turned over on her port side and disappeared at 9 P.M. Seven officers and eleven men were saved.

At 3-36 P.M. the "Cornwall" ordered the "Kent" to engage the "Nürnberg," the nearest cruiser to her.

Owing to the excellent and strenuous efforts of the engine room department, the "Kent" was able to get within range of the "Nürnberg" at 5 P.M. At 6-35 P.M. the "Nürnberg" was on fire forward and ceased firing. The "Kent" also ceased firing and closed to 3,300 yards; as the colours were still observed to be flying in the "Nürnberg," the "Kent" opened fire again. Fire was finally stopped five minutes later on the colours being hauled down, and every preparation was made to save life. The "Nürnberg" sank at 7-27 P.M., and, as she sank, a group of men were waving a German ensign attached to a staff. Twelve men were rescued, but only seven survived.

The "Kent" had four killed and twelve wounded, mostly caused by one shell.

During the time the three cruisers were engaged with the "Nürnberg" and "Leipzig," the "Dresden" who was beyond her consorts, effected her escape owing to her superior speed. The "Glasgow" was the only cruiser with sufficient speed to have had any chance of success. However, she was fully employed in engaging the "Leipzig" for over an hour before either the "Cornwall" or "Kent" could come up and get within range. During this time the "Dresden" was able to increase her distance and get out of sight.

The weather changed after 4 P.M., and the visibility was much reduced; further the sky was overcast and cloudy, thus assisting the "Dresden" to get away unobserved.

(D.)—ACTION WITH THE ENEMY'S TRANSPORTS.

A report was received at 11-27 A.M. from H.M.S. "Bristol" that three ships of the enemy, probably transports or colliers had appeared off Port Pleasant. The "Bristol" was ordered to take the "Macedonia" under his orders and destroy the transports.

H.M.S. "Macedonia" reports that only two ships, steamships "Baden" and "Santa Isable" were present; both ships were sunk after the removal of the crew.

I have pleasure in reporting that the officers and men under my orders carried out their duties with admirable efficiency and coolness, and great credit is due to the Engineer Officers of all the ships, several of which exceeded their normal full speed.

The names of the following are specially mentioned:—

OFFICERS.

Commander Richard Herbert Denny Townsend, H.M.S. "Invincible."

Commander Arthur Edward Frederick Bedford, H.M.S. "Kent."

Lieutenant-Commander Wilfred Arthur Thompson, H.M.S. "Glasgow."

Lieutenant-Commander Hubert Edward Danreuther, First and Gunnery Lieutenant, H.M.S. "Invincible."

Engineer-Commander George Edward Andrew, H.M.S. "Kent."

Engineer-Commander Edward John Weeks, H.M.S. "Invincible."

Paymaster Cyril Sheldon Johnson, H.M.S. "Invincible."

Carpenter Thomas Andrew Walls, H.M.S. "Invincible."

Carpenter William Henry Venning, H.M.S. "Kent."

Carpenter George Henry Egford, H.M.S. "Cornwall."

PETTY OFFICERS AND MEN.

Chief Petty Officer David Leighton, O. N. 124238, H.M.S. "Kent."

Petty Officer, 2nd Class, Matthew J. Walton (R.F R., A. 1756), O.N. 118358, H.M.S. "Kent."

Leading Seaman Frederick Sidney Martin, O.N. 233301, H.M.S. "Invincible," Gunner's Mate, Gunlayer, 1st Class.

Signalman Frank Glover, O.N. 225731, H.M.S. "Cornwall."

Chief Engine-Room Artificer, 2nd Class, John George Hill, O.N. 269646, H.M.S. "Cornwall."

Acting Chief Engine-Room Artificer, 2nd Class, Robert Snowdon, O.N. 270654, H.M.S. "Inflexible."

Engine-Room Artificer, 1st Class, George Henry Francis McCarton, O.N. 270023, H.M.S. "Invincible."

Stoker Petty Officer George S. Brewer, O.N. 150950, H.M.S. "Kent."

Stoker Petty Officer William Alfred Townsend, O.N. 301650, H.M.S. "Cornwall."

Stoker, 1st Class, John Smith, O.N. SS 111915, H.M.S. "Cornwall."

Shipwright, 1st Class, Albert N. E. England, O.N. 341971, H.M.S. "Glasgow."

Shipwright, 2nd Class, Albert C. H. Dymott, O.N. M. 8047, H.M.S. "Kent."

Portsmouth R.F.R.B. 3307 Sergeant Charles Mayes, H.M.S. "Kent."

F. C. D. STURDEE.

CENTRAL CHANCERY OF THE ORDERS OF KNIGHTHOOD.

Lord Chamberlain's Office,
St. James's Palace, S.W.,
3rd March, 1915.

The KING has been graciously pleased to give orders for the following appointment to the Most Honourable Order of the Bath, in recognition of the services of the undermentioned Officer mentioned in the foregoing despatch.

To be an Additional Member of the Military Division of the Third Class or Companion.

Captain John Luce, Royal Navy.

Admiralty, S W.,
3rd March 1915.

The KING has been graciously pleased to give orders for the award of the *Distinguished Service Cross* to the undermentioned Officers, in recognition of their services mentioned in the foregoing despatch :—

Carpenter Thomas Andrew Walls.

Carpenter William Henry Venning.

Carpenter George Henry Egford.

The following awards have also been made :—

To receive the Conspicuous Gallantry Medal.

Portsmouth R.F R B. 3307 Sergeant Charles Mayes, H.M.S. "Kent." A shell burst and ignited some cordite charges in the casemate; a flash of flame went down the hoist into the ammunition passage. Sergeant Mayes picked up a charge of cordite and threw it away. He then got hold of a fire hose and flooded the compartment, extinguishing the fire in some empty shell bags which were burning. The extinction of this fire saved a disaster which might have led to the loss of the ship.

To receive the Distinguished Service Medal.

Chief Petty Officer David Leighton, O.N. 124238.

Petty Officer, 2nd Class, Matthew J. Walton (R.F.R., A. 1756), O.N. 118358.

Leading Seaman Frederick Sidney Martin, O.N. 233301, Gunner's Mate, Gunlayer, 1st Class.

Signalman Frank Glover, O.N

Chief Engine-Room Artificer, ... Hill, O.N. 269646

Acting Chief Engine-Room Artificer, 2nd Class, Robert Snowdon, O.N. 270654.

Engine-Room Artificer, 1st Class, George Henry Francis McCarton, O.N. 270023.

Stoker Petty Officer George S. Brewer, O.N. 150950.

Stoker Petty Officer William Alfred Townsend, O.N. 301650.

Stoker, 1st Class, John Smith, O.N. SS 111915.

Shipwright, 1st Class, Albert N. E. England, O.N. 341971.

Shipwright, 2nd Class, Albert C. H. Dymott, O. N. M. 8047.

Second Supplement, dated the 3rd March 1915, to the "London Gazette," dated the 2nd March 1915.

Admiralty, 3rd March, 1915.

The following despatch has been received from Vice-Admiral Sir David Beatty, K.C.B., M.V.O., D.S.O., commanding the First Battle Cruiser Squadron, reporting the action in the North Sea on Sunday, the 24th of January, 1915 :—

H.M.S. "Princess Royal,"
2nd February, 1915.

SIR,

I have the honour to report that at daybreak on 24th January, 1915, the following vessels were patrolling in company.

The Battle Cruisers "Lion," Captain Alfred E M. Chatfield, C.V.O., flying my flag; "Princess Royal," Captain Osmond de B. Brock, Aide-de-Camp; "Tiger," Captain Henry B. Pelly, M.V.O.; "New Zealand," Captain Lionel Halsey, C.M.G., Aide-de-Camp, flying the flag of Rear-Admiral Sir Archibald Moore, K.C.B., C.V.O; and "Indomitable," Captain Francis W. Kennedy.

The Light Cruisers "Southampton," flying the broad pendant of Commodore William E. Goodenough, M V.O.; "Nottingham," Captain Charles B. Miller; "Birmingham," Captain Arthur A. M. Duff; and "Lowestoft," Captain Theobald W. B. Kennedy, were disposed on my port beam.

Commodore (T) Reginald Y. Tyrwhitt, C.B., in "Arethusa," "Aurora," Captain Wilmot S. Nicholson, "Undaunted," Captain Francis G. St John, M.V.O., "Arethusa," and the Destroyer Flotillas were ahead.

At 7-25 A.M., the flash of guns was observed S.S.E. Shortly afterwards a report reached me from "Aurora" that she was engaged with enemy's ships. I immediately altered course to S S.E. increased to 22 knots, and ordered the Light Cruisers and Flotillas to chase S.S.E. to get in touch and report movements of enemy.

This order was acted upon with great promptitude, indeed my wishes had already been forestalled by the respective Senior Officers, and reports almost immediately followed from "Southampton," "Arethusa," and "Aurora" as to the position and composition of the enemy which consisted of 3 battle Cruisers and "Blücher," 6 Light Cruisers, and a number of Destroyers, steering N. W. The enemy had altered course to S.E. From now onwards the Light Cruisers maintained touch with the enemy, and kept me fully informed as to their movements.

The Battle Cruisers worke[illegible] to full speed, steering to the southw[illegible]. The wind at the time was N.E. [illegible]ight, with extreme visibility. At 7-[illegible] A.M., the enemy were sighted on [illegible] port bow steaming fast, steering [illegible]imately S.E., distant 14 miles.

[illegible]wing to the prompt reports received we had attained our position on the quarter of the enemy, and so altered course to S.E. parallel to them, and settled down to a long stern chase, gradually increasing our speed until we reached 28·5 knots. Great credit is due to the Engineer Staffs of "New Zealand" and "Indomitable"—these ships greatly exceeded their normal speed.

At 8-52 A.M., as we had closed to within 20,000 yards of the rear ship, the Battle Cruisers manœuvred to keep on a line of bearing so that guns would bear, and "Lion" fired a single shot, which fell short. The enemy at this time were in single line ahead, with Light Cruisers ahead and a large number of Destroyers on their starboard beam.

Single shots were fired at intervals to test the range, and at 9-9 A.M. "Lion" made her first hit on the "Blücher," No. 4 in the line. The "Tiger" opened fire at 9-20 A.M. on the rear ship, the "Lion" shifted to No. 3 in the line, at 18,000 yards, this ship being hit by several salvoes. The enemy returned our fire at 9-14 A.M. "Princess Royal," on coming into range, opened fire on "Blucher," the range of the leading ship being 17,500 yards, at 9-35 A.M. "New Zealand" was within range of "Blücher," which had dropped somewhat astern, and opened fire on her. "Princess Royal" shifted to the third ship in the line, inflicting considerable damage on her.

Our flotilla cruisers and destroyers had gradually dropped from a position broad on our beam to our port quarter, so as not to foul our range with their smoke, but the enemy's destroyers threatening attack, the "Meteor" and "M" Division passed ahead of us, Captain the Hon. H. Meade, D S.O., handing this Division with conspicuous ability.

About 9-45 A.M., the situation was as follows:—"Blucher", the fourth in their line, already showed signs of having suffered severely from gun-fire; their leading ship and No. 3 were also on fire. "Lion" was engaging No. 1, "Princess Royal" No. 3, "New Zealand" No. 4, while the "Tiger," who was second in our line, fired first [illegible] their No. 1, and when interfered with [illegible] smoke, at their No. 4.

The enemy's destroyers [illegible]mitted columns of smoke to screen their battle cruisers, and under cover of this the latter now appeared to have [illegible]ed course to the northward to increa[illegible] their distance, and certainly the rea[illegible] ships hauled out on the port quarter of their leader, thereby increasing the[illegible] distance from our line. The battle cruisers, therefore, were ordered to form a line of bearing N.N.W., and proceed at their utmost speed.

Their destroyers then showed evident signs of an attempt to attack. "Lion" and "Tiger" opened fire on them, and caused them to retire and resume their original course.

The Light Cruisers maintained an excellent position on the port quarter of the enemy's line, enabling them to observe and keep touch, or attack any vessel that might fall out of the line.

At 10-48 A.M., the "Blücher," which had dropped considerably astern of enemy's line, hauled out to port, steering north with a heavy list, on fire, and apparently in a defeated condition. I consequently ordered "Indomitable" to attack enemy breaking northward.

At 10-54 A.M., submarines were reported on the starboard bow, and I personally observed the wash of a periscope, two points on our starboard bow. I immediately turned to port.

At 11-3 A.M., an injury to the "Lion" being reported as incapable of immediate repair, I directed "Lion" to shape course

N. W. At 11-20 A.M., I called the "Attack" alongside, shifting my flag to her at about 11-35 A.M. I proceeded at utmost speed to rejoin the Squadron, and met them at noon retiring N. N. W.

I boarded and hoisted my flag in "Princess Royal" at about 12-20 P.M., when Captain Brock acquainted me of what had occurred since the "Lion" fell out of the line, namely that "Blücher" had been sunk and that the enemy Battle Cruisers had continued their course to the eastward in a considerably damaged condition. He also informed me that a Zeppelin and a seaplane had endeavoured to drop bombs on the vessels which went to the rescue of the survivors of "Blücher".

The good seamanship of Lieut.-Commander Cyril Callaghan, H.M.S. "Attack," in placing his vessel alongside the "Lion" and subsequently the "Princess Royal" enabled the transfer of flag to be made in the shortest possible time.

At 2 P.M., I closed "Lion" and received a report that her starboard engine was giving trouble owing to priming, and at 3-38 P.M., I ordered "Indomitable" to take her in tow, which was accomplished by 5 P.M.

The greatest credit is due to the Captains of "Indomitable" and "Lion" for the seamanlike manner in which the "Lion" was taken in tow under difficult circumstances.

The excellent steaming of the ships engaged in the operation was a conspicuous feature.

I attach an appendix giving the names of various officers and men who specially distinguished themselves.

Where all did well it is difficult to single out Officers and Men for special mention, and as "Lion" and "Tiger" were the only ships hit by the enemy, the majority of these I mention belong to those ships.

I have the honour to be, Sir,
Your obedient servant,
(Signed) DAVID BEATTY,
Vice-Admiral.

OFFICERS

Commander Charles A. J. Fountaine, H.M.S. "Lion."

Lieutenant-Commander Evan C. Bunbury, H.M.S. "Lion"

Lieutenant Frederick T. Peters, H. M. S. "Meteor."

Lieutenant Charles M. R. Schwerdt, H.M.S. "Lion."

Engineer-Commander Donald P. Green, H.M.S. "Lion."

Engineer-Commander James L. Sands, H.M.S. "Southampton."

Engineer-Commander Thomas H. Turner, H.M.S. "New Zealand."

Engineer-Lieutenant-Commander George Preece, H.M.S. "Lion."

Engineer-Lieutenant Albert Knothe, H.M.S. "Indomitable."

Surgeon Probationer James A. Stirling, R.N.V.R., H.M.S. "Meteor."

Mr. Joseph H. Burton, Gunner (T) H.M.S. "Lion."

Chief Carpenter Frederick E. Dailey, H.M.S. "Lion."

PETTY OFFICERS AND MEN.

Petty Officer John William Kemmett, O.N. 186788, H.M.S. "Lion."

Able Seaman Henry Davis, O.N. 184526, H.M.S. "Tiger."

No. 326.—The promotion to the present rank of Majors James Woods, M.B., and Roger Durant Willcocks, M B, published in Army Department Notification No. 122, dated the 6th February 1914, is antedated from the 29th January 1914 to the 29th July 1913.

INDIAN SUBORDINATE MEDICAL DEPARTMENT.

ASSISTANT SURGEON BRANCH.

Bengal Establishment.

No. 327.—The undermentioned 3rd Class Assistant Surgeons, having completed five years' service in that class and passed the required departmental examination, to be 2nd Class Assistant Surgeons, with effect from the 2nd March 1915 —

Louis Victor Jaensch.
Frank Walton [illegible]son.
Ambrose McCurtis.
James Samuel Salt.
Philip Bell.
Henry James John Fordham.

Madras Establishment.

No. 328.—The undermentioned 2nd Class Assistant Surgeons, having completed five years' service in that class, to be 1st Class Assistant Surgeons, with effect from the 31st March 1915:—

Charles Henry Arthur Alderton, L.R.C.P. and S.E., L.F.P S (Glas.).

Waldemar Herman Passanha.

Percy St. Clair Trutwein.

Patrick St. Clare Stracey.

No. 329.—The undermentioned 3rd Class Assistant Surgeons, having completed five years' service in that class and passed the required departmental examination, to be 2nd Class Assistant Surgeons, with effect from the 31st March 1915:—

Thomas Joseph Gibson, L.M.S. (Lond.), L.R F.P. and S. (Glas.), L.M. (Dub.).

Joseph Hillier Spencer Huffton.

Lawrence Peter Gernon.

Clement Davidson Delaney.

Bombay Establishment.

No. 330.—The undermentioned 3rd Class Assistant Surgeon, having completed five years' service in that class and passed the required departmental examination, to be 2nd Class Assistant Surgeon, with effect from the 31st March 1915 :—

John Alexander Gueizelar.

SUB-ASSISTANT SURGEON BRANCH.

Bengal Establishment.

No. 331.—2nd Class Senior Sub-Assistant Surgeon, ranking as Jemadar, Ilahi-baksh (E), to be 1st Class Senior Sub-Assistant Surgeon, ranking as Subadar, and No. 728, 1st Class Sub-Assistant Surgeon *Rai Sahib* Har-parshád (E) to be 2nd Class Senior Sub-Assistant Surgeon, ranking as Jemadar, *vice* 1st Class Senior Sub-Assistant Surgeon, ranking as Subadar, Shaikh, Abdul Ghafur, retired ; with effect from the 23rd February 1915.

No. 332.—No. 727, 1st Class Sub-Assistant Surgeon Dharm Singh (E), to be 2nd Class Senior Sub-Assistant Surgeon, ranking as Jemadar, *vice* 2nd Class Senior Sub-Assistant Surgeon, ranking as Jemadar (supernumerary 1st Class Senior Sub-Assistant Surgeon) *Rai Bahadur* Din Dayal, deceased ; with effect from the 8th February 1915.

(E) Passed in English.

NATIVE ARMY.

APPOINTMENTS AND PROMOTIONS.

No. 333.—The following promotions are made :—

1st Duke of York's Own Lancers (Skinner's Horse).

Dafadar Muhammad Taqi Khan to be Jemadar, *vice* Muhammad Ismail Khan, transferred to the pension establishment ; with effect from the 18th February 1915.

3rd Skinner's Horse.

Jemadar Amar Singh to be Ressaidar, *vice* Malam Singh, dismissed from the service ; with effect from the 21st January 1915.

28th Light Cavalry.

Kot-Dafadar Ismail Sharif to be Jemadar, *vice* Abdul Aziz, transferred to the pension establishment ; with effect from the 16th March 1915.

14th King George's Own Ferozepore Sikhs.

Havildar Mewa Singh to [illegible]r, to complete the establishment ; with effect from the 28th January 1915.

31st Punjabis.

Havildar [illegible]tab Singh to be Jemadar, to complete the establishment ; with effect from the 5th [illegible]y 1915.

57th Wilde's Rifles (Frontier Force).

Havildar Gyan Singh to be Jemadar, to complete the establishment ; with effect from the 31st October 1914.

67th Punjabis.

Havildar Khem Singh to be Jemadar, to complete the establishment ; with effect from the 4th January 1915.

Jemadar Muhammad Din to be Subadar and Colour-Havildars Gopal Singh, Shakar Khan, Allah Dad Khan, Ilam Din and Kalu and Havildars Rahmat Ali and Gajandhar Singh to be Jemadars, to complete the establishment ; with effect from the 7th March 1915.

84th Punjabis.

Colour-Havildar Dasaundha Singh to be Jemadar, *vice* Partab Singh, transferred to the pension establishment ; with effect from the 27th March 1915.

92nd Punjabis.

Jemadar Pohu Singh to be Subadar and Havildar Chet Singh to be Jemadar, *vice* Mastan Singh, transferred to the pension establishment ; with effect from the 15th February 1915.

96th Berar Infantry.

Jemadar Niamat Khan to be Subadar and Colour-Havildar Allaud Din to be Jemadar, to complete the establishment; with effect from the 5th March 1915.

122nd Rajputana Infantry.

Jemadar Chittar to be Subadar and Havildar Julim to be Jemadar, *vice* Shedu, transferred to the pension establishment; with effect from the 1st March 1915.

129th Duke of Connaught's Own Baluchis.

Jemadars Nawab Khan and Mir Badshah (II) to be Subadars; with effect from the 31st October 1914.

Havildars Sohbat Khan and Sharbat Khan to be Jemadars; with effect from the 21st December 1914.

1st Battalion, 3rd Queen Alexandra's Own Gurkha Rifles.

Jemadars Lachhman Gurung and Keshbir Gurung to be Subadars and Colour-Havildars Ahiman Thapa and Bajiram Pun to be Jemadars, to complete the establishment; with effect from the 5th March 1915.

2nd Battalion, 4th Gurkha Rifles.

Havildar Bhagatbir Thapa to be Jemadar, to complete the establishment; with effect from the 22nd February 1915.

SUPPLY AND TRANSPORT CORPS.

62nd Grantee Camel Corps.

Quartermaster-Dafadar Mir Alam Khan, appointed Risaldar on probation, is confirmed in that rank; with effect from the 10th March 1914.

PENSIONS.

WARRANT OFFICERS.

(a) From the 22nd to the 28th March 1915.

(b) For the week ending 27th March 1915

L. C. PORTER,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hours on Thursday, the 8th April 1915, based on the Indian Daily Weather Reports of the period.

1 Widespread rain occurred during the week in northern India, chiefly owing to a depression of the winter type which appeared in Baluchistan on the 3rd and broke up in the Simla and Mussooree hills at the close of the week It gave nearly general rain in Baluchistan, the North-West Frontier Province, the east and north Punjab and the United Provinces. The precipitation occasioned by it was moderately heavy in the hills, but light in the plains. Thunderstorms occurred in the Central Provinces and at a few places in the Peninsula and Burma, and southerly winds from the Bay gave fairly general rain in Assam and the adjoining districts of Bengal.

2. *Burma.*—Only a few falls of rain were reported, chiefly from Upper Burma

Northeast India, including Orissa.—Rainfall was nearly general in Assam on the 1st, 2nd, 4th and 7th. Local falls occurred in north and east Bengal.

The United Provinces, Central India and the Central Provinces—Thundershowers were fairly numerous in the United Provinces on the 6th and 7th, and a few were reported from the Central Provinces.

Northwest India—There was nearly general rain in Baluchistan on the 4th; in the North-West Frontier Province on the 1st and 5th, and in the east and north Punjab on the 6th.

The Peninsula.—Only a few falls of rain were reported.

3. The chief amounts of rainfall were as follows :—

April 1st. Sibsagar 1·80", Narayanganj 1·75", Dera Ismail Khan 1·14", Parachinar 1·00" and Khushab 0·83"

„ 2nd. Silchar 3·20", Gauhati 1·05" and Tezpur 1·02".

„ 3rd. Sibsagar 1·08", Gauhati 2·52", Silchar 1·63" and Cherrapunji 1·74".

„ 4th. Silchar 1·28", Chittagong 1·52", Narayanganj 1·11", Khushab 0·68", Parachinar 1·57", Fort Sandeman 1·00" and Calicut 1·18".

„ 5th. Cherat 1·67", Parachinar 1·23", Drosh 1·37", Peshawar 0·90" and Fort Sandeman 0·89".

„ 6th. Peshawar 1·28" and Sonamarg 1·46".

„ 7th. Mukteswar 0·93", Delhi 0·79", Srinagar 0·91" and Simla 1·14".

4. The rainfall of the week was 20 per cent or more in excess in Upper Burma, Assam, Bengal, the United Provinces, the Punjab, the North-West Frontier Province, Baluchistan, Central India East, Berar, the Central Provinces East, Hyderabad North and Malabar, and normal in Kashmir and the Central Provinces West. No rain usually falls at this time of year in Sind, Rajputana West, Gujarat, Central India West and the Konkan; but in the remaining divisions rainfall was 20 per cent or more in defect.

The rainfall from 4th December to date is 20 per cent or more in excess in every division, except Orissa, Kashmir, Baluchistan and Sind, where it is 20 per cent or more in defect.

Division.	Rainfall data for week ending on 8th April 1915.			Rainfall data from 4th December 1914 to 8th April 1915.				
	Actual rainfall in inches.	Normal rainfall in inches.	Excess or defect in inches.	Actual rainfall to date in inches.	Normal rainfall in inches.	Excess or defect in inches.	Percentage departure from normal. This week.	Percentage departure from normal. Last week.

L. J. KERSHAW,
Secretary to the Government of India.

SIMLA;
Dated 5th April 1915.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 3rd April 1915.

Burma.—The rainfall during the week was light and fairly general. Cultivation of summer rice and reaping of spring rice, tobacco and miscellaneous island crops are progressing normally. Standing crops are generally doing well. Live stock is healthy. The price of unhusked rice at Rangoon has risen slightly but continues to be much below normal.

Assam.—Moderate to heavy rain fell throughout the Province. Hoeing, pruning and plucking of tea and ploughing of land for sowing of rice and jute are in progress. Pressing of sugarcane is approaching completion. The price of common rice is almost stationary. Cattle disease is reported from five districts.

Bengal.—Light to moderate rain fell throughout the Province. It has helped the cultivation and sowing of autumn paddy and jute and has been favourable to the growth of *boro* paddy. Harvesting of spring crops and pressing of sugarcane are approaching completion. The condition and prospects of standing crops are fairly good. Damage to *boro* paddy by insect pests and by hail is reported from parts of Khulna. Cattle disease is reported from thirteen districts. The average price of common rice shows a slight tendency to rise as compared with that of the previous week.

Bihar and Orissa.—Light rain fell in the Bhagalpur division and in parts of Orissa and Chota Nagpur. Planting of sugarcane and harvesting of spring crops continue. Preparation of lands for the next season's crops is going on. Standing crops and vegetables are doing well. The average price of common rice has risen as compared with that of the preceding week. The supply of fodder and water is sufficient. Cattle disease is reported from thirteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Light rain fell throughout the Provinces. Standing crops are doing well. Rain, hail, wind and insects have caused slight damage to crops in ten districts. Harvesting, threshing and reaping of spring crops continue and are nearing completion in places. Irrigation of extra crops and sugarcane, sowing and hoeing of cane and preparation of lands for autumn crops are in progress. Sowing of early rice has commenced in places and extraction of opium has been almost completed. Cattle disease is still reported from fift[illegible] districts. Otherwise the condition of agricultural stock is good. Fodder and water are sufficient but the supply of the latter is failing in Mirzapur and Jhansi. Markets are well stocked. Prices have generally fallen.

Punjab.—Light to moderate rain has fallen in parts of the south-east and in all the reporting districts in the west. Elsewhere the weather was dry. The condition and expected yield of standing wheat and other spring crops are good. Reaping of gram, barley and rapeseed is in progress and their yield is normal to good. Sowings of extra spring crops, except in the south-east, and ploughings for and sowings of sugarcane and cotton continue and are normal. Cattle are healthy and fodder and water for drinking and irrigation are sufficient. Prices are either stationary or are falling slightly but generally approximate to or are above scarcity rates. Prices of wheat :—Ambala 6⅜, Ferozepore and Lahore 7¾, Rawalpindi 9⅜ and Lyalpur 7½ seers per rupee.

North-West Frontier Province.—The rainfall was general throughout the Province. The weather is cloudy and cold. Standing crops both on irrigated and unirrigated lands are fairly good but in certain villages of the Dera Ismail Khan and Kulachi tahsils the crops have been damaged severely by hail storms. Harvesting of barley, gram and oilseeds has commenced in the Marwat tahsil of the Bannu district and *sarshaf* and barley are being reaped in some places in the Peshawar district. Sowing of extra spring crops has commenced in Dera Ismail Khan and continues in the Peshawar and Bannu districts The condition of cattle is generally good. Fodder and water are procurable. Prices are high and stationary in Peshawar but are falling in Bannu and Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 7 to 13¼ and maize from 9½ to 20 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—The rainfall during the week was good in Muzaffarabad and insignificant elsewhere. Spring crops are in good condition. Agricultural operations for autumn crops are in progress. Cattle are generally healthy. Prices are rising in the Baramula tahsil and are normal elsewhere. Fodder and water are sufficient.

Rajputana.—Slight showers were received in parts of eastern Rajputana and Ajmer. There were hail storms in Jaipur and Bharatpur. The weather is clear and is becoming generally hot. Harvesting of spring crops is in progress. Standing crops are in fair condition. Prospects are favourable but have been rendered less so by rain and hail in southern and eastern Rajputana including Jaipur. The condition of cattle is generally good. Fodder and water are sufficient. Prices are high but show a tendency to fall in most States and in Ajmer-Merwara.

Central India.—The rainfall was partial in Bhopal slight in the Orchha, Datia, Chhatarpur and Sarila States of Bundelkhand and *nil* elsewhere. The weather is seasonable. Harvesting of spring crops is in progress. Land is being prepared for autumn crops in the Nimar district of Indore and in the Southern States. The probable outturn is generally good. Crops have been damaged by hail in portions of the Orchha, Datia, Panna and Beri States of Bundelkhand. Agricultural stock is generally in good condition except in the Indore district and the Sundarsi pargana of Indore, the Nagod State of Baghelkhand and parts of Dhar where there is cattle disease. The fodder supply is sufficient throughout. Prices are high in Bhopal and Baghelkhand, are falling in Avasgarh and in the Bijawar, Chhatarpur and Sarila States of Bundelkhand, are fluctuating slightly in Indore and are steady elsewhere.

Central Provinces.—The weather has been warm and occasionally cloudy. Harvesting of spring crops is approaching completion. Threshing and winnowing are in progress. Preparation of lands for autumn crops continues. The supply of fodder and water is adequate. Agricultural stock is in good condition. The price of wheat continues to fall generally and it is now cheaper by 2 seers per rupee in Buldana. Variations in the prices of other food grains are unimportant.

Feudatory States :—Reaping, threshing and winnowing of spring crops continue. Ploughing and preparation of land for autumn sowings are in progress.

Bombay.—Slight rain fell during the week in Sukkur, Thar and Parkar and Dharwar. Spring crops have been damaged slightly by blight in three talukas of Thar and Parkar, by rats in one State of Rewa Kantha and by rust in one taluka of Hyderabad. Cotton picking is progressing in Gujarat, West Khandesh, Satara, the Karnatak, Baroda, Rewa Kantha, Cutch and Kolhapur. Harvesting of spring crops generally continues. The fodder supply is sufficient except in two *Mahals* of Karachi, two talukas of Thar and Parkar, one taluka of Nawabshah and one taluka of Hyderabad. Cattle are in good condition. Agricultural stock is sufficient except in Ahmednagar and Poona. Drinking water is adequate. Irrigation water is generally sufficient. Prices are generally steady.

Hyderabad.—Slight rain was received in parts. The average fall was 6 cents. Spring crops are being harvested. The late rice crop is generally fair to good and is being weeded in most parts. Cattle disease prevails in eight talukas. Prices of grains are almost constant. The highest price in districts is *Juar* 10 seers in Warangal and the lowest 22 seers in Gulbarga and Adilabad.

Mysore.—No rain fell during the week in Kadur and Shimoga but light rain was received elsewhere. The price of *ragi* has fallen in Kolar, Hassan and Shimoga. Markets are well supplied. The outturn of the harvested *ragi* and sugarcane is good and that of paddy, wheat, cotton and gram is fair. Ploughing operations are in progress. Paddy and sugarcane are being sown in parts. Standing crops are generally in good condition. Prospects of the season are generally good. Water and fodder are available.

Coorg.—Forty-six cents of rain fell during the week. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was fair in Ganjam, the Vizagapatam Agency, Godavari, Kistna, Cuddapah, Cochin and the Nilgiris and light or *nil* elsewhere. Standing crops are fair to good but have withered or require rain in parts of two districts. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. The water-supply is sufficient except in parts of Ganjam, Godavari, Guntur, the Deccan, Nellore, South Arcot, South Canara, the central parts except Coimbatore and the southern parts except Tinnevelly. Pasture is sufficient except in Guntur, the Deccan, Coimbatore, South Canara and in parts of three other districts. Fodder is generally sufficient. Prices are stationary.

L. J. KERSHAW,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTICE.

License to extract and purchase timber from the North and Middle Andaman Islands.

1. Notice is hereby given that the Government of India are prepared to consider tenders for a license to extract and purchase padauk and other timbers from—

(i) The North Andaman with Interview, Bennett, and all other islands North of Austin Strait.

(ii) The Middle Andaman excepting that portion to the West of Yoljig and South of the main line cleared from the junction of the Chara-lung-ta and Bom-lung-ta streams westwards to Mount Oldham and on to the sea.

2. Sites for depôts, sawmills, residences, and other purposes essential to the carrying out of the terms of the license will be made available at Port Cornwallis, Stewart Sound, and Long Island at the discretion of the Chief Commissioner of the Andaman and Nicobar Islands.

3. Tenders may be submitted for either or both of the above areas. The license will be for 20 years from the 1st January 1916, or such later date within six months of the acceptance of the tender as may be agreed upon, with the option of renewal for another 20 years on terms to be notified by the Government of India hereafter; but those persons whose tenders have been accepted will be permitted to clear land for buildings, and other purposes connected with the license, and to start the erection of such buildings, as from the date on which the agreement is signed and the security money deposited.

4. The fellings will be regulated by the working plans sanctioned, or to be sanctioned, by the Government of India. The two areas mentioned in paragraph 1 above will each be divided into three sub-periodic blocks. Felling and extraction of timber and the payment of royalty thereon must be completed in sub-periodic block I by the end of the first seven years of the license, work being similarly completed in sub-periodic blocks II and III by the end of the 11th and 15th years, respectively. Throughout the period of the agreement the Secretary of State for India in Council will retain the right to extract from the licensed areas timber required for local (other than trade) purposes and for local public works, and in any sub-periodic block on the expiry of the period allotted for the working thereof to issue licenses or otherwise provide for the felling, extraction, and disposal of timber which the licensees have omitted or are not bound to extract.

5. The padauk trees to be felled will be marked previously by the Forest Department, and none but marked trees shall be felled. The first sub-periodic block in each area will be located in the neighbourhood of Stewart Sound.

6. The minimum annual outturn of padauk timber for the first fourteen years after which the present working plan will be revised, is estimated as follows, but the accuracy of the estimate is not guaranteed :—

(i) From the North Andaman including Interview and Bennett Islands—

1,200 sound trees of and over 9 feet in girth,

1,000 exploitable unsound trees,

which may be expected to yield—

2,100 tons of first class logs.

1,400 tons of second class logs.

2,000 tons of third class logs.

(ii) From the Middle Andaman—

2,400 sound trees of and over 9 feet in girth,

2,000 exploitable unsound trees,

which may be expected to yield—

4,200 tons of first class logs.

2,800 tons of second class logs.

4,000 tons of third class logs.

The outturn for the last six years of the license will be determined by working plans to be drawn up hereafter.

7. In addition the licensees will be permitted to cut, subject to previous marking, should this in the opinion of the Forest Officer be considered desirable, and to such limits as to area

and number as may be imposed by the Chief Commissioner of the Andaman and Nicobar Islands from time to time, other species as follows:—

Gurjan over 8 feet in girth, *didu* and *pyinma* over 7½ feet in girth, and *koko*, black *chulgam* white *chulgam*, white *bambwe*, red *bambwe*, and *lanngpein* over 6 feet in girth.

8. The timber will, in all cases, be measured in the round log either at the stump or at collecting depôts as may be found convenient by the Forest Department. All felled timber will be held to be at the risk of the licensees and to be liable to the payment of royalty which must be paid before removal from the islands or conversion in a sawmill.

9. For the first three years of the license royalty will be payable at the rates agreed on and on the amount of timber felled: but thereafter minima annual royalties will be payable as follows:—

(*i*) For the North Andaman, Rs. 1,00,000 per annum.

(*ii*) For the Middle Andaman, Rs. 1,00,000 per annum.

(*iii*) In case of a combined license for both islands Rs. 2,00,000 per annum.

10. Except with the special permission of the Divisional Forest Officer all padauk trees, sound or unsound, which have been marked by the forest officers as in their opinion worth conversion, must be felled and royalty paid on them.

11. Should the licensees desire to exploit any form of minor produce or any timber other than those species mentioned above they may be permitted to do so on terms to be settled hereafter by the Chief Commissioner of the Andaman and Nicobar Islands.

12. The licensees will be subject to such restrictions as the Government of India may prescribe to prevent communication between their employés and the convict population in the Andamans.

13. Subject to the general control of the Chief Commissioner of the Andaman and Nicobar Islands the cultivation of field crops solely for the support of the labour force will be permitted free of taxation.

14. Facilities will be provided at Stewart Sound for wireless telegraphy, and as far as may be possible for a weekly steamer or launch connection for postal purposes between this place and Port Blair.

15. Such padauk timber as may be available from departmental working in the areas not included in the first paragraph of this notice, or in sub-periodic blocks in which felling and extraction of timber has been completed by the licensees in accordance with the provisions of paragraph 4 above and as may not be required for local consumption in the islands or for issue to State-worked Railways or other Government departments in India and Burma, will be sold either by public auction or by public tender, provided that the quantity to be so sold annually, commencing from the first of January 1917, shall not exceed 500 tons of squares and 1,000 tons of scantlings. There will be no limit to the quantity of timber other than padauk which may be extracted from the areas under reference, and no restriction as to its disposal.

16. The Inspector-General of Forests, Simla, will answer calls for further information.

17. Tenders must be submitted on forms to be obtained from the Secretary to the Government of India in the Department of Revenue and Agriculture, and must be accompanied by a receipt for the payment into any Government Treasury of a sum of Rs. 1,500 in cash or in Government securities. This deposit will be returned to unsuccessful tenderers, but in the case of persons whose tenders have been accepted will be subject to forfeiture in the event of their failure to execute, within the time specified, the agreement referred to below.

18. All persons whose tenders have been accepted will be required to execute an agreement in a form approved by the Government of India, copies of which can be obtained on application to the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla. This agreement must be signed within three months of the acceptance of the tender.

19. Tenders, marked "Tender for Andamans Timber License," should be submitted so as to reach the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla, on or before the 1st September 1915. The Government of India do not undertake to accept the highest or any tender either for padauk or for other timbers, or to assign any reasons for the refusal or acceptance of any tender.

20. Without the written sanction of the Government of India no transfer, assignment or sub-letting of their license by the licensees will be valid.

APPROPRIATION REPORT

ON

THE ACCOUNTS

OF

THE GOVERNMENT OF INDIA

FOR

1913-14.

[Throughout the report any figure with the rupee sign before it represents the actual number of rupees. Otherwise rupee figures are in thousands of rupees and sterling figures in hundreds of £ ; thus, 10,64 reads as ten lakhs and sixty-four thousands of rupees and £71,2 reads as seventy-one thousands and two hundreds of pounds sterling. The rupee figures are converted into sterling amounts at R15=£1.]

INTRODUCTORY.

The present Appropriation Report has necessarily been prepared in the same form as last year. Any material alteration would require the sanction of His Majesty's Secretary of State. There is, however, no doubt that the report could with advantage be greatly curtailed in future years. At present a mass of detailed information is included, which involves much time and labour to compile, but which appears to serve no really useful purpose. The question of the reduction of the bulk of the report has already been under consideration and my predecessor put forward certain proposals on the subject. Quite recently also a despatch from the Secretary of State has been received suggesting a radical change. The question will now be further considered and I hope that next year the report will be presented in an abbreviated form.

GENERAL REVIEW.

Budget and Actuals: Imperial and Provincial.

Budget

2. As explained in the Financial Statement of the year the Budget for 1913-14 was framed on somewhat cautious lines. The agricultural prospects towards the close of the previous year were not unfavourable and a moderate increase was accordingly looked for under Land Revenue and those other heads, such as Salt, Stamps, Excise, etc., which more or less depend on agricultural conditions. In consequence, however, of the abolition of the appropriations formerly made from the land cess in certain provinces, a substantial reduction had to be made under Provincial Rates. Under Railways the estimate for Gross Receipts was placed at a quarter of a million less, and those for Working Expenses at half a million more, than the corresponding figures for the preceding year. This, coupled with a reduction under Surplus Profits paid to Companies on account of the adoption of the financial in place of the calendar year, resulted in a diminution of half a million in the net receipts from Railways. Some improvement was anticipated under Posts and Telegraphs, while under Mint no provision was made for receipts from the coinage of rupees. A falling off in revenue was provided for under Customs as it was expected that there would be a reaction after the recent abnormal exports of rice and that the imports of silver would decrease owing to a rise in price. The estimate of Interest receipts was placed at a lower figure in view of a reduction in the Home Treasury balances. As regards Opium, the extinction of the trade with China rendered it out of the question to build on any anticipations of revenue from the certified variety of the drug and provision was accordingly made for the sale of only 9,000 chests of uncertified opium at the moderate price of R1,800 per chest, the resulting loss as compared with the probable receipts for 1912-13 being thus over three and a half million sterling.

Expenditure.

3. In the expenditure section an advance of £4⅓ million over the approximate figures for the closing year was provided for. Of this £2¾ million

were absorbed by the various spending departments on the civil side, the greater portion being reserved for the introduction of further educational and sanitary reforms. A sum of over £½ million was earmarked for the purchase of Malwa opium, while Railways were responsible for an equal advance mainly on account of Interest charges. Increased provision to the extent of £½ million was also made under Irrigation and Other Public Works.

4. The total revenue for the year was placed at £82,324,5 and the total expenditure at £83,910,8, the net result being an Imperial surplus of £1,326,3 and a Provincial deficit of £2,912,6.

[l result.] 5. The actual result was an Imperial surplus of £2,312,4 and a Provincial deficit of £282,9.

[ue.] The agricultural conditions underwent some changes as the year advanced. The monsoon started early, but the distribution of the rainfall was irregular, and by September the rains practically ceased in the United Provinces and North-West and Central India. On the other hand, excessive rain, resulting in serious floods, occurred in parts of Bengal and Bihar and Orissa and later in Madras. Winter conditions set in earlier than usual in Northern India, but the much needed cold weather rains were again denied to the United Provinces, Central India and Rajputana and famine conditions were established in certain localities. On the whole, however, prosperous conditions prevailed over the greater part of the country. The actual receipts turned out to be better than the estimates by £2,882,7 of which the largest share, namely £695,4, was contributed by Customs. In the purely Imperial section of the accounts there were increases under Opium (£179,9) and Mint (£99,2) and in the other portion under Excise (£441,4), Irrigation (£309,3), Forest (£200,1), Assessed Taxes (£192,0) and Stamps (£100,1).

[iditure.] 6. On the expenditure side there was a saving of £733,2 as the result of the year's operations. This is mainly explained by the inability of the Local Governments to spend in full the amounts provided in their estimates, especially under Education and Medical, out of the Imperial grants. Portions of these allotments were, however, transferred to the Public Works Department for expenditure on educational and sanitary works, and this accounts for a large excess under Other Public Works. The figures under Railways were also [illegible]s, but the Army and Interest charges were considerably higher than the budget anticipations. The net result was an excess of £133,0 in the purely Imperial Section and a saving of £866,2 in the other portion of the accounts.

Summary of Results.

7. The following summary gives the more important variations between the accounts of 1913-14, the accounts of 1912-13, and the Budget of 1913-14 :—

These variations are fully explained under the major heads concerned an are only generally dealt with below.

8. (*a*) *Purely Imperial Heads*:—There was a net decrease of £2,88[illegible] in this section of the accounts as compared with the past year's actuals. The outstanding feature was the diminution of the opium revenue by £3,499,7 as the direct outcome of the extinction of the trade with China. Decreases also occurred under Mint (£147,6) and Interest (£123,0), while there were increases under Customs, (£361,0), Railways (£254,0), Post Office (£147,8) and Salt (£110,9). The falling off under Mint was due to the coinage of new rupees on a smaller scale, less profits on the circulation of bronze and nickel coins and to a contraction in the demand for the coinage of dollars. The diminution in the Interest receipts occurred in England and is accounted for by the fluctuations in the Home Treasury balances available for investment and the rate of interest realized thereon. The improvement under Customs reflects the prosperous conditions which prevailed over the greater part of the country. Increased imports of cotton manufactures, metals (other than silver), sugar, spirits, etc., accounted for enhanced receipts, which were, however, to a certain extent counterbalanced by a falling off in revenue from the export duty on rice, as the result of the diversion of the Burma shipments to India, and from the import duty on silver owing mainly to the banking and commercial crisis. Under Railways there was a substantial increase in the Gross Traffic Receipts which resulted mainly from improved Coaching traffic. This was, however, partly absorbed by a falling off in the Goods earnings mainly on the North Western, East Indian, Oudh and Rohilkhand, Southern Mahratta and the South Indian Railways and by a rise in working expenses. The expansion of the Postal revenue was the outcome of a prosperous year and improved trade conditions; while the bulk of the improvement under Salt occurred in Bengal and was due partly to a smaller growth of the outstandings under the credit system of sale and partly to increased consumption.

(b) *Purely Provincial and Divided Heads*:—The increase in this section was £1,232,6, which occurred mainly under Excise (£616,4), Irrigation (£302,0), Stamps (£249,2), Assessed Taxes (£207,8) and Land Revenue (£109,1). These variations are explained in paragraph 18 below.

ots: arison Budget.

9. (a) *Purely Imperial Heads*:—As compared with the Budget there was an increase of £1,225,3, which was mainly contributed by Customs (£695,4) and Opium (£179,9). As stated in paragraph 8 above the improvement in the Customs receipts was connected with the prosperous conditions prevailing over a large part of the country and was caused by a growth of the import trade in sugar, metals (other than silver), cotton manufactures, etc. The increase in the opium revenue was due to better prices obtained at the auction sales.

(b) *Purely Provincial and Divided Heads*:—Under these heads the improvement was £1,657,4 and appeared chiefly under Excise (£441,4), Irrigation (£309,3), Forest (£200,1), Assessed Taxes (£192,0) and Stamps (£100,1). The causes which brought about these variations are stated in paragraph 18 below.

diture: arison past s.

10. (a) *Purely Imperial Heads*:—There was an increase of £912,2 under these heads, which occurred mainly under Opium (£412,7), Railways (£266,4) and Army (£212,7), while there was a decrease under Interest (£312,0). The outlay on the purchase of Malwa opium referred to in paragraph 3 above explains the higher actuals under Opium; the increase under Railways represents higher interest charges on the Railway debt; while the increase in Army expenditure may be generally ascribed to the acquisition of land for the new Cantonment at Delhi and a rise in food charges consequent on higher prices. The decrease under Interest was brought about by the deduction of larger amounts on account of interest on Railway and Irrigation debt from the gross interest charges. The reduction would have been greater but for fresh borrowings during the year and the gradual growth of Post Office Savings Banks and other interest bearing deposits with Government.

(b) *Purely Provincial and Divided Heads*:—The expenditure under these heads increased by £3,024,5, chiefly under Other Public Works (£946,2), Education (£566,6), Miscellaneous (£271,4), Irrigation (£230,0), Police (£207,0), Land Revenue (£118,4), Superannuation (£115,2), and Courts of Law—Jails (£109,2). These variations, except in regard to the heads Miscellaneous and Irrigation, are explained in paragraph 20 below. The actuals under Miscellaneous included a special payment of £200,0 to the Maharaja of Mysore on account of the arrear surplus receipts of the Bangalore assigned tract, while under Irrigation the increase was distributed over working expenses, interest charges, minor irrigation works and the construction of protective works outside the programme of the Famine Insurance grant.

diture: rison udget.

11. (a) *Purely Imperial Heads*:—The charges under these heads exceeded the Budget figures by £133,0. There were important increases under Army (233,3) and Interest (£190,9), while there was a falling off under Railways (£236,9) and Opium (£123,0). The increase in Army expenditure was primarily due to increased food charges, while that under Interest followed chiefly from the transfer of larger sums to the Railway and Irrigation sections of the accounts. The decrease under Railways occurred under 'Interest on Debt' owing to the average rate for the year in regard to expenditure in England being lower than that adopted in the Budget, under 'Miscellaneous Railway Expenditure' as the result of the postponement of certain surveys, and under 'Subsidized Companies, etc.,' owing chiefly to the allotments for certain projects not being required. The reduced charges under Opium were partly due to smaller outlay on the purchase of Malwa opium than was anticipated and partly to less expenditure on cultivation.

(b) *Purely Provincial and Divided Heads*:—Under these heads the net result was a saving of £866,2. There were reduced charges under Education (£901,1), Medical (£682,9), and Scientific and other Minor Departments

(£105,0), while increases occurred under Other Public Works (£425,5), and Miscellaneous (£156,8). The saving under the first three heads resulted from the inability of the Local Governments to spend in full the allotments made for educational, sanitary, agricultural and various other reforms. Portions of these allotments were, however, transferred for expenditure under '45.—Civil Works' and this accounts for the rise under Other Public Works. The variation under Miscellaneous is accounted for by the special payment to the Mysore Durbar referred to in paragraph 10 (*b*) above.

12. The comparison of actuals with previous actuals and with the Budget under Imperial and Provincial separately is made in the following statement :—

	Actuals, 1912-13.	Budget, 1913-14.	Actuals, 1913-14.	Improvement over	
				Actuals, 1912-13.	Budget, 1913-14.
	£	£	£	£	£
Revenue.					
Imperial	53,628,5	53,044,3	54,218,1	+589,6	+1,173,8
Provincial	33,234,1	29,280,2	30,989,1	—2,245,0	+1,708,9
Total	86,862,6	82,324,5	85,20[illegible],2	—1,655,4	+2,882,7
Expenditure.					
Imperial	50,520,9	51,718,0	51,905,6	—1,384,7	—187,6
Provincial	28,720,0	[illegible],1[illegible]2,8	31,272,0	—2,552,0	+920,8
Total	79,240,9	[illegible]3,910,8	83,177,6	—3,93[illegible],7	+733,2
Surplus (+) or Deficit (—)					
Imperial	+3,107,6	+1,326,3	+2,312,5	—795,1	+98[illegible]
Provincial	+4,514,1	—2,912,6	—282,9	—4,797,0	+2,62[illegible]
Total	+7,621,7	—1,5[illegible],3	+2,029,6	—5,592,1	+3,61[illegible]

The falling off in the Imperial Section as compared with the previous year was brought about by the large special assignments given by the Government of India for education and sanitation.

Provincial Finance.

Quasi-Provincial settlement with Baluchistan.

13. No change was made during the year under report in the terms of any of the existing provincial settlements. The quasi-provincial settlement with the Local Administration of Baluchistan, which expired on the 31st March 1913, was renewed for a period of one year. This kind of settlement, which also exists in the case of the North-West Frontier Province, is different in character from the regular settlements with the remaining Provinces: no distinction is made in the general accounts between Imperial and Provincial receipts and expenditure, but a *pro forma* account is maintained outside the general accounts in which the Provincial balances are worked out.

Abolition of cesses in certain provinces.

14. An important fact which may be mentioned in connection with the administration of the Provincial funds during 1913-14 was the surrender of the land cess, hitherto appropriated by Government, to Local Funds in the provinces of Bengal, Bihar and Orissa, the United Provinces, the Punjab and the North-West Frontier Province. The loss entailed to Provincial revenues was made good by a corresponding subvention from Imperial funds. The new scheme was actually brought into operation in the year under report in Bengal and Bihar and Orissa.

ncial nue and nditure: get).

15. The following statement shows the provision made in the Budget for Provincial receipts and expenditure:—

Province.	Budget, 1913-14.		Resulting balance, increase of receipts over expenditure +, increase of expenditure over receipts —.
	Receipts.	Expenditure.	
Central Provinces	2,97,38	3,06,06	—8,68
Burma	5,18,94	5,77,48	—58,54
Assam	1,42,49	1,62,43	—19,94
Bengal	5,92,56	6,82,09	—89,53
Bihar and Orissa	2,85,56	3,31,65	—46,09
United Provinces	6,32,76	6,71,24	—38,48
Punjab	4,46,38	4,90,25	—43,87
Madras	7,40,37	8,20,58	—80,21
Bombay	7,35,59	7,87,14	—51,55
TOTAL	43,92,03	48,28,92	—4,36,89

It will be observed that in every province the Budget provided for an excess of expenditure over receipts. The opening balances, however, included portions of previous assignments made by the Government of India for specific purposes. An approximate account is kept of the expenditure from these earmarked assignments as it is not possible to obtain this information from the public accounts.

16. For purposes of comparison with the above the actual transactions of the year together with the opening and closing balances are given below :—

Province.	Opening balance.	Revenue.	Expenditure.	Surplus + Deficit—	Closing balance.
Central Provinces	90,72	3,06,84	2,88,03	+18,81	1,09,53
Burma	1,30,22	5,61,45	5,52,31	+9,14	1,39,36
Assam	78,07	1,61,07	1,83,25	—22,18	55,89
Bengal	3,13,30	6,21,41	6,16,60	+4,81	3,18,11
Bihar and Orissa	2,00,84	3,06,39	3,15,59	—9,20	1,91,64
United Provinces	1,84,23	6,80,06	6,79,55	+51	1,84,74
Punjab	1,77,84	4,61,43	4,68,35	—6,92	1,70,92
Madras	2,28,59	7,57,43	8,10,41	—52,98	1,75,61
Bombay	1,79,76	7,92,29	7,76,71	+15,58	1,95,34
TOTAL	15,83,57	46,48,37	46,90,80	—42,43	15,41,14

The balances shown above included unspent portions of earmarked assignments received from Imperial funds. These figures as well as the net

balances are given in the following statement. The minimum balances prescribed for the several provinces are also given for comparison with the net closing balances.

Analysis of Provincial Balances.

Provinces.	Opening balance, 1913-14.		Closing balance, 1913-14.		Prescribed minimum.
	Earmarked portion.	Net.	Earmarked portion.	Net.	
Central Provinces	(a) 32,53	(a) 58,19	33,75	75,78	10,00
Burma	91,79	38,43	67,52	71,84	12,00
Assam	40,55	37,52	30,18	26,71	10,00
Bengal	1,96,66	1,16,64	1,73,79	1,44,32	20,00
Bihar and Orissa	(a) 52,31	1,48,53	48,84	1,42,80	1[illegible]0
United Provinces	75,00	1,09,17	56,03	1,28,11	20,00
Punjab	(a) 51,58	1,26,26	31,46	1,39,46	10,00
Madras	1,00,20	1,28,39	72,55	1,03,06	20,00
Bombay	(a) 82,19	(a) 97,57	68,80	1,26,54	20,00

(a) Differs from last year's figures owing to corrections since made.

The net closing balances in all the provinces were largely in excess of the prescribed minimum.

Provincial Results.

17. The Provincial figures were :—

Province.	Revenue (excluding Imperial assignments) More + or Less — than		Expenditure More + or Less — than	
	Actuals, 1912-13.	Budget, 1913-14.	Actuals, 1912-13.	Budget, 1913-14.
Central Provinces	+2,93	+7,33	+13,49	—18,04
Burma	+15,88	+32,56	+32,73	—25,17
Assam	+5,48	+4,02	+41,28	+20,82
Bengal	—5,91	+27,75	+47,13	—65,48
Bihar and Orissa	—12,60	+10,25	+50,65	—16,06
United Provinces	+1,46	+20,45	+67,55	+8,31
Punjab	—3,45	+15,36	+32,91	—21,90
Madras	+21,17	+7,32	+45,33	—10,17
Bombay	+68,43	+53,44	+51,73	—10,43
Total	+93,39	+1,87,48	+3,82,80	—1,36,12

Revenue: Comparison with 1912-13.

18. The improvement of 93,39 was the net result of variations in both directions under the several heads. The most important increases were under Excise (67,47), Irrigation: Major Works, including portion of Land Revenue due to Irrigation (26,68), Stamps (17,32), Assessed Taxes (15,01), Forest (10,86), Land Revenue (9,93) and Registration (5,39), whereas the principal decreases were under Provincial Rates (55,69) and Civil Works (8,46).

The improvement under Excise occurred in all the provinces, except the Punjab, where there was a small falling off consequent on the transfer of Delhi to the Imperial Government. The largest share, *viz.*, 16,63, was contributed by Madras and was attributable to increased receipts from license fees for the sale of country spirits, an enhancement of the rates of duty on country spirits and of the tree-tax in certain districts, and the raising of the issue price of opium. In Bengal there was an increase of 10,30, due principally to increased receipts from licenses, an enhancement of the duty on country spirits, an extension of the contract supply system, and the raising of the duty on ganja. In Bombay an enhancement of the still-head duty and of the issue price of opium and larger exports of ganja were mainly instrumental in bringing about the improvement of 10,32. In the Central Provinces there was an increase of 7,65, which was mainly caused by keen competition at auctions, an enhancement of duty rates, and an extension of the distillery area. In Bihar and Orissa the principal factors in the improvement of 6,56 were the unrestricted auction sales insisted upon in several districts, an enhancement in the rate of duty on ganja, and a rise in the issue price of opium. The United Provinces also contributed 5,32 towards the increase owing to a rise in receipts from licenses.

Under Irrigation—Major Works (including portion of Land Revenue due thereto) the increase occurred chiefly in the United Provinces (13,68) and the Punjab (9,69). In the former province the increase was due to a larger demand for canal water owing to the failure of the monsoon of 1913, while in the latter it was the result of the imposition of new and enhanced rates in the Canal Colonies and other tracts.

Under Stamps the improvement occurred in all the provinces, the largest increase being in Bengal (5,83), as the result of larger duty paid on probate and letters of administration, prosperity in the jute trade, and settlement operations. There was also an increase of 3,37 in Bombay, where the sale proceeds of court-fee stamps advanced considerably owing to increased litigation.

Under Assessed Taxes the increase occurred practically in all the provinces and was mainly due to improved trade conditions. The improvement was most marked in Bengal (5,43) and Bombay (4,72).

Under Forest the improvement was contributed by all the provinces, except Assam, where there was a slight falling off. The largest increase occurred in Burma (5,64) and was due to increased extraction of timber by lessees and licensees and a favourable floating season.

Under Land Revenue the increase (excluding Imperial assignments) occurred mainly in Bombay (42,67) and Burma (7,40) and was chiefly due to favourable agricultural conditions. These increases were, however, partly counterbalanced by decreases in the United Provinces (24,77) and the Punjab (12,02). The falling off in the former province was chiefly attributable to agricultural distress consequent on the failure of the *Kharif* crop of 1913, while in the latter the decrease was due to smaller receipts from the sale of proprietary rights in the Chenab Colony.

Under Registration the improvement was shared by all the provinces and was mainly due to normal growth and the favourable economic conditions which prevailed during the year. The largest increases took place in Bengal (1,93) and Madras (1,00).

Under Provincial Rates the decrease (55,69) was due to the surrender of the Public Works cess to the District Boards in Bengal (30,71) and Bihar and Orissa (24,82) with effect from 1913-14.

Under Civil Works the decrease occurred in the Central Provinces (10,74) and is explained by the fact that the actuals for 1912-13 included the sale-proceeds of the Ballarpur colliery (7,50) as well as the income derived from it in that year (3,43).

19. Excluding Land Revenue and Miscellaneous, which include abnormal items, the increase or decrease of revenue in the various provinces was as follows:—

	Increase + Decrease —.
Central Provinces	+ 1,02
Burma	+ 8,95
Assam	+ 5,18
Bengal	— 2,23
Bihar and Orissa	—13,76
United Provinces	+24,09
Punjab	+12,27
Madras	+24,88
Bombay	+26,98
TOTAL	+87,38

Excise contributed mostly to the increases in Madras and Bombay, while Irrigation revenue was chiefly responsible for the improvement in the United Provinces and the Punjab.

Expenditure: Comparison with 1912-13.

20. The chief items in the total increase of 3,82,80 in expenditure over that of 1912-13 were under Civil Works (1,52,15), Education (84,86), Police (25,17), Superannuation Allowances and Pensions (16,29), Jails (15,16), Land Revenue (14,34), Courts of Law (14,07), Political (13,40), Medical (8,57), and Minor Works and Navigation (7,35).

Under Civil Works the increase occurred in all the provinces and was due in a large measure to the expenditure incurred from the special Imperial grants for education, sanitation and other services. The largest increase (28,18) occurred in the Punjab and was due to grants to Local Bodies for sanitary works, which were formerly debited to 24—Medical, being treated as Civil Works expenditure in 1913-14, to additional contributions to District Boards for metalled roads, and to higher expenditure on civil buildings and communications. Bihar and Orissa contributed 23,42, mainly as the result of larger grants to Municipalities and District Funds for water-supply and drainage schemes, and of larger expenditure on communications. In Assam there was an increase of 23,02, owing to larger outlay on the construction of the Mishmi Road and other works in the North-East Frontier and on educational and police buildings and to larger grants to Municipalities and Local Bodies for roads and water-supply schemes. In Bombay the actuals advanced by 21,19, mainly owing to larger outlay on buildings and roads and to larger grants to municipalities for water-supply schemes. In Burma the increase of 18,55 was mainly accounted for by larger expenditure from the Imperial grants for sanitation, communications, etc., as well as increased outlay on medical relief and agriculture and on contributions to District Funds. In the United Provinces the increase (16,20) was due to certain special grants to the District Boards from Imperial assignments in anticipation of the introduction of the scheme for the improvement of the District Boards' resources by the surrender of the local rates in the province of Agra. In Bengal the figures advanced by 12,17, owing mainly to the construction of several new civil buildings and to larger outlay, from the special Imperial grants, on educational and other buildings. In Madras there was an increase of 8,26, which was due to larger grants to Local Bodies for the construction of educational buildings and of roads.

Under Education the increase occurred in all the provinces and was due chiefly to expenditure incurred out of the special Imperial assignments granted for education. The largest increase, *viz.*, 21,94, occurred in the United Provinces and was due to larger grants to District and Municipal Boards, partly to compensate the former for the loss involved in the non-introduction of the scheme for improving their resources. In Madras there was an increase of 13,98, which was chiefly the result of the payment of larger subsidies to Local Boards and Municipalities for the expansion of elementary

education and of increased grants out of Imperial assignments. Bombay contributed 11,41, which was principally due to larger payments in support of local schools, increased expenditure on the development of technical education and larger result grants and building grants. In Bihar and Orissa the increase of 10,87 was due mainly to larger grants to Local Bodies for schools. In the Punjab there was an increase of 10,23, which was due to larger grants to Local Bodies and private institutions for the improvement of education and the erection of school buildings. Moderate increases also occurred in Bengal (7,35) and Burma (5,80), which were mainly due to increased expenditure out of the Imperial grants for education.

Under Police the bulk of the increase occurred in Bengal (10,71) and Bihar and Orissa (4,45), and was due chiefly to the introduction of reforms and the strengthening of the Department. In Madras there was an increase of 4,31 owing to recruitment to make up the sanctioned strength, increased expenditure on clothing and uniform, and the establishment of criminal settlements.

Under Superannuation Allowances and Pensions the increase occurred practically in all the provinces and was due partly to the normal growth of the pensionary charges and partly to increased payments in connection with the commutation of pensions.

Under Law and Justice—Jails the largest increase occurred in Bengal (3,01), the bulk of which was due to larger dietary expenses owing to high prices. Bihar and Orissa contributed 2,74, the greater part of which represented larger outlay on raw materials and stores to meet demands from the Military Department. In Burma large purchases of rations for consumption during 1914-15 were responsible for almost the whole of the increase (2,67). There was also an increase in the United Provinces (2,36), which was due to larger grants to the Salvation Army in connection with the reformation of criminal tribes and higher outlay on dietary charges.

Under Land Revenue there were increases in all the provinces. The largest was in Madras (4,85) and occurred under District Administration. There was also an increase in Bengal (2,05) which was due mainly to the expansion of survey and settlement operations.

Under Courts of Law the principal increases were in Bengal (3,99), Madras (3,07), the United Provinces (2,29), and the Central Provinces (2,09). In Bengal the greater part of the increase was due to the revision of the Sub-Judicial Service, the creation of an additional appointment of District and Sessions Judge, the payment of grain compensation allowance on a more extensive scale, and the appointment of additional Sub-Deputy Collectors as Circle Officers. In Madras the increase was due mainly to the establishment of a large number of temporary Sub-Courts, increased clerical establishments of District Munsiffs' Courts, and larger outlay on diet and road money. In the United Provinces the increase occurred chiefly in salaries. In the Central Provinces the amalgamation of the Central Provinces and Berar Commissions, the appointment of a Legal Remembrancer and an additional Judicial Commissioner, and the revision of the process-serving and sub-divisional establishments were the principal causes of the increase.

Under Political Assam showed an increase of 2,23 in connection with the administration of the North-East Frontier, and Burma a rise of 4,19 owing to the formation of the new Putao district and the occupation of Hpimaw.

Under Medical there was an increase of 8,56 in the United Provinces, which was accounted for mainly by higher outlay on sanitation and in connection with plague, on the revision of the pay of Assistant Surgeons, on the Medical College at Lucknow, and on contributions to District Boards. The increase in Madras amounted to 4,34, which included a special payment of 2,19 to the Edward VII Memorial Fund and a larger contribution to the Madras Corporation (1,00) for anti-malarial operations. Bombay showed an increase of 3,71 principally owing to payments to the College of Physicians and Surgeons, and Bengal an advance of 2,09, due mainly to increased grants to hospitals and dispensaries out of the Imperial assignments. In the Punjab there was a decrease of 12,10 owing chiefly to the adjustment of

expenditure on grants for sanitary works under Civil Works—Civil and to the fact that the actuals for 1912-13 included a special grant of 6,00 to the Central Research Institute.

The largest increase under Minor Works and Navigation occurred in Madras and was due mainly to special repairs on the Buckingham Canal and on certain tanks and anicuts, and to the fact that the Tank Restoration Scheme Division was in existence for the whole year instead of a part only as in 1912-13.

Quasi-Provincial Revenue and Expenditure: North-West Frontier Province and Baluchistan.

21. The following statement shows the provision made in the Budget for the quasi-provincial receipts and expenditure relating to the North-West Frontier Province and Baluchistan. The actual figures as well as the opening and closing balances are also given :—

Province.	Budget, 1913-14.			Opening Balance.	Actuals, 1913-14.			Closing Balance.
	Receipts including assignments.	Expenditure.	Net.		Receipts including assignments.	Expenditure.	Net.	
North-West Frontier Province	51,31	56,14	—4,83	8,00	55,58	57,22	—1,64	6,96
Baluchistan . .	22,06	23,28	—1,22	4,91	24,41	24,16	+25	5,16

All the assignments received from Imperial funds for specific expenditure were fully spent during the year.

EXPENDITURE UNDER OBJECTION.

Civil Department.

ANALYSIS OF OUTSTANDING OBJECTIONS.

Balances of objections on 31st July 1914

22. The balances of the several classes of objections raised up to the 31st March 1914, but remaining unadjusted on the 31st July 1914, are given in the following statement. The corresponding figures for the previous year are also shown for purposes of comparison.

Province.	Suspense.		Items awaiting clearance.	Service payments for recovery.	Total.	Total on 31st July 1913.	Increase + Decrease —
	Dr.	Cr.					
India	1	1	1,47	5	1,54	3,29	—1,75
Central Provinces . .	...	...	12	...	12	15	—3
Burma	...	...	(*b*) 1,67	4	(*b*) 1,71	(*a*) 1,90	—19
Assam	...	...	1,57	2	1,59	2,00	—41
Bengal	...	.	2,04	11	2,15	2,60	—45
Bihar and Orissa . .	..	...	1,01	18	1,19	2,80	—1,61
United Provinces . .	...	21	1,04	7	1,32	49	+83
Punjab	...	3	1,38	5	1,46	1,21	+25
North-West Frontier Province.	...	...	36	1	37	17	+20
Madras	...	...	16	13	29	63	—34
Bombay	...	...	22	5	27	12	+15

TOTAL .	1	25	11,39	73	12,38	15,78	—3,40

(*a*) Includes 27 on account of insufficient sanction.

(*b*) „ 49 „ „ „ „ „

As compared with the previous year there was a net decrease of 3,40 in the total outstanding balance for all India. Substantial reductions took place in India and Bihar and Orissa, where the figures for the Delhi province and those connected with the establishment o[illegible] Ranchi were high in the preceding year. On the o[illegible] United Provinces show an increase, which was chie[illegible] n placed under

objection in connection with (*a*) the purchase of an aeroplane on behalf of a Maharaja (21), (*b*) articles supplied to a factory for the construction of buildings, (17), and (*c*) a grant to an Anglo-Vernacular School (10). In Bengal, Assam, Madras, and Burma there was some improvement, while in the Punjab, the North-West Frontier Province, and Bombay the figures have risen. In the Punjab the increase was mainly caused by (*a*) charges incurred, without Government sanction, in connection with the Gujranwala settlement, and (*b*) payments on account of compensation for land acquired by Government in the Dera Ghazi Khan District for public buildings, etc. The former has since been adjusted, and with regard to the latter the Accountant General reports that suitable action is being taken with a view to its adjustment. Heavy expenditure in March 1914 in certain districts on contingencies accounts for the increase in the North-West Frontier Province. In Bombay the increase was due to several minor causes.

(*a*) Amount less than one thousand.

The figures for 1913-14 are better than those for 1912-13 in respect of the amounts outstanding on account of objections raised in the year under report (12,02 as against 15,28). The outstandings of previous years, however, show an increase (56 as against 23).

Analysis of old outstandings relating to 1911-12, and previous years.

24. Out of the 233 items relating to 1911-12 and previous years remaining unadjusted on 31st July 1913, 225 were adjusted during the period under review. Of the balance of 8, which were outstanding on the 31st July 1914, 7 belong to 1911-12 and 1 to 1910-11.

The following statement shows the amounts of these outstandings and the provinces to which they relate :—

Year.	Province.	No. of Items.	Amount (in units of rupees.)
1910-11	India	1	210
1911-12	Assam	1	153
	Bihar and Orissa	4	518
	Madras	2	73

The outstanding under India, as stated in paragraph 20 of last year's report, represents the amount recoverable from a late Trade Agent at a frontier station in addition to a sum of Rs. 8,249 embezzled by him. Amounts aggregating Rs. 3,390 have since been recovered from the debtors of the absconding Trade Agent and by the sale of his moveable property. The sanction of Government to the sale of his landed property has also been received with a view to the recovery of the balance.

The item in Assam represents an advance of travelling allowance made to certain members of the establishment of the late Public Works Secretariat, Eastern Bengal and Assam. There has been difficulty owing to the reconstitution of the provinces in tracing the credit said to have been made in adjustment of the amount. The matter is still the subject of correspondence.

The 4 items relating to Bihar and Orissa represent increments of pay overdrawn by ministerial officers attached to certain Collectorates and District Courts after the reorganization of the ministerial establishmen[illegible] Recovery of these amounts was held in abeyance pending final orders [illegible] the Government of India, which have since been received. The objecti[illegible] have now been removed.

The two items relating to Madras represent the balance of subsistence allowance paid to a Forest Ranger who has since retired. The amount will be recovered from the pension.

25. The total outstandings for 1912-13 were reduced from 15,28 on the 31st July 1913 to 35 on the corresponding date in 1914. In other words, 97·7 per cent. of the objections for 1912-13 outstanding on 31st July 1913 were cleared during the period under review. The balance was made up of 90 items distributed amongst the provinces as follows :—

Province.	No. of Items.	Amount (in thousands.)
India	18	4
Burma	17	10
Assam	16	3
Bengal	17	8
Bihar and Orissa	7	7
United Provinces	6	2
Punjab	3	1
Bombay	2	(a)
Post Office	4	(a)
TOTAL	90	35

(a) Amount less than one thousand.

26. Of the above items some have since been adjusted and the more important of the remainder are mentioned below :—

India.—An item of Rs. 2,172 is outstanding as part of a sum drawn, in November 1912, from the Ajmer treasury to pay off certain claims which had remained undisbursed owing to an embezzlement committed by a District Nazir in 1909-10. Of the total sum of Rs. 7,263 embezzled, Rs. 4,131 have been recovered from the assets of the Nazir, Rs. 1,610 are to be recovered from the officers whose laxity rendered the fraud possible and the sanction of the Government of India has been applied for to the write-off of the balance of Rs. 1,522.

Burma.—(a) A sum of Rs. 7,929 drawn in 1912-13 for payment to temporary extra preventive officers of the Customs Department was objected to for want of sanction of the Government of India. The amount has remained unadjusted pending the orders of Government regarding the reorganization of the preventive service as a whole.

(b) A sum of Rs. 2,200 was drawn by Divisional Forest Officers in March 1913 for the construction of rest houses. Details of the expenditure were called for by the audit office and, after prolonged correspondence, the amount was adjusted in August 1914.

Assam.—Of the 16 items, 9 have since been adjusted and 1 has been partly adjusted, while 2 items have remained under objection for want of details of the expenditure and sub-vouchers. The delay in adjustment has been brought to the notice of the Local Administration.

Bengal.—Of the total amount, Rs 5,436 represent charges incurred in connection with the Bodyguard of His Excellency the Governor of Bengal. The matter is under the consideratio . of the Government of India.

Bihar and Orissa.—(a) Rs. 2,025-4-1, represent acting allowance overdrawn by an officer who proceeded on combined leave immediately after the notification reverting him was published. The amount has since been recovered.

(b) Rs. 2,833-5-4 represent the balance of a motor car advance awn in England, which is being recovered in instalments.

(c) Rs. 2,728-12-8 represent the balance payable in connection with an appeal preferred to the Privy Council on behalf of a Court of Wards' estate. The necessary steps have been taken to ensure recovery.

United Provinces of Agra and Oudh.—The outstandings include two items of Rs. 1,200 and Rs. 750 respectively. The former represents the amount misappropriated by a Police Accountant : the matter is under the consideration of Government. The latter amount is under objection for want of the payee's receipt for an honorarium : the matter is receiving attention.

27. The objections for 1913-14 outstanding on 31st July 1914 amounted to 12,02 and may be classified as follows :—

Want of sanction	2,41
Want of detailed countersigned bills	2,16
Want of sub-vouchers	3,15
Service payments for recovery	43
Other objections	3,87
TOTAL	12,02

The corresponding balance for 1912-13 outstanding on the 31st July 1913 was 15,28. There was thus an improvement of 21·3 per cent. as compared with the previous year.

Under 'Want of sanction' the figures were largest in Burma (91) and the United Provinces (55). The former included an item of 25 which requires the sanction of the Secretary of State, and items of 29 and of 11 for which the sanction of competent authority had not been obtained.

The outstanding against the United Provinces included 17 representing the cost of articles supplied to a factory for the construction of buildings,

10 on account of a grant to an Anglo-Vernacular school, 5 in connection with the pay of the Survey and Settlement establishment in the Gorakhpur district, and 4 on account of the purchase of hay presses. These have now all been regularised.

Under 'Want of detailed countersigned bills' the largest amounts are shown against India (43) and Bengal (43). The former included 26 in Baluchistan and 6 in Ajmer. The items have since been adjusted. The outstanding against Bengal represented to a great extent amounts drawn by the Presidency and Central Jails.

Under 'Want of sub-vouchers' the figures were largest in Bengal (85) and Assam (67). In the case of Bengal they include expenditure incurred on relief operations connected with floods in the Burdwan Division, on petty construction and repairs in the Education, Police and other departments, and on the purchase of apparatus from Europe. The outstanding in Assam included 50 drawn in March 1914: 56 out of the 67 have been adjusted.

Under 'Other objections' the figures were high against India (67), Bengal (64), and the Punjab (63). In India 25 were connected with Sir Aurel Stein's accounts and 11 related to Seistan. The outstanding against Bengal was chiefly due to relief operations in the Burdwan Division and the grant of *takavi* loans in connection therewith. In the Punjab, payments on account of compensation for land acquired by Government in the Dera Ghazi Khan district for public buildings, etc., were responsible for 27: the Accountant-General reports that the necessary steps for the adjustment of this sum are being taken.

Percentage of objections raised to total expenditure.

28. The following statement shows the percentage which the amount of objections raised in each province during the period under review bears to the total expenditure incurred:—

India	2·8
Central Provinces	5·5
Burma	9·2
Assam	27·2
Bengal	8·0
Bihar and Orissa	9·8
United Provinces	6·2
Punjab	12·0
North-West Frontier Province	9·5
Madras	5·2
Bombay	3·7
Post Office	8·4

The figure for India as a whole is 6·6.

The high percentage for Assam was chiefly due to advances drawn under special orders of the Local Administration to meet expenditure in connection with operations on the North-East Frontier. In the Punjab the high percentage was due to an increase in the amount under objection under 'suspense' heads in consequence of the adjustment in 1913-14 of certain private remittances between the Murree sub-treasury and the District treasury at Rawalpindi. This procedure has since been discontinued and the sub-treasury has been authorised to issue supply bills on the District treasury. In Bihar and Orissa large sums were placed under objection for want of detailed countersigned contingent bills in certain districts. There were also objections of considerable amount in Ranchi for want of sub-vouchers and sanction.

Financial Irregularities.

Drawal of money in advance of requirements with a view to avoid lapse of grants.

29. In last year's report reference was made to the tendency that was still noticeable to draw money from the treasury, especially in March, before it was required for actual expenditure. Special attention has been given to this subject by the Government of India and at their instance instructions have been issued by Local Governments referring disbursing officers to the Code rules on the subject and pointing out the serious consequences that are likely to follow from a violation of the rules. Substantial improvement may be expected to result from the action taken. I mention below some cases that came to light during the year under report.

al Provinces (a) Deputy Commissioners in a certain division drew in March 1914 lump sums amounting to Rs. 1,300 against the Commissioner's allotment. Of this amount Rs. 75 only were actually disbursed during the year, the remainder, with the exception of Rs. 09-8 which were refunded in August 1914, having been disbursed in 1914-15. The facts have been reported to the Local Administration.

(b) In March 1914 a Divisional Forest Officer paid Rs. 3,400 to a firm for a certain work before it was actually completed. An explanation was given that the firm could be relied on to carry out the contract or to refund the amount and that if payment was not made the estimates would be upset. The matter was reported to superior administrative authority and the necessary action was taken.

(c) On the 30th March 1914 a sum of Rs. 18,594 was drawn, in connection with improvements in Government Estates, in bills numbering about 120. Ordinarily such bills are payable at a sub-treasury after enfacement by the District Treasury. Under the procedure adopted in this case the bills were paid at the District treasury by transfer credit to Cash Order on the Sub-Treasury so as to secure their encashment within the year. The officer concerned attempted to justify his action by stating that the work for which the charges were drawn had been completed, although there was not sufficient time to measure and check its value. It appears that sub-vouchers for Rs 360 are still wanting, while those received disclose the fact that payments in some cases were not made until July 1914. The matter was brought to the notice of the Collector.

(d) A sum of Rs. 2,564-14-3 was drawn from the treasury on the 28th March 1913 by a Superintendent of Police. It included an item of Rs. 2,500 to meet certain charges on account of repairs to Police Buildings, which was drawn, in contravention of Article 84-A of the Civil Account Code, in order to prevent a lapse of grant. A part of the money was disbursed on the 15th and 16th May and the balance of Rs. 1,799 was stolen on the night of the 16th May 1913. The loss was reported to the Local Government under whose orders a sum of Rs. 300 has been recovered from the officer concerned and the balance written off.

(e) A District Judge drew Rs 238 on 31st March 1914 for the purchase of books and attached the payee's receipt to the bill in support of the charge, but books to the value of Rs. 48 only were received and the balance of Rs. 190 was refunded into the treasury in July 1914. The amount was drawn on the strength of a receipt given in advance by the firm concerned on the understanding that the books would be supplied within a short time. Although the amount involved was small the case is an important one. Had the undisbursed amount not been refunded, no question could have been raised in audit.

(f) A sum of Rs. 350 was drawn by an officer on the 14th March 1914 for payment of land compensation. No payment was actually made and the amount was refunded into the treasury on the 30th July 1914. The matter was brought to the notice of the Local Government and the necessary action was taken by them.

(g) The Head Master of a High School drew a sum of Rs. 1,604 in March 1914 for the purchase of certain articles for the hostel attached to the school, out of which Rs 371 were actually disbursed in June and Rs. 632 in July 1914. The officer explained that the contractor failed to supply the articles in time. The money should not have been drawn until the supply was completed. The explanation of the officer has been called for by the Local Government.

pts to Audit

30. Some cases came to notice in which attempts were made to evade audit rules. Two instances are given below.

(a) In March 1914, a District Superintendent of Police split up estimates for petty construction and repairs into two parts so as to bring them within his power of sanction and thereby avoid the necessity of obtaining the sanction

of higher authority. The matter was brought to the notice of the Inspector-General of Police.

(*b*) An officer of the Medical Department drew a sum of Rs. 600 in May 1913 for the purchase of snake-bite lancets. He requested the payee to split up the receipt in order to avoid the necessity of obtaining the sanction of higher authority. The Local Government was informed and the necessary orders were passed.

Insufficient scrutiny by countersigning authorities.

31. Instances were noticed in which officers signing certificates or countersigning bills as controlling authorities failed to scrutinize the documents sufficiently with the result that irregular claims were paid. Three cases are mentioned below.

Burma.

(*a*) A District Superintendent of Police drew Rs. 288 twice as travelling allowance for the same journey, once in April and again in May 1913. It appears that the bill originally submitted for countersignature was returned by the Controlling Officer for correction. A corrected bill was submitted together with the original and both were countersigned by the Controlling Officer and cashed.

Punjab.

(*b*) A detail bill for Rs. 310-12-0 was countersigned by a Divisional Judge for Rs. 856-5-9, which represented the amount shown as progressive expenditure.

(*c*) A bill for Rs. 2,835 was countersigned for the full amount by a Deputy Inspector-General of Police in the absence of sub-vouchers for Rs. 1,145-6-0.

The above instances illustrate the force of the remarks made in the concluding portion of paragraph 27 of the previous year's report, regarding the necessity for careful scrutiny by all officers of bills which they are required to sign or countersign.

Delay in complying with audit requirements. [illegible]robable

32. Too much stress cannot be laid on the necessity for prompt compliance with audit requirements on the part of disbursing officers. Delay in this matter may easily lead to serious consequences, involving loss to Government. Much unnecessary increase of work is also caused owing to protracted correspondence. The attention of Local Governments has recently been invited to this subject by the Government of India. The following instances are quoted in support of these observations.

B

(*a*) A Civil Surgeon in Burma drew a contingent bill for Rs. 133-4-0 from the Treasury in December 1912. Out of the total amount, two items aggregating Rs. 128-12-0 were supported by invoices instead of by proper receipts. Objection was accordingly raised in January 1913, but it was not until July 1913 that the Audit Office succeeded in obtaining a receipt and then only for Rs. 11-5-0 on account of one of the two items in question. As, after lengthy correspondence, a receipt for the remaining item was not forthcoming, a report was made in September 1913 to the head of the department. It was then discovered that the sum of Rs. 117-7-0, as also another of Rs. 26-14-0, had been embezzled. The matter was reported to the Local Government who ordered that the amount should be recovered from the officer at fault.

(*b*) Absentee allowance paid in excess to a petty official attached to a Forest Division was disallowed and the Divisional Forest Officer was requested in October 1913 to recover the sum. After much correspondence, the validity of the disallowance was accepted, but it was stated that the officer concerned had left the service prior to the receipt of the retrenchment order and that the money could not therefore be recovered. It was, however, found in subsequent audit that arrear pay and allowances had been paid to the officer after receipt of the retrenchment order, although no effort had been made to recover the amount due by him to Government. Eventually, the amount was written off under the orders of the Local Government.

Assam.

(*c*) Sums of Rs. 700-2-0 and Rs. 1,371-3-0 were drawn by an officer in September and December 1912, respectively, for certain contingent expenditure and were placed under objection for want of sub-vouchers which were called for in January 1913. Reminders were sent in April, May and July 1913. Some of

the sub-vouchers were furnished in July 1913 and it was stated that the remainder would be submitted when the officer concerned returned to head-quarters. As, however, audit requirements had not been complied with in respect of the sub-vouchers already furnished, the officer was asked in August 1913 to furnish the necessary information and also to transmit the remaining sub-vouchers. A reminder was issued in October 1913. No reply having been received, the matter was reported to the Local Administration in December 1913. Reminders were sent in February, March, April and June 1914. In July 1914 the officer concerned informed the audit office that the outstanding objections were gradually being adjusted and that all replies would be submitted by about the end of that month. No further communication having been received in July 1914, a list of all outstanding objections, up to the end of 1913-14, was sent to the officer in August 1914 and he was requested to take steps for their early settlement. A copy of this communication, with a copy of its enclosure, was at the same time forwarded to the Local Administration. Details of expenditure and sub-vouchers for Rs. 1,371-3-0, as also certain other sub-vouchers, were eventually furnished in November 1914. Certain sub-vouchers, which were still wanting, were again called for on the 18th November 1914.

(*d*) An officer of the Police Department drew Rs. 300 in September 1913 on account of secret service expenditure, and the required disbursement certificate was called for on 31st October 1913. After some correspondence he was again asked in February 1914 for the disbursement certificate in question. A list of outstanding objections was also sent to him in March 1914, with a request to settle the objections, with as little further delay as possible. Reminders were issued in April and May 1914. On 16th May 1914 the officer stated that the original audit memorandum seemed to have been mislaid and asked for a copy. The substance of the original objection was accordingly communicated to him in June 1914. Reminders were issued on 2nd July and 20th July 1914. No reply having been received, the officer was again asked in August 1914 to furnish the required disbursement certificate at a very early date. The certificate was eventually furnished in September 1914.

(*e*) An officer was requested in June 1913 to furnish certain information regarding travelling allowance claimed for April and May 1913. The required information was not received in spite of four special letters calling attention to the matter. The case was then in January 1914 reported to higher authority. The information not having been furnished, the Treasury Officer was directed to recover the amount. This was done in March 1914 and the Local Administration was addressed.

33. Some cases were brought to light in which claims for pay or travelling allowance were preferred and paid twice. Three instances are given below.

(*a*) A Sub-Registrar drew travelling allowance twice for the same journey in May 1913. The second claim was detected by the audit office and also by the District Registrar. It was held that the Sub-Registrar's action was due to culpable negligence and that there was no dishonest intention and the officer was reprimanded.

(*b*) The leave allowance of a petty official was drawn twice, once in July and again in August 1913.

(*c*) The pay of a temporary clerk was drawn twice for the same period, once in March 1913 and again in June 1913.

In both these cases the excess payments were held to be due to oversight.

34. In several of the individual cases quoted above the necessary action has been taken, but I have thought it advisable to bring them to notice in this report as instances of the classes of irregularity which have been prevalent and which should be put a stop to in future. The only way of doing this effectively is by disciplinary action on the part of Local Governments and administrative authorities.

Public Works Department.

ANALYSIS OF OBJECTIONS.

Balances of objections on the 31st July 1914.

35. The balances of the several classes of objections raised up to 31st March 1914, but remaining unadjusted on the 31st July 1914, are given in the following statement:—

(a) Includes 30 for Central India. (b) Includes 7 for Simla Imperial Sub-Division.

Comparison with 1912-13.

As compared with the previous year the balance for the whole of India shows a large increase of 12,89, which occurred chiefly in Burma, Bengal, the United Provinces, the Punjab and Bombay.

In Burma the introduction of a new form of objection book for the proper record of expenditure under objection was the main cause of the increase. The more important increases in this province occurred in the Buildings and Roads Branch under 'Miscellaneous Irregularities,' and in the Irrigation Branch under 'Want of Estimate.' Most of the objections relating to the former are still outstanding pending the return of certain objection statements for March 1914. In the case of the latter large expenditure was incurred without estimate in rebuilding the headworks of the Mandalay Canal at Sedaw which had been seriously damaged by flood; the estimates have been submitted to the Government of India for sanction.

In Bengal the increase (2,26) occurred in the Buildings and Roads Branch and was due chiefly to the construction of certain civil works without estimate or appropriation in the Northern and Eastern Circles.

In the United Provinces the increase (6,12) occurred chiefly in the Irrigation Branch under the heads 'Want of Estimate,' 'Excess over Estimate' and 'Miscellaneous Irregularities' in the case of the Bhimgoda Weir, the Mirzapur Canals, the Hathras Branch of the Ganges Canal and the Upper Eastern Jumna Canal. There was also an increase in the Buildings and Roads Branch under 'Want of Estimate' and 'Want of Appropriation', mainly in the Allahabad, Lucknow and Cawnpur Divisions.

In the Punjab there was an increase in the Buildings and Roads Branch of 6,51, which was due mainly to more expenditure having been incurred on the Mayo Hospital Extension scheme and on the acquisition of land for the King Edward Memorial scheme. The sanction of the Secretary of State has since been received in these cases.

In Bombay the increase (11,94) was due partly to expenditure on several works connected with the Nira Right Bank Canal project, for which detailed estimates have not yet been prepared or sanctioned, and to expenditure held under objection in connection with the Godavari Right and Left Bank Canal projects. In November 1914 the Local Government informed the Government of India that an excess of about 60 lakhs was likely to occur in the Nira Right Bank Canal project and issued orders with a view to expediting the submission of a revised estimate.

ification tstand- according ars. R.)

36. The following statement shows for the Buildings and Roads Branch the outstandings according to the years to which they relate. The corresponding figures for the previous year are also given for purposes of comparison.

(a) Includes 6 items amounting to 30 for Central India.

(b) " 7 for the Simla Imperial Sub-division.

Analysis of old outstandings relating to 1911-12 and previous years.

37. Out of the 114 items relating to 1911-12 and previous years remaining unadjusted on the 31st July 1913, 95 were adjusted during the period under review. Of the balance of 19, which were outstanding on the 31st July 1914, 11 relate to 1911-12 and 8 to 1910-11 and previous years.

The following statement shows the amounts of these outstandings and the provinces to which they relate :—

Year.	Province.	No. of item.	Amount (in thousands).
1907-08	Punjab	1	1
1909-10	Madras	2	3
	Bombay	1	(a)
1910-11	Madras	3	5
	Bombay	1	2
1911-12	Bengal	1	1
	United Provinces	2	25
	Punjab	1	1,97
	Madras	4	(a)
	Bombay	3	6
	Total	19	2,40

(a) Amount less than one thousand.

The item for 1907-08 in the Punjab represents rent due from tenants on account of shops at Khanpur and the Shahadra boat bridge. A decree was obtained against the tenants, but as the amount could not be realized orders for its write-off have been issued. The other item in this province refers to the year 1911-12 and occurred under 'Want of Estimate.'

In Madras all the items occurred under 'Excess over Estimate,' of which one has been outstanding for more than 4 years. In this case the submission of the completion report with an explanation of the delay has been called for. The remaining items await the sanction of Government.

In Bombay the outstandings include 2 items under 'Wa[illegible] of Estimate,' 2 items under 'Excess over Estimate' and 1 item under 'Miscellaneous.' The last relates to the year 1909-10, but represents a very small amount.

The one item in Bengal, which refers to the year 1911-12, is smal in amount.

The two items relating to the United Provinces represent excesses ove estimates for sub-works connected with the Medical College at Lucknow. The project has been completed and the excesses are reported to be covered by savings on other estimates. The matter has been specially reported to the Local Government whose orders are awaited.

38 Out of the 3,581 items relating to 1912-13 outstanding on 31st July 1913, 3,454 were adjusted by the 31st July 1914. The following statement gives particulars of the balance.

Province.	Want of Estimate.		Excess over Estimate.		Excess over Appropriation.		Miscellaneous Irregularities.		Total.	
	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.
India	1	(a)	29	3,62	4	20	3	4	37	3,86
Central Provinces	3	2	...	...	..	...	2	1	5	3
Bengal	3	1	2	2,56	...	...	3	24	8	2,81
Bihar and Orissa	...	...	...	...	1	1	...	...	1	1

Total	29	6,37	80	7,05	5	21	13	80	127	14,43

(a) Amount less than one thousand.

The large outstandings against India represent mainly outlay in excess of estimate on temporary works in the Delhi Province, which, it is stated, have been dealt with in the completion report submitted to the Government of India in May 1914. In Bengal the greater portion is connected with expenditure on temporary buildings at Dacca (2,54) constructed for the late Government of Eastern Bengal and Assam. The Secretary of State's sanction has since been received in this case. In the United Provinces the important items relate to the Medical College, Lucknow. In the Punjab the outstanding was on account of expenditure incurred on the Mayo Hospital Extension Scheme and on the acquisition of land for the King Edward Memorial Scheme. In Madras the outstandings chiefly represent expenditure without estimate on certain Imperial Civil Works and have been duly brought to the notice of the Local Government.

India.—The bulk of the balance appertains to the Delhi Province and represents mainly expenditure in excess of estimate on temporary works, on the New Capital and on Delhi Provincial Civil Works. The first item has, it is stated, been dealt with in the completion report submitted to the Government of India on 14th May 1914 and the other two, which

include principally objections for want of vouchers and completed award statements, have been reported to the Local Administration and the Imperial Delhi Committee

Central Provinces.—The amount under 'Miscellaneous Irregularities' is mainly due to outstandings in contractors' accounts and excess over the reserve stock limit. The former have been brought to the notice of the Local Administration with a view to their early clearance, while as regards the latter the Executive Engineer concerned has been authorized to collect building materials temporarily chargeable to stock to enable him to start the construction of new works provided for in the Budget Estimate for 1914-15.

Burma.—The outstandings under 'Excess over Appropriation,' have since been regularized, while those under 'Miscellaneous Irregularities' continue owing to the delay in the return of certain objection statements for March 1914.

Assam.—Of the total outstandings, 2,68 were adjusted up to the end of September 1914. The bulk of the remainder is made up of 46 under 'Excess over Estimate' and of 39 under 'Miscellaneous Irregularities.' As regards the former the Arts College at Gauhati is alone responsible for 37. The sanction to the Revised Estimate for this work has not yet been received. Under 'Miscellaneous Irregularities' the outstandings were due chiefly to want of vouchers in the Lakhimpur Division, where there was an unusual congestion of work owing to the opening up of the Abor country. The Local Administration has ordered the splitting up of the existing division into two divisions with effect from 1st October 1914, and it is hoped that there will be a substantial improvement under the new arrangements.

Bengal.—All the items have been reported in detail to the Local Government whose orders are awaited. The most important items under 'Miscellaneous Irregularities' are (*a*) expenditure on furnishing the residences of certain officials at Dacca for want of the Secretary of State's sanction (23), (*b*) installation of refrigerating plant at the School of Tropical Medicine, Calcutta, for want of detailed bill (15), and (*c*) collection of materials for record room, for want of a construction estimate Item (*a*) has since been adjusted on receipt of the Secretary of State's sanction.

Bihar and Orissa.—The amount shown under 'Miscellaneous Irregularities' is held under objection for want of vouchers.

United Provinces.—The bulk of the outstandings is made up of small items, some of which have since been adjusted, while others have been reported to the Local Government for necessary orders.

Punjab.—Of the outstandings under 'Want of Estimate' more than one-half was on account of the Mayo Hospital Extension, Lahore, and the acquisition of land for the King Edward Memorial scheme already referred to. The sanction of the Secretary of State to the revised project has since been received. Under 'Miscellaneous Irregularities' the bulk of the outstandings, *viz.*, 7,09, represents expenditure on the Simla Improvement and Extension scheme. It was stated that the whole question of the scheme would be referred to the Secretary of State for approval as soon as the Committee had concluded their deliberations.

Madras.—The outstandings are made up mostly of small items in regard to which necessary action has been taken with a view to their early adjustment.

Bombay.—Under 'Want of Estimate' the outstandings relate almost entirely to works in progress and have been duly reported to the Local Government. Of these works two may be mentioned, namely (*i*) constructing lighthouses in the Persian Gulf (2,06) and (*ii*) compensation for land acquired for the Bacteriological Laboratory at Parel (3,70). Under 'Miscellaneous Irregularities' the greater part of the balance represents expenditure incurred on the Nasik water-supply scheme. The completion report is stated to have been prepared and sanction is awaited.

(a) Amount less than one thousand.

alysis of tstandings ating to 1-12 and evious ars.

41. Out of 832 items relating to 1911-12 and previous years shown as outstanding on 31st July 1913, 665 were adjusted during the period under review. Of the balance of 167 outstanding on 31st July 1914, 149 amounting to 3,40 are in Bombay. Of these, 47 relate to years prior to 1909-10, 38 to 1909-10, 14 to 1910-11 and 50 to 1911-12. Most of the items relating to 1910-11 and previous years as also a number of items pertaining to 1911-12 represent amounts to be recovered from private land-owners, on account of expenditure on water-courses, under the Bombay Irrigation Act VII of 1879. There has been undue delay in their recovery in the past; steps have, however, since been taken to have these outstandings transferred from the books of the Executive Engineers to those of Civil Officers through whom the recoveries have to be made. Apart from the above items, a large proportion of the outstandings of 1911-12 represent excesses over estimates, mainly in the Pravara Canal District. The Local

Government state that there will yet be some delay in the preparation of the completion reports on which the excesses will be finally sanctioned.

The following statement shows the outstandings of 1911-12 and previous years and the provinces, other than Bombay, to which they relate:—

Year.	Province.	No. of Items.	Amount (in thousands)
1910-11	Bengal	2	1
1911-12	"	2	1
1911-12 . . .	United Provinces	12	1
1911-12 . . .	Punjab	2	3

In Bengal the outstandings occurred under 'Want of Estimate' and were on account of certain takavi works. The Local Government have been specially addressed on the subject and their orders are awaited.

In the United Provinces the items represent expenditure incurred on behalf of cultivators on the construction of works in the Ken Canal Division. This expenditure has to be recovered from the cultivators concerned through the Collector. The figures for 1913-14 show an improvement over the previous year.

Of the 2 items in the Punjab, one has since been adjusted and the other represents the value of surplus bricks found in the Lodhran Sub-division of the Lower Sutlej Canal Division. The Local Government have issued orders for the early removal of the objection.

Analysis of outstandings relating to 1912-13.

42. The following statement shows the outstandings relating to 1912-13 and the provinces to which they relate:—

Province.	Want of Estimate.		Excess over Estimate.		Miscellaneous Irregularities.		Total.

Total .	55	3,26	97	2,34	47	3	199	5,08

(a) Amount less than one thousand.

The outstandings shown against the Central Provinces are explained in paragraph 43 below. In the United Provinces the outstandings under 'Want of Estimate' occurred in the Mirzapur Canals Division. Some of the estimates have since been sanctioned, some are under the consideration of the Local Government, while as regards the remainder the Local Government have directed that the submission of the estimates should be expedited. The large outstandings under 'Want of Estimate' and 'Excess over Estimate' shown against Bombay are explained in paragraph 35 above.

43. The following statement shows the outstandings relating to 1913-14 and the provinces to which they relate.

Province.	Want of Estimate.		Excess over Estimate.		Want of Appropriation.		Excess over Appropriation.		Miscellaneous Irregularities.		Total.

India.—The outstandings are on account of expenditure on the Khusdil Khan Reservoir.

Central Provinces.—The balance under 'Excess over Estimate' represents expenditure on certain Irrigation projects; the matter has been brought to the notice of the Local Administration for necessary action; Revised Estimates are said to be under preparation for two important items. Under 'Want of Estimate' the outstanding represents outlay on Irrigation projects, for which detailed estimates are under preparation, and against the open capital account of the Ramtek Reservoir and Chandpur Tank to which the sanction of the Government of India is necessary; the Local Administration has been addressed in regard to these cases. Under 'Excess over Appropriation' the important items are the Wainganga Canal project (22), the Asola Menda Tank (21) and the Kattanjheri Tank (8).

Burma.—The major portion of the outstandings are on account of an item under 'Want of Estimate' connected with the rebuilding of the Mandalay Canal.

Bengal.—The most important item under 'Want of Estimate' represents expenditure incurred on special repairs to an embankment in the Midnapur District damaged by the flood of 1913-14 (23); this and the remaining outstandings have been reported in detail to the Local Government whose orders are awaited.

Bihar and Orissa.—The balance under 'Want of Appropriation' is made up of a number of small items, while that under 'Miscellaneous Irregularities' represents amounts placed under objection for want of vouchers.

United Provinces.—Of the balance under 'Want of Estimate' the Bhimgoda Weir alone was responsible for 2,37. Administrative sanction was accorded to this work in April 1914 and an expenditure of 1,00 was authorized. Government have ordered that further administrative sanction should be applied for. There were also two other works, namely, 'Upper Storage—Gorai Canal' (21), and 'Lower Weir and Head Work—Gorai Canal' (18), the estimates for which are reported as under preparation. The outstanding under

'Excess over Estimate' is composed of small items, some of which have since been adjusted. The balance under 'Excess over Appropriation' includes a number of items representing expenditure on protective Irrigation works in the Mirzapur Canals Division (42); these excesses occurred late in the year and were not foreseen, but it is reported that they have since been sanctioned by the Local Government. Under 'Miscellaneous Irregularities' the most important item represents expenditure on the Hathras branch of the Ganges Canal after the closure of the construction estimate on the 31st March 1913; all the items have been duly reported to Government.

Punjab.—The balance under 'Miscellaneous Irregularities' is mostly made up of amounts for which vouchers were not received with the accounts. Such items were placed under objection for the first time in 1913-14.

North-West Frontier Province.—The most important item under 'Excess over Estimate' was in connection with expenditure incurred on the Machai Branch Canal. The matter was brought to the special notice of the Local Administration in February 1914, who accorded administrative sanction to the continuance of the work. A Revised Estimate was sanctioned in October 1914, but this also proved inadequate and the actuals have exceeded the Revised Estimate. The outstandings under 'Miscellaneous Irregularities' mostly represent amounts for which vouchers were not received with the accounts.

Madras.—The balance under 'Excess over Estimate' includes an item of 33 under 43.—Minor Works and Navigation, of which the Accountant General has been authorized by Government to pass 30.

Bombay.—The large outstandings under 'Want of Estimate' and 'Excess over Estimate' are explained in paragraph 35 above.

Percentage of objections to expenditure.

14. The following statement shows separately under the Buildings and Roads and Irrigation branches the percentage which the total amount of objections raised bears to the total expenditure in 1913-14. The percentage for the two branches combined for the year 1912-13 is also shown:—

	1913-14.			1912-13.	Difference, more + or less — than last year.
	B. & R. Br.	Irrgn. Br.	Total P. W. D.	Total P. W. D.	
India	28	28	28	72	—44
Central Provinces	28	23	26	26	..
Burma	24	42	28	24	+4
Assam	55	37	55	29	+26
Bengal	35	79	42	47	—5
Bihar and Orissa	38	41	39	14	+25
United Provinces	32	73	43	35	+8
Punjab	29	17	20	25	—5
Simla Imperial Sub-division	41	...	41	56	—15
North-West Frontier Province	10	21	16	(a) 13	(a) +8
Madras	23	14	20	32	—12
Bombay	35	36	35	30	+5
Total India	31	29	30	31	—1

(a) Relates to Irrigation only.

Comparison with 1912-13.

45. It will be observed that, taking India as a whole, the percentage of objections to the total expenditure in 1913-14 was practically the same as in 1912-13. There were, however, increases in Assam, Bihar and Orissa, and the United Provinces. The high percentage in Assam was chiefly due to the fact that repair estimates have hitherto been sanctioned separately for each building and road instead of being collectively sanctioned in April as is done in some provinces. The matter is under the consideration of the Local Administration. In Bihar and Orissa the increase was due to the fact that during the year under review all expenditure, however small, was entered in the Divisional Statement of Objectionable Items. In view, however, of the delegation of increased powers to Executive Engineers under Public Works Code, Volume I, paragraph 323-B, as introduced by Standing Order No. 380, dated the 17th November 1913, petty items have been neglected since the 1st October 1914 and it is expected that there will be an improvement in future. In the United Provinces the increase occurred chiefly in the Irrigation Department and was mainly on account of the works mentioned in paragraph 35 above. On the other hand, there was a heavy drop in the figure under India, principally in the Delhi Province.

Percentage of works started without estimates to total number of works started during the year.

46. The following statement shows separately under the Buildings and Roads and Irrigation branches the percentage of works started without estimates. These figures have been calculated with reference to about 20 per cent of the divisions in most of the provinces. The corresponding figures for the previous year are given as far as possible for purposes of comparison :—

Provinces.	B. & R.	Irr.	Total.	1912-13.
Central Provinces	38	48	40	26
Burma	14	17	14	39
Assam	58	40	58	43
Bengal	35	36	35	43
Bihar and Orissa	50	64	58	51
United Provinces	30	17	...	(a)
Punjab	9	5	...	6
North-West Frontier Province	24	23	23	21
Madras	42	2	23	26
Bombay	29	56	38	30

(a) B. & R. 26
Irrigation 28

It will be observed that a very high percentage of works were started without estimates in most of the provinces. In Assam (Buildings and Roads Branch), Bihar and Orissa and Bombay (Irrigation Branch) more than half the works were so started.

Financial Irregularities.

Manipulation of accounts, etc.

47. I quote below some instances of irregularities which came to notice. In several of the individual instances no further action is required on the part of the administrative authorities, but they have been included for the reasons given in paragraph 34 above. They must not be considered as in any way an exhaustive list, but merely as examples of the classes of irregularity which are not uncommon. As in the case of the Civil Department I would call attention to the necessity for suitable disciplinary action in future, if irregularities are to be put a stop to.

India (Delhi).

(a) In March 1914, 4 bills amounting to R3,916 were paid and charged against 4 estimates for which there were allotments. After the year had closed the Audit Officer was requested to write back the amount of these bills to 4 different estimates for which there were no allotments during 1913-14. It appears that this procedure was adopted in order to avoid audit objection for want of appropriation in respect of the works to which the expenditure was correctly debitable and to avoid lapses of funds under the works originally debited. The matter was reported to superior executive authority.

Burma.

(b) A muster roll prepared by a Sub-Overseer on the 23rd March 1913, showing the attendance up to the 31st March, was passed for payment on the

29th March and charged off in the cash-book on the same day, although payment was not actually made until the 20th April 1914. It was explained that the charge was shown in the cash-book to avoid a lapse of grant. Instructions were issued by the Executive Engineer with a view to avoiding similar irregularities in future.

(c) In March 1913, 17,500 c. ft. of stone metal, costing R2,100, were purchased and charged to the annual repairs estimate of a certain road. The amount was, however, written back in July 1913 to another estimate for special repairs of the same road. The expenditure appears to have been originally debited to the annual repairs estimate to avoid an excess over the appropriation for the special repairs work. The irregularity was pointed out to the Executive Engineer.

(d) A sum of R2,424-8-8, representing the value of metal collected, was paid during February and March 1913 and charged to "Special Repairs" to a certain road, but was subsequently written back in the Supplementary Accounts for March 1913 to another estimate for metalling the same road. It was explained that the amount was first charged off to Special Repairs as the estimate for metalling the road had not been sanctioned at the time the payments were made. Orders have been issued by the Superintending Engineer putting a stop to such irregular allocations.

United Provinces.

(e) Rupees 1,214-2-5, the value of metal collected, were charged to the estimate for 'A. R. Metal collections on I. A. Local roads' and in the accounts of March 1914, Supplementary, the amount was written back to the estimate for special repairs to a certain road.

(f) Rupees 409-8-3, the wages of work establishment, was charged in the first instance to the estimate for raising and metalling a certain road, an original work, and was written back in March 1914, Supplementary, to the estimate for maintenance of the metalled portion of the same road.

In both the above cases it was explained that estimates for the works on account of which the expenditure was really incurred had not been sanctioned at the time the payments were made.

(g) On the 31st March 1913 a District Engineer issued a cheque on the treasury for R754-5-0, in order to obtain a Remittance Transfer Receipt in favour of a certain firm on account of the cost of material required for the construction of quarters at a High School. On this date, however, all the materials had not been supplied and the last instalment of the consignment was not received until the 14th July 1913. The District Engineer retained the Remittance Transfer Receipt until the supply was complete and eventually despatched it to the firm concerned on the 18th July 1913. The purchase of the Remittance Transfer Receipt before it was actually required was made in order to avoid the lapse of the grant for 1912-13. The necessary orders were issued by the Superintending Engineer.

Punjab.

(h) In the Irrigation Department several instances were noticed in which materials were issued from Stock to the 'materials at site' accounts, with a view merely to utilize grants. The materials issued were, in some instances, not required at all for the works in question. The Audit Officer has been directed to bring the real irregularity involved in these cases, namely paper issues in excess of requirements, to the notice of the Local Government.

(i) At the time of the inspection of the office of an Executive Engineer in November 1913, it was noticed that a firm of contractors, whose account had been finally settled in March 1912, had put in a claim for R5,464, representing deductions made from their bills for the supply of materials. After enquiry by the Public Works Department officers it was found that R346-9-6 only were due to the contractors and they were informed accordingly. The firm, however, pressed their original claim and after further consideration an entry of 35,700 c. ft. ballast was made in the Sub-Divisional Officer's Measurement Book—details were subsequently added—and a cheque was issued by the Executive Engineer in favour of the firm. The measurement was not a *bonâ fide* one. Payment of the cheque at the Bank was stopped by the Executive Engineer and the entries both in the Measurement Book and the Cash Book were cancelled. On further representations made by the firm, a sum of R3,927 was paid to them for work of a

different description. The matter having come to the notice of the Local Government, a committee of enquiry was held; a sum of R2,703-11-6 was disallowed and this amount was ordered to be recovered from the Executive Engineer concerned.

(j) In a certain Division some steel beams to the value of R1,071 were ordered from a firm in Karachi, during March 1913. A bill dated the 28th March 1913, which had been asked for from the firm by wire, was paid by the Executive Engineer on the 30th March 1913, although the beams were not actually received until April 1913. Further, the beams were certified by the Sub-Divisional Officer in his annual return as having been actually counted at the site of the work on the 31st March 1913. Orders have been issued by the Superintending Engineer in regard to the irregularity.

(k) In connection with work for special repairs to a road, the contractors were paid R3,543-12-0 for collection of metal on the 30th March 1913. In July 1913 the metal was measured and it was then found that an overpayment of R1,406-12-0 had been made. The original measurements were recorded on the 26th March 1913, the contract agreement having been approved by Superintending Engineer on the previous day only. This, coupled with the fact that the metal collected to the end of July 1913 was less than that paid for in March 1913 by 18,184 c. ft., lent weight to the assumption that the payment made in March 1913 was an advance to prevent a lapse of grant. A deduction of R1,039-14-3 was made from the final bill, mainly in adjustment of the above excess payment, but the contractors declined to accept the proposed settlement. Owing to the death of the Sub-Divisional Officer the amount is to be written off.

Madras.

(l) The final bill for repairs to a certain tank was returned by the Executive Engineer for re-submission with a Revised Estimate, as the sanctioned estimate would have been exceeded by over 5 per cent. had the final bill been paid. In June 1913, however, the final bill was paid, the excess over the estimate being transferred to another estimate. The Local Government, to whom the matter was referred, have commented on the irregularity.

Pay of regular establishment charged to works to avoid higher sanction.
Assam.

48. The following are cases in which the pay of regular establishments was charged to works with a view to avoid the necessity of obtaining sanction.

(a) A clerk was granted 15 days' casual leave. A substitute was appointed in his place and his pay was charged to the estimate for the construction of a road.

(b) The pay of an office chaprasi was debited to the estimate for the construction of a road.

The orders of the Local Administration, to whom the cases were reported, are awaited.

Delay in the settlement of objections.

49. In paragraph 42 of last year's report attention was drawn to the delay which is often allowed to occur in the settlement of objections. There is still room for improvement. The following instances may be quoted:—

Bombay.

(a) Improving a Weir R49,332

The work was started in March 1912 and expenditure incurred on it without a sanctioned estimate was as follows:—

	R
1911-12	3,032
1912-13	31,286
1913-14	15,014

The objection was specially reported to the Local Government in August 1912, January 1913, June 1913, July 1913, and March 1914. In October 1913 the Local Government stated that orders to start the work had been given by the Chief Engineer for Irrigation in February 1912, that the matter had been reported to the Government of India in December 1912, and that the project (which had been returned by the Government of India for amendment) had been referred to the Superintending Engineer from whom it was expected shortly. The Superintending Engineer reported in July 1914 that the complete project for the work would be submitted to Government in a week.

In reply, however, to the Objectionable Items Statement for March 1914 (Supplementary) he stated that the project had again been returned to the Executive Engineer for amendment. The Superintending Engineer, in reply to the Provincial Objection Statement for March 1914, stated that the Executive Engineer reported that the delay in revising the project was due to alterations of the designs and the preparation of fresh drawings and measurements. The matter was again brought to the notice of the Local Government in November 1914. The latter have issued orders regarding the submission of the project and have called for an explanation of the long delay.

(*b*) Completing a Tank ... ... Rs. 33,497

The work in question was carried out as a famine relief work during the years 1911-12 and 1912-13, and the expenditure accounted for under '33—Famine Relief' against a famine abstract estimate sanctioned by Government. Further expenditure on the work was charged to the head '43—Minor Works and Navigation—Works for which neither Capital nor Revenue Accounts are kept.' This expenditure was incurred without a duly sanctioned estimate and has been held under objection since February 1913. The irregularity was specially brought to the notice of the Local Government in May 1913, and January 1914 An estimate for Rs. 50,000 was submitted by the Superintending Engineer for the sanction of Government. The Audit Office in March 1914 pointed out that the sanction of the Government of India was necessary to its classification as a 'Work for which neither Capital nor Revenue Accounts are kept.' The Superintending Engineer in July 1914 reported, in reply to the Objectionable Items Statement for December 1913, that the plans and estimates had been returned for classifying the work under the head 'Works for which Capital and Revenue Accounts are kept' The matter was reported to Government in the Objectionable Items Statement for the period ended 31st March 1914. The expenditure under objection now stands at Rs. 44,788. A further report to the Local Government was made in December 1914, who have again called for the submission of the estimate

(*c*) Repairs to a Tank . . . . . . Rs. 1,117-1-7

This work was taken in hand at the request of the Talukdari Settlement Officer, who, as Manager of the State, undertook that either the whole or part of the cost would be refunded if the work was carried out without further delay. The approval of Government was obtained in April 1912 to the work being carried out at once, in view of the Talukdari Settlement Officer's guarantee and of the fact that a sum of Rs 700 had been privately subscribed. When the work had been practically completed in November 1913, the Executive Engineer requested the Talukdari Settlement Officer to provide funds to cover the expenditure up to date and that officer stated that he would arrange to provide the funds after personal inspection of the tank in December 1913 and reference to Government if necessary. The Executive Engineer subsequently reported that the work had been completed and that the Talukdari Settlement Officer had been asked to remit the amount The matter was reported to Government in the Periodical Statement of Objections for March 1914. In November 1914, the Local Government issued orders that the necessary steps should be taken to regularize the outlay.

(*d*) Constructing a Range Forest office and quarters . . Rs. 1,395

There is an excess of Rs. 1,395 over the sanctioned estimate of Rs. 7,578 for this work. The objection first appeared in April 1912 and was reported to the Superintending Engineer in the monthly statements of objectionable items; it has also been brought to the notice of the Local Government in the periodical statements of objections since December 1912. The Local Government in August 1914 stated that the completion report was awaited to enable them to deal with the excess. The detailed completion report was submitted in November 1914, but has been returned by the Local Government to the Superintending Engineer with reference to certain remarks made by the Audit Office.

Railways.

ANALYSIS OF OUTSTANDING OBJECTIONS.

Outstanding balance on 31st July 1914: Comparison with 1912-1913.

50. The following statement shows the balances of the several classes of objections raised up to the 31st March 1914 but remaining unadjusted on the 31st July 1914. The corresponding figures of the previous year are also given for purposes of comparison :—

[Amounts are in thousands.]

Heads of objection.	Balance on 31st July 1914.		Balance on 31st July 1913.		Increase + or Decrease —.	
	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
Want of Estimate	177	38,78	267	53,02	—90	—14,24
Excess over Estimate — Covered by Administrative sanction	497	50,01	427	24,35	+70	+25,66
Excess over Estimate — Not covered by Administrative sanction	287	30,44	273	26,44	+14	+4,00
Want of Appropriation	44	3,01	96	11,99	—52	—8,98
Excess over Appropriation	118	57,67	256	82,29	—138	—24,62
Miscellaneous Irregularities	43	18,37	125	8,76	—82	+9,61
TOTAL	1,166	1,98,28	1,444	2,06,85	—278	—8,57

The total sum under objection under all heads of account on the 31st July 1914 was 1,98,28 as compared with 2,06,85 at that date of the previous year. There was thus a net reduction of 8,57. There were, however, increases of 29,66 and 9,61 under the heads 'Excess over Estimate' and 'Miscellaneous Irregularities' respectively. These are explained as follows :—

Excess over Estimate —(*a*) Non-realization of credits for released materials provided for in certain estimates relating to the Great Indian Peninsula and South Indian Railways (10,42) ; (*b*) delay in the submission of Completion Reports and Revised Estimates (10,49) ; and (*c*) excesses on the Southern Shan States Railway for which a Revised Estimate has since been submitted (6,74).

Miscellaneous Irregularities.—(*a*) Items awaiting final adjustment of the capital portion of mixed works which will be effected on the completion of the works (4,23) ; (*b*) objections in connection with the Mohpani Colliery pending decision of the Railway Board on certain points in connection with the contract (2,45) ; (*c*) delay in acceptance by the parties concerned of certain debits raised against them, in consequence of which the amounts were placed in 'suspense' (1,39).

Analysis of outstandings.

51. The total balance outstanding on the 31st July 1914 may be distributed amongst the several heads of account as follows :—

	No. of items.	Amount.
38—State Railways—Working Expenses	341	84,11
38—State Railways—Surplus Profits	8	86
40—Subsidised Companies Land	3	7
41—Miscellaneous Railway Expenditure	8	14
48—State Railways—Construction	714	1,03,25
Capital Account of Indian Railway Companies	92	9,85
Total	1,166	1,98,28

52. Of the figure shown against '38—State Railways—Working Expenses,' the largest share, *viz.*, 48,45, was under 'Excess over Appropriation' and represented excesses over the total sanctioned grants of the Great Indian Peninsula (26,41), Madras and Southern Mahratta (6,22), East Indian (5,09), Bengal Nagpur (3,25), Eastern Bengal (3,01), Assam-Bengal (1,54) and several other (2,93) Railways. These excesses will be regularised on receipt of the sanction of the Government of India.

The head 'Excess over Estimate' also accounted for a fairly large share, *viz.*, 22,30. Of this the Great Indian Peninsula Railway alone was responsible for 14,76, which included 3 items aggregating 13,02; of these 8,45 will be cleared by credits for released materials and the balance by a revised estimate which is under preparation.

The figure against 'Miscellaneous Irregularities' was 6,87, of which 3,42 relates to the Great Indian Peninsula Railway and 2,51 to the Lucknow-Bareilly Railway. The major portion of the former is not intrinsically objectionable, being held in suspense for want of allocation, while the latter is chiefly accounted for by the purchase of sleepers to the value of 2,51 in the absence of any sanctioned estimate for the work for which the sleepers were required.

53. Of the total outstanding shown against '48—State Railways—Construction' about one-half, *viz.*, 54,13, represents 'Excess over Estimate.' The following railways were responsible for the more important items included in the above total:—

(*a*) Southern Shan States Railway (11,62).—A revised estimate has been submitted to the Railway Board for sanction.

(*b*) Eastern Bengal Railway (9,7[illegible]).—Of this sum, 6,40 will be regularised through completion reports which have been submitted for sanction or are under preparation.

(*c*) Assam-Bengal Railway (6,26).—This will be regularised through supplementary and revised estimates

(*d*) Barharwa-Azimganj-Cutwa Railway (5,39).—The excess will be regularised through anticipated credits and by additional provision made in the completion estimate.

(*e*) Bombay, Baroda and Central India Railway (3,40).—The major portion of this will be regularised by (*i*) completion reports, (*ii*) revised estimates, and (*iii*) credits for released materials.

(*f*) Great Indian Peninsula Railway (2,65).—A large part of this has been incurred on three works; the expenditure on one of these works will be regularised on sanction being accorded to the revised estimate submitted, on the second through a completion report and on the third from anticipated savings under other heads.

Under the head 'No Estimate' there was an outstanding of 34,15, for which the following Railways were chiefly responsible:—

(*a*) Southern Shan States Railway (9,60).—The bulk of this sum is made up of—

Preliminary Expenses	2,11
Rolling Stock	6,78

A revised estimate for the latter has been submitted to the Railway Board for sanction.

(*b*) Laki-Pezu-Tank Railway (7,88).—This will be regularised on sanction being accorded to the construction estimate which has been submitted to the Railway Board.

(c) Eastern Bengal Railway (5,07).—The major portion will be regularised through completion reports.

(d) Great Indian Peninsula Railway (4,77).—The bulk of this, which has been incurred under the sanction of the Railway Board, represents expenditure incurred on the acquisition of land for the extension of the Victoria Terminus. The matter is still under correspondence with the Municipal Commissioner, Bombay.

(e) Bombay, Baroda and Central India Railway (3,27).—This represents outlay on 5 works. Estimates for 3 have been submitted for sanction. Of the remaining 2 works, one was commenced on the authority of the Railway Board and the other on that of the Agent.

The figure against 'Miscellaneous Irregularities' was 11,50, of which 10,47 appertain to the Great Indian Peninsula Railway. 4,73, which are connected with the Mohpani Colliery, will be cleared when certain outstanding point in connection with the contract have been settled, while 4.23 will be regularised on the final adjustment of charges between Capital and Revenue.

54. Of the balance shown against the head 'Capital of Indian Railway Companies' nearly one-half, *viz.*, 4,84, was under 'Excess over Appropriation' and represented the total excess over the grant of the Bengal Nagpur Railway; it will be regularised on receipt of the sanction of the Government of India. The head 'Excess over Estimate' also accounted for 3,94, over half of which, *viz.*, 2,24, occurred on the Madras and Southern Mahratta Railway. Of this latter sum 1,15 will be regularised on receipt of sanction to a revised estimate which is under submission.

Classification according to years. Percentage of objections raised to total expenditure.

55. The following statement shows the outstandings classified according to the years to which they relate :—

Head of objection.		Relating to 1911-12 and previous years.		Relating to 1912-13.		Relating to 1913-14.		Total.		Increase + or decrease −.	
		No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
Want of Estimate.	31st July '13	59	12,06	208	40,96	...	...	267	53,02	−90	−14,24
	31st July '14	**15**	**5,38**	**24**	**15,80**	**138**	**17,60**	**177**	**38,78**		
Excess over Estimate.	31st July '13	202	17,65	498	33,14	...	...	700	50,79	+ 84	+29,66
	31st July '14	**37**	**5,03**	**154**	**21,79**	**593**	**53,63**	**784**	**80,45**		
Want of Appropriation.	31st July '13	...	...	96	11,99	...	...	96	11,99	−52	−8,98
	31st July '14	...	...	...	...	**44**	**3,01**	**44**	**3,01**		
Excess over Appropriation.	31st July '13	2	5	254	82,24	...	...	256	82,29	−138	−24,62
	31st July '14	...	...	**8**	**98**	**110**	**56,69**	**118**	**57,67**		
Miscellaneous	31st July '13	39	5,83	86	2,93	...	...	125	8,76	−82	+9,61
	31st July '14	**8**	**4,44**	**3**	**4,27**	**32**	**9,66**	**43**	**18,37**		
TOTAL	31st July '13	302	35,59	1,142	1,71,26	...	...	1,444	2,06,85	−278	−8,57
	31st July '14	**60**	**14,85**	**189**	**42,84**	**917**	**1,40,59**	**1,166**	**1,98,28**		

The percentage which the total objections raised during the year bear to the total expenditure (including suspense) was 6·75 against 6·5 for the previous year.

FINANCIAL IRREGULARITIES.

56. The following more important instances are brought to notice :—

Frauds and misappropriation of Funds.

(a) *Eastern Bengal Railway.*—In the Barrackpore Works Division bogus labour pay sheets amounting to Rs. 9,711-12-6 were submitted to, and passed by, Audit. The fraud was committed through the collusion of clerks of the Engineering, Audit and Pay Departments and was discovered when the Departmental and Audit Office works registers were being reconciled. The clerks concerned were prosecuted.

Manipulation of Accounts.

(b) *North Western Railway.*—The registers of works for the project—Doubling the line between Ambala and Saharanpur—showed that over Rs. 2 lakhs had been wrongly booked against Revenue instead of Capital with a view to utilizing the Revenue grant. The amount has since been written back and stringent orders have been issued to discontinue the practice.

(c) *Eastern Bengal Railway.*—In the following cases expenditure was in the first instance debited to Ordinary Maintenance pending sanction to estimates and subsequently written back to the appropriate works and heads of accounts :—

(i) Repairing houses damaged by a storm in the Rajbari District—Rs. 4,137-9-6.

(ii) Constructing drivers' and firemen's quarters at Damukdia —Rs. 3,795-14-6.

Army.

ANALYSIS OF OUTSTANDING OBJECTIONS.

Classification of outstandings according to years and comparison with 1912-13.

57. The following statement shows the balances of objections raised up to the 31st March 1914, but remaining unadjusted on the 31st July 1914. The corresponding figures for the previous year are also given, as far as possible, for purposes of comparison.

[Amounts are in thousands of rupees.]

	Items awaiting clearance.		Service payments for recovery.		Total.		Total on 31st July 1913.		Increase + or Decrease —.	
	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
Prior to 1910-11	...	...	6	1	6	1	49	13	-43	-12
Relating to 1910-11	...	...	14	3	14	3	139	36	-125	-33
„ to 1911-12	...	...	40	13	40	13	419	75	-379	-62
„ to 1912-13	37	3	68	29	105	32	3,329	4,64	-3,224	-4,32
„ to 1913-14	1,364	5,87	1,162	1,39	2,526	7,26	...	...	+2,526	+7,26
Total	1,401	5,90	1,290	1,85	2,691	7,75	3,936	5,88	-1,245	+1,87

The percentage which the expenditure placed under objection during the year under review bears to the total expenditure of the year is 2·63.

It will be seen from the above statement that on 31st July 1914, that is after allowing sufficient time for the adjustment of all ordinary objections on the accounts of 1913-14, there were outstandings to the extent of 7,75 as compared with 5,88 on the same date in the previous year.

Classification of outstandings according to Divisions, etc.

58. The following statement shows the above outstandings according to the divisions to which they relate.

Divisions, etc.	Items awaiting clearance.		Service payments for recovery.		Total.		Total on 1st July 1913.	
	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
1st (Peshawar) Division	124	7	60	3	184	10	67	17
2nd (Rawalpindi) Division	160	58	59	7	219	65	401	71
3rd (Lahore) Division	104	7	73	2	177	9	158	97
4th (Quetta) Division	1	...	126	23	127	23	88	3
5th (Mhow) Division	..	...	3	...	3	...	27	7
6th (Poona) Division	...	..	105	23	105	23	84	29
7th (Meerut) Division	214	11	44	2	258	13	93	6
8th (Lucknow) Division	293	9	161	18	454	27	385	18

Burma Division	56	1	49	8	105	9	93	10
Supply Circle	206	4,73	539	98	745	5,71	1,803	3,13
TOTAL	1,401	5,90	1,290	1,85	2,691	7,75	3,936	5,88

Analysis of outstandings.

59. The reasons for the outstandings are explained below in detail.

Prior to 1909-10 and 1909-10.—The 6 items which relate to the Rawalpindi Division represent leave allowances overpaid to an Assistant Surgeon under a misapprehension of the rules, the objections in regard to which were not raised until June 1914. Steps are being taken to have the amount written off, as the objections are time-barred.

1910-11.—The objections amounting to 3 pertain to the Supply Circle and represent items which remain unadjusted pending settlement with the Railway authorities and issuing officers. Some of these items have been referred for the orders of Government of India.

1911-12.—Of the total of 13 for this year, 1 is in the Rawalpindi Division and 4 are in the 6th (Poona) Division. The latter represent the amount still remaining unadjusted out of advances made in connection with the working of a Grass Farm; legal proceedings have been instituted for their recovery. 8 pertain to the Supply Circle, of which 6 are outstanding pending settlement with the Railway authorities; the remaining 2 have since been adjusted.

1912-13.—19 out of the 32 pertain to the 6th (Poona) Division and represent the loss sustained by Government on account of the failure of a contractor; legal proceedings have been taken for the recovery of the amount. 10 pertain to the Supply Circle and await settlement with the Railway authorities and issuing officers. The remaining 3 are in the 7th (Meerut) Division, of which 1 represents charges claimed in excess on account of food compensation and gratuities, etc. to transport attendants, and 2 are mainly due to extra expenditure incurred on account of supplies made under departmental agency owing to the failure of certain contractors; the matter is under legal enquiry.

1913-14.—Of the sum of 7,26 relating to the current year, 4,95 have since been adjusted, 69 are outstanding owing to want of vouchers or other details, 1,23 are under recovery and 39 are awaiting Government sanction.

Although the total unadjusted balance on the 31st July 1914 amounted to 7,75, a sum of 4,97 has since been adjusted. Special instructions were issued from time to time to all Controllers with a view to the expenditure under objection being reduced to the lowest possible limit.

FINANCIAL IRREGULARITIES.

60. During the year under report no important financial irregularities were brought to light.

The fraud referred to in paragraph 50 of last year's Appropriation Report has since been investigated by a Committee, who also examined the accounts of the Mule Corps in which the fraud was committed. The necessary disciplinary action has been taken.

Telegraph.

61. The following statement compares the balances of objections outstanding on 31st July 1914 with those on the corresponding date of the previous year. The figures are classified according to the years to which the objections relate :—

Heads of objections.	Relating to 1911-12 and previous years.		Relating to 1912-13.		Relating to 1913-14.		Total.	
	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
Want of Estimate	...	...	...	...	8	7	8	7
Excess over Estimate (covered by Administrative sanction)	...	...	...	...	20	15	20	15
Want of appropriation	...	...	...	...	4	4	4	4
Excess over appropriation	...	...	...	...	[illegible]	48	63	48
Miscellaneous irregularities	1	(a)	6	(a)	404	15	411	15
TOTAL 1913-14	1	(a)	6	(a)	499	89	506	89
TOTAL 1912-13	16	7	551	1,00	..	...	567	1,07

(a) Amount less than one thousand.

62. Of the outstandings, 74 are on account of works and relate to the year under review.

There were outstandings of 15 under 'Miscellaneous Irregularities,' which included one item of 1911-12 and six items of 1912-13 ; of these, three items have since been adjusted. The rest relate to the year 1913-14 and are analysed below :—

	Rs.
For want of details	2
" " sanction	5
" " voucher	3
Overpayment of Railway freight	3
Service payment for recovery	[illegible]
TOTAL ...	[illegible]

63. The percentage of objections raised during the year to the total expenditure was 4·06.

FINANCIAL IRREGULARITY.

64. During the inspection of a Divisional Office it was found that the imprest bill of an officer for Rs. 910-8-6 had been shown to have been paid on 31st March 1913. The payment was however actually made some time in April 1913. It was explained that the works for which the payment was made were completed so late that it was impossible to close all payments on 31st March 1913 and that, as it was only a matter of few days, they were shown as being made on the 31st March 1913. It was also stated that this is a common procedure in the case of works completed on the last day of the year when the accounts cannot be closed on that date. If this is correct, special measures are necessary to put a stop to the practice.

Military Works.

Outstanding objections.

65. The following statement shows the balances on 31st July 1914 as also the corresponding figures for 1912-13.

Heads of objection.	Relating to 1911-12, and previous years.		Relating to 1912-13.		Relating to 1913-14.		Total.	
	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.
Want of Estimate	...	...	1	2	24	29	25	31
Excess over Estimate (a) Covered by Administrative sanction.	3	24	19	48	128	2,18	150	2,90
Excess over Estimate (b) Not covered by Administrative sanction.	...	...	...	...	28	6	28	6
Want of Appropriation	...	...	...	...	1	7	1	7
Excess over Appropriation	...	...	...	...	24	28	24	28
Miscellaneous Irregularities	...	...	8	12	246	1,87	254	1,49
Total for 1913-14	3	24	28	62	451	4,25	482	5,11
Total for 1912-13	72	3,56	184	3,38	...	...	256	6,94

The balance of 5,11 was made up of 1,39 under 'Ordinary Demands,' 3,63 under 'Special Demands' and 9 under 'Special Defences', while the corresponding figures for 1912-13 were 1,20 and 5,74 and *nil* respectively.

Under 'Ordinary Demands' the increase of 19 over the last year occurred mainly under 'Miscellaneous Irregularities' and was due to larger outstandings at the end of the year under the suspense heads 'Contractors' Ledger,' 'Unvouched Outlay' and 'Rents' and also to the inclusion of establishment irregularities up to 31st March 1914 instead of to 28th February 1913 as was done last year. There were increases also under 'Want of Estimate' and 'Excess over Estimate'.

There was a substantial improvement under 'Special Demands', due mainly to the regularisation of the sanction to the project for 'Completing accommodation for the increased garrison at Hyderabad', which was held under objection last year for want of Secretary of State's sanction.

66. The percentage which the amount of objections raised during the year under report bears to the expenditure of the year is 21·3.

It has been roughly estimated that the percentage of Military Works started during the year without estimates was no less than 33·76. This estimate is based on statistics for 8 districts selected at random.

FINANCIAL IRREGULARITIES.

67. In connection with a work carried out by a contractor, certain tiles were purchased from a firm at Karachi in March 1913 and supplied to the contractor who received full and final payment for the work. Measurements were shown to have been recorded on 21st March 1913, although the tiles had not then been actually received. The matter was brought to the notice of the Director-General, Military Works, and the necessary orders have been issued.

Fictitious Entries in Measurement Books.

68. A sum of Rs. 180 was shown in the accounts rendered to the Audit Office as recovered from a Chaplain on account of the cost of 30 cushions. It was discovered that the above sum was made up of the following two items, *viz.* :—

Manipulation of Accounts.

(*a*) Sale proceeds of grass in the compound of a church (Rs 130) ; and

(*b*) Sale proceeds of grass in the compound of the office of an Assistant Commanding Royal Engineer (Rs. 50).

The matter was brought to the notice of the Director-General who has issued orders to the Military Works officer concerned.

Marine.

69. The outstanding balance in the Marine Department on 31st July 1914 was less than one thousand rupees as in the previous year. There were 14 items as against 19 in the previous year. A number of these have since been adjusted and the remainder are outstanding owing partly to the absence of certain officers on long leave out of India and partly to want of vouchers. Steps have been taken with a view to effect an early settlement.

Outstanding Objections.

The percentage which the expenditure placed under objection bears to the total expenditure of the year is ·38.

March Expenditure.

70. Reference was made in paragraph 55 of last year's report to the heavy expenditure which usually takes place in the Public Works Department in the month of March. No appreciable improvement in regard to this matter is to be observed in the accounts for the year now under report. A circular was issued by the Government of India on the subject in March 1914, and it is hoped that an improvement will be noticed in the accounts for 1914-15.

GENERAL REMARKS.

71. Some of the more important questions that have been under consideration are briefly mentioned in the following paragraphs.

72. The changes in account processes involved by the amalgamation of the Public Works and Civil Accounts branches, referred to in paragraph 56 of last year's report, were further examined. An informal conference of Account officers, which was presided over by my predecessor, was held in Calcutta and as a result of the discussions a scheme was formulated. The matter is still under consideration.

Modification of Public Works Accounts.

73. Arrangements have been made by which it has been rendered possible to advance the publication of the Finance and Revenue Accounts of the Government of India by about a month.

Finance and Revenue Accounts.

74. The question of the simplification of audit and accounts processes in our Civil Account offices continued to engage attention. Mr. H. N. Heseltine, an experienced officer, was placed on special duty to make a thorough examination locally of the processes in the different offices His report, which was received in 1914-15, contains valuable suggestions. Orders have already been passed on several points while others are still being examined.

Simplification of Audit and Accounts Processes.

Military Accounts.

Abolition of the Circle Controllerships.

75. Final orders regarding the reorganization of the Military Accounts Department were issued in November 1913. Under the new scheme, which came into effect from the 1st April 1914, the Controllerships of the Northern, Eastern and Western Circles of Military Accounts were abolished, and the ten Divisional Military Account centres were reconstituted as self-contained offices in matters of account and audit. Moreover, with a view to providing a more effective test audit of the accounts and a closer examination of the work generally of the Divisional Audit and Disbursing offices, two important inspecting agencies for the accounts offices of the Northern and Southern Army were created with the designation of Military Deputy Auditors-General.

Extension of the Divisional Disbursing office system.

76. A further reform which was carried out in the Military Accounts Department was the expansion of the Divisional Disbursing office system. Hitherto the operations of the Divisional Disbursing office were confined to the accounts of British troops and the Supply and Transport Corps. Under the new scheme, the preparation of the accounts of Indian units and of the bills for salaries and allowances of officers, establishments, etc., of the Army, has been undertaken by the Divisional Disbursing offices instead of by the units and officers concerned, so that the Divisional Disbursing offices become responsible for the preparation and disbursement of practically all claims to pay and allowances due to officers, men and establishments of the Army.

Railway Accounts.

Standardization of Stores.

77. Orders have been passed on the question of the standardization of stores referred to in paragraph 59 of last year's report.

Clearing House for Railway Accounts.

78. The establishment of a Clearing House for Indian Railways has been under consideration for many years and has been the subject of discussion by the Indian Railway Conference Association. A scheme has been framed for the abolition of the redundancies of check of transactions in the accounts relating to exchanged traffic, and arrangements, although of a tentative nature, have been made by several Railways to give effect to it. The scheme is now in an experimental stage, but it is expected that its final introduction will result in much simplification of work.

Scheme of training for junior officers.

79. Hitherto no definite arrangements have been made for the systematic training of the junior officers of the department, who have been left to gather as much knowledge as they could of the work of the department from a study of our voluminous codes and regulations. The result has been that practically no officer could thoroughly master the general principles underlying our work until after many years' service. With a view to partially remedying this defect two manuals were prepared in the time of my predecessor—an 'Accounts Manual' and an 'Introduction to Indian Government Audit'. The former gives a brief survey of the whole system of Government accounts, while the latter deals in the same general way with the principles underlying our audit work. These manuals are to be included among the subjects for the departmental examination.

Cadre for the Department.

80. With a view to putting the cadre of the department on a satisfactory footing an arrangement has been introduced, with the sanction of the Secretary of State, under which the strength of the gazetted staff will be regulated automatically with reference to the actual number of sanctioned posts.

Inspection of Treasuries.

81. In July 1912 the Government of India decided that the duty of the inspection of treasuries should be transferred from the revenue authorities to the Accounts Department. Owing, however, to the inadequacy of the gazetted staff it was not possible to start the new work at once, but the reform was introduced in most of the provinces during the year under report.

Action taken by Local Governments on financial irregularities previously brought to notice.

82. In May 1914 the Government of India issued orders laying down the procedure to be followed by Local Governments and Administrations in disposing of financial irregularities noticed in the Appropriation Reports of the Comptroller and Auditor-General. In these orders it was pointed out the Auditor-General possesses discretionary right to refer in a second annual report to any matter previously brought to notice in regard to which the action taken appears to him to be insufficient. Some of the matters brought to notice in the report for 1912-13 have not yet been finally disposed of by

the Local Governments, but it is satisfactory that I am able to state that there are practically no cases in which it has been necessary for me to come to the conclusion that the action taken has been insufficient. Some of the Local Governments and Administrations have issued very stringent orders relating to certain irregularities, while others have pointedly drawn the attention of disbursing and controlling authorities to the breaches of financial rules noticed in last year's report. I think it can now be assumed that no officer is in a position to plead ignorance in defence of irregularities such as are noticed in the present report, and, as I have already said, it is essential that suitable disciplinary action should be taken by the administrative authorities in such cases as may in future be brought to light. Undue leniency in such matters has only a harmful effect.

Appropriation Audit.

83. The Budget grants have been exceeded under several heads. The excesses have been noticed under each head of expenditure. The following table brings together the excesses under each head still requiring sanction :—

Excess expenditure over Budget Estimate awaiting sanction of the Imperial Government.

	India, excluding Baluchistan.	Baluchistan.	Central Provinces.	Burma.	Assam.	Bengal.	U. P. of Agra and Oudh.	Punjab.	N.-W. F. Province.	Madras.	Bombay.	Total.

I.—Land Revenue.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	19,48	20,57	21,20	Delhi accounted for 1,51 of the increase, as the actuals for 1912-13 included only six months' figures.	The increase was chiefly due to an improvement in Baluchistan owing to a good harvest and revised assessments.
Central Provinces	1,82,90	1,88,46	1,87,17	The increase (4,27) was mainly due to— (1) an enhancement of the normal demand on the completion of settlement operations in certain districts (2,22), (2) the sale of escheated malik-makbuza lands (90), and (3) increased receipts from quarries (67) and record of rights in Berar (35).	A decrease under 'Ordinary Revenue' (3,22) due to suspensions and remissions of Land Revenue owing to scarcity in certain districts was partly counterbalanced by increased receipts from the sale of malik-makbuza lands (94), from quarries (54) and from record of rights in Berar (37).
Burma	4,51,60	4,29,28	4,63,07	The increase (11,47) was due to enhanced receipts under 'Ordinary Revenue' (4,40) owing to favourable agricultural conditions, under 'Rents, etc., of fisheries' (2,79) on account of an exceptionally successful season in 1912-13 which led to high bidding for leases in 1913-14, under 'Capitation-tax' (1,97) in consequence of an influx of population into Lower Burma as the result of favourable agricultural conditions, and under 'Miscellaneous' (1,75).	The causes mentioned under Actuals contributed to larger receipts of 17,85 under 'Ordinary Revenue,' of 3,40 under 'Rents, etc., of Fisheries', of 2,92 under 'Miscellaneous', and of 1,78 under 'Capitation tax'. There were also increases of 6,45 under 'Petroleum' and of 1,85 under 'Thathameda Tax', the former being caused by larger activity in the Myingyan and Yenangyaung Oil Fields and the latter by favourable agricultural conditions in Upper Burma.
Assam	77,90	77,00	78,87	The increase was chiefly due to special receipts from the sale of waste lands and from fees for the survey of such lands.	The increase was chiefly due to the resettlement of the Lakhimpur district in the Assam Valley, the effect of which was not however fully foreseen when the Budget was framed. Large sales of waste lands in Kamrup for jute cultivation and the realization of fees for the survey of those lands also contributed to the increase.
Bengal	2,79,57	2,83,88	2,80,29	There was an increase of 2,79 under survey and settlement recoveries, which depend on the programme of work. This was, however, almost counterbalanced by a decrease of 2,30 due to the Damodar floods which necessitated the suspension of collections from Government estates in the Midnapur district.	The decrease (3,59) was chiefly due to smaller recoveries on account of survey and settlement charges (about 2 lakhs), owing to delay in the commencement of recovery operations in the Jalpaiguri district. Collections from Government estates were also less by about 1¼ lakhs owing to the Damodar floods.
Bihar and Orissa	1,57,39	1,58,69	1,63,99	The increase (6,60) occurred under 'Recovery of Survey and Settlement charges' (4,12), due mainly to the recovery of arrears, and under 'Ordinary Revenue' (2,45) owing partly to an increase in the revenue in estates held under direct management and partly to the conclusion of new settlements in certain districts.	The increase was due to the causes mentioned under Actuals.
United Provinces of Agra and Oudh.	6,53,81	6,46,02	5,90,78	The decrease (63,03) was mainly attributable to smaller collections of Ordinary Revenue (62,36) consequent on the agricultural distress following the failure of the *kharif* crop of 1913	The decrease (55,24) was chiefly due to large suspensions and remissions necessitated by the partial failure of the *kharif* crop of 1913.

I.—Land Revenue—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Punjab	2,93,46	2,72,62	2,69,44	The decrease was due to smaller receipts from the sale of proprietary rights in the Chenab Colony.	The decrease (3,18) was the result of the transfer of a larger sum to 'Irrigation' *viz.*, 21,00, and a net increase of 17,82 under the ordinary receipt heads. The bulk of the latter was due to the introduction of a fluctuating system of assessment, the levy of enhanced rates in the Gujranwala district, and the revision of assessments in some of the districts.
North-West Frontier Province.	21,10	21,56	20,84	......	The decrease was chiefly due to the grant of suspensions.
Madras	5,80,94	5,92,87	5,73,09	The decrease (7,85) was due mainly to remissions and suspensions in several districts owing to unfavourable conditions.	As under Actuals.
Bombay	4,73,92	5,15,03	5,60,00	The increase (86,08) was chiefly due to favourable agricultural conditions in most parts of the Presidency, including Sind, which enabled a large amount of arrears to be realized. Owing to a change in the system of accounting in the case of certain cash allowances, net recoveries aggregating 2,61 were credited to this head by relieving the debt head 'Advances Repayable.'	The Budget was framed on the assumption of a normal season and allowed for the recovery of a portion of the revenue suspended in previous years. The season, however, proved better than anticipated. The adjustment of the cash allowances referred to under Actuals was also responsible for an increase of 2,61.
Total in Rupees	31,92,37	32,05,98	32,08,74		
	£	£	£		
Equivalent in Sterling	21,282,5	21,373,2	21,391,6		

84. As compared with the previous year there was an improvement of 16,37, which was chiefly the result of increases in Bombay (86,08), Burma (11,47), Bihar and Orissa (6,60) and the Central Provinces (4,27) and of decreases in the United Provinces (63,03), the Punjab (24,02) and Madras (7,85).

There was an increase of 2,76 over the Budget which was mainly the result of an improvement in Bombay (44,97), Burma (33,79), and Bihar and Orissa (5,30), and of decreases in the United Provinces (55,24), Madras (19,78), Bengal (3,59) and the Punjab (3,18).

II.—Opium.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India . . .	20	34	31	The increase was due to the fact that the figures for 1913-14 included receipts for Delhi for a complete year as against only 6 months in 1912-13.	...
Central Provinces .	5,15	5,25	5,21	...	...
Burma . . .	4,00	4,39	3,79	The revenue under this head shows a steady fall from 1907-08 except in 1912-13 in which year the substitution of Bengal for Shan opium in certain districts accounted for the improvement.	As under Actuals.
Assam . . .	5,27	5,20	5,42	The increase was chiefly due to a fall in the retail price and improved agricultural conditions.	As under Actuals.
Bengal . . .	5,04,57	1,68,46	1,97,84	The decrease was mainly caused by the stoppage of the sale of certified opium and by a reduction in the number of chests of the uncertified variety sold.	The increase was chiefly due to a better average price obtained at the opium sales.
Bihar and Orissa .	3,90	4,00	4,15	The increase was mainly due to a larger supply of opium to the Feudatory States in Sambalpur and Cuttack.	As under Actuals.
United Provinces of Agra and Oudh.	5,73	5,70	6,64	The actuals for 1913-14 included 78 on account of miscellaneous receipts, which are now being adjusted locally instead of in the Bengal books as hitherto.	As under Actuals.
Punjab . . .	5,97	6,75	6,52	The increase was chiefly due to larger imports of Excise Opium by Native States.	The decrease was chiefly due to smaller consumption of Excise Opium.
North-West Frontier Province.	46	50	47	...	...
Madras . . .	4,12	4,15	3,95	The decrease was due chiefly to a fall in the quantity of opium issued to the Native States of Travancore and Cochin.	The Budget did not provide for any decline in the revenue, which has been steadily taking place since the enhancement of the issue price of opium and the consequent fall in the consumption of the drug in the Presidency.

II.—Opium—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay	2,20,32	12,01	9,53	The large decrease was due to the abolition of the opium trade with China.	The decrease was mainly due to an erroneous adjustment of 1,48 in the accounts of 1912-13 of the cost price of opium in transit at the close of that year, and to forward credits on account of the proceeds of auction sales held in December 1912 which were due in 1913-14.
Total in Rupees	7,68,69	2,16,75	2,43,73		
	£	£	£		
Equivalent in Sterling	5,124,6	1,445,0	1,624,9		

85. The heavy fall of 5,24,96 as compared with the actuals of the previous year was brought about by the abolition of the trade with China. The improvement of 26,98 as compared with the Budget was due to a higher average price obtained in Bengal for uncertified opium.

III.—Salt.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	1,19,35	1,22,67	1,19,33	...	The decrease took place chiefly in the receipts at Sambhar.
Burma	21,19	21,60	22,25	The increase was mainly due to larger receipts under 'Customs duty on Salt' (94) owing to larger importations of salt from England, Salif, and Port Said.	The increase occurred under 'Excise duty on Salt' (42) owing to the policy of restriction having no effect on the revenue and under 'Customs duty on Salt' (23) on account of the importation of Salif salt.
[illegible]	1	2	1	...	...
Bengal	1,18,85	1,21,00	1,30,41	The increase of about 11½ lakhs was due partly to a much smaller growth in the outstandings under the credit system of sale than in the previous year (about 7½ lakhs), and partly to an increase in consumption (about 4 lakhs) owing to a fall in prices and to the plentiful supply of foreign salt which was brought about by the conclusion of the Turko-Italian War.	As explained under Actuals the increase was partly due to a less rapid development of the credit sales and partly to larger consumption.
Bihar and Orissa	1	1	1	...	...
Madras	1,10,74	1,11,50	1,11,66	The increase (92) was due to larger realizations on account of credit sales in the previous year.	...
Bombay	1,30,01	1,34,00	1,33,13	The increase (3,12) was chiefly due to larger receipts from 'Excise duty on Salt' ([illegible]18) and may be ascribed to trade fluctuations. The actuals under 'Miscellaneous' also included 75 on account of sale-proceeds of buildings and land occupied by the Salt Depot at Ahmedabad.	The decrease (87) was due to an over-estimate under 'Excise duty on Salt' (1,66), and to smaller receipts under 'Sale-proceeds of Goverment Salt' (24) owing to a contraction in the issues of Baragora salt. On the other hand, there was an increase of 1,09 under 'Miscellaneous' arising from the sale of buildings and land lately occupied by the Salt Depot at Ahmedabad and from larger recoveries of 'Bagging and Sewing Charges.'
Total in Rupees	5,00,16	5,10,80	5,16,80		
Equivalent in Sterling	£ 3,334,4	£ 3,405,3	£ 3,445,3		

86. As compared with the actuals of the previous year, there was an improvement of 16,64, which was contributed by Bengal (11,56), Bombay (3,12), Burma (1,06), and Madras (92).

As compared with the Budget there was an improvement of 6,00, which was the result of an increase in Bengal (9,41) and of a decrease under India (3,34).

IV.—Stamps.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	6,55	8,05	8,52	The increase (1,97) was chiefly due to the fact that the receipts in Delhi for 1913-14 represented collections for the whole year (3,06) as compared with only six months in 1912-13 (1,45).	The greater part of the increase represented larger receipts from the sale of Vakeels' stamps.
Central Provinces	37,15	37,25	39,39	The increase (2,24) was chiefly due to enhanced receipts under 'Sale of Court-fee Stamps' (1,20) due to a rise in the number of suits of higher values and under 'Sale of General Stamps' (1,09) owing to speculative transactions in the cotton trade.	As under Actuals.
Burma	36,08	37,50	36,19	......	The decrease (1,31) occurred under 'Sale of Court-fee Stamps'.
Assam	13,02	13,40	13,99	The increase is attributed to the immigration into the province of a large number of foreigners, a rise in the value of lands transferred by registered deeds, an increase in the number of mortgage bonds owing to a partial failure of the crops in the Surma Valley, and other causes.	As under Actuals. It was not possible to foresee the partial failure of crops in the Surma Valley which is mainly responsible for the large increase under General Stamps.
Bengal	2,07,44	2,11,0[illegible]	2,19,11	The increase was unusually large and was contributed both by court-fee stamps and non-judicial stamps. Under the former the increase was 6,17 and was due to larger duty paid on probate and letters of administration and to settlement operations. Under the latter the revenue advanced by 5,39 owing principally to exceptional prosperity in the jute trade.	In the Budget provision was made for normal growth. Owing, however, to the special causes stated under Actuals the receipts exceeded anticipations by over 5 lakhs.
Bihar and Orissa	65,88	68,80	67,63	The improvement of 1,75 occurred mainly under 'Sale of General Stamps' (1,14) and 'Court-fee Stamps' (65) and was due to the conduct of settlement operations in some of the districts, the execution of a large number of sale and mortgage deeds, the institution of a large number of rent suits in Balasore, and a large issue of over-printed stamps to the Mayurbhanj State in Cuttack.	An increase of 2,53 under 'Sale of Court-fee Stamps' over the actuals of the previous year was allowed for in the Budget, but of this only 65 were realized. There was, however, an increase of 82 under 'Sale of General Stamps' owing to the causes mentioned under Actuals.

IV.—Stamps—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
United Provinces of Agra and Oudh.	1,14,90	1,17,50	1,19,52	The increase occurred chiefly under General Stamps (1,63) and Court-fee Stamps (2,64). The improvement under the latter is attributed mainly to an increase in the number of suits for resumption of rent-free holdings owing to the expiry of limitation in 1913, and also to settlement operations in a few districts. The improvement under General Stamps is attributed to the general advancement of the province.	The causes mentioned under Actuals account for the improvement over the Budget under General Stamps (1,12) and Court-fee Stamps (95).
Punjab	55,24	55,00	56,24	Excluding 1,61 on account of Delhi from the actuals of 1912-13, the increase was 2,61 and was due to the growing tendency to substitute deeds for account book entries in cases of mortgage and sale, to a steady increase in the value of immovable property in certain districts and to the growth of litigation. The failure of Banks is also said to have contributed to the increase.	The increase (1,24) occurred chiefly under 'Sale of General Stamps' and was due partly to normal growth, for which sufficient allowance had not been made in the Budget, and partly to the failure of certain Banks.
North-West Frontier Province.	5,89	5,73	6,67	The increase (78) occurred chiefly under 'Sale of Court-Fee Stamps' (61) and was mainly due to the growth of litigation.	The increase (94) was due partly to no provision having been made in the Budget for normal growth and partly to increased litigation.
Madras	1,36,15	1,42,50	1,41,68	The improvement (5,53) was due chiefly to an increase in litigation, the opening of new courts, the expansion of trade and consequent growth of monetary transactions, and to more transfers of landed property in many districts.	The decrease (82) was due to smaller receipts under 'Sale of Court-Fee stamps.'
Bombay	82,07	83,00	88,80	The increase (6,73) occurred chiefly under 'Sale of Court-Fee Stamps' (5,13) and 'Sale of General Stamps' (1,13) and was due in the former case to increased litigation and in the latter to larger sales of bills of exchange, Foreign Bills and Impressed Stamps.	The increase (5,80) occurred chiefly under 'Sale of Court-Fee Stamps' (5,26) and was due to abnormal issues owing to the large number of suits filed during the year. There were also larger receipts from duty on impressing documents (36) and under 'Miscellaneous' (35) on account of composition of stamp duty on the debentures issued by certain local bodies.
Total in Rupees	7,60,37	7,82,73	7,97,74		
	£	£	£		
Equivalent in Sterling	5,069,1	5,218,2	5,318,3		

87. The improvement of 37,37 as compared with the previous year was contributed more or less by all the Provinces. The more important increases occurred in Bengal (11,67), Bombay (6,73), Madras (5,53), the United Provinces (4,62), the Central Provinces (2,24), India (1,97) and Bihar and Orissa (1,75).

The increase of 15,01 as compared with the Budget occurred chiefly in Bombay (5,80), Bengal (5,11), the Central Provinces (2,14), and the United Provinces (2,02).

V.—Excise.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	20,27	22,13	22,02	The increase (1,75) was chiefly due to the fact that the actuals for 1913-14 included receipts in Delhi for 12 months as against only 6 months in 1912-13 (1,39), and to increased receipts from auction sales in Bangalore (32).	......
Central Provinces and Berar.	1,06,04	1,10,00	1,16,24	The increase (10,20) occurred chiefly under 'License and Distillery Fees' (9,84) owing to larger receipts from auction sales, the enhancement of the duty, and to an extension of the distillery area.	As under Actuals.
Burma	81,16	82,00	83.43	The improvement (2,27) occurred under 'License and Distillery Fees' (3,35) owing to the general prosperity of the people and an extension of the distillery area to certain districts, and under 'Fines, Confiscations and Miscellaneous' (51) owing to larger issues of confiscated opium to licensees. The above increases were, however, partly counterbalanced by a decrease under "Gain on sale-proceeds of 'Excise opium' (1,55).	As under Actuals.
Assam	48,52	48,75	52,59	The increase (4,07) was due to higher receipts from license fees for the sale of country spirits and opium and to the raising of the duty on ganja.	As under Actuals.
Bengal	1,37,59	1,38,55	1,53,89	The advance (16,30) was mainly due to an increase in the receipts from license fees for the sale of country spirits. In addition, the duty on country spirits was raised in certain districts, the contract supply system was introduced in the Chittagong Division from 1st April 1913, and the duty on ganja was enhanced.	As under Actuals.
Bihar and Orissa	1,03,86	1,05,50	1,12,60	Of the increase of 8,74, 5,41 occurred under 'License and Distillery Fees,' due to the enforcement of unrestricted auction sales in several districts, 1,67 under 'Ganja' owing to an enhancement of the duty and 1,65 under 'Opium' owing to a rise in the treasury price.	As under Actuals.
United Provinces of Agra and Oudh.	1,25,95	1,27,00	1,33,04	The increase (7,09) chiefly occurred in the receipts from license fees for country spirits (4,13), opium (48) and other drugs (1,30). The receipts under 'Still-head duty' also improved (84) owing to its enhancement in certain districts.	The Budget was cautiously framed as it was considered that the increase in the previous year had been abnormal. The receipts, however, showed a considerable advance noticeably under country spirits (4,82), opium (57) and duty on hemp drugs (54).
Punjab	70,12	69,50	69,14	Leaving out of account the receipts in 1912-13 in Delhi amounting to about 1,50, there was an increase of 52, which was due mainly to an enhancement of the issue price of excise opium from 1st April 1913.	The receipts from opium decreased by 72 owing chiefly to smaller sales of excise opium in British districts in consequence of hill opium underselling excise opium. On the other hand, there was a small increase of 36 under 'License and Distillery fees.'
North-West Frontier Province.	4,04	3,50	3,50	The decrease was due to an enhancement of the rates of duty from 1st April 1913.	...

V.—Excise—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Madras	3,31,87	3,48,00	3,65,11	The increase (33,24) occurred chiefly under 'License and Distillery Fees', (30,76), owing to keen competition for arrack (9,62) and toddy (8,88) shops, the number of which was reduced, and an enhancement of the excise duty on country spirits (5,21) and of the tree-tax (4,98) in certain districts. There was also an improvement under opium (1,77), due mainly to the raising of the issue price.	The improvement of 17,11 was made up of increases under license and distillery fees (13,41), opium (2,26), duty on ganja (1,04), and other receipts (40).
Bombay	2,12,27	2,13,00	2,22,59	The increased revenue (10,32) was chiefly realized under 'Still-head duty,' owing to an enhancement of the rates in certain districts and to increased consumption consequent on favourable conditions. There was also an increase from the sales of opium (3,30). Exports of ganja were large, partly to replenish stocks and partly to evade the higher rate of duty which came into force from 1st April 1914 (1,41).	As under Actuals.
Total in Rupees	12,41,69	12,67,93	13,34,15		
	£	£	£		
Equivalent in Sterling	8,277,9	8,452,9	8,894,3		

88. There was an increase of 92,46 as compared with past actuals, which occurred chiefly in Madras (33,24), Bengal (16,30), Bombay (10,32) and the Central Provinces (10.20).

As compared with the Budget there was an improvement of 66,22, nearly one-half of which was contributed by Madras (17,11) and Bengal (15,34), while the balance occurred mainly in Bombay (9,59), Bihar and Orissa (7,10), the Central Provinces (6,24), the United Provinces (6,04), and Assam (3,84).

VI.—Provincial Rates.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against — Actuals, 1912-13.	Local Account Officer's Review of Actuals against — Budget, 1913-14.
India	14	15	3	The decrease was due to the restricted export of Malwa opium for the China trade.	As under Actuals.
Assam	9	8	12	The increase was due to an increase in the number of estates taken under the management of the Court of Wards and to the improvement in the income of certain estates.	As under Actuals.
Bengal	32,02	90	1,31	The decrease was due to the surrender to District Boards of the Public Works cess.	The receipts represent the levy of rates for the management of Wards' Estates. The increase was due to the collection of arrears.
Bihar and Orissa	26,50	1,28	1,68	The decrease was due to the surrender to District Boards of the Public Works cess.	The increase was due to the recovery of arrears.
United Provinces of Agra and Oudh.	23,69	1,57	23,66	......	The Budget did not allow for appropriations from Local Rates on account of Rural Police charges for the province of Agra in view of the contemplated introduction of the scheme for improving the resources of Local Boards with effect from 1913-14. But as the scheme was postponed the appropriations continued to be made.
Punjab	36	30	20	Nothing on account of Wards cess was realized in 1913-14 in the districts of Rawalpindi, Ferozepore and Attock.	As under Actuals.
North-West Frontier Province.	2	3	3	......	
Total in Rupees	82,82	4,31	27,03		
	£	£	£		
Equivalent in Sterling	552,1	28,7	180,2		

89. The large falling off of 55,79 as compared with the actuals for 1912-13 was chiefly due to the surrender of the Public Works cess to the District Boards in Bengal (30,71) and Bihar and Orissa (24,82) with effect from 1913-14.

The improvement of 22,72 as compared with the Budget occurred principally in the United Provinces (22,09).

VII.—Custom .

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against — Actuals, 1912-13.	Budget, 1913-14.
India . . .	37	32	37	...	The increase took place in Ajmer and was due to a larger outturn by mills.
Central Provinces .	2,72	2,60	3,01	..	..
Burma . . .	1,91,15	1,74,40	1,86,43	The decrease (4,72) was mainly due to smaller receipts under 'Sea Customs—Exports' (14,02) on account of smaller shipments of rice to foreign countries owing to a larger demand from India. This was partly counterbalanced by an improvement under 'Sea Customs—Imports' (9,58) especially under the heads—Cotton Manufactures (2,88), Spirits and Liquours (2,41), Manufactured Articles (2,07), Metals, Bullion, etc., (1,21), and Articles of food and drink (77).	The improvement (12,03) resulted from larger receipts under 'Sea Customs—Imports' (13,14) mainly under the heads—Cotton Manufactures (4,51), Spirits and Liqueurs (3,33), Manufactured Articles (3,23), and Metals, Bullion, etc. (1,69).
Bengal . .	3,19,51	3,11,98	3,4[illegible],60	The bulk of the total increase of 29,09 was obtained from the import duty on Sugar (10,30), Metals excluding silver (7,71), Manufactured articles (5,41), Spirits and Liquours (4,31), Cotton manufactures (3,07), Petroleum (3,06), and Silver (2,10). There was, however, a decrease under 'Export duty on rice' (8,24) in consequence of a shortage in the Indian crop which affected the export to Ceylon and other places.	The increase (36,62) was chiefly due to enhanced receipts under Sugar (9,45), Metals excluding Silver (8,09), Cotton manufactures (5,83), Petroleum (5,71), Manufactured articles (5,15), Spirits and Liqueurs (4,64) and Silver (1,13). There was, however, a decrease of 5,03 under 'Export duty on rice' which resulted from the shortage of the Indian crop referred to under Actuals.
Bihar and Orissa .	1,34	1,13	1,14	The decrease (20) was due to a smaller outturn of rice in the districts of Cuttack and Balasore, which led to an increase in price and a consequent reduction in exports.	...
United Provinces of Agra and Oudh.	1,77	1,70	2,23	The improvement was due to the receipts for the first time of excise duty from a certain Company in Agra including an extra credit of 19 in respect of the previous year, and to an increase in loom power in the Cawnpore mills.	As under Actuals.

VII.—Customs—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
Punjab . . .	16	14	18	The increase was due to the opening of a new spinning and weaving mill at Bhiwani in the Hissar district.	The Budget did not provide for the income from the new mill at Bhiwani.
Madras . . .	80,41	83,61	91,22	The increase of 10,81 occurred chiefly under 'Sea Customs' and represented enhanced receipts from import duties (8,78), mainly under 'Cotton manufactures' (4,81), 'Metals excluding silver bullion and coin' (1,87), 'Manufactured articles' (1,06) and 'Spirits and liquours' (99), as well as an advance in export duties (2,24) resulting from larger shipments of rice to Ceylon and Mauritius.	The increase (7,61) occurred under 'Sea Customs' (7,09), of which 5,39 represented enhanced receipts from import duties mainly under 'Cotton manufactures' (3.66), and 'Metals excluding silver bullion and coin' (1;92), 'Spirits and liqueurs' (81), 'Sugar' (47), 'Articles of food and drink' (41), 'Manufactured articles' (38) and 'Military stores' (27). These were partly counterbalanced by a fall of 2,66 under 'Petroleum.' Export duties also showed an advance of 2,30, which was due to larger shipments of rice to Ceylon and Mauritius.
Bombay . . .	4,82,16	4,53,54	5,00,55	The increase of 18,39, was chiefly the net result of an improvement of 18,22 under 'Sea Customs—Imports', of 1,44 under 'Sea Customs—Exports' and of 1,00 under 'Miscellaneous,' and of a falling off of 2,60 under 'Excise Duty on Cotton Manufactures.' The enhanced receipts from imports were mainly due to heavy imports of Sugar, Cotton manufactures, Metals and manufactures of metals, and Manufactured articles.	Of the total improvement of 47,01, import duties alone were responsible for 45,94. Larger imports of silver accounted for 18,36 and were caused by speculative transactions. The expansion of the import trade in the more important commodities also caused increases under other heads. Sugar, Cotton manufactures, Metals and manufactures of metals and Manufactured articles showed the highest figures on record and exceeded the estimate by 10,90, 8,74, 11,09 and 3,27 respectively. The increase was, however, partially counterbalanced by a falling off in the imports of 'Articles of food and drink,' 'Chemicals' and 'Raw materials.' There was also a smaller increase under 'Sea Customs—Exports' (1,64). On the other hand, there was a decrease of 1,87 under 'Excise duty on cotton manufactures.'
Total in Rupees .	10,79,59	10,29,42	11,33,73		
	£	£	£		
Equivalent in Sterling	7,197,2	6,862,8	7,558,2		

90. There was an improvement of 54,14 as compared with the previous year, which occurred chiefly in Bengal (29,09), Bombay (18,39) and Madras (10,81), while there was a decrease of 4,72 in Burma.

As compared with the Budget there was an improvement of 1,04,31, which was contributed more or less by all the provinces. The more important increases occurred in Bombay (47,01), Bengal (36,62), Burma, (12,03), and Madras (7,61).

VIII.—Assessed Taxes.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India . . .	25,16	26,01	26,39	The actuals for 1913-14 included 1,04 on account of ordinary collections in Delhi as against 78 in 1912-13. The receipts from the Military Department also increased by 16.	The Budget was based on actuals of previous years.
Central Provinces .	7,41	7,70	8,63	The large increase was due partly to revised methods of assessment and partly to the prosperous condition of the people.	As under Actuals.
Burma . . .	19,80	19,67	22,91	The increase mainly occurred under 'Ordinary Collections' (5,05) owing to good trade conditions.	As under Actuals.
Assam . . .	4,02	4,50	4,27	The increase represented normal growth.	The Budget was too high.
Bengal . . .	55,52	56,00	66,38	The increase of nearly 11 lakhs was unusually large and was caused by favourable trade conditions. Calcutta alone contributed 90 per cent of the total increase.	In view of the large receipts in 1912-13 it was not expected that there would be so great an advance.
Bihar and Orissa .	13,26	13,84	13,85	The increase was due to more careful assessment and to expansion of trade and general prosperity.	......
United Provinces of Agra and Oudh.	25,20	25,71	26,81	The improvement in excess of the normal annual growth of half a lakh is mainly attributable to the increased profits of the Bengal and North-Western and Rohilkund and Kumaon Railways and of the Cawnpore Mills as well as to reassessments in certain districts.	As under Actuals.
Punjab . . .	16,90	16,22	17,20	Allowing for the fact that the actuals for 1912-13 included about 60 on account of Delhi, the improvement was 90 and was somewhat in excess of the normal growth of 70.	The increase was mainly due to the fact that insufficient provision had been made in the Budget for normal growth.
North-West Frontier Province.	1,45	1,48	1,53	......	......
Madras . . .	34,82	35,51	37,48	The increase was due to early assessment and prompt collections in several districts, and to more careful enquiries on the part of assessing officers.	As under Actuals.

VIII.—Assessed Taxes—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay . . .	57,82	57,08	67,09	The increase (9,27) was mainly due to enhanced receipts from the tax (a) on the profits of companies (3,96) arising from the fact that the year 1912, the accounts of which formed the basis of assessment in 1913-14, was an exceptionally good year for mill and allied industries and (b) on 'other sources of income' (4,42) resulting from an improvement in trade and more accurate assessments.	The Budget was based on an underestimate. The large increase was due partly to the improvement in the method of collection and partly to good trade conditions.
Total in Rupees	2,61,36	2,63,72	2,92,54		
	£	£	£		
Equivalent in Sterling	1,742,4	1,758,2	1,950,3		

91. The receipts of the year exceeded the actuals for 1912-13 by 31,18. All the provinces contributed more or less to this improvement, which was mainly due to better trade conditions. The largest increases occurred in Bengal (10,86) and Bombay (9,27).

The improvement over the Budget was 28,82 and was contributed by all the provinces, except Assam, where there was a small falling off. The largest increases occurred in Bengal (10,38) and Bombay (10,01).

IX.—Forest.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	8,09	8,00	8,46	The improvement was due to larger receipts in the Coorg Forest Division as the result of a larger quantity of timber sold.	As under Actuals. Better prices were also obtained for sandal-wood.
Central Provinces	31,72	29,00	31,86		The increase was partly due to the Budget having been fixed low and partly to better prices obtained for timber and other produce.
Burma	1,10,08	1,09,15	1,15,72	The increase (5,64), was due to increased extraction of timber by lessees and licensees and to a favourable floating season.	As under Actuals. The variations were increases of 7,66 under 'Timber and other produce removed from the forest by consumers or purchasers,' of 2,33 under 'Other receipts' and of 50 under e 'Kheddah Department,' while ader 'Timber and other produ removed from the forest by G ernment agency' there was a erease of 3,92.
Assam	11,42	12,35	10,98	The decrease (44) was due to the remission of royalty on tea, floods in the Surma Valley, a falling off of revenue from rubber imported from the Abor and Mishmi countries, and to smaller receipts from certain quarries.	As under Actuals.
Bengal	16,01	14,00	16,16	A contraction of revenue by 90, owing to the substitution of the contract system for departmental working in Buxa, was more than counterbalanced by better prices realized in the timber market.	The increase (2,16) was due to the high prices ruling in the timber market.
Bihar and Orissa	4,39	4,82	4,92	The increase (53) was due to the expansion of work by the Bengal Timber Trading Company and to favourable prices in Sambalpur.	As under Act als.
United Provinces of Agra and Oudh.	35,44	30,25	37,13	The improvement (1,69) appeared under 'Timber' and was chiefly due to good auction sales.	As under Actuals.
Panjab	12,39	13,29	13,55	The increase (1,16) was due to a change in the manner of working certain forest properties, to better prices realized for certain produce, to larger sales of trees in some districts, and to the realization of outstandings.	
North-West Frontier Province.	2,37	2,11	2,67	The increase (30) resulted mainly from the sale of standing trees.	The receipts from the sale of trees were underestimated in the Budget.
Madras	41,12	40,00	42,00	The increase (88) was mainly due to the extension of the contract system.	As under Actuals.

IX.—Forest—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay	49,92	41,50	51,03	Excluding the receipts on account of the sale of grass in connection with the famine, which amounted to 78 in 1913-14 as against 4,80 in 1912-13, the revenue showed an advance of 5,13 over that of 1912-13. The increase was due to large sales of timber and trees.	Excluding the special receipts referred to under Actuals, which amounted to 78 against an estimate of 1,50, there was an improvement of 10,25. This was due to the cause mentioned under Actuals.
Total in Rupees	3,22,95	3,04,47	3,34,48		
	£	£	£		
Equivalent in Sterling	2,153,0	2,029,8	2,229,9		

92. There was an improvement of 11,53 over the actuals of the previous year, which was contributed more or less by all the provinces, except Assam, where there was a slight falling off. The larger increases occurred in Burma (5,64), the United Provinces (1,69), the Punjab (1,16) and Bombay (1,11).

The increase of 30,01 over the Budget occurred mainly in Bombay (9,53), the United Provinces (6,88), Burma (6,57), the Central Provinces (2,86), Bengal (2,16) and Madras (2,00).

X.—Registration.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India . . .	40	48	51	The figures for 1913-14 included 23 on account of Delhi as compared with 10 for 6 months in 1912-13.	......
Central Provinces .	3,90	3,70	4,18	The increase was the result of a good harvest, the registration of documents of higher value and of a rise in the value of land.	The increase was due to the causes described under Actuals.
Burma . . .	2,26	2,21	2,48	The improvement was chiefly due to agricultural prosperity.	The increase was due to agricultural prosperity, which caused an unexpected increase in the number of transactions affecting land and consequently in registration fees.
Assam . . .	93	93	1,09	The increase was due to the expansion of general registration business in the Assam Valley and the registration of a large number of sale and mortgage deeds in Sylhet and Cachar owing to a partial failure of crops and the high price of food-grains. Registration of a large number of companies also contributed to the increase.	The Budget was framed strictly with reference to past Actuals. The increase was due to the causes mentioned under Actuals.
Bengal . . .	18,23	19,00	20,16	The improvement (1,93) was much in excess of the normal growth and was caused by favourable economic conditions.	An allowance for normal growth was made in the Budget, but the favourable economic conditions of the year led to a greater demand for registration than was anticipated.
Bihar and Orissa .	5,71	5,90	6,29	The increase (58) was mainly due to the registration of a larger number of documents in Champaran and Purnea districts, enhanced rents, the reclamation of waste lands, and to briskness in the jute trade.	As under Actuals.
United Provinces of Agra and Oudh.	6,54	6,40	7,05	The increase (51) was chiefly due to the enhanced registration fees on documents above R1,000 in value having effect during the whole of the year under report as against a part only of the previous year.	The increase (65) was chiefly due to enhanced receipts from 'Fees for registering documents' (56). The Budget did not fully foresee the effect of the raising of the scale of registration fees on certain documents.
Punjab . . .	3,51	3,25	3,77	......	The Budget was underestimated.
North-West Frontier Province.	41	42	45	......	......
Madras . . .	22,58	23,50	23,58	The increase (1,00) was chiefly due to the registration of a larger number of documents of high value and of companies with large capital.	......
Bombay . . .	7,83	8,00	8,28	Although the number of registrations did not show any marked rise, receipts increased owing to the greater value of properties dealt with.	The Budget provided only for a small increase.
Total in Rupees .	72,30	73,79	77,84		
Equivalent in Sterling	£ 482,0	£ 491,9	£ 519,0		

93. The receipts of the year exceeded those for 1912-13 by 5,54. All the provinces contributed to some extent to this improvement, which was mainly due to favourable economic conditions. The largest increases took place in Bengal and Madras, which were responsible for 1,93 and 1,00 respectively.

The improvement of 4,05, as compared with the Budget, was most marked in Bengal (1,16).

XI.—Tributes from Native States.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	20,69	19,92	19,61	The falling off (1,08) was chiefly due to an advance payment of 80 by the Bhopal Durbar in 1912-13, and to a decrease of 13 under succession fees owing to the gradual closing of old accounts.	The decrease (31) was due mainly to the postponement of the tribute payable by the Bundi State.
Central Provinces	2,38	2,39	2,43	......	......
Burma	4,54	4,54	4,54	......	......
Assam	50	50	50	......	......
Bengal	68	68	68	......	......
Bihar and Orissa	85	86	85	......	......
United Provinces of Agra and Oudh.	3,29	3,21	3,21	......	......
Punjab	1,42	1,44	1,45	......	......
Madras	44,96	44,97	44,97	......	......
Bombay	14,22	14,07	14,29	......	......
Total in Rupees	93,53	92,58	92,53		
	£	£	£		
Equivalent in Sterling	623,5	617,2	616,9		

94. The decrease (1,00) as compared with the actuals of the previous year was chiefly due to the advance payment of 80 by the Bhopal Durbar in 1912-13. The variation from the Budget was small.

XII.—Interest.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	76,78	77,68	79,23	The increase (2,45) was due chiefly to increased receipts from the Bengal Nagpur Railway on account of interest on overdrawn capital.	Increased receipts from the Railway Companies on account of interest on overdrawn capital and larger receipts on account of interest on certain investments by the Comptroller-General contributed to the improvement (1,55).
Central Provinces	1,80	1,81	1,82	......	
Burma	1,51	1,48	1,43	......	
Assam	13	47	24	The increase was due to the issue of a large amount in loans to agriculturists in the Lushai Hills in 1910 and 1911.	A large amount of interest remained unrealized at the close of the year from agriculturists in the Lushai Hills.
Bengal	17,12	16,78	16,25	The decrease (87) was mainly due to smaller recoveries from two notabilities (33), smaller interest on agricultural loans (25) which are being gradually repaid, and smaller interest on drainage and embankment advances (12).	The decrease (53) was chiefly caused by the remission of interest due from a notability (25) and by smaller advances than anticipated to local authorities (15).
Bihar and Orissa	2,89	1,94	2,23	The decrease (66) was mainly due to larger repayments of loans and advances by cultivators, and to the payment of interest on the arrear Public Works cess to the District Funds from the 1st April 1913.	The increase was due to the recovery of arrears.
United Provinces of Agra and Oudh.	14,09	11,72	11,56	The actuals for 1912-13 included larger receipts from interest on loans to agricultural classes (2,20).	
Punjab	3,03	2,58	2,75	The accounts for 1912-13 included 28 on account of interest on loans to the Delhi Municipality and Mirja Suriya Jah, which have been transferred to the books of the Comptroller, India Treasuries.	The increase was accounted for by increased receipts in the Lyallpur district from interest on the unpaid portion of the purchase money of waste lands.
North-West Frontier Province.	21	21	29	The increase is attributed to large advances having been made to cultivators in 1912-13.	As under Actuals.
Madras	9,68	9,92	10,08	Payment of interest by the Madras Port Trust on the sum of 12 lakhs taken by it in 1913-14 out of the sanctioned loan of 50 lakhs, and larger realizations of interest from the Negapatam Municipality and for loans under the Land Improvement Act accounted for the improvement.	......

XII.—Interest—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Bombay . . .	23,69	28,03	29,03	The increase (5,34) was chiefly due to an improvement under 'Provincial Loans and Advances' (3,69) in consequence of recoveries which were postponed owing to the effects of the past famine in Gujarat and Kathiawar, the provincialization of Imperial loans, the capitalization of the interest due on 31st March 1913 as a part of this scheme, and of recoveries of interest on arrears of tributes from Native States in Kathiawar.	Out of the increase of 1,00, 82 occurred under Imperial and was chiefly due to the scheme for the provincialization of Imperial Loans.
Total in Rupees .	1,50,93	1,52,57	1,54,91		
	£	£	£		
Equivalent in Sterling	1,006,2	1,017,1	1,032,7		
England . . .	467,5	270,2	319,4	......	The rates of interest on short loans were higher than was estimated. There was also an increase of 18,4 in the interest received on advances to the Imperial Bank of Persia.
TOTAL INCLUDING ENGLAND.	1,473,7	1,287,3	1,352,1		

95. In the Indian section of the accounts there was an increase of 3,98 as compared with past actuals which occurred in Bombay (5,34) and India (2,45), while there was a decrease in the United Provinces (2,53).

The increase of 2,34 over the Budget occurred mainly in India (1,55), and Bombay (1,00).

XIII—Post Office.

Minor Heads.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Postage realised in cash.	14,53	14,50	13,64	......	The receipts under this head fluctuate. The Budget was based on the actuals of the previous year.
Gross sale of postage and unified stamps—					
Ordinary	3,70,63	3,81,00	3,87,27	.....	The growth of revenue under these heads exceeded what was provided for in the Budget and was due to the general prosperity of the country.
Service	53,68	55,00	56,58		
Total	4,24,31	4,36,00	4,43,85		
Deduct—					
Civil Department share.	*19,01*	*19,01*	*19,01*	......	......
Telegraph Department share.	*1,37,05*	*1,36,50*	*1,37,06*	.. ...	......
Payments made by India in respect of correspondence and parcels exchanged between it and other countries.	*2,25*	*2,25*	*3,28*	......	The increase resulted from the payment of arrear transit charges to Russia and Japan which were not provided for in the Budget.
Total	*1,58,31*	*1,57,76*	*1,59,35*		
Post Office share of sale of postage and unified stamps.	2,66,00	2,78,24	2,84,50		
Passenger service receipts.	19	....	..	The service has been abolished.	......
Money Order receipts	56,80	59,50	61,03	The increase was due to the general prosperity of the country.	As under Actuals.
British Postal Order receipts.	17	18	40	The increase was due to an adjustment in respect of outstanding Postal orders supplied to India during the years 1904 to 1907.	As under Actuals. No provision was made in the Budget for this.
Fees and petty receipts.	1,68	1,70	1,96	......	The budget was framed on the basis of past actuals. The increase was chiefly under 'Other Items.'
Total in Rupees	3,39,37	3,54,12	3,61,53		
	£	£	£		
Equivalent in Sterling	2,262,5	2,360,8	2,410,2		

96. The increase (22,16) over the actuals for 1912-13 was mainly due to a prosperous year and improved trade conditions. The growth of Postal business in 1913-14 exceeded the Budget anticipation, the revenue being 7,41 above the estimate.

XIV.—Telegraph.

Minor Heads.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
INDIAN :—					
Message Revenue	1,07,17	1,15,45	1,15,49	......	......
Miscellaneous Revenue	43,22	37,50	37,87	......	The increase (37) was mainly due to larger receipts from rent of telephones.
TOTAL	1,50,39	1,52,95	1,53,36		
INDO-EUROPEAN :—					
Message Revenue	24,59	24,85	23,90	......	The decrease (95) was due to less transit message receipts from the Indian Telegraph Department and to smaller cash collections principally in the Persian Section. There was a diversion of traffic to the Eastern Telegraph Company's lines owing to occasional interruptions on the Indo-European route.
Miscellaneous Revenue.	21	21	27	......	......
TOTAL	24,80	25,06	24,17		
Total in Rupees	1,75,19	1,78,01	1,77,53		
	£	£	£		
Equivalent in sterling	1,168,0	1,186,8	1,183,5		
England	6,2	5,0	4,8		
TOTAL INCLUDING ENGLAND.	1,174,2	1,191,8	1,188,3		

97. The receipts of 1913-14 show an apparent increase of 2,34 over those of 1912-13. The latter, however, included a special item of about 6,00 representing the rent of railway wires, etc., for an additional quarter adjusted in 1912-13 consequent on the adoption of the financial year by Railways. Excluding this, the real increase in revenue was about 8,34.

As compared with the Budget, there was a decrease of 48, which was chiefly due to the diversion of traffic to the Eastern Telegraph Company's lines owing to interruptions on the Indo-European route.

XV.—Mint.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	25,55	10,42	18,45	There were large profits in 1912-13 from the issue for circulation of bronze coins; the seignorage on the gross profit from the coinage of rupees was also high.	No provision was made in the Budget for seignorage on the gross profit from the coinage of rupees. There were also receipts from the recoinage of Murshidabad coins.
Bombay	47,56	25,67	32,52	During 1913-14 the coinage of new rupees was undertaken on a smaller scale. The demand for British dollars and for nickel coins was also smaller.	The increase of 6,85 was the result of the coinage of new rupees, which was not anticipated when the Budget was framed. It was, however, partially counterbalanced by a smaller demand for British dollars (4,26) and for nickel coins (38).
Total Rupees	73,11	36,09	50,97		
	£	£	£		
Equivalent in Sterling	487,4	240,6	339,7		
England	...	...	1		
Total including England.	487,4	240,6	339,8		

98. The decrease of 22,14 as compared with the previous year was due to the coinage of rupees on a smaller scale (11,72), smaller profits on the issue for circulation of bronze and nickel coins (7,53), and to a smaller demand for the coinage of dollars (2,34).

As compared with the Budget, there was an improvement of 14,88, which was due to the coinage of new rupees for which no provision had been made in the Budget (20,51). There were, however, smaller issues of bronze coins (2,40) and a falling off in the demand for dollars (4,26).

XVI A.—Law and Justice—Courts of Law.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13	Budget, 1913-14.
India	1,11	1,51	1,43	The improvement was due to increased receipts on account of Magisterial fines and Administrator-General's fees.	......
Central Provinces	2,35	2,12	2,89	Unusually large receipts under 'Magisterial fines' (47) mainly accounted for the increase.	As under Actuals.
Burma	6,48	6,03	6,84	The increase (36) was mainly due to an improvement in receipts under 'General Fees, Fines and Forfeitures' (27).	As under Actuals.
Assam	1,16	1,25	1,26	......	......
Bengal	8,15	7,65	8,43	The increase represented the usual growth of 'Magisterial fines.'	Receipts from 'Magisterial fines' were underestimated.
Bihar and Orissa	2,80	2,83	2,70	In 1912-13 the receipts from 'Magisterial fines' were unusually high.	The estimate framed with reference to high actuals in 1912-13 was not fully realised.
United Provinces of Agra and Oudh.	6,80	6,69	6,77	......	......
Punjab	4,88	4,63	5,54	The increase (66) was chiefly due to larger receipts under the head 'Magisterial Fines' (57).	The increase (91) was chiefly due to larger receipts under 'General Fees, Fines and Forfeitures' (86).
North-West Frontier Province.	1,13	1,11	1,45	The receipts are of a fluctuating nature.	As under Actuals.
Madras	10,64	9,95	10,95	The increase was due to larger receipts under 'Magisterial Fines.'	The increase (1,00) was due to higher receipts under 'High Court—Translation and Printing fees' (30) and under 'Magisterial fines' (77). No provision was made in the Budget for normal growth.
Bombay	7,32	7,15	7,81	The bulk of the increase was due to increased receipts under 'Magisterial Fines.'	As under Actuals.
Total in Rupees	52,81	50,92	56,07		
	£	£	£		
Equivalent in Sterling	352,1	339,5	373,8		

99. The receipts under this head are of a fluctuating nature. There was an improvement of 3,26 over the actuals of the previous year and of 5,15 over the Budget. The variations occurred chiefly in the Central Provinces, Bengal, the Punjab, Madras and Bombay.

XVI B.—Law and Justice—Jails.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	3,62	3,69	4,36	The increase was due chiefly to increased receipts in Delhi and the convict settlement at Port Blair.	As under Actuals.
Central Provinces	2,31	2,30	2,81	Large supplies of Jail manufactured articles to the Police and the Supply and Transport Departments accounted for the increase.	As under Actuals.
Burma	4,59	4,58	4,93	The increase (34) occurred under 'Jails' (14) owing to larger receipts for hire of convicts and under 'Jail manufactures' (20) on account of higher prices of Jail-made articles.	There were larger receipts under 'Jails' (18) and under 'Jail manufactures' (17) which were due to the causes mentioned under Actuals.
Assam	80	94	92	There was a reduction in receipts in 1912-13 owing to the release of prisoners in connection with the Coronation and to the employment of prisoners on the manufacture of articles required by the jails.	......
Bengal	7,03	6,59	6,72	The decrease was due to a smaller demand for jail manufactures by other Departments	......
Bihar and Orissa	6,44	5,25	7,26	The increase was due to large indents for blankets from the Military Department.	As under Actuals.
United Provinces of Agra and Oudh.	3,67	3,55	3,73	......	The receipts from the sale of Jail manufactures exceeded expectations by 16.
Punjab	3,25	3,10	3,94	The increase (69) was due to an improvement under 'Jail manufactures' (92) as a result of a greater demand for jail-made articles by public offices and the employment of a larger number of prisoners on intramural industries owing to an increase in the jail population. There was, however, a decrease under 'Jails' (22) due to the closure of the convict camp at Montgomery.	The increase (84) occurred under 'Jail manufactures' under which head the Budget allowed for the normal growth of income indicated by past actuals, while the actual realizations largely exceeded expectations as explained under Actuals.
North-West Frontier Province.	26	25	33	The increase is attributed to a greater demand for jail-made articles by public offices.	As under Actuals.
Madras	5,49	4,90	5,45	...	There was an underestimate in the Budget.
Bombay	3,05	2,50	2,82	The actuals for 1912-13 included 30 on account of arrear adjustment under 'Hire of Convicts.'	As under Actuals.
Total in Rupees	40,51	37,65	43,27		
	£	£	£		
Equivalent in Sterling	270,0	251,0	288,5		

100. There was an improvement of 2,76 over the actuals of the previous year and of 5,62 over the Budget. In both cases there were larger receipts in Bihar and Orissa, the Punjab, India, and the Central Provinces.

XVII.—Police.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	36	41	38	......	
Central Provinces	26	30	26	......	The decrease was nominal, as recoveries from Railways on account of contribution for pension, which were hitherto taken under this head, are now deducted from charges.
Burma	4,98	4,75	4,62	The decrease (36) resulted from smaller receipts under Police supplied to Public Departments, etc.	As under Actuals.
Assam	1,08	1,14	1,22	The increase was mainly due to larger recoveries on account of clothing and rations from Military Police Sepoys deputed to the North-East Frontier.	As under Actuals.
Bengal	2,39	1,62	1,57	The decrease (82) was mainly due to smaller recoveries on account of punitive police owing to their withdrawal from several districts.	Recoveries for punitive police were less than the Budget figure by 21, whereas recoveries for police supplied to private parties and receipts under the Motor Cycles Act showed an increase.
Bihar and Orissa	54	46	46	There were special arrear collections in 1912-13.	
United Provinces of Agra and Oudh.	97	81	1,02	......	Owing to the postponement of the proposed conversion of the Town Police into Constabulary the contributions from town funds for police charges continued to be recovered in the year under report. This together with higher receipts from license fees for stage carriages and for storage of petroleum accounted for the variation from the Budget.
Punjab	1,98	1,77	2,01	......	The Budget for recoveries on account of punitive police was somewhat underestimated.
North-West Frontier Province.	31	23	21	The decrease occurred chiefly in recoveries on account of punitive police.	
Madras	5,00	4,76	4,88		
Bombay	2,46	2,35	2,89	The increase was chiefly due to receipts on account of additional police entertained at the cost of the people, recovery of arrears on account of the moiety of the up-keep of the Karachi Harbour Police steam launch, larger contributions for Special Police in Kathiawar, and increased value of Ordnance stores returned by the Police Department.	As under Actuals.
Total in Rupees	20,33	18,60	19,55		
Equivalent in Sterling	£ 135,6	£ 124,0	£ 130,3		

101. As compared with the previous year there was a decrease of 78, which occurred mainly in Bengal (82) and Burma (36), while there was an increase in Bombay (43).

As compared with the Budget, there was an improvement of 95, which was chiefly contributed by Bombay (54), the Punjab (27), and the United Provinces (21).

XVIII.—Ports and Pilotage.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Burma . . .	4,96	4,98	5,19	The increase resulted mainly from larger receipts from coast light dues.	As under Actuals.
Bengal . . .	17,52	18,00	16,77	The decrease was almost wholly due to smaller pilotage receipts owing to a reduction in the number of inward vessels.	Provision for normal growth was made in the Budget. Owing, however, to the cause mentioned under Actuals there was a large falling-off under pilotage receipts.
Bombay . .	1,03	1,00	1,08	The improvement was due to increased activity in the shipping trade of the Bombay, Aden and Karachi ports.	As under Actuals.
Total in Rupees .	23,51	23,98	23,04		
	£	£	£		
Equivalent in Sterling	156,7	159,9	153,6		

102. There was a decline of 47 as compared with the previous year's actuals and of 94 as compared with the Budget, owing to smaller pilotage receipts in Bengal.

XIX.—Education.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	51	59	75	The improvement was due to larger receipts in Ajmer, Delhi and Coorg.	As under Actuals.
Central Provinces	2,00	2,15	2,04	......	The decrease was due to the provincialization of the Morris College, Nagpur, not being carried out in 1913-14.
Burma	2,40	2,50	2,89	The increase (49) was mainly due to larger receipts under 'Fees, Schools, General,' (37) owing to the transfer of certain municipal schools to Government.	The improvement (39) resulted chiefly from larger receipts under 'Fees, Schools, General' (25) and under 'Fees, Government Colleges, General,' (9), both being due to the causes mentioned under Actuals.
Assam	1,14	1,10	1,35	The improvement (21) was due to an increase of students in Government institutions and the Provincialization of certain High Schools.	As under Actuals.
Bengal	7,78	7,51	8,11	The increase (33) was fairly normal.	Sufficient allowance was not made in the Budget for normal growth.
Bihar and Orissa	2,31	2,49	2,70	The increase (39) was mainly due to the standardisation of fee rates in Government High Schools and an increase in the number attending schools and colleges.	As under Actuals.
United Provinces of Agra and Oudh.	5,12	5,47	6,09	The increase (97) was to a great extent due to higher receipts from Government High schools including Boarding Houses, consequent on an enhancement of fees and larger attendance, and from the Workshop and Photo and Lithographic Department of the Roorkee College. There was also a special receipt of 20 on account of the refund of a grant-in-aid given in 1912-13.	The special receipt of 20 on account of the refund of a grant-in-aid and higher receipts from the Photo and Lithographic Department of the Roorkee College (18) and from Zila Schools (15) were mainly responsible for the increase (62).
Punjab	4,38	4,64	4,49	The increase was due to the provincialization of the Lawrence School at Murree during the year under report.	The decrease was due to the fact that the Lawrence School at Murree was not provincialized until late in the year.
North-West Frontier Province.	1	...	13	The increase represented fees from Municipal High Schools which were provincialized with effect from 1st September 1913.	As under Actuals.
Madras	2,96	2,82	3,11	The increase (15) was due to larger receipts from 'Government Colleges—General,' (23).	The improvement (29) was chie[illegible] due to larger receipts from 'G[illegible]ernment Colleges—General' ([illegible] and 'Government Colleges—P[illegible]fessional' (4).

XIX.—Education—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay . . .	5,31	5,84	5,53	The actuals for 1913-14 included fees for the Gujarat College for the whole year as against those for one term only in 1912-13. The increase was also due to the opening of the College of Commerce in Bombay from October 1913, an improvement in the number of pupils in schools, and an increase in the number of candidates for the School Final and Cambridge Local Examinations. On the other hand, the actuals of 1912-13 included 31 on account of the cash balance of the Gujarat College which was credited to Government after the institution was taken over by Government.	The improvement was due mainly to larger receipts from fees at the College of Commerce and the Engineering College.
Total in Rupees .	33,92	34,61	37,19		
	£	£	£		
Equivalent in Sterling	226,1	230,7	247,9		

103. As compared with the actuals of the previous year there was an improvement of 3,27, which was contributed more or less by all the provinces.

The improvement over the Budget (2,58) was shared by all the provinces, except the Central Provinces and the Punjab where there were small decreases.

XX.—Medical.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	7	10	9	......	......
Central Provinces	20	19	17	......	......
Burma	1,12	1,14	1,04	......	......
Assam	19	20	24	The increase was due to the recovery of service payments made in previous years.	As under Actuals.
Bengal	4,27	3,76	4,20	Excluding a special contribution of 50 in 1912-13 from the Indian Research Fund, the increase amounted to 43 and was caused by an expansion in the sale of quinine (26) and by larger receipts of fees in medical institutions and hospitals (16).	The increase (44) was mainly due to larger sales of quinine than was anticipated.
Bihar and Orissa	16	20	14	......	The receipts anticipated from the sale of quinine and from contributions from local bodies were not fully realized.
United Provinces of Agra and Oudh.	55	1,00	73	The receipts of the newly established Medical College at Lucknow and those from the sale of lymph are growing—the latter owing to the gradual replacement of arm-to-arm vaccination by calf lymph vaccination.	The Budget provided for the recovery of 35 from municipalities as contribution towards the pay of the special Health Officers, who were to be paid from Provincial revenues direct. The scheme was not, however introduced in the year under report and the Health Officers continued to be paid by the local bodies, the Local Government paying its share of the charge in the shape of grants-in-aid. The decrease of 35 thus caused was partly counterbalanced by higher receipts from the Medical College, Lucknow, and from the sale of lymph.
Punjab	91	54	65	There was a special receipt in 1912-13 on account of a contribution of 35 from the Indian Research Fund in aid of malaria investigations.	Higher receipts from the sale of vaccine lymph and from paying patients at the Lunatic Asylum accounted for the increase (11).
Madras	1,54	1,26	1,92	The improvement (38) was due mainly to a larger contribution from the Indian Research Fund for anti-malarial operations.	The increase (66) was due mainly to a special receipt of 59 from the Indian Research Fund for anti-malarial operations for which the Budget did not provide.

XX.—Medical—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay . . .	3,25	2,55	2,78	The actuals for 1912-13 included a special item of 71 on account of grants made by the Indian Research Fund for anti-malarial measures. Excluding this item, the actuals of 1913-14 were better by 24 than those of the previous year. The improvement was mainly due to increased fee receipts at the Grant Medical College owing to revised University regulations.	The increase (23) included larger receipts from paying patients in hospitals (12) and on account of fees at the Grant Medical College (11).
Total in Rupees .	12,26	10,94	11,96		
Equivalent in Sterling	£ 81,7	£ 72,9	£ 79,7		
England . . .	8	7	7		
TOTAL INCLUDING ENGLAND.	82,5	73,6	80,4		

104. The decline as compared with the actuals of 1912-13 (30) occurred chiefly in Bombay (47) and the Punjab (26), while there was an increase in Madras (38).

As compared with the Budget, there was an improvement of 1,02, which occurred mainly in Madras (66), Bengal (44), and Bombay (23), while there was a decrease in the United Provinces (27).

XXI.—Scientific and Other Minor Departments.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India . . .	2,33	1,74	2,73	The improvement (40) was due chiefly to a larger sale of Survey maps and instruments and to increased receipts of the Meteorological Department, the X-ray Institute at Dehra Dun, and the Geological Survey Department.	As under Actuals. The improvement was also helped by an increase in the sale of serum, larger receipts at the Agricultural Institute at Pusa and by the recovery of arrear receipts by the Bacteriological Laboratory at Muktesar.
Central Provinces .	1,16	1,32	1,43	The improvement (27) was due mainly to increased receipts from Experimental and Dairy Farms.	The increase (11) was partly due to better garden crops and partly to an increase in the number of exhibitions and fairs held during the year.
Burma . . .	9	15	14	The increase resulted from larger receipts from the Mandalay Experimental farm (6).	.....
Assam . .	21	24	19	A fall in receipts under 'Inland Labour Transport Fees' on account of a reduction in the immigration of contract coolies accounted for the decrease.	The fall in receipts under 'Inland Labour Transport Fees' were not foreseen.
Bengal . . .	2,18	2,26	2,78	The increase was chiefly due to the supply of quinine to the Punjab having largely exceeded that of the previous year.	As under Actuals.
Bihar and Orissa .	26	34	25	...	The increase anticipated under 'Agricultural Receipts' was not realized owing to a smaller number of new admissions at the Sabour Agricultural College (5) and a partial failure of crops at the Sabour and Bankipur Farms (3).
United Provinces of Agra and Oudh.	1,56	1,63	2,09	The increase was mainly due to larger 'Agricultural Receipts' (26), owing to the development of seed farms and other agricultural institutions, and to higher receipts from 'Public Exhibitions and Fairs' (11).	The causes mentioned under Actuals accounted to the extent of 28 for the improvement over the Budget. There were also higher receipts from the Botanical Gardens at Saharanpur and from Boiler Inspection fees.
Punjab . . .	1,97	1,99	2,18	...	......
North-West Frontier Province.	1	6	2	...	The Budget provided for an extension of the area of the Tarnab Farm. The new land was not, however, acquired until too late in the year to prove productive in that year.

XXI.—Scientific and other Minor Departments—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Madras	5,69	6,53	6,72	The improvement (1,03) was chiefly due to larger supplies of quinine having been made to other provinces and to an increase in the rate at which quinine was supplied to the Medical Stores at Madras and Bombay.	The improvement was chiefly due to increased receipts from the sale of quinine.
Bombay	1,19	1,25	1,40	The improvement was mainly under 'Agricultural Receipts.'	As under Actuals.
Total in Rupees	16,65	17,51	19,93		
	£	£	£		
Equivalent in Sterling	111,0	116,8	132,8		
England	8	8	1,0		
Total including England	111,8	117,6	133,8		

105. In the Indian section of the accounts there was an improvement of 3,28 as compared with the actuals of the previous year and of 2,42 over the Budget. The former occurred chiefly in Madras (1,03), Bengal (60), the United Provinces (53), and India (40), and the latter in India (99), Bengal (52), and the United Provinces (46).

XXII.—Receipts in aid of Superannuation, Retired and Compassionate Allowances.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	3,26	3,06	3,61	The increase (35) was chiefly due to larger contributions for pensions.	As under Actuals.
Central Provinces	1,54	2,03	1,83	The increase (29) was chiefly due to increased pension contributions paid by Municipalities (17), and to larger receipts on account of the capitalised value of pensions (7).	The decrease (20) was due to the non-recovery of certain pension contributions from local bodies provided for in the Budget.
Burma	1,01	1,04	1,01	...	...
Assam	28	32	25	...	The decrease was mainly due to the absence on leave of a larger number of senior officers than anticipated.
Bengal	2,39	2,10	2,19	The decrease was mainly due to the replacement by private practitioners of Assistant Surgeons and others lent to private bodies—a fact which reduced the pension contributions.	...
Bihar and Orissa	93	87	1,00	The increase was chiefly due to the recovery of the pension contribution of the Superintendent of the Mayurbhanj State.	As under Actuals.
United Provinces of Agra and Oudh	2,40	2,59	2,61	The increase was chiefly due to higher receipts from subscriptions under the Indian Civil Service Family Pension Regulations.	...
Punjab	2,00	1,95	1,82	The decrease was mainly due to smaller subscriptions to Civil Funds owing to retirements and leave, as well as to smaller receipts from local funds on account of the capitalized value of the pensions of their employés.	As under Actuals.
North-West Frontier Province	16	18	20	Larger receipts on account of the capitalized value of pensions of Local Fund employés accounted for the increase.	...
Madras	2,04	2,07	2,08	...	...

XXII.—Receipts in aid of Superannuation, Retired and Compassionate Allowances —*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
	R	R	R		
Bombay . . .	4,90	5,10	5,14	The increase was partly due to the introduction of the new Foreign Service Rules, which came into force from 1st August 1913, and partly to the increase in the pay of teachers in Primary Schools throughout the Presidency.	
Total in Rupees .	20,81	21,31	21,74		
	£	£	£		
Equivalent in Sterling	138,7	142,1	144,9		
England . .	61,7	64,6	61,9		There were decreases under Widows' and Military Fund (4,0), counterbalanced by an increase (1,3) due to larger payments of Leave Allowances in England and to a large sum received in commutation of subscriptions.
Total including England.	200,4	206,7	206,8		

106. The increase of 93 over the actuals of the previous year occurred mainly in India (35), the Central Provinces (29), Bombay (24), and the United Provinces (21).

As compared with the Budget there was an improvement of 43, which was due to higher receipts adjusted in the books of the Comptroller, India Treasuries.

XXIII.—Stationery and Printing.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
India	4,00	4,25	4,60	The improvement was due to increased receipts of the Stationery Office and the Central Press at Calcutta.	As under Actuals.
Central Provinces	39	59	65	The increase was mainly the result of larger sales of rent receipt forms.	The improvement was chiefly due to increased sales of gazettes and other publications.
Burma	55	56	53	...	...
Assam	11	10	8	The actuals for 1912-13 included the recovery of arrears on account of the cost of forms supplied to Local Bodies in Assam from the Central Jail Press at Dacca.	The actuals represent normal receipts. The budget provided for the recovery of certain arrears due from Local Bodies on account of the cost of forms supplied by the Central Jail Press at Dacca. These were, however, recovered towards the close of the previous year.
Bengal	1,21	1,31	1,39	The increase was mainly due to larger miscellaneous receipts (10) and to larger sales of gazettes (7).	The increase was due to larger sales of gazettes, etc.
Bihar and Orissa	29	32	29	...	...
United Provinces of Agra and Oudh.	2,34	2,19	2,26	...	...
Punjab	[illegible]	2,24	1,36	The decrease was due partly to the discontinuance of the practice of charging the cost of paper to public departments and partly to the outbreak of cholera in the Lahore Central Jail which disturbed the working of the press there.	As under Actuals.
North-West Frontier Province.	18	17	20	...	
Madras	1,21	1,22	1,50	The improvement (29) was chiefly due to the sale of type and other printing materials.	As under Actuals.
Bombay	1,31	1,19	1,15	The decrease was mainly due to a change of procedure under which the cost of articles, such as type, etc., supplied by the Government Central Press to other Presses in the Presidency, is not now recovered in cash, but is accounted for in the Stock Registers. There were also smaller receipts from the sale of unserviceable stationery and forms.	The decrease was mainly due to the change of procedure referred to under Actuals.
Total in Rupees	13,81	14,14	14,01		
Equivalent in Sterling	£ 92,1	£ 94,3	£ 93,4		

107. There was an increase of 20 as compared with the actuals of the previous year, which was chiefly the result of an improvement of 60 under India, of 29 in Madras, and of 26 in the Central Provinces. These increases were, however, partly counterbalanced by a decrease of 86 in the Punjab.

As compared with the Budget there was a small decrease of 13, which was chiefly the result of a decrease of 88 in the Punjab and of increases of 35 and 28 in India and Madras, respectively.

XXIV.—Exchange.

Sterling Amounts. 1913-14. Budget. £	Accounts. £		Credit + or Debit — to Exchange. 1913-14. Budget.	Accounts.

		Equivalent in Sterling	...	+119,7

108. The actuals under this head vary with the average rate of exchange and with the variations in the sterling transactions of the Railways. The Budget was as usual calculated at an average rate of 16*d*. the rupee, but the actual average rate obtained proved to be higher, namely, 16·0701*d*. This accounted for the net credit of 12,74 under Net Expenditure in England, the credit of 6 under Subsidised and other Companies and the credit of 5,16 under Remittance Accounts. The sterling actuals under Miscellaneous included £1,528,1 for the purchase of silver, for which there was no provision in the Budget.

XXV.—Miscellaneous.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	7,15	6,05	7,42	The increase was due chiefly to larger receipts on account of percentage on Europe stores.	As under Actuals.
Central Provinces	2,15	81	1,91	The decrease occurred under 'Unclaimed deposits' (47), owing to the refund to certain zamindars of the Chhatishgarh Division of compensation on account of the resumption of income from pounds.	The improvement was chiefly due to large lapses of deposits and small refunds (61) and to large sales of Nazul and other lands (47).
Burma	2,09	1,68	1,78	The decrease was chiefly due to smaller lapses of deposits (47).	The improvement under percentages chargeable on Europe stores, etc., accounted for the increase.
Assam	74	51	54	The decrease was chiefly due to smaller lapses of unclaimed deposits.	...
Bengal	8,11	6,36	8,15	...	The increase (1,79) was mainly due to larger lapses of unclaimed deposits.
Bihar and Orissa	3,18	3,23	2,82	The decrease (36) was mainly due to smaller lapses of unclaimed deposits.	As under Actuals.
United Provinces of Agra and Oudh.	3,58	3,16	5,77	The increase (2,19) was chiefly due to larger lapses of unclaimed deposits (1,09), larger receipts from the sale of Nazul lands and houses (56), special receipts from the Liquidator of the United Provinces Exhibition towards the repayment of a loan (27), larger fees for Government audit (18) and receipts on account of the value of land made over to the Oudh and Rohilkhand and the Rohilkhand and Kumaon Railway Companies (13).	As under Actuals.
Punjab	10,48	4,33	6,74	The decrease (3,74) was due to the abolition of the 20 per cent. contribution from District Boards with effect from 1913-14.	The increase (2,41) was chiefly due to larger sales of Nazul property (1,15) higher receipts under Copying Agency Accounts (57), larger credits on account of unclaimed deposits (25), and enhanced receipts under Contributions (32).
North-West Frontier Province.	1,42	1,06	1,18	The decrease was due to the abolition of the 20 per cent. contribution from District Boards with effect from 1913-14.	The increase was chiefly due to larger receipts from Toll fees on the Khyber Road (8).
Madras	4,30	3,58	4,52	The increase was chiefly due to a special receipt of 31 on account of the sale-proceeds of the Madura Technical Institute buildings.	The increase (94) was chiefly due to larger lapses under Revenue, District Courts and City Civil Court deposits (46) and to the special receipt (31) mentioned under Actuals.

XXV.—Miscellaneous—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bombay	5,77	4,20	5,96	The increase was chiefly due to special receipts from the Great Indian Peninsula Railway on account of the value of land made over to it (2,44).	As under Actuals.
Total in Rupees	48,97	34,97	46,79		
Equivalent in Sterling	£ 326,4	£ 233,1	£ 311,9		
England . . .	45,4	21,8	40,7	......	The accounts included a net receipt of 25,8 from fees incurred by contractors in providing stores, whereas the Budget contemplated a net refund on that account. On the other hand, there was a decrease of 6,0 in the receipts of Diplomatic and Consular Establishments in Persia, and of 1,3 in the recoveries in respect of stores lost in transit to India.
TOTAL INCLUDING ENGLAND.	371,8	254,9	352,6		

109. In the Indian section of the accounts the actuals were worse than those of the previous year by 2,18; there was a decrease in the Punjab (3,74), and an increase in the United Provinces (1,19).

There was an increase of 11,82 over the Budget, which was shared by most of the provinces.

Railways.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
IMPERIAL.					
Assam Bengal Railway.	66,33	36,00	70,41	The receipts show an increase of 4,0[illegible] which was chiefly due to the development of passenger and goods traffic. In goods traffic the increase was on account of larger bookings of Burma rice.	As under Actuals.
Bengal-Nagpur Railway.	4,03,42	4,00,00	4,10,31	The increase (6,89) was chiefly under goods traffic and was due to larger exports of metals (iron and manganese ore), an improvement of the traffic in mineral substances (chiefly dolomite), and to heavy bookings of cotton for shipment to Japan.	The increase was due to the expansion of traffic and to the opening of additional mileage.
Bezwada Extension.	3,84	3,90	2,94	As under Budget.	The Budget estimate was based on twelve months' revenue, but the actuals are for nine months consequent on the adoption of the financial year. The adjustment for the second half of 1913-14 will be carried out during 1914-15.
Bombay, Baroda and Central India Railway.	6,40,21	6,40,00	6,58,93	The increase of 18,72 was chiefly attributable to more passenger traffic and heavier bookings of raw cotton and oil seeds to Bombay for export.	The increase of 18,93 was mainly due to more passenger traffic and to large recoveries from foreign lines for the use of vehicles.
Burma Railways—Main Line.	2,07,77	2,00,00	2,23,61	The increase (15,84) occurred partly under coaching and partly under goods traffic.	As under Actuals.
Burma Railway Extensions.	17,32	17,00	21,85	The increase (4,53) was due partly to increased receipts from coaching traffic and partly to heavy stone traffic for the river training works at Rangoon.	As under Actuals.
Burma Railways—Southern Shan States Railway.	17	...	33	The differences are small.	As under Actuals.
Eastern Bengal Railway.	3,51,19	3,45,00	3,73,02	The net improvement of 22,73 was chiefly made up of increases of 13,80 under Coaching, and 9,85 under Goods.	As under Actuals.

XXVI.—State Railways—Gross Traffic Receipts—*contd.*

Railways.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	RAILWAY ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
East Indian Railway. { India	10,25,73	10,40,00	10,17,08	There was an increase of 7,03 under Coaching and a decrease of 14,86 under Goods.	The decrease of 22,92 was due to an over-estimate of earnings in the Budget and to an increase in the Traffic Account of 9,92 on account of unrealized bills against Government and Foreign Railways.
East Indian Railway. { England	4	3	3		
Great Indian Peninsula Railway.	7,94,92	8,09,34	8,55,09	There was an improvement of 20,42 under Coaching and of 30,72 under Goods. There was also an increase of 9,03 under Miscellaneous and Suspense which was chiefly due to fluctuations in Suspense.	The figures for the Budget were based on the actuals for 1912-13.
Agra-Delhi Chord Railway.	28,98	22,50	23,09	The actuals for 1912-13 included 6,79 on account of the earnings for the quarter January to March 1912.	The increase was due to heavier traffic than was anticipated.
Bhopal State Railway. { Total Receipts.	21,01	16,00	15,88	The actuals for 1912-13 included 3,64 on account of earnings for the quarter January to March 1912.	
Bhopal State Railway. { *Deduct*—Durbar share.	*11,79*	*9,00*	*8,82*		
Bhopal State Railway. { Net Government share.	9,22	7,00	7,0[illegible]		
Baran-Kotah Railway.	2,29	1,96	1,78	The actuals for 1912-13 included 49 on account of earnings for the quarter January to March 1912.	The decrease was due to the prevalence of famine conditions in the United Provinces.
Jodhpur-Hyderabad Railway.	13,82	13,50	13,36	...	...
Lucknow-Bareilly Railway.	21,63	22,00	23,57	The increase was due partly to larger receipts from Coaching traffic and partly to fluctuations in Suspense.	The bulk of the increase occurred under Miscellaneous and Suspense and was due to fluctuations in Suspense
Madras and Southern Mahratta Railway.	3,63,50	3,60,00	3,81,21	The increase was due to the general development of passenger and parcel traffic, the recovery of arrear charges from the postal department, larger movements of goods, and to the interest on the unexpended capital with the Secretary of State for the two half years of 1913-14, having been credited to earnings.	Under Coaching there was an increase of 10,80 due to the general development of passenger traffic and to increased parcels traffic with foreign railways. There was also an increase of 2,41 under Goods. The increase under Miscellaneous and Suspense was 8,00, which was mainly due to the receipts on account of interest on the unexpended capital with the Secretary of State referred to under Actuals.
Mysore Railway.	36,75	35,00	38,[illegible]	The increase was under Coaching and was due to the general development of passenger traffic.	There was an underestimate of the goods traffic in the Budget.

XXVI.—State Railways Gross Traffic Receipts—*contd.*

Railways.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against Actuals, 1912-13.	Railway Account Officer's Review of Actuals against Budget, 1913-14.
Dhone-Kurnool Railway.	1,20	1,15	1,24	...	...
North-Western Railway.	8,82,12	9,00,00	8,60,9[illegible]	The decrease was chiefly due to smaller receipts under Goods (59,70) owing to reduced exports of wheat and cheaper grains to Europe. There were, however, increases under Coaching (17,37) and Miscellaneous (21,17) The increase under Coaching was due to the opening of new lines and the general development of passenger traffic, while that under Miscellaneous and Suspense was on account of the loan of vehicles to other Railways and of fluctuations in Suspense.	As under Actuals.
Oudh and Rohilkhand Railway.	2,43,65	2,40,00	[illegible],40,89	The decrease of 2,76 was due chiefly to the falling off in goods traffic owing to a failure of the crops. There was, however, an increase in passenger traffic.	
Hardwar-Dehra Railway.	4,45	4,20	4,85	The increase was due partly to a large number of pilgrims visiting Hardwar and partly to increased traffic in timber and minerals	There was an increase of 45 under Coaching traffic.
South Indian Railway.	2,75,45	2,80,00	2,8[illegible],67	The increase occurred under Coaching (7,93). This was, however, partly counterbalanced by decreases under Goods traffic ([illegible],05) and under Miscellaneous (1,66). The former was due partly to the strike on the Madras and Southern Mahratta Railway and partly to breaches on the Main Line, Metre Gauge Section, while the latter was due to less receipts on account of hire of vehicles to the Great Indian Peninsula Railway and to fluctuations in Suspense.	The important variations were an increase of 4,72 under Coaching and a decrease of 4,14 under Goods.
Tinnevelly-Quilon Railway.	8,25	8,35	9,03	The important variations were increases under Coaching and Goods, both being due to the general development of traffic and to larger despatches of salt from Tuticorin to Quilon.	As under Actuals.

113. There was an improvement of 1,28.97 over the actuals of the previous year and of 1,18,89 over the Budget. The increase occurred under Coaching and Miscellaneous and Suspense. On the other hand, there was a falling off in the earnings under Goods.

38.—State Railways—Working Expenses.

Railways.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against Actuals, 1912-13.	Railway Account Officer's Review of Actuals against Budget, 1913-14.
IMPERIAL.					
Assam-Bengal Railway—					
Special . . .	1,14	1,46	56	*Special.*—The decrease of 58 was principally due to less special repairs to stations and staff quarters. The figures for 1912-13 included certain adjustments in connection with jetty sheds damaged and destroyed by fire in 1907.	*Special.*—The decrease of 90 was chiefly due to the non-adjustment of the Revenue share for replacing 50 old wagons condemned, as the materials were not received from England.
Ordinary . .	45,55	46,14	47,11	*Ordinary.*—The increase of 1,56 was chiefly due to more expenditure on fuel and to the cost of additional staff and handling charges, etc., owing to increased traffic.	*Ordinary.*—The increase of 97 was due to the causes stated under Actuals.
	46,69	47,60	47,67		
Bengal-Nagpur Railway—					
Special . . .	12,30	11,26	10,30	*Special.*—The lapse of 2,00 was the net result of decreases under Locomotive and Carriage and Wagon (the decrease under Carriage and Wagon was due to the cost of special works adjusted in 1912-13 having been abnormal) and of an increase under Maintenance on account of heavier expenditure on relaying, repairs of flood damages and a larger number of petty works.	*Special.*—There was a decrease owing to the renewal of 10 boilers provided for in the Budget not having been carried out and credits having been received for the return value of underframes, axles, etc., which were not anticipated. On the other hand, there was an increase in maintenance expenditure due to heavy repairs of damages caused by floods and to the revenue share of mixed sanctioned works having been adjusted.
Ordinary . .	1,79,12	1,75,74	1,90,85	*Ordinary.*—The increase of 11,73 was due to additional mileage, larger renewals of sleepers, more ballasting, increased train mileage run, heavier consumption and higher price paid for coal, the repairing of more engines and to the carriage of more coal. There was a small credit of 1,28 on account of expenditure on new extensions.	*Ordinary.*—The increase of 15,11 was principally due to the train mileage run, the coal consumed, the engines and vehicles repaired, and the quantity of coal carried having been larger than provided for in the Budget and to the price of coal having been more than estimated. There was also a deduction of 2,92 on account of new extensions.
	1,91,42	1,87,00	2,01,15		
Deduct—Expenditure on new extensions . .	*6,70*	*2,50*	*5,42*		
	1,84,72	1,84,50	1,95,73		
Bezwada Extension .	2,00	2,09	1,76	The actuals represented 9 months' transactions of the year, whereas the budget and previous year's actuals were based on the transactions of the whole year.	As under Actuals.
Bombay, Baroda and Central India Railway—					
Special . . .	24,43	38,17	25,77	*Special.*—The increase of 1,34 was chiefly due to the inclusion in the accounts for 1912-13 of a large credit for the transfer to capital of outlay incurred in renewing the metre gauge line with 50-lb. rails during 1905 to 1910.	*Special.*—The decrease of 12,40 was due to the execution of fewer special works, to large credits for materials released from the work of relaying the road with 90-lb. rails, to the provision for renewing 5 broad gauge boilers and for building new metre gauge tenders not having been fully utilized, to the renewal programme of metre gauge stock not having been worked up to in the 2nd half-year and to the transfer to capital of a proportionate share of certain renewal outlay relating to previous periods.
Ordinary . .	2,99,90	2,81,83	3,02,82	*Ordinary.*—The increase of 2,92 was the net result of increases on account of maintenance charges, additional establishment employed in the Traffic Department, and fluctuations in Suspense and of a decrease in the locomotive expenses.	*Ordinary.*—The excess of 20,99 was due to the enhanced cost of working trains, the engagement of additional staff during the strike of firemen, more numerous and costly repairs to engines, the conveyance of more coal to longer distances, the execution of heavier repairs to both coaching and goods vehicles and machinery, and other minor causes.
	3,24,33	3,20,00	3,28,59		

38.—State Railways—Working Expenses—*contd.*

Railways.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against Actuals, 1912-13.	Railway Account Officer's Review of Actuals against Budget, 1913-14.
IMPERIAL—*contd.*					
Burma Railways System—					
Special	13,63	11,64	5,82	*Special.*—There was large outlay in 1912-13 in connection with the remodelling of the stations and yards, the renewal of bridges and the rearranging of the headquarters of the permanent-way staff. This coupled with reduced outlay in 1913-14 on the schemes for goods renewals resulted in a decrease of 8,31.	*Special.*—The decrease of 6,32 was due to credit adjustments in connection with certain engineering works, and smaller expenditure on the schemes for coaching renewals.
Ordinary	1,18,70	1,23,36	1,24,63	*Ordinary.*—The increase of 5,93 was due to heavier renewals of ballast and sleepers, to double line maintenance in the Toungoo District as against single line in 1912-13, to more expenditure on repairs to stations and buildings, to a rise in the price of coal and in its consumption, and to more repairs to engines, coaching and goods stock.	*Ordinary.*—The increase of 1,27 was chiefly due to more ordinary repairs to coaching and goods stock.
	1,32,93	1,35,00	1,29,95		
Eastern Bengal State Railway—					
Special	23,40	16,13	16,70	*Special.*—The decrease of 6,70 was mainly due to a smaller programme of renewals of permanent way and of repairs to bridges, stations and buildings.	*Special.*—The excess was small.
Ordinary	1,88,66	1,79,87	1,88,70	*Ordinary.* The increase was small.	*Ordinary.* The increase of 8,83 was chiefly due to more expenditure under Traffic and larger payment to other lines in respect of interchange of stock.
	2,12,06	1,96,00	2,05,40		
East Indian Railway—					
Special	41,54	47,54	35,52	*Special.*—There was heavy outlay on repairs of bridges and station buildings in 1912-13. This, coupled with the adjustment in 1913-14 of large credits on account of certain works, was chiefly responsible for the decrease of 6,02.	*Special.* The decrease of 12,02 was mainly due to the provision on account of renewals of permanent way and repairs of bridges, stations and buildings, not having been utilized and to a reduced programme of coaching renewals.
Ordinary	3,41,10	3,37,00	3,78,57	*Ordinary.* The increase of 34,47 was due generally to the causes which accounted for the increase over the Budget.	*Ordinary.*—The increase of 41,57 was due to larger working expenses consequent on increased mileage, to heavy repairs of permanent way, earthwork, and stations and buildings, to more extensive repairs to engines, to larger quantities of coal carried to bring up stock and to the payment of hire to Foreign Railways on account of a larger number of vehicles borrowed from them.

IMPERIAL—contd.					
Great Indian Peninsula Railway System.					
Special	59,35	58,05	67,69	*Special*.—The increase of 8,34 was the result of larger expenditure on relaying permanent way and remodelling stations and on other special works.	*Special*.—The increase of 9,64 was the net result of excesses under maintenance charges and of lapses under locomotive and carriage and wagon expenses.
Ordinary	4,31,80	4,23,52	4,82,07	*Ordinary*.—The increase of 50,27 was attributable generally to the causes mentioned under Budget and to larger expenditure on ordinary maintenance and repairs of coaching and goods vehicles.	*Ordinary*. The increase of 58,55 was principally due to heavier renewals of permanent way, to heavier repairs of stations and buildings, to additional establishment in the Locomotive and Traffic Departments owing to the opening of additional mileage, to heavier repairs to engines, to the payment of loyalty allowance in connection with the strike, to increased average rate of coal, oil, etc., to increased issue of coal and oil on account of heavier type of engines put on the line, and to the payment of hire and demurrage for foreign vehicles.

Madras and Southern Mahratta Railway.					
Special	20,59	26,49	24,83	*Special*.—The increase of 4,24 was chiefly due to larger outlay on renewals of permanent way and the strengthening of girders and to larger renewals of coaching and goods stock.	*Special*. The lapse of 1,66 was mainly due to the renewals of carriage and wagon stock not having been undertaken according to programme owing to the curtailment of expenditure.
Ordinary	2,07,15	2,05,88	2,21,01	*Ordinary*.—The increase of 13,86 was chiefly due to a higher average issue rate of coal, increased train mileage run, to larger running expenses, and to heavier traffic expenses.	*Ordinary*.—The increase of 15,13 was due to the same causes as are explained under Actuals and to an increase under Suspense.
	2,27,74	2,32,37	2,45,84		
Less—					
Credits for amounts charged to worked lines.	*28,25*	*28,00*	*30,62*	There were also larger credits (2,37) on account of amounts charged to worked lines.	There were also larger credits (2,62) on account of amounts charged to worked lines.

IMPERIAL—*contd.*					
North Western Railway.					
Special . .	52,37	81,50	50,19	*Special.*—The decrease of 2,18 was the net result of smaller outlay on locomotive expenses on account of the non-receipt of materials from England and of larger expenditure under Carriage and Wagon due to certain works of the 1912-13 programme having been executed during 1913-14.	*Special.*—The lapse of 31,31 was mainly due to less expenditure on maintenance and renewals of permanent way, to the non-receipt of engines and boilers and of English materials indented for on account of certain works in the 1913-14 carriage and wagon programme.
Ordinary . .	4,99,90	4,80,88	5,06,56	*Ordinary.*—The increase of 6,66 was chiefly due to the high price of the African coal used, to heavier repairs in the Loco. Department, and to an increase in the Station and Train Staff owing partly to the opening of additional branch lines and partly to the adjustment of joint station charges. There were also larger credits (8,10) on account of worked lines.	*Ordinary.*—The increase of 25,68 was due to more repairs to permanent way, to the opening of new lines, to higher price of coal, to more expensive coal (African coal) having been used, to an underestimate of Locomotive expenses, to larger expenditure on Station and Train Staff, and to higher payments to other lines and on account of compensation claims. There were also larger credits (8,67) on account of worked lines.

Ondh and Rohilkhand Railway.					
Special .	9,54	15,63	14,00	*Special.*—The increase of 4,46 was caused by the renewal of the permanent way and heavier outlay on doubling the line between Benares Cantonment and Moghalserai.	*Special.*—The decrease of 1,63 was chiefly due to girders for renewals not having arrived in time, to no expenditure having been incurred on certain works for want of sanction to estimates, and to savings on certain rolling stock works.
Ordinary .	1,00,93	99,14	1,03,53	*Ordinary.*—The increase of 2,60 was mainly due to extra train mileage, improved rates of salary sanctioned for the running staff, heavy repairs done to rolling stock and more expenditure in the Traffic Department on account of the opening of the Cawnpore-Banda Railway.	*Ordinary.*—The increase of 4,39 was chiefly due to improved rates of pay granted to the running staff, to increased consumption of coal, and to heavier repairs done to rolling stock.

	Excess over grant.	Sanctioned by Provincial Government.	Sanctioned by Imperial Government.	Awaiting sanction of Imperial Government.	Awaiting sanction of Provincial Government.
Imperial—India	63,40	..	...	63,40	...

114. The Budget grants for Working Expenses were 28,21,62 under Imperial and 87 under Provincial. Additional grants amounting to 50,00 were sanctioned by the Government of India under Imperial, while an additional grant of 4 was sanctioned by the Chief Commissioner of Assam under Provincial. The sanctioned grants at the end of the year therefore stood at 28,71,62 and 91 respectively, against which the Actuals were 29,35,02 and 89. There was thus an excess of 63,40 under Imperial, which requires the sanction of the Government of India, and a saving of 2 under Provincial. The principal excesses occurred on the following lines:—

(*a*) ***East Indian Railway.***—24,09: the excess was due chiefly to the payment of 20,99 to Foreign Railways for the hire of a large number of vehicles which were borrowed to meet increased traffic demands.

(*b*) ***Great Indian Peninsula Railway.***—25,64: the excess was due chiefly to the Engineering Department having drawn stores in excess of allotment, and to the expenditure on the Thul Ghat re-alignment, which had originally been debited to Capital, having been transferred to the debit of Revenue in the accounts for March 1914.

IMPERIAL.					
RAILWAY COMPANIES.					
Share of Surplus Profits.					
Bengal Nagpur Railway.	20,28	5,00	5,68	The decrease of 14,60 was due to a quarter's surplus (January to March 1913) having been paid in the year 1913-14 whereas a whole year's surplus (January to December 1912) was paid in 1912-13.	The increase of 68 was due to an under-estimate of net earnings for the quarter January to March 1913.
Bombay, Baroda and Central India Railway.	6,59	3,50	3,79	.. ...	The increase was due to the net earnings of the combined system for the 1st half of 1913-14 having proved better than the estimate.
Burma Railway.	11,77	10,00	13,14	As under Budget.	The increase was due to larger net earnings.
East Indian Railway.	25,95	20,00	17,88	.. ...	The decrease was due to the results of working for the quarter ended March and the half-year ended September 1913, on which the surplus profits were based, not having proved as good as anticipated.
Great Indian Peninsula Railway.	6,80	4,00	3,08	.. ...	The Budget was over-estimated.
Hardwar-Dehra Railway.	65	62	19	As under Budget.	The decrease was due to the payment and adjustment of the surplus profits for the official year under review having been deferred to the next year. The actuals represent surplus profits for the quarter ended 31st March 1913.
Lucknow-Bareilly Railway.	70	1,00	1,25	As under Budget.	The excess was due to the surplus profits for the second half of 1912 being paid and adjusted in the accounts for 1913-14 instead of in 1912-13 as anticipated in the Budget.
Tirhoot Railway.	4,48	2,60	2,97	The decrease was due to an additional share for the quarter ended the 31st March 1913 having been paid to the company in 1912-13.	
Share of net Earnings.					
Madras and Southern Mahratta Railway.	16,44	4,50	7,08	......	The increase was due to the net earnings for the quarter ended 31st March 1913 having proved to be better than was anticipated.
South Indian Railway.	3,55	1,50	1,04	......	The Budget was over-estimated.
Total	96,71	52,72	56,08	In the case of all other railways the decreases were generally due to the fact that, consequent upon the change from the calendar to the official year, the actuals for the year under review represent surplus profits for nine months and in some cases for three months only, instead of for the twelve months.	......
Native State share of net Earnings.					
Mysore.	9,32	6,85	9,38	......	The increase was due to better results of working.
Nagda-Muttra Railway.	25	8	57	......	The increase was due to the payment during the official year of the Durbar's share of the net earnings of the Nagda-Muttra Section for the year ended the 31st December 1912 and also for the quarter ended the 31st March 1913.
Palanpur-Deesa Railway.	17	5	10	......	The increase was due to the payment in February 1914 of the share of the net earnings of this line for the half-year ended 30th September 1913.

XXIX.—Irrigation—Ma Works—Direct Receipts.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Central Provinces—					
Imperial	93	90	1,40	The increase was due to the completion of the work on several tanks.	As under Actuals.
Burma—					
Imperial	10,04	10,72	12,44	Increased receipts from the Mon Canal (1,86) and the Shwebo Canal (53) mainly accounted for the rise.	The increase was due to larger receipts from the Mon Canal (96), the Shwebo Canal (51) and the Mandalay Canal (25).
Bengal—					
Imperial	1,37	1,40	1,23	The decrease resulted from the silting up of the Tidal Canal and the remission of 'water rates' on the Midnapur Canal owing to the failure of the kharif crops caused by excessive rainfall.	As under Actuals.
Provincial	1,37	1,40	1,23		
Bihar and Orissa—					
Imperial	11,65	11,90	12,88	The increase was mainly under the Sone Canal owing to a larger demand for water for the winter crops.	As under Actuals.
Provincial	11,66	11,90	12,88		
United Provinces—					
Imperial	2,43	3,00	4,44	Owing to the failure of the monsoon in 1913 the demand for canal water was larger in the year under report. The improvement appeared chiefly under the two Ganges Canals (9,31), the Eastern Jumna (2,93), Agra (98), Betwa (92) and Ken (82) Canals.	The increase occurred mainly under the Lower Ganges (4,88), Ganges (3,12), Eastern Jumna (2,09), Betwa (1,03), Ken (50) and Agra (43) Canals owing to the early cessation of the monsoon.
Provincial	79,57	82,41	93,25		
Punjab—					
Imperial	1,23,73	1,22,35	1,23,29	The principal increases were under the Western Jumna (5,79), Lower Jhelum (76), Upper Chenab (4,18), Upper Sutlej (1,09), and Sidhnai (57) Canals, consequent on an increase in irrigation. The year 1912-13 was the first year of irrigation on the Upper Chenab Canal. On the other hand, receipts on the Lower Chenab and the Sirhind Canals fell by 3,82 and 5,49, respectively, owing to timely rainfall which reduced the demand for canal water. The substitution of Land Revenue for owner's rates on the Gugera and Rakh Branches of the Chenab Canal accounted for a decrease of 4,69.	The reasons given under Actuals accounted for the increase over the Budget. On the other hand, the effect of the supersession of the owner's rate on the Chenab Canal was not sufficiently allowed for in the Budget.
Provincial	1,23,73	1,22,35	1,23,29		
North-West Frontier Province—					
Imperial	8,22	7,50	8,51	...	The receipts were underestimated.
Madras—					
Imperial	1,37	1,29	1,33	...	...
Provincial	1,37	1,29	1,33		

XXIX.—Irrigation—Major Works—Direct Receipts—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Bombay—					
Imperial	6,84	7,26	8,70	The increase was mainly due to a greater demand for water on the Mutha, Nira, Khariont, Hathmati, Krishna and Godavari canals, and also to higher receipts from fines for wastage of water and under miscellaneous, in the case of the Jamrao Canal.	As under Actuals. An extension of irrigation on the Pravara Right Bank Canal also contributed to the increase.
Provincial	6,84	7,26	8,70		
Total in Rupees—					
Imperial	1,66,58	1,66,32	1,74,22		
Provincial	2,24,54	2,26,61	2,40,68		
	3,91,12	3,92,93	4,14,90		
	£	£	£		
Equivalent in Sterling	2,607,5	2,619,5	2,766,0		

120. There was an increase of 23,78 as compared with the actuals of the previous year, the major portion of which, *viz.*, 15,69, occurred in the United Provinces, while the balance was mainly contributed by Bombay (3,72), Bihar and Orissa (2,45), and Burma (2,40).

The improvement of 21,97 over the Budget was distributed over the United Provinces (12,28), Bombay (2,88), Bihar and Orissa (1,96), the Punjab (1,88), and Burma (1,72).

XXIX.—Portion of Land Revenue due to Irrigation.

Provinces.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Central Provinces—					
Imperial	5	4	5	...	...
Burma— Imperial	1,83	1,70	2,19	The increase occurred under the Mon (27) and Shwebo canals (10) owing to the extension of irrigation.	As under Actuals.
United Provinces— Imperial	17,20	16,96	17,52	...	...
Punjab— Imperial	40,37	40,00	50,50	The increase occurred mainly on the Lower Chenab and Upper Bari Doab Canals as a result of new and enhanced rates in the Colony and other tracts.	As under Actuals.
Provincial	40,37	40,00	50,50		
North-West Frontier— Imperial	61	57	74	The increase was due to receipts from the Paharpur Canal (11) from which there were no receipts during 1912-13.	As under Actuals.
Madras— Imperial	53,60	51,91	53,22	The [illegible]rease occurred chiefly u[illegible] the Godavari (1,34) and Ca[illegible]ery (39) Delta Systems and un[illegible] the Pennar river canals (47) and was due to a fall in the case of the second crop and [illegible] the grant of larger remissions. It was partly counterbalanced by an increase under the Kistna Delta system (1,06).	The improvement was due to increases chiefly under the Godavari (1,50) and Kistna (1,18) Delta systems.
Provincial	53,60	51,92	53,22		
Bombay— Imperial	11,56	13,18	12,36	The improvement was mainly due to a good supply of water from the Begari Canal and to the better working of the Dad Canal. It was, however, partially counterbalanced by diminished receipts on some other canals due to deficiency of water and remissions.	The Budget included about 2,00 on account of collection charges. The actuals, on the other hand, represented net figures after deduction of collection charges in the Civil Department.
Provincial	11,55	13,18	12,36		
Total in Rupees	2,30,74	2,29,46	2,52,66		
Imperial	1,25,22	1,24,36	1,36,58

Central Provinces—					
Provincial	47	50	56	...	...
Burma—					
Provincial	14,41	13,03	13,69	The decrease (72) was due to deficient rainfall and failure of water supply in two districts.	The improvement (66) was chiefly due to larger receipts in the Minbu district (98) owing to the collection of outstandings of the previous year and to the general favourable conditions, and in the Kyaukse district (68) owing to the enhanced rate sanctioned for the Zawgyi tract and to the recounting of palm and cocoanut trees. The increases were partly counterbalanced by a fall in receipts in the districts of Meiktila (73) and Yamethin (39) on account of deficient rainfall and the failure of water supply.
Bengal—					
Imperial	3,45	3,68	3,07	The decrease (76) was chiefly due to a falling-off in the Madaripur Bheel Route on account of concessions granted to passenger steamers (48), and in the Calcutta and Eastern canals owing to bad weather and a deficiency in the rice and jute crops (17).	The Budget provided for an increase in the Madaripur Bheel Route which was opened to traffic throughout the year and in the Calcutta and Eastern Canals in view of the opening of the Kristopur Khal. Owing, however, to the causes mentioned under Actuals the revenue was less than anticipated by over a lakh.
Provincial	3,45	3,68	3,07

Total in Rupees	9,42	9,90	10,17		
	£	£	£		
Equivalent in Sterling	62,8	6,0	67,8		

123. There was an increase of 75 as compared with the actuals of the previous year, which occurred chiefly in the United Provinces (37), Bengal (23), and Assam (19). In the first named province there were higher receipts (45) from the Shahdara-Saharanpur Light Railway on account of the share of surplus profits. In Bengal there was a resettlement of Government ferries at higher rents in some of the districts. In Assam the steam ferries at Dhubri and Gauhati, which had previously been worked by the Public Works Department, were leased out for the first time, the rents being credited as Civil revenue.

The increase of 27 over the Budget occurred in the same provinces and was mainly due to the causes mentioned above. There was, however, a decrease of 35 in the Punjab, which was chiefly due to 41 provided on account of receipts from the sale of certain sites and old buildings not being realized.

XXXI.—Civil Works. (In charge of Public Works Officers.)

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India (General)— Imperial	78	94	2,00	The improvement was due to increased receipts in Delhi.	As under Actuals.
Central Provinces— Imperial	51	34	38	The decrease was nominal. The actuals for 1912-13 included the balance of ferry receipts (13) adjusted by transfer credit to this head.	...
Provincial	13,14	6,25	2,40	The decrease was nominal. The actuals for 1912-13 included the sale price of the Ballarpur Colliery (7,50) and the revenue derived from that Colliery (3,43).	The decrease was due to the fact that the Ballarpur Colliery having been sold in March 1913 no revenue was received, although provision had been made in the Budget.
Burma— Imperial	25	13	15	The increase occurred mainly under 'Fines, Refunds and Miscellaneous' (23) owing to the receipt of the balance of the contribution from the Irrawaddy Flotilla Company towards the protection of the Ra[illegible]n river bank from ero[illegible].	As under Actuals. There was also an improvement under 'Rents of Buildings' (22).
Provincial	3,26	2,80	3,41		
Assam— Imperial	2	2	2	...	...
Provincial	91	1,00	82	Receipts from ferries diminished by 14 owing to the leasing out of the steam ferries at Gauhati and Dhubri previously worked by the Public Works Department and the transfer of the receipts to the Civil Department.	As under Actuals.
Bengal— Imperial	64	77	73	The increase was mainly due to the sale of a few buildings (35) and to the usual growth in the rent receipts (16).	In the Budget no provision was made for the sale of the buildings referred to under Actuals (35) and the rent receipts were underestimated.
Provincial	3,85	3,69	4,34		
Bihar and Orissa— Imperial	13	10	24	Larger receipts from the sale proceeds of opium buildings accounted for the increase.	As under Actuals.
Provincial	1,52	1,85	2,24	The increase was mainly due to larger receipts from rents on newly constructed residential buildings at Ranchi (40), and from the sale proceeds of buildings and old materials of the Opium Factory at Bankipur (20).	As under Actuals.
United Provinces— Imperial	36	29	44	...	Higher receipts from the sale of buildings and old materials and from rents accounted for the improvement.
Provincial	3,22	3,20	3,74	There was a special receipt of 1,00 from the sale of the Roorkee workshops and increased receipts from rents (17). These were, however, partly counterbalanced by smaller net profits from the Roorkee workshops (41), consequent on their sale during the course of the year, and by lower receipts from the sale of buildings (19).	The Roorkee workshops were sold in June 1913 for 3,00, of which 1,00 were credited in 1913-14 and the balance is to be recovered by annual instalments of 40. The Budget did not provide for this special receipt of 1,00 and the cessation of the ordinary receipts from the workshops from the date of sale. The sale resulted in a net increase of 45 (the falling off in the net profits amounting to 55).

Provincial	38,15	29,09	28,90		
	£	£	£		
Equivalent in Sterling	292,7	220,9	230,8		

121. As compared with the actuals of the preceding year there was a net falling off of 9,28, the decrease in the Central Provinces alone amounting to 10,87. There was an improvement of 1,48, over the Budget which included increases of 1,06 and 1,09 under India and in Bombay respectively, and a decrease of 3,81 in the Central Provinces.

XXXII.—Army Receipts.

	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Military Accountant General's Review of Actuals against Actuals, 1912-13.	Military Accountant General's Review of Actuals against Budget, 1913-14.
III.—Regimental Pay, Allowances, etc.	86	86	73	The decrease (13) was due to a smaller number of soldiers having purchased their discharge, and to less miscellaneous receipts.	As under Actuals
IV.—Supply and Transport (including Farms).	33,35	32,66	32,67	The decrease (68) was due chiefly to less receipts on account of the sale of provisions and stores.	......
VI.—Army Clothing Department — Supplies and Services.	25,70	26,80	24,65	The decrease (1,05) was chiefly due to smaller sales of clothing to British and Indian troops (67), to less sales of surplus clothing (33), and to a smaller supply of clothing to other departments (22).	The decrease (2,15) was due chiefly to less receipts from the sale of surplus clothing in the clothing factories (1,14) and from the sale of clothing to British and Indian troops (1,15).
VII.—Remount Establishments—Supplies and Services.	3,17	2,39	2,28	The decrease (89) was due chiefly to less receipts (34) from the sale proceeds of regimental cast horses. The actuals for 1912-13 also included 78 on account of the issue of horses to the newly formed Body Guard of His Excellency the Governor of Bengal.	The decrease (11) was due chiefly to less sale proceeds of regimental cast horses and to less receipts from the sale of chargers to officers.
VIII.—Medical Services.	7	9	8	......	......
IX.—Medical Stores.	10,89	8,52	11,35	The increase (46) was due to the adjustment of arrear receipts amounting to 35.	The increase (2,83) was chiefly due to larger demands from Civil institutions (2,41), and to the adjustment of arrear receipts.
X.—Ordnance Establishments—Supplies and Services.	30,96	21,25	26,25	There were heavy sales of unserviceable stores from the arsenals in 1912-13 (5,14). The figures for the latter year included 1,94 on account of the adjustment of the value of peace equipment stores taken by the additional troops sent to China. On the other hand, there were larger sales in 1913-14 of unserviceable stores from certain factories (71) and larger issues on payment of ordnance stores to Native States (1,01) and to the Police Forces of the different Provinces (47).	The large increase (5,00) was due chiefly to heavy sales of unserviceable Ordnance stores from factories (2,17), the supply of arms to the Police Force in certain provinces (93), and to the issue on payment of Ordnance stores to the Nepal Durbar (1,58).
XII.—Education.	37	34	41	...	The small increase was due to a contribution paid by the Australian Government for an officer under training in the Staff College, Quetta, for which no provision was made in the Budget.
XIV.—Miscellaneous Services.	14,47	15,29	14,43	......	The decrease (86) was due chiefly to less receipts in India on account of the capitation rate payable by the Imperial Government in respect of Indian Infantry regiments lent for service in the Colonies.
XV.—Hutting.	42	80	1,06	The increase was chiefly due to the line repair subscriptions having been recovered from Silladar Cavalry regiments for the whole year, instead of only for a portion of the year in 1912-13.	As under Actuals.
XVI.—Conveyance by Road, River and Sea.	41	44	47	......	......

Cost of the Transport of Troops.	130,0	130,0	130,0	......	
Military charges for Aden.	106,0	100,0	100,0	......	
Amount received from the Imperial Government in respect of the capitation rate payable on account of Indian Native Regiments lent for service in the Colonies.	44,5	44,0	53,6	......	The increase was due to smaller advances by the Army Paymasters in the Colonies, which are set off against the receipts in England in respect of the capitation rate.
Value of clothing, accoutrements, etc., in possession of Regiments on their transfer from the Indian to the British Establishment; proceeds of sales of unserviceable stores; receipts on account of Indian Troop Service, etc.	26,1	56,6	31,4	......	The decrease was chiefly due to smaller receipts on account of the consolidated clothing allowances of British Soldiers owing to the postponement of adjustments with the War Office (1,[illegible]8), and also on account of the value of articles in the possession of the regiments on their transfer to the British Establishment (99).
Non-Effective. Subscriptions towards Indian Military Service Family Pensions.	36,5	38,0	36,2	......	The provision in the Budget for the growth of these receipts was too high.
Total England	337,1	368,6	351,2		
Grand Total	1,227,8	1,186,7	1,203,5		

125. The receipts fell short of the actuals of the previous year by 5,76. The more important variations occurred under Ordnance (4,71) and Army Clothing (1,05).

There was an increase of 5,14 over the Budget, which occurred chiefly under Ordnance (5,00), and Medical Stores (2,83). There was, however, a decrease under Clothing (2,15).

XXXIII.—Marine Receipts.

	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Effective Services—					
Dockyard Services and Supplies.	6,72	9,01	9,76	The increase (3 04) was chiefly due to larger recoveries from Local Governments and other departments, on account of more work done for them	The increase (75) was due to larger recoveries for works for, and direct supplies of stores to, Local Governments, other departments and the Royal Navy.
Hire of Vessels .	4,44	3,83	2,46	The decrease (1,98) was mainly due to the conveyance of additional troops to Hong Kong and heavy reliefs of British units in 1912-13	The decrease (1,37) was due chiefly to the reliefs of certain Indian regiments, for which provision was made in the Budget 1913-14, having been postponed.
Sale-proceeds of vessels.	..	...			
Sale-proceeds of stores.	49	45	58		The increase (13) was due to the sale of a larger quantity of old and unserviceable stores than was anticipated.
Miscellaneous.	1,24	1,20	41	As under	The decrease (79) was due to credits for imported stores used on works of conversion being adjusted by deduction from expenditure instead of being credited to this head as formerly
Non-effective Services—					
Pensions	26	25	22		
Total in Rupees .	13,15	14,74	13,43		
	£	£	£		
Equivalent in Sterling	87,7	98,3	89,5		

126 The increase as compared with the actuals of the previous year was 28 and was due chiefly to larger recoveries for works for Local Governments, other departments and the Royal Navy (3,04), partly counterbalanced by less recoveries for the hire of vessels employed in Imperial interests (1,98) and less miscellaneous receipts (83)

The decrease (1,31) as compared with the Budget occurred chiefly in the recoveries for the hire of Royal Indian Marine vessels employed on Imperial service (1,37), and in miscellaneous recoveries (79), partly counterbalanced by larger recoveries from Local Governments, other Departments and the Royal Navy on account of imported stores (75).

XXXIV.—Military Works—Imperial.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST Actuals, 1912-13.	Budget, 1913-14.
India (General) . .	9,29	9,92	10,06

	£	£	£		
Equivalent in Sterling	72,1	76,0	76,6		

127. The increase over the actuals of the previous year (67) is partly accounted for by the unexpected realization of arrears of over 33 on account of 'water rates' in Rawalpindi, which in previous years had not been credited to Military Works revenue, and partly by a refund during 1912-13 of 33 to the Home Government on account of rent recovered in excess on the Naval Buildings at Bombay.

The increase of 9 over the Budget is made up of small variations.

1.—Refunds and Drawbacks.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	53	53	65	The increase was due chiefly to larger refunds of Salt Revenue.	As under Actuals.
Central Provinces	82	78	85	...	The estimates were framed with reference to the average actuals.
Burma	7,16	6,97	6,86	The decrease was mainly due to smaller Land Revenue (15) and Stamp (14) refunds.	The savings occurred chiefly under Customs (25), Excise (19), and Stamps (18), but were partly counterbalanced by increases under Tributes (4[illegible]) in consequence of larger remissions.
Assam	38	29	32	...	...
Bengal	8,63	8,76	8,04	The decrease was mainly due to smaller refunds under Stamps (29) and Salt (28). The latter resulted from the extension of the credit system of sale.	The Budget was based on the average of previous 3 years' actuals excluding special payments.
Bihar and Orissa	1,22	87	1,32	The incre[illegible] was chiefly due to the refu[illegible] of license fees under Excise (3[illegible]) sanctioned on account of the lo[illegible]s sustained by certain contractors.	As under Actuals.
United Provinces of Agra and Oudh.	2 03	2,11	2,48	Larger Stamp refunds were the chief cause of the increase.	As under Actuals.
Punjab	1,94	1,62	1,82	The decrease occurred mainly under Excise refunds.	The Budget was based on the Revised for 1912-13.
North-West Frontier Province.	23	24	24	......	......
Madras	5,18	4,48	6,14	The increase was due chiefly to larger refunds under Land Revenue and Customs and of the value of certain forest permits which had become obsolete.	As under Actuals.
Bombay	20,60	18,57	21,70	The increase (1,10) was mainly due to heavy payments to certain Native States in Katiawar (1,30) on account of the differential duty on Excise Opium imported into those States.	The excess (3,13) was mainly due to heavy payments on account of differential duty (1,76) on Excise Opium referred to under Actuals and larger refunds of Customs duties (57) to the Kashmir Durbar, of Opium Pass Fees (38) recovered in excess from the Baroda Durbar in 1912, of Land Revenue (33), of Forest receipts (25) erroneously credited to Government in 1912-13 and of Income Tax (23) in consequence of the revision of the original assessments on appeal. The above increases were, however, partially counterbalanced by a decrease (68) under Drawbacks resulting from reduced shipments of sugar and silver to the Persian Gulf ports.

United Provinces of Agra and Oudh .	1	...	...	...	...	...	1	...
Total .	1	...	...	...	...	...	1	...

129. There was an increase of 3,97 as compared with past actuals. This occurred chiefly in Bombay (2,28) and Madras (1,60).

As compared with the Budget there was an excess of 72, which occurred in Madras (84).

An Imperial excess of 1 requires the sanction of the Government of India

3.—Land Revenue.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	6,74	7,29	7,33	The increase was due to the inclusion of the charges relating to the Delhi Province for 12 months as against 6 months in the previous year (62).	......
Central Provinces	38,39	40,00	40,19	The increase (1,80) was mainly due to the revision of the Land Records staff in three districts (58), increased expenditure under salaries as a result of the amalgamation and regrading of the Central Provinces and Berar Commissions (36), the progress of settlement operations (35), larger payments to district and village officials on account of collections (24), and the revision of the Sub-Divisional establishment (10).	......
Burma	69,84	69,79	70,06	The increase was due to larger payments of commission on account of Land Revenue collections. [illegible] was, however, partly counterbalanced by savings under 'Charges of District Administration—Salaries' owing to a larger number of officers having been on leave and deputation, and under 'Land Records—Salaries' in consequence of the appointment of officers in the lower grades.	As under Actuals.
Assam	13,92	15,13	15,27	The increase (1,35) was chiefly due to larger expenditure under 'Survey and Settlement' (84), mainly on account of no adjustment having been made within the year in respect of charges debitable to the India and Bengal books or recoverable from private parties, and to heavier outlay on settlement operations. The expenditure under 'Charges on account of Land Revenue collections' was also higher (20) owing to the payment of arrear commission.	.....
Bengal	50,74	55,48	55,36	The increase (4,62) was chiefly due to the expansion of survey and settlement work (3,64). District administration charges also increased by 96 owing mainly to the appointment of additional Sub-Deputy Collectors as Circle Officers and to larger expenditure incurred by District Officers on travelling allowances and contingencies.	......
Bihar and Orissa	32,67	36,39	33,88	The increase (1,21) occurred under survey and settlement (1,74), salaries of officers and contingencies (38), grain compensation allowance (18), and the improvement of Government estates (14). These increases were, however, partly counterbalanced by smaller expenditure on the maintenance of the records of rights in Orissa and Sambalpur (1,13).	The saving (2,51) occurred under (i) maintenance of records of rights in Orissa and Sambalpur and Land Registration charges (1,42), (ii) contingencies (46), (iii) salaries and establishment (38), and (iv) survey and settlement (27).

3.—Land Revenue—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
United Provinces of Agra and Oudh.	87,46	95,58	88,65	The increase (1,19) was attributable to higher outlay under 'Charges of District Administration' and to the partial introduction of the scheme for the increase of the cadre of Deputy Collectors.	The savings (6,93) were mainly due to the non-utilization of the lump provision of 6,25 for the revision of establishments.
Punjab . . .	47,73	47,88	49,10	The increase (1,37) was chiefly due to larger outlay on settlement operations.	As under Actuals.
North-West Frontier Province.	6,12	6,74	6,21	......	The decrease (53) was chiefly due to an under-estimate of probable savings on account of leave arrangements of officers (30), and to the partial non-utilization of the allotment for compensation for dearness of provisions.
Madras	1,42,09	1,46,51	1,46,94	The increase (4,85) included 3,57 under 'Charges of District Administration.' Of this 1,27 occurred under 'General Establishment' mainly on account of salaries, and 2,28 under 'Sub-Divisional Establishment' owing to the fact that the actuals of 1912-13 included the extra cost of the revision of the taluk establishments for a portion of the year only as against 12 months in 1913-14. There was also an increase of 81 under 'Allowances to District and Village officers.'	The increase (43) was mainly the result of an excess of 1,99 under 'Charges of District Administration' and a saving of 1,51 under 'Allowances to District and Village officers.' The increase under the former head was on account of leave allowances, grain compensation allowance, and remuneration to copyists.
Bombay . . .	84,24	82,95	84,71	......	The increase (1,76) was due to a change in the method of apportionment of certain charges between this head and '19 A.—Law and Justice' (2,00) and to larger expenditure on the development of Salsette (91). These increases were partly counterbalanced by a saving under 'Temporary Establishment' and by the non-utilization of the provision for the revision of the subordinate Revenue establishment.
Total in Rupees .	5,79,94	6,03,74	5,97,70		
Equivalent in Sterling	£ 3,866,3	£ 4,024,9	£ 3,984,7

Total	...	64	...	...	...	63	...	...

130. As compared with the actuals of the previous year there was an increase of 17,76 which occurred chiefly in Madras (4,85), Bengal (4,62), the Central Provinces (1,80), the Punjab (1,37), Assam (1,35) and Bihar and Orissa (1,21).

As compared with the Budget there were important decreases in the United Provinces (6,93) and Bihar and Orissa (2,51), and increases in Bombay (1,76), and the Punjab (1,22), the net result being a decrease of 6,04.

4.—Opium.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India . .	9	9	8	......	......
Bengal . .	30	30	24	The decrease was due to smaller freight charges owing to Government steamers being available for the despatch of Abkari Opium to Burma.	As under Actuals.
United Provinces of Agra and Oudh.	89,19	1,69,52	1,51,13	The increase (61,94), includes (a) 73,37 on account of the purchase of Malwa Opium and (b) reduced payments in connection with the cultivation of opium (10,35), commission to Lambardars (28), the District Staff (45), and the Ghazipur Factory (22).	There were savings of 10,63 in connection with the purchase of Malwa Opium, of 6,82 in payments to cultivators and of 87 in the salaries, travelling allowances, etc., of the District staff.
Bombay . .	33	34	30	The decrease was due to the abolition of the Bombay Opium Warehouse with effect from 1st January 1914.	As under Act
Total in Rupees .	89,91	1,70,25	1,51,75		
	£	£	£		
Equivalent in Sterling	599,4	1,135,0	1,011,7		
England . . .	3	4	7	......	The actuals for 1913-14 included exceptional expenditure for which no provision could be made in the Budget.
Total including England.	599,7	1,135,4	1,012,4		

131. There was an increase of 61,84 as compared with past actuals and a saving of 18,50 from the Budget. These occurred in the United Provinces.

5.—Salt.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	11,47	11,89	13,22	The increase was due chiefly to larger expenditure under manufacture and excavation.	As under Actuals.
Burma	42	...	46	...	No provision had been made in the Budget for the transfer of 3¾ per cent of the total cost of the combined Salt and Excise establishments, excluding the charges on account of superintendence, to '5.—Salt.'
Assam	1	2	1	...	Provision was made in the Budget for two bonded warehouses in the Sylhet district, but one was closed during 1912-13.
Bengal	2,84	3,52	3,15	The increase was due to larger expenditure on the hire and repairs of boats and steamers (16), and on travelling and contingent expenses of the Preventive establishment (18).	The decrease was chiefly due to the lapse of 42 provided for new ships.
Bihar and Orissa	65	86	70	...	The savings were mainly due to smaller Launch and Boat charges and less expenditure on the Preventive establishment.
Madras	16,96	17,29	14,76	The decrease was mainly due to smaller outlay on the purchase of salt (manufacturers' share) (1,68).	As under Actuals.
Bombay	23,65	22,99	22,39	The actuals for 1912-13 included payments on account of compensation for land for the Bhandup Salt Works (97) and grain compensation allowance (78). On the other hand, there were larger issues of Baragora salt (27).	The decrease (60) was chiefly due to the adjustment (by deduction from charges) of credits on account of certain materials transferred to the Railway Department.
Total in Rupees	56,00	56,57	54,69		
Equivalent in Sterling	£ 373,3	£ 377,1	£ 364,6		
England	7	1,5	8	...	The saving was due to the postponement to 1914-15 of payments for stores.
Total including England.	374,0	378,6	365,4		

5.—Salt—*concld.*

132. As compared with the previous year there was a decrease of 1,81, which occurred in Madras (2,20), and Bombay (1,26), while there was an increase under India (1,75).

As compared with the Budget there was a decrease of 1,88, which occurred in Madras (2,53). There was, however, an increase under India (1,33).

6.—Stamps.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India — Gross	2,85	2,63	2,60		
India — Deduct value of stamps supplied to other departments and provinces.	—17,65	—16,49	—17,16		
India — Net	—14,80	—13,86	—14,56	The net increase was chiefly due to smaller recoveries from the Provincial Governments for stamp supplies.	The variation was due chiefly to larger debits to the Post Office on account of the cost of unified stamps.
Central Provinces	1,24	1,28	1,30	...	...
Burma	1,03	1,11	1,02	...	Smaller supplies of stamp paper from the Central Stores, Rangoon, (11), mainly accounted for the decrease.
Assam	54	58	59		
Bengal	7,07	7,25	7,23		...
Bihar and Orissa	2,13	2,55	2,15		The saving was mainly due to smaller supplies of stamp paper from the Central Stores (45).
United Provinces of Agra and Oudh.	2,90	2,91	3,17	An increased demand for stamp paper supplied from the Central Stores and larger payments of discount, owing to increased sales of stamps, were the chief causes of the increase.	As under Actuals.
Punjab	1,83	1,78	1,92	...	The excess occurred chiefly under 'Charges on Sale of Stamps' (10) due partly to an under-estimate and partly to increased sales of general stamps.
North-West Frontier Province.	23	23	26	...	...
Madras	4,95	4,62	4,46	The decrease (49) was due to smaller charges on account of stamp paper supplied from the Central Stores owing to the reduction of the invoice rate of the cost of stamps by 30 per cent.	As under Actuals.
Bombay	2,39	2,37	2,45	...	...
Total in Rupees	9,51	10,82	9,99		
Equivalent in Sterling	£ 63,4	£ 72,1	£ 66,6		
England	90,5	91,6	106,5	...	The demands for stores were greater than was indicated in the forecasts received from India.

133 In the Indian section of the accounts there was a small increase of 48 over the actuals for 1912-13. As compared with the Budget there was a decrease of 83, the greater part of which occurred under India (70).

An Imperial excess of 19 requires the sanction of the Government of India.

7.—Excise.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	1,13	1,23	1,16	......	The decrease was chiefly due to a lump provision in Baluchistan for water supply not having been fully utilized.
Central Provinces	3,19	3,80	3,46	The increase was due to the creation of certain temporary posts of Inspectors and Sub-Inspectors.	The decrease was due partly to the revision of the Excise Department, for which a lump provision had been made, not having been sanctioned during 1913-14 and partly to the full sanctioned strength of Extra Assistant Commissioners not having been employed.
Burma	12,59	13,55	12,69	......	The decrease was due to the transfer of 46 to the head '5. Salt', and to savings under 'Establishment' (13) and 'Salaries' (12) in consequence of the appointment of junior officers in leave vacancies.
Assam	1,12	1,10	1,14	......	......
Bengal	5,98	6,69	6,26	The increase was due to minor causes.	The decrease was mainly due to the partial lapse of a lump provision of 50 for reorganisation.
Bihar and Orissa	5,21	5,48	5,50	The increase was mainly due to additions sanctioned to the inspecting staff (22).	......
United Provinces of Agra and Oudh.	4,12	4,20	4,34	The increase was chiefly due to promotions, increased travelling allowance of Excise Inspectors, and larger payments of rewards.	......
Punjab	1,85	1,92	1,86	......	......
North-West Frontier Province.	13	19	13	......	The Budget contained a provision of 4 for the opium detective establishment which was not utilized during the year.
Madras	18,17	18,42	18,21	......	......
Bombay	10,80	11,26	10,86	......	Changes in personnel and leave vacancies caused a saving of about 25. The provision for the supply of equipment to Excise Inspectors in the Presidency proper and for payments to officers of other provinces was also not utilized.
Total in Rupees	64,29	67,84	65,61

137. There was an increase of 43 as compared with the previous year's actuals, the greater part of which occurred in Bombay (24).

An Imperial excess of 2 requires the sanction of the Government of India.

11.—Forest.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	8,83	11,60	9,38	The increase was due chiefly to certain special expenditure in the Forest Research Institute for tools and plant and fittings.	The saving was due chiefly to a partial lapse of the provision in the Port Blair budget on account of timber and fuel extraction.
Central Provinces	19,47	18,55	19,53	......	The increase (98) was chiefly due to grass operations, which were not anticipated in the Budget.
Burma	41,57	44,59	42,75	The increase (1,18) was chiefly due to larger outlay on 'conservancy and works' (98), and on the purchase of elephants (24).	The decrease (1,84) was chiefly due to smaller extraction of timber by Government agency on account of a bad floating season (95), less outlay on roads and bridges (51), and to smaller expenditure on live and dead stock in certain circles (35).
Assam	8,09	9,23	9,10	The increase (1,01) was chiefly due to heavy outlay on communications, buildings, and the demarcation and improvement of forests.	
Bengal	6,61	6,76	6,40	The decrease was due to the cessation of departmental extraction in Buxa.	The decrease was due to the non-entertainment of the full complement of officers (20) and establishment (15).
Bihar and Orissa	3,57	3,68	3,56	......	
United Provinces of Agra and Oudh.	16,29	18,65	18,96	The increase (2,67) was chiefly due to the expansion of the resin and turpentine industry in the Western and Kumaun Circles (78), the starting of sleeper operations (61) and higher outlay on settlement operations (31) in the latter circle, a larger payment of 40 to the Maharaja of Tehri on account of his share of profits in certain leased forests, and to higher expenditure in the Eastern Circle on the demarcation, improvement and extension of forests (42).	
Punjab	7,99	10,25	9,19	The increase (1,20) was chiefly due to the construction of more roads and buildings (62), the purchase of tools and plant mainly for the extension of resin tapping operations and the manufacture of turpentine (25), and to the demarcation, improvement and extension of forests (19).	The saving (1,06) was accounted for by smaller expenditure under 'Timber, etc., removed by Government Agency' (58) and under 'Other Charges' (31).
North-West Frontier Province.	1,22	1,26	1,31	......	......

11.—Forest—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Madras . . .	31,51	32,03	29,36	The decrease (2,15) was chiefly due to the closure of depôts, the substitution of the contract system for departmental working, the completion of the Dupati Survey in Upper Godavari towards the end of the previous year, the abandonment of stone lining of reserve boundaries in the Southern Circle, and to the curtailment of artificial planting and the abandonment of plantations.	The decrease (2,67) was due to the gradual substitution of the contract system for departmental operations, the non-completion of certain roads and buildings in the Central and Western Circles, the abandonment of stone walling in some reserves, and to the postponement of the demarcation of forests and enclosures in North Coimbatore.
Bombay . . .	26,92	26,40	25,90	The decrease (1,02) was the result of smaller expenditure on grass operations in connection with the scarcity.	The saving (50) was mainly due to smaller expenditure on roads and buildings, and on the demarcation and extension of forests.
Total in Rupees .	1,72,07	1,83,00	1,75,44		
Equivalent in Sterling	£ 1,147,1	£ 1,220,0	£ 1,169,6		
England . . .	5,5	4,6	4,9	....	The demands were greater than was indicated in the forecasts received from India.
Total including England.	1,152,6	1,224,6	1,174,5		

138. As compared with the actuals of the previous year there was an increase of 3,37, which was mainly the net result of increases in the United Provinces (2,67), the Punjab (1,20), Burma (1,18) and Assam (1,01), and of decreases in Madras (2,15) and Bombay (1,02).

As compared with the Budget the figures show a saving of 7,56, which was mainly contributed by Madras (2,67), India (2,22), Burma (1,84) and the Punjab (1,06).

12.—Registration.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.

139. There was an increase of 1,34 as compared with the actuals of the previous year, which occurred mainly in Bengal (75), Madras (23), and Bihar and Orissa (14). The excess of 41 over the Budget was chiefly in Madras (23) and Bengal (10).

13.—Interest on Ordinary Debt.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India— Gross . . .	4,98,02	5,15,00	5,13,19	The increase (15,17) was due to heavier interest charges on current loans (16,89). This was, however, partly counterbalanced by smaller discount paid on the new loan raised during the year (1,24) and by a saving (48) in consequence of the repayment of the annual instalment of 12 lakhs to the Gwalior Durbar.	The decrease (1,81) was chiefly the net result of a saving of about 8 lakhs under discount and of an excess of about 6 lakhs in normal interest charges.

Net . .	—1,99,49	—2,37,73	—2,37,23		
Central Provinces	1,28	1,26	1,38	The increase was due to the grant of loans on account of scarcity in some of the districts.	As under Actuals.
Burma . . .	88	99	88	...	The decrease was due to smaller loans and advances than anticipated.
Assam . . .	26	23	34	The increase was due to the issue of a large amount of agricultural loans owing to the failure of crops in the Lushai Hills and in the Surma Valley.	As under Actuals.
Bengal . .	4,43	4,33	4,40	...	The increase was mainly due to larger issues than anticipated of agricultural loans on account of floods.
Bihar and Orissa	1,14	1,08	1,02	...	...
United Provinces of Agra and Oudh.	9,80	9,26	11,31	The increase was mainly due to larger advances and smaller repayments of loans by agriculturists.	As under Actuals.
Punjab . . .	1,94	1,91	1,74	The decrease was principally attributable to the unpaid portion of the loan to the Dera Ghazi Khan Municipality having been written off and to the transfer to the books of the Comptroller, India Treasuries, of the outstanding balances of the loans to the Delhi Municipality and Mirza Suriya Jah. Smaller advances to cultivators in 1913-14 also contributed to the decrease.	The decrease was due partly to a falling off in loans and advances to municipalities and cultivators and partly to larger recoveries of advances made to cultivators.
Madras . . .	3,17	3,26	3,22	...	...

140. In the Indian section of the accounts there was a reduction of 35,10 as compared with the previous year's actuals and an increase of 2,78 over the Budget. The former was the net result of an increase of 15,17 in the gross interest charges due to larger payments on current loans and of an increase of 50,33 in the amount transferred to Railway and Irrigation. The variation from the Budget resulted from smaller amounts transferred to Railway and Irrigation (4,53), partly counterbalanced by less gross outlay on account of interest on current loans (1,81).

In the English section of the accounts the average rate for 1913-14 was 3·2773 as compared with 3·4873 taken in the Budget. This fact, coupled with the variations in the amounts of capital at charge in England under Railways and Irrigation, was responsible for the transfer of smaller amounts to the Railway and Irrigation sections of the accounts. The net result was consequently an increase as compared with the Budget.

An Imperial excess of 50 requires the sanction of the Government of India.

144. The decrease of 2,02 over the actuals of the previous year was due to smaller coinage of rupees. The increase of 3,98 over the Budget was the result of new rupee coinage which was not provided for in the Budget.

An excess of 64 requires the sanction of the Government of India.

18.—General Administration.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
India . . .	65,26	64,16	67,36	The increase (2,10) occurred almost wholly in the Civil Accounts and Currency Departments, and was due to the adjustment under this head of the charges of the Audit Officer, Delhi, the grant of local allowances to the Currency Office establishments from 1st April 1910, and to the appointment of the Controller of Currency from 1st January 1914.	The excess (3,20) occurred mainly under the Civil Secretariat (1,32), the Military Secretariat (50), and the Currency Department (1,09). The increase in the Civil Secretariat was due to the appointment of officers on special duty, the creation of a new appointment of Political Secretary in the Foreign Department, and to the drawal of larger acting allowances in leave vacancies. The increase under the Military Secretariat was due to an increase in the pay of the Deputy and Assistant Secretaries. The excess in the Currency Department was due to the causes mentioned under Actuals.
Central Provinces .	10,55	11,18	11,2[illegible]	The principal cause of the increase was the raising of the pay of Commissioners.	
Burma . . .	20,88	21,31	20,95	......	The decrease (36) was chiefly due to savings under 'Staff and Household of the Lieutenant-Governor' (23).
Assam . . .	7[illegible]	6,94	7,23	The decrease was the net result of small variations under several minor h[illegible]ads.	
Bengal . . .	30,14	27,61	29,04	The decrease (1,10) was mainly due to the fact that the actuals for 1912-13 included special expenditure of 1,16 under Staff and Household.	The increase (1,43) was chiefly due to (*i*) the creation of a fourth secretary to Government and increase of establishment in the Secretariat, partly set-off by savings effected in the Board of Revenue by the abolition of the second Secretary and reduction of establishment (46), (*ii*) the payment of leave allowances of officers (40), (*iii*) larger expenditure in the Legislative Council (32), and (*iv*) increased charges under 'Contract Allowance' (26).
Bihar and Orissa .	14,55	16,20	16,11	The increase (1,56) was chiefly due to larger expenditure under 'Executive Council' (1,10), and 'Board of Revenue' (36), owing to the charges having appeared in the accounts for 12 months instead of for a portion of the year only as in 1912-13. There was also an increase under 'Contract Allowance' (35). On the other hand, there were savings under 'Civil Secretariat' (34) due to smaller expenditure on contingencies.	There was a saving of 50 under 'Saloon charges,' which was, however, almost counterbalanced by an excess of 45 under 'Contract Allowance.'

18.—General Administration—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
United Provinces of Agra and Oudh.	21,15	20,92	21,43	......	The increase was chiefly due to the deputation of officers on special duty in the Secretariat (28), and larger expenditure under 'Staff and Household' and 'Contract Allowance' (20).
Punjab	17,21	16,34	16,88	The decrease was mainly due to the inclusion in the actuals for 1912-13 of special expenditure of 71 in connection with the Royal visit.	The increase was chiefly due to the deputation of officers on special duty in the Secretariat (43), and larger expenditure from the Lieutenant-Governor's contract allowance (35). There were minor savings under other heads.
North-West Frontier Province.	3,64	3,47	3,12	The accounts for 1912-13 included special expenditure of 46 for a saloon carriage.	The saving (35) was due to the non-utilization of the provision for the revision of the Secretariat establishment (10), and other minor causes.
Madras	18,34	18,32	19,09	The bulk of the increase (48) occurred under 'Civil offices of account and audit (Imperial)' and was due partly to higher rates of salary drawn by officers and partly to the discontinuance of the adjustment of 1½ per cent. charges for the Public Works Accounts establishments.	The increase was due partly to the causes mentioned under Actuals and partly to increased expenditure from the contract allowance.
Bombay	25,17	25,89	26,50	The increase (1,33) included 60 on the purchase and repair of furniture for the residences of His Excellency the Governor, 26 in connection with the contract allowance, 17 on the revision of the Secretariat staff, 16 on the purchase of furniture by the Commissioner in Sind and 16 owing to the drawal of arrears of salary by a member of the Executive Council.	The increase (61) was mainly due to the purchase of furniture for the Government Houses and to larger expenditure from the contract allowance.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	4,30	5,15	5,11	The increase (81) was chiefly due to the inclusion of the figures relating to the Delhi Province for 12 months as against only 6 months in 1912-13.	...
Central Provinces	25,78	26,24	27,87	The increase (2,09) was chiefly due to the amalgamation and regrading of the Central Provinces and Berar Commissions with retrospective effect (47), the appointment of a Legal Remembrancer (40), and of an Additional Judicial Commissioner (27), and to the revision of the scale of process-serving and sub-divisional establishments (29).	The increase (1,63) occurred partly under 'Criminal Courts' (92), owing to the amalgamation and regrading of the Central Provinces and Berar Commissions, heavy expenditure on travelling expenses of witnesses, and the payment of larger leave and acting allowances to establishments, and partly under 'Law Officers' (56), due to the appointment of a Legal Remembrancer and to larger payments of fees to pleaders.
Burma	48,24	49,36	48,82	The increase was chiefly due to larger expenditure incurred for the Additional Judicial Commissioner and his establishment (31), and to greater outlay on Township Judges (29).	The decrease was mainly due to savings under 'Criminal Courts', owing to the absence of a larger number of officers on long leave and deputation, and to smaller expenditure on fluctuating charges.
Assam	9,09	9,38	9,34	...	...
Bengal	96,40	96,10	1,00,38	The heads which chiefly contributed to the increase are 'Civil and Sessions Courts' (2,30), and 'Criminal Courts' (78). The increase under the former head was mainly due to the revision of the Sub-Judicial service, the creation of an additional appointment of District and Sessions Judge, and to larger payments of grain compensation allowance. Under 'Criminal Courts' the increase was the result of the appointment of additional Sub-Deputy Collectors as Circle Officers and of larger expenditure on travelling allowances and contingencies in District Offices.	The increase (4,28) occurred chiefly under 'Law Officers' (2,77), and 'Civil and Sessions Courts' (1,06). The excess under the former head was mainly due to heavy payments of counsels' and pleaders' fees in connection with conspiracy cases, while that under the latter resulted mainly from the payment of grain compensation allowance (for which provision was made under '32.—Miscellaneous'), and from the creation of an additional appointment of District and Sessions Judge.
Bihar and Orissa	31,23	32,58	32,98	The increase (1,75) was chiefly due to the appointment of temporary District and Sub-Judges, a Deputy Legal Remembrancer, and an officer on special duty in connection with the establishment of a High Court at Bankipur, and to larger outlay on 'establishment' (38), 'contingencies' (31), 'grain compensation allowance' (26), and on 'fees to pleaders' (23).	The excess was chiefly due to the payment of grain compensation allowance (26) and to larger expenditure on temporary judicial officers entertained during the year (26).

19A.—Law and Justice—Courts of Law.—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
United Provinces of Agra and Oudh.	61,62	62,98	63,91	The increase (2,29) was chiefly due to higher outlay on 'Civil and Sessions Courts' (1,09) caused by the gradual introduction of the Greeven Judicial Scheme, and on 'Criminal Courts' (1,17), owing to the payment of minimum salaries to certain members of the Indian Civil Service and to the introduction of the scheme for the improvement of the cadre of Deputy Collectors.	The increase (93) was chiefly due to larger outlay on fees to pleaders and barristers (28), on diet to witnesses and complainants (22), on travelling allowances and contingencies (23), and on refunds (12).
Punjab	42,18	41,86	42,55	......	The increase (69) occurred mainly under 'Criminal Courts' (69) and 'Law Officers' (40). The excess under the former head was chiefly due to the revision of the Extra Assistant Commissioners' cadre, while that under the latter was caused by land acquisition and criminal cases.
North-West Frontier Province.	6,16	6,33	6,20	......	......
Madras	66,61	65,94	69,68	The increase (3,07) mainly occurred under 'Civil and Sessions Courts' (1,98) and 'Criminal Courts' (1,03). The increase under the former head was due mainly to the establishment of a large number of temporary sub-courts, increased clerical establishments of District Munsifs' courts, and larger expenditure on diet and road money. The increase under 'Criminal Courts' represented larger charges transferred from '3.—Land Revenue—Charges of District Administration'.	The increase (3,74) chiefly occurred under 'Civil and Sessions Courts' (2,62) and 'Criminal Courts' (52). The excess under the former head was due to the payment of absentee and acting allowances, the establishment of temporary courts and increased expenditure on grain compensation allowance, while that under the latter was due to the cause mentioned under Actuals.
Bombay	56,69	58,72	56,36	The decrease was chiefly due to smaller expenditure on grain compensation allowance and to the abolition of the appointments of conciliators.	The bulk of the decrease *viz.*, 200, was the result of a change in the method of apportionment of charges between this head and '3—Land Revenue'.

146. As compared with the previous year there was an increase of 14,90, which chiefly occurred in Bengal (3,98), Madras (3,07), the United Provinces (2,29), the Central Provinces (2,09), and Bihar and Orissa (1,75).

There was an excess of 8,56 over the Budget, which was chiefly contributed by Bengal (4,28), Madras (3,74), and the Central Provinces (1,63), while there was a decrease in Bombay (2,36).

19B.—Law and Justice—Jails.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India . . .	16,93	17,63	17,66	The increase (73) was chiefly due to the inclusion of the Delhi charges for 12 months as against six months in the previous year (41) and to heavier expenditure incurred on the convict settlement at Port Blair (23).	The decrease represented smaller charges incurred on the convict settlement at Port Blair chiefly on account of vacancies in several establishments.
Central Provinces .	5,61	6,00	6,80	The increase (1,19) was mainly due to extensive purchases of raw materials for meeting the demands of the Supply and Transport Department for articles of jail manufacture (49), high prices of rations owing to unfavourable agricultural conditions (28), the revision of establishments (18), and to an increase in the jail population (14).	As under Actuals.
Burma . .	15,66	15,18	18,33	The increase (2,67) was mainly due to larger purchases of rice for consumption during 1914-15.	As under Actuals.
Assam . . .	2,49	3,03	2,72	The increase was partly due to an increase in the jail population and partly to the expansion of jail industries.	The decrease was due to a lump provision for the revision of establishment not being utilized, smaller outlay on dietary charges of prisoners and to a partial lapse of the additional provision made in the Budget in view of the expansion of jail industries following the increase of jail population.
Bengal . . .	19,[illegible]	20,79	22,68	The increase (3,01) was caused by larger dietary expenses (2,39), owing to high prices and by larger purchases of raw materials (62).	The increase (1,84) included a rise in dietary expenses (2,40) and a fall in the purchase of raw materials (55).
Bihar and Orissa .	11,80	12,68	14,54	The increase (2,74) mainly occurred under 'Jail Manufacture' (1,88) and was due to larger outlay on raw materials (1,51) and Europe stores (37) to meet the demand of the Military Department for blankets. There was also an increase under 'Jails' (87), mainly due to higher outlay on dietary charges (71) owing to a rise in prices.	The increase (1,86) was mainly due to larger expenditure on raw materials (1,64) and Europe stores (70). It was, however, partly counterbalanced by savings under 'Jails' (31) arising chiefly from smaller expenditure on the movement of prisoners, and on clothing, sanitation and hospital charges.
United Provinces of Agra and Oudh.	18,24	19,52	20,60	The increase (2,36) was chiefly due to a larger grant to the Salvation Army in connection with the reformation of criminal tribes (1,16), and larger outlay on dietary charges (60) and on the purchase of raw materials and quinine (24).	As under Actuals.
Punjab . . .	13,15	12,03	14,27	The increase (1,12) occurred under 'Jails' (43) and 'Jail Manufacture' (69). The former was due mainly to an increase in the jail population and to the opening of the Dharmsala Jail, while the latter was the result of a greater demand for jail-made articles by public offices.	As under Actuals. Higher prices than anticipated also contributed to the excess (2,24).
North-West Frontier Province.	1,52	1,61	2,10	The increase mainly occurred under 'Jails' (51) and was due partly to the high price of grain and partly to an increase in the jail population.	As under Actuals.

19B.—Law and Justice—Jails—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Madras	13,90	14,10	14,99	The increase (1,09) was due chiefly to the purchase of larger quantities of raw material for manufacturing purposes, the introduction of rice diet in the case of rice-eating prisoners, the issue of free clothing to released prisoners, and to the purchase of a baling press for the Cannanore jail.	As under Actuals.
Bombay	12,01	11,50	12,77	Of the total increase, 32 was due to a change in procedure under which payments to contractors for rations are now made in the month in which the supplies are received, instead of in the following month. The result was that there were thirteen payments in 1913-14 against twelve in 1912-13. The balance (41) was due partly to an increase in the number of prisoners and partly to a larger outturn of jail-made articles for Government Departments, especially the Police.	The increase (1,27) was chiefly due to a rise in jail population (40), increased payments for rations (36), heavy payments for the transfer charges of prisoners (23), and to the change in the procedure for payments to contractors referred to under Actuals.

147. As compared with the previous year there was an increase of 16,48, which occurred chiefly in Bengal (3,01), Bihar and Orissa (2,74), Burma (2,67), and the United Provinces (2,36).

There was an excess of 13,14 over the Budget, which was contributed by all the provinces except Assam and India. The more important of the increases occurred in Burma (3,15), the Punjab (2,24), Bihar and Orissa (1,86), and Bengal (1,84).

An Imperial excess of 2 requires the sanction of the Government of India.

20.—Police.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	14,88	20,16	19,41	The increase (4,53) was chiefly due to the inclusion of the figures for the Delhi Province for 12 months as against only 6 months in 1912-13 (2,33), larger expenditure (1,02) in the Criminal Investigation Department in connection with certain special enquiries, and to the revision of the Police Force in Baluchistan (98).	The decrease was chiefly due to the transfer of a portion of the provision for the revision of the Police Force in Baluchistan to other heads.
Central Provinces	33,31	33,43	34,11	The increase was chiefly due to the filling up of vacancies in the Police Force, fewer absences on leave, and to larger outlay on clothing, arms, and ammunition.	The increase was chiefly due to larger expenditure under 'District Executive Force' mainly on account of the absence on leave of fewer senior officers and to greater outlay on supplies and services and contingencies (48).
Burma	1,29,24	1,30,23	1,31,18	The increase (1,94) was mainly due to larger expenditure under 'District Executive Force' (2,97) and 'Rangoon City Police' (54). On the other hand, there was a decrease under 'Special Police' (1,60). The increase under 'District Executive Force' chiefly represented larger expenditure on 'Supplies and Services' (90), 'Allowances' (74) and 'Punitive Police' (73). The increase under 'Rangoon City Police' was chiefly caused by the entertainment of an additional Police Force. The decrease under 'Special Police' resulted mainly from smaller outlay on the purchase and carriage of supplies.	The increase (95) was chiefly due to larger outlay on 'Supplies and Services' (1,35), and to an over-estimate on account of probable savings under 'District Executive Force' (1,00). On the other hand, there was a decrease (1,49) owing to smaller outlay on the purchase and carriage of supplies.
Assam	22,11	23,86	23,88	The rise (1,77) was chiefly due to an increase of the Police Force.	...
Bengal	84,00	95,82	94,71	The increase (10,71) was chiefly due to the introduction of reforms, both in the Calcutta and the District Police Forces. There was also larger expenditure on grain compensation allowance (1,31) and on the reorganization of the Subordinate and River Police in the Eastern Bengal districts (72).	The main causes which were responsible for the net saving of 1,11 were (a) the non-utilization in full of the lump provision of 4,50 for the reorganization of the River Police (2,15) and of the provision of 2,92 for the reorganization of the Subordinate Police in Eastern Bengal (1,42), and (b) savings in the Calcutta Police owing to the non-entertainment of the full complement of the force (70) and the lapse of the lump provision for a Training School (80). On the other hand, there were excesses on account of the payment of grain compensation allowance, the provision for which was made under '32.—Miscellaneous' (2,06), and of increased allowances, etc., in the Criminal Investigation Department (95).

20.—Police—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Bihar and Orissa	41,31	46,48	45,77	The increase (4,46) included higher expenditure on additions to the Police Force (1,28), Police buildings (1,24), grain compensation allowance (70), Railway Police charges (60), and contingencies and travelling and other allowances (62).	The decrease was chiefly due to savings in the lump provision (1,01) for Police reforms and to smaller expenditure on Police buildings (65). These were, however, partly absorbed by the payment of grain compensation allowance (70) and by an increase in the Police Force (30).
United Provinces of Agra and Oudh.	1,08,85	1,24,10	1,11,39	The increase (2,54) was chiefly due to larger expenditure on 'Supplies and Services' under 'District Executive Force' (1,00), on the pay of the District Police (80), on grain compensation allowance (40), and on the Railway Police (36).	The savings were chiefly due to the non-utilization of the lump provision for the provincialization of the Village Police charges in Oudh, etc. (11,02), a partial utilization only of the grant to towns for Police charges (1,74), and to the transfer of the lump provision for the reformation of criminal tribes to the head '19 B—Law and Justice—Jails' (1,15). On the other hand, there was larger expenditure on the carriage of Police escorts including the cost of railway warrants (50), on the travelling allowance of the District Executive Force (58), and on grain compensation allowance (40).
Punjab	58,54	60,18	58,93	The increase was due to the expansion of the District and Railway Police Forces.	The saving resulted from the non-utilization of the provision for the replacement of town watchmen by regular Police.
North-West Frontier Province.	15,76	17,43	17,06	The increase (1,30) was chiefly due to the reorganization of the Border Military Police.	The bulk of the decrease represented savings in the provision for the reorganization of the Border Military Police.
Madras	88,16	87,46	92,48	The increase (4,32) occurred chiefly under 'District Executive Force' (2,36), and 'Miscellaneous' (1,65) The former was caused by larger expenditure on the pay, allowances, and supplies and services of the Police Force (2,33), while the latter represented increased outlay on the establishment of criminal settlements in the Presidency.	As under Actuals.
Bombay	1,02,33	1,01,56	1,00,58	The decrease (1,75) was due to smaller expenditure on grain compensation allowance (3,42). There was, however, larger outlay on the introduction of Police reforms (2,20).	The saving (98) was chiefly due to the partial non-utilization of the lump provision of 2,50 for Police reforms (1,00), smaller outlay on the Presidency Police (70) owing to the non-entertainment of the full sanctioned strength and to the fact that the adjustment on account of alienated lands was less (53). On the other hand, there was a lump deduction of 1,50 in the Budget for probable savings.

148. As compared with the actuals of the previous year there was an increase of 31,01, which was shared by all the provinces, except Bombay, where there was a decrease (1,75). The more important of the increases occurred in Bengal (10,71), India (4,53), Bihar and Orissa (4,46), and Madras (4,32).

As compared with the Budget there was a saving of 11,21. The United Provinces and Bengal showed savings of 12,71 and 1,11 respectively, while there was an excess in Madras (5,02).

21.—Ports and Pilotage.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST — Actuals, 1912-13.	Budget, 1913-14.
Burma	13,29	12,49	13,49	The increase (20) was chiefly due to larger purchases of marine stores, greater outlay on Lighthouses and Lightships and increased expenditure under 'Salaries and Allowances, etc.' On the other hand, there was a decrease under 'purchase and hire of ships.'	The increase (1,00) resulted mainly from larger purchases of stores and coal.
Assam	63	52	61	...	The increase was due to larger expenditure incurred in repairing the Local Administration's steamer and yacht.
Bengal	12,16	13,74	14,28	The net charges of the Agent, Government Consignments (*i.e.*, the expenditure *minus* the recoveries) were 1, 3 in 1912-13 and—10 in 1913-14. Excluding these, the actuals advanced from 13,19 in 1912-13 to 14,38 in 1913-14, owing chiefly to an adjustment in the accounts of 1913-14 in connection with the grant of 1,50 to the Chittagong Port: a similar grant in 1912-13 was adjusted under '45—Civil Works (Civil).' This increase was partly set off by a reduction in Pilotage Allowances.	The increase (54) was chiefly due to the adjustment under this head of the grant of 1,50 to the Chittagong Port, provision for which was made under '45—Civil Works.' Pilotage Allowances were less by 72 and expenditure on marine stores was less by 30.
Bihar and Orissa	1	1	1	...	...
Madras	41	24	46	...	The increase (22) was chiefly due to shipping charges incurred on paper bales imported from Calcutta.
Bombay	65	2,83	1,81	The increase (1,16) was chiefly due to expenditure incurred in connection with a new lighthouse at Cape Monze off the Sind coast (1,03).	The Budget provided 2,15 for a new light-house at Cape Monze. Out of this provision, 65 were transferred for expenditure in the Public Works Department and the expenditure in the Civil Department amounted to 1,03 only.

149. As compared with the actuals of the previous year there was an increase of 3,51 which occurred chiefly in Bengal (2,12) and Bombay (1,16)

There was an excess of 83 over the Budget which occurred mainly in Burma (1,00), Bengal (54) and Madras (22), while there was a decrease in Bombay (1,02)

22.—Education.

Province.	Accounts, 1912-13.	Budget, 1913-14	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	9,64	16,51	11,65	The increase was due chiefly to a special grant of 2 lakhs to the Indian Institute of Science at Bangalore for the completion of the library building and the residential quarters for the staff.	The Budget included 7,45 as a reserve provision Of this 3,31 were transferred to the Provincial Governments and the Military Estimates and 1,09 were transferred to other heads.
Central Provinces	21,17	33,96	22,02	The increase was chiefly due to the entertainment of new teachers, to larger expenditure on school furniture and apparatus, and to payments in support of Municipal and Local Schools.	The decrease (11,94) was due to the non-utilization of the special grants for the development of Government schools.
Burma	23,45	40,03	29,24	The increase (5,79) was chiefly due to larger expenditure incurred out of the special grants given by the Government of India (5,45) for education.	The decrease 10,79) was chiefly due to the non-utilization under this head of the provision made from the special grants for education (10,23).
Assam	9,73	18,05	12,16	The increase (2,43) was chiefly due to an addition to the Inspecting staff, the provincialization of certain schools, an addition to the number of teachers in existing schools and to larger grants to Local Bodies and private institutions.	The decrease (5,89) was chiefly due to the expenditure under this head of a small portion only of the lump provision of 6,60 for education.
Bengal	73,77	1,34,88	81,12	The increase (7,35) was chiefly due to larger outlay on education out of the Imperial assignments. The actuals for 1912-13 included 4,11 on account of equilibrium grants to District Boards, which ceased from 1913-14 on the surrender of the Public Works cess to those bodies.	The decrease (53,76) was mainly due to the non-utilization in full of the lump provision of 73,88 out of Imperial assignments for education (44,17), and of the provision of 4,11 on account of equilibrium grants to District Boards owing to the surrender of the Public Works cess to those bodies. There were also savings under 'Grants in-aid' (2,65) and under 'Schools—Special' (1,85).
Bihar and Orissa	27,48	48,71	38,35	The increase (10,87) was chiefly due to larger grants to Local Bodies for the improvement of schools (7,77), the regrading of the Provincial and Subordinate Educational Services (1,05), the purchase of apparatus, instruments, etc, for Government colleges (75), and to the expenditure incurred in connection with the establishment of a university at Patna (52).	The saving 10,36) was mainly due to the non-utilization of 5,81, and the transfer of 4,55 to other heads, out of the lump sums aggregating 20,39 provided for education.
United Provinces of Agra and Oudh.	56,04	76,75	78,58	The increase (21,94) was chiefly due to larger grants to District and Municipal Boards (19,72).	The increase (1,83) was due to larger contributions to District Boards for educational purposes.
Punjab	34,47	44,83	44,69	The increase (10,22) was chiefly due to larger grants to Local Bodies and private institutions for education.	...
North-West Frontier Province.	6,71	3,51	4,88	Grants to Local Bodies and other private institutions for education were larger in 1912-13.	The increase (1,37) was chiefly due to the grant of 1,15 to the Islamia College, Peshawar.

22.—Education—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Madras	65,53	97,63	79,51	The increase (13,98) chiefly occurred under 'Government Schools' (8,71) and 'Grants-in-aid' (7,12). The increase under the former head was mostly due to larger payments in support of Local Board and Municipal schools, while that under the latter represented enhanced grants-in-aid for elementary education and for the purchase of furniture and apparatus. On the other hand, there was a decrease under 'University' (3,10), which was accounted for by the fact that larger grants were made in 1912-13 to the University for a library and for the establishment of a temporary Professorship in Indian Economics.	The decrease (18,12) was chiefly due to the transfer of 11,99 out of the lump provision of 28,00 for education to the head '45—Civil Works' and to savings under 'Government Schools' (4,84), 'Grants-in-aid' (1,17) and 'Inspection' (51).
Bombay	61,35	95,25	72,76	The increase (11,41) was chiefly due to expenditure out of Imperial assignments on education (5 51), and larger payments in support of local schools for the extension of primary education, and on account of building grants to the Victoria Jubilee Technical Institute (5,00).	The decrease (22,49) was chiefly due to the non-utilization in full of the special Imperial grants (23,36). 5,21 were transferred to the Public Works Department and 2,00 to the Medical Department, while 16,15 remained unspent. On the other hand, there were larger grants for technical education (67) and for European and Anglo-Indian schools (20).

150. As compared with the actuals of the previous year there was an increase of 85,02, which occurred in almost all the provinces and was due to expenditure from the special assignments given by the Government of India for education. The more important of the increases occurred in the United Provinces (21,94), Madras (13,98), Bombay (11,41), Bihar and Orissa (10,87), the Punjab (10,22), Bengal (7,35) and Burma (5,79).

As compared with the Budget there was a large saving of 1,35,15, which was principally due to smaller expenditure from the special Imperial assignments than was provided for. The principal savings were in Bengal (53,76), Bombay (22,49), Madras (18,12), and the Central Provinces (11,94).

23.—Ecclesiastical.

151. The variations mainly occurred under Salaries and Allowances of Chaplains. The Imperial excess of 6 requires the sanction of the Government of India.

24.—Medical.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	21,35	19,37	17,27	The actuals for 1912-13 included a grant of 4 lakhs for sanitary reforms in Bangalore.	The Budget included a reserve provision aggregating 3,00, of which 2,84 were transferred to the United Provinces and the Punjab. On the other hand, there was a payment of 1,00 to the Indore Medical School.
Central Provinces	10,71	21,78	11,67	The increase was mainly due to larger grants to hospitals and dispensaries chiefly for building purposes.	The decrease (10,11) was chiefly due to the non-utilization of 8,95 out of 11,50 provided for sanitation grants to Local Bodies. The lump allotment of 50 provided for grants to Local Bodies for plague expenditure also lapsed.
Burma	21,91	29,75	20,70	The decrease (1,21) was due to smaller expenditure in connection with plague.	The decrease (9,05) was chiefly due to the partial non-utilization of the special grants for sanitation (6,50) and medical relief (60), and to smaller expenditure in connection with plague (70).
Assam	6,21	8,88	6,56	The increase was made up of small items.	The decrease (2,32) was chiefly due to the non-utilization under this head of the greater part of the lump grant for sanitary improvements.
Bengal	26,42	41,01	28,51	The increase (2,09) mainly represented larger expenditure from the special Imperial grants.	The decrease (12,50) was chiefly due to the partial non-utilization of the lump grants for sanitary and other purposes (13,07), and to the lapse of the lump provision for the purchase of quinine and contribution towards the pay of Health Officers, etc., (2,18). On the other hand, there were larger grants for the improvement of hospitals (2,21).
Bihar and Orissa	7,27	19,20	9,14	The increase (1,87) was chiefly due to larger grants for the building and equipment of hospitals (1,34).	The saving (10,06) was chiefly due to the transfer of the greater portion of the lump provision of 10,44 for sanitation.
United Provinces of Agra and Oudh.	28,98	41,23	37,54	The increase (8,56) was mainly due to larger outlay on sanitation (4,41), special expenditure on medical relief (69), larger grants to District Boards, etc., for medical purposes (95), expenditure on the newly opened Medical College Hospital, Lucknow (57), and higher outlay on plague (60) and medical establishment (54).	The decrease (3,69) was mainly due to the saving of 3,01 in the grant for sanitary improvements and to the lapse of 60 in the provision on account of charges for Municipal Health and Sanitary officers owing to the non-introduction of the scheme for paying those officers from the provincial revenues direct.
Punjab	25,82	28,68	13,72	The decrease (12,10) was chiefly due to the fact that the actuals for 1912-13 included special grant of 6,00 to the Central Research Institute as well as grants aggregating 6,73 for sanitary works.	The saving (14,96) was chiefly due to the non-utilization under this head of the lump provision of 14,33 for sanitation.
North-West Frontier Province.	4,81	3,32	2,26	The accounts for 1912-13 included 3,06 on account of grants for sanitary works. The corresponding outlay in 1913-14 amounted to 1,00 but was adjusted in the Public Works Department.	The lump provision of 1,00 on account of sanitary works was transferred to the Public Works Department.

24.—Medical—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Madras	20,52	39,14,	24,86	The increase (4,34) was due partly to a special payment of 2,19 to the Edward VII Memorial Fund for the establishment of a hospital and sanitarium for consumptives, and partly to larger contributions to Local Bodies (1,45) mainly on account of anti-malarial operations.	The saving (14,28) was due to the non-utilization of the lump provision of 16,50 made in the Budget for sanitation, etc. On the other hand, there were larger grants to Local Bodies for anti-malarial operations (1,71).
Bombay . . .	23,50	48,96	27,21	The increase (3,71) was partly due to the payment of 2,10 to the College of Physicians and Surgeons and partly to larger grants in aid of sanitary schemes (69).	The saving (21,75) was chiefly due to the non-utilization under this head of almost the whole of the lump provision of 21,50. There were also certain smaller lapses, *viz.*, 50 to the Bombay Municipality for anti-malarial measures, 40 for the equipment and staff of the Physiological Laboratory, 50 for the construction of an outpatient dispensary of the J. J. Hospital, 50 for the acquisition of land for the Civil Hospital at Ahmedabad, and 34 for the reorganization of the staff of the Grant Medical College and the J. J. Hospital, Bombay. On the other hand, there was a special payment of 2,10 to the College of Physicians and Surgeons.
Total in Rupees . .	1,97,50	3,01,32	1,99,44		
Equivalent in Sterling	£ 1,316,7	£ 2,008,8	£ 1,329,6		
England . . .	10,5	12,0	8,3		The Budget estimate provided for the payment of the grant of 5,0 for one year to the Committee for Plague Investigation in India, whereas the accounts included a payment for one quarter only.
Total including England.	1,327,2	2,020,8	1,337,9		

152. As compared with the actuals for 1912-13 there was an increase of 1,94, which was the net result of large variations in several provinces. There were increases in the United Provinces (8,56), Madras (4,34), Bombay (3,71) and Bengal (2,09), while the figures showed a decrease in the Punjab (12,10), India (4,08), and the North-West Frontier Province (2,55).

As compared with the Budget there was a large saving of 1,01,88, which was distributed over most of the provinces. The more important lapses occurred in Bombay (21,75), the Punjab (14,96), Madras (14,28), Bengal (12,50), the Central Provinces (10,11), Bihar and Orissa (10,06) and Burma (9,05).

25.—Political.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	83,34	87,47	90,29	The increase (6,95) was chiefly due to the reorganisation of the Levies in Baluchistan and of the Zhob Militia (1,66), increased payment of subsidy to the Sultan of Muskat (1,21), increased charges on the lighting and buoying of the Persian Gulf (2,15), and to additional expenditure in the Persian Consulates on account of the appointment of the Turco-Persian Frontier Commission and the creation of the Khurzistan Consulate (1,07).	The excess (2,82) resulted from an expenditure of 1,90 in the Persian Consulates due chiefly to the appointment of the Turco-Persian Frontier Commission and the creation of the Khurzistan Consulate as well as from an increased expenditure of 1,06 in connection with the lighting and buoying of the Persian Gulf.
Central Provinces	40	38	24	The decrease was mainly due to the recovery of arrears on account of a portion of the cost of a Political Agent's Office for 1912-13 and to the postponement of the installation of a Native Chief.	As under Actuals.
Burma	9,39	5,75	13,58	The increase (4,19) resulted from a larger outlay on 'Special Political Expenditure' (4,32) owing to the operations on the North-East Frontier in connection with the formation of the new Putao district and the occupation of Hpimaw.	As under Actuals.
Assam	6,92	12,32	16,16	The increase (9,24) was due to larger special expenditure in the North-East Frontier, including charges on the newly established Political Agencies.	The excess (3,84) was due to larger outlay in connection with the Abor and Mishmi Survey work and to special expenditure on the Aka and Walong promenades (1,95).
Bengal	44	37	38	The decrease was due to the absence of special expenditure as in 1912-13 on account of Durbar presents.	...
Bihar and Orissa	52	53	65	As under Budget.	The excess was due to larger expenditure incurred in connection with Durbars held at Bankipur, Cuttack and Ranchi.
United Provinces of Agra and Oudh.	1,07*	1,14	1,07	...	...
Punjab	6,53	6,85	6,93	The increase was mainly due to the creation of the Bahawalpur Agency.	...
North-West Frontier Province.	31,47	32,49	31,59	The increase was chiefly due to the reorganization of the Waziristan Militia.	...
Madras	1,12	1,09	1,92	The increase (80) was due mainly to the expenditure incurred in connection with the Mysore-Cauvery Project Arbitration Committee (46) and His Excellency the Viceroy's visit (38).	As under Actuals.
Bombay	8,51	10,04	8,80	The increase was chiefly caused by the partial reorganization of the Bombay Political Department (32).	The saving (1,24) was due to the lapse of a portion of the provision for the reorganization of the Bombay Political Department (65) and to recoveries of arrear contributions on account of Foreign Service establishments in Káthiáwár (38.)
Total in Rupees.	1,49,71	1,58,43	1,71,61		
Equivalent in Sterling	£ 998,1	£ 1,056,2	£ 1,144,0		
England	7,8	22,8	15,2	...	The accounts include payments in connection with Tibetan students and other unforeseen expenditure (4,6). There was a decrease (12,2) under stores for India which was due to the carry forward to 1914-15 of payments for stores required for the lighting and buoying of the Persian Gulf, the Indian moiety of which is included under this head.
Total including England.	1,005,9	1,079,0	1,159,2

153. There was an increase of 21,90 as compared with the actuals of the previous year, which was contributed mainly by Assam (9,24), India (6,95) and Burma (4,19).

There was an excess of 13,18 over the Budget, which occurred in Burma (7,83), Assam (3,84) and India (2,82).

An Imperial excess of 24 requires the sanction of the Government of India.

26.—Scientific and other Minor Departments.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNTANT GENERAL'S REVIEW OF ACTUALS AGAINST — Actuals, 1912-13.	LOCAL ACCOUNTANT GENERAL'S REVIEW OF ACTUALS AGAINST — Budget, 1913-14.
India . . .	52,25	59,10	53,45	The increase was due chiefly to certain improvements effected in the Agricultural Institute, at Pusa and to the purchase of certain X Ray apparatus for Delhi and Simla.	The saving (5,65) was mainly due to smaller gross charges of the Survey Parties (1,66), to recoveries aggregating 1,23 from certain Native States on account of the cost of survey operations within their jurisdiction, to the lapse of a portion of the provision for Bacteriology (1,07), and to the transfer of grants to other provinces and departments (1,76).
Central Provinces .	7,45	7,54	8,18	The increase was due to a special payment (73) to the District Councils for Veterinary buildings.	As under Actuals.
Burma . . .	5,63	7,38	6,16	The increase (53) was mainly due to larger outlay on Agriculture.	The decrease was mainly due to the transfer of 92 to the head '45 - Civil Works' for expenditure on scientific works, and to the non-utilization of 14 out of the special Imperial grant.
Assam . . .	1,90	3,77	3,08	The increase (1,18) was mainly due to an addition to the Veterinary staff, the expansion of experimental cultivation and agricultural demonstrations, the grant of a special donation to the Indian Tea Association, an increase of subsidies to Railway and Steamer Companies for preparing traffic statistics, the appointment of a special officer to make a survey of the silk industry, experiments in trout culture in the streams of the Khasi Hills, and to the transfer of Inland Labour Transport Dispensary charges from Medical to this head.	The decrease (69) was mainly due to the non-utilization of certain lump provisions made in the Budget.
Bengal . . .	17,30	17,46	14,54	The decrease (2,76) was due to a smaller purchase of quinine.	The decrease (2,92) was chiefly due to the partial non-utilization of the provision for agriculture and allied objects (1,11), the lapse of grants for sericultural experiments and other purposes (82), the partial utilization only of the lump grant for a launch for the Fishery department (41), and to petty lapses of grants for botanical gardens, statistical memoirs, etc. (47).
Bihar and Orissa	8,65	5,31	4,88	The increase (1,23) was mainly due to the opening of an agricultural farm (53) and to improvements to other farms (28).	The saving (43) was mainly due to the non-utilization of 30 provided for the opening of an Agricultural station at Ranchi, and of 19 for the Agricultural College at Sabour and for seeds and implements.
United Provinces of Agra and Oudh.	12,64	13,81	13,03	Excluding from the actuals of 1912-13 the initial expenditure on the Agra City Park (1,08), the special payment of 30 to a sugar factory in Pilibhit and higher Census charges (17), the actuals for the year under report show an increase of 1,94. This was chiefly due to the initial expenditure on the construction of the Muttra and Kheri cattle farms (2[illegible]) and the Zenana Park, Lucknow (15) and to larger outlay on experimental farms (65), agricultural experiments (37), and on the Taj and other gardens (40).	The saving (78) was chiefly due to the transfer of certain grants to the Public Works Department for the construction of Veterinary buildings (37), and to smaller outlay on the purchase of serum and on the Muttra and Kheri bull farms (25).

26.—Scientific and other Minor Departments—contd.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST Actuals, 1912-13.	Budget, 1913-14.
Punjab	10,72	15,11	11,02	The increase (30) was chiefly due to an addition to the number of officers of the Civil Veterinary Department, a revision of the establishment of the Veterinary College, and to larger outlay on agricultural experiments.	The saving (4,09) was chiefly due to the lapse of the greater portion of the lump provision made for agriculture.
North-West Frontier Province.	72	92	1,15	The increase (43) was chiefly due to the acquisition of land for a farm.	As under Actuals.
Madras	18,98	18,43	17,98	The decrease (1,00) was chiefly due to smaller expenditure under Cinchona Plantations (2,30), the actuals for the previous year having included special outlay in connection with the formation of a quinine reserve. On the other hand, there was increased outlay (1,20) owing to the opening of an agricultural station, the purchase of instruments and apparatus, indigo experiments, and the opening of a second sugar-cane crushing station.	The saving was due to the surrender of a portion of the grant under Cinchona Plantations.
Bombay	10,79	13,81	12,55	The increase (1,76) was chiefly due to the expansion of the Agricultural Department.	The decrease (1,26) was chiefly due to savings in the provision for certain seed farms (1,02) and in the grant for agricultural and allied objects (44).
Total in Rupees	1,42,03	1,62,64	1,46,02		
	£	£	£		
Equivalent in Sterling	946,9	1,084,3	973,4		
England	25,4	28,9	34,8	... ...	The excess was due to an increase in the payments arising out of Dr. Stein's explorations in Chinese Turkistan, and in the payments to the International Institute of Agriculture. The accounts also include 2,4 for the allowances of officers in connection with coolie emigration for which no provision was made in the Budget. The demands for stores were greater than was indicated in the forecasts received from India.

154. As compared with the actuals of the previous year there was an increase of 3,99 in the Indian section of the accounts, which occurred mainly in Bombay (1,76), Bihar and Orissa (1,23), India (1,20) and Assam (1,18). On the other hand, there were decreases in Bengal (2,76) and Madras (1,00).

As compared with the Budget there was a saving of 16,62, which occurred chiefly in India (5,65), the Punjab (4,09), Bengal (2,92), Bombay (1,26) and Burma (1.22).

An Imperial excess of 4 requires the sanction of the Government of India.

27.—Territorial and Political Pensions.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	LOCAL ACCOUNT OFFICER'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
India	1,84	2,04	1,98	The Delhi administration charges amounted to 13 in 1912-13 against 37 in the year under report.	......
Central Provinces	1,83	1,92	1,71	The decrease was due to the lapse of certain Bhonsla Family pensions.	As under Actuals.
Burma	1,60	1,58	1,49	The decrease was mainly due to casualties among the members of the ex-Royal family, the transfer of a pension to India, and to the death of a Shan Chief.	Mostly as under Actuals.
Assam	5	5	5	......	......
Bengal	7,62	[illegible]	7,93	There was a special payment of 40 to the Nawab Bahadur of Murshidabad, which was partly counterbalanced by a decrease of 15 owing to the death of a pensioner of the Mysore family.	As under Actuals.
Bihar and Orissa	53	54	41	The decrease was due to the non-drawal of his pension (12) by the Raja of Khurda in Puri.	As under Actuals.
United Provinces of Agra and Oudh.	7,5[illegible]	8,05	7,52	......	The decrease was chiefly caused by smaller payments to the members of the ex-Royal family of Oudh (29) and of wasiqa pensions ([illegible]).
Punjab	1,22	94	82	Leaving out of account 23 on account of Delhi figures included in 1912-13, the decrease is attributable to lapses consequent on deaths.	As under Actuals.
North-West Frontier Province.	62	62	67	The increase was due to the payment of arrears to a pensioner with effect from 1st June 1893.	As under Actuals.
Madras	3,28	3,55	3,54	The increase was chiefly due to the payment of 26 on account of arrears of certain Tanjore pensions sanctioned with effect from 4th May 1912.	......
Bombay	5,07	5,42	5,31	The increase was chiefly due to the payment of arrears of pension to His Highness the Aga Sultan Mahomed Shah.	The provision of 15 for stipends to the Beda and Audali Sultans under 'Yeman Stipendiaries' was not required as the protectorate treaties were not concluded in the year. There were also minor savings to the extent of 12, the claims not having been preferred; but these were absorbed by payments of arrears (17) to His Highness the Aga Sultan Mahomed Shah.

29.—Superannuation Allowances and Pensions.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India	11,39	11,88	14,06	The increase (2,67) was chiefly due to the inclusion of the charges relating to the Delhi Province for 12 months as against 6 months in 1912-13, the normal growth in the pension list and to payments of the commuted value of pensions.	The excess (2,18) was due chiefly to the growth of the pension list and to the payment of the commuted value of pensions.
Central Provinces	7,58	7,90	8,67	The increase (1,09) was due partly to the payment of the commuted value of pensions (47) and partly to the growth of the pension list.	As under Actuals.
Burma	8,56	8,93	9,27	The increase resulted mainly from larger expenditure under 'Superannuation and Retired allowances' (78) owing chiefly to the retirement of a greater number of highly paid officials.	As under Actuals.
Assam	2,43	2,3[illegible]	2,83	The increase was chiefly due to the growth of superannuation charges and to payments of the commuted value of pensions.	As under Actuals.
Bengal	29,60	30,56	31,39	The increase (1,79) was partly due to the payment of the commuted value of pensions ([illegible]7) and partly to the normal growth of the pensionary charges.	The excess was mainly caused by payments on account of the commuted value of pensions (80).
Bihar and Orissa	8,35	8,30	9,11	The increase (76) was chiefly due to larger expenditure under 'Superannuation and Retired allowances' (56) and to the payment of the commuted value of pensions (19).	As under Actuals.
United Provinces of Agra and Oudh.	32,33	32,86	34,86	The increase (2,53) was due partly to the growth of the pensionary charges and partly to the payment of the commuted value of pensions.	As under Actuals.
Punjab	19,23	19,32	21,77	The increase (2,54) was due partly to the growth of the pension list and partly to the payment of the commuted value of pensions.	As under Actuals.
North-West Frontier Province.	1,45	2,38	1,71	The increase was due partly to the normal growth of pensionary charges and partly to the payment of gratuities to the discharged officers and men of the late Border Military Police.	The decrease was due to savings in the lump provision of 1,00 for pension and bonus to the discharged officers and men of the late Border Military Police.
Madras	27,94	28,50	31,54	The increase (3,60) was due partly to the growth of the pension list (1,34) and partly to the payment of the commuted value of pensions (1,99).	The bulk of the increase (3,04) represented the payment of the commuted value of pensions for which the Budget did not provide (2,61).

157. The increases of 19,30 as compared with the actuals of the previous year and of 13,61 over the Budget were due partly to the usual growth of the pension list and partly to the payment of the commuted value of pensions.

30.—Stationery and Printing.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India — Gross	38,01	39,59	46,32		
India — *Deduct*—Value of stationery supplied from Central Stores to other Governments and Departments.	—38,18	—41,54	—43,43		
India (net)	—17	—1,95	2,89	The increase was due to larger expenditure under the head 'Stationery purchased for Central Stores'.	As under Actuals.
Central Provinces	3,27	4,45	4,06	The increase was partly due to the cost of printing ryots' receipt books at private presses (43) and partly to larger supplies of stationery from the Central Stores (26).	The decrease was chiefly due to smaller supplies of stationery from the Central Stores (16), to savings under the head 'Printing at Private Presses' owing to the provision for the printing of Gazetteers not having been fully utilized (14), and to petty savings under various detailed heads (9).
Burma	7,97	7,97	6,94	The decrease was mainly due to smaller supplies of stationery from the Central Stores (65) owing to non-compliance with some of the press indents made during 1913-14 and to smaller expenditure under Government Presses (40).	As under Actuals.
Assam	1,71	1,90	1,66	...	The saving was due to a partial non-utilization of the provision made in the Budget for stationery supplied from the Central Stores, to vacancies in fixed establishments and to smaller outlay on piece-work in the Secretariat Press.
Bengal	13,75	13,92	15,56	The main causes of the increase of 1,81 were (*a*) larger supplies of stationery from the Central Stores to Provincial Departments (1,26), (*b*) larger supplies of stationery from the Central Stores to Imperial Departments (30), and (*c*) larger outlay on freight on stationery and forms by the Dacca Jail Press (22).	The excess (1,64) was mainly due to larger supplies than was anticipated of stationery from the Central Stores to Provincial and Imperial Departments (1,50).
Bihar and Orissa	3,30	4,94	3,29	...	The saving (1,65) was due to smaller supplies of stationery from the Central Stores (1,42) and the non-utilization of 60 provided for the Gaya Forms Press. Against these savings there was, however,

30—Stationery and Printing—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
					a larger expenditure of 36 on the establishment and contingencies of Government Presses.
United Provinces of Agra and Oudh.	8,74	8,65	9,18	The increase (44) was chiefly due to higher outlay on the Government Press (30), mainly on establishment and on the purchase of plant, etc., from Europe, and to larger supplies of stationery from the Central Stores (16).	In the Budget a moderate figure was adopted for stationery supplied from the Central Stores in view of past actuals. Supplies, however, exceeded expectations by 45. This, coupled with higher outlay on plant, etc., obtained from Europe for the Government Press (7), accounted for the increase.
Punjab . . .	6,93	7,21	6,94	...	The saving (27) was chiefly due to smaller purchases of stationery in the country (24) and to smaller outlay on lithography (20), partly counterbalanced by larger outlay on Government Presses (22).
North-West Frontier Province.	91	1,09	1,09	The increase was chiefly due to the extension of the Secretariat and Jail Presses at Peshawar.	
Madras . . .	22,35	22,96	20,08	Under 'Government Presses—Secretariat Press' the actuals for 1912-13 included a special payment of 3,00 on account of the purchase of the Lawrence Asylum Press. Excluding this special item, there was an increase of 73, which was due to higher outlay under 'Stationery supplied from Central Stores' (1,24) There were, however, savings under 'Stationery purchased for Central Stores' (72).	The saving (2,88) chiefly occurred under 'Stationery purchased for Central Stores.'
Bombay . . .	19,41	17,97	21,98	The increase (2,57) was chiefly due to larger requirements of the printing presses and to the supply of a large number of typewriters and their accessories.	As under Actuals.

158. In the Indian section of the accounts there was an increase of 5,50 as compared with the past year's actuals, which occurred chiefly in India (3,06), Bombay (2,57), and Bengal (1,81), while there were decreases in Madras (2,27) and Burma (1,03).

The increase of 4,56 over the Budget included excesses in India (4,84), Bombay (4,01), and Bengal (1,64), which were partly counterbalanced by savings in Madras (2,88), Bihar and Orissa (1,65) and Burma (1,03).

An Imperial excess of 12 requires the sanction of the Government of India.

32.—Miscellaneous.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India	6,57	17,08	39,92	The increase (33,35) was due to a special payment of 30 lakhs to the Mysore Durbar on account of arrear surplus receipts of the Bangalore assigned tract and to increased expenditure in connection with the Public Services Commission (2,55).	The increase (22,84) was chiefly due to the special payment of 30 lakhs referred to under Actuals. There was, however, a transfer of about 8 lakhs to other heads out of the Reserve of 10 lakhs placed at the disposal of the Finance Department in the Budget.
Central Provinces	1,80	1,62	1,37	The decrease was chiefly due to smaller expenditure on the acquisition of land and other minor causes.	The decrease was due to a number of minor variations.
Burma	5,20	5,95	5,49	The increase was due to larger outlay on language rewards and on payments to local funds for general purposes.	The savings were mainly due to smaller expenditure under 'Rents, Rates and Taxes' (33), and to less outlay on 'Charges for remittance of treasure' (15).
Assam	3,78	4,03	3,98	The increase was chiefly due to larger outlay on the purchase of furniture for Circuit Houses, to the writing off of a portion of the loans taken by agriculturists and to the payment of subsidies to the Gauhati-Shillong Motor Transport Company.	...
Bengal	4,62	9,93	6,25	The increase (1,63) was chiefly due to relief operations in the flooded districts (99) and to larger expenditure under 'Special Commissions of Enquiry' (58) owing to the formation of the District Administration and the Port Development Committees.	The decrease (3,68) was chiefly due to the non-utilization of the lump provision of 3,00 for grain compensation allowance. There were, however, excesses (2,02) on account of the District Administration and the Port Development Committees, and of relief operations in the flooded areas, but these were counterbalanced by savings (2,01) in the provision of 1,50 for unforeseen requirements and of 1,00 for His Excellency the Governor's grant.
Bihar and Orissa	1,14	1,84	1,52	The increase was made up of small variations.	......
United Provinces of Agra and Oudh.	2,69	2,75	5,34	The increase (2,65) was mainly due to special grants to municipalities (1,70), chiefly to compensate them for the loss of octroi income and towards the liquidation of a loan outstanding against the Agra municipality.	The increase (2,59) was chiefly due to the causes mentioned under Actuals.
Punjab	6,09	5,67	4,56	The writing off of the unpaid balance of the loan to the Dera Ghazi Khan municipality was chiefly responsible for the higher actuals in 1912-13 (1,53).	The decrease (1,11) was partly due to the non-utilization of the provision of 80 for the re-organization of the clerical establishment and to a partial utilization of the provision for miscellaneous purposes (93).
North-West Frontier Province.	27	23	37	Increased expenditure under allowances and rewards and on the establishment of a new copying agency at Mardan accounted for the increase.	As under Actuals.
Madras	5,45	4,74	5,59	......	The excess (85) was chiefly due to increased charges under 'Pearl Fishery'.

32.—Miscellaneous—co

Imperial.					
Reserve provision	...	5,50	...	......	......
Lump provision	...	—16,29	—12,55		The actuals represent that portion of the expenditure on Protective Irrigation Works which could not be met from the Famine Insurance grant and had therefore to be transferred to the head '42 A.'
Probable Savings	...	—7,00	...		
Total India (General)	...	—17,79	—12,55		
Central Provinces	17,56	19,18	19,81	The increase was mainly due to the good progress made on the Tandula Canal from grants provided in connection with the scarcity.	As under Actuals.
Burma	...	...	10	...	The actuals represent expenditure on certain famine relief works in the Katha, Mandalay, Shwebo, and Thayetmyo districts.
Bengal	13	7	7	The charges represent expenditure (chiefly allowances to District Board Engineers) for the preparation of the Famine Relief programme. They are gradually diminishing as the scheme in each district is nearing completion.	......
Bihar and Orissa	6,89	7,00	4,89	Excluding the special payment of 3,32 in 1912-13 in connection with the Triveni Canal arbitration case, the net expenditure in that year was 3,57. The increase (1,32) compared with this figure was mainly due to larger expenditure on the Triveni Canal.	The saving (2,11) was entirely on the Triveni Canal due partly to dearth of labour and partly to delay in acquiring land and sanctioning estimates.
United Provinces	10,93	11,50	14,70	The increase (3,77) was mainly due to larger outlay on the Ghaggaar canal (3,43), the Majhgawan tank (1,73) and the Barwar Lake (38), partly counterbalanced by lower outlay on the Gangao Dam (74) and the Dhasan Canal (1,08).	Higher expenditure was incurred on all the canals, excepting the Ken canal, as, owing to the famine, the labour supply was good.
Madras	1,58	5,00	3,50	The increase (1,92) occurred on the Bhavanasi and Mopad Projects. In the former case there was delay in acquiring land in 1912-13, while in the case of the latter the work was re-started only in December 1912.	The decrease (1,50) was entirely in connection with the Mopad Project and is attributed chiefly to the late formation of the division, the late arrival of the plant and machinery for the laying out of the tram line, and to want of contractors.

35.—Construction of Protective Irrigation Works—*concld.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Bombay	25,79	47,67	40,77	The increase (14,98) was chiefly due to the fact that the works on the Nira Right Bank Canal were conducted on a more extensive scale than in 1912-13. There was a decrease in expenditure on the Godavari and Pravara River Canals.	The decrease (6,90) was mainly the result of large surrenders from the grants for the Pravara and Nira Right Bank Canals in consequence of the scarcity of labour, and from the grant for the Chankapur Tank owing to difficulties in carrying out the masonry work on perennial streams before the hot season commenced.

Railways.

169. The general result is shown in the following figures: —

Abstract.	Actuals, 1912-13.	Budget, 1913-14.	Actuals, 1913-14.
Receipts			
State Railways *net*	25,94,19	26,30,84	26,29,88
Guaranteed Companies	60	...	...
Subsidized Companies	10,98	12,69	13,97
TOTAL	26,05,77	26,43,53	26,43,85
Expenditure			
Interest on Debt	10,02,48	10,45,49	10,33,17
Annuities in purchase of Railways	5,03,66	5,06,93	[illegible],06,94
Sinking Funds	27,66	28,72	28,76
Interest chargeable against Companies on advances	58,41	62,60	62,30
Interest on Capital deposited by Companies	2,78,12	2,93,26	2,92,86
Land charges and subsidies	5,05	16,10	8,27
Miscellaneous Railway Expenditure	9,91	7,58	*—6,88*
TOTAL	18,85,29	19,60,68	19,25,42
Net gain + or loss —	+7,20,48	+6,82,85	+7,18,43

170. These figures show that the *net* result of the working of all Railways was a gain of 7,18,43 or £4,789,5 after meeting all charges for interest, annuities, etc, which, compared with the *net* result of the previous year, shows a decrease of 2,05 or £13,7 As compared with the *net* gain provided for in the Budget Estimate, there was an improvement of 35,58 or £237,2.

The gross receipts of the year were 1,18,89 more than the Budget Estimate and exceeded the actuals of the previous year by 1,28,97, showing that the upward tendency of traffic in the previous year has been steadily maintained. The increased earnings were secured on the whole at an expense which was 1,18,42 over the sum provided for in the Budget Estimate and at an increased cost of 1,33,60 as compared with the working expenses of the previous year.

42.—Major Works—Working Expenses.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India—					
Reserve	...	1,45	...	...	...
Central Provinces— Imperial	81	50	75	...	The increase was due to the non-inclusion in the estimates of the provision for certain annual repairs and maintenance charges of tanks completed during the previous year.
Burma— Imperial	4,47	4,45	4,46	...	...
Bengal— Imperial	1,18	1,20	1,49	The increase was mainly due to expenditure on silt clearance.	As under Actuals.
Provincial	1,18	1.20	1,49		
Bihar and Orissa— Imperial	6,33	6,33	6,51	The increase was mainly due to larger expenditure on special repairs to the Orissa Canal on account of damage done by floods.	As under Actuals.
Provincial	6,33	6,33	6,51		
United Provinces— Imperial	3,91	4,50	4,64	Larger outlay on the Betwa (49) and Dhasan (22) canals was mainly responsible for the increase.	The increase was the net result of higher expenditure on the Betwa canal (68) and lower outlay on the Ken (18) and Dhasan (34) canals.
Provincial	28,97	30,17	29,60	The increase was mainly due to larger outlay on establishment.	The decrease was chiefly due to smaller outlay on the Dun, Ganges and Lower Ganges Canals.
Punjab— Imperial	41,11	40,01	41,61	There was larger expenditure on the Western Jumna Canal (2,02) due to the remodelling and silting works, on the Sirhind Canal (1,46) on account of river training works and the purchase of tramway plant, and on the Upper Chenab Canal (2,52) owing to an increase in the revenue establishment and larger payments of bonus and fees. On the other hand, there were decreases of 2,64 on the Upper Bari Doab Canal and of 2,29 on the Lower Chenab Canal in consequence of there having been no closing of the canals in 1913-14.	The Budget did not provide for certain works on which expenditure exceeded the grant by 4,69. On the other hand, the Budget provision was not utilized to the extent of 1,52 on certain other canals.
Provincial	41,11	40,01	41,60		
North-West Frontier Province—					
Imperial	3,11	2,10	3,04	...	The Budget was an underestimate.
Madras— Imperial	10,25	10,57	11,89	The increase was due to larger outlay on most of the systems on account of repairs and improvements.	As under Actuals.
Provincial	10,26	10,57	11,89		

42.—Major Works—Working Expenses—*concld.*

				Actuals, 1912-13.	Budget, 1913-14.
India—					
Imperial—					
Baluchistan	3,64	1,11	3,84	The increase was due chiefly to the construction of a weir across the Nari River.	The Budget included 5,97 as a reserve provision, of which 3,39 were transferred to Provincial Governments and 37 lapsed. Excluding these, the increase was due chiefly to larger expenditure in Baluchistan in connection with the improvement of the Khusdil Khan reservoir and the construction of a weir across the Nari River.
Delhi Province	1	8	1		
Reserve	...	5,97	...		
Total	3,65	7,11	3,85		
Central Provinces—					
Provincial	4,65	5,00	5,74	The increase was due to additional expenditure on new tanks.	As under Actuals.
Burma—					
Provincial	12,86	14,50	10,96	The actuals for 1912-13 included 1,00 on account of the payment made to the Burma Railway Company as compensation for damage done to the Henzada-Tharrawdawd line in 1907.	The decrease (3,54) was partly due to smaller expenditure on agricultural and embankment works (1,73) and partly to smaller outlay on certain canals.
Assam—					
Provincial	96	2,01	1,15	The increase was due to an outlay of 33 on a snag lifter and larger expenditure on repairs to embankments.	The saving was chiefly due to smaller outlay on the snag lifter than was provided for in the Budget.
Bengal—					
Imperial	7,69	9,35	9,68	The increase (3,88) was mainly due to special expenditure on the repairs to embankments damaged by floods (2,43), increased outlay on certain river improvement works (.8), repairs to a dredger (40), and larger expenditure on silt clearance in the Madaripur Bheel Route and the Calcutta and Eastern canals (38).	The excess was mainly due to special outlay on repairs to embankments damaged by floods. On the other hand, there was a saving in the provision for the maintenance and repairs of the Calcutta and Eastern Canals.
Provincial	7,69	9,34	9,63		
Bihar and Orissa—					
Imperial	2,01	2,52	2,45	The increase was mainly due to the reconstruction of a weir (84).	
Provincial	2,01	2,53	2,45		
United Provinces—					
Imperial (Rajputana).	95	1,00	56	...	There were savings in the grant for repairs, capital expenditure and establishment.
Provincial	3,79	2,58	4,45	The expenditure on tanks in Bundelkhand (68) was smaller in 1912-13.	Higher expenditure on the Bundelkhand tanks (1,32) and the Sukhra (40) and Rohilkhand canals (32) mainly accounted for the increase.
Punjab—					
Imperial	9,18	8,92	9,39	The increase was the net result of a number of variations.	The increase was due to outlay on the Koch Dam Project which was not provided for in the Budget.
Provincial	3,98	1,95	2,83	The decrease was mainly due to smaller outlay on the Namal Dam.	The expenditure on the Namal Dam was not provided for in the Budget.

174. As compared with the actuals of the previous year there was an increase of 11,80, which occurred chiefly in Bengal (3,88), Bombay (3,84) and Madras (3,84).

As compared with the Budget there was a small excess of 20, which was the net result of variations in several of the provinces. Of these the more important were increases in Bombay (2,88), the Punjab (1,35), the United Provinces (1,43), and Madras (1,12) and decreases in India (3,26) and Burma (3,54).

An Imperial excess of 31 requires the sanction of the Government of India.

44.—Construction of Railways charged to Provincial Revenues.

Railway.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Jorhat Railway .	61	32	21	The decrease was mainly due to the non-receipt of certain English stores indented for from England during 1913-14 and to the fact that the actuals for 1912-13, included the cost of a locomotive engine.	The decrease was chiefly due to non-receipt of certain English stores.

				Actuals, 1912-13.	Budget, 1913-14.
India (General)—					
Imperial	5,25	2,66	5,02	...	The excess (2,36) was due to the grants to the Notified Area (1,68), and the Municipal Committees, Delhi (35).
Central Provinces—					
Provincial	2,26	2,38	3,38	The increase (1,12) was due to the transfer of certain buildings and roads to the management of the District Boards and the payment to them of grants (1,39) for their maintenance.	As under Actuals.
Burma—					
Provincial	3,09	10,23	8,30	The increase was the result of larger grants to local bodies for sanitary improvements (3,86) and of the payment of contributions to District Funds of Upper Burma for works of public utility (1,35).	The decrease (1,93) was due to the transfer of sanitary grants (2,42) to the head '45.—Civil Works—Provincial—Public Works,' and to a sum of 1,68 having remained unspent. The decreases were partly counterbalanced by the payment of contributions to District Funds for works of public utility (1,35) and by the expenditure incurred for Sanitary improvements (88) for which provision was made under '24.—Medical.'
Assam—					
Provincial	5,90	7,35	9,77	Large grants were made to municipalities for urban water-supply in 1912-13, but such grants made in 1913-14 were charged under Public Works. Grants to Local Boards for the improvement of communications and water-supply in rural areas were also much higher in the year under review.	The increase (2,42) was due to larger grants to Local Bodies for water-supply (2,00) and for sanitary improvements out of the lump provision of 2,25 under '24—Medical'.
Bengal—					
Imperial	5	5	5	...	
Provincial	26,80	30,20	25,74	The decrease (1,06) was due to smaller expenditure on sanitary improvements (1,04) and smaller grants to District Boards in augmentation of their resources. The actuals for 1912-13 included, on the other hand, 1,50 granted to the Chittagong Port, a similar grant in 1913-14 being, however, adjusted under '21—Ports and Pilotage'.	The decrease (4,46) was chiefly due to the partial non-utilization of the lump provisions for sanitary improvements (6,06), and to the transfer of the provision for the grant to the Chittagong Port to '21—Ports and Pilotage' (1,50). On the other hand, there were larger payments to the District Boards in augmentation of their resources (3,93) and enhanced grants to Municipalities for water-supply and drainage schemes (60).
Bihar and Orissa—					
Provincial	11,02	9,34	20,47	The increase (9,45) was principally due to larger grants given to the Municipalities and District Funds for water-supply and drainage (9,50) and for communications and miscellaneous improvements (3,48). On the other hand, there was smaller expenditure (3,45) on contributions out of the Public Works Cess collections, which are now entirely made over to the District Boards.	The increase (11,13) was mainly due to larger contributions to Municipalities for water-supply and drainage (9,18) and to District Funds for roads, bridges and miscellaneous improvements (3,34). On the other hand, there was a saving of 1,39 owing to the transfer of grants to other major heads.

45.—Civil Works in charge of Civil Officers—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
United Provinces—					
Provincial . .	9,36	4,97	30,23	The increase (20,87) was due to larger grants to District Boards in the circumstances explained under Budget.	Owing to the postponement of the introduction of the scheme for improving the resources of Local Boards, the local rates in the province of Agra continued to be appropriated in the year under report, and consequently the recurring assignment given by the Government of India to compensate the Provincial Government for the loss resulting from the scheme was paid away in the shape of grants to District Boards. This explains the excess over the Budget.
Punjab—					
Imperial .	50	...	24	The increase (13,92) was chiefly due to grants to Local Bodies for sanitary improvements which were formerly adjusted under '24—Medical' (11,08), additional contributions to District Boards for roads, etc., (2,04), and to larger outlay on the improvement of towns (1,09).	As under Actuals.
Provincial . .	9,44	10,64	23,62		
North-West Frontier Province—					
Imperial . .	87	82	1,79	The increase was due to the adjustment under this head of grants to Local Bodies for sanitary works which were formerly debited to '24—Medical,' (1,00).	As under Actuals.
Madras—					
Provincial	85,61	85,66	94,05	The increase (8,44) occurred almost entirely under contributions, and was due to the payment of larger grants to local bodies for the construction of educational buildings and roads and bridges.	As under Actuals.
Bombay—					
Provincial .	14.24	8,72	14,66	The actuals for 1913-14 included 4,00 for the grant to the Bombay City Improvement Trust in aid of certain Town Improvement Schemes. On the other hand, payments of grants-in-aid to certain municipalities for sanitary works and expenditure on the improvement of village water-supply were larger in 1912-13. The net result was an increase of 42.	The increase (5,94) was mainly due to special grants-in-aid to the Bombay City Improvement Trust (4,00) and to certain municipalities (2,39) for sanitary works.

176. As compared with the actuals of the previous year, there was an increase of 62,93, which mainly occurred in the United Provinces (20,87), the Punjab (13,92), Bihar and Orissa (9,45), Madras (8,44), Burma (5,21), and Assam (3,87).

There was an excess of 64,30 over the Budget, which occurred mainly in the United Provinces (25,26), the Punjab (13,22), Bihar and Orissa (11,13), Madras (8,39), and Bombay (5,94), while there was a decrease in Bengal (4,46).

45.—Civil Works.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
India (General)—Imperial	67,50	38,34	38,51	The actuals included 16,85 on account of the Delhi Administration charges (including Temporary Works) as against 50,90 in 1912-13. Excluding these items there was an increase of 5,05 which was due to larger expenditure in connection with the Viceregal Estates, Civil Works in charge of the Director General, Military Works, and in Baluchistan.	Of the Reserve provision entered in the Budget 2,08 were surrendered to the Finance Department, 644 were transferred to other Governments, and 1,32 lapsed.
Reserve	...	9,79	...		
	67,50	48,13	38,51		
Central Provinces—Imperial (C. P.)	1,81	3,35	3,96	The increase (2,15) was mainly due to heavier outlay on the Postal Audit Office and the General Post Office at Nagpur.	The excess (61) was mainly due to the supply of electric lights and fans to the residential buildings at Nagpur and to the completion of the construction of a new combined Post and Telegraph office.
Central India	6,32	6,27	6,37	...	......
Hyderabad	1,29	1,92	1,33	...	The savings were chiefly due to the surrender of the provision for the acquisition of land for a Jail at Secunderabad, and smaller lapses on other works.
Provincial	65,41	67,50	65,46	...	......
Burma—Imperial	3,50	7,14	3,64	...	The decrease chiefly resulted from smaller outlay on Telegraph buildings (1,15), especially the new Telegraph office at Rangoon, to larger credit under 'Suspense' (94) in consequence of the non-adjustment of payments made by the India Office for stores, and to smaller expenditure under establishment (67).
Provincial	79,48	*1,00,35	92,81	The increase (13,33) was chiefly due to larger expenditure incurred out of the special grant for the improvement of communications (6,98), larger grants to Local Bodies for sanitary improvements, (2,79), expenditure incurred on agricultural, veterinary and allied objects (56) as well as on medical relief, etc. (42), out of the special Imperial grants for the purpose, and to heavier outlay on works (5,94). On the other hand, there was smaller outlay on communications (2,63) and on establishment (87).	The savings (7,54) were chiefly due to the partial utilization of the special grant for communications (10,41) and of the reserve at the disposal of the Local Government (1,33), and to the lapse of the grants for 'Communications—Repairs' (2,19) and for certain original works (2,29). On the other hand, larger expenditure was incurred out of the special grants for sanitation, education, agriculture, veterinary and allied objects and medical relief etc., (8,53).
Assam—Imperial	61	87	42	The increase (18,95) was due mainly to larger outlay on the construction of buildings for the police, education and veterinary departments, on the construction of the Mishmi road, and on grants to Local Bodies for communications, waterworks, etc.	As under Actuals.
Provincial	37,26	32,80	56,40		
Bengal—Imperial	15,22	12,12	14,89	The decrease was chiefly due to smaller expenditure on the salt golahs.	The excess was mainly caused by expenditure on salt golahs at Chittagong and Salkea (1,13), on several settlement buildings (52), and on Postal and Telegraph buildings (42), and on other buildings (72) for which there was no provision.

45.—Civil Works—*contd.*

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Port Blair	1,44	1,53	1,67	The increase was mainly caused by expenditure on the erection of the wireless telegraph station.	As under Actuals.
Provincial	63,22	74,30	76,45	The increase (13,23) was chiefly due to the construction of certain new buildings (6,83), larger outlay on repairs mainly consequent on the provincialization of several Imperial buildings (1,78) and on the improvement of roads (1,37) and to increased expenditure on educational and other buildings met from the special Imperial assignments for the purpose (2,55).	There was larger expenditure on educational and other buildings which were met from special grants provided under other heads, (9,92). On the other hand, there were savings aggregating 7,78 chiefly resulting from the non-utilization of a portion of the lump provision for discretionary grants (4,00) and for His Excellency the Governor's saloons (2,00), smaller outlay on establishment (88) and from the lapse of a portion of the lump provision for the improvement of certain roads (60).
Bihar and Orissa—					
Imperial	1,44	2,27	2,08	The increase was chiefly due to larger expenditure on Postal buildings (56), on the quarters for the clerks of the Accounts Office (29), and on establishment (13).	...
Provincial	48,80	68,67	62,76	The increase (13,96) was due to larger expenditure on Communications (original works) including 2,85 spent in the new capital at Bankipur (7,74), Tools and Plant and Suspense (specially in connection with the capital works at Bankipur) (2,90), and on Establishment partly due to the special works at Bankipur and partly to larger share transferred from the Irrigation Branch (1,88).	Out of 20,00 provided for special works in connection with the establishment of the new capital at Bankipur only 13,43 was spent during the year.
United Provinces—Imperial (U. P.)	4,66	5,10	7,37	Larger expenditure on original works and consequent higher Establishment charges mainly accounted for the increase.	As under Actuals.
„ (Rajputana)	4,11	4,05	40,6	...	...
Provincial	64,48	65,28	59,81	The decrease was chiefly due to smaller outlay on original works under Civil Buildings (7,41) and Miscellaneous Public Improvements (38) and extensive issue of stores (2,76). On the other hand, there was higher expenditure on Communications (2,79) and Establishment (1,08) and on account of the adjustment of losses on stock (2,15) mainly owing to the abolition of the Rurki Workshop.	There were savings in the provision for discretionary grant (4,00), and for the construction of the new High Court Building at Allahabad (2,75), smaller issues of stores (2,76), and less outlay on police, medical and excise buildings (1,40). On the other hand, excesses occurred under 'Communications—Repairs' (1,53), 'Miscellaneous Public Improvements—Original works' (1,02), on establishment (1,40), as well as on account of the losses on stock (2,15). The net result was a saving of 5,47.
Punjab—Imperial	4,00	4,37	6,25	The increase occurred under 'Suspense' (2,09) owing to the accounts for 1912-13 having included a special credit of 1,69 in connection with the adjustment of charges incurred for the Rectangular Survey on the Lower Bari Doab Canal.	The excess (1,88) occurred under 'Civil Buildings—Original Works' (1,87).

177. In the Indian section of the accounts there was an increase of 77,87 as compared with the actuals of the previous year. The more important of the increases occurred in Bombay (24,97), Assam (18,95), the Punjab (16,26), Bihar and Orissa (14,60), Bengal (12,90), and the North-West Frontier Province (7,46) On the other hand, there was a decrease under India (28,99).

As compared with the Budget there was a decrease of 2,72, which was the result of savings in the Punjab (17,76), Burma (11,04), India (9,62), and Bihar and Orissa (6,10) and of excesses in Assam (24,15), Bombay (16,56), and Bengal (4,92).

An Imperial excess of 30 requires the sanction of the Government of India.

46.—Army Charges.

	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	MILITARY ACCOUNTANT-GENERAL'S REVIEW OF ACTUALS AGAINST	
				Actuals, 1912-13.	Budget, 1913-14.
Grant 1.—Administration.	69,75	69,51	71,56	The increase (1,81) was due chiefly to more charges for salaries (80) and travelling and tour expenses (82).	The increase (2,05) was due chiefly to larger expenditure on travelling and out-station allowances (84), and to the probable savings anticipated not having been realized to the full extent (62).
Grant 2.—Military Accounts.	29,16	28,93	30,13	The increase (97) was due mainly to larger expenditure on salaries, travelling allowances, and contingencies.	As under Actuals.
Grant 3.—Regimental Pay, Allowances, and Charges (including Volunteers).	12,20,93	12,27,72	12,23,80	The increase (2,87) was due chiefly to larger contributions under the National Insurance Act (1,14), the revision of the rates of pay of Indian artificers and followers (1,11), the payment of more travelling and outstation allowances (1,02), and to higher food charges (1,09). On the other hand, there was smaller expenditure on service or proficiency pay of British soldiers, (1,61), and on the Indian Army Reserves owing to fewer men having been called out for training (1,16).	The decrease (3,92) was due chiefly to less charges for pay and allowances of officers (4,02), and to smaller expenditure on the pay and messing allowances of warrant and non-commissioned officers, and rank and file (4,04). The above decreases were, however, partly counterbalanced by higher food charges (3,01), by the non-realization of savings anticipated in connection with the employment of the Royal Indian Marine vessels on Home trooping (1,80), and by more travelling charges (1,32).
Grant 4.—Supply and Transport (including farms).	3,36,93	3,16,46	3,42,78	The increase (5,85) was chiefly accounted for by higher food charges (2,42), and by larger expenditure under Miscellaneous (1,06) due mainly to more extensive dairy operations	The increase (26,32) was chiefly due to higher food charges (22,06), and to larger outlay on the supply and maintenance of peace stores (2,84), owing partly to larger purchases of dead stock and equipment.
Grant 5.—Veterinary Services.	5,00	5,00	5,08	......	......
Grant 6.—Army Clothing Department—Supplies and Services.	15,68	15,35	19,27	The increase (3,59) was mainly due to larger purchases of boots and of cotton and woollen goods.	The increase (3,92) was chiefly due to higher charges for supplies obtained locally (4,00) in consequence mainly of an under-estimate of the requirements in regard to boots and cotton and woollen goods.
Grant 7.—Remount Establishments.—Supplies and Services.	49,29	50,32	46,52	The decrease (2,77) was mainly due to less purchases of animals for the Supply and Transport Corps (1,70), and to smaller outlay on the feed of animals (97).	The decrease (3,80) was chiefly due to smaller expenditure on the purchase of animals.
Grant 8.—Medical Services.	56,96	58,87	57,51	The increase (55) mainly occurred under 'Medical Staff and Establishments of Divisions and Brigades'.	The decrease (1,36) was chiefly due to certain appointments of Civilian Dentists having been vacant (31), to less charges under Army Bearer Corps (48), and to smaller purchases of hospital supplies and equipment (26).
Grant 9.—Medical Stores.	5,06	4,78	5,52	The increase (46) was mainly due to larger expenditure on medical supplies.	As under Actuals.

46.—Army Charges—contd.

	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Military Accountant-General's Review of Actuals against Actuals, 1912-13.	Military Accountant-General's Review of Actuals against Budget, 1913-14.
Grant 10.—Ordnance Establishments, Supplies and Services.	98,54	93,04	95,87	The decrease (2,67) was chiefly due to smaller purchases of camp equipage (6,89). On the other hand, there were larger purchases of local stores for factories (2,88) and for arsenals and depots (86) as well as smaller recoveries on account of supplies to other departments (30).	The increase (2,83) was mainly due to larger purchases of camp equipage (5,63) and of local stores for factories (2,00), chiefly on account of advance purchases for 1914-15. On the other hand, there were larger issues to other departments (2,61), and less charges for extra temporary artificers in factories (1,72).
Grant 11.—Ecclesiastical.	4,30	4,38	4,27	......	......
Grant 12.—Education.	12,41	13,24	13,48	The increase (1,07) was chiefly due to the formation of the Central Flying School (41), and to the addition of two officers to, and the presence of a large numbers of students at the Staff College, Quetta (32).	......
Grant 13.—Compensation for Dearness of Food and Forage.	57,57	43,66	62,81	The increase (5,24) was due chiefly to a rise in the prices of food-stuffs.	The increase (19,15) was due to an under-estimate. The Budget was based on the actuals for 1912-13.
Grant 14.—Miscellaneous Services.	31,25	22,51	28,42	The decrease (2,83) was chiefly due to less charges (1,30) on account of Special Services, to less extra expenditure in connection with the Army in India Committee (1,20), and to the absence of arrear charges on account of the Royal Visit which appeared in 1912-13 (90). On the other hand, there were higher charges for Munshi allowance to officers and men on passing in Indian or other languages (41), and for the annual training of troops (24).	The increase (5,91) was chiefly due to higher charges for Special Services (6,03).
Grant 15.—Hutting.	6,99	2,00	2,11	The actuals for 1912-13 were higher owing mainly to the remission in that year of the outstanding loans against the Indian Cavalry Combines (3,72), and to larger additional grants for hutting sanctioned during that year (1,16).	
Grant 16.—Conveyance by Road, River, and Sea.	15,96	13,04	8,47	The expenditure in 1912-13 was larger chiefly owing to the charges incurred in connection with the employment of the Royal Indian Marine steamers on Home trooping.	The decrease (4,57) was chiefly due to the non-employment of a Royal Indian Marine vessel on Home trooping, for which provision was made in the Budget.
Grant 17.—Conveyance by Rail.	38,63	44,13	42,48	The increase (3,85) was chiefly due to a larger relief programme.	The decrease (1,65) was chiefly due to fewer movements of British and Indian troops.
Grant 18.—Cantonments.	14,76	23,24	24,28	The increase (9,52) was chiefly due to the acquisition of land for the new cantonment at Delhi.	The increase (1,04) was chiefly due to an advance payment of a part of the provincialized grant to cantonments for 1914-15, and to additional grants for the acquisition of land (57).
Grant 19.—Rewards for Military Services.	1,45	1,01	1,17	......	......
Grant 20.—Pensions.	1,05,98	1,05,39	1,08,40	As under Budget . . .	The increase (3,01) was due chiefly to the growth of pensionary charges, and to larger commutations of departmental pensions (57).

				Actuals, 1912-13.	Budget, 1913-14.
England.	£	£	£		
Effective Services—					
Payments to War Office in respect of British Forces serving in India.	941,6	947,0	917,3	......	The Budget was based on the War Office accounts for 1912-13, in which, owing to exceptional circumstances, the amount of deferred pay and gratuities proved to be unusually large.
Furlough allowances and pay during voyage of British forces serving in India.	141,5	139,0	145,3	......	There was an increase of 9,9 in furlough pay. On the other hand, there was a decrease of 3,6 in voyage pay.
Consolidated clothing allowances of British soldiers.	5	15,2	4	....	The saving was due to the postponement of payments pending the settlement of financial adjustments with the War Office.
Furlough allowances of officers of the Indian Service	355,7	360,0	361,4	......	......
Indian Troop Service .	266,4	307,9	298,8	......	The decrease was due to smaller expenditure on fittings owing to the re-engagement of the same transports as in 1912-13, to receipts in respect of coal abated from disbursements, and to fewer payments falling within the year in respect of victualling and canal dues.
Passage of officers and others not charged to Indian Troop Service.	4,3	5,0	4,4	......	......
Purchase of horses .	2,7	3,0	4,4	......	More horses were paid for during the year than was expected.
Operations in the Persian Gulf.	64,0	64,0	70,1	......	The accounts included 11,2 as a moiety of the compensation, etc., to Muscat arms dealers, for which no provision was made. On the other hand, the payment in respect of His Majesty's ships engaged in the suppression of the arms traffic was 5,0 less than was provided in the Budget.
Miscellaneous .	30,9	33,5	36,9	......	The accounts included 1,4 for the Army in India and Ordnance Services Committees, for which no provision was made in the Budget.
Stores for India .	751,5	815,9	782,2	......	The decrease occurred under Ordnance and Miscellaneous Stores (39,0) due to the demands being less than was indicated in the forecast received from India and under Operations in the Persian Gulf (10,0) due to the transfer of expenditure to 1914-15. On the other hand, there were increases under Supply and Transport (5,7), Clothing (4,9), and Medical Stores (4,0).

46.—Army Charges—*concld.*

	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14	Military Accountant-General's Review of Actuals against Actuals, 1912-13.	Budget, 1913-14.
Stores taken to India with Troops.	24,4	32,5	17,6	...	The decrease was due mainly to the postponement of payments for clothing stores pending the settlement of financial adjustments with the War Office, the reduced value of infantry equipment, and to the exclusion of one cavalry regiment from the programme of reliefs
Non-effective Services—					
Payments to War Office for retired pay, etc., of British Forces for service in India	919,2	935,0	927,0		The decrease (8,0) was mainly due to the refund of an excess advance in respect of 1912-13.
Pay of Non effective Colonels of Royal Artillery	7,4	6,0	6,2		..
Pay and pensions of Non-effective and Retired Officers of the Indian service	1,425,2	1,435,0	1,407,6		The decrease was due to smaller payments of Colonels' allowances.
Miscellaneous pensions, etc	93,7	95,0	91,3		
Indian Military Service Family Pensions	70,2	78,0	80,[illegible]		The payments on this account increased more rapidly than was expected.

178. As compared with the previous year there was an increase of 25,36, which mainly occurred under 'Cantonments' (9,52), 'Supply and Transport' (5,85), 'Compensation for dearness of food and forage' (5,21), 'Conveyance by Rail' (3,85), and 'Army Clothing Department' (3,59). There was also an increase on account of unadjusted expenditure (8,08). On the other hand, there were decreases under 'Conveyance by road, river, and sea' (7,49), and 'Hutting' (4,88).

There was an excess of 52,59 over the Budget which occurred mainly under 'Supply and Transport' (26,32), 'Compensation for dearness of food and forage' (19,15), 'Miscellaneous Services' (5,9), and 'Army Clothing Department' (3,92).

An excess of 3,85 requires the sanction of the Government of India.

46A.—Marine Charges.

Effective Services—					
General Supervision and Accounts.	1,52	1,54	1,49	...	...
Marine Survey Department.	79	83	58	As under Budget.	The decrease was due chiefly to the adjustment of a moiety of the charges on account of the survey of the Persian Gulf by debit to the Imperial Government.
Dockyards	8,09	8,33	7,71	As under Budget.	The decrease was due to less work done for the Royal Indian Marine (34), and less charges for pay, etc., of officers owing to leave vacancies and retirements (25).
Salaries and Allowances and Victualling of officers and men afloat.	11,19	11,07	11,47	As under Budget.	The increase mainly occurred under victualling of officers and men afloat and was due chiefly to more charges for the purchase of provisions.
Marine Stores and Coal for building and repairs of ships.	11,18	8,30	12,86	The increase (1,68) was due chiefly to larger expenditure on coal.	As under Actuals.
Other charges	4,55	3,24	3,44	The decrease (1,11) was due to smaller charges for hire of steamers.	The increase was chiefly due to more expenditure on repairs, more passage and freight charges, and to ordinary fluctuations.
Non-effective Services—					
Pensions	1,05	70	81	The charges were higher in 1912-13 owing chiefly to the payment of the commuted value of pension to Commander Rowsell.	The increase was due to new admissions and arrear payments.
Total in Rupees	38,37	34,01	38,36		
Equivalent in Sterling	£ 255,8	£ 226,7	£ 255,7		
England—					
Effective Services—	197,1	221,6	229,4	...	The increase was due to a larger number of officers on furlough than was provided for and to the increased cost of stores. The accounts included 3,2 schedule measure expenditure.
Non-effective Services—	27,0	30,0	27,7	...	The payments on account of the Royal Indian Marine retired pay did not increase as was expected, and the payments on account of the Indian Navy retired pay decreased more rapidly than was expected.

179. In the Indian section of the accounts the figures were practically stationary as compared with 1912-13.

As compared with the Budget there was an increase of 4,35.

There is a net excess of 2,68 which requires the sanction of the Government of India.

47.—Military Works—Imperial.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Budget, 1913-14.
India (General)—					
Ordinary	86,26	87,99	88,17	The increase (1,91) mostly occurred under 'Original Works.'	...
Special	31,99	41,56	38,88	The increase (6,89) was mainly due to works in connection with the new cantonment at Delhi, to further outlay on the scheme for the reconstruction of lines for Indian troops, and to the expenditure on the Flying School at Sitapore, and on the quarters for military pupils of the Grant Medical College in Bombay.	The decrease (2,68) was due to large surrenders of funds.
Central Provinces—					
Ordinary	4	5	4	...	...
Central India—					
Ordinary	11	22	23	The increase was due to the reconstruction of the verandah of the E. I. Barracks at Indore which had been damaged by rain.	...
Burma—					
Ordinary	5,06	4,61	4,46	The decrease was due to the fact that in 1912-13 there was larger outlay on the improvement of British and Indian Infantry lines (29) and on repairs (21) in consequence of the damage caused by the earthquake at Maymyo and Meiktila.	The decrease was due to less expenditure on repairs.
Special	25	...	18	There was larger expenditure in the previous year on the construction of Sergeant-Instructors' quarters.	...
Assam—					
Ordinary	48	66	48	...	...
Special		...	6	As under Budget.	A special grant was given by the Government of India for the construction of quarters for Sergeant-Instructors.
Bengal—					
Ordinary	28	39	38	The increase was due to a number of minor causes.	...
Bihar and Orissa—					
Ordinary	16	18	17	...

182. Under '48—State Railways' there was an excess of 55,46 as compared with the Budget, which was made up of increases aggregating 2,36,43 and decreases amounting to 1,80,97. The former occurred chiefly on the East Indian (85,26), the North-Western (81,99), the Great Indian Peninsula (15,66), the Itarsi-Nagpur (14,42), the Burdwan-Howrah Chord—Burdwan-Kamarkunda Section (12,13), and the Bayana-Agra (7,27) Railways, while the more important decreases were contributed by the Bombay, Baroda and Central India Railway (75,58), the State Railway Stores (24,45), the South Indian (18,08), and the Assam-Bengal Railways (17,63), the Lower Ganges Bridge (8,64), the Bombay Harbour Branch Extension (6,00) and Reserve (13,40). Details of the expenditure and the causes of the variations are given below :—

48.—State Railways—Construction.

—	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Railway Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
Eastern Bengal Railway.					
1. Rolling Stock	43,48	52,14	60,01	...	The increase was chiefly due to the transfer of wagons from the North Western Railway and the Lower Ganges Bridge Project for which there was no provision in the Budget.
2. Other Capital Works.	83,04	96,07	82,39	...	The lapse was chiefly due to the programme of works not being fully worked up to and to certain bills to the extent of 5 lakhs being held over for payment during 1914-15.
	1,26,52	1,48,21	1,42,40		
3. Stores	7,62	—16,33	—8,62	...	The excess was due to heavy purchases of miscellaneous stores.
Total	1,34,14	1,31,88	1,33,78		
Rangiya Tangla Extension Railway.					
1. Rolling Stock	...	...	...	...	...
2. Other Capital Works.	3,08	60	1,25	...	The excess was due partly to the final bills of certain contractors, payable in 1912-13, having been paid in 1913-14, and partly to some extra works having been carried out against the construction estimate to complete the line.
Total	3,08	60	1,26		
Sighjani-Fulchari Extension Railway.					
1. Rolling Stock	...	...	...		
2. Other Capital Works.	10,18	6,71	3,74		The lapse was due to certain works having been paid for in 1912-13, although provision for them was made in 1913-14.
Total	10,18	6,71	3,74		
Rajabhatkhawa Dalsingpara Extension Railway.					
1. Rolling Stock	...	...	...	...	
2. Other Capital Works.	4,40	51	1,98	...	The excess was chiefly due to the haulage charges for goods traffic from 1st April 1913 to 14th March 1914 and the extra cost of the maintenance staff having been entirely debited against the project estimate and also to the full amount of credits expected not being realised.
Total	4,40	51	1,98

2. Other Capital Works	9,40	1,90	1,97		...
Total	9,40	1,90	1,97		
Oudh and Rohilkhand Railway.					
1. Rolling Stock	22,69	42,89	32,57		The lapse (10,32) occurred chiefly in the Carriage and Wagon Department (9,93), and was due to the non-receipt of English materials and non-payment of certain contractor's bills for the construction of 400 covered goods wagons.
2. Other Capital Works	17,75	29,58	38,54		The excess of 8,96 was made up of an excess of 20,45 under 'Stores Suspense' and a lapse of 11,49 under 'Works.' The former was due to a falling off of 11,50 in the estimated credits to stores transactions and to an excess of 8,95 in the estimated debits to stores transactions. The causes contributing to the lapse under 'works' were savings on estimates (3,84), abandoned works (1,19), works in abeyance (1,58), works not taken up or taken up late during the year (2,75), and the transfer of funds from the Open Line to the Cawnpore-Banda Railway (1,42).
Total	40,44	72,47	71,11		
Cawnpore-Banda Railway.					
1. Rolling Stock	...	...	...		
2. Other Capital Works.	29,57	18,00	19,51	...	The excess was chiefly due to the extra work done on the Jumna Bridge.

183. These are all *net* sums representing the excess of deposits with Government on account of capital raised by Companies over withdrawals, or *vice versâ*. The Indian figures represent the difference between the advances taken by the Companies and the credits received chiefly on account of stores used on Revenue account. The English figures represent the difference between the capital deposited by Companies with the Secretary of State and the withdrawals for expenditure on stores, establishment charges, etc. These figures are necessarily liable to large fluctuations, but the following general explanations are furnished.

184. In England under Assisted Companies the actual capital receipts from and payments on capital account to Railway Companies amounted to £4,838,4 and £2,073,1, respectively, against the Budget provision of £4,417,0 and £3,237,9. The increase of £421,4 under receipts was due chiefly to the inclusion in the accounts for 1913-14 of £1,390,0 in respect of £2,000,0 Bengal-Nagpur Railway Company Debenture stock issued in January 1914, instead of, as contemplated, in 1914-15, and £496,3 in respect of £500,0 Debentures issued by the same Railway Company. On the other hand, £1,135,0 Debentures

Capital of Indian Railway Companies—*concld.*

of the Assam-Bengal, Bengal-Nagpur and Madras and Southern Mahratta Railway Companies were renewed instead of being replaced by fresh capital, and £280,0 Debentures of the Bengal-Nagpur Railway Company were discharged without replacement. It was, moreover, expected at the time of the preparation of the Budget that the Madras and Southern Mahratta Railway Company would raise £3,300,0 capital, the net proceeds of which would be £3,000,0, whereas only £,2,975,0 of capital were raised, the net proceeds of which were £2,916,5.

185. The decrease of £1,164,8 under payments was due to transfers between the Indian and English grants of the Companies, and to the fact that against the Budget provision for the discharge of £125,0 Assam-Bengal Railway, £335,0, Madras and Southern Mahratta Railway and £955,0 Bengal-Nagpur Railway Debentures, only £280,0 Debentures of the last mentioned Railway were discharged. The remaining Debentures were renewed.

186 The Branch Line Companies deposit capital in Government Treasuries and draw against these deposits for expenditure on construction according to requirements. During the year £164,7 were deposited and £179,3 withdrawn, as against £160,9 and £161,7 provided in the Budget, the differences being due chiefly to deposits and withdrawals in respect of the Mandra-Bhon and Sara-Serajgunj Railways, the construction of which was sanctioned during the year.

RAILWAY, IRRIGATION AND OTHER CAPITAL NOT CHARGED TO REVENUE.

49.—Irrigation Works.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
Imperial.					
India	...	—4,00	...	.....	......
Central Provinces	10,45	19,25	22,07	The rise (11,62) was chiefly due to better progress of work and improved supply of labour on account of scarcity.	As under Actuals.
Burma	26,53	23,80	18,87	The decrease (7,66) occurred mainly in connection with the Twante canal (10,73) and was due to smaller outlay on the dredging plant and on compensation for land taken up for the canal. The decrease was partly counterbalanced by an increase on the Mandalay canal (3,36) owing mainly to the reconstruction of the headworks of the canal.	The decrease (4,93) occurred in the Ye-u canal (3,74), due to a partial lapse of the grant owing to the difficulty of obtaining labour, in the Twante Canal (3,58) owing to the extension of the dredging period from four to six years, and in the Shwebo canal (1,01) owing to larger recoveries on account of water-course construction which are taken in reduction of expenditure. The above decreases were partly counterbalanced by an increase in the Mandalay canal (3,22) owing to the reconstruction of the headworks.
Bihar and Orissa	—2	...	—15	The minus entry in 1913-14 represents the adjustment of the cost of a house at Cuttack transferred to the Buildings and Roads Branch.	As under Actuals.
United Provinces	10,04	12,10	12,15	The increase (2,11) was mainly due to larger outlay on permanent headworks (3,77) and to fresh expenditure on the Gorai canal (86). It was partly counterbalanced by smaller outlay on the Hathras Branch (1,86), the Agra (41) and the Lower Ganges (29) canals.	......
Punjab	1,24,47	1,16,40	92,64	A number of large works on the Lower Chenab, Upper Chenab, Upper Jhelum and Lower Bari Doab canals having been completed in 1912-13, expenditure on these canals fell off in 1913-14 by 35,97. On the other hand, there were increases of 4,65 and 1,95 under the Upper Bari Doab and Lower Jhelum canals respectively.	Savings occurred (i) in the Upper Bari Doab canal (4,72) owing to less outlay on European stores, smaller expenditure on the hydro-electric installation scheme and to the ironwork of the Balloki Barrage, for which the Budget provided 1,00, having been completed in 1912-13, (ii) in the Lower Chenab Canal (5,84) due to the curtailment of the programme of water-proofing operations on the main line, (iii) in the Upper Chenab canal (3,45) due to credits afforded by the Central Workshop Division and the North-Western Railway for stock supplied and to the sale of tools and plant, and (iv) in the Lower Bari Doab canal (12,57) owing to the postponement of the construction of water-courses and masonry works on certain distributaries.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against Actuals, 1912-13.	Local Account Officer's Review of Actuals against Budget, 1913-14.
North-West Frontier Province.	30,27	32,64	34,08	The increase occurred mainly on the Upper Swat River Canal.	As under Actuals.
Madras . .	3,06	4,20	3,[illegible]	The principal increases were (i) 68 under the 'Kistna Delta System' due to large credits in 1912-13 on account of the re-sale of lands acquired for the Appapuram Project which was abandoned, and to the adjustment of the cost of a steamer, (ii) 25 under the 'Periyar system' due to improvements on the Peranai regulator, and (iii) 29 under the 'Toludur Project' which was sanctioned at the end of the year. The above increases were partly counterbalanced by decreases of 40 under the 'Nagavalli Project' and of 26 under 'Shatiatope' owing to the works approaching completion.	The decrease was entirely under the 'Godavari Delta System' due to the transfer of the work 'Reconstructing the Vizeswaram lock' from this head to '42.—Major Works' and to slow progress on the Yenamadurru drain works. The saving was, however, counterbalanced to a great extent by expenditure incurred under the 'Pennar River Canals,' 'Shatiatope Anicut System,' and the 'Toludur Project,' for which no provision had been made in the Budget.
Bombay . .	1,87	2,38	26	The decrease was due partly to smaller outlay on the improvement of the distributaries of the Begari, Jamrao and Dad canals and partly to the expenditure incurred in England, on account of payments to the Sukkur Barrage Committee in 1913-14, having been adjusted under '43.—Irrigation Minor Works.'	Savings occurred in the provision for the Dad, Begari and Jamrao canals. The payments to the Sukkur Barrage Committee also contributed to the decrease as explained under Actuals.

187. As compared with the previous year there was a decrease of 23,15. This included smaller outlay in the Punjab (31,83), and Burma (7,66). On the other hand, there were increases in the Central Provinces (11,62), the North-West Frontier Province (3,81) and the United Provinces (2,11).

There was a saving of 23,25 as compared with the Budget, which occurred in the Punjab (23,25), Burma (4,93). and Bombay (2,12). On the other hand, India (4,00) and the Central Provinces (2,82) showed excesses.

An excess of 6 requires the sanction of the Government of India.

51.—Initial expenditure on the New Capital at Delhi.

Province.	Accounts, 1912-13.	Budget, 1913-14.	Accounts, 1913-14.	Local Account Officer's Review of Actuals against	
				Actuals, 1912-13.	Budget, 1913-14.
India—					
Net expenditure	16,21	1,99,25	61,61	The project being only in a preliminary stage in 1912-13 the actuals were low in that year.	The decrease was due to the fact that the project estimate could not be sanctioned in 1913-14 and work could not therefore be carried on with as much vigour as was anticipated.
	£	£	£		
Equivalent in sterling	108,1	1,328,3	410,7		
Expenditure in England.	6,8	5,0	36,4	...	The account represents expenditure in consequence of indents and telegrams received during the year. No forecast for stores was received from India.
Total including England.	114,9	1,333,3	447,1		

188. No remarks.

DEBT HEADS.

189. **Permanent Debt.**—The net result of the transactions under this head was + £118,2 as compared with an estimate of + £131,5. The difference was chiefly due to the conversion of 3 per cent. rupee loan into 3½ per cent. loan in India. **SECTION O.**

190. **Unfunded Debt.**—The net result was + £2,202,0 against an estimate of + £1,501,4, the variation being due to the growth of the Savings Banks transactions. **SECTION P.**

191. **Deposits and Advances.**—The net result of the transactions under this head was + £67,8 against an estimate of — £2,248,7. The difference occurred chiefly in the Central Provinces, Burma, the United Provinces, Madras and Bombay and represents unspent balances of Provincial Funds. The receipts under Deposits of District Funds, Departmental and Judicial Deposits, Advances, and Suspense Accounts were also under-estimated in the Budget. In England, on the other hand, the advance of £500 made to the Imperial Bank of Persia was not foreseen in the Budget and there were more investments in British and Colonial Government securities for the Gold Standard Reserve. **SECTION Q.**

Imperial Loans and Advances.

192. A lump provision of 20,00 in India was only partially utilized. The other variations occurred mainly in Madras and Bombay. In Madras 12,00 were advanced to the Port Trust during the year out of the sanctioned loan of 50,00. In Bombay the transfer of all Imperial Loans to Native States, etc., to the 'Provincial Loan Account' with effect from 1st April 1913, and their adjustment in the course of the year contributed to the increase in recoveries.

Provincial Loans and Advances.

SECTION R R.

	Rupees.		Sterling.	
	Budget.	Accounts.	Budget.	Accounts.
Cr.	1,40,64	1,62,31	937,6	1,082,1

Net .	—18,89	—1,19,70	—125,9	—797,9

193. The increase in the outgoings was chiefly due to advances to cultivators in the Central Provinces, Assam and the United Provinces, owing to the unfavourable agricultural conditions. On the other hand, recoveries made from Native States in Bombay, hitherto treated as Imperial Loans and adjusted by transfer to this head, chiefly contributed to the increase under receipts.

194. **Loans to Local Boards for Railway Construction.** No remarks. **SECTION S.**

195. **Remittances.**—The net figure under this head was the result of very large transactions. The actual figure was —£176,8 against an estimate of —£66,1. The difference occurred chiefly in Madras and Bombay under Remittance account between England and India. **SECTION T.**

Secretary of State's Bills

SECTION U.

	Budget. £	Actuals. £
Drawings	21,650,0	29,050,8
Payments	21,650,0	29,050,8

196. Of the increase, £4,528,1 were used for the purchase of silver, and the remainder was to be used towards meeting the net disbursements in 1914-15 without recourse to a sterling loan.

Section V.—CASH BALANCE.

	1913-14. Budget.	1913-14. Accounts.
	£	£
BALANCE ON 1ST APRIL 1913—		
India	19,543,9	19,293,1
England	9,377,9	9,789,7
TOTAL .	28,921,8	29,082,8
BALANCE ON 31ST MARCH 1914—		
India	12,546,7	15,608,3
England	5,111,0	8,157,7
TOTAL .	17,657,7	23,766,0
Increase (+) or decrease (—) of balance on 31st March 1914	—11,264,1*	—5,316,8

* The above difference is distributed between India and England in the following proportions :—

	1913-14. Budget.	1913-14. Accounts.
	£	£
India	—6,997,2	—3,684,8
England . . .	—4,266,9	—1,632,0
TOTAL .	—11,264,1	—5,316,8

Taking India and England together, the net transactions of the year were better than expected in the Budget by £5,947,3. The variations which brought about this result were as follows :—

	tter.	Worse.
	£	£
Imperial surplus	986,1	...
Provincial surplus	2,629,7	...
Increase in the Railway, Irrigation and other Capital not charged to Revenue	2,538,1	
Decrease under Permanent Debt		13,3
Decrease in the receipts under Appropriation for Reduction, etc. . .	...	110,9

POLITICAL.

No. 1286-1299.

The 15th April, 1915.

RESOLUTION.—By the Government of India, Home Department.

The Governor General in Council is pleased to direct that the following shall be substituted for the first sub-paragraph of paragraph 2 of the Resolution of the Government of India in the Home Department, no. 2951-2964, dated the 18th December 1914, *viz.* :—

"Every native of India who contemplates proceeding out of India to "foreign countries is strongly urged before leaving, to furnish himself with an "authoritative certificate of identity, in the form appended to this Resolution, "signed by the head of the district (in a Presidency Town and in the town of "Rangoon, the Commissioner of Police) in the case of residents of British India, "and by the Political Officer in that of residents of Native States. In the case "of a student the certificate should be signed by the head of his last school or "college and countersigned by the District Officer (in a Presidency Town and "in the town of Rangoon, the Commissioner of Police) or Political Officer, as "the case may be."

ORDER.—Ordered that this Resolution be communicated to all local Governments and Administrations for information (and guidance), in continuation of the Home Department Resolution no. 2951-2964, dated the 18th December 1914 (and with reference to the Government of Burma's letter no. 33-2C-1, dated the 1st March 1915).

( ) to Burma only.

Ordered also that a copy be sent to the Foreign and Political Department for information, in continuation of the Home Department Resolution no. 2951-2964, dated the 18th December 1914.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

No. 1282.—In exercise of the power conferred by section 3 of the Delhi Laws Act, 1912 (XIII of 1912), the Governor General in Council is pleased to make the following amendment in the notification of the Government of India in the Home Department, no. 1008, dated the 1st October 1912, namely :—

Entry no. 8 of the Schedule relating to the Indian Press Act, 1910, shall be omitted.

H. WHEELER,

Secretary to the Government of India.

FOREIGN AND POLITICAL DEPARTMENT.

CUSTOMS.

Simla, the 17th April, 1915.

No. 3957-W.—The following Order in Council is republished for general information :—

AT THE COUNCIL CHAMBER, WHITEHALL,

The 18th day of March, 1915.

By the Lords of His Majesty's Most Honourable Privy Council.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade :

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section one of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade :

And whereas by a Proclamation, dated the 3rd day of February, 1915, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section one of the Exportation of Arms Act, 1900, and Section one of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain Warlike Stores was prohibited :

And whereas by an Order of Council, dated the 2nd day of March, 1915, the said Proclamation was amended and added to in certain particulars :

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect :—

That the Proclamation, dated the 3rd day of February, 1915, as amended and added to by the said Order of Council, dated the 2nd day of March, 1915, should be further amended by making the following amendments in and additions to the same :—

(1) That the heading "Thorium nitrate" in the list of goods the exportation of which is prohibited to all destinations should be deleted, and there should be substituted therefor the heading "Thorium oxide, thorium nitrate, and other salts of thorium."

(2) That the heading "Salicylic acid and Salicylate of soda" in the list of goods the exportation of which is prohibited to all destinations should be deleted, and there be substituted therefor the heading "Salicylic acid, Salicylate of soda and Methyl salicylate."

(3) That the following article should be added to the list of goods the exportation of which is prohibited to all destinations :—

SHEEPGUT.

(4) That the heading "All vegetable oils (other than linseed oil, boiled and unboiled, unmixed with other oil, and not including essential oils)" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "Oils, all vegetable, and fats (other than linseed oil, boiled and unboiled, unmixed with other oil and not including essential oils)".

(5) That the heading "Oleo oil, Premier jus. and animal tallow" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "All animal oils and fats."

(6) That the heading "Rubber (including raw, waste and reclaimed rubber) and goods made wholly of rubber; including tyres for motor vehicles and for cycles, together with articles or materials especially adapted for use in the manufacture or repair of tyres" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "Rubber (including raw, waste and reclaimed rubber, solutions containing rubber, jellies containing rubber, or any other preparations containing rubber) and goods made wholly of rubber; including tyres for motor vehicles and for cycles, together with articles or materials especially adapted for use in the manufacture or repair of tyres."

(7) That the heading "Sheepskins, woolled, *i.e.*, with the wool left on" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "Sheepskins, whether woolled or not."

(8) That the heading "Vessels, boats and craft of all kinds (including floating docks) and their distinctive component parts" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and that there be substituted therefor the words "Vessels, boats and craft of all kinds; floating docks and their distinctive component parts."

(9) That the following articles should be added to the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates :—

Chemicals, drugs, medicinal and pharmaceutical preparations :

Ammonia and its salts, whether simple or compound, other than ammonium nitrate, perchlorate and sulphocyanide (the exportation of which is already prohibited to all destinations).

Ammonia liquor.

The compounds of aniline, except aniline salt (the exportation of which is already prohibited to all destinations).

Chloride of Tin.

Copper Iodide.

Tanning substances of all kinds (including **extracts** for use in tanning) except chestnut extract, oak-wood extract, and valonia (the exportation of which is already prohibited to all destinations).

Urea and its compounds.

Deer skins, dressed and undressed.

Goat skins, dressed and undressed.

Metals and ores, namely :—

Tin and tin ore.

Neat's foot oil.

Provisions and victuals which may be used as food for man, namely :—

"Peas, except tinned and bottled peas and peas packed in cardboard boxes and similar receptacles."

(10) That the heading "Goat skins, undressed" in the list of goods the exportation of which is prohibited to all foreign ports in Europe and on the Mediterranean and Black Seas, other than those of France, Russia (except Baltic ports), Belgium, Spain and Portugal, should be deleted.

(11) That the exportation of the following goods should be prohibited to all foreign ports in Europe and on the Mediterranean and Black Seas, other than those of France, Russia (except Baltic ports), Spain and Portugal :—

Provisions and victuals which may be used as food for man, namely :—

Compressed and desiccated soups.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

Almeric Fitzroy.

CASH.

The 14th April, 1915.

No. 3832-6.—Mr. C. H. Baldrey, Secretariat Superintendent, 3rd grade, who was granted combined leave for 1 year and 3 months in this Department's Notification No. 4937-23, dated the 20th June 1914, and was recalled to duty, rejoined with effect from the 6th April 1915

Mr. A. E. S Billings, who was appointed to officiate as Secretariat Superintendent, 3rd grade, in this Department's Notification No. 1446, dated the 20th February 1915, reverts to the appointment of Secretariat Assistant, 1st grade, from that date and Mr. Fateh Din, who was appointed to officiate as Secretariat Superintendent, 3rd grade, in this Department's Notification No. 4937-23, dated the 20th June 1914, will continue to so officiate in Mr. Billings' place.

Under Clause 53 of the Regulations appended to the Regimental Debts Act, 1893, it is notified that reports of the deaths of the undermentioned Commissioned Officers on the dates

specified, were received in the Army Department between the [illegible] and 14th April 1915.

Corps.	Rank and name.	Date of Decease.	Place of Decease.	Remarks.
46th Punjabis. Attached to 130th King George's Own Baluchis (Jacob's Rifles).	Major William Archibald Smail Walker.	12th April 1915	East Africa ...	Killed in action.
129th Duke of Connaught's Own Baluchis.	Captain Robert Foster Dill, D.S.O.	11th April 1915	France ...	Killed in action.

Erratum.—In Army Department notification dated the 20th November 1914, published in the *Gazette of India* of the 21st November 1914, under column "Date of decease" against Captain Gilbert Howe Maxwell Marsh, *for* "Ditto" *read* "1st November 1914."

B. HOLLOWAY, *Brigadier-General,*
Secretary to the Government of India.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS.

Simla, the 12th April, 1915.

No. 86.—It is hereby notified, for general information, that the Railway Board have sanctioned a survey being carried out by the Eastern Bengal Railway for a line of railway on the 5′ 6″ gauge from Krishnagar to Jellinghee, a distance of about 56 miles.

2. The survey will be known as the Krishnagar-Jellinghee Railway Survey.

No. 87.—Sir H. P. Burt, K.C.I.E., V.D., President of the Railway Board, is permitted to retire from the service of Government with effect from the 18th April 1915.

No. 88.—With reference to Railway Board's Notification No. 87, dated the 12th April 1915, the Hon'ble Mr. R. W. Gillan, C.S.I., I.C.S., is appointed, with the approval of His Majesty's Secretary of State for India, President of the Railway Board.

No. 89.—With reference to Railway Board's Notification No. 88, dated the 12th April 1915, Mr Francis Dundas Couchman, M. Inst. C.E., Agent, Burma Railways Company, is appointed, with the approval of His Majesty's Secretary of State for India, a Member of the Railway Board.

The 15th April, 1915.

No. 90.—Mr. J. H. Cardew, Electrical Engineer, North Western Railway, is permitted, at his own request, to resign the service of Government with effect from the 19th March 1915.

No. 91.—With reference to Railway Board's Notification No. 90, dated 15th April 1915, Mr. D. A. Petruse, Foreman Electrician, North Western Railway, is placed in charge of the office of the Electrical Engineer of that Railway until further orders.

The 16th April, 1915.

No. 92.—It is hereby notified for general information that the Railway Board have sanctioned a detailed survey being carried out by the Great Indian Peninsula Railway Administration for a line of railway on the 2′ 6″ gauge from Mumbra, a station on the Great Indian Peninsula Railway or some other suitable point to Panvel, with a branch from Taloja to Shahaba, a distance of about 22½ miles.

This survey will be known as the Mumbra-Belapur-Panvel Railway Survey.

No. 93.—Mr. C. A. Irwin, Assistant Metallurgical Inspector, is appointed to hold charge of the current duties of the office of Metallurgical Inspector, during the absence of Dr. A. McWilliam on privilege leave and until further orders.

No. 94.—With reference to Railway Board's Notification No. 93, dated the 16th April 1915, Mr. N. Brodie, Assistant Chemist, Government Test House, Calcutta, is appointed to officiate as Assistant Metallurgical Inspector.

T. RYAN,
Secretary, Railway Board.

(a) From the 29th March to the 4th April 1915.
(b) For the week ending 3rd April 1915.

L. C. PORTER,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hours on Thursday, the 15th April 1915, based on the Indian Daily Weather Reports of the period.

1. An unusually deep depression of the winter type was shown over the entrance to the Persian Gulf on the 9th. It moved in a northeasterly direction and disappeared in the western Himalayas, after giving nearly general and moderate to heavy precipitation in Baluchistan, the North-West Frontier Province and Kashmir, as well as nearly general light rain in Sind. The rainfall at Parachinar amounted to over 7 inches in forty eight hours.

Conditions favouring thunderstorms developed on the 13th over the northwest of the Peninsula and the central parts of the country, and numerous thundershowers were reported from the Konkan, the Bombay Deccan, the Central Provinces and Central India.

With the exception of a few falls of rain in Burma, Assam and the south of the Peninsula, weather was dry over the rest of the country.

2. *Burma.*—Rain fell at only Victoria Point and Moulmein.

Northeast India, including Orissa.—Local falls of rain occurred in Assam, but in the rest of the division Hazaribagh was the only station that reported any rain.

The United Provinces, Central India and the Central Provinces.—There was general rain in Central India West on the 13th, and local rain in Central India and the west of the Central Provinces on the 14th.

Northwest India.—Rainfall was nearly general in Baluchistan and Sind on the 9th, in Baluchistan and the North-West Frontier Province on the 10th, and in the North-West Frontier Province and Kashmir on the 11th. Some precipitation also occurred in the north Punjab and at Dwarka.

The Peninsula.—Fairly widespread but light rain fell on the 14th in the north of the Bombay Deccan and northeast Hyderabad. A few scattered falls were reported during the week from other parts of the Peninsula.

3. The chief amounts of rain were as follows :—

April 8th. Silchar 5·40″ and Dibrugarh 1·75″.

„ 9th. Panjgur 1·86″ and Karachi 0·71″.

„ 10th. Harnai 1·40″, Dalbandin 1·12″, Pasni 1·03″, Peshawar 0·94″, Parachinar 3·20″, Sonamarg 1·04″ and Karachi 0·63″.

„ 11th. Moulmein 1·75″, Srinagar 1·34″, Sonamarg 1·98″, Murree 1·11″, Parachinar 4·00″, Drosh 1·35″ and Harnai 1·10″.

„ 12th. Drosh 1·12″.

„ 13th. Sialkot 1·21″, Srinagar 1·89″ and Sonamarg 1·38″.

„ 14th. Tinnevelly 1·96″.

4. The week's rainfall was 20 per cent or more in excess in the North-West Frontier Province, Kashmir, Baluchistan, Sind, Gujarat, Central India West, Berar, the Konkan and Hyderabad North. It was normal in the Punjab East and North, Central India East, the Central Provinces West, the Bombay Deccan and Mysore, and was 20 per cent or more in defect elsewhere.

The rainfall from the 4th December to date is 20 per cent or more in excess in all divisions, except Assam, Kashmir, Baluchistan, Sind and Madras Southeast where it is within 20 per cent of the normal, and in Orissa where it is 31 per cent in defect.

Division.	Rainfall data for week ending on 15th April 1915.			Rainfall data from 4th December 1914 to 15th April 1915.				
	Actual rainfall in inches.	Normal rainfall in inches.	Excess or defect in inches.	Actual rainfall to date in inches.	Normal rainfall in inches.	Excess or defect in inches.	Percentage departure from normal. This week.	Percentage departure from normal. Last week.

G. C. SIMPSON,
Offg. Director-General of Observatories.

L. J. KERSHAW,
Secretary to the Government of India.

SIMLA;
Dated 15th April 1915.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 10th April 1915.

Burma.—Light showers fell in eight districts and in the north of the Province. The clearing of hillside and harvesting of miscellaneous crops are progressing. Standing crops are satisfactory. Cattle are healthy and pasturage is ample. The price of unhusked rice in Rangoon has risen further but continues to be much below normal.

Assam.—Heavy rain fell in most districts. Plucking of tea and ploughing of land for rice and jute are in progress. Pressing of sugarcane has been practically finished. The average price of common rice is practically stationary with a slight tendency to rise. Cattle disease is reported from five districts.

Bengal.—Light to moderate rain fell in most districts of eastern Bengal and in a few parts of western Bengal. More rain is wanted for the cultivation and sowing of the autumn crops. Standing crops are suffering in places on account of insufficient rainfall. A severe hailstorm has been reported from Jalpaiguri and Dacca and standing crops at both places have been damaged to some extent. Cattle disease is reported from fifteen districts. The average price of common rice has a slight tendency to rise as compared with that of the previous week.

Bihar and Orissa.—Light rain fell in parts of Orissa, Chota-Nagpur and in the Tirhut division. Harvesting of spring crops and preparation of lands for the next season's crops are going on. Standing crops and vegetables are doing well The average price of common rice has risen slightly as compared with that of last week. The supply of fodder and water is sufficient. Cattle disease is reported from fourteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Light rain accompanied by hail fell throughout the Provinces, slightly damaging crops in eleven districts. Standing crops are doing well. Reaping and threshing of spring crops. irrigation of sugarcane and extra crops, hoeing of cane, sowing of early rice and preparation of land for autumn crops continue. Opium weighments have commenced in places. The condition of agricultural stock is good but cattle disease is still reported from thirteen districts. Fodder and water are ample. The supplies of grain have run short in parts of Almora. There has been a widespread fall in prices during the week.

Punjab.—Light to moderate rain has fallen in all the reporting districts except in a few districts in the south-east and west. Hail and rain have slightly damaged the standing crops in parts of the south-east. Fine weather is required everywhere. The condition of standing wheat and other spring crops is good. Reaping and harvesting of wheat, gram and barley in the south-east and of gram and barley elsewhere is in progress. The yield is normal to good. Sowing of the extra spring crops, except in the south east, and ploughing for and sowing of sugarcane and cotton continue and are generally normal. Cattle are healthy and fodder and water for drinking and irrigation are sufficient. Prices are generally stationary but are falling in the south-east. They range between warning and scarcity rates or are above scarcity rates. Prices of wheat in Ambala, Lahore and Lyallpur are 7½, in Ferozepore 7¾ and in Rawalpindi 9 seers per rupee.

North-West Frontier Province.—During the week the rainfall was general throughout the Province. Standing crops both on irrigated and unirrigated areas are fairly good. Hailstorms occurred in Peshawar, Bannu and Dera Ismail Khan causing some damage in parts of the last named district. Harvesting of gram in Bannu and of *sarshaf* and barley in Peshawar continues. Sowing of the extra spring crops is in progress. The condition of cattle is generally good. Fodder and water are procurable Prices are high and are rising in the case of gram in Peshawar and Bannu but are falling in the case of wheat and barley in Peshawar.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 6¼ to 12¼ and maize from 9½ to 20 seers per rupee. The condition of standing crops is good. Cattle disease prevails in the Bhimber tahsil. Fodder is sufficient.

Kashmir.—Heavy rain fell during the week. Spring crops are in good condition. Agricultural operations for autumn crops are in progress. Cattle are generally healthy. Prices are high in Baramula and normal elsewhere. Water and fodder are sufficient except that fodder is scarce in Baramula.

Rajputana.—Slight showers were received in parts of eastern Rajputana and Ajmer. The weather is clear and is becoming generally hot. Harvesting of spring crops is in progress. Prospects are fair to good. The condition of cattle is generally good. Fodder and water are sufficient. Prices are generally showing a downward tendency.

Central India.—The rainfall was partial in Gwalior and Bhopal, slight in Bundelkhand and *nil* elsewhere. The weather is cloudy. Harvesting of spring crops is in progress. Reaping of gram and wheat has been completed in Indore. Land is being prepared for autumn crops in the Nimar district of Indore and in the Southern States. The probable outturn is generally good. Crops have been damaged in portions of Orchha, Datia and Panna. Agricultural stock is generally good except in the Indore district and the Sundarsi pargana of Indore, and in parts of Dhar, Jobat and Alirajpur of the Southern States. The fodder supply is sufficient throughout. Prices are high in Bhopal and Baghelkhand, are falling in Gwalior and Malwa but are steady elsewhere.

Central Provinces.—The weather has been hot and occasionally cloudy. Light showers were received in fourteen districts accompanied by hail in parts of Jubbulpore and Wardha. Reaping of spring crops has been almost completed and threshing and winnowing continue. Land is being prepared for the sowing of autumn crops. Fodder and water are sufficient and cattle are in good condition. The price of wheat continues to fall generally. Fluctuations in the prices of other food grains are unimportant.

Feudatory States :—Kawardha received light rain. Harvesting of spring crops has been practically finished. Threshing and winnowing are in progress The price of wheat fell in four States and that of gram in five.

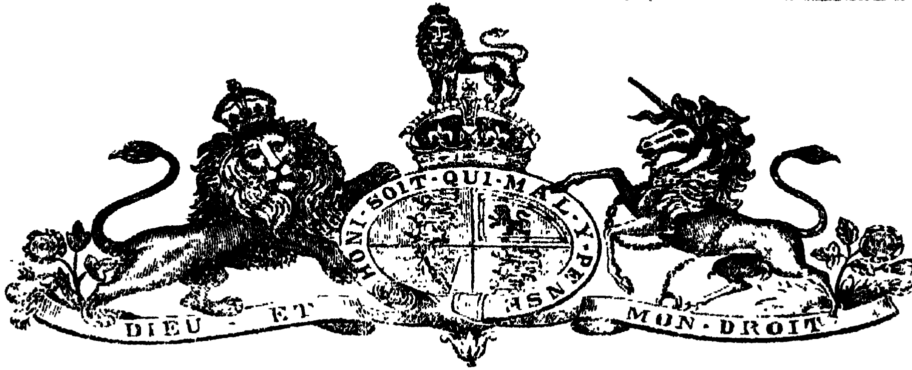
Bombay.—Rain fell during the week in Sind, East Khandesh, Sholapur, Satara, the Karnatak and Kolhapur. Spring crops have been damaged slightly by blight in three talukas of Thar and Parkar and by rats in one State of Rewa Kantha. Cotton picking is progressing in Gujarat, West Khandesh, Satara, the Karnatak, Baroda, Rewa Kantha and Cutch. Harvesting of spring crops generally continues. Preparation for the cultivation of autumn crops is progressing. The fodder supply is sufficient except in two mahals of Karachi, two talukas of Thar and Parkar, one taluka of Nawabshah and one taluka of Hyderabad. Cattle are good. Agricultural stock is sufficient everywhere except Poona. Drinking water is adequate. Water for irrigation is generally sufficient. Prices are generally steady.

Hyderabad.—Slight rain fell in parts, the average fall being 18 cents. Harvesting of spring crops has been hindered by rain but is in progress in a few places. Late rice crops are generally fair to good and are being weeded in places. Water scarcity prevails in parts of the Gulbarga taluka. Cattle disease prevails in six talukas. The highest price in districts is *juar* 10 seers in Warangal and the lowest 22 seers in Bir, Gulbarga and Adilabad.

Mysore.—No rain fell during the week in Bangalore, Kolar and Tumkur but light rain was received elsewhere. The price of *ragi* has fallen in Shimoga, Chitaldrug and Kolar and has risen in Hassan, and that of rice has fallen in Kolar. Markets are well supplied. The outturn of the harvested sugarcane, *ragi*, paddy, gram, wheat and cotton is fair. Ploughing operations are in progress. Paddy and sugarcane have been sown in parts. Standing crops are generally in good condition. Prospects of the season are generally good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Coffee is in blossom in parts. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was good in Cochin and light or *nil* elsewhere. Standing crops are fair to good but have withered or require rain in parts of two districts. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. The water supply is sufficient except in Guntur and Madura and in parts of Ganjam, Godavari, South Canara, the Deccan, Carnatic except Chingleput, the Central parts except Coimbatore, and the Southern parts except Tinnevelly. Pasture is sufficient except in Guntur, Kurnool, Anantapur, Cuddapah, Coimbatore, Malabar and South Canara and in parts of six other districts. Fodder is sufficient. Prices are falling.



L. J. KERSHAW,

Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian Railways.

REGISTERED No. C. 696.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 17, 1915.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 19th March 1915.

On and after 3rd April and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

J. J. MEIKLE,
Publisher, *Gazette of India*.

THE PATENT OFFICE.

PATENTS and DESIGNS.

Calcutta, the 17th April 1915.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

April 6.

2082. A. T. Harvey. *Improvements in or connected with railway sleepers.*

2083. A. Goddard. *Mica and clay composition.*

2084. P. Shamrao. *The combined cooker and tiffin carrier.*

2085. Count A. M. Zannini. *Elastic tyre without air tube.*

2086. F. Spencer. *Improvements in buffer, draw and other springs constructed of india-rubber.*

2087. H. O. Gowlland. *Multi-focal eyeglass lens.*

April 7.

2088. The Mills Equipment Co. Ltd., and A. L. Lethern. *Improvements in or relating to cartridge carriers.*

2089. F. A. C. Devereux. *Perfection plough attachment.*

April 10.

2090. B. Greer Spencer. *Auto-locking and registering device for tippling machines.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Anyone desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

1809. Belanger Spinning Process Co. *Improvements in cap-spinning.*

2022. A. W. Davis. *Combined vertical revolving map stand and sling.*

2027. G. B. Bakle. *Improvement in the Marathi, Hindee and Gujarathi types used to compose in the printing presses and the types in the type-writing, linotype and the like machines.*

2047. N. Fraser, P. Fraser and G. S. Fraser. *Improvements in machinery for forming plaited soles for boots and shoes.*

2049. W. G. Rhodes. *Improvements in electric lamps and switches therefor.*

2058. J. A. Hill. *Improved ash ejector for locomotive and other furnaces and the like.*

2059. C. F. Vaughan. *Improvements relating to shock absorbers for vehicles.*

2060. Manganese Steel Rail Co. *Heat treatment of manganese steel.*

2063. A. Roberts. *An improved method of and apparatus for heating coke ovens or the like.*

2067. W. Hey. *Improvements in neckties.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

1885. International Cigar Machinery Co. *Improvements in and connected with wrapper delivering mechanism for cigar machines.*

1887. International Cigar Machinery Co. *Improvements in cigar machines.*

1888. International Cigar Machinery Co. *Improvements in cigar machines.*

2012. W. T. Jones. *A fuel economizer for small hot-air engines, fan-motors and the like.*

2013. W. Jones and Jones and Attwood Ld. *Improvements in and connected with the purification of sewage and analogous liquids.*

2024. G. J. Coles. *An improved automatic coupling for colliery tubs or corves and similar vehicles.*

SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7, accompanied by the fee, R30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

1654. Vibrocel Co., Ld.
1763. Abraham.
1776. Luard.
1805. Devereux.
1826. Bham.
1838. Mechanical Process Manufg. Co.
1839. Mechanical Process Manufg. Co.
1934. Aranha.

PATENTS SEALED.

1615. Lalkaka.
1748. Rosario.
1760. Karani.
1929. Gresham & Kiernan.
1935. Murray.
1936. Murray.
1939. Elliott.

RENEWAL FEES PAID

269 of 1904. Smith. (To 3 November 1916.)
385 of 1904. Timmis. (To 11 April 1916.)
355 of 1905. National Wire Bound Box Co. (To 12 March 1916.)
140 of 1906. Ore Concentration Coy. (1905) Ltd. (To 25 April 1916.)
584 of 1906. McDonald. (To 8 April 1916.)
131 of 1907. Chloride Electrical Storage Co. Ltd. (To 19 April 1916.)
491 of 1907. Eufon Co. Ld. (To 30 May 1916.)
370 of 1908. McMuller. (To 3 June 1916.)
68 of 1909. Badische Anilin & Soda Fabrik. (To 21 April 1916.)
538 of 1909, Rock Drill Appliances Syndicate. (To 24 May 1916.)
554 of 1909. Nandkishore. (To 7 February 1916.)
555 of 1909. Nandkishore. (To 7 February 1916.)
576 of 1909. Sheffield and another. (To 4 June 1916.)
668 of 1909. Sheffield and another. (To 25 June 1916.)
6 of 1910. Reid. (To 25 June 1916.)
18 of 1910. Woods and another. (To 16 April 1916.)
102 of 1910. Firman. (To 20 September 1916.)
312 of 1910. Yusaf. (To 8 March 1916.)
464 of 1910. Nandkishore. (To 21 February 1916.)
126 of 1911. Consolidated Brake & Engineering Co. and another. (To 25 April 1916.)
343 of 1911. Thomas. (To 27 July 1916.)

APPLICATION FOR LICENSE OR REVOCATION.

Notice is hereby given that an application for the grant of a license under the patents Nos. 249 and 250 of 1912, or, in the alternative, for the revocation of these patents, has been left at the Patent Office on behalf of The Calder and Mersey Extract Co. Ld.

These patents have been granted to the Badische Anilin & Soda Fabrik of Ludwigshafen on Rhine, Germany, for "The manufacture and production of new materials suitable for use in tanning" and "Improvements in tanning."

The patentees, or other interested persons, may file notice of objection, accompanied by full statements in duplicate of the reasons therefor, with the Controller of Patents, 1, Council House Street, Calcutta. The application and objections, if any, will be taken into consideration at a date to be announced subsequently.

CESSATION OF EXCLUSIVE PRIVILEGE.

DESIGNS ENTERED ON THE REGISTER.

April 5—10.

Class 13. Nos. 2779-2787. The Calico Printers' Association, Ld., St. James's Buildings Oxford Street, Manchester, England. April 6, 1915.

Class 15. Nos. 2788-2792. The Calico Printers' Association, Ld., St. James's Buildings, Oxford Street, Manchester, England. April 6, 1915.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price 10 annas), and in the Indian Patents and Designs Rules, 1912 (price 2 annas). These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs nor their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs*, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD	R. C. Technical Institute.
ALLAHABAD	Public Library.

SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE, CINCHONA FEBRIFUGE, RESIDUAL ALKALOID AND QUINOIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona alkaloids. Quinine can be purchased by Government officers, District and Local Boards. It can also be purchased by Missionaries for *bonâ-fide* public purposes. Otherwise it is not sold to private persons or firms. Cinchonidine is for sale to Government officers and to dealers. Cinchona Febrifuge can be purchased both in powder and 3½ grain tablet forms by Government officers and the general public. It is also sold by the principal Druggists in Calcutta. Quinoidine or *Pure amorphous alkaloid* and Residual Alkaloid or *Amorphous cinchona alkaloid*, which contains about 40 per cent. of *pure amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance, but private purchasers may use the V. P. Post system, and are obtainable from the Superintendent, Juvenile Jail, Alipore.*

The rates for these drugs from 1st April 1914 are as follows:—

SULPHATE OF QUININE.

	R
For quantities of not less than 6 lbs. in one delivery	13 per lb.
For any quantity less than 6 lbs. in one delivery	15 „

SULPHATE OF CINCHONIDINE.

	R
For quantities of not less than 6 lbs. in one delivery	12 per lb.
For any quantity less than 6 lbs. in one delivery	14 „

CINCHONA FEBRIFUGE.

	R
For quantities of not less than 6 lbs. in one delivery	5 per lb
For any quantity less than 6 lbs. in one delivery	6 ..

RESIDUAL ALKALOID OR *AMORPHOUS CINCHONA ALKALOID* AND QUINOIDINE OR *PURE AMORPHOUS ALKALOID*.

	R
For any quantity	4 per lb.

Quinine is available in 1-oz., ¼-lb., ½-lb., 1-lb. and 4-lb. tins.
Cinchonidine is available in ¼-lb., ½-lb. and 1-lb. tins.
Cinchona Febrifuge is available in ¼-lb., ½-lb. and 1-lb. tins.
Residual Alkaloid is available in 10-lb., 5-lb. and 1-lb. tins.
Quinoidine is available in 10-lb. and 1-lb. tins.

Transit charges are in addition to the above prices in every case.

Drugs are sold strictly cash and in advance. Price of Postage must accompany the price of the drug (when the drug is required by Post). No charges are made when drugs are sent by Rail. The name of the Railway Station, Steamer or Post Office must be written distinctly when the parcels are required by Rail, Steamer or by Post. A scale of Postage is given below :—

For ¼ and ½ lb. 4 As.; 1 lb. 6 As.; 2 lbs. 10 As.; 3 lbs. 12 As.; 4 lbs. 1 Re.; 5 lbs. Re. 1 As. 4; and for 6 lbs. Re. 1 As. 6.

HOWRAH CEMETERY, BENGAL.

The following list is of the persons known to be buried in the Howrah Old Cemetery. The Executive Engineer, 3rd Calcutta Division, has declared these graves to be in a ruinous condition. Representatives of the deceased persons are hereby notified to put monuments into repair within six months of the issue of this notification. All graves not put into repair by the close of that time will be dealt with under 280, Rule X, Part IV, Public Works Department Regulations for the Care of Cemeteries.

All communications about graves should be sent to the Chaplain of Howrah.

The 23rd March 1915. H. F. FULFORD WILLIAMS,
Chaplain of Howrah.

List of Graves in the Old Cemetery closed at Howrah.

A Registry Office for men of the undermentioned grades is kept up by the Principal, Thomason College, Roorkee. Officers and employers of labour requiring men are requested to apply to the Principal :—

1. Engineers.
2. Overseers.
3. Sub-Overseers.
4. Draftsmen and Surveyors.
5. Motor Car Drivers.
6. Engine Drivers.
7. Men trained in—

(*a*) Photo-Mechanical and Lithographic Work.

(*b*) Workshops (both Electrical and Mechanical sides).

E. ATKINSON, LIEUT.-COL., R.E.,
Principal, Thomason College, Roorkee.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

EXAMINATION QUALIFYING FOR ADMISSION TO THE FOURTH GRADE OF THE ACCOUNTS BRANCH OF THE PUBLIC WORKS DEPARTMENT.

The examination will be conducted by the Principal of the Civil Engineering College, Sibpur, on June 7th and 8th, 1915, at the following centres :—

Centres.	*Registering officer.*
(1) The Civil Engineering College, Sibpur. (There is no other centre at Calcutta.)	For candidates registered by the Accountant-General, Bengal.
	For candidates registered by the Post and Telegraphs.
	The Examiner of Accounts, Eastern Bengal State Railway.
	The Government Examiner of Accounts, East Indian Railway.
	The Government Examiner of Accounts, Bengal-Nagpur Railway.
	For candidates outside Government service over 25 years of age registered by the Principal, Civil Engineering College, Sibpur.
(2) Office of the Accountant-General, Bihar and Orissa, Ranchi.	For candidates registered by the Accountant-General, Bihar and Orissa.
(3) The Office of the Comptroller, Shillong.	For candidates registered by him.
(4) The Office of the Accountant-General, Rangoon.	For candidates registered by him.
(5) The Office of the Government Examiner of Railway Accounts, Chittagong.	For candidates registered by him.
(6) The Office of the Accountant-General, Railways, Simla.	For candidates registered by him.
(7) The Office of the Examiner of Accounts, Lower Ganges Bridge, Paksey.	For candidates registered by him.

Candidates must apply for registration to one of the Government officials on the above list. Those over 25 years of age not in Government service must apply for registration to the Principal.

Applications *on the prescribed form* must reach the office of the registering officer not later than May 7th, 1915. They must be accompanied by a fee of R10 and the following certificates in original, or true copies of them certified by an officer of the Engineer or Accounts Branch. These certificates will not be returned :—

(*i*) Certificates of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(*ii*) Certificate of age, baptismal or of birth (not required, if the candidate is already in permanent Government employ).

(*iii*) Certificate that the application is in the candidate's own handwriting.

Copies of rules may be had on application from the undersigned.

B. HEATON,
Principal.

CIVIL ENGINEERING COLLEGE, SIBPUR,
The 8th April 1915.

The 9th April 1915.

No. 2318-*Home*.—Under the provisions of section 28, sub-section (1), of the Punjab Courts Act, 1914, Lala Jeshta Ram, Registrar of the Small Cause Court, Delhi, is invested with the powers of a Munsif of the 2nd class with respect to cases generally within the limits of the Delhi Municipality and of the Delhi Notified Area, and with effect from the date he assumes charge of his duties.

The Chief Commissioner is pleased to direct that Lala Jeshta Ram shall be deemed for the purposes of the said Act to be a Munsif.

No. 2321-*Home*.—Under the provisions of section 12 of Act IX of 1887, the Chief Commissioner is pleased to appoint Lala Jeshta Ram, B.A., Registrar of the Small Cause Court at Delhi, and to confer upon him, within the local limits of the jurisdiction of the said Court, with effect from the date he assumes charge of his duties, the powers of a Judge of a Court of Small Causes for the trial of suits of which the value does not exceed R20.

The 10th April 1915.

No. 2361-*Home*.—Under the provisions of section 5, sub-section (2), of the Provincial Small Cause Courts Act, IX of 1887, and in supersession of so much of Punjab Government Notification No. 473, dated the 16th April 1889, as refers to Delhi, the Chief Commissioner is pleased to define the local limits of the jurisdiction of the Court of Small Causes specified in column 1 of the following schedule, to be those detailed in column 2 of the schedule.

The Chief Commissioner is further pleased to direct that the jurisdiction, so far as it is hereby declared to extend to Municipal and Notified Area limits of this Court, shall vary with such changes in the limits of the Municipality and Notified Area concerned as may from time to time be notified in the Gazette of India.

Schedule.

1	2
Name of Small Cause Court.	Area of jurisdiction.
Delhi	1. The boundaries of the Delhi Municipality as defined in Punjab Government Notification No. 831, dated the 6th November 1882, No. 713, dated the 24th September 1888, No. 69, dated the 6th February 1892, and Chief Commissioner's Notification No. 421, dated the 16th January 1913. 2. The boundaries of the Notified Area, Delhi, as defined in Notification No. 422, dated the 16th January 1913. 3. The Delhi Cantonment.

The 10th April 1915.

No. 2372-*Home*.—With reference to Notification No. 1849-Home, dated the 27th of March 1915, and in exercise of the powers conferred by section 11 of the Indian Motor Vehicles Act VIII of 1914, the Chief Commissioner is pleased to make the following rules :—

(*Vide* rules attached).

Notifications Nos. 1647 and 7006-Home, dated the 16th December 1912 and 25th September 1913, are hereby cancelled.

RULES UNDER SECTION 11 OF ACT VIII OF 1914, REGARDING THE GRANT OF CERTIFICATES OF REGISTRATION AND OF DRIVING LICENSES AND FOR THE REGULATION OF THE USE OF MOTOR VEHICLES IN THE PROVINCE OF DELHI.

I.—Driving Licenses for Motor Vehicles.

1. Save as provided in rules made under sections 14 and 15 of the Act no person shall drive a motor vehicle within the limits of Delhi Province unless he has first obtained—

(*a*) a license from the District Magistrate, Delhi, or

(*b*) a license from the Commissioner of Police in a Presidency Town or Rangoon or from the District Magistrate of a district in British India outside the province of Delhi.

2. Licenses to drive a motor vehicle may be obtained by drivers of over the age of 18 by application to the District Magistrate, Delhi; they will be required to give proof of their competence to drive in the manner laid down in Schedule II annexed to these rules. Such licenses will not have effect for a longer period than one year and will in all cases expire on the 31st March next, following the date on which the license is granted.

The charge for each license will be Rs. 2.

The license will be in form A I attached to these rules.

3. The application for license should be made in the first instance to the Superintendent of Police.

4. Drivers are bound by the provisions of Act VIII of 1914, and by the rules issued from time to time by the Chief Commissioner under section 11 of that Act.

5. Drivers of hired motor vehicles will be required to be in possession of a driving license from the District Magistrate, Delhi, and to obtain in addition the special certificate of competency for driving a hired motor vehicle laid down in Part IV of these rules.

II.—Certificates of Registration for Motor Vehicles.

6. No motor vehicle shall be used within the province of Delhi unless the owner shall have first obtained—

(*a*) a certificate of registration from the District Magistrate, Delhi; or

(*b*) a certificate of registration from the Commissioner of Police in a Presidency Town or Rangoon, or from the District Magistrate of a district in British India outside the province of Delhi.

7. A certificate of registration may be obtained from the District Magistrate of Delhi. Applications should be directed in the first instance to the Superintendent of Police, before whom the motor vehicles to be registered shall be produced. Evidence will be required that the car meets with the requirements enumerated in Schedule I attached.

The charge for each original certificate will be Rs. 4 in the case of a motor bicycle and Rs. 16 in the case of a motor car. Sums previously paid for registration in Delhi may be deducted from payments under this rule.

The certificate will be in form A II attached to these rules.

8. Owners in possession of the certificates referred to in rule 6 (*b*) shall register their identification number at the office of the Superintendent of Police.

9. In the case of vehicles registered in Delhi, the Superintendent of Police will assign to the owner on production of the certificate of registration an identification number which shall consist of the letter D with a serial number following. The owner shall present his certificate immediately after registration for this purpose, and registration shall not be considered as completed until a number has been assigned.

10. Numbers and letters assigned to motor vehicles shall be shown in large black figures on a white ground, and shall be of the following dimensions painted on a plate which shall be rigidly affixed in a conspicuous place on the front and back of the motor :—

(*a*) Height of each figure 3½ inches, uniform thickness ⅝ inch, each figure occupying a space of 2½ inches with 1 inch between each figure, and a margin ½ inch at the top, bottom and sides of the plate.

Provided that in the case of motor cycles the plate fixed on the front part of the cycle shall have duplicate faces and be fixed so that from whichever side the cycle is viewed the letters and figures on one or other face are easily distinguishable; and further that the size of the letters and figures may be proportionately reduced to a height of 1¾ inches.

(b) No number shall in any way be obscured, or rendered or allowed to become not easily discernable at a reasonable distance.

11. Every transfer of ownership of a motor vehicle registered under these rules must forthwith be reported to the Superintendent of Police by the registered owner and by the transferee jointly. No charge will be made for recording a transfer of ownership.

12. The Superintendent of Police may assign a manufacturer of, or a dealer in, motor vehicles, on payment of an annual fee of Rs. 20, a general provincial identification number which shall be affixed to any motor vehicle belonging to the said manufacturer or dealer when on trial after completion or by an intending purchaser. Such motor vehicles shall only ply within the limits of the Province of Delhi, and shall not ply for hire.

13. In addition to a certificate of registration a special permit is required in the case of motor vehicles which it is desired to ply for hire in Delhi Province. The rules regulating the grant of such permits will be found in Part IV of these rules.

14. The owner of a motor vehicle is bound by the provisions of Act VIII of 1914 and by the rules issued from time to time by the Chief Commissioner under section 11 of that Act.

III.—General.

15. A motor vehicle shall be driven in accordance with the rules of the road, which require a vehicle to keep on the left of the road except when passing horses and other vehicles going in the same direction, which shall be passed on the right; provided that it shall ordinarily pass a tram car on the left or near side whether it be going in the same or the contrary direction.

16. With regard to section 6 of the Act a person may receive instruction in driving a motor vehicle between the hours of 6 and 9 A.M. and 11 A.M. and 4 P.M. in a public place provided he is accompanied by a licensed driver.

17. In regard to section 5 of the Act a person shall be considered to have committed an offence under section 5 of the Act if he exceeds a speed of 15 miles within the limits of Delhi Municipality, Cantonment and Notified Area or in localities of special danger where notices are posted further restricting the speed of motor vehicles, if he exceeds the speed so fixed.

18. A motor vehicle shall not be driven in any footway nor in any road or public place where such traffic may, for the time being, be prohibited by the licensing authority.

19. The request referred to in sections 4 (a), (b) and (c) of the Act may be made by such police officer or person by putting up his hand as a signal.

20. Every person driving a motor vehicle shall have ready and available for immediate use a deep-toned horn or other instrument capable of giving audible and sufficient warning of his approach or position, and shall sound the same whenever expedient to prevent danger to any of the public.

The Superintendent of Police shall have authority to prohibit the use of instruments of a type which are likely to cause inconvenience or annoyance to the public.

21. No person shall drive a motor vehicle during the period commencing half an hour after sunset and ending half an hour before sunrise unless such vehicle is provided with light as follows :—

(1) In the case of vehicles other than motor cycles—

(a) one lamp showing a white light in front affixed on each side of the front portion of the vehicle ;

(b) one lamp showing a red light at the rear and showing a white light at the side affixed at the back of the vehicle in such manner as to illuminate with the white light and render easily distinguishable the signs and number on the plates.

(2) In the case of motor cycles—

(a) one lamp showing a white light in front affixed to the motor cycle.

(3) In all cases—

(a) the lamps shall be of suitable character and illumination ;

(b) the lamps shall be kept properly alight ;

(c) where acetylene or electric lamps or lamps of any description giving a powerful and intense light are used, the same shall be properly hooded or screened to the satisfaction of the registering authority.

N.B.—The lighting up time as advertised by the Police on notice boards shall be considered to be half an hour after sunset.

22. No motor vehicle shall be allowed to stand in any street or public place unattended by a person licensed under rule 1 above, unless all reasonable precautions have been taken to ensure that it cannot be put in motion in the absence of the driver.

23. No person shall leave a motor vehicle or keep it standing in a street at night without at least one lighted lamp of suitable character and illumination at front and back.

24. All motor vehicles shall be provided with a silencer which shall not be disconnected from the engine while the engine is running. No person shall cause or permit the omission of smoke or visible vapour from a motor car in such quantity as to cause annoyance or danger to the public.

25. A manufacturer of, or dealer in, motor vehicles shall keep a register in such forms as the registering authority may direct showing the description of the vehicle used, the name of the driver, and the hours and dates on which he was in charge of the vehicle. Such register shall be open to inspection on the demand of any police officer of or above the rank of Sub-Inspector.

26. In the event of the registered owner of a car being called upon by a Magistrate or police officer to disclose the name or whereabouts of the driver of his motor vehicle on any particular occasion, he shall be legally bound to furnish such information.

IV.—Permits to Vehicles to ply for hire.

27. Permits to ply for hire, in Delhi Province, will be granted by the Superintendent of Police, Delhi, to motor vehicles with certificates of registration in accordance with the following regulations. Permits will be in Form A III attached to these rules. Such certificates will require to be renewed every year.

28. Every driver, attendant, licensee or owner of a motor vehicle plying for hire shall be subject to the provisions of Act VIII of 1914, and to the rules made thereunder, and in addition shall observe the following additional rules and be bound by the following conditions.

29. The permit granted shall remain in force from the date thereof till the 31st March next following, unless suspended or cancelled in the meantime by the order of the Superintendent of Police.

30. The permit shall not be transferred to any other person without sanction duly endorsed thereon by the Superintendent of Police.

31. The vehicle shall not under any circumstances be driven by any person other than a driver holding a special certificate for competency for driving a motor vehicle plying for hire, in Form A IV, signed by the Superintendent of Police, Delhi.

32. The certificate of competency shall be produced whenever demanded by a police officer, and shall be liable to be suspended or cancelled at the discretion of the Superintendent of Police if he has reason to believe that the driver is incompetent or has been guilty of rash or negligent driving or has infringed any condition of the permit of which the Superintendent of Police shall be the sole judge.

33. The applicant for a certificate of competency must be produced by the owner of the car before the Superintendent of Police. He will undergo an examination and satisfy the Superintendent of Police that—

(*a*) he is a competent and careful driver;

(*b*) he possesses a general knowledge of the car which he intends driving;

(*c*) he has a knowledge of the law affecting motor vehicles as well as a knowledge of the rules of the road.

(*d*) he has acquaintance with the principal places and roads of Delhi.

34. When a driver's certificate is suspended or cancelled, or when he enters the service of an owner of a private motor vehicle his competency certificate must be surrendered to the Superintendent of Police, and it is the duty of the owner of the public motor vehicle to see that such license is surrendered.

35. The driver shall at all times when on duty with the public motor vehicle wear a metal badge which shall be supplied to him by the Superintendent of Police and shall surrender the same, if his certificate is suspended or cancelled, to the Superintendent of Police.

36. The owner of the vehicle plying for hire shall maintain regularly such register in such form as the Superintendent of Police may direct, showing the name of the driver and the hours and dates on which he was in charge of the vehicle.

37. Every motor vehicle plying under this permit shall be fitted with a taximeter.

38. Every motor vehicle intended to be licensed to ply for hire shall be brought to the office of the Superintendent of Police at such time as he may direct for the purpose of examination of the taximeter.

39. The Superintendent of Police will submit each taximeter to a practical test. If it is found by him to be correct the whole of the fittings shall then be sealed to the cabs in such a manner that they cannot be removed or tampered with without taking off the seals.

40. Every vehicle shall be brought to the Superintendent of Police for a fresh taximeter test each time the meter or transmission gearing is removed or repaired.

41. No taximeter shall be affixed to a motor vehicle plying for hire unless the seal or mark approved by the Superintendent of Police has been fixed thereto. The permit of any car not having the said seal or mark intact shall be liable to revocation by the District Magistrate. Any owner, attendant, licensee, driver or any other person, who shall break or tamper with the seal or mark attached to the taximeter or who shall, with intent to deceive, tamper with the taximeter shall be deemed to have committed a breach of this rule.

42. The driver of every motor vehicle plying for hire shall, as soon as he is hired and no sooner, set the taximeter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglect or fail to do so, he shall be deemed to have committed a breach of this rule.

43. The brakes should, as far as possible, be so affixed as to be capable of easy adjustment, and at least one must be so made as to be applicable by the foot of the driver. No two brakes which operate on the same part shall be considered as independent, and at least one should act directly upon the road wheels without any connection with the propelling gears.

44. All brakes and steering connections secured with bolts must have the bolts secured with nuts, the same to be locked or pinned.

45. The machinery shall be so constructed that no undue noise or vibration is caused.

46. Carburettors must not be placed in close proximity to magnetos or to connections of wires carrying electric current, unless they are suitably encased or screened.

47. All wires carrying electric current must be properly insulated and protected from injury and so placed that they cannot be the cause of danger.

48. Tanks for petrol or liquid fuel must be sufficiently strongly constructed. The inlet for fuel should be so placed as to prevent the ready ignition of any overflow.

49. Vehicles must be capable of being readily steered and able to turn on each lock and proceed in a contrary direction within a roadway 30 feet wide from kerb to kerb. The Superintendent of Police may at his discretion in special cases increase this limit.

50. Vehicles must have a light so fixed as to illuminate the taximeter at night.

51. Where acetylene or other gas is used to light the carriage, the vessels which contain the gas in which it is generated must be fixed outside in such a position as to be removed as far as possible from the danger of accidental ignition.

52. The floors must be covered with mats of suitable material.

53. No printed matter to be carried by way of advertisement shall appear on the inside or outside of the vehicle.

54. The doors, windows, seats, roof or hood, springs, cushions, wheels, linings, panels, etc., and all furniture and appointments of the motor vehicles must be maintained in proper order and repair, and the inside of the vehicle must be kept clean.

55. The vehicle shall be liable to examination at such times as the Superintendent of Police may prescribe, and the permit may be suspended or cancelled under the orders of the Superintendent of Police if the machinery or brakes are defective or if the lights, numbers or any accessory are not in accordance with the regulations binding in virtue of this permit.

56. A fee of Rs. 5 shall be paid for the permit.

57. The following rates for the fare or hire of motor vehicles fitted with a taximeter and in possession of a permit is fixed for Delhi Province whether the vehicle is used by three or any less number of passengers.

1st Tariff.—Between 6-30 A.M., and 10 P.M., within the boundaries of Delhi Municipality and Notified Area as defined in Punjab Government Notification No. 831, dated the 6th November 1884, No. 713, dated the 24th September 1888, and No. 69, dated the 6th February 1892, and Chief Commissioner, Delhi's Notification No. 521, dated the 16th January 1913.

	Rs.	A.	P.
For first mile or part mile	0	12	0
After first mile for ½ mile or part	0	3	0
Detention for each two minutes	0	1	0

2nd Tariff.—Between 10 P.M. and 6-30 A.M., within the boundaries of the Delhi Municipality and Notified area, and *at all times* for journeys outside the boundaries of the Delhi Municipality and Notified area.

	Rs.	A.	P.	
For first ¾ mile or part	0	12	0	
After first ¾ mile, for each ½ mile or part	0	3	0	
Detention for each two minutes	0	1	0	
Return fare if discharged outside the boundary of the Delhi Municipality or Notified Area	0	6	0	per mile.

58. In the case of both tariffs a charge of Re. 0-2-0 for every package or article of baggage carried outside the vehicle may be made.

V.—Penalties.

59. Any person who contravenes the foregoing rules is liable to punishment under Part V of Act VIII of 1914.

OFFICE OF SUPERINTENDENT OF POLICE, DELHI.

Date

Superintendent of Police, Delhi.

SCHEDULE I.

Every motor car must comply with the following requirements :—

(1) The machinery must be so designed as to prevent as far as possible all danger of fire or explosion; so as not to frighten by its noise any animals whether ridden or driven; so as not to give rise to any other cause of danger to traffic or seriously to inconvenience, by the emission of smoke or vapour, persons using the road.

(2) The car must be provided with the following:—

(*a*) a strong steering apparatus which will allow the car to be turned readily and with certainty;

(*b*) two brakes each independent of the other and adequate for the purpose; one at least of these brakes must be capable of acting rapidly and directly upon the wheels or upon brake drums immoveably fixed thereto;

(*c*) a mechanism which is capable of preventing even on steep gradients any backward movement, if one of the brakes is not sufficient for the purpose.

(3) Every car whose weight unladen exceeds 770 lbs. must be so constructed that the driver can from his seat reverse the movement of the car by means of the driving power;

(4) all the driving and steering apparatus must be so arrranged that the driver can manipulate it with certainty and at the same time have a clear view for the road.

SCHEDULE II.

Persons wishing to apply to the District Magistrate for a driving license should present their application in the first instance to the Superintendent of Police. The Superintendent of Police may require any such person to undergo an examination and satisfy the examiner—

(i) that he is a competent and careful driver by driving the car under the examiner's observation;

(ii) that he possesses a general knowledge of the car he intends driving;

(iii) that he has a knowledge of the law affecting motor vehicles as well as a knowledge of the rules of the road.

After being satisfied of the results of the examination or having otherwise satisfied himself that the applicant is a competent driver, the Superintendent of Police shall endorse his application to the District Magistrate for the grant of a driving license.

The 14th April 1915.

No. 2450-*Home.*—Under the provisions of section 6 of the Indian Registration Act, 1908 (XVI of 1908), Shafa-ul-mulk Hakim Razi-ud-din Ahmed Khan is appointed to be Sub-Registrar of the Delhi District for a period of three years with effect from the date of this notification or the subsequent date on which he may take over charge of the duties of Sub-Registrar. Maitra or Maitrayaniya Upanishad. Fasc. 1, As. 10.

Visvahitam. Fasc. 1. As. 10.

Kavindravacana Samuccaya. Rs. 3-8.

Sri Surisarvasvam. Fasc. 2. As. 10.

LIST OF PUBLICATIONS ISSUED BY THE METEOROLOGICAL DEPARTMENT FROM OCTOBER 1913 TO MARCH 1914.

Monthly Weather Review, May to November 1913. (Illustrated by 7 plates.) Quarto. Paper cover. Re. 1 per month.

Annual Summary of the Monthly Weather Review, 1912. (Illustrated by 6 plates.) Quarto Paper cover. Rs. 3.

Memoirs of the Indian Meteorological Department, Vol. XXII, Part II, By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Re. 1-8.

LIST OF PUBLICATIONS ISSUED BY THE METEOROLOGICAL DEPARTMENT FROM OCTOBER 1914 TO MARCH 1915.

Monthly Weather Review, May to October 1914 (illustrated by 7 plates). Quarto Paper cover. Re. 1 per month.

Annual Summary of the Monthly Weather Review, 1913 (illustrated by 6 plates). Quarto. Paper cover. Rs. 3.

Monthly and annual normals of pressure, temperature, relative humidity, vapour tension and cloud. Memoirs of the Indian Meteorological Department, Volume XXII, Part III. By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Re. 1-8.

III. A discussion of the anemographic observations recorded at Port Blair from September 1894 to August 1904.

IV. A discussion of the anemographic observations recorded at Dhubri from November 1889 to May 1896.

Memoirs of the Indian Meteorological Department, Volume XIX. By W. A. Harwood with an introduction by G. T. Walker (illustrated by 27 plates). Quarto. Paper cover. Re. 1-8.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 7TH FEBRUARY 1914.

Records of the Geological Survey of India, Vol. XLIII, Part 3, by Director, Geological Survey of India. Contributions to the Geology of the Province of Yunnan in Western China. I. The Bhamo Teng-yueh area (with plates 6 to 17). Contributions to the Geology of the Province of Yunnan in Western China. II. Petrology of the Volcanic Rocks of the Teng-yueh District (with plates 18 to 20). The Kirana and other Hills in the Jech and Rechna Doabs (with plates 21 and 22). The Banswal Aerolite. Re. 1.

Records of the Geological Survey of India, Vol. XLIII, Part 4, by Director, Geological Survey of India. The Gold-bearing Alluvium of the Chindwin River and Tributaries (with plates 23 to 25). The correlation of the Siwaliks with Mammal Horizons of Europe (with plates 26 to 28). Contributions to the Geology of the Province of Yunnan in Western China. III. Notes on the Stratigraphy of the Ordovician and Silurian Beds of Western Yunnan by J. Coggin Brown, M.Sc. with Provisional Palæontological Determinations by F. R. Cowper Reed, M.A., F.E.S. Further Notes on the species "Camarocrinus Asiaticus" from Burma. Re. 1.

Memoirs of the Geological Survey of India, Volume XLIII, Part I. By Sir Thomas Holland, K.C.I.E., Professor of Geology, University of Manchester, and G. H. Tipper, M.A., Geological Survey of India. Indian Geological Terminology. Rs. 2.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 30TH MAY 1914.

Memoirs of the Geological Survey of India, Volume XL, Part 2. By E. H. Pascoe, M.A., D.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. The Petroleum Occurrences of Assam and Bengal. Rs. 3.

Records of the Geological Survey of India, Volume XLIV, Part 1. By Director, Geological Survey of India. General Report of the Geological Survey of India for the year 1913. A Carbonaceous Aerolite from Rajputana (with text figure). Notes on Value of Nummulites as Zone Fossils, with a description of some Burmese Species (With plates 1 to 3.) Re. 1.

LIST OF PUBLICATIONS ISSUED BY THE METEOROLOGICAL DEPARTMENT DURING THE CURRENT QUARTER.

Monthly Weather Review, December 1913. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly Weather Review, January 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly Weather Review, February 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly Weather Review, March 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Correlation in seasonal variations of weather, III. On the criterion for the reality of relationship or periodicities. Memoirs of the Indian Meteorological Department, Vol. XXI, Part IX. Quarto. Paper cover. By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S Price 0-8-0 (eight annas).

Monthly Weather Review, April 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly Weather Review, May 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly Weather Review, June 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

***Monthly Weather Review, October 1914 (illustrated by 7 plates).** Quarto. Paper cover Re. 1.

Monthly Weather Review, July 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Monthly and Annual Normals of Pressure, Temperature, Relative Humidity, Vapour Tension and Cloud. Memoirs of the Indian Meteorological Department, Volume XXII, Part III. By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Price Re. 1-8.

Monthly Weather Review, August 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

III. A discussion of the anemographic observations recorded at Port Blair from September 1894 to August 1904.

IV. A discussion of the anemographic observations recorded at Dhubri from November 1889 to May 1896.

Memoirs of the Indian Meteorological Department, Vol. XIX. By W. A. Harwood with an introduction by G. T. Walker. (Illustrated by 27 plates.) Quarto. Paper cover. Price Re. 1-8.

Monthly Weather Review, September 1914. (Illustrated by 7 plates.) Quarto. Paper cover. Price Re. 1.

Annual Summary of the Monthly Weather Review, 1913. (Illustrated by 6 plates). Quarto. Paper cover. Rs. 3.

LIST OF PUBLICATIONS ISSUED BY THE METEOROLOGICAL DEPARTMENT FROM JANUARY TO JUNE 1914.

Monthly Weather Review, August 1913 to January 1914 (Illustrated by 7 plates.) Quarto, Paper cover. Re. 1 per month

Annual Summary of the Monthly Weather Review, 1912. (Illustrated by 6 plates.) Quarto Paper cover. Rs. 3.

A further study of relationship with Indian monsoon rainfall—Memoirs of the Indian Meteorological Department, Vol. XXI, Part VIII, by Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Re. 0-8-0.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 27TH JUNE 1914.

Records of Geological Survey of India, Volume XLIV, Part 2, by Director, Geological Survey of India. Contributions to the Geology of the Province of Yünnan in Western China. IV. The Country around Yünnan Fu (with Plate 4). Note on a Dyke of White Trap from the Pench Valley Coalfield, Chhindwara District, Central Provinces (with text figures 2 and 3). Statement of Mineral Concessions granted during 1913. Re. 1.

LIST OF BOOKS PUBLISHED BY THE COORG ADMINISTRATION DURING THE HALF-YEAR WHICH ENDED ON THE 30TH JUNE 1914.

Report on Forest Administration in Coorg, by H. Tireman, Esq., Deputy Conservator of Forests, Coorg, "Progress report on the Forest Administration in Coorg for the year 1912-13." It deals with the Administration of Forests in Coorg. Foolscap folio Paper binding Price 8a or 9d (6 pies.)

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 1ST AUGUST 1914.

Memoirs of the Geological Survey of India, Volume XLI, Part 2, by L. Leigh Fermor, D.Sc., A.R.S.M., F.G.S., Superintendent, Geological Survey of India. On the Geology and Coal Resources of Korea State, Central Provinces. (With 12 plates.) Rs. 3.

Memoirs of the Geological Survey of India, Volume XLII, Part 1, by J. Coggin Brown, M.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. The Burma Earthquake of May 1912. Rs. 3.

LIST OF PUBLICATIONS ISSUED BY THE METEOROLOGICAL DEPARTMENT FROM APRIL TO SEPTEMBER 1914.

Monthly Weather Review, December 1913 to April 1914. (Illustrated by 7 plates). Quarto. Paper cover. Re. 1 per month.

A further study of relationship with Indian Monsoon rainfall Memoirs of the Indian Meteorological Department, Vol. XXI, Part VIII. By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Annas 8.

Correlation in seasonal variations of weather, III, on the criterion for the reality of relationships or periodicities. Memoirs of the Indian Meteorological Department, Vol. XXI, Part IX. By Gilbert T. Walker, C.S.I., M.A., Sc.D., F.R.S. Quarto. Paper cover. Price annas 8.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 17TH OCTOBER 1914.

Memoirs of the Geological Survey of India, Palæontologia Indica, Sr. XV, Himalayan Forests, Volume IV, Fasc. No. 5, by Miss Paula Steiger, Ph.D. Additional Notes of the Fauna of the Spiti Shales. Re. 1.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA DURING THE WEEK ENDING 28TH NOVEMBER 1914.

Records of the Geological Survey of India. Volume XLIV, Part 3. By Director, Geological Survey of India. Some newly discovered Coal-Seams near the Yaw River, Pakokku District, Upper Burma (with plates 5 to 12). The Monazite Sands of Travancore (with plates 13 to 17). A Lower Cretaceous Fauna from the Himalayan Gieumal Sandstone together with a description of a few Fossils from the Chikkim Series, by Dr. Albrecht Spitz (Vienna). Translated by E. Vredenbrug, B.S., B.Sc., F.G.S. (with plates 18 and 19 and text figures 4 to 11). Further description of Indarctos Satmontanus Pilgrim, the new genus of Bear from the Middle Siwaliks, with some remarks on the Fossil Indian Ursidæ (with plate 20). REGISTERED No. C. 696.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 17, 1915.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

Estate G. Winmill, deceased.

Notice is hereby given that all persons having claims against the late George Winmill, late of Rushmore, 53 Chancer Road, Bedford, England, who died on 22nd October 1910 at Felixstowe, Suffolk, Letters of administration to whose Estate have been granted to James Edmund Vallance, Accountant at Messrs. Grindlay & Co., Calcutta, are required to send in the same on or before 4th May next to the said Messrs. Grindlay & Co., Calcutta, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognised.

J. E. VALLANCE.

CALCUTTA,

The 22nd March 1915.

Registered No. C-696.

SUPPLEMENT TO

The Gazette of India.

No. 16. } CALCUTTA, SATURDAY, APRIL 17, 1915.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, of which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

* Includes octroi duty amounting to Rs. 108 per 10 maunds

NOTE.—These statistics are compiled from the fortnightly returns furnished by District Officers to Local Governments and Administrations, etc. They relate to the wholesale prices in the principal markets (not necessarily district head-quarters) in each province on the last (or nearest mart) day of each fortnight.

(The figures state prices in rupees per ten maunds)

G. FINDLAY SHIRRAS,

Director of Statistics

C. E. LOW,

Secretary to the Government of India

Calcutta, April 14, 1915

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, APRIL 14, 1915

Special WHEAT forecast, 1914-15

This special forecast deals with the state of the wheat crop reported up to the first week of the present month. It is based on reports received from local authorities and refers to 99·8 per cent of the total reported wheat acreage of India. In the tables below comparison is made with the final estimate of last year, as there was no forecast made in April 1914, the present forecast being made as a special one this year in view of the exceptional circumstances brought about by the war. The final forecast will, as usual, be published in the last week of May.

The total area now reported is 32,148,000 acres as compared with 32,028,000 acres reported in the second forecast published on the 6th March, 1915, and 28,464,000 acres, the revised final area of last year. The present figure, therefore, shows an increase in acreage of 3,684,000 acres, or nearly 13 per cent, as against the final estimate of 1913-14. The total yield is estimated at 10,293,000 tons (or 48,034,000 quarters*) as compared with 8,354,000 tons (or 38,985,000 quarters), the revised final estimate of last year, or an increase of 23 per cent.

The detailed figures are as follows :—

(1) Area

Provinces and States	Area in thousand acres: 1914-15 crop April 1915	1913-14 crop (final estimate) May 1914	Increase + or Decrease —
Punjab (a)	11,242	(b) 9,588	+1,654
United Provinces	7,263	(b) 6,406	+857

Hyderabad	45	43	+2	118
Mysore	1	1	...	444
Total	10,293	8,354	+1,939	717

The condition of the crop is reported to be, on the whole, good, except in Bihar and Orissa and Bengal, where the wheat crop is not of much importance. The *total* yield now estimated is a record one, even higher than the heavy crops of 1910-11, 1911-12, 1912-13 and 1903-04. The outturn per acre, it may be noted, works out to 717 lbs (or approximately 12 bushels) as against the following previous outturns per acre : 657 lbs in 1913-14, 735 lbs in 1912-13, 714 lbs in 1911-12, 737 lbs. in 1910-11 768 lbs in 1909-10, 652 lbs in 1908-09, 599 lbs in 1907-08, 651 lbs in 1906-07, 728 lbs in 1905-06, 597 lbs in 1904-05, and 760 lbs in 1903-04. The highest outturns per acre are in the United Provinces (950 lbs) and in the Punjab (780 lbs), which contain nearly 57 per cent of the total area under wheat

* Quarter = 480 lbs
(a) Including Native States
(b) Revised figures

In the former favourable prospects were somewhat marred by the continuance of damp cloudy weather with heavy rain in the second week of March, while in the latter the crop is reported to be excellent, though since the beginning of this month the weather has been very unsettled and thunderstorms threaten to damage the crop. In the important wheat-growing districts of the Central Provinces the lighter undulating fields gave a little more than their seed, whilst the flat rich fields gave a normal to bumper crop. The crop in the Bombay Presidency is doing well, although cloudy weather and rust have somewhat affected the crop in some localities. An average crop is expected in the North-West Frontier Province.

It will be seen that the present estimate of yield as against the final estimate of last year shows an increase per cent of 79 in Rajputana, 39 in the United Provinces, 33 in Central India, 25 in Bombay and Sind, 23 in the Punjab, 19 in the Central Provinces and Berar, 13 in the North-West Frontier Province, and 5 in Hyderabad. The percentage decrease is 40 in Bihar and Orissa and 37 in Bengal.

The provincial reports are summarised below :—

Punjab (33·1 per cent of the total area under wheat in India).—The combined area of British districts and Native States (11,242,000 acres) shows an increase of 17 per cent over the final area of last year. The total estimated yield is 3,914,000 tons (543,000 tons being in Native States), which is 23 per cent larger than the revised final estimate of last year. The area sown in British districts, it may be added, is now reported to be 9,871,000 acres, which is 16 per cent more than last year's final area. The area in Native States is reported to be 1,371,000 acres, which is 23 per cent larger than last year's final figure. As compared with the estimate (11,197,000 acres) made in March last, the present estimate shows an increase of 0·4 per cent. The figures of area are approximate, as nowhere was the harvest inspection complete when the figures were submitted, and in some districts it had only just begun. The weather cleared after the middle of February ; but there was moderately heavy precipitation in the second week of March, which benefited the unirrigated crop in the south-east and west. The rest of the month was fine, but since the beginning of April the weather has been very unsettled and thunderstorms threaten to damage the crop. The present estimate of yield is based on the condition of the standing crop at the end of March. The Provincial Director of Land Records remarks that it is doubtful if districts have made sufficient allowance for the excellence of the crop, and that if harvesting is concluded without further damage, the yield will probably be higher than that now reported.

United Provinces (23·5 per cent of the total area under wheat in India).—According to advance returns furnished by village accountants the total area amounts to 7,263,000 acres as compared with 6,406,000 acres, the revised final area of last year, or an increase of 13 per cent. As compared with the estimate in December last (which was retained in the March forecast), the present estimate falls short by 2·5 per cent. The total yield is estimated at 3,082,000 tons, which is 39 per cent larger than the revised final figure of last year. The outstanding features of the season were a prolonged drought lasting to the end of January, followed by unusually wet weather for the time of the year. In the south-eastern districts, where rains terminated early, germination was somewhat indifferent, and the crop never fully recovered. Over the rest of the province, the rain at the end of January and beginning of February was of great value to wheat, particularly to the unirrigated crop, which was showing signs of withering. Favourable prospects were, however, somewhat marred by the continuance of damp cloudy weather with heavy rains in the second week of March, which brought on serious attack of rust. Its severity varied very much with local conditions, and this renders estimation of outturn peculiarly difficult. On the whole, unirrigated areas suffered less than irrigated, and the outturn of the former is relatively good. For the province as a whole, the outturn per acre is estimated at 90 per cent of the normal, but this may need subsequent modification as harvest in the western districts is unusually late.

Central Provinces and Berar (11·7 per cent of the total area under wheat in India).—The combined area of British districts and Native States (3,421,000 acres) shows an increase of 1 per cent over the final area of last year. As compared with the area estimated in March last, the present estimate is less by 4 per cent. The total yield is estimated at 820,000 tons (29,000 tons being in Native States), which is 19 per cent larger than the revised final figure of last year. The area sown in British districts is reported to be 3,301,000 acres, which is 1 per cent above the final area of last year. The area in the Native States of Khairagarh and Nandgaon is estimated at 120,000 acres as against 115,000 acres last year. Sowings were generally successful, and germination on the whole good. Some resowing was necessary in parts of Damoh and Narsinghpur, owing to defective germination. Cloudy weather caused some withering in parts of Damoh and in the Nerbudda Valley. Light to moderate rain was received in the subsequent months (December to March) and materially improved the condition of the young plants, especially in the northern districts where the crop was suffering somewhat from lack of moisture. Some damage was caused in places by the cloudy weather and hail which accompanied the rain. On the whole in the important wheat-growing districts in the north of the province, the lighter undulating fields gave little more than their seed, whilst the flat rich fields gave a normal to bumper crop. For the province as a whole, the outturn per acre is estimated at 90 per cent of the normal.

Bombay and Sind (7·4 per cent of the total area under wheat in India).—The total area is now reported to be 2,840,000 acres (including 750,000 acres in Native States), which is about 10 per cent above the final area of last year. As compared with the March estimate of this year, the present figure shows an increase of 16 per cent. The total yield is estimated at 880,000 tons (including 225,000 tons in Native States), which is 25 per cent larger than the final estimate of last year. Since the publication of the last report some rain fell early in March in north Gujarat, in north-east and south Deccan, and in Dharwar in the Karnatak. It also fell in Dharwar at the end of the month. It was heavy in the Panch Mahals and in Khandesh. The cloudy weather that preceded the rain damaged the crop ready for harvest in parts of Gujarat and Deccan and induced rust in places. Elsewhere and in the Karnatak the rain was beneficial. In Sind the crop has been doing well everywhere, except in Thar and Parkar whence slight damage through rust has been reported.

Bihar and Orissa (4·4 per cent of the total area under wheat in India).—The total area is now estimated at 1,218,000 acres, which is 9 per cent below the final figure of last year. As compared with the March estimate of this year, the present figure is 1 per cent more. The total estimated yield is 347,000 tons, which is 40 per cent below the final

figure of last year. The short rainfall at the sowing period and during the period of growth, as well as attacks of insects in some areas, affected the crop in the important districts of Bihar and in Palamau. Some damage by hail storm is also reported from Saran and Hazaribagh. The outturn per acre for the province as a whole is estimated at 65 per cent of the normal ; last year the yield was reported to be normal.

North-West Frontier Province (3·5 per cent of the total area under wheat in India).—The total area is now reported to be 1,165,000 acres, which is 17 per cent larger than the final area of last year. Compared with the March estimate of this year, the present figure is 5 per cent larger. The total yield is estimated at 293,000 tons, which shows an increase of 13 per cent over the final estimate of last year. The rainfall was favourable at sowing time. The yield is average or above average in all the districts and agencies except Dera Ismail Khan where the outturn (87 per cent of the normal) was affected by the absence of rain after sowing.

Bengal (0·5 per cent of the total area under wheat in India).—The total area is estimated at 134,000 acres as against 135,000 acres estimated in March last and 144,000 acres, the final area of last year. The estimated yield is 32,000 tons as against 51,000 tons last year, or a decrease of 37 per cent. Weather conditions have not been favourable throughout the season excepting in January when light but timely showers improved the situation to some extent. There was general rainfall in February also, but excepting in North Bengal it was everywhere defective. For the province as a whole, the outturn per acre is estimated at 62 per cent against 92 per cent of the normal last year.

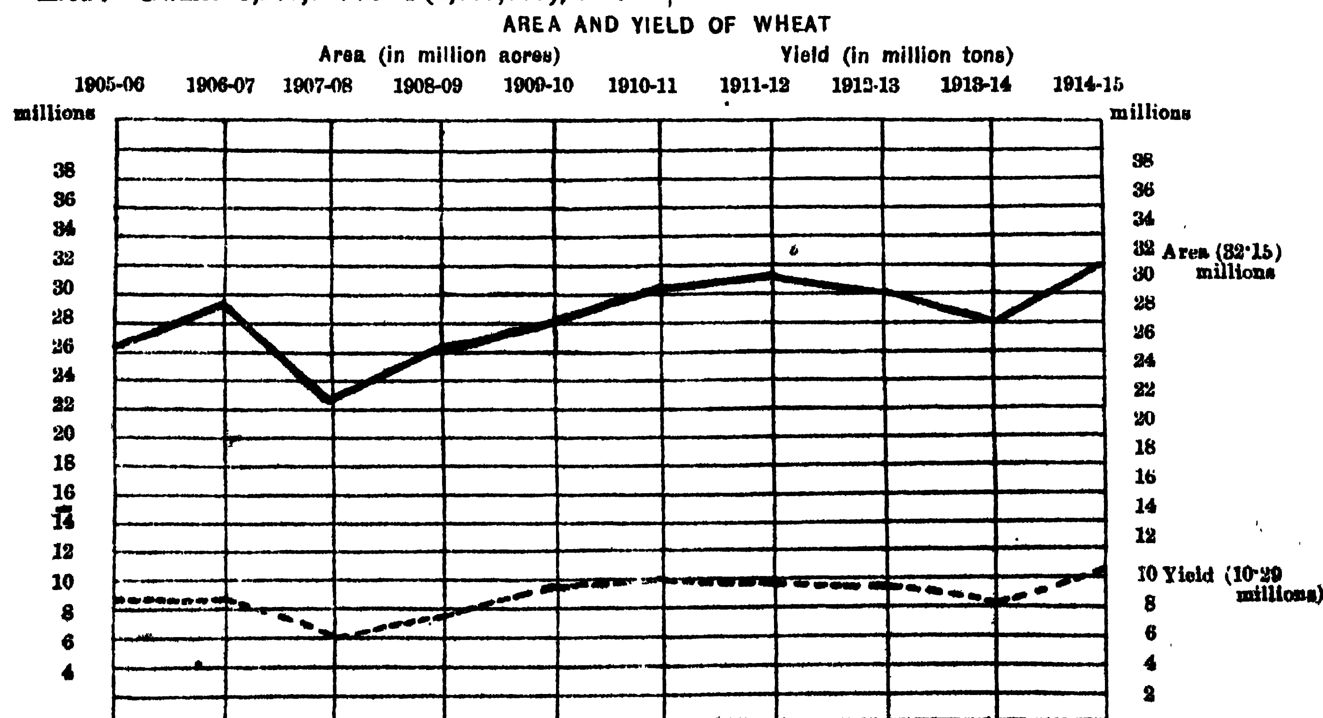
Ajmer-Merwara (0·1 per cent of the total area under wheat in India).—The area is 18,000 acres as against 16,000 acres estimated in March last, and 5,000 acres, the final area of last year. The yield is estimated at 5,000 tons as compared with 2,000 tons last year.

Central India (8·6 per cent of the total area under wheat in India).—The total area reported amounts to 3,090,000 acres, which is 15 per cent above the final area of last year. The present estimate is practically the same as the March estimate. The total yield is estimated at 656,000 tons, which is 33 per cent larger than the final estimate of last year. The details are as follows (the final estimates of last year being given in brackets) :—

Area :—Gwalior 1,203,000 acres (1,075,000), Indore 397,000 acres (402,000), Bhopal 783,000 acres (799,000), Bundelkhand 262,000 acres (79,000), Baghelkhand 125,000 acres (29,000), Malwa 148,000 acres (136,000), and Southern States 172,000 acres (164,000).

Yield :—Gwalior 303,000 tons (240,000), Indore 62,000 tons (47,000), Bhopal 159,000 tons (144,000), Bundelkhand 54,000 tons (15,000), Baghelkhand 23,000 tons (5,000), Malwa 20,000 tons (17,000), and Southern States 35,000 tons (24,000).

Rajputana (3·5 per cent of the total area under wheat in India).—The total area reported now amounts to 899,000 acres, which is 44 per cent above the final area of last year. Compared with the March estimate of this year the present figure shows a decrease of 1 per cent. The total estimated yield is 218,000 tons, which is 79 per cent larger than the final estimate of last year. Of the twenty States the more important are (the final figures of last year being given in brackets) :—



Area :—Bikaner 27,600 acres (6,700), Marwar 87,800 acres (112,200), Mewar 40,000 acres (36,000), Tonk 120,000 acres (71,800), Bundi 70,800 acres (38,100), Kotah 286,900 acres (161,300), Jaipur 77,700 acres (43,500), Alwar 33,100 acres (33,300), Bharatpur 44,200 acres (29,700), Dholpur 14,100 acres (10,800).

Yield :—Bikaner 5,400 tons (1,100), Marwar 22,600 tons (23,400), Mewar 12,100 tons (10,700), Tonk 18,900 tons (9,000), Bundi 7,500 tons (3,200), Kotah 78,400 tons (14,900), Jaipur 18,800 tons (14,300), Alwar 14,700 tons (15,300), Bharatpur 14,500 tons (8,800), Dholpur 5,700 tons (3,500). The crop has suffered in several States through the rain and hail of last month.

Hyderabad (3·5 per cent of the total area under wheat in India).—The total area is now returned at 855,000 acres, which is 22 per cent above the final area of last year. Compared with the March estimate of this year, the present figure falls short by 8 per cent. The total yield is estimated at 45,000 tons, which is nearly 5 per cent above the final estimate of last year. The crop has suffered through the recent unseasonable rainfall.

Mysore (0·01 per cent of the total area under wheat in India).—The area is estimated at 3,000 acres and the yield at 1,000 tons, being the same as last year.

Chart.—The chart below illustrates the variations in the total estimates of area and yield in the last ten years :

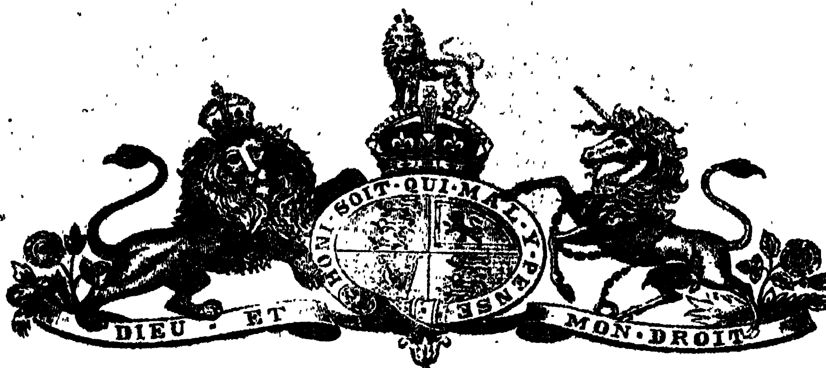
Wheat crops in other countries.—In the present season, 1914-15, the chief wheat-producing countries are, in order of importance, the United States of America, Russia, India, Italy, Canada, the Argentine, and Australia; and the chief exporting countries are, in order of importance, the United States (40,000,000), the Argentine (13,000,000), Canada (11,000,000), and India. The figures stated in brackets after each country are trade estimates of the exportable surplus in quarters of 480 lbs each. It should be remembered that, in regard to these figures, the focus of the world's wheat market is the United Kingdom, an examination of the statistics of imports showing that about 36 per cent of the total world's exportable surplus was imported into the United Kingdom on an average of the last three years (1911-12 to 1913-14). In the last eight years during the months of March, April, and May, the Argentine crop predominated in the United Kingdom market, just as in June Canada predominated and India in the months of July, August, and September, Russia in October and November, and the United States in December, January, and February. The Indian crop, therefore, is of great importance in the English market from the months of July to September.

The latest available information from the International Institute of Agriculture, Rome, regarding the wheat crop of 1914-15 is as follows:—In Canada the area sown with winter wheat * is 1,293,400 acres, which is 33 per cent over last year's area. In the United States of America the area under winter wheat is estimated at 41,246,000 acres, or an increase of 11 per cent over the area sown in 1913-14. In Italy, the area sown is reported to be 12,350,000 acres, which is 5 per cent above the area of 1913-14. In the Argentine the area under wheat is 15,474,000 acres, which is about 5 per cent over the area sown in 1913-14, and the total estimated yield is 5,176,000 tons, or an increase of 70 per cent over last year. In Chili and Australia, the estimated yields are 609,000 tons and 790,000 tons, respectively, the former showing an increase of 90 per cent, but the latter a decrease of 71 per cent, as compared with 1913-14.

From unofficial sources it appears that in the United Kingdom in March last weather had continued unfavourable for thrashing, and sowing operations have been delayed by the excessive amount of moisture in the land. The hopes of an increased area are not very promising. Returns from the United States are favourable as regards the winter wheat crop, and it is considered that the condition is now better than it was on 1st December last. The Agricultural Department at Washington has given some interesting information about the supply of wheat in the United States at the present time. Reckoning the 12,000,000 quarters over from the 1913 crop, the total supply for the year to the next harvest is put at 120,875,000 quarters and the requirements for domestic consumption and seeding, based on past average, at 76,250,000 quarters, leaving a surplus of 44,625,000 quarters, of which 26,250,000 quarters had been exported by 30th January. This leaves, it is estimated, 18,375,000 quarters, or 5,000,000 quarters more than the entire annual average export for the last five years to be drawn upon between 1st February and 1st July when the new crop will begin to be available, or about 125,000 quarters a day.

In Canada the result of the campaign in favour of the increasing grain production of the Dominion is satisfactory, and it is predicted that field grain production, provided the weather continues favourable, will be increased from 33 to 50 per cent. In Russia crop reports are generally satisfactory. It is stated * that, even if the Dardanelles are forced, some time must elapse before exports from the Black Sea can take place to any extent, because stocks at Black Sea ports are considered light, while interior transport is difficult owing to shortage of railway trucks. In the Argentine the estimated wheat surplus, owing to the bad weather in January, has been reduced, and now stands at 13 million quarters, compared with 15 million quarters as estimated last November.

Exports.—The following statement shows the **exports of wheat from British India** by sea to foreign countries during each month of the official years 1911-12, 1912-13, 1913-14 and 1914-15.



Month.	1911-12.	1912-13.	1913-14.	1914-15
	tons	tons	tons	tons
April . . .	67,900	68,900	27,300	9,100
May . . .	135,700	107,000	166,300	24,500
June . . .	189,500	243,500	260,400	169,000
July . . .	266,200	328,000	318,500	169,500
August . . .	125,200	153,200	134,700	42,500
September . .	65,800	231,500	134,800	56,100
October . . .	65,700	148,500	52,700	88,300
November . . .	74,100	114,300	46,700	55,000
December . . .	97,300	79,600	21,700	37,000
January . . .	101,900	99,100	20,700	25,000
February . . .	75,200	51,500	9,700	21,600
March . . .	96,700	35,100	8,700	8,800
Total .	1,361,200	1,660,200	1,202,200	706,400

G. FINDLAY SHIRRAS,
Director of Statistics.

* Winter wheat forms only about 10 per cent of the total wheat crop of Canada, while in the United States of America it is about 66 per cent as calculated from the figures of 1913-14.

No. 20.—In pursuance of the provisions of Regulation XI (1) of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General of India, published under Notification No. 61, dated the 14th November, 1912, the Governor General is pleased to call upon the Bombay Chamber of Commerce to elect, in accordance with the said Regulations, by the 1st day of June, 1915, a person to fill the vacancy caused by the resignation of Mr. Marshall Frederick Reid, C.I.E.

The 23rd April, 1915.

No. 21.—The following Statutes are published for general information :—

THE ARMY (SUSPENSION OF SENTENCES) ACT, 1915.

[5 GEO. 5. CH. 23.]

AN ACT TO AUTHORISE THE SUSPENSION OF SENTENCES OF PENAL SERVITUDE AND IMPRISONMENT PASSED ON SOLDIERS ENGAGED IN ACTIVE SERVICE BEYOND THE SEAS DURING THE PRESENT WAR.

[16th March 1915.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Power to suspend sentences of penal servitude or imprisonment.

1.—(1) Where a soldier employed on active service beyond the seas during the present war is sentenced to penal servitude or imprisonment, the confirming authority to whom the sentence is submitted for confirmation may, when confirming the sentence, direct that the soldier be not committed to prison until the orders of a superior military authority have been obtained.

(2) A superior military authority may in the case of any such soldier so sentenced—

(*a*) direct that a committal to prison shall not be issued until his orders have been obtained ;

(*b*) suspend the sentence whether or not the soldier has already been committed to prison.

(3) Where a sentence of penal servitude or imprisonment is suspended under this section before the soldier has been committed to prison, the soldier if in custody shall be released, and, notwithstanding anything in the Army Act, the sentence shall not begin to run until the soldier is committed to prison under that sentence.

(4) Where a sentence of penal servitude or of imprisonment is suspended under this section after the soldier has been committed to prison he shall be discharged and the currency of the sentence shall be suspended until he is again committed to prison under the same sentence.

(5) Where a sentence has been suspended under this section the case may at any time, and shall at intervals of not less than three months, be reconsidered by a competent military authority, and if on any such reconsideration it appears to the competent military authority that the conduct of the soldier since his conviction has been such as to justify a remission of the sentence he shall remit it.

(6) A superior military authority may at any time whilst a sentence is suspended under this section order that the soldier be committed to prison, and thereupon the sentence shall cease to be suspended.

(7) Where a soldier whilst a sentence on him is so suspended is sentenced to penal servitude or imprisonment for any other offence, then, if that sentence is also suspended under this section, the authority ordering the suspension may direct that the two sentences shall run either concurrently or consecutively, so, however, that the aggregate term of imprisonment served under two or more sentences of imprisonment shall not exceed two consecutive years; and where the sentence for such other offence is a sentence of penal servitude, then, whether or not that sentence is suspended any previous sentence of imprisonment which has been suspended shall be avoided.

(8) The powers conferred by this section shall be in addition to and not in derogation of any powers as to the mitigation, remission, commutation, or suspension of sentences conferred by the Army Act, and a superior authority under this Act shall as respects soldiers so employed as aforesaid be an authority having power to mitigate, remit, or commute sentences of penal servitude or imprisonment under sub-section (2) of section fifty-seven of the Army Act.

(9) In this Act—

The expression "superior military authority" means the officer commanding in chief of any force employed on active service beyond the seas, or any general officer commanding an army comprised in that force;

The expression "competent military authority" means a superior military authority, or any general or other officer not below the rank of field officer duly authorised by a superior military authority.

Short title and construction.

2. This Act may be cited as the Army (Suspension of Sentences) Act, 1915, and shall be construed as one with the Army Act.

ARMY (ANNUAL) ACT, 1915.

[5 GEO. 5, CH. 25.]

ARRANGEMENT OF SECTIONS.

Section.

1. Short title.
2. Army Act to be in force for specified times.
3. Prices in respect of billeting.

SCHEDULE.

AN ACT TO PROVIDE, DURING TWELVE MONTHS, FOR THE DISCIPLINE AND REGULATION OF THE ARMY.

[16th March 1915.]

WHEREAS the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of three million including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the government of His Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by

the judgment of his peers and according to the known and established laws of this realm; yet, nevertheless, it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow :

44 & 45 Vict. c. 58.

And whereas the Army Act will expire in the year one thousand nine hundred and fifteen on the following days :—

(a) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April ; and

(b) Elsewhere, whether within or without His Majesty's dominions, on the thirty-first day of July :

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Short title.

1. This Act may be cited as the Army (Annual) Act, 1915.

Army Act to be in force for specified times.

2.—(1) The Army Act shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament (that is to say) : —

(a) Within the United Kingdom, the Channel Islands, and the Isle of Man, from the thirtieth day of April one thousand nine hundred and fifteen to the thirtieth day of April one thousand nine hundred and sixteen, both inclusive ; and

(b) Elsewhere, whether within or without His Majesty's dominions, from the thirty-first day of July one thousand nine hundred and fifteen to the thirty-first day of July one thousand nine hundred and sixteen, both inclusive

(2) The Army Act, while in force, shall apply to persons subject to military law, whether within or without His Majesty's dominions.

(3) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of His Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

Prices in respect of billeting.

3. There shall be paid to the keeper of a victualling house for the accommodation provided by him in pursuance of the Army Act the prices specified in the Schedule to this Act.

Section 3.

SCHEDULE.

Accommodation to be provided.	Maximum Price.
Lodging and attendance for soldier where meals furnished	Sixpence per night.
Breakfast as specified in Part I of the Second Schedule to the Army Act ...	Fivepence each.
Dinner as so specified	One shilling and one penny each.
Supper as so specified	Threepence each.
Where no meals furnished, lodging and attendance, and candles, vinegar, salt, and the use of fire, and the necessary utensils for dressing and eating his meat.	Sixpence per day.
Stable room and ten pounds of oats, twelve pounds of hay, and eight pounds of straw per day for each horse.	Two shillings per day.
Stable room without forage	Sixpence per day.
Lodging and attendance for officer	Two shillings per night.

NOTE.—An officer shall pay for his food.

THE ARMY (AMENDMENT) ACT, 1915.

(5 GEO. 5, CH. 26).

AN ACT TO AMEND THE ARMY ACT. [16th March 1915.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

Amendment of s. 83 (1) of Army Act.

1.—(1) The limitation on the time within which a soldier of the Regular Forces enlisted for general service is liable to be transferred from the corps to which he was originally appointed to another corps of the same arm or branch of the service shall not apply whilst a Proclamation calling out the Army Reserve on permanent service is in force, and accordingly in sub-section (1) of section eighty-three of the Army Act after the words "within three months after the date of his attestation" there shall be inserted the words "or, at any time whilst a Proclamation ordering the Army Reserve to be called out on permanent service is in force."

(2) This section shall not affect any man enlisted before the fourth day of August nineteen hundred and fourteen.

Amendment of s. 115 of the Army Act.

2.—(1) For sub-section (4) of section one hundred and fifteen of the Army Act, which relates to the impressment of carriages, animals, and other things in the case of emergency, the following sub-section shall be substituted:—

(4) The Army Council shall cause due payment to be made for carriages, animals, vessels, and aircraft furnished in pursuance of this section, and if any difference arises respecting the amount of payment for any carriage, animal, vessel, or aircraft the amount shall be such as may be fixed by a certificate of a county court judge having jurisdiction in any place in which such carriage, animal, vessel, or aircraft was furnished or through which it travelled in pursuance of the requisition; and for the purpose of fixing such amount the provisions set out in the Sixth Schedule to this Act shall have effect.

Where a sum has been paid or tendered by or on behalf of the Army Council under this sub-section, that sum shall be deemed to be the amount due, unless within three weeks from the date of payment or tender an application is made to a county court judge for his certificate.

(2) After the Fifth Schedule to the Army Act the Schedule to this Act shall be inserted as the Sixth Schedule.

(3) This section shall apply whether the article requisitioned was requisitioned before or after the passing of this Act:

Provided that in its application to articles requisitioned before the passing of this Act a reference to three weeks from the passing of this Act shall be substituted for the reference to three weeks from the date of payment or tender.

Amendment of s. 183 (2) of Army Act.

3. The power of reducing non-commissioned officers to a lower grade or to the ranks conferred on the Army Council by paragraph (2) of section one hundred and eighty-three of the Army Act, may on active service be delegated to any general officer whom the Army Council may appoint for the purpose, and accordingly in that paragraph, after the words "and any general officer he" there shall be inserted the words "or the Army Council."

Relations between military and naval forces acting together.

4. The following section shall be inserted in the Army Act after section one hundred and eighty-four:—

184A.—(1) Where an officer or petty officer in the Navy is a member of a body of His Majesty's naval forces acting with or is attached to any body of His Majesty's military forces under such conditions as may be prescribed by regulations made by the Admiralty and Army Council, then, for the purposes of command and discipline and for the purposes of the provisions of this Act relating to superior officers, he shall, in relation to such body of His Majesty's military forces as aforesaid, be treated and have all such powers (other than powers of punishment) as if he were a military officer or non-commissioned officer as the case may be.

(2) Where any officer or soldier is a member of a body of His Majesty's military forces acting with or is attached to any body of His Majesty's naval forces under such conditions as may be so prescribed as aforesaid, then, for the purposes of command and discipline and for the purposes of the provisions of this Act relating to superior officers, the officers and petty officers of such naval body shall, in relation to him, be treated and have all such powers (other than powers of punishment) as if they were military officers or non-commissioned officers.

(3) The relative rank of naval and military officers, petty officers, and non-commissioned officers shall, for the purposes of this section, be such as is provided by the King's Regulations and Admiralty Instructions for the time being in force.

Short title. 5. This Act may be cited as the Army (Amendment) Act, 1915.

Section 2. SCHEDULE.

PROVISIONS AS TO DETERMINING AMOUNT TO BE PAID FOR ARTICLES REQUISITIONED.

1. Subject to the provisions of this schedule an application to a county court judge for a certificate shall be made in manner provided by rules of court, and shall be heard by the judge, without a jury, and his decision shall not be subject to appeal.

2. Subject to the provisions of this schedule, and to rules of court, the judge shall on such application act in accordance with the law regulating, and shall have the powers attaching to, the exercise of his ordinary jurisdiction.

3. The amount fixed by the certificate shall be such amount as appears to the county court judge to be the fair market value of the article requisitioned on the day on which it was required to be furnished as between a willing buyer and a willing seller, and where the owner of a carriage or horse has been required to deliver it at a distance from his premises shall include such sum as the judge may consider reasonable to cover the cost of such delivery.

4. No court fees shall be payable on the application, but the judge may, if he thinks fit, order either party to pay such sum as he may consider proper by way of costs to the other party, which sum shall be added to or deducted from the amount fixed by the county court judge as the value of the article requisitioned, and the amount to be included in the certificate shall be adjusted accordingly.

5. If the amount already paid by the Army Council exceeds the amount specified in the certificate, the county court judge shall certify the amount of the excess and shall order the amount so certified to be paid to the Army Council, which order shall be enforceable in like manner as a judgment of a county court.

W. H. VINCENT,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 23rd April, 1915.

NOTIFICATIONS.

EMIGRATION.

No. 4315-4331—68.

Simla, the 19th April, 1915.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

With reference to the Resolution of the Government of India, No. 11855-11871—3, dated the 24th October 1914, intimation has been received that the prohibition against the landing of artisans and skilled or unskilled labourers at Ports of entry in British Columbia, issued by the Government of Canada has been further extended to 30th September 1915.

The Governor General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to Canada is believed to be most common. Intending emigrants

should also be warned at the Ports of embarkation of the risk they run in proceeding to that country.

Ordered that a copy of the above Resolution be forwarded for information and guidance to all Local Governments and Administrations and to the Home and Foreign and Political Departments.

Ordered also that a copy be published in the *Gazette of India* for general information.

CUSTOMS.

The 24th April, 1915.

No. 4384-W.—In exercise of the powers conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), as amended by Act XII of 1914, the Governor General in Council is pleased to prohibit the export of guts and bladders to Scandinavian countries, Holland, Italy and Switzerland.

POST AND TELEGRAPH ESTABLISHMENTS.

The 24th April, 1915.

No. 4452-101.—Mr. G. E. Landon, Superintendent of Telegraphs, is permitted to retire from the service of Government, with effect from the 15th November 1914.

No. 4458-102.—Mr. J. P. Mackenzie, Superintendent of Telegraphs, is permitted to retire from the service of Government, with effect from the 1st March 1915.

No. 4609-107—Mr W. P. Henderson, Superintendent of Telegraphs, is permitted to retire from the service of Government, with effect from the 1st May 1915.

SALT.

The 24th April, 1915.

No. 4631.—In exercise of the powers conferred by section 28 of the Indian Salt Act, 1882 (XII of 1882), the Governor General in Council is pleased to direct that the following amendments shall be made in the rules published with the Notification of the Government of India in the Finance and Commerce Department, No 1892, dated the 27th June 1884, as subsequently amended, namely :—

(1) (*a*). In rule 13 (1), for the words "the charges due thereon" the words "the charges specified in sub-rule (2)" shall be substituted.

(*b*). *Add* a sub-rule (3) :—

"(3) If subsequently and prior to the removal of the salt from the salt-works, any alteration in the rates of duty or price, or both, as specified in sub-rule (2) shall come into force, the duty and price in respect of such salt shall become payable at the rates so altered. The amount, if any, that may thereby become due in addition to the amount already paid under sub-rule (1) shall be paid into the treasury or sub-treasury by the aforesaid person prior to the removal of the salt and he shall in return be granted a receipt for such payment. The amount, if any, that may have been paid by him in excess shall be refunded as directed in rule 20."

(2) For rule 14 the following shall be substituted :—

"14. He shall present the receipt granted to him under sub-rule (1) of the foregoing rule with a written requisition to the officer appointed by the Commissioner to receive it and, subject to the provisions of sub-rule (3) of the said rule, shall receive in lieu a *rawannah* for the salt, signed by the said officer and sealed in his presence."

(3) For rule 20 the following shall be substituted :—

"20. On a *rawannah* being presented and salt being issued thereunder, the Salt Revenue Officer concerned, before allowing such salt to leave his charge, shall ascertain that such *rawannah* is still in force and valid, and shall satisfy himself that the *rawannah* covers the amount of salt being issued and that all charges payable under rule 13 in respect of such

salt have been paid. He shall then endorse the *rawanna* and return it to the trader or his agent, or to the carrier of the salt, and he shall at the same time refund to the trader or his agent any excess payment due to him under sub-rule (3) of rule 13. The salt shall then be allowed to proceed to its destination."

(4) At the end of rule 50 the following words shall be added :—" at the rate in force on the date of removal ".

No. 4632.—In exercise of the powers conferred by section 28 of the Indian Salt Act, 1882 (XII of 1882), and by the Indian (Foreign Jurisdiction) Order in Council, 1902, and in pursuance of the agreement made with the Chief of the State of Jaipur, dated the 7th August 1869, and of the agreements made with the Chief of the State of Jodhpur, dated, respectively, the 27th January 1870, the 18th April 1870, and the 18th January 1879, which provide for the lease to the British Government of the Salt Sources of Sambhar, Didwana and Pachbhadra within the said States, the Governor General in Council is pleased to direct that the following amendments shall be made in the rules published with the Notification of the Government of India in the Finance and Commerce Department, No. 547-Excise, dated the 25th January 1905, namely :—

(1) (*a*). In sub-rule (1) of rule 2, for the words "the duty payable on the salt he requires, together with its price, the price including the cost of the salt and all charges made in connection with bagging, weighing, loading and despatching it ", the following shall be substituted.—" the charges specified in sub-rule (3)".

(*b*) In the same sub-rule, for the words " the duty and price " the words " the aforesaid charges " shall be substituted.

(*c*) For sub-rule (3) of the same rule the following shall be substituted :—

" (3) The charges referred to in sub-rule (1) are the duty and price at the rates respectively fixed and in force on the day when the remittance is made to the Assistant Commissioner or payment is made as aforesaid, the price including the cost of the salt and all charges made in connection with bagging, weighing, loading or despatching it."

(*d*) To the same rule the following new sub-rule shall be added, namely :—

" (4) If, subsequently and prior to the despatch of the salt to the consignee, any alteration in the rates of duty or price, or both, specified in sub-rule (3), shall come into force, the duty and price in respect of such salt shall become payable at the rates so altered. The amount, if any, that may thereby become due in addition to the amount already remitted or paid under sub-rule (1) shall be remitted or paid by the applicant in the same manner as before, or otherwise as prescribed in that sub-rule, prior to the despatch of the salt, provided that payment shall only be made into a station of the Great Indian Peninsula (Indian Midland) Railway if the payment under sub-rule (1) has been made into the same station. If payment is made into a post office, a fee at the rate and subject to the minimum prescribed in the same sub-rule shall be paid at the same time. The amount, if any, that may have been remitted or paid by the applicant in excess of the payment due under the altered rates shall be refunded as directed in sub-rule (3) of rule 4 "

(2) In sub rule (3) of rule 3, after the words "Post Office " the words " under sub-rule (1) of rule 2 " shall be inserted, and at the end of the said sub-rule the following sentence shall be added :—" When payment is made under sub-rule (4) of rule 2, an advice of the payment shall be sent to that officer."

(3) For sub-rule (3) of rule 4 the following shall be substituted —

"(3) The Assistant Commissioner shall compare the receipt accompanying an indent or application with the advice from the receiving officer and shall satisfy himself that it is correct and in order and, in the case of a remittance, he shall credit the sum remitted. He shall also satisfy himself at the time of the despatch of the salt that all charges due thereon under rule 2 have been paid. He shall then cause the salt to be despatched, freight unpaid, to the consignee and shall send the railway receipt by post to the consignee or other person who may have been specified in the indent or application He shall at the same time remit to the applicant any excess payment due to him under sub-rule (4) of rule 2."

No. 4633.—In exercise of the powers conferred by section 28 of the Indian Salt Act, 1882 (XII of 1882), and by the Indian (Foreign Jurisdiction) Order in Council, 1902, and in pursuance of the agreement made with the Chief of the State of Jaipur, dated the 7th August 1869, and of the agreements made with the Chief of the State of Jodhpur, dated, respectively, the 27th January 1870, the 18th April 1870, and the 18th January 1879, which provide for the lease to the British Government of the Salt Sources of Sambhar, Didwana and Pachbhadra within the said States, the Governor General in Council is pleased to direct that in the Notification of the Government of India in the Finance and Commerce Department, No. 549-Exc., dated the 25th January 1905, the words " or any subsequent notification " shall be inserted after the words and figures " Notification No. 541-Exc. of this date ".

No. 4634.—In exercise of the powers conferred by section 28 of the Indian Salt Act, 1882 (XII of 1882), the Governor General in Council is pleased to direct that the words "at the rate in force on the date of removal" shall be added after the word "thereon" at the end of rule 16 of the rules published with the Notification of the Government of India in the Finance and Commerce Department No. 3207, dated the 29th June 1889.

No. 4635.—In exercise of the powers conferred by section 28 of the Indian Salt Act, 1882 (XII of 1882), the Governor General in Council is pleased to direct that the words "at the rate in force on the date of removal" shall be added after the word "thereon" at the end of rule 16 of the rules published with the Notification of the Government of India in the Finance and Commerce Department No. 1908-S.R., dated the 10th April 1901.

COMMERCE AND TRADE.

The 24th April, 1915.

No. 4676-W.—The following Order in Council is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE,

The 11th day of March, 1915.

PRESENT,

The King's Most Excellent Majesty in Council.

WHEREAS the German Government has issued certain Orders which, in violation of the usages of war, purport to declare the waters surrounding the United Kingdom a military area, in which all British and allied merchant vessels will be destroyed irrespective of the safety of the lives of passengers and crew, and in which neutral shipping will be exposed to similar danger in view of the uncertainties of naval warfare ;

And whereas in a memorandum accompanying the said Orders neutrals are warned against entrusting crews, passengers, or goods to British or allied ships ;

And whereas such attempts on the part of the enemy give to His Majesty an unquestionable right of retaliation ;

And whereas His Majesty has therefore decided to adopt further measures in order to prevent commodities of any kind from reaching or leaving Germany, though such measures will be enforced without risk to neutral ships or to neutral or non-combatant life, and in strict observance of the dictates of humanity :

And whereas the Allies of His Majesty are associated with Him in the steps now to be announced for restricting further the commerce of Germany :

HIS MAJESTY is therefore pleased, by and with the advice of His Privy Council, to order and it is hereby ordered as follows :—

I. No merchant vessel which sailed from her port of departure after the 1st March, 1915, shall be allowed to proceed on her voyage to any German port.

Unless the vessel receives a pass enabling her to proceed to some neutral or allied port to be named in the pass, goods on board any such vessel must be discharged in a British port and placed in the custody of the Marshal of the Prize Court. Goods so discharged, not being contraband of war, shall, if not requisitioned for the use of His Majesty, be restored by order of the Court, upon such terms as the Court may in the circumstances deem to be just, to the person entitled thereto.

II. No merchant vessel which sailed from any German port after the 1st March, 1915, shall be allowed to proceed on her voyage with any goods on board laden at such port.

All goods laden at such port must be discharged in a British or allied port. Goods so discharged in a British port shall be placed in the custody of the Marshal of the Prize Court, and, if not requisitioned for the use of His Majesty, shall be detained or sold under the direction of the Prize Court. The proceeds of goods so sold shall be paid into Court and dealt with in such manner as the Court may in the circumstances deem to be just.

Provided that no proceeds of the sale of such goods shall be paid out of Court until the conclusion of peace, except on the application of the proper Officer of the Crown, unless it be shown that the goods had become neutral property before the issue of this Order.

Provided also that nothing herein shall prevent the release of neutral property laden at such enemy port on the application of the proper Officer of the Crown.

III. Every merchant vessel which sailed from her port of departure after the 1st March 1915, on her way to a port other than a German port, carrying goods with an enemy destination, or which are enemy property, may be required to discharge such goods in a British or allied port. Any goods so discharged in a British port shall be placed in the custody of the Marshal of the Prize Court, and, unless they are contraband of war, shall, if not requisitioned for the use of His Majesty, be restored by order of the Court, upon such terms as the Court may in the circumstances deem to be just, to the person entitled thereto.

Provided that this Article shall not apply in any case falling within Articles II or IV of this Order.

IV. Every merchant vessel which sailed from a port other than a German port after the 1st March, 1915, having on board goods which are of enemy origin or are enemy property may be required to discharge such goods in a British or allied port. Goods so discharged in a British port shall be placed in the custody of the Marshal of the Prize Court, and, if not requisitioned for the use of His Majesty, shall be detained or sold under the direction of the Prize Court. The proceeds of goods so sold shall be paid into Court and dealt with in such manner as the Court may in the circumstances deem to be just.

Provided that no proceeds of the sale of such goods shall be paid out of Court until the conclusion of peace except on the application of the proper Officer of the Crown, unless it be shown that the goods had become neutral property before the issue of this Order.

Provided also that nothing herein shall prevent the release of neutral property of enemy origin on the application of the proper Officer of the Crown.

V.—(1) Any person claiming to be interested in, or to have any claim in respect of, any goods (not being contraband of war) placed in the custody of the Marshal of the Prize Court under this Order, or in the proceeds of such goods, may forthwith issue a writ in the Prize Court against the proper Officer of the Crown and apply for an order that the goods should be restored to him, or that their proceeds should be paid to him, or for such other order as the circumstances of the case may require.

(2) The practice and procedure of the Prize Court shall, so far as applicable, be followed *mutatis mutandis* in any proceedings consequential upon this Order.

VI. A merchant vessel which has cleared for a neutral port from a British or allied port, or which has been allowed to pass having an ostensible destination to a neutral port, and proceeds to an enemy port, shall, if captured on any subsequent voyage, be liable to condemnation.

VII. Nothing in this Order shall be deemed to affect the liability of any vessel or goods to capture or condemnation independently of this Order.

VIII. Nothing in this Order shall prevent the relaxation of the provisions of this Order in respect of the merchant vessels of any country which declares that no commerce intended for or originating in Germany or belonging to German subjects shall enjoy the protection of its flag.

Almeric Fitzroy.

} Dated 23rd April 1915.

No. 377.—With reference to Army Department Notification No 60-A., dated the 15th January 1915, the Government of India, with the approval of the Most Hon'ble the Secretary of State for India, are pleased to permit Officers of the Indian Civil Veterinary Department to join the Indian Army Reserve of Officers for employment with the Army Veterinary Services in India subject to the following *restrictions* :—

(1) Applicants must not hold any appointment of exceptional responsibility and importance under the Civil Administration.

(2) Applicants must obtain the sanction of the Head of the Department, of the Local Government concerned and of the Government of India in the Department of Revenue and Agriculture to the submission of their applications.

(3) That applicants can be spared by their Departments for an indefinite time without inconvenience.

(4) Applicants must not be over 35 years of age, except in the case of existing members of the Volunteer Force, whose cases will be considered specially.

2. The conditions and terms of service will be as follows :—

(a) Accepted candidates will be gazetted in the rank of Lieutenant in the Cavalry Branch of the Indian Army Reserve of Officers.

(b) Whilst serving within Indian limits, they will receive their present civil rates of pay.

If employed in Europe or oversea they will receive Military pay and allowances of rank, *plus* civil furlough pay.

(c) Service in the Indian Army Reserve of Officers will count for civil leave and pension whilst within Indian limits; should service be rendered in Europe or

overseas, absence from India will not be regarded as an interruption of duty for leave already earned, and will count for pension but not for leave.

(d) An officer will retain a lien on his civil appointment.

(e) An officer on incremental salary will count service in the Indian Army Reserve of Officers towards such increments.

(f) An outfit allowance of Rs. 600 will be granted.

(g) Privileges, concessions, gratuities and pensions as for Officers of the regular Army.

3. An applicant in the first instance should apply in writing to the nearest General Officer Commanding a Brigade or Divisional Area, stating age and any special Veterinary qualifications. He should forward with this application the sanction of the Head of the Department, of the Local Government and of the Government of India in the Department of Revenue and Agriculture to its submission, as also

(a) a medical certificate as to physical fitness,

(b) a declaration in the following form, which should be made before a Magistrate :—

"I, the undersigned (insert full Christian names and surname), hereby promise and declare that I will serve His Majesty the King, Emperor of India, his heirs and successors, as an officer of the Indian Army Reserve of Officers, until my resignation shall be accepted, and if I am called to Army Service by Notification in the *Gazette of India*, that I will serve in any part of India or in any other place in which any portion of His Majesty's Indian Forces may be serving and in any branch or department of the service to which I may be appointed I am aware that I may be sent back to my civil duties at any time should the Government of India consider this necessary."

Signed this day of 191 .

Witness

4. If the candidate is approved his application, the consent of the Head of the Department, Local Government and of the Government of India in the Department of Revenue and Agriculture to its submission, the medical certificate, and declaration form will be forwarded by the General Officer Commanding a Brigade or Divisional Area to the Director, Army Veterinary Services, Simla, who will submit it to the Military Secretary to His Excellency the Commander-in-Chief, Army Headquarters.

5. A candidate must clearly understand that normally speaking, his Military service will be required in India.

6. Local Governments will take steps to make the above known to all candidates for Commissions in the Indian Army Reserve of Officers.

No. 378.—The date of appointment of William Alexander Kynoch Christie as Second Lieutenant in the Indian Army Reserve of Officers is 23rd March 1915, and not as stated in Army Department Notification No. 268, dated the 19th March 1915.

No. 379.—In Army Department Notification No. 321, dated the 9th April 1915, *for* "Reginald Condint Riley" *read* "Reginald Conduit Riley."

No. 380—Army Department Notification No. 321, dated the 9th April 1915, as far as it relates to the appointment of George. Penn-Simkins as a Second Lieutenant in the Indian Army Reserve of Officers, is cancelled.

Secretary to the Government of India.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS.

Simla, the 20th April, 1915.

No. 95.—It is hereby notified for general information that the Railway Board have sanctioned a detailed survey being carried out by the Madras and Southern Mahratta Railway Administration for a line of railway on the metre gauge from Cocanada to Kotipalle with a branch to Yadide *viâ* Ramchendrapuram a distance of about 42 miles.

This survey will be known as the Cocanada-Yadide-Kotipalle Railway Survey.

No. 96.—Mr. A. K. Muirhead, Assistant Storekeeper, North-Western Railway, in class III, grade 1, of the Superior Stores Establishment, officiated as a Storekeeper in Class II of that establishment from the 5th to the 20th March 1915, *vice* Mr. F. C. Freeman, Storekeeper, on privilege leave.

The 23rd April, 1915.

No. 97.—With reference to Railway Board's Notification No. 368, dated the 30th December 1914, Mr. H. Jackson, officiating District Locomotive Superintendent, North-Western Railway, reverted to his substantive appointment of Assistant Locomotive Superintendent, in class III, grade 1, of the Superior Revenue Establishment of State Railways, with effect from the 29th January 1915.

No. 98.—With reference to Railway Board's Notification No. 81, dated the 31st March 1915, Mr. J. H. Smellie, District Locomotive Superintendent, North-Western Railway, in class II, grade 1, of the Superior Revenue Establishment of State Railways, is appointed to officiate as a Deputy Locomotive Superintendent in class I of that establishment.

No 99.—With reference to Railway Board's Notification No. 98, dated the 23rd April 1915, Mr. H. Jackson, Assistant Locomotive Superintendent, North-Western Railway, in class III, grade 1, of the Superior Revenue Establishment of State Railways, is appointed to officiate as a District Locomotive Superintendent in class II of that establishment, with effect from the 3rd April 1915.

No. 100.—Syed Ghulam Husain Shah, Assistant Traffic Superintendent, North Western Railway, in class III, grade 2, of the Superior Revenue Establishment of State Railways, is appointed to officiate as a District Traffic Superintendent in class II of that establishment, with effect from the 3rd March 1915 and until further orders.

No. 101—With reference to Railway Board's Notification No. 151, dated the 9th June 1914, Mr. L. Coates, officiating Assistant Traffic Superintendent, North Western Railway, reverted to his substantive appointment of Station Superintendent on that Railway, with effect from the 15th October 1914.

No. 102.—Mr. V. O. Raynor and Mr. J. F. McMichael, Assistant Traffic Superintendents, North Western Railway, and Mr. R. N. Nicolls, Assistant Traffic Superintendent, North Western Railway, on special duty under the orders of the Railway Board, in class III, grade 1, of the Superior Revenue Establishment of State Railways, are appointed to officiate as District Traffic Superintendents with temporary rank in class II, grade 5, of that establishment, with effect from the 26th January, the 21st January and the 8th February 1915, respectively, and until further orders.

No. 103.—Mr. S. E. L. West, Assistant Traffic Superintendent, North Western Railway, in class III, grade 2, of the Superior Revenue Establishment of State Railways, is appointed to officiate as a District Traffic Superintendent, in class II, of that establishment, with effect from the 8th February 1915 and until further orders.

No. 104.—Mr H. N. Young, Traffic Inspector, and Mr L. Coates, Station Superintendent, North Western Railway, are appointed to officiate as Assistant Traffic Superintendents on that Railway, with effect from the 8th February and the 1st March 1915, respectively, and until further orders.

No. 105.—Mr. W. E. S. McGregor, Deputy Traffic Manager, Eastern Bengal Railway, is transferred to the Oudh and Rohilkhand Railway and appointed to officiate substantively *pro tempore* as Traffic Manager of that Railway until further orders.

No. 106.—With reference to Railway Board's Notification No. 105, dated 23rd April 1915, Mr. C. L. Taylor, Officiating Traffic Manager, Oudh and Rohilkhand Railway, is, on relief by Mr. McGregor, transferred to the Eastern Bengal Railway in his substantive capacity of Deputy Traffic Manager.

P. C. YOUNG,

Offg. Secretary, Railway Board.

[... ur Sita Nath Ray; Raja Kushalpal Singh.]

... loans should be raised at 4 per cent, ... this country not only largely to invest ... e time go to inspire confidence.

... myself with the words which have fallen ... the Hon'ble Mr. Banerjee about the ... y has established upon the gratitude of my countrymen; for Your Excellency's kind and sympathetic administration, for Your Excellency's kind sympathies with the hopes and aspirations of the people entrusted to your charge, and for the various ways in which Your Excellency has tried to foster education, sanitation and, may I add, self-government; and, lastly, for the unflinching faith and confidence Your Excellency has under all circumstances shown in the loyalty and good sense of India, and the way in which they have been utilised; and as such I must say that we sincerely share the regret which has been expressed on all sides at the approaching departure of Your Excellency, but we sincerely trust and pray that His Imperial Majesty will be graciously pleased to give due effect to the united prayer of a whole nation, by extending the term of your exalted office until such time at least as the War lasts."

The Hon'ble Raja Kushalpal Singh:—"My Lord, it is but the barest justice to the Hon'ble Sir William Meyer to mention that the Budget under discussion is an agreeable surprise to us. Within a short time after declaration of War between Britain and Germany, it became evident that we would have to face a heavy deficit both in the current and in the coming year, and that our finances would stand in urgent need of replenishment. In view of the exceptional conditions, the popular belief was that additional taxation, of a temporary nature at least, would be unavoidable; but through wise management, which does credit not only to his head but to his heart as well, the Hon'ble Sir William Meyer has spared the country a pecuniary sacrifice for which it was prepared. And yet the absolute needs of good government have not been overlooked. It is doubtless possible to suggest alterations in the budget allotments according to our views of the relative importance of the different heads of expenditure, but they would involve controversial questions of policy which cannot be profitably discussed now.

"On the whole, the Budget inspires confidence as much in the financial strength of Government as in the ability of the Hon'ble Finance Minister to carry us through these difficult times with the minimum of inconvenience to us.

"My Lord, the Hon'ble Finance Minister will not think I am wanting in my appreciation of the provision he has made even at this time of difficulty for the extension of irrigation, both productive and protective, in my province as also for minor works, if I press the claims of the United Provinces for further allotments. The local public are grateful to Government for the contribution for tank restoration work in Bundelkhand and for the allotment of one lakh of rupees for the improvement of the pilgrim route to Badrinath and Kedarnath. The only suggestion I have to make on these heads is that larger grants in the Budget of 1916-17 will be not only welcome but necessary. The tanks in Bundelkhand are very useful, and their complete restoration will be a work of lasting benefit to the whole province. The sooner, again, the pilgrim route to Badrinath and Kedarnath is put in good order the better it is for all Hindus. The volume of pilgrim traffic in these parts is increasing. The estimated cost of the road is six lakhs, out of which one lakh is provided in the present Budget. A larger grant in the following Budget will expedite the work, and expedition in a matter of this kind is desirable.

"But these are minor matters. The great need of the province is liberal Imperial grants for education. The Hon'ble Finance Minister, in justification of the reduced programme of expenditure for Education, has referred among other things to the inability of the provinces to spend in full the non-recurring Imperial grants. But his conclusion must be based upon the experience of provinces other than the United Provinces. There so many schemes are ready that

[*Raja Kushalpal Singh.*] [25TH MARCH, 1915.]

no difficulty can justly be apprehended on the score of the inability of the department to utilise a heavier allotment. The Director of Public Instruction, speaking in the Provincial Legislative Council on 14th March 1914, observed :—

'It was stated in the Imperial Council last year that a sum of Rs. 55,000 out of the grants had not been spent... . .. .. I think this statement must have been based upon some incomplete account, for I found on looking into the account that the whole of the grant which we had received from the Government of India was either spent or had been allocated for expenditure. I am always asking for money, indeed in my position it will always be necessary for me to do so, for although large sums are placed at my disposal, they are never sufficiently large to meet all that I should like to do. The requirements of Education grow so rapidly, and the money which we get for them is all so urgently needed, that when I come to deal with the grants which come to me, I never find that I have anything like enough to spend upon the projects which are before me.'

"It is true that, on 6th April following, the Hon'ble Mr. de la Fosse somewhat modified this statement and observed that the whole money required could only be usefully spent in the course of a series of years; but the broad fact is there that the grants for Education have never outgrown the demand. The public have no idea of the total amount wanted; but this statement of the Director does not negative the suggestion that the annual Imperial allotment could be profitably increased by several lakhs, especially in view of the fact that the Provincial expenditure during the current year shows 'a large excess of about 3 lakhs............owing to larger payment of educational contributions to district boards.' As it is, however, the total budgetted grant is by about three lakhs less than even the Revised Estimate, and by about eleven lakhs less than the Budget Estimate, of expenditure in 1914-15. The present exceptional circumstances prevent my making a grievance of this reduced allotment, but I submit that, with the restoration of normal conditions, the Hon'ble Finance Minister will kindly see his way to make up for the deficiencies of the two years under review by a proportionately heavier allotment to the province.

"My Lord, I claim another favour. Government must by this time be in possession of all the facts connected with the public complaint about the levy of heavy tolls upon pilgrims using the viaduct on the Bombay, Baroda and Central India Railway near Muttra. The bulk of the capital cost of this bridge has already been realised from these tolls, leaving only a small unrealised balance. Apart from the questionable principle of recovering from the general public by special tolls the whole cost of construction of a railway bridge which forms part of the permanent-way, it has to be considered that the Company is owner of the line only to the extent of one-fifth, four-fifths belonging to Government, and is entitled under the contract to only a small fractional share in the surplus profits. It has not, therefore, a large interest in the unrecovered balance of the capital outlay. The abolition of the tolls, recommended by the Pilgrim Committee appointed by the Government of India, can accordingly be sanctioned forthwith without any serious trouble over adjustments between the Company and Government. And this the people earnestly hope Government will do. The favour will be appreciated by the ever-increasing numbers of pilgrims to Brij from all parts of India. No toll is levied at any other railway bridge, in the United Provinces at least, and there is no reason why the one at Muttra should be an exception to the general rule. It has already caused a loss in the annual income of the District Board of Rs. 15,242, derived from the former pontoon bridge for passengers, and the railway company has not had to pay any compensation for that. It is too much that the cost of construction should also be charged to the public. It is time the tolls were abolished. The sum of Rs. 1,19,000 meant for the Executive Council may easily be utilised for effecting this much-needed abolition.

"My Lord, it is regrettable that the landed interests of the United Provinces were unrepresented at the recent Cotton Conference and the Wheat Conference, as they have been very seriously affected by the abnormal conditions, now prevailing in both the cotton trade and the wheat trade. Taking cotton first, Government will be pleased to consider that the slump in the prices has caused serious loss both to the cultivator and the landlord in my province, the extent of which will appear from the fact that over 9,00,000 acres are under cotton, nearly 8½ lakhs of acres in the Agra Province and a little over a lakh

[25TH MARCH, 1915.] [*Raja Kushalpal Singh.*]

acres in Oudh. The whole of this land, bating the small quantity lying in the permanently-settled area, was assessed heavily at the last assessment of land revenue and the rents were fixed at a high level, on account of the valuable nature of the crop grown on it. These rents the cultivators are unable to pay by selling cotton at present prices. The result has been that landlords have not been able to recover in the current year more than 60 per cent. of the rents, and in many cases have had to incur debts for the payment of revenue. Naturally, both they and the cultivators have suffered. The position has not improved yet, notwithstanding the banking facilities arranged for by Government and the official advice for the future restriction of cultivation. There is the further risk of the cotton deteriorating in value and quality unless properly ginned, baled and warehoused. The idleness of the ginning factories and presses too causes widespread distress among the large labouring population. Some more effective means of rehabilitation of the market should accordingly be devised by Government without loss of time, in consultation with the parties affected. And, with a view to relieve agricultural distress in the interim, the assessments should be temporarily revised on an easier scale. This is all the more necessary if other crops have to be grown on cotton lands.

"My Lord, wheat is even more important to my province than cotton. The area under wheat is more than 7½ million acres, a little over 5½ million acres in the Agra Province and a trifle less than 2 million acres in Oudh. The people of these parts have suffered greatly at last year's severe famine. Now, the Hon'ble Sir William Meyer has paid a tribute to the self-reliance shown by the people of the famine-stricken area. Their self-reliance should entitle them, I submit, to some consideration, if not to exceptionally indulgent treatment. But the action of Government in placing an embargo on exports of wheat has crippled further the resources of the United Provinces agriculturist. High prices mean to the bulk of the local people a net gain, as they live upon bajra and barley and not wheat. An artificial reduction in prices not only curtails the profits of the cultivators on which they counted, but makes the recovery of the suspended rent and revenue difficult. The Government promise to earmark the profits from the restricted exports for some special purpose will not bring the wheat growers the necessary relief. From a purely local point of view, any restriction of exports is injurious: but treating India as a whole, it is perhaps absolutely necessary. The principle too of embargo on exports I do not question. What in these circumstances I do submit is that the recovery of the suspended rent and revenue in the area visited by the famine should be postponed for sometime longer, and orders to that effect should be passed by this Government forthwith. April is the month for such recovery, and any concession made by Government, to be effective, should be made immediately.

"My Lord, one more observation on a subject of local interest. The adverse decision of the House of Lords as regards an Executive Council for the United Provinces has been received with keen disappointment by the local public. Nobody ever thought the subject was anyway controversial or that there was any doubt about the policy of Government. We have all along hoped, and our hopes have been encouraged and confirmed by the sympathetic pronouncements of Government, that the province would get the Council form of Government in a short time. We do not blame this Government for the result. Indeed, the Government of India have been so earnest about the reform that a sum of Rs 1,19,000 is allotted in the present Budget for an Executive Council for the United Provinces. But what we do complain is that the House of Lords should have intervened at the last moment to thwart an administrative reform to which the people justly attach great importance and about the utility and expediency of which this Government, with all the facts in its possession, is fully convinced. We sincerely trust the sound views of the Government of India will yet prevail, and this reform will be further pressed upon the Secretary of State as one which should be adopted at once in the interests of good government.

"My Lord, one matter of vital importance to the whole of India demands close scrutiny at the hands of Government. For the last few years the people have realised more and more the absolute necessity of a rapid extension of feeder railway lines, known as Light Railways, not only for the economic

development of rural areas, but also for the safe and profitable investment of their savings. The encouragement so far given by Government to them has been productive of excellent results, and with the success of some of these lines the prospects of this class of private enterprise have brightened. The popularity of the railways is distinctly on the increase. But these factors appear to have excited the jealousy of the foreign companies working the trunk lines, and a movement seems to have been started by them for securing a monopoly of the feeder lines also. The most influential among them—the East Indian Railway Company and the Bengal Nagpur Railway Company —according to the latest information, are seriously contemplating forming auxiliary companies for the flotation of schemes of feeder lines to those two trunk systems. This is most unfortunate, and the people look up to Government for arrangements, reserving for them this class of investment and enterprise. When we are anxious to participate in railway enterprise, there is no reason why we should not have as of right at least one class of railways in which we may have scope for our activity. There is nothing in principle to justify the existing arrangement under which the fate of a scheme started by a private company in India should be dependent upon the good-will and sanction of a powerful competitor like the big companies managing the trunk lines. The subordination of our interests to those of foreign companies is neither economically nor politically sound. I submit, My Lord, an early and sympathetic decision by Government of this subject is needed to satisfy public expectations.

"My Lord, I beg to invite Your Excellency's favourable attention to another point of general interest, namely, the employment of the junior members of noble and ancient families in the service of the country. It has more than once been observed by responsible authorities both here and in England that there is splendid material in abundance in the country for the recruitment of the superior ranks of the Indian Army which, for want of employment, is now running to seed. The War has revealed to the world many a good point in our character, and it is but legitimate to hope that the prejudice that now exists against us will disappear completely before it is over. It will be an offset against the temporary dislocation of business caused by the War if in the end it induces the Military authorities to throw open the commissioned ranks to Indians of good birth and character. The Political department should likewise be able to attract some of these aristocratic Indians to whom diplomatic service, from instinct, heredity and tradition, must be congenial. An Indian section of the Political Service will at once increase the popularity of the Administration, and prove helpful in times of stress and storm.

"My Lord, the appointment of our colleague Sardar Daljit Singh to the India Council must be agreeable to landholders as a class all over the country. It has also the merit of giving effect to the principle embodied in the Parliamentary Bill for the reconstitution of that Council. For the first time has an elected member of the Imperial Legislative Council been selected to serve on the highest Executive Council. Apart from the question of the personal merits of the nominee, the selection should on this ground alone be acceptable to the public.

"My Lord, one more submission, and I have done Your Excellency has come to be trusted and loved by the people; we have firm faith in your untiring industry for our good; we are safe under your protection. Self-interest accordingly prompts us to hope that, even though an extension of service may be personally disagreeable and inconvenient to you, Your Excellency will not leave the country you have loved so well until the clouds of War have completely passed away. We have fervent hope that His Imperial Majesty will be graciously pleased to consult the wishes of his Indian subjects and to allow India the substantial benefit of Your Excellency's sympathetic guidance till the War is over."

The Hon'ble Sir William Meyer:—"My Lord, I said in my speech in introducing the Financial Statement that the Budget for the coming year was framed by us under circumstances of peculiar difficulty and uncertainty. It is, therefore, a matter of sincere gratification to me, both on behalf of Your Excellency's Government and for myself in particular as Finance

L. C. PORTER,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hours on Thursday, the 22nd April 1915, based on the Indian Daily Weather Reports of the period.

1. There was a burst of heavy rain in the south of the Peninsula on the 15th, and moderately heavy showers occurred in Upper Burma on the 21st. During the rest of the week dry weather prevailed with only a few thunderstorms.

2. *Burma.*—Rain fell locally in Upper Burma on the 21st.

Northeast India, including Orissa.—There was nearly general light rain in the upper Brahmaputra valley on the 15th and 21st.

The United Provinces, Central India and the Central Provinces.—Neemuch had a light fall of rain.

Northwest India.—Light rain fell at Drosh, Sonamarg and Dras.

The Peninsula.—Heavy rain occurred at most stations in the extreme south on the 15th. Scattered showers were reported on the remaining days.

3. The chief amounts of rain were as follows :—

April 15th. Sibsagar 0·91″, Calicut 4·25″, Cochin 3·20″, Trivandrum 2·56″, Kodaikanal 2·99″ and Mysore 1·03″.

" 17th. Salem 1·00″.

" 20th. Mercara 3·45″.

" 21st. Toungoo 1·17″, Mandalay 2·21″ and Maymyo 1·33″.

4. The rainfall of the week was 20 per cent or more in excess in Upper Burma, Central India West and Malabar, and was within 20 per cent of the normal in Mysore. No rain fell in Sind, Rajputana, Gujarat and Central India East, but the absence of rain there is a normal feature of the weather at this time of year. In all the remaining divisions rainfall was 20 per cent or more in defect.

The rainfall from the 4th December to date is 37 per cent in defect in Orissa. It differs by less than 20 per cent from the normal in Assam, Chota Nagpur, the Punjab Southwest, Kashmir, Baluchistan, Sind and Madras Southeast ; and is 20 per cent or more in excess in the rest of the country.

Division.	Rainfall data for week ending on 22nd April 1915.			Rainfall data from 4th December 1914 to 22nd April 1915.				
	Actual rainfall in inches.	Normal rainfall in inches.	Excess or defect in inches.	Actual rainfall to date in inches.	Normal rainfall in inches.	Excess or defect in inches.	Percentage departure from normal. This week.	Percentage departure from normal. Last week.

G. C. SIMPSON,
Offg. Director-General of Observatories.

L. J. KERSHAW,
Secretary to the Government of India.

SIMLA;
Dated 22nd April 1915.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 17th April 1915.

Burma.—Amherst reports 1·17 inches of rain. Light showers were received in Kyaukpyu and Thaton. Gathering of miscellaneous crops and clearing of hillside are proceeding. The condition of standing crops is generally satisfactory. Live stock is healthy. The price of unhusked rice is stationary.

Assam.—Generally slight rain fell during the week except in the west of the Assam Valley and in the Assam Range. More rain is needed for the germination of the early rice crop. Hoeing and plucking of tea continue. Prospects are good Ploughing of land for jute and for early and late rice is in progress. The price of common rice is practically unchanged but has a tendency to fall in the Surma Valley with the new *boro* crop. Cattle disease is reported from four districts.

Bengal.—No rain fell during the week and the temperature was above normal throughout the Province. The need for rain is being felt in most places both for ploughing and sowing operations. Standing crops are also suffering to some extent from lack of moisture. Cattle disease is reported from fifteen districts. The price of common rice shows a slight tendency to rise

Bihar and Orissa.—No rain fell during the week. Harvesting and threshing of spring crops and preparation of lands for the next season continue. Sowing of jute and autumn paddy has commenced in some districts. Standing crops and vegetables are on the whole doing well. The average price of common rice has slightly risen as compared with that of the preceding week. The supply of fodder and water is sufficient. Cattle disease is reported from twelve districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Light showers were received during the week in several districts. Slight damage by hail and floods is reported. Standing crops are doing well. Harvesting and threshing of spring crops continue and are in places nearing completion. Reaping and winnowing of spring crops, irrigation of sugarcane and extra crops, hoeing and sowing of cane, preparation of lands for autumn crops and weighments of opium are in progress. Agricultural stock is in good condition but cattle disease is still reported from eighteen districts. Fodder and water are ample. Markets are well stocked. Prices are fluctuating with a slight downward tendency.

Punjab.—Light to moderate rain has fallen in parts of the western districts. Elsewhere the weather was generally dry. The condition of standing spring crops is good. Reaping and threshing of wheat, gram and barley are in progress with yield normal to good. Sowings of the extra spring crops have been nearly finished except in the western districts where they still continue. The area sown is normal. Sowings of sugarcane and cotton are in progress and are generally average. Ploughing for other autumn crops is much above normal owing to recent rains. Cattle are healthy and fodder and water for drinking and irrigation are sufficient. Prices are falling everywhere but still range between warning and scarcity rates. Prices of wheat in Ambala are 8¾, in Ferozepore, Lahore and Lyallpur 8 and in Rawalpindi 9½ seers per rupee.

North-West Frontier Province.—Rain fell in Peshawar and Bannu. The weather is temperate. Standing crops both on irrigated and unirrigated lands are fairly good except in Bannu where hailstorms and floods have damaged them in some places. Harvesting of *sarshaf* and barley in Peshawar and of barley and gram in Bannu continues. Sowing of rice, cane and the extra spring crops is in progress in Peshawar and that of rice and cotton has commenced in the Bannu tahsil. The condition of cattle is generally good. Fodder and water are procurable Prices are high and are rising in Peshawar and Bannu, but are falling in the case of barley in Peshawar and in the case of wheat in Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 7½ to 12½ and maize from 8½ to 20 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—Good rain fell during the week in Muzafferabad and insignificant rain elsewhere. Spring crops are in good condition. Agricultural operations for autumn crops are in progress. Cattle are generally healthy. Fodder and water are sufficient except that fodder is scarce in the Baramula tahsil. Prices are normal but are high in the Baramula tahsil.

Rajputana.—Slight showers were received in isolated places in the east of Rajputana and in Ajmer. The weather is generally hot and occasionally cloudy in a few places. Harvesting and threshing are in progress. Prospects are fair to good. The condition of cattle is generally good. Fodder and water are sufficient. Prices have undergone no change since last week.

Central India.—The rainfall during the week was general in Gwalior, partial in Bhopal, slight in Indore and the Southern States and *nil* elsewhere. The weather is seasonable. Harvesting of spring crops is in progress. Lands are being prepared for the sowing of autumn crops in Indore and in the Southern States. The probable outturn is generally good. Crops have been damaged by hail and rain in certain parganas of the Gwalior division and in portions of the Orchha, Panna and Ajaigarh States of Bundelkhand Agricultural stock is generally good except in the Sendhwa, Sundarsi, Kannod, Sanwer, Indore and Rampura parganas of the Indore State and in Dhar, Jobat and Alirajpur of Southern States where cattle disease exists. The fodder supply is sufficient throughout except in the Rampura pargana of Indore. Prices are high in Bhopal and Baghelkhand, are falling in Gwalior, Bundelkhand and Malwa and are steady elsewhere.

Central Provinces.—The weather continues to be hot and occasionally cloudy. Seven districts received light showers of rain; nowhere exceeding 59 cents. Threshing and winnowing of spring crops have practically been completed in the Chhattisgarh and Berar districts but continue elsewhere. Preparation of land for autumn crops and construction of field embankments in rice districts are in progress. The supply of fodder and water is adequate. Cattle are in good condition. The price of wheat varies from 8 to 10$\frac{11}{16}$ seers per rupee. *Juar* is cheaper in Nimar and dearer in Yeotmal by 2 seers per rupee. Variations in the prices of other food grains are unimportant.

Feudatory States:—Threshing and winnowing of spring crops and preparation of lands for autumn crops continue. The price of wheat fell in four States and rose in one. Rice is dearer in Bastar and gram cheaper in Udaipur by 2 and 3 seers per rupee respectively.

Bombay.—Rain fell during the week in Sind, Kaira, Surat, Thana, the Deccan, the Karnatak, Cutch, Savantvadi and Kolhapur. Spring crops have been damaged slightly by rats in one State of Rewa Kantha. Cotton picking continues in Gujarat, West Khandesh, Satara, the Karnatak, Baroda, Rewa Kantha and Cutch. Harvesting of spring crops generally continues. Preparations for the cultivation of autumn crops are progressing. The fodder supply is sufficient except in two *mahals* of Karachi, two *talukas* of Thar and Parkar, one *taluka* of Nawabshah and one *taluka* of Hyderabad. Cattle are in good condition. Agricultural stock is sufficient except in Poona. Drinking water is adequate. Water for irrigation is generally sufficient. Prices have slightly risen in the Karnatak and are generally steady elsewhere.

Hyderabad.—During the week rain fell throughout Mahratwara except Usmanabad. Slight rain was also received in the Mahbubnagar district. The average fall was 14 cents Harvesting of spring crops is almost over. The late rice crop is fair to good and is being weeded. Harvesting has commenced. Cattle disease prevails in six *talukas*. Water scarcity is reported from the Gulbarga *taluka*. Prices of grains are constant. The highest price in districts is *juar* 10½ seers in Warangal and the lowest 22 seers in Bir, Gulbarga and Adilabad.

Mysore.—The rainfall during the week was good in Bangalore and light elsewhere. The price of *ragi* has risen in Kolar and Hassan and that of rice has fallen in Hassan and risen in Mysore. Markets are well supplied. The outturn of the harvested *ragi*, sugarcane, paddy, gram, wheat and cotton is fair. Ploughing operations are in progress. Paddy, sugarcane, *ragi* and gingelly have been sown in parts. Standing crops are in good condition. Prospects of the season are generally good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Coffee is in blossom in parts. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was good in Ramnad, Tinnevelly, Travancore and the Nilgiris, fair in Madura, Malabar and Cochin and light or *nil* elsewhere. Standing crops are fair to good. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. The water-supply is sufficient except in Kurnool, Trichinopoly, parts of Ganjam, Godavari, Guntur, Anantapur, Cuddapah, Carnatic except Chingleput, the central parts, the west coast and the southern districts except Tinnevelly. Pasture is sufficient except in Guntur, Kurnool, Anantapur, Cuddapah, Coimbatore and the west coast and in parts of six other districts. Fodder is generally sufficient. Prices are rising slightly.

L. J. KERSHAW,

Secretary to the Government of India.

No. 4007—4036-W.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

RESOLUTION.

Dated Simla, the 17th April 1915.

READ—

Telegram No. 547-W., dated the 4th November 1914, to His Majesty's Secretary of State for India.

Telegram, dated the 21st December 1914, from His Majesty's Secretary of State for India.

Telegram, dated the 9th January 1915, from His Majesty's Secretary of State for India.

Letter No. M.-24837, dated the 17th December 1914, from the India Office, containing an advance copy of the Report of the Admiralty Transport Arbitration Board Sub-Committees.

Telegram No. 870-W., dated the 26th January 1915, to His Majesty's Secretary of State for India.

Letter No. 985-988-W., dated the 29th January 1915, to the Secretaries to the Bengal, Burma, Bombay and Karachi Chambers of Commerce.

Telegram, dated the 26th February 1915, from His Majesty's Secretary of State for India.

Telegram, dated the 1st March 1915, from His Majesty's Secretary of State for India.

Letter No. 2965-W., dated the 18th March 1915, to the Director, Royal Indian Marine.

Letter No. 2969-2972-W., dated the 18th March 1915, to the Secretaries to the Bengal, Burma, Bombay and Karachi Chambers of Commerce, (subsequently repeated to the Madras Chamber).

Telegram No. 2977-W, dated the 18th March 1915, to His Majesty's Secretary of State for India.

Letter No. 3231-3234-W., dated the 30th March 1915, to the Secretaries to the Bengal, Burma, Bombay and Karachi Chambers of Commerce (subsequently repeated to the Madras Chamber).

Telegram, dated the 2nd April 1915, to His Majesty's Secretary of State for India.

Letter No. 3578-W., dated the 7th April 1915, to the Secretary, Chamber of Commerce, Madras.

Telegram, dated the 15th April 1915 from His Majesty's Secretary of State for India.

Telegram No. 4147-W., dated the 17th April 1915, to His Majesty's Secretary of State for India.

The Government of India have been in close and constant communication with the Secretary of State regarding the procedure to be adopted in requisitioning merchant vessels for Government service connected with the war; the rates of hire to be paid; and the liability for fitting out charges and third party claims. A final decision regarding the rates of hire and outstanding claims could not be arrived at pending the receipt of the Admiralty Transport Arbitration Board Sub-Committees' Report and the orders of the Admiralty thereon. These have now been received and were communicated to Chambers of Commerce concerned in the letter in this Department No. 2969-2972-W., dated the 18th March 1915. As intimated in that letter, vessels requisitioned in India on or before the 31st December 1914 will be paid for at the rate of hire fixed in terms of the Charter Party covering the requisition. The owners of vessels taken up on or after the 1st of January 1915 will receive an advance of Rs. 10 per ton per mensem, and their claims in regard to these vessels will be finally adjusted in consultation with the Secretary of State as soon as the Admiralty have decided what rates will be paid for ships requisitioned in the United Kingdom after the 31st December 1914. The Secretary of State has been asked to give the Government of India the earliest possible intimation of the rates finally accepted for such vessels.

2. In the meantime it is recognised that many claims other than those which have reference to the rate of hire still remain outstanding in respect of requisitioned vessels. As the Government of India indicated in their letter of the 18th March 1915 to Chambers of Commerce, they have now decided to appoint a Committee to examine such claims. It will consist of—

R. E. ENTHOVEN, ESQ., C.I.E., I.C.S. — *President.*

THE HON'BLE MR. H. L. STEPHENSON, C.I.E., I.C.S. }
MAJOR E. B. PEACOCK, I. A. } *Members.*

The Committee will visit the principal ports from which vessels have been requisitioned, and in conducting their enquiries they will be assisted by the advice of two non-official representatives of commercial circles, nominated by the Chamber of Commerce at each port.

The non-official assessors nominated by the various Chambers of Commerce are—

Bombay	Malcolm N. Hogg, Esq., of Messrs. Forbes, Forbes, Campbell and Co. A. H. Froom, Esq., Supdt., P. and O. S. N. Company.
Karachi	W. V. Nicholas, Esq. E. L. Price, Esq.
Madras	Gordon Fraser, Esq., Chairman, Madras Chamber of Commerce. C. B. Simpson, Esq.
Bengal	Hon. Mr. F. H. Stewart, Presdt., Bengal Chamber of Commerce. Archibald Birkmyre, Esq.
Burma	E. O. Anderson, Esq., Manager, Bulloch Brothers and Co., Ld. B. E. G Eddis, Manager Arbuthnot and Co.

3. The terms of reference to the Committee are as follows :—

(*a*) Their primary duty will be, with the assistance of the assessors at each port visited, to examine subsidiary claims arising in connection with the requisition of vessels for Government service. These claims fall generally under three heads :—

(1) cost of fitting the ship where this cost has been met by the owner;

(2) claims in connection with the removal of cargo already loaded when the ship was requisitioned ;

(3) such other subsidiary claims as may be brought forward for examination.

(*b*) In reporting upon these claims the Committee are desired firstly, to classify them, so far as this can conveniently be done; secondly, to indicate their recommendations regarding the adjustment of claims, either individually or by classes ; and, thirdly, to report whether their recommendations have or have not received the consent of the claimants, and how far they are supported by documentary evidence.

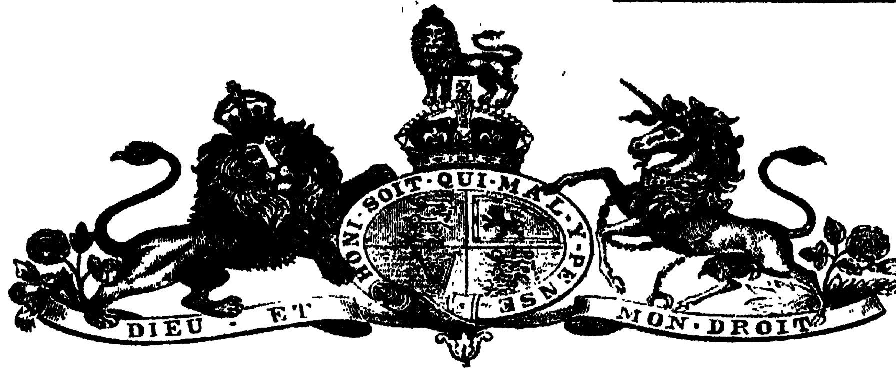
(*c*) The Committee will further report whether there are any claims still outstanding for the hire of ships already requisitioned and submit proposals where necessary for their settlement on the lines laid down in paragraph 1 of this Resolution.

4. The Government of India have recently received information from the Secretary of State for India in his telegram dated the 15th April, that His Majesty's Government have decided that in no case will third party claims be admitted. In view of these instructions, the Committee will consider only such claims as are put forward on behalf of ship owners or their representatives ; and the examination of claims arising out of third party commitments must be definitely excluded from the scope of the enquiry.

5. Maritime Local Governments are requested to give all necessary assistance to the Committee and to the non-official assessors, and also to persons interested in placing their claims before the Committee.

ORDERED that a copy of this Resolution be forwarded to all Local Governments and Administrations, to the Finance and Army Departments and to the President and Members of the Committee.

ORDERED also, that the Resolution be published in the Supplement to the *Gazette of India* for general information.



C. E. LOW,

Secretary to the Government of India.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 19th March 1915.

On and after 3rd April and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

THE PATENT OFFICE.

PATENTS and DESIGNS.

Calcutta, the 24th April 1915.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

April 12.

2091. G. K. Paul. *Improved box harmonium.*

2092. E. Hope. *Improvements in or relating to pith or like hats.*

2093. E. G. Donald. *Improvements in or relating to lifting sheets in hospitals.*

2094. J. G. Robinson. *Improvements in piston valves for locomotive and other engines.*

April 14.

2095. Elektro-Osmose Aktiengesellschaft (Graf Schwerin Gesellschaft) *Improved process for separating from a mixture one or more suspension colloids, emulsion colloids, true colloids, ions or dissolved bodies or members of two or more of these classes.*

2096. J. J. Shedlock and The Optime Motor Spirit Syndicate Limited. *Improvements in or relating to the treatment of liquid hydrocarbons for their purification and the production of motor spirit and bye-products and apparatus therefor.*

2097. E. Moss. *Improved stamping or franking machine.*

April 16.

2098. D. S. Duff. *Sugar-cane and oil expressing mill.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Anyone desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order

1972. Standard Oil Co. *Improved process of and apparatus for treating liquid hydrocarbons.*

2019. Standard Oil Company. *Improved process of and apparatus for converting petroleum of a high boiling point into petroleum of a lower boiling point.*

2025. G. K. Paul. *Improved box harmonium.*

2036. Q. Moore. *Improvements in connection with gas producers.*

2037. Q. Moore. *Improved process and arrangement of plant for the treatment and recovery of tar and ammonia liquor from producer or other gas.*

2057. Pickles Brothers Ld. and E. Smith. *Improvements in change box mechanism for looms.*

2069. A. C. Terrell. *Improvements in metal shelving.*

2071. A. A. Lacey and E. C. Elliot *A latrine flushing apparatus.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

1883. W. J. Still. *Improvements in means for injecting fuel into the cylinders of internal combustion engines.*

1927. W. Jackson. *Improvements in apparatus for withering, or welking, or for drying tea leaf and the like.*

2011. A. V. Gifkins & H. S. Watson. *Improvements in and relating to systems of charging and discharging electric batteries.*

2014. W. Jones and Jones and Atwood Ld. *Improvements in and connected with the purification of sewage and analogous liquids.*

2016. J. L. Patterson. *A combined hand-grip and fender for use on life-lines of life boats and for other purposes.*

2021. J. G. A. Kitchen and I. H. Storey. *Improvements in and relating to means for reversing screw propelled boats without reversing the propeller.*

2023. H. Leitner. *Improvements in or relating to dynamos.*

2026. S. D. Garbis. *Improvements in means for locking and sealing treasure and other boxes.*

SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7, accompanied by the fee, R30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

REPORT ON THE PATENT OFFICE.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price 10 annas), and in the Indian Patents and Designs Rules, 1912 (price 2 annas). These should be consulted before an application is made to the Controller.

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs nor their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

4. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs*, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.

6. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD	R. C. Technical Institute.
ALLAHABAD	Public Library.
BANGALORE	Indian Institute of Science.
BOMBAY	Record Office.

H. G. GRAVES,
Controller of Patents and Designs.

The following report on the working of the Patent Office during the calendar year 1914 is published for general information.

No. 1812-P., dated Calcutta, the 25th March 1915.

From—H. G. GRAVES, Esq., Controller of Patents and Designs,

To—The Secretary to the Government of India, DEPARTMENT OF COMMERCE AND INDUSTRY.

I HAVE the honour to submit, for the information of the Government of India, the Annual Report of the Patent Office during the calendar year 1914.

2. The office at 1, Council House Street, Calcutta, has been in my charge for three months only this year. Between February 23rd and November 22nd, while I was on leave, Mr. J. W. Meares, Electrical Adviser to the Government of India, officiated as Controller of Patents and Designs.

3. The number of applications under Section 3 of the Indian Patents and Designs Act, 1911, for the grant of a patent was 588 as compared with 705 in the previous year, bringing up the total to 1,971 since the Act came into operation. The decrease is to be ascribed to the outbreak of war in August, up to which time the progress had been normal. Despite this drop in the number of application, the total income of the office has increased from R72,159-6-0 to R73,159-8-0, and this rise is due to the steady increase in the number of fees paid for the continuance of patent rights.

4. Under the existing Act 1,430 patents have been sealed on the 1,971 applications made under Section 3 and, in addition, 148 patents have been sealed on 158 applications made under Section 81. There are also 1,565 exclusive privileges under the Inventions and Designs Act, 1888. One patent, which had lapsed, was restored under the provisions of Section 16, but was again allowed to lapse.

5. About a third of the applications are rejected in the first instance for various informalities, but every assistance is given, when required, in order to enable the inventor to acquire his patent. Up to the present only 80 applications have become void through non-acceptance within the statutory period of 15 months. This is 6½ per cent. on the 1,218 applications received up to 15 months before the end of the year under consideration. In the majority of those cases a new invention was certainly not disclosed. Of course many patents are acquired on inventions of which the novelty is doubtful, but it is obvious that it is impossible to obtain exact information in every branch of industry.

6. Oppositions to the grant of a patent were entered in five cases. Including two pending from the previous year, two were decided in favour of the applicant, four in favour of the opponent and one is held in suspense as the applicant is an enemy subject. Last year five oppositions were entered and three cases were decided, all in favour of the applicant.

7. Appeals were made from the decisions of the Controller to the Governor-General in Council in one case, and there were four appeals pending from 1913. All these have now been decided. In two cases the decision of the Controller was supported, in one it was reversed, and in two it was varied. The two latter were concerned with the date to be given to a series of divided applications and a modification of the rules is under consideration.

8. Renewal fees have been paid in 774 cases during the year, while the cessation of 540 exclusive privileges was notified. One exclusive privilege, granted an extension of seven years, beyond the normal 14 years, has been maintained in force since 1893. The following table shows the number of applications made and the number of exclusive privileges or patents obtained in respect of them which are now in force or maintainable in respect of the years 1914—1900, but a number of patents have yet to be sealed in respect of 1913 and 1914 :—

Date of application.	1914.	1913.	1912.	1911.	1910
Number of applications .	588	705	678	807	667
Number alive . . .	238	579	606	605	424

Date of application.	1909.	1908.	1907.	1906.	1905.
Number of applications .	695	551	615	620	586
Number alive . . .	179	109	111	90	62

Date of application.	1904.	1903.	1902.	1901.	1900.
Number of applications .	552	536	524	496	492
Number alive . . .	50	30	25	22	5

It must, however, be remembered that, under the repealed Inventions and Designs Act, 1888, the exclusive privilege did not accrue until the specification was filed, in some cases two years later than the date of application. Also a period of three months' grace is obtainable for the payment of continuance fees, so that the figures given above include certain cases as alive at December 31st which will in reality only be notified as lapsed within the following three months. As regards 1914 and 1913, the figures show the number of patents sealed on the applications up to date. As 18 months or more are allowed for sealing, these figures will be increased next year.

9. *Assignments, etc.*—Applications have been made in 46 cases for entries of assignments, etc., on the Register of Patents, and in three cases for entries on the Register of Designs.

10. Specifications as soon as they are printed are distributed to 26 centres scattered throughout India (see appended list). They may be consulted, together with the other publications of this office free of charge, and copies are on sale at a uniform price of eight annas each. Some 1,400 specifications of inventions are in this way available, and the number will increase year by year. Copies of the specifications received from the United Kingdom Patent

Office are also open to public inspection at the Patent Office, 1, Council House Street, Calcutta, the Record Office, Bombay, and the Record Office, Egmore, Madras.

11. *Designs*—are dealt with under Part II of the Act which, like the rest of the Act, is also assimilated to the United Kingdom statute of 1907. The fee, which under the repealed Act was uniformly R10, has now been reduced to R3 or 8 annas according to the class in which the design is to be registered. This has had the natural result of increasing the number of applications from 87 in 1911 to 343 in 1912, 741 in 1913 and 1,440 in 1914, and the number will doubtless continue to grow as the Act gets better known. On these 1,440 applications, registration was effected in 1,423 cases as follows :—

	Class	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
1912	Number . . .	10	...	2	2	2	..		4	...	.	...	...	279	10	23	1
1913	Number . . .	17	1	5	2	3	..	1	...	2	...	...	..	623	2	55	2
1914	Number . . .	17	..	4	4	1	.	.	...	.	.	...	...	1165	2	227	8

Class 13, which shows the largest number, includes printed or woven designs on textile piece-goods. Fourteen cases were abandoned and three applications were refused during the year, mainly on the ground that the subject-matter of the application related to a trade or property mark which is specifically excluded by Section 2 (5) of the Act. No application was pending at the end of the year.

Three extensions of copyright in designs for five years were granted.

12. The effect of the war as noted above has resulted in a decrease of the number of applications during the last five months, but proceedings on applications previously made have not been materially affected at present. Under directions from the Government of India, acceptance of applications and sealing of patents on account of "enemy subjects" have been suspended, but in order that the rights of such persons should not be unduly prejudiced, it has been determined to receive the necessary fees if tendered in due time. A license to this effect was issued on 9th January 1915 and legislation may possibly be undertaken so as to extend the times prescribed in the Act. Up to the end of the year, no emergency legislation, dealing with patents and designs, to correspond with the United Kingdom Statute entitled "The Patents, Trademarks and Designs (Temporary Rules) Act, 1914," has been enacted in India, but Sections 22 and 23 of the Indian Patents and Designs Act, 1911, could possibly be utilised to obtain revocation or a grant of a license in the case of an enemy patent.

13. The position of patentees, who are also Government servants, has again been under consideration during the year. Although definite rules have not been issued to supplement those which control persons in Naval and Military employ (see Resolution of the Government of India in the Army Department No. 2265-1 (O.-4) special and miscellaneous, dated the 19th April 1912), a circular was issued to all Local Governments and Administrations on 19th February 1914, defining and affirming the right of Government under Sections 16 and 17 of the Inventions and Designs Act, 1888, and Section 21 of the Indian Patents and Designs Act, 1911.

14. By the Second Repealing and Amending Act, 1914 (XVII of 1914), a slight amendment was made in the Indian Patents and Designs Act, 1911, by inserting the words "and restrictions" after the words "conditions" in Sub-section (5) of Section 16.

15. The work of the office has progressed satisfactorily and has been kept up to date during the year. The annual and quarterly issues of the "Patent Office Journal" have been issued as usual.

16. The usual tables are appended.

APPENDICES.

A.—List of places receiving copies of the Patent Office Journal and Specifications of inventions on the condition that they may be seen by the public free of charge.

Place	Institution
AHMEDABAD	R. C. Technical Institute.
ALLAHABAD	Public Library.
BANGALORE	Indian Institute of Science.
BOMBAY	Record Office.
"	Victoria Jubilee Technical Institute, Byculla.
"	The Bombay Textile and Engineering Association, No. 1A, Sussex Road, Parel.
CALCUTTA	Patent Office, No. 1, Council House Street.
"	Office of the Director-General of Commercial Intelligence.
"	Civil Engineering College, Sibpur.
CAWNPORE	Office of the Director of Industries, United Provinces.

THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.

NOTIFICATION.

Roorkee, the 10th June 1908.

A Registry Office for men of the undermentioned grades is kept up by the Principal, Thomason College, Roorkee. Officers and employers of labour requiring men are requested to apply to the Principal :—

1. Engineers.
2. Overseers.
3. Sub-Overseers.
4. Draftsmen and Surveyors.
5. Motor Car Drivers.
6. Engine Drivers.
7. Men trained in—

   (a) Photo-Mechanical and Lithographic Work.

   (b) Workshops (both Electrical and Mechanical sides).

E. ATKINSON, LIEUT.-COL., R.E.,
Principal, Thomason College, Roorkee.

II B

BOARD OF EXAMINERS.

NOTICES.

The following books published under the authority of the Government of India can be obtained on application from the Secretary, Board of Examiners, 1, Council House Street, Calcutta :—

"Specimens of Persian Manuscripts" for the use of candidates for the Degree of Honour, High Proficiency, and Interpretership examinations in Persian, published in facsimile by the Board of Examiners, Fort William. Price R6 per copy.

For the convenience of Civil and Military officers desirous of appearing for examination in Oriental languages, the Board of Examiners publish annually a collection of specimen papers set for the examination held by them. The following collections are available for sale :—

(1) Collection for 1902-03, price R3 a copy.
(2) " " 1903-04 " " 3 "
(3) " " 1904-05 " " 3 "
(4) " " 1908-09 " " 3 "
(5) " " 1909-10 " " 3-8 "
(6) " " 1910-11 " " 3-8 "
(7) " " 1912-13 " " 2-8 "
(8) " " 1913-14 " " 2-8 "

N. B.—Nos. (1), (3), (4), (5) and (6) contain papers in all the different standards of examination held in Arabic, Persian, Sanskrit, Urdu, Hindi and Bengali ; No. (5) contains the High Proficiency Uriya papers also ; No. (2) contains all the papers except those for the High Proficiency examinations in Hindi, Arabic and Persian and the Degree of Honour in Arabic and Sanskrit ; No (7) all except those for the Degree of Honour in all languages and the Preliminary test in Arabic, and No. (8) all except those for the Preliminary Interpretership and High Proficiency in Arabic, High Proficiency in Bengali and the Degree of Honour examinations in Arabic, Bengali, Hindi, Persian and Sanskrit.

"Diwan-i-Sarkhush" (official edition), one of the text-books prescribed for the High Proficiency examination in Persian ; price R3 per copy.

"Kalam-i-Urdu," the text-book for the Proficiency Standard in Urdu ; price R2-12.

"Qaani" (official edition), one of the text-books prescribed for the Degree of Honour examination in Persian ; price R7-8 per copy.

"Diwan-i-Andalib" (official edition), one of the text-books prescribed for the High Proficiency in Persian ; price R4 per copy.

Glossary to the "Ar-Rauzatu-z-Zakiyah," the text-book for the Higher Standard examination in Arabic ; price R6-4 per copy.

"Nazm-i-Muntakhab," one of the text-books prescribed for the Degree of Honour examination in Urdu ; price R5 per copy.

"Siyahat-Nama-i-Ibrahim Beg" (official edition), one of the text-books prescribed for the High Proficiency examination in Persian ; price R5 per copy.

"Raghuvansam"—Expurgated Text (official edition), prescribed for the High Proficiency examination in Sanskrit ; price R2-8.

"Akhlaq-i-Jalali" (official edition), one of the text-books prescribed for the Degree of Honour examination in Persian ; price R5-12 per copy.

"Rajniti" (new annotated edition), prescribed as an alternative text-book for the Proficiency examination in Hindi ; price R3 per copy.

"Selections for the Lower Standard examination in Persian"; price R2 per copy.

The following list of Munshis who are qualified to teach Urdu under India Army Order No. 162 of 1907 is published for the information of all those students of this language who are desirous of obtaining competent teachers :—

AGRA.

1. M. Gulzari Lall . . Regimental Munshi, 6th Hampshire Regiment, Agra Cantonment.

ALLAHABAD.

1. M. Jawala Prasad, I. . . 5th Hampshire Regiment, Sadar Bazar, Allahabad.

AMBALA.

1. M. Mohd. Miyan Khan . . Sadar Bazar, Ambala.
2. M. Mohd. Akbar Khan . The Oriental Lodge, Ambala.
3. M. Sita Ram Mahta . . . Near Kali Bari, Sadar Bazar, Ambala.
4. M. H. Ahmad Fakhriey . . Sadar Bazar, Ambala Cantonment.
5. M. Anand Sarup . . . Sadar Bazar, Ambala Cantonment (winter only).

BANNU.

1. M. Mul Chand Khurana . . . . . Mission Clerk, Bannu.

BAREILLY.

1. M. Jawala Parshad, II . . . . . Regimental Munshi, Dorset Battery, Sadar Bazar, Bareilly.

BELGAUM.

1. M. Vasudeo Damodar Kulkarni . . Pandit, 1809, Kelkar Bag, Belgaum.

CALCUTTA.

1. M. Mohd. Gholam Kibriya . . . . 17/1, Noorallah Doctor's Lane, Balligunge Road, Calcutta.
2. M. Badruddin Ahmed, B.A. . . . . 8, Maulvi Imdad Ali's Lane, Calcutta.
3. M. Hossain Mirza . . . . . . 1, Syed Ismail Lane, or 4-1, Collin Lane, Calcutta.
4. M. Mohd. Israil Khan . . . . . 155, Karaya Road, Balligunge, Calcutta.
5. M. Syed Nawab Ali . . . . . 11, Colootola Street, Calcutta.
6. M. Wahidun Nabi Khan . . . . . 88/1, Baitakkhana Road, Calcutta.
7. M. Mohd. Abdul Hamid . . . . . 36, Indian Mirror Street, Calcutta.
8. M. Daliluddin Ahmed . . . . . 1, Jhowtolla Road, Balligunge, Calcutta.
9. M. Abdul Wajid . . . . . . 106, Harrison Road, Calcutta.
10. M. Syed Mohammad . . . . . 12, Waliullah Lane, Wellesley Square, Calcutta.
11. M. A. M. Ubaidur Rashid, B.A. . . . 1, Korabardar Lane, P. O. Wellesley, Calcutta.
12. M. Mohd. Muslim . . . . . . 12, Damzen's Lane, Chinapara, Calcutta.

CAMPBELLPORE.

1. M. Rahim Shah . . . . R. A. Munshi, Campbellpore.

DELHI.

1. M. Mithan Lal . . . . . . C/o late M. Chunni Lal Sahib, Government Pensioner, Muhalla Churi Walan, Delhi.
2. M. Akbar Khan Haidari . . . . . British Garrison Meer Munshi, The Fort, Delhi.

DINAPORE.

1. M. Syed Hadi Hussain . . . . . Regimental Munshi, Orderly Bazar, Dinapore.
2. M. Saiyed Amir Ali . . . . . C/o 2nd Devon Battery, Dinapore.

FORT WILLIAM—CALCUTTA.

1. M. Abdul Karim . . . . . . Regimental Munshi, C/o The 10th Battalion, Middlesex Regiment, Fort William, Calcutta.

GORAKHPORE.

1. M. Ram Charan Lal . . . . . Sub-Deputy Inspector of Schools, Gorakhpore.

JHANSI.

1. M. K. B. Mehta . . . . . . R. A. Munshi, Jhansi.

JHELUM.

1. M. Thakur Das Pahwa . . . . . Officers' Munshi, Jhelum.

JUBBULPUR.

1. M. Abdur Rahim . . . . . . Regimental Munshi, 1st Battalion, The York and Lancaster Regiment, Jubbulpur.

JULLUNDUR.

1. M. Har Bhagat Singh Bains . . . . Talhan, Jullundur Cantonment.

KAMPTEE.

1. M. S. Karim Bukhsh . . . . . Regimental Munshi, 5th Battalion, The Buffs, East Kent Regiment, Gora Bazar, Kamptee.

KASAULI.

1. M. Anand Sarup . . . . . . Depôt Munshi, Kasauli (summer only).

LAHORE CANTT.

1. M. J. Kishori Lal . . . . . . R. A. Bazar, Lahore Cantonment.
2. M. Sham Lal Bhargava . . . . . . Dungar Street, Sadar Bazar, Lahore Cantonment.

LUCKNOW.

1. M. Abdul Alim . . . . Near the Police Post, Hussaingunge, Lucknow.
2. M. Mohd. Yaqub Khan (Munshi Fazil) . . . Near Royal Hotel, Lucknow.
3. M. S. M. Shahabuddin . . . . . . Near Police Out Post, Hussaingunge, Lucknow.

MAYMYO (BURMA).

1. M. Farzand Ali Khan . . . . . . C/o 1st Border Regiment, Maymyo, Burma.

MEERUT.

1. M. Ahmed Bux . . . . C/o Wheeler's Book Stall, Railway Station, Meerut Cantonment.
2. M. Aziz-ur-Rahman (of Delhi) . . . . Late Regimental Munshi, 3rd King's Royal Rifle Corps, Taily Muhalla, Sadar Bazar, Meerut.

MULTAN.

1. M. Mohd. Ishaq . . . . R. F. A. Munshi, Sadar Bazar, Multan Cantonment.

MURREE HILLS.

1. M. Abdul Ghani (of Nowshera) . . . . C/o Syed Jafar Shah, Regimental Munshi, 1st Yorkshire Regiment, Barian Camp, Murree.
2. M. S. C. Bagchi . . . . Munshi, Lawrence European School, Ghoragali, P. O. Murree Hills.

NAINI TAL.

1. M. Faqir Ulla . . . . St. Joseph's College, Naini Tal.

NASIRABAD.

1. M. M. C. Saihgal . . . . Regimental Munshi, 2nd The Queen's Own West Kent Regiment, Nasirabad.

NOWSHERA.

1. M. Muhammad Din . . . . Pay Havildar and Head Clerk, 23rd Peshawar Mountain Battery (F. F.).
2. M. Ghulam Jilani . . . . R. A. Munshi, Sadar Bazar, Nowshera.

PATNA.

1. M. S. Fasihuddin Balkhi . . . . . . Bakhshi Muhalla, Patna City.

PESHAWAR.

1. M. Bodh Raj . . . . Royal Sussex Regiment (or Sadar Bazar), Peshawar.

SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE, CINCHONA FEBRIFUGE, RESIDUAL ALKALOID AND QUINOIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona alkaloids. Quinine can be purchased by Government officers, District and Local Boards. It can also be purchased by Missionaries for *bonâ-fide* public purposes. Otherwise it is not sold to private persons or firms. Cinchonidine is for sale to Government officers and to dealers. Cinchona Febrifuge can be purchased both in powder and 3½ grain tablet forms by Government officers and the general public. It is also sold by the principal Druggists in Calcutta. Quinoidine or *Pure amorphous alkaloid* and Residual Alkaloid or *Amorphous cinchona alkaloid*, which contains about 40 per cent. of *pure amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance, but private purchasers may use the V. P. Post system, and are obtainable from the Superintendent, Juvenile Jail, Alipore.*

The rates for these drugs from 1st April 1914 are as follows:—

SULPHATE OF QUININE.

	Rs
For quantities of not less than 6 lbs. in one delivery	13 per lb.
For any quantity less than 6 lbs. in one delivery	15 ,,

SULPHATE OF CINCHONIDINE.

	Rs
For quantities of not less than 6 lbs. in one delivery	12 per lb.
For any quantity less than 6 lbs. in one delivery	14 ,,

CINCHONA FEBRIFUGE.

	Rs
For quantities of not less than 6 lbs. in one delivery	5 per lb.
For any quantity less than 6 lbs. in one delivery	6 ,,

RESIDUAL ALKALOID OR *AMORPHOUS CINCHONA ALKALOID* AND QUINOIDINE OR *PURE AMORPHOUS ALKALOID*.

	Rs
For any quantity	4 per lb.

Quinine is available in 1-oz., ¼-lb., ½-lb., 1-lb. and 4-lb. tins.
Cinchonidine is available in ¼-lb., ½-lb. and 1-lb. tins.
Cinchona Febrifuge is available in ¼-lb., ½-lb. and 1-lb. tins.
Residual Alkaloid is available in 10-lb., 5-lb. and 1-lb. tins
Quinoidine is available in 10-lb. and 1-lb. tins.

Transit charges are in addition to the above prices in every case.

Drugs are sold strictly cash and in advance. Price of Postage must accompany the price of the drug (when the drug is required by Post). No charges are made when drugs are sent by Rail. The name of the Railway Station, Steamer or Post Office must be written distinctly when the parcels are required by Rail, Steamer or by Post. A scale of Postage is given below:—

For ¼ and ½ lb. 4 As.; 1 lb. 6 As.; 2 lbs. 10 As.; 3 lbs. 12 As.; 4 lbs. 1 Re.; 5 lbs. Re. 1 As. 4; and for 6 lbs. Re. 1 As. 8.

EXAMINATION QUALIFYING FOR ADMISSION TO THE FOURTH GRADE OF THE ACCOUNTS BRANCH OF THE PUBLIC WORKS DEPARTMENT.

The examination will be conducted by the Principal of the Civil Engineering College, Sibpur, on June 7th and 8th, 1915, at the following centres :—

Centres.	*Registering officer.*
(1) The Civil Engineering College, Sibpur. (There is no other centre at Calcutta.)	For candidates registered by the Accountant-General, Bengal.
	For candidates registered by the Post and Telegraphs.
	The Examiner of Accounts, Eastern Bengal State Railway.
	The Government Examiner of Accounts, East Indian Railway.
	The Government Examiner of Accounts, Bengal-Nagpur Railway.
